26TH APRIL 1895, No. 726 L., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E., Sanitary Engineer to Government, to the Chief Secretary to Government, dated Fort St. George, 15th March 1895, No. 662.

With reference to G.O., dated 16th February 1895, Mis. No. 298 L., Local and Municipal, I have the honour to submit herewith proceedings of the Sanitary Board on the subject of plans of markets being referred to the Sanitary Board for approval.

ENCLOSURE.

PROCEEDINGS of the Sanitary Board, dated 15th March 1895, No. 661.

Read G.O., dated 16th February 1895, Mis. No. 298 L., Local and Municipal, informing the President, District Board, North Arcot, that the construction of a slaughter-house should be regarded as a work of a sanitary nature, but that plans for markets need not be sent to the Sanitary Engineer.

Resolution.—The Board desires to bring to the notice of Government that it has always been the practice for municipalities and district boards to submit plans and estimates of markets to the Sanitary Board for sanction; this course would appear to be quite as necessary as in the case of slaughter-houses, if not more so, as the arrangements of a market more immediately affect the state of the food-supply of the people than even a slaughter-house. The proper arrangement of the drainage and water-supply, the position, structure and material of the stalls, and especially of latrines, &c., are matters which well fall within the province of the Sanitary Board; and while the Board would be glad to be relieved of such work, it does not consider that it would be doing its duty in relation to public health, if it did not endeavour to obtain from Government a reconsideration of the decision in the Government Order above referred to.

(Signed) J. A. JONES,
Joint Secretary, Sanitary Board.

To the Chief Secretary to Government, Local and Municipal Department.

ORDER—dated 26th April 1895, No. 726 L., Local and Municipal.

In view of the arguments adduced by the Sanitary Engineer, G.O., dated 16th February 1895, No. 298 L., will be modified so as to include market buildings under the head of sanitary works, the plans for which require his sanction.

2. The Sanitary Engineer should bear in mind that the so-called local fund markets, as distinguished from municipal markets, usually consist of a mere series of sheds designed only to provide shelter from sun and rain, and that as regards such, strict conformity to sanitary principles cannot be expected.

(True Extract.)

Subject

Submitting the proceedings
of the Sanitary Board on the subject
of plans of markets being referred
to the Sanitary Board for approval.

(For orders)

For orders

4m

It is submitted that the remarks
of the Sanitary Board deserve consideration.

The question was raised in
G.O. 298-L. by the President of
16-2-95

a District Board, & it was on the
consideration that local fund markets-buildings
usually consist of a mere series of
sheds designed only to provide
shelter from rain & sun that it
was suggested that plans and estimates
for them need not go to the Sanitary
Engineer. Municipal markets are

more elaborate, on occasion, & have
water laid on, & stalls for fish &
meat. In the ordinary local fund
market vegetables, grain, etc. are usually
the main commodities. The San.

Engineer says that it "has always been
the practice" for Municipalities and
District Boards to send plans of
markets to the Sanitary Board for
sanction, but apparently markets
have never been definitely declared
to be or not to be, "sanitary
works." Orders are solicited.

It would perhaps after all be
safer to include markets with
sanitary works and modify.

Proceedings of the Sanitary Board No 661
dated 15th March 1895

Read by O. dated 16th February 1895.

No 298 L. Ins., Local & Municipal. informing
the President, District Board, Madras, that the construction of a new
Resolution. house should be regarded as a work of a Sanitary nature.
but that plans for markets need not be sent to the Sanitary
Board.

The Board desires to bring to
the notice of Government that it has
always been the practice for Municipalities
& District Boards to submit plans &
estimates of markets to the Sanitary Board
for sanction; this course would appear
to be quite as necessary as in the case
of slaughter houses if not more so, as
the arrangements of a market more
immediately affect the state of the
food supply of the people than even a
slaughter house. The proper arrange-
ment of the drainage & water-supply,
the position, structure & material of
the stalls, and especially of latrines etc,
are matters which well fall within

the

the province of the Sanitary Board; and while the Board would be glad to be relieved of such work, it does not consider that it would be doing its duty in relation to public health if it did not endeavour to obtain from Government a reconsideration of the decision in the G. O. above referred to.
