The Accountant General Madras

Sir

I have the honour to report that the Revenue Officer of the Madras Municipality has applied for 3 months privilege leave from the 1st Proximo, and I beg to state that I have asked for him on two occasions one in the year 1892 and a second time in the succeeding year — In each of the occasions I had no hesitation in recommending the application, as I considered that his services were deserving of such favourable consideration — I have only to add that I have always found him attentive to his duties — I respectfully request that my application may be kindly forwarded with your favourable recommendations and support

No. M., 4TH JUNE 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

5/ READ—the following paper:—

From M.R.B[illegible] V. SIVARAO PANTULU Garu, Chairman, Municipal Council, Chicacole, to the Chief Secretary to Government (through the Principal Assistant Collector, Ganjám), dated Chicacole, 9th May 1896, No. 312.

I have the honour to submit, herewith, the annual report on the administration of the Chicacole Municipality for the year 1895–96, together with the prescribed statements. These were passed by the council at its meeting held on 9th May 1896.

2. The accounts of the year under report have not been as yet audited. The report of the Medical officer has not as yet reached me.

3. The opening balance of the year under report was Rs. 2,967–6–0 which, of course, was the closing balance of 1894–95 as verified by the auditor. The receipts of the year under report were Rs. 26,078–14–11, and that sum, together with the opening balance, amounted to Rs. 29,046–4–11, which are the total receipts of the year. The total charges of the year were Rs. 25,840–1–8, leaving a balance of Rs. 3,206–3–3, which is the opening balance of the current year.

4. The following amounts have been expunged both from receipts and charges, as they were credited and also debited during the year:—

		Rs.	A.	P.
(1)	Tolls contribution	1,700	2	9
(2)	Advances recovered	150	0	0
(3)	Refunds of tax on arts	308	0	0
(4)	Do. of tax on buildings	10	13	0
(5)	Do. of tax on tolls	0	6	9
(6)	Do. tax on animals	1	8	0

Item (1) is the Local Fund share paid to the district board as contribution of tolls. Item (2) is the amount recovered from the supervisor of works who was given the amount in advance to purchase timber for the repairs of the hospital building, &c. Item (3) is the amount refunded to the parties on appeal. Item (4) is the amount refunded to house-owners under section 72 of the Act. Item (5) is the amount remitted to the owners of carts and animals for which tolls were collected inasmuch as some of them were subsequently proved to have been already licensed, and some carts which cannot be called "laden" were proved to have been charged with full tolls. Item (6) is the amount refunded to parties from whom the tax on animals was collected on erroneous demand.

	Rs.
Revised estimate	2,000
Actuals	2,035
Increase ..	35

5. *Tax on Arts and Professions.*—The increase is too trifling to require an explanation. The arrears of Rs. 2 collected during the year is also included in the increase.

	Rs.	A.	P.
Revised estimate	2,600	0	0
Actuals	2,658	4	3
Increase ..	58	4	3

6. *Tax on Buildings.*—The increase is due to several new houses having been assessed during the year.

	Rs.	A.	P.
Revised estimate	570	0	0
Actuals	584	12	0
Increase ..	14	12	0

7. *Tax on Lands.*—The arrears of Rs. 9–5–0 have been collected under this head during the year under report. Deducting this amount there remains a trifling increase of Rs. 5–7–0 which needs no explanation.

	Rs.	A.	P.
Revised estimate	170	0	0
Actuals	181	8	0
Increase ..	11	8	0

8. *Tax on Vehicles with springs and Palanquins.*—In this increase the amount of Rs. 7–8–0 collected as arrears of previous year is included. The remaining sum of Rs. 4 is so small that it needs no explanation.

	Rs.	A.	P.
Revised estimate	1,100	0	0
Actuals	1,185	8	0
Increase ..	85	8	0

9. *Tax on Animals.*—Strictly speaking there is a decrease under this head, as the arrears of Rs. 172–8–0 have been collected in the year under report.

	Rs.	A.	P.
Revised estimate	530	0	0
Actuals	567	0	0
Increase ..	37	0	0

10. *Tax on Carts and other Vehicles without springs.*—The increase is due to more carts having been licensed than anticipated. The increase includes the amount of Rs. 12 collected during the year under report as arrears of previous year.

11. *Tolls.*—The collection of tolls was commenced to be managed departmentally in the year under report after a long time and the council therefore thought it fit rather to underestimate, to be on the safe side. Hence the increase. In fact the actuals are less by Rs. 18–9–6 which was paid by mistake in excess, as the Local Fund share and the excess payment will, of course, be recovered in the current year from the District Board, Ganjám. In this connection it may be said that the rate of tolls was raised from one-half to three-fourths of the maximum as sanctioned by the Government in G.O., No. 102 M., dated 22nd January 1895, reviewing the budget of the Chicacole Municipality for the year under report. It may not be out of place to state that the collection of tolls under departmental management was, on the whole, satisfactory and it was found more profitable.

	Rs.	A.	P.
Revised estimate	5,800	0	0
Actuals	6,036	12	6
Increase ..	236	12	6

12. *Fees under Act II of* 1888.—The sum of Rs. 50 was the amount paid to the municipality as fees for raising a pandal temporarily within the municipal limits by Sangli Dramatic Company under Act II of 1888.

	Rs.	A.	P.
Revised estimate		..	
Actuals	50	0	0
Increase ..	50	0	0

13. *Avenue receipts.*—The decrease is due to the fact that some of the trees that ought to have been disposed of in the year under report were not sold away for want of proper demand.

