Birth and Death Registers.

Approving, with remarks, the proposals of the Superintendent, Government Press, regarding the supply of bound copies of — to Municipal Councils.

Office-note from R. HILL, Esq., Superintendent, Government Press, to the Chief Secretary to Government, dated Madras, 8th June 1896, No. 868.

With reference to endorsement No. 496, dated 1st May 1896, on letter from the Sanitary Commissioner, Madras, No. 744-S, of the 8th April 1896, herewith returned, the Superintendent, Government Press, submits that, on reference being made to the Sanitary Commissioner, the accompanying revised forms of birth and death registers have been drawn up to the required size of paper, with correct width of columns, &c. The Superintendent proposes to use machine-made double foolscap cream wove, 28 lb. (a sample sheet of which is herewith sent) to meet the wishes of the Sanitary Commissioner as regards the quality of paper, and to bind the registers in half cloth and marble paper, with a printed label on the side. As it is difficult to tell the requirements of the municipalities, he proposes that each book shall have 50 openings or read-across pages, and if more than one book is used for a year, these several books may be bound together to keep them in yearly register volumes for ready reference.

The Chairmen of the several municipalities should be directed to indent direct on the Superintendent, Government Press, for these registers.

ORDER—No. 1048 M., dated 20th June 1896.

The Superintendent's proposals are approved.

2. Chairmen of Municipal Councils should obtain the required number of copies of the bound registers from the Superintendent, Government Press, who will keep a sufficient stock of them in hand, and recover the cost from the councils concerned.
