to the Slaughter house, the Council should
be required to consult the Sanitary Board
as to the plan to be pursued. Unless
Punga Row's tank be in danger, the
attachment of \$660 might be diverted
for the Slaughter house. Rather than
make the style of latrine that can
be built for \$200, the Council had
better use a simple enclosure
of lathes, and spend the balance
upon night-soil convenience buckets,
as advised in the last Especkin
Report on the Town by the Deputy
Sanitary Commissioner.

SIR,

I have the honor to state that in its budget for 1895-96, the Municipal Council of Ongole proposes an expenditure of 23.6 percent of estimated receipts upon sewerage. The additions suggested to the existing sewerage staff have my approval but the proposal to do away with the mistry employed to supervise the private latrine holes, and to entrust this work to the Sanitary Inspector does not commend itself to me.

2. Under Grant I, the construction of a slaughter house and a latrine, estimated to cost Rs 300 and Rs 200 respectively, is budgeted for. It seems to me unlikely that the amount provided is sufficient for either item. Before proceeding to expenditure
