[Despatch Abstract.]

Land.

Approving, with remark, the proposal of the Collector of Combarak to resume a portion of the compound of the Municipal High School, Karur.

Forwarded to Bd 7/17/96

"with the Municipal School." Dr. Duncan had recently inspected the school in person. The matter was in correspondence between this office and the Chairman, and the Municipal Council which at first objected strongly to making over any portion of the School Compound, has finally by a Resolution left it to me to make what arrangements seem to me best. A sketch of the School Compound and the buildings therein is forwarded herewith. I propose that only a portion of the land referred to by the Director of Public Instruction should be made over to the Industrial School. I submit a rough sketch in which the measurements of the portion which I propose should be transferred are indicated.

2. The school building with its premises was transferred by the Government to the Municipal Council in the year 1883 - vide Government Order, No. 1436 (Financial), dated 28th June 1884, according to which the building is liable to be retransferred if the school ceases to exist or if the premises are required by Government.

3. I inspected the school Compound lately and its area excluding the portion now proposed to be transferred, I find, is ample for all present and prospective needs of the school. The present buildings can conveniently be enlarged to nearly double their present area, in case the school should so increase that new buildings become necessary.

4. I found the portion proposed to be transferred had only recently been cleared of undergrowth with a view to my inspection and it was little better than a public latrine. Its transfer will, as observed by the Director, in no way interfere with the Municipal Council School.

5. I have, therefore, the honor to recommend that the part of the Compound alluded to at the close of para. 1 supra and which the Municipality does not now use and is unlikely ever to require may be resumed and transferred to the Children's Home for the extension of the Industrial School. There is absolutely no other space in the neighbourhood for this purpose and if the plot alluded to cannot be made over to the school, it will be necessary to divide the latter into two blocks which will have to be some distance apart and will require double supervision.

I have the honor to be,
Sir,

your most obedient servant.

J. Wood
