Barrister at Law

President District Board

Tennevelly

To,

The Chief Secretary to Government

Fort Saint George

Thro' The Superintending Engineer

6th Circle

Tiruchinopoly

For,

The establishments of the District Board
and the Local Fund account and audit
branches, as well as the Tennevelly Taluk
Board are accommodated in the Collector's
Cutcherry. The former establishments
consisting of 13 officials occupy with

their writing desks and chairs an area of 875 square feet in the room of the English correspondence department and the latter a small room in another part of the office. The records stationery and the stock of printed forms secured in almshouses are also kept by the side of the clerks and accountants. The space available being inadequate, the establishments are much inconvenienced. No other buildings are available for rent in the neighbourhood. The District Board Engineer's office located in a building engaged at an annual rent of Rs 300 is at Palamcottah two miles distant from the District Board office and the Huzur treasury, while the Tennevally range

supervisor and Overseer hold their offices in their houses

The District and Taluk Boards meetings are held in the Collector's room which is also used by the Inspecting officers of the Local Fund accounts.

2. In view of averting these inconveniences the District Board have in their resolution no 4 dated 26th November 1894 (Copy enclosed) sanctioned an estimate of Rs 24,900 and a plan for the construction of an office building in the Huzur catchery compound and have provided in the revised estimate of 1894-95 a sum of Rs 4,000 for the commencement of the work besides Rs 10,000 in the budget for 1895-96

I have accordingly the honor to request
that Government may be pleased to
accord their sanction to the enclosed
plans and estimate.

I have the honor to be

Sir,

Your Most Obedient Servant

Bannatyne Mackintosh
President

Office of the
Secretary to the
Government of the
Province of Ontario

19TH FEBRUARY 1895, No. 418 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From W. HUGHES, Esq., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 19th January 1895, No. 856 T.N.

I have the honour to forward herewith a letter No. 553 of 1894, dated 30th November 1894, from the President of the District Board, Tinnevely, addressed to the Chief Secretary to Government, together with its accompaniments.

2. The estimate of Rs. 24,900 therewith received for constructing a building at Kokarkulam to accommodate the Local Fund offices in the Tinnevely district has been approved by the District Board in their Resolution No. 4, dated 26th November 1894.

3. The amount of the estimate has been reduced by Rs. 2,000 (from Rs. 24,900 to Rs. 22,900) in this office by reducing the scantlings of the joists over beams of main rooms of the upper and lower stories as noted below :—

	From	To
Joists	{ 4" x 11"	3" x 6" for lower story.
	{ 4" x 11"	3" x 5" for upper story.

4. There are some points which require reconsideration when the work is put in hand—

(1) Rough stone in mortar as commonly built in Tinnevely is far inferior to brickwork for sustaining weight, and it would therefore be probably advisable to use brickwork for the footings. This could be done at little, if any, excess cost since the width of the footings might be reduced.

(2) It would probably be better to use rolled iron beams for the main rooms. None but the best timber would be suitable and it is often difficult to get this of the large scantlings required at a moderate price.

5. With the above remarks the estimate is recommended for sanction.

Note by the Chief Engineer, Public Works Department.

The foundations are proposed to be laid partly of concrete and partly of rough stone in surki. The undersigned considers that they should be of concrete throughout to ground level and two feet broader than the masonry immediately above.

2. For reasons stated by the Superintending Engineer it is considered that rolled iron beams are preferable to the timber ones proposed for the main rooms.

3. The estimate, as particularized below, has been increased to Rs. 24,000 with reference to the above remarks and is recommended for sanction :—

As estimated by the District Board Engineer	...	...	RS.
Reduction by the Superintending Engineer on account of joists	...	...	24,900
			2,000
Add difference between rolled and wooden beams (vide details accompanying estimate)	...	...	22,900
Substitution of concrete to ground level for masonry	...	...	800
			300
Total	...	...	24,000

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.

ORDER—dated 19th February 1895, No. 418 W., Public Works.

The estimate, amounting to Rs. 24,000 as altered by the Chief Engineer, Public Works Department, for constructing a Local Fund office at Kokarkulam, Tinnevely, is sanctioned.

2. Attention is drawn to the Chief Engineer's note recorded above.

3. This sanction has been registered as Local No. 20 W. of 1894-95.