	Rs.	A.	P.
Revised estimate	20	0	0
Actuals	12	4	0
Decrease ..	7	12	0

14. *Fees from Travellers' Bungalows.*—The amount realised under this head was Rs. 10–9–6 by the time when the revised estimate was submitted, and it was then expected that in the last four months of the year under report at least a sum of Rs. 4 and odd would be realised. But no fee was realised subsequently, as no travellers occupied the chattrum.

	Rs.	A.	P.
Revised estimate	15	0	0
Actuals	10	9	6
Decrease ..	4	6	6

	Rs.	A.	P.
Revised estimate	5	0	0
Actuals	4	15	3
Decrease ..	0	0	9

15. *Produce of Lands and Gardens.*—This amount was realised on account of the sale of produce of some fruit trees especially mango trees belonging to the municipality.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	24	4	6
Decrease ..	15	11	6

16. *Sale-proceeds of empty Oil-cans, Old Materials, Packing Cases, &c.*—Strictly speaking there was no decrease under this head, as the empty oil-cans and packing cases worth Rs. 16 and odd were sold in auction in the latter part of the month of March 1896, but the sale-proceeds were paid by the purchasers in the early part of April 1896.

	Rs.	A.	P.
Revised estimate	30	0	0
Actuals	42	4	6
Increase ..	12	4	6

17. *Sale-proceeds of Night-soil, Street refuse, &c.*—The increase is due to the greater demand for street refuse on the part of the cultivators who were induced to make purchases of sweepings, which were ordered to be carried away to their lands situated within the municipal limits instead of to rubbish depôts.

	Rs.	A.	P.
Revised estimate	6,400	0	0
Actuals	6,722	13	2
Increase ..	322	13	2

18. *Fees from Educational Institutions.*—The increase is due to the admission of a large number of boys in the several schools.

	Rs.	A.	P.
Revised estimate	80	0	0
Actuals	68	0	6
Decrease ..	11	15	6

19. *Other Revenue from Educational Institutions.*—The increase under this head is of a fluctuating nature, as it depends upon the competition at the sales of the articles manufactured by the boys of the carpentry class.

	Rs.	A.	P.
Revised estimate	120	0	0
Actuals	134	0	0
Increase ..	14	0	0

20. *Sale-proceeds and Composition Fees of Medicines.*—The increase is due to the admission of a great number of subscribers who would pay monthly subscriptions at the rate of one rupee, and who in consideration of their subscriptions would be supplied with medicines from the hospital provided they produce a prescription given from a medical officer.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	24	0	0
Decrease ..	16	0	0

21. *Other Hospital Receipts.*—The district board have been paying house-rent to the municipality for their vaccine depôt located in the municipal hospital. A portion of the rent is still due. Hence decrease.

	Rs.	A.	P.
Revised estimate	2,200	0	0
Actuals	2,215	0	0
Increase ..	15	0	0

22. *Income from Markets.*—Owing to want of keen competition at the time of the sales, the right of collecting market fees was sold for Rs. 501 against Rs. 525 in 1894–95. However, the amount realised under this head in the year under report was Rs. 2,215 against Rs. 2,128–12–6 in the previous year as many of the godowns in the market that were left vacant in 1894–95 were occupied in 1895–96.

	Rs.	A.	P.
Revised estimate	300	0	0
Actuals	309	4	9
Increase ..	9	4	9

23. *Income from Slaughter-houses.*—The collection of slaughter fees was managed departmentally during the year under report at the increased rate of fees proposed by the council as mentioned in paragraph 37 of the Chairman's letter

submitting budget estimate of the Chicacole Municipality for the year 1895–96. The increase over the revised estimate is too trifling to require any explanation.

24. *Distrain Fees.*—Only in nine cases, viz., three for tax on arts, one for tax on buildings, and three for tax on animals, two for rents of market godowns, it was found necessary to distrain property. Hence small amount realised under this head.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	3	8	0
Decrease ..	6	8	0

25. *License Fees.*—The decrease can be explained as follows. It was by mistake that the amount of Rs. 50 realised from the dramatic company mentioned in paragraph 12 *supra* was included under this head in the revised estimate and it is now rightly shown under "Fees under Act II of 1888." However, there was an improvement in the year under report over the actuals of the year 1894–95 under this head.

	Rs.	A	P.
Revised estimate	250	0	0
Actuals	205	3	10
Decrease ..	44	12	2

26. *Cart-stand Fees.*—The decrease is due to less number of bandies having resorted to the places set apart for cart-stand purposes.

	Rs.	A.	P.
Revised estimate	400	0	0
Actuals	374	7	3
Decrease ..	25	8	9

27. *Other Fees.*—This amount includes Rs. 4 fees for extracts from death and birth registers and Rs. 3–14–0 vaccination fees recovered under G.O., No. 1502 M., dated 19th October 1894.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	7	14	0
Decrease ..	2	2	0

28. *Fines under Municipal and other Acts.*—As in the year 1894–95, in the year under report a large income was realised under this head. One hundred and forty-five cases were prosecuted under the Towns Nuisances Act, and forty-five cases under the District Municipalities Act.

	Rs.	A.	P.
Revised estimate	200	0	0
Actuals	206	2	9
Increase ..	6	2	9

29. *Grants and Contributions from Government—Education—Municipal Schools.*—A sum of Rs. 817–6–6 was received as salary grant towards the salaries of the headmaster, first assistant, pandit, carpenter and gymnast of the high school. Rs. 23–12–6 was received as grant for books purchased for the library attached to the high school. A sum of Rs. 79 and odd is still due as grants for gymnastic apparatus, science apparatus and library books.

