Para 37. C. Read G. O. No 2021 M. dated 22nd
December 1894 recording with re-
marks Sanitary Commissioner's
inspection notes on the Trichinopoly
Municipality.

* * * The Surgeon General in-
-timated to the Council that a Health
officer could not be obtained for
any thing less than Rs 75-0-0. As

already the amount of proposed expenditure in the Budget had been swollen to a considerable figure by the inclusion of a new lying-in hospital with a decently paid matron attached to it & the Council hesitated to include this item of additional expenditure also in the Budget.

In case the proposal to have a matron does not recommend itself to the approval of Government, the services of a Health officer may be given to the Municipality instead. Even this proposal is submitted with reluctance as the Council in pursuance of instructions from the Sanitary Commissioner about improving Registration of Vital Statistics (as approved in G. O. No 1949/Ms dated 14th December 1894) has already undertaken to work a system which involves extra expenditure.

The entertainment of new hands for improving Registration

of Vital Statistics is intended to be a temporary measure only as recommended by the Sanitary Commissioner himself; and when that system has served its purpose and is required no more the Health officer's appointment may be favorably considered.

(Signed) S. J. Kungaswami
Chairman
