passage way so left and keep it strictly clean. Futher if this petition is granted I will not appear before the Municipal Council asking for any other grants for the construction of this Hospital.

In conclusion I would call attention to the good work being done by this medical relief, no less than 43,000 new and old patients being treated last year (1893) by the medical charity under the Mission in Madura.

To

Robert Fischer Esquire,
CHAIRMAN,
MUNICIPAL COUNCIL,
MADURA.

Sir,

I have the honor to say that it is contemplated by the American Mission of Madura to erect a new Hospital in this town. The little old dispensary building which was erected a number of years ago has been completely outgrown by the work; and so many patients are now resorting here for treatment that accommodations for them are quite unsatisfactory. To erect this new Hospital on the Mission compound is objectionable on Sanitary Grounds, and the one available spot near at hand (see sketch accompanying) is somewhat too small, and your petitioner begs that you may give your sanction to the occupancy of 12½ feet of this lane (see sketch) for the proposed new Hospital.

It may here be stated that this lane is now and has been for years used largely as a latrine; court witnesses and other persons having business in the several courts near by making it a regular resort and that it is in a disreputable condition. Further that this lane is used for the passing of bandies most infrequently; its chief use being by those going on foot. The lane is 16½ feet wide and if a passage way of 4 feet is left and this kept clean it will be more desirable than the present foul place. If my prayer is granted namely that 12½ feet of the lane be turned over to the American Madura Mission for the use of a hospital, I promise to pave the

Sir,

In Submitting herewith copy of resolution No 193 of the Municipal Council under date 8th December 1894 deciding to handover to the American Mission a portion of a public lane for the purpose of constructing a new hospital thereon, I have the honor to request that Government will be pleased to Sanction the grant. As it is not likely that any inconvenience will be caused to the public

public since they have at all times a right of pathway over a portion of the lane (though not to its full breadth) and as the purpose for which the land is required is only for a public institution which is of great service to the community at large and, as the Council was unanimous in its decision, I beg that the Government will be good enough to treat this as a special case, and confirm the above resolution of the Council. The only objections that can possibly be taken against the proposal is that the carts cannot go throughout, but having regard to the fact that the lane is not much frequented by carts and to the fact that there are other pathways at no great distance leading to the East Veli Veethi (Vide Sketch) no hardship is likely to be experienced on that score. Application of Doctor Van Allen is enclosed.

This is not shown in the Sketch.