	Rs.	A.	P.
Revised estimate	930	0	0
Actuals	841	3	0
Decrease ..	88	13	0

30. *Miscellaneous* (*a*) (*i*) *Private Scavenging.*—The increase is due to (1) greater number of houses handed over to the municipal management for private scavenging purposes, and (2) to the increased rates of private scavenging fees levied from the house-owners from December 1895. The number of houses served by private scavenging agency was 281 on the 31st March 1896 against 258 on the last day of March 1895.

	Rs.	A.	P.
Revised estimate	470	0	0
Actuals	531	12	0
Increase ..	61	12	0

31. *Miscellaneous* (*a*) (*ii*)—*Other purposes—Cess-pools.*—As explained in paragraph 12 of my report submitting the revised estimates for the year under report the cleansing of cess-pools was managed departmentally. The number of cess-pools that are now under the Municipal agency is thirteen. It may not be out of place to state the manner in which the cess-pool fees are levied from the parties. The dimensions of cess-pools are taken and the gallons of water that a cess-pool contains are calculated at 7½ gallons per cubic foot. Fees at the rate of As. 4 for 55 gallons are levied.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	35	14	0
Decrease ..	4	2	0

32. *Refunds of expenditure of previous year.*—This amount comprises the following refunds. Rs. 34–12–0 was refunded by M.R.Ry. K. Ramaswamy Iyer, the late Second Assistant of the High school, who was trained at the expense of the municipality, for having resigned his appointment before the expiry of the term during which he was bound to serve in the school. Rupee 1 was refunded by one of the teachers sent for training, as he drew his travelling allowance in excess by one rupee.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	35	12	0
Decrease ..	4	4	0

33. The other items show little or no difference and hardly require explanation.

34. *Incidence of Taxation.*—The incidence of taxation per head on the direct taxation and rents is As. 13–1 against As. 10–6 in 1894–95.

35. The total receipts of the year amounted to Rs. 29,046–4–11 and the expenditure during the year was Rs. 25,840–1–8 against Rs. 26,890, the revised estimate figure, leaving a balance of Rs. 3,206–3–3 with which the year under report closed.

36. *Grant I.*—The total expenditure under this grant was Rs. 5,034–2–3 against Rs. 5,800 which was the revised estimate figure.

37. *Grant I* (*b*)—*New Buildings.*—This considerable decrease under this head can be explained as follows. A provision of Rs. 800 was made in the revised estimate for the purpose of constructing a slaughter-house for sheep. A site was first selected by medical officers for the slaughter-house and the site plan, &c., were forwarded to the Sanitary Engineer for approval in accordance with G.O., No. 124 M., dated 22nd January 1890, as modified by G.O., No. 79 L., dated 16th January 1891, but the site was disapproved by the Sanitary Board in their Proceedings, No. 197, dated 22nd January 1896, in which it was stated that the board prepared a new design which was being lithographed but the proofs of which were not due until the 25th February. The new design was received by me in the month of March last when there was hardly time for the construction of the house. Hence decrease. A sum of Rs. 180–1–10 out of a provision of Rs. 190 was spent on the town school building near high school for its completion, as it was left in course of construction when the year under report commenced. Rs. 30–7–0 was spent on enclosing high school verandah, which was commenced to be enclosed in the year 1894–95, but could not be finished in that year. Only Rs. 58–0–8, out of the sum of Rs. 90 allotted for the purpose in 1894–95, was expended up to the close of that year. A sum of Rs. 713–14–4 was expended on dismantling the terraced portion of the hospital building and reconstructing the same. The provision made for this purpose in the revised estimate was exceeded by Rupees 13–14–4 and yet only a portion was reconstructed inasmuch as the old timber expected to be useful before the building was dismantled, proved utterly useless after the demolition of the building and as much as Rs. 387 had to be spent on the purchase of timber for its reconstruction, the timber being very dear now in these parts. For the completion of the reconstruction of the building, a further provision will be

	Rs.	A.	P.
Revised estimate	2,090	0	0
Actuals	1,312	14	10
Decrease ..	777	1	2

applied for later on. Out of the allotment of Rs. 160 made for the purchase of corrugated iron latrines, Rs. 157–9–9 were expended on the purchase of the iron sheets and on the subsequent cost of getting them fitted as two latrines. They have been located in Koteswara street where they were badly required, one for the use of males and the other for females. A sum of Rs. 180–13–11 was spent on having the quarters of the hospital assistant replaced by tiled building. Rs. 20 were expended on the reconstruction of the vaccine shed attached to the hospital. The old shed having required thorough repairs, it was demolished and reconstructed. The town was supplied with sixteen new corrugated iron dust-bins during the year at the cost of Rs. 30.

38. (2) (*a*) *Repairs—Communications.*—The income from tolls after deducting all the expenses incurred on account of the tolls having been managed departmentally, and also the contribution to the local fund board which was reduced from one-half to one-fourth by the Government in their Proceedings, No. 1497 M., Mis., dated 14th September 1895, was Rs. 5,026–2–3. Half of this amount was spent on communications. Almost all the main roads were well repaired and almost all the lanes had their repairs. About Rs. 470 worth of road material is kept in store on the road sides especially in the Palakonda and Chinabazaar roads, where the traffic has been very great, with the view of getting it spread on the roads as soon as the rains set in. A parapet wall was erected at a cost of Rs. 207 on the eastern side of Buna Bunda to prevent carts from falling into it as the road itself forms the eastern bund of the tank as it were. The side walls that were constructed in 1893–94 in continuation of the bridge walls were extended in the year under report to a length of 42 feet at a cost of Rs. 73. Some tunnels were thoroughly repaired at a cost of about Rs. 80. The condition of the roads is on the whole fair, although many streets require complete metalling and gravelling which will be attended to in the current year.

