It will take some
day or eight months before
the book can be out of the
press & I suppose by that
time the act will have passed
into law - I will take care
to see that any references
made are so in regard
to the revised act.

This is a good time
to get the printing done
as the press is not so

busy as it is in the latter
part of the year

NOTE FOR THE CHIEF SECRETARY.

April 29th 1895

My dear Sir,

Re H. M.'s note within - a copy of Mr. Jones's Manual is submitted. The references to the District Municipalities act are few and far between and it certainly does not seem worth while to postpone the issue of the book on account of the amendment. Mr. Jones is no doubt aware that the act is being amended and if notes are necessary will add them. I submitted that the G.O. may be issued if it passed into law issue as it stands.

Disposed of by D.O. of 29.4.95

29.4.95

Government has sanctioned the printing and publishing on the terms mentioned in your official letter N: 623 dated 13th ultimo of your revised Manual on sanitation. I have merely glanced at the existing manual and I am ashamed to say am not at all familiar with its contents so I am not in a position to form any opinion as to how far the bill to amend act IV of 1884 would affect the contents of the book. As far as I can see there is nothing but you would of course know. If there is nothing the work of publishing the revised edition could go on at once, but if there is anything in the bill which might necessitate alteration I would suggest for your consideration the advisability of holding over bringing out the book until the bill has been finally dealt with by

by the Legislative Council.
Yours Sincerely
(Ed) T. F. Price.

SIR,

I have the honor to inform you that the edition of the Manual for Municipal and District Boards which was published at the Government Press in 1888 (vide G.O., dated 10th August 1888, No 890 M., Local and Municipal) was quickly sold out and of late years I have had numerous applications for copies of the same from public bodies and private persons which I have been unable to furnish. The Manual has been made a text book for certain University Examinations and is in use at the Medical College.

of an improved and enlarged edition and the progress made now warrants me in coming to Government and asking that I may be allowed to have the work printed at the Government Press, the diagrams prepared at the Survey Office, ~~and~~ the edition remaining the property of Government until the cost of the publication has been recouped to Government: these were the terms which Government were good enough to grant on the previous occasion.

3. No work of reference of a similar class has been published which meets the wants of those engaged in connection with Local and Municipal Works in India and even in this department the work has been of much use as being a compilation affording ready information in regard to the daily work of the department.

Inquire with the draft G.O.

I have not seen the Manual, but
if it deals with sections of the Manual
Act & the Sanitary duties of Municipal
Authorities, Mr. J. will do well, I
think say, to wait until the Manual
Act is amended & then make
his new edition fit in with the
the amended Act
