Office of the Sanitary Engineer
with the Government of Mysore,
Mysore, dated 11th March 1895.

From,
The Sanitary Engineer
with the Government of Mysore

To,
Surgeon Lieut Col. W. G. King D.P.H.
Sanitary Commissioner, Madras.

Sir,
I have the honor to acknowledge receipt of your N^o P^y of the 31st January 1895, and to express my regret at the delay in replying to it, which is owing to my having been mostly in camp since receipt of your letter.

II I now hasten to do so. In 1871/72 the Savage farms were in charge of the late Mr. Govan and the drain pipes were laid by him. I remember visiting the Farm after it was under drained and finding the pipes answering satisfactorily. The conditions then were probably very different from what they are at present. (I have not seen the Farm for 20 years) The whole surface had then but recently been raised from 11 to 14 ft. by the deposit of street sweepings and the top dressing was a plaster retentive

retentive clay. The surface must now have very considerably settled, perhaps unequally; dislocated the under drains and fallen below the level of the original outlets, which being on the margins, were in more solid soil.

III If sewage farms are to be conducted so as not to affect the health of the neighbourhood they must be under drained and the surface soil made as porous as possible unless indeed the Farm is started on pure sand.

I have &c
Sdy Standish Lee

Sanitary Engineer
with the Government of Mysore.