	Rs.	A.	P.
Revised estimate	2,300	0	0
Actuals	2,502	0	9
Increase ..	202	0	9

39. *Repairs—Buildings.*—The toll sheds and Kanki street salary-result school were re-thatched at a cost of Rs. 7–8–2 and Rs. 13–8–7, respectively. Petty repairs of the quarters of the hospital assistant were attended to at a cost of Rs. 2–14–6. The high school and town school buildings were repaired at a cost of Rs. 388–0–6, of which a sum of Rupees 345–4–6 was spent on cut stone flooring of the town school building, the necessity of which was explained in paragraph 18 of my letter giving cover to the revised estimate of the year under report, and the remainder was expended on white-washing, &c., of the high school building. The choultry in the market, which is set apart for the use of travellers, free of rent, has undergone thorough repairs at a cost of Rupees 139–14–9 and it is quite comfortable for travellers. Rs. 29–15–6, Rs. 23–8–0 and Rs. 51–0–0 were spent on the repairs required by tank watchers' and carpentry sheds, salary-result school No. I, and market godowns, respectively.

	Rs.	A.	P.
Revised estimate	700	0	0
Actuals	656	6	0
Decrease ..	43	10	0

40. *Water-supply—Repairs to works, machinery, &c.*—Rs. 33–4–10 were spent on the construction of a cut stone drain to a drinking-water well in Arasavelli and Rs. 3–2–4 on clearing silt from a drinking-water well near Mettu Cheruvoo. All the three tanks in the town reserved for drinking purposes were fed twice during the year with river water at a cost of Rs. 74–14–7. In March last there was but a small quantity of water in them and it was therefore found very desirable to conduct river water to them at that time, so that there may be a good supply of fresh water in the tanks during the hot season of the current year. The river water was then conducted and the tanks are now full affording satisfaction to the rate-payers and travellers.

Decrease ..	19	6	8

41. *Drainage—Repairs to Works.*—The drains in the town do not require petty repairs, but they require thorough levelling, which cannot be taken in hand with a small provision of Rs. 100. Hence the provision was left unutilized.

42. *Water-supply—Establishment.*—A provision of Rs. 110 was made for the sake of round number. The amount actually required was Rs. 108. Hence decrease.

43. *Public Works*—(3) *Establishment.*—For the increase under this head the explanation given in the above paragraph will hold good.

44. *Tools and Plant and other Stores.*—About Rs. 20 worth of tools were found enough for the requirements of the public works in the year, and so a portion of the allotment under this head was left unspent.

45. *Grant II*—(1) *Training Schools*—(*b*) *Stipends to Normal Students.*—This amount was spent as travelling expenses allowed to the gymnast of the high school for his return from Saidapet, where he was sent for training, and to certain school-masters who were sent to Vizagapatam and Rajahmundry for training.

46. *Municipal Schools*—(*i*) *On Salary System*—(*a*) *Establishment.*—The second assistant of the high school having resigned his appointment in February last, the teachers of the lower forms were appointed as teachers of the higher forms temporarily on deputation allowance. The decrease is the saving effected in that arrangement.

47. *High School.*—This institution was considerably strengthened numerically in the year under report on account of the amalgamation of the town school with this school. The efficiency of the staff also was greatly increased inasmuch as the services of an L.T. were secured in the year under report for the first assistant master's post. It is a matter of regret that no L.T. was available for the second assistant master's post in spite of all the attempts made with the view of securing the services of an L.T. for the post. Lately a graduate who was acting as the second assistant resigned his appointment and the vacancy was advertised inviting applications from graduates. A good many applications were accordingly received, but none from a pucka L.T. Of all the applicants one is a graduate holding a second grade collegiate trained teacher's certificate and two others have passed their theoretical branch of L.T. degree examination. I have been communicating with the Inspector of Schools on the subject and one of the three will be appointed shortly. This school will have a Telugu pandit also shortly in addition to the Sanskrit pandit who has been attached to this institution for a long time. In order to secure the services of the best available Telegu pandit, the vacancy was advertised in newspapers and as many as fourteen pandits have sent in their applications. A competitive examination was held for them in the local high school, so that one that obtains highest number of marks

applied for later on. Out of the allotment of Rs. 160 made for the purchase of corrugated iron latrines, Rs. 157–9–9 were expended on the purchase of the iron sheets and on the subsequent cost of getting them fitted as two latrines. They have been located in Koteswara street where they were badly required, one for the use of males and the other for females. A sum of Rs. 180–13–11 was spent on having the quarters of the hospital assistant replaced by tiled building. Rs. 20 were expended on the reconstruction of the vaccine shed attached to the hospital. The old shed having required thorough repairs, it was demolished and reconstructed. The town was supplied with sixteen new corrugated iron dust-bins during the year at the cost of Rs. 30.

