Petition presented to the Deputy Tahsildar of Tirupputtur on the 8th January 1896 by Subramanian Chetty son of Veerappa Chetty of Puduvayal — attached to Sakkottah Station.

I am in receipt of your notice directing me to attend your office for the purpose of giving a deposition regarding the land required in the said village of Puduvayal for a burning ground to the east of my new tank lying to the west of the village.

2. On my inspecting the land referred to in the notice, I find that the several houses, built on the lands× adjoining the site where it is proposed to open a burning ground will be affected by the stink caused by the smokes of burning dead bodies which will deter others from building more houses. This will also cause much loss to myself.

×already sold by me

3. Further, the rain water from the land now proposed for the burning ground would empty itself into the tank and thus contaminate the tank water which is now being used for drinking. It would also spoil the water of the Uvani which is the source of drinking water during the summer season. The site is besides close to the road and is injurious to the people frequenting it. It lies to the west and near the habitation, place of worship &c and capable of affecting them by the stink. It is also the waterspread of the tank and belongs to the village punjah. It being damp, the site is objectionable

under the rules laid down in Jone's manual page 84 and is unfit for a burning ground. I am therefore unwilling to part with the land for the burning ground

(Signed) Subramanien Chetty

Statement taken by the Deputy Tahsildar on 10th January 1896.

I have sold lands for house-sites just east to the bund of the old tank lying east of the proposed land at the rate of about 400 or 500 Rs, a ground measuring 32×50 English cubits. These lands were cultivated with wet crops till 3 years ago but have been left waste this year and in the preceding one. It is usually cultivated by percolation, it being the water-spread of the tank
