tion is enclosed.

of the six main roads leading to this large market (Pollachi), there have toll gates fixed on them, namely the road from Udumalpet, from Anaimalai and from Palghat via Kallar.

"The remaining three main roads which lead to the same large market, have no tolls on them so that while the traffic on three roads pay a tax, the traffic on the other three roads which lead to the same market go free."

"In order that the traffic on the six roads may be treated in the same manner, it is proposed to place toll gates on the three main roads which have at present no toll gates, that is on the Coimbatore to Pollachi road, Polladam to Pollachi road and Samathur to Pollachi."

"The sites for these three new toll gates are shown in the sketch, they fulfil all the conditions prescribed in G.O. dated 9th May 1871 No 609."

"(a) Coimbatore road toll gate. The site will be at a spot 4 miles, 6 furlongs and 100 feet from Pollachi. Its distance to the nearest toll gate, that is the proposed Samathur toll gate will be 9 miles, 4 furlongs and 100 feet. The toll gate will be named the Pudur Toll gate. This gate is 21 miles from Coimbatore."

"(b) Polladam road toll gate: The site will be at a spot 5 miles and 5 furlongs from Pollachi. Its distance to the nearest toll gate, that is the proposed Samathur toll gate will be 10 miles and 3 furlongs. The toll gate will be named the Sheppampatti Toll gate."

"(c) Samathur toll gate: The site for this gate will be at a spot 4 miles and 6 furlongs from Pollachi. The distance to the nearest toll gate that is the proposed Coimbatore road toll gate, will be 9 miles, 4 furlongs and 100 feet. This toll gate will be named the Samathur toll gate."

4. In order that traffic passing through Pollachi shall not be unduly taxed it is proposed to arrange by a system of tickets that no vehicle or animal shall be required to pay toll at more than one of these gates on the same day. It is proposed to levy full rates. -
