SIR,

In returning Government endorsement, No. 216, dated, 19th February 1895, I have the honour to recommend that, as the Municipal Middle School, Ellore, has been opened and financial responsibilities have been incurred by the municipality, it be allowed to continue during the current calendar year. The question of its further continuance may be considered in December next by which time the necessity of the institution as judged by its numerical strength and its financial position can be fully ascertained.

2. I may here remark that the Council need not have been in such haste to open the school the

GOVERNMENT OF MADRAS

Requesting to direct

arrangements were already

5. It is hardly necessary for me to state here that in the circumstances stated and under the conditions on which the school was opened, it is almost impossible to close the school without incurring heavy responsibilities and much loss of money.

6. There is now as was the case at the time when sanction for Municipal school was sought, only one middle school recognised to impart education to the school-going population in the whole town. The so called Hindu school which exists only in name could neither receive boys nor send them for Lower Secondary Examination as it was not recognised on the grounds already stated.

7. As has already been shown by the Municipal Chairman and approved of by the Director of Public Instruction, the necessity for opening a second middle school was already admitted by the Government and as there is no other middle school subsequently opened or recognised the necessity still continues.

8. I request, therefore, that the Government would be pleased on the grounds stated to permit the school to continue as per G. O. nos. 278 M & 1283 M Dirs of 2-3-96 and 18th Sept. 1896 as it has been in existence for the last 2 months and as its discontinuance will cause disappointment to the people and disturbance to the engagements already made.

I have the honor to be
Your most obedient servant
Chairman

Second teacher on Rs 25 for 6 months and a peon on Rs 5 for 2 years.

3. The school on the conditions stated above, and under limitations specified in G. O. was nominally opened on the 9th November 96 by the Headmaster and the work in school commenced regularly from 19th November 1896. The number of boys in the school was 34 before the close of that month. But for the fact that the time of opening the school was about the end of the year, close on Christmas holidays and not at the beginning of the 1st or 2nd term, the school would have been still more prosperous. The Class books, the school maps and the stationery were purchased to the value of Rs 130 on 9th & 11th December 1896.

4. In submitting the proposition statement in the prescribed form these details were not communicated simply on the ground that it was not necessary to do so. I venture to think that if the Inspector of Schools and the Director of Public Instruction were aware of the opening of the school under the said conditions and engagements and of the number of boys on the rolls, they would not have entertained any doubts as to the prosperity and progress of the Municipal Middle school.