38. (2) (*a*) *Repairs—Communications.*—The income from tolls after deducting all the expenses incurred on account of the tolls having been managed departmentally, and also the contribution to the local fund board which was reduced from one-half to one-fourth by the Government in their Proceedings, No. 1497 M., Mis., dated 14th September 1895, was Rs. 5,026–2–3. Half of this amount was spent on communications. Almost all the main roads were well repaired and almost all the lanes had their repairs. About Rs. 470 worth of road material is kept in store on the road sides especially in the Palakonda and Chinabazaar roads, where the traffic has been very great, with the view of getting it spread on the roads as soon as the rains set in. A parapet wall was erected at a cost of Rs. 207 on the eastern side of Buna Bunda to prevent carts from falling into it as the road itself forms the eastern bund of the tank as it were. The side walls that were constructed in 1893–94 in continuation of the bridge walls were extended in the year under report to a length of 42 feet at a cost of Rs. 73. Some tunnels were thoroughly repaired at a cost of about Rs. 80. The condition of the roads is on the whole fair, although many streets require complete metalling and gravelling which will be attended to in the current year.

	Rs.	A.	P.

41. *Drainage—Repairs to Works.*—The drains in the town do not require petty repairs, but they require thorough levelling, which cannot be taken in hand with a small provision of Rs. 100. Hence the provision was left unutilized.

42. *Water-supply—Establishment.*—A provision of Rs. 110 was made for the sake of round number. The amount actually required was Rs. 108. Hence decrease.

43. *Public Works*—(3) *Establishment.*—For the increase under this head the explanation given in the above paragraph will hold good.

44. *Tools and Plant and other Stores.*—About Rs. 20 worth of tools were found enough for the requirements of the public works in the year, and so a portion of the allotment under this head was left unspent.

45. *Grant II*—(1) *Training Schools*—(*b*) *Stipends to Normal Students.*—This amount was spent as travelling expenses allowed to the gymnast of the high school for his return from Saidapet, where he was sent for training, and to certain schoolmasters who were sent to Vizagapatam and Rajahmundry for training.

46. *Municipal Schools*—(*i*) *On Salary System*—(*a*) *Establishment.*—The second assistant of the high school having resigned his appointment in February last, the teachers of the lower forms were appointed as teachers of the higher forms temporarily on deputation allowance. The decrease is the saving effected in that arrangement.

47. *High School.*—This institution was considerably strengthened numerically in the year under report on account of the amalgamation of the town school with this school. The efficiency of the staff also was greatly increased inasmuch as the services of an L.T. were secured in the year under report for the first assistant master's post. It is a matter of regret that no L.T. was available for the second assistant master's post in spite of all the attempts made with the view of securing the services of an L.T. for the post. Lately a graduate who was acting as the second assistant resigned his appointment and the vacancy was advertised inviting applications from graduates. A good many applications were accordingly received, but none from a pucka L.T. Of all the applicants one is a graduate holding a second grade collegiate trained teacher's certificate and two others have passed their theoretical branch of L.T. degree examination. I have been communicating with the Inspector of Schools on the subject and one of the three will be appointed shortly. This school will have a Telugu pandit also shortly in addition to the Sanskrit pandit who has been attached to this institution for a long time. In order to secure the services of the best available Telegu pandit, the vacancy was advertised in newspapers and as many as fourteen pandits have sent in their applications. A competitive examination was held for them in the local high school, so that one that obtains highest number of marks

may be given the appointment. M.R.Ry. Rao Bahadur Kandukuri Veerasalingam Pantulu Garu, Telugu Pandit of the Rajahmundry College, and M.R.Ry. Vavilala Vasudevasastri Garu, B.A., a Professor in the same college, have kindly set papers for the examination on Grammar and Composition and literature in compliance with my request. The answer papers were forwarded to the examiners for valuation. The gymnast of the high school is a trained man. The results of the public examinations are favourable. Out of the eighteen pupils who appeared for the Matriculation examination, seven came out successful. This is far better especially when compared with the results of the last year. The results of the Lower Secondary examination are also satisfactory, inasmuch as five passed the full test out of sixteen. This institution had its first visit of the Director of Public Instruction in the year under report. His review of the inspection notes of this school is very favourable and speaks well of the work of the school. It is highly creditable to the headmaster of the high school as well as to the other teachers. The work of the carpentry class continued to be satisfactory during the year. The net cost of this class to the municipality was Rs. 111-2-5. The school laboratory was provided with chemicals at a cost of Rs. 109-15-0, and its library was provided with new books at a cost of Rs. 109-14-6.

48. *Schools on Salary-result System*—(*a*) *Fixed Payments.*—The decrease is due to two lower primary schools having been started in February instead of in January as originally proposed, owing to the grant inspections having been held in the latter part of January and also to some vacancies having been left unfilled for a temporary period now and then. In the year under report the salary-result school at Arsavilli was abolished and the two lower primary schools were started in the town to enable children to learn English as their compulsory language from the infant standard. Three headmasters and one assistant master that were sent for training in 1894–95, returned in the year under report and joined their appointments. The net cost of these schools to the municipality was Rs. 1,298–8–4.

	Rs.	A.	P.
Revised estimate	1,590	0	0
Actuals	1,548	0	10
Decrease ..	41	15	2

49. (*b*) *Results Grants.*—The increase is due to the full grants earned by the schools having been paid to the teachers at the rates allowed according to their qualifications. Some of them were given grants at higher rates as they obtained teachers' certificates in the year. The rate of grants was the same as in previous year.

	Rs.	A.	P.
Revised estimate	400	0	0
Actuals	512	10	4
Increase ..	112	10	4

50. (*c*) *Contingencies.*—The decrease is due to the savings effected under this head by the purchase of stationery in lump sum at cheap rate and the distribution thereof to several schools.

