at Rs 10 each are to be erected. This is not an economical course. The Municipal Council should be directed to set aside annually a fixed sum for the construction of at least three latrines of the standard design, till the prescribed proportion of 1 for every 1,000 of the population is reached. The improvements suggested in the last inspection notes on the town & the slaughter-house and markets do not appear to have engaged attention, nor has the Council paid any heed to the advice given for improving the present polluted water-supply. In response to G.O. dated 31st Mar 1894 H. No. 416, M., para 4(4) the Municipality declined to unite with that of Mannargudi in securing plant for tube wells, and, without the approval of any Sanitary Officer, sank an ordinary shallow well. The Distt Sanitary Officer reports that by reason of its position the Municipality might as well have dug a cess-pool. The policy pursued by the Municipality seems to me not the best in the interests of either sanitation or true economy.

CURRENT No. 978

From

Surg^l Lt Col W. G. King, M.B., Ch., D.M.,
Ag Sanitary Commissioner for Madras,
Secy (Genl Sanitation Dept) San'y Board.

To

The Chief Secretary to Govt,
Local & Muml Dept.

Sir,

I have the honor to state that the Muml Council, Mayavaram, has, in its Budget for 1895-96, allotted Rs 330 and Rs 6830 for expenditure on Vaccination and Conservancy respectively. The vaccinal grant is the same as that for the current year, while that for the latter object is in advance by Rs 510, and is about a fifth of the estimated receipts. The additions proposed in para 47 of the budget letter to the existing conservancy staff, have my approval.

2. Under Grant I, no work of any importance from a Sanitary point of view is proposed for execution. Ten tatti latrines at
