MUNICIPAL COUNCILLORS' OFFICE,

TRICHINOPOLY 23rd April 1896.

No.

FROM, Mr. P. S. Srinivasan Chettiar, Chairman,

CHAIRMAN,

Municipal Council,

TRICHINOPOLY.

To,

The Chief Secretary to Government,
Local and Municipal Department,

FORT ST. GEORGE.

Through the Collector of Trichinopoly.

SIR,

I have the honor to inform the Government that the Sanitary Board prepares and circulates to the Municipal Councils Standard designs of buildings of a Sanitary nature and that in some cases of these designs, the estimates of materials are also given while it is not the case in others. When I requested the Sanitary Engineer to Government to supply the omission observed in the case of a design for an abattoir, he refused to comply with my request, alleging that his office was overburdened with work.

2 The Council keeps being

to request the Government
to move the Sanitary Engineer
to furnish schedule of quantities
or detailed estimates for all his standard
and designs. The works are of an
highly elaborate and intricate nature
and unless the designs are accom-
panied by such estimates and
specifications, they cannot possibly
be undertaken and finished to
satisfaction by such P.W. Subordinates
as are in the service of the Municipi-
pality. Besides if uniformity is the
object, it will be best secured only
by a standard estimate. It neces-
sary the Council is prepared to contri-
bute towards the cost of any esta-
-blishment which may be found
necessary to do this.

3. A Copy of the Resolution
of the Council is herewith submitted.

I have the honor to be,
Sir,

servant

GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 16 May 1896.

Local & Municipal Dept.
CURRENT No. 1458

From

J A JONES, Esq., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Chief Secretary to Government,

Local and Municipal Department.

SIR,

With reference to Assistant Secretary Mr. Phillips's
endorsement No. 549 of 15th. May 1896, I have the honor to
inform you that the designs issued are essentially type de-
signs.

2. In issuing certain of these designs such as la-
trines, the quantities of the materials are inserted as the
type is likely to be adopted in its entirety but in drawings
such as slaughter houses, it is ordinarily noted that the
design is for a certain population & that it is to be in-
creased or decreased according to circumstances.

3. With regard to the particular plan in question
this note does not appear but the plan nevertheless is sui-
table as it stands only for a particular population.

4. Similarly with wells, no two wells will be sunk to
the same depth & therefore estimates for the type as drawn
would be of little use.

5. The plan referred to by the Chairman is by no
means an intricate one but at his express request he has
been already furnished with an estimate from this office.

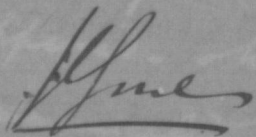

6. I think Government may advisedly leave it to the
Sanitary Engineer to decide which type drawings shall have
estimates framed & supplied with them, on the understanding
that

that for such types, are likely to be adopted as they appear in the design abstract, estimates will be given on the plans.

I have the honor to be

Sir,

Your most obedient servant