	Rs.	A.	P.
Revised estimate	140	0	0
Actuals	127	2	1
Decrease ..	12	13	11

51. (4) *Results Grants.*—The decrease is too trifling to require an explanation. The whole amount allowed in the certifying memoranda issued by the Inspecting officers was paid to the managers of the schools concerned.

	Rs.	A.	P.
Revised estimate	300	0	0
Actuals	297	8	6
Decrease ..	2	7	6

52. *Inspection*—(6) (*b*) (*ii*) *Establishment.*—The supervisor of schools obtained a certificate according to the Educational Rules and he is confirmed in his appointment. The decrease is due to round numbers having been adopted in the estimate.

	Rs.	A.	P.

Actuals	120	0	0

54. (7) (*b*) (*i*) *Common Gymnasium—Establishment.*—The system of giving instruction in gymnasium to the boys of the salary-result schools by turns is continuing and is working well.

	Rs.	A.	P.
Revised estimate	20	0	0
Actuals	17	4	0
Decrease ..	2	12	0

55. (7) (*e*) *Other Items.*—This amount was spent on purchasing printing receipt forms, &c., required for all the schools.

56. *Grant III*—(1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—The new feature under this head in the year under report was the entertainment of a female apothecary, a moiety of her salary having been agreed to be paid by the municipal council, and the other half by the District Board, Ganjám. She joined her appointment here in August 1895. She is given a separate room in the hospital to attend to female out-patients and some of the female servants attached to the hospital are placed at her disposal by the medical officer in charge of the hospital. The number of the out-patients attended to by her since she joined her present appointment till the end of the year under report was 3,210 women and 2,919 children. The present hospital assistant, K. Venkatasubbiah, is of the 3rd class with a service of about one year in the Medical department. The work of the midwife attached to the hospital was much more unsatisfactory in the year under report than in the previous year inasmuch as she attended only 66 labour cases against 77 in 1894–95, which were far less than the number of cases she had attended in 1893–94 in which the number was 105. However, nothing could be done in the way of inflicting upon her an adequate punishment for her neglect of duty beyond a fine in accordance with the District Medical and Sanitary Officer's recommendation, owing to the difficulty of securing another midwife in her place. The medical pupil who is undergoing training at the cost of the municipality, went to Madras in October 1895 to join the Medical College.

	Rs.	A.	P.
Revised estimate	1,380	0	0
Actuals	1,370	5	7
Decrease ..	9	10	5

57. *Medicines and Supplies.* — The medicines and surgical appliances obtained from Messrs. Burgoyne Burbidges and Co. and medical stores cost only Rupees 1,726–5–4. The fracture and dislocation apparatus was purchased at a cost of Rs. 200.

	Rs.	A.	P.
Revised estimate	1,800	0	0
Actuals	1,726	5	4
Decrease ..	73	10	8

58. *Diet of Patients.*—The decrease is due to a smaller number of admissions of patients in the hospital during the latter part of the year when the building was under repairs.

	Rs.	A.	P.
Revised estimate	500	0	0
Actuals	309	9	10
Decrease ..	190	6	2

59. *Sundries and Contingencies.*—The excess amount was spent towards the travelling charges of the female apothecary when she assumed charge here, and the house-rent of the hospital assistant.

	Rs.	A.	P.
Revised estimate	420	0	0
Actuals	450	13	0
Increase ..	30	13	0

60. The variations in the items of contributions to Provincial funds for (i) Medical College, (ii) Sanitary Inspection, (iii) Medical reserve staff, and (iv) Cutlers' establishment, are due to the fact that they were paid in accordance with the figures given by the Accountant-General.

61. (3) (*a*) *Vaccination Establishment.*—The first-class vaccinator Vinayaka Votha continued to work during the year and vaccinated 991 cases against 1,198 in 1894–95. However, his work may be characterized as satisfactory inasmuch as he is required to vaccinate only 900 cases in the year.

	Rs.	A.	P.
Revised estimate	180	0	0
Actuals	180	0	0

62. (3) (*b*) *Contingencies.*—The increase is due to the bonus of Rs. 15 given to the vaccinator in the year under report for the efficient work he turned out in the year 1894–95.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	52	1	10
Increase ..	12	1	10

63. *Registration of Births and Deaths—Establishment.*—It is a matter of great regret that no improvement was shown in the registration of vital statistics during the year under report. Eight cases for failure to report births and four cases to report deaths were prosecuted during the year under report. In this connection I may be permitted to bring to the notice of the Government that some of the councillors are of opinion that it is the duty of the registrar to inform himself of every birth and death under section 246 of the Act No. IV of 1884, and it is the duty of the parties under section 247 of the same Act to give information of death and birth, provided they are required by the registrar to give the particulars of death or birth as the case may be. I should differ from them in that opinion and say that it is the duty of the parties to give the information to the registrar without being so required by him inasmuch as it is clearly stated in section 246 that the registrar shall learn and register the particulars required to be registered touching every birth and death *which has not been already registered.* I believe the clause in italics confirms my opinion. The council wishes to be enlightened on the point by a ruling of the Government.

	Rs.	A.	P.
Revised estimate	120	0	0
Actuals	120	0	0

64. (4) (*b*) *Contingencies.* — No amount was spent under this head as there was no necessity to do so.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	0	13	4
Decrease ..	9	2	8

65. (5) (*a*) *Conservancy Establishment.*—The decrease is due (1) to the public latrines which are twelve in number having been distributed among four toties to be conserved, and the services of the fifth toty having in consequence been dispensed with; and (2) to a great portion of the salary of a cartman having been left unspent under this head as a hired cart was used for a long time in the year when a cart was in repairs.

