Sir,

With reference to your postcard
No. $\frac{508}{19.2.95}$ to G. O. No. 2646 L dated
20.12.94, I have the honor to report
that 176 schools were rejected in
1893-94 on the score of inelasticity
of the funds of the Taluk Board
to provide for grants to them. The
omission to mention this fact in
the Administration Report was
a mere oversight. 17 of these
schools were subsequently aided
in

in the same year.

Sir,

With reference to your footnote

no 507 to G. O no 26462, I have
19.2.95 20.12.94

the honor to reply as follows:-

2. I may state at the outset that I do not understand the attitude of the Educational Department. They themselves suggested the refusal of aid and they now turn round and accuse us of causing a falling off in education. It is true that their proposals were coupled with the

government, but this in the embarrassed condition of the District Board, I did not consider advisable.

3. The budget allotment was Rs 6000. As the Educational Department give us absolutely no details till about June, of course, we cannot form any estimate. However I intended to devote a considerable part of my reserve to this object. When the lists came up, I explained to the Board that it was impossible to pass them all at full rates and suggested that we should either reject a few and pay at low rates or reject a good many and pay at high rates. I pointed out that the Educational Department had sent one list with the remark that "these schools might be rejected if funds are not available". I further expressed my own opinion that it was better to encourage already existing schools by paying good rates than to attempt to aid a wide spread education

to maintain. The question was one of arithmetic & the Resolution of the Board was as follows:-

"The Board resolves to pass the 'F' & 'G' lists striking off for the present the new schools in accordance with the Assistant Dispectors letter No $\frac{1824}{24.5.93}$. The grants will be paid at $\frac{7}{8}$ rates as payment in full cannot be made for want of funds:- The Assistant Dispector can submit supplemental lists of new schools for such as are most deserving. They will receive the consideration of the Board & will be paid as a special case". ~~The~~ The number of schools rejected was 100.

4. I have answered the points you mentioned in your footnote, but I may be allowed to say that if the grants were supervised a little more carefully and were not scattered broadcast with quite so lavish a hand, a better quality of

work would be very much aided schools and funds would be set free for extending education in the Taluk - a result none will welcome more than I. But as you have already devoted your attention to the subject it is not necessary for me to do more than hint at it. I may say that I have since had an interview with the Inspector and Assistant Inspector of schools and that better results are looked for.

Sir,

With reference to para 2 of G. O. No. 2646 L. dated 20th December 1894 I have the honor to forward herewith copies of reports received from Presidents of Taluk Boards of Berhampore and Goomsur on the question of the heavy decline in the number of schools aided from Local Funds during the year 1893-94.

From these reports it will be seen that under unavoidable circumstances & apparently with the concurrence of the local educational officers aid was refused to so many schools.

one omission to refer to in the District Board's report was due to the fact that I confined myself to the actuals before me & the Taluk Board reports were also silent in the matter.
