SIR,

Adverting to the Budget Estimate of the Nellore District Board for 1895-96, I have the honour to state that the provision therein made for Vaccination is sufficient and calls for no remarks. For sanitation, Rs 12,100 or $1\frac{1}{2}$ pice per head of population are allotted. Apparently, the principle pursued has been to provide in the first place for all demands, and then think of the requirements of sanitation. when it is not difficult to understand that urgent sanitary reforms cannot be attended to "owing to want of funds" The data placed at my disposal do not permit my having any idea of how far provision has been made for sanitary works under Grant I, nor generally as to what the urgent demands upon the Board were, which have thus left the cause of sanitation

sanitation represented by the small allotment of 4 per cent of the total available income. But, as a sample of the method of the discrimination with which funds have been allotted, I would point out that whilst in a district having a population of 1,42,339 and solely in need of better arrangements for conservancy a total of 6 additional scavengers has been thought sufficient, no hesitation has been felt in sanctioning the upkeep of 9 "lighters" and a sum of Rs 1370 on account of purchase of lamp posts &c. The suggestions of the Deputy Sanitary Commissioner and of the District Sanitary Officer in the vital matter of protection of water supplies in villages have been ignored, on account of "want of funds". I would respectfully advise that the Board be required to devote a larger percentage of their income to sanitary effort in consultation with the District Sanitary Officer.

I have the honor to be, Sir,
Your Most Obedt Servant

W. J. Mung
Surgeon-Lieut Col
Ag. Sanitary Commissioner
Secretary (General Sanitation Deptt)
San. Comm. Board.
