From

H. Clerk Esquire
Executive Engineer

To

The Chairman
Municipal Council

Sir

I have the honor to return herewith
the enclosures to yours No. 1463 G.L. of 5-12-94,
and to inform you that I cannot prepare a
plan and Estimate for the proposed Hospital
without the previous sanction of Government.

2. I would however offer the following
remarks on the Scheme.

3. The first of the rules for the construction
of hospitals, approved by the Sanitary Board
in consultation with the Surgeon General with
the Government of Madras, does not seem to
have been complied with. This is the first
I have heard regarding the selection of
the site and there is no record that the "Local
Authorities" have been consulted. I am not
sure whom he term "Local authorities"
includes but I feel sure that in this case
the opinion of both the Collector and the
Executive Engineer, Military Works Deptt.
should

should have been first obtained.

4. Personally I consider the proposal to locate the hospital on what is practically the only public recreation ground of Vellore is one which never has been accepted. The parade ground has for many years past been used as a cricket ground not only by the European inhabitants, who have spent considerable sums in conserving it as such, but also by a very large number of young members

of the native community. The withdrawal of this open space would seriously interfere with those healthy exercises which go far to render hospitals unnecessary. I believe I am justified in saying that the erection of a hospital on the parade ground would be most unpopular with the majority of all classes of the inhabitants of Vellore.

5. I would further suggest that when the site for the hospital is finally settled the plans should be made by the Sanitary Engineer, who is the officer who assisted to draw up the rules for the construction

Construction of such buildings. I would of course provide him with all the information regarding nature of soil &c to enable him to prepare the designs.

I have &c.

CURRENT No. 114 M

LOCAL AND MUNICIPAL DEPARTMENTS,

FORT ST. GEORGE.

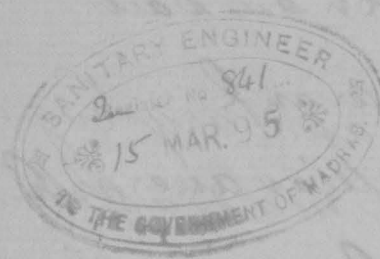

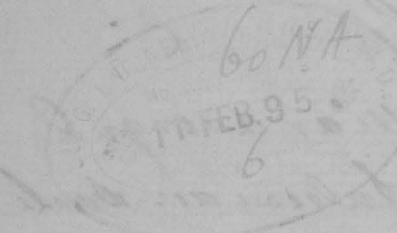

(Through the Divisional Officer.)

Sir,

On the Sanitary Engineer with the Government of Madras being written to for a standard design for a civil hospital for a town containing a population of 45000 inhabitants, he replied that none was as yet approved of, but he promised to send one as soon as the plans to be investigated by a Committee of professional gentlemen had been passed -

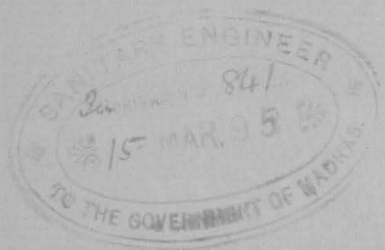

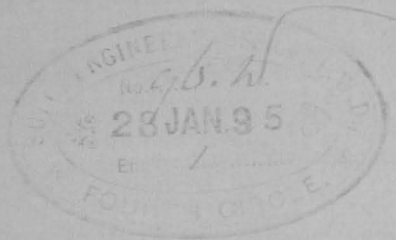

2. The Sanitary Engineer at the same time suggested that a plan should be drawn up on the lines suggested by him - a number of suggestions being sent

3. The Council therefore resolved that the Municipal Overseer should draw up a plan for a new hospital in accordance with the suggestions of the Sanitary Engineer - But this proposal having been strongly vetoed both by the

CURRENT No. 1002 M

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,
SANITARY ENGINEER TO GOVERNMENT,

To

The Chief Secretary to Government
Local and Municipal Department

Sir,

With reference to the endorsement
No 415, dated 15th March 1895, Local and Municipal,
I have the honor to inform you that type draw-
ings for Hospitals according to the rules framed
by the Sanitary Board and the Surgeon General
will shortly be put in hand by the Consulting
Architect to Government and that if the erec-
tion of the hospital is not very urgent the
preparation of the plans might meantime
be delayed. Government can then decide
whether the plans are to be prepared in this
office or not but I would submit that
beyond the preparation of type drawings
for Sanitary works, all plans ought to be
prepared

W. Francis

prepared by the local authorities by their
own officers or if necessary by the Public
Works Department.

I have the honor to be
Sir,
