CHIEF SECRETARY -2 JAN. 1896 GOVERNMENT OF MADRAS

SIR,

I have the honor to invite the attention of the Government of Madras to the necessi which exists for greater energy being shown than is at present the case by the Municipality of Bellary in regard to the Sanitation and general cleanliness of that Station.

ENCLOSURES.

Council
Sir
23.1.96

2. It has been brought to my notice that at Bellary cattle (including cows which supply the garrison with milk) stray everywhere, (1) feed on stable litter in Compounds the fences of which house owners are permitted to leave unrepaired: the proper conservancy of the (2) latrines of native servants is not attended to, although this matter has been frequently complained of: (3) roads are unswept: waterways and culverts seldom clear (4) Country carts are allowed to use all roads through the

Cantonment

Cantonment, instead of being restricted to a few, with the result that an unnecessarily high expenditure is incurred in the repair and (5) maintenance of roads: prickly pear Etc: is allowed to grow unchecked: nullahs are used as (6) latrines: in fact neglect of sanitary measures (7) appears everywhere, although I am informed that this has been more than once the subject of representation to the municipality by the local Military authorities. I personally, at my last visit to Bellary, observed the unkempt and uncared for appearance of the place.

under consideration for some time past a proposal to separate the Cantonment of Bellary from the municipality, but find that difficulties exist as regards the Fort, the Cowle Bazar Etc: and I am also doubtful if the separation could be effected without increase of expenditure.

4. I am therefore not prepared for the present to advocate this measure, but would solicit the aid of the Government of ras in awakening the Municipality to a sense of their duties and responsibilities

responsibilities, such aid having lately proved most effectual in the similar case of the Station of Trichinopoly.

I have the honor to be
Sir,
Your obedient servant.

Sir,

I have the honor to forward herewith the resolutions of the Council passed at the meetings of 1st February 1896 and 21st March 1896 discussing the remarks contained in the letter No $\frac{2353 B}{31.12.95}$ of the Lieutenant General Commanding the Forces, Madras, referred to the Municipal Council by foot note No $\frac{54}{21.1.96}$. The delay in the reply is due to the obtaining of the G.O. Concerning

Concerning the Trichinopoly Municipality alluded to in the concluding portion of the letter of His Excellency the Lieutenant General. The Council, when the subject was brought before it on 1st February/96. resolved that the G.O. should be sent for. The Chairman of Trichinopoly was addressed to and replied he had no spare copy of the G.O. The Government had then to be addressed to and the copy of G.O. was received on 13th March 1896.

The first of the resolutions has reference to the fences for Bungalows. Once before the question had been discussed in Council and it had resolved upon insisting on the owners to fence the Compounds. This resolution had been passed on the suggestion of the Station Staff Officer contained in letter no 879

7

No. 1590m / 1-11-94

2

dated 10/3.94 at a meeting at which [illegible] Councillors were present. One of the Councillors by letter dated 19th July 1894 moved for the reconsideration of the resolution. At a meeting on the 31st July 1894 the subject was fully discussed and the resolution was recommended. On 2nd July last the subject was again brought before the Council. The Resolution of the Council was that the owners should be compelled to maintain fences. Section 176 of the Act is rather vague. It gives the Council power to call on owners to maintain and repair sufficient fences. It is questionable whether the Council could insist on any particular fencing. No doubt under Section 186 (a) it could prohibit prickly-pear but aloe fencing cannot, of Council, be brought under noxious vegetation referred to in the section as it reads at present. A decision of this kind was reached at the meeting of 9th July 1895 and the majority of the Councillors then present [illegible] that the words "or noxious vegetation" should be read along with [illegible] prickly pear [illegible] and construed and mere simply expletives. That this interpretation is to some extent correct is evidenced by the introduction of the word "other" between the words "or and noxious" in the draft Bill of the new Act. The new Act will come in force shortly and I believe the doubt will be cleared by including Aloe in the "other noxious vegetation".

It is submitted that Aloe [illegible] are as unsightly as the prickly pear but less useful as fencing. On this account there has been a delay in the carrying out of the resolution regarding fences. I have however ordered notices to issue to the owners and shall see that the subject is attended to without further unnecessary delay.

2. The reasons that have prompted the Council to pass the resolution concerning rewards to apprehenders of cattle are these. It appears that some years ago rewards used to be granted to persons apprehending cattle and taking them to pounds. There used to be very few stray cattle when that rule was working. Now the apprehenders accept to the cattle

of taking Cattle to the pounds and waiting there with the Pound keepers grant their receipts - all this without any compensation for their trouble. The result is that few think of impounding Cattle [illegible]

3. With reference to the remarks of Their Excellency asking the Council to restrict traffic on roads, the Council consider they have no authority.

4 Prickly-pear.

In November 1895 a resolution No. 6 was passed to remove all prickly pear within the municipal limits. There are lands belonging to municipality, to Government and to private parties overgrown with prickly pear. The Sanitary Inspectors of Brucepettah and Cowl Bazaar have been directed to prepare

4

lists of the lands belonging to municipality and private owners; in any owners whose lands are overgrown with prickly pear. As to Government land the list will be prepared by the Sanitary Inspector Cowl Bazaar. The Permanent Sanitary Inspector is now undergoing training in Madras and as no extra expenditure could be incurred under G.O. 1914 dated 10 Dec/95 a temporary Inspector is looking after the business in addition to his ordinary work. There will therefore be slight delay in the preparation of the lists by him.

As for the prickly pear overgrown on Government lands the Collector wants a sketch of the lands on the same subject & G.O. No. 348 dated 4.3.95 was passed on the representation of the Council that it will be

Extremely difficult to prepare it, insisting on the preparation of the same. The Overseer has been deputed to do this work. He was given the help of the Servants to point out the lands. Both of them represented to me that it was been very hard work and in some cases it is impossible to differentiate between Government and municipal lands. I have however insisted on the overseer to prepare as rough a sketch as possible. So much so that I have threatened to fine him half Rupee every day from the 15th March until he completes the work. He promised to submit the sketch in a few days more. The Sanitary Inspector Cowl Bazar will return after the training by the end of this month after his Examination. I Expect

that [illegible] lists will be ready by the middle of next month. I shall then issue notices and exert my utmost to see that the Prickly Pear is exterminated in the municipal limits. We have this year provided Rs 250 for the clearing of Prickly Pear from municipal grounds and I shall apply for more if necessary.