	Rs.	A.	P.
Revised estimate	2,560	0	0
Actuals	2,456	13	7
Decrease ..	103	2	5

66. (*a*) (*ii*) *Other Charges.*—Decrease is so trifling that it needs no explanation. An old conservancy cart was replaced by a new one at a cost of Rs. 36.

	Rs.	A.	P.
Revised estimate	270	0	0
Actuals	264	5	11
Decrease ..	5	10	1

(*b*) (*i*) *Private Scavenging Establishment.*—The pay of the scavengers was increased from Rs. 2–4–0 to Rs. 2–8–0 since December 1895 (*vide* G.O., Mis. No. 255 M., dated 12th February 1896). The rate of fees levied by the municipality was also increased from As. 2 to As. 3 for cleaning a latrine once a day. The number of private scavenging houses on 31st March of the year under report was 281 against 258 on the last day of

	Rs.	A.	P.
Revised estimate	520	0	0
Actuals	535	2	0
Increase ..	15	2	0

1894–95. It is encouraging that there was improvement in this direction in the year under report, and it is very likely that the number will be still further increased in the current year.

67. (*b*) (*ii*) *Contingencies.*—The provision made in the budget with the view of purchasing night-soil carts was repeated in the revised estimate, but on account of the two night-soil carts purchased in the year 1894–95 having been left unused for want of a separate establishment, that provision was left unspent. Sanction of the Government for the entertainment of two persons to drag the carts was lately obtained.

	Rs.	A.	P.
Revised estimate	70	0	0

Revised estimate	30	0	0
Actuals	15	10	4
Decrease ..	14	5	8

75. (*b*) *Contingencies.*—The sum of Rs. 15–10–4 was found sufficient for the purchase of cart-stand tickets.

76. (6) *Public garden* (*b*) *Purchase of seeds, repair of well, purchase of bullock, &c.*—The heap of the earth dug out of the foundations of the new building for the sub-registrar's office was offered gratuitously. The earth was therefore utilised for covering the pits near the well in the garden. The amount was spent on conveying the earth.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	17	10	0
Increase ..	7	10	0

77. (9) *Other charges*—(1) *Work done for Private Individuals other than Private Scavenging.*—A bullock was purchased for Rs. 18 to drag the sewage cart and the rest was spent for establishment charges. The increase is due to the overestimate made in the revised estimate. The present sewage system is not working very satisfactorily on account of only a very few scavengers being available in the town to undertake the task of removing the contents of cess-pools. Even most of the low caste people such as Malas and Rellies, think it a loathsome work and rather prefer private scavenging business to this. From experience it is also found that one cart is insufficient for thirteen cess-pools. The desirability of having another cart will be considered later on, and all possible sorts of trials will be made to make the system work more satisfactorily.

	Rs.	A.	P.
Revised estimate	120	0	0

Actuals	18	7	6
Decrease ..	1	8	6

78. (9) *Other charges*—(ii) *Rewards for destruction of wild animals and snakes.*—The decrease is due to the less number of dogs having been killed.

79. (iii) *Printing, &c.*—The decrease under printing and compensation for lands is very trifling.

80. (v) *Other items.*—Rs. 175–4–0 was spent on law charges in the civil suits filed against the council in the local District Munsifs' court and decreed in favour of the plaintiffs (*vide* paragraph 3 of my covering letter to the revised estimate of the year under report). It was decreed that the council should bear its own costs and pay the costs of the plaintiffs. The costs and the money sought to be recovered were paid to the plaintiffs accordingly. On perusal of the public copies of the judgments in the suits, the council were of opinion that no appeals need be made against the decision of the munsif in the suits.

	Rs.	A.	P.
Revised estimate	30	0	0
Actuals	176	15	0
Increase ..	146	15	0

81. *Grant V.*—There are slight variations under the items (*a*) (i) Office establishment, (ii) Inspection, (*b*) Collection of Municipal taxes, (i) establishment, (*c*) collection of Tolls, Establishment, (*d*) Office contingencies other than (*b*) (ii) (*e*) Contributions for central office and audit establishments, and they require no explanation.

	Rs.	A.	P.
Revised estimate	260	0	0
Actuals	165	6	4
Decrease ..	94	9	8

82. (*c*) (ii) *Contingencies.*—Only Rs. 165–6–4 was found sufficient for the purchase of toll tickets, &c.

83. *Advances recoverable*—(*b*) *Others.*—A sum of Rs. 40–8–0 was given in advance to the headmaster of the high school to enable him to obtain a pair of tin reflectors from England for science teaching.

84. *Refunds of other than current collections.*—Rs. 50 were refunded to the parties in the suits mentioned in paragraph 80 *supra* and the sum of Rs. 2 was refunded to the parties from whom animal tax was erroneously collected in the year 1894–95.

85. *Demand, Collection and Balance Statement.*—The balance that was outstanding at the close of the year 1894–95 was Rs. 301–11–0, of which Rs. 203–7–0 was collected in the year under report, the rest having been written off as irrecoverable. The amount of Rs. 293–3–0 was wrongly shown as the balance in the year 1894–95, instead of Rs. 304–11–0, the former figure having been arrived at by wrong totalling. The total amount of all items of fixed demand in the year under report was Rupees 19,045–9–1, of which a sum of Rs. 315 was remitted by the council on appeals against the assessment of the chairman under several taxes. Out of the balance of Rupees 18,730–9–1, Rs. 18,381–4–4 were collected, Rs. 209–12–3 were remitted under section 72 of the Act and Rs. 133–0–6 was written off as irrecoverable, leaving thus a balance of Rs. 6–8–0 which was since collected.

