The humble petition of the undermentioned signatories most respectfully showeth:-

We hear the proposal, of the Council to raise the standard of instruction in the Middle School to that of a High School has not been sanctioned by the Government. If it is true, we desire you will resolve to address the Government for their reconsideration and sanction of the proposal under the following reasons.

2 (a) Some two or three years ago this Middle School, under the mis. management of the then Head masters, having fallen away both in strength and financial circumstances, was reduced to the Middle School of the second grade, that ever since the appointment

of

of the present Head Master, the School has improved in Strength by the addition of boys even from out-stations, and the state of the School is so much improved as to be fit to be raised to the Standard of a High School is well known to you.

b) If the School is not raised to the Standard of a High School, the boys of the out-stations as well as the boys of the School discouraged as they are already, will leave the School to the speedy decay of it, and there is not the slightest doubt that it will revert to its once rotten state.

c) Relying on the resolution passed by the Council to open the High School class, the boys of the School, who have passed the Lower Secondary Examination and of out-stations not only bought books worth nearly Rs6 each, but have also undergone tuition in the class. These boys shall have to buy new books, in case they join other Schools, which they are now compelled to do. Nor is this all. Not only do the boys find lessons taught here to be of no use, but they shall have also to make up their lessons done during these three months, and go on with the class with the new lessons. Thus these boys who had spent these three months here, shall have to

to give up their studies for this year for the above reasons.

d) In addition to this there are many boys whose parents have to defray the expense of the cost of their Education of their sons with great inconvenience and difficulty, and it is an impossibility that such boys should be maintained in out stations at higher cost. And nothing is left open to such boys, but to give up their studies for good.

e) What should be particularly noted by you is, that the withdrawal of a single boy of the Fourth Form of this School necessitates the withdrawal of his brothers, cousins, and his relations &c from the School. And this is another way in which the strength of the School would be decreased.

f) It is our great misfortune that the Government did not consider even the fact that the School will be self-supporting by the addition of more boys.

3 We have given but a few advantages derived by the opening of the Fourth Form, and we shall be enjoying the best fruits, which the Municipality can ever bestow. If you, in addition to the advantages we

we have pointed out, add some more and address the Government for the favourable consideration and sanction of the scheme. Without fearing to trouble the Government with the same subject over and over again, we request you to adopt the proverb "Crying child gets at last" and write to the Government over and over again, till the Government accords its sanction.
