CURRENT No. 392 M

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper:—

From the Director of Public Instruction,
Madras, dated 12th December 1894 N^o 12105.

With reference to G. O. educational,
N^o 627, dated 22nd August last, I have
the honour to submit the enclosed letters
from the Principal, Rajahmundry College,
and the Chairman, Municipal Council,
Rajahmundry, dated 9th October and 16th ultimo
respectively.

2. The Municipal Council, Rajahmundry,
still urges the necessity for the establish-
ment of a Lower Secondary School in the
old Town, and, if permitted, is prepared to
open it on the 1st January next. But
Mr. Maitland apprehends that a Municipal
school in the old Town school building will
not thrive, as it is situated in a very insan-
itary and somewhat disrespectful neighbour-
hood. He also states that the distance between
Innespettah and the old Town is only about

400 yards and not two miles.

3. Experience has shown that Rajahmundry is full of faction and that the unsatisfactory condition of secondary education in the District has all along been the result of unhealthy rivalry and competition. It is, therefore, indispensable that the Middle school should be under efficient management. However, the Municipal Council may, for the present, be allowed to start the school early next year as an experimental measure for two years. The Town school building together with all furniture, apparatus and appliances belonging to it have in this case to be transferred to the Council.

4. It will be seen from Mr. Metcalf's letter that in anticipation of the sanction of Government all the fee receipts of the Town school have been credited to Government, while the cost of the additional staff, including rent, has had to be met from the Union School Committee's funds. The Committee's funds have to be made over to Government ^{Government as soon as the transfer deed is prepared by the} Solicitor and if sanctioned be accorded for the disbursement from Provincial funds of the charges incurred on the Town Middle school up to the date of its transfer to the Municipal Council, the necessary adjustments will be

3
be made in the accounts before the close of the current year.

From the same officer dated 12th December 1894 N^o 12106.

In its order N^o 575 W dated 18th February 1892 Government sanctioned an estimate amounting to Rs. 21,000 for constructing a Normal and Union School Rajahmundry, but the proposal fell through on the transfer of the Normal school to the Department. The Union school has also been since taken over by Government and constituted the Practising branch of the Training College.

2. With reference to G.O. N^o 892 Educational, dated 22nd September 1893, I have the honor to submit for sanction plans, with estimates amounting to Rs. 15,600 for the accommodation required for the Training Section of the Rajahmundry College. The Government Solicitor has been requested to prepare a formal deed of conveyance of the Union School site and funds to Government.

3. This work is included in the list of works submitted with this office letter N^o 6920 dated 14th September last. As the College is in urgent need of proper accommodation I beg to propose that this work may be classed under

A works and that an allotment of Rs. 10000 already applied for may be sanctioned for expenditure during 1895-96.

Order 2nd February 1895 No. 89.

The Government approves the Director's proposal that the Municipal Council should be allowed as an experimental measure to open a Lower Secondary School for two years. The transfer to the Council of the old Town School building together with its furniture apparatus and appliances will accordingly be permitted on the condition that they shall be stored to Government if the Council ceases to maintain a Lower Secondary School in the building.

This order includes the amalgamation here-
with of the existing
Hindu & Mahomedan
primary schools.
(Papers 60 & 61 of
P.O. 5000 of
23rd Feb 95)

2. As recommended by the Director sanction will be accorded for the disbursement from Provincial funds of the charges incurred on the Town School up to the date of the transfer to the Municipal Council.

3. The estimate now submitted by the Director provides for the extension of the original Normal and Union School the construction of which was sanctioned in G.O. No. 515 W. dated 18th February 1892 so as to adapt the building suitable for the accommodation of the Training College. The first proposal involved an expenditure

of Rs. 21,000 from Local funds. The Normal School having been transferred to the Educational Department the charges will fall upon Provincial funds and as the extension now proposed is to cost Rs. 15,600 the total sum required is Rs. 36,600.

4. Before sanctioning so large an expenditure the Government desires to be satisfied as to its absolute necessity. At present it has no information as to the strength of the Training College and the Upper Secondary and other classes to be housed in the combined institution. Nor is it possible to form a reliable opinion as to the probable permanence of the institution. It is by no means unlikely that the experimental measure sanctioned in the first paragraph of this order may have the effect of leaving the Training College without proper practising classes especially as the Director now reports that the distance between Innespeta and the Old Town is only about 400 yards and not two miles as was previously stated. Moreover Mr. Metcalfe speaks of the practising classes as being more well housed under one roof. These considerations render it doubtful whether Government would be justified in sanctioning for the present at least the large expenditure proposed. The Director will accordingly be requested

to report further on the subject, with
special reference to the remarks made
above; his report should be accompanied
by a map drawn to scale showing the relative
positions of the various school buildings
and the site on which it is proposed to
erect the new training College.
