READ—again the following paper :—

G.O., dated 23rd January 1889, No. 178 W., Public Works.

ORDER—dated 20th December 1894, No. 3270 W., Public Works.

Under the provisions of the orders quoted above, a Drawing office, formed from the staff of the old Lithographic Press, was retained as part of the office of the Chief Engineer, Public Works Department, the duties of the draughtsmen being to prepare, on behalf of all departments, enlargements of drawings to be lithographed by the Revenue Survey office. Most of these enlargements are now done in the Revenue Survey office itself, and the work of the Drawing branch of the Chief Engineer's office is practically confined to the drawings of the Public Works Department. Under these circumstances, it is now possible to reduce the establishment from four draughtsmen on Rs. 320 to one draughtsman on Rs. 30, and this reduction will have effect from the 1st April 1895.

2. The one draughtsman retained will be brought on the general establishment of the Chief Engineer and Secretary to Government, Public Works Department, and will be employed exclusively for the work of the Public Works Department. Lithographic work of other departments will be forwarded direct to the Revenue Survey office for execution.

3. Employment can be found in the office of the Chief Engineer for Irrigation for the two draughtsmen on Rs. 100 and Rs. 50 respectively. The one on Rs. 150 will be dispensed with on the usual notice, an application being made on his behalf for the compensation pension to which he is eligible.