86. *Coercive process.*—There were 34 warrants involving a sum of Rs. 44–8–0 remaining unexecuted at the end of the year 1894–95. During the year under report 459 warrants, involving a sum of Rs. 696–12–10, were issued. Thus the number of warrants either executed or cancelled during the year under report was 493, involving a sum of Rs. 741–4–10. The number of cancelled warrants on which no collections could be made was twenty, involving a sum of Rs. 31–6–0. The number of warrants on which collections were made before distraint was 464, involving a sum of Rs. 700–1–4. Only in the execution of nine warrants, involving a sum of Rs. 9–13–6, property was distrained. Thus no warrants remained unexecuted at the close of the year under report.

87. Thirty-two meetings were convened during the year under report and none was adjourned for want of quorum. The average attendance of the councillors at the meetings was 9·10 against 9·5 in 1894–95. The office of Chairman was held by Mr. A. Wells, the late Medical officer of this place up to 4th September 1895, when he left the place for Madras on transfer. Soon after, the Divisional officer took charge of the municipality, under section 15 he delegated his powers to me and I was duly elected by the council at their meeting held on the 21st October 1895.

× × × × × × × × × ×

ENCLOSURE.

PROCEEDINGS of the meeting of the Municipal Council, Chicacole, held on the morning of Saturday, the 9th May 1896, in the Municipal office, Chicacole.

* * * * *

Read annual report and statements of the Chicacole Municipality for the year 1895–96.

Resolution.—Passed.

From M.R.Ry. T. V. SIVA RAO, PANTUL Garu, Chairman, Municipal Cuncil, Chicacole, to the Chief Secretary to Government, dated 28th May 1896, No. 336.

In continuation of this office letter, No. 312, dated 9th May 1896, I have the honour to submit the educational statements and the medical officer's report with the following explanations for the variations between the figures in the statements already submitted and those of the accompanying statements.

* * * * *

ENCLOSURE.

ANNUAL Report of the Municipal Hospital, Chicacole, for the year 1895–96.

Public Health.—The health of the public has been very satisfactory during the year under report. The town was free from epidemic though cholera prevailed in two of the villages near Chicacole during the latter part of the year. Every precautionary measures were adopted to keep off the disease from the town. During the rains and in the cold season there were a large number of cases treated under fevers of a mild malarial type.

2. *Vital Statistics.*—The registrar of births and deaths registered 396 births and 476 deaths during the year. Eight cases for failure to register births and four cases for failure to register deaths were prosecuted before the magistrate and all were fined.

3. *Sanitation.*—The sanitation of the town is being improved in every possible way. A very large number of prosecutions for nuisances have been instituted and the offenders have been punished. The sanitary staff consists of one sanitary inspector, four nuisance peons, thirty-eight sweepers, five toties, six conservancy cartmen and two sewage cartmen, and private scavenging staff of one maistry and nineteen toties. The system of private scavengering is working fairly well. The water-supply is from wells, conserved tanks and the river; the last is conserved within municipal limits.

Two corrugated iron latrines—one for males and one for females—have been put up. Sixteen dust-bins have been purchased and utilised during the year as those in use being insufficient.

The pay of the sweepers has been raised from Rs. 3 to Rs. 3–4–0.

The pay of the private scavengers has also been raised from Rs. 2–4–0 to Rs. 2–8–0 from December 1895.

The management of private cess-pools was taken departmentally by the municipal council in the month of September 1895, and the number of cess-pools under the above management on the 31st March 1896 was thirteen. Two night-soil carts have been purchased and a provision of Rs. 144 has been made in the current year's budget for the employment of four persons to drag them. Provision had been made for a new slaughter-house, but the site selected was objected to by the sanitary board; so nothing was done in this line beyond a separate site being again selected and submitted for the approval of the above board.

4. *Vaccination.*—In accordance to the Act compulsory vaccination is being strictly carried out. A large number of cases were reported to the magistrate, and after excluding cases excused by him where the parties had their children vaccinated before the expiry of the notice given them by him, two still remained for punishment for disobedience of the orders of the magistrate and a sum of Rs. 4 was realised as fines under this head.

The number of cases vaccinated by the medical subordinate during the year was 28, with 24 successful and 4 unsuccessful. The municipal vaccinator vaccinated 911 cases with 824 successful, 163 unsuccessful and 4 unknown. He has been working very satisfactorily during the year and has done his best in assisting me and my predecessors in the enforcing of the compulsory sections of the Act. He is required to vaccinate only 900 cases a year, but has exceeded this amount by 91.

5. *Hospitals and Dispensaries*—(*a*) *Nature and sufficiency of accommodation.*—The building was originally a dwelling house, but was improved and used as a hospital. Separate wards were built for females and this building is apart from the main building. A proper store-room fitted up with shelves is much needed. The accommodation is more than sufficient.

(*b*) *State of repair of Buildings.*—The terraced portion of the hospital has been knocked down owing to its dilapidated condition and is undergoing repairs. The male patients from the main ward have been removed to one compartment of the female ward as a temporary measure.

(*c*) *State of repair of Furniture.*—The furniture is sufficient and in a fair state of repair. It will be well if the present wooden cots in the male ward be replaced by iron cots.

(*d*) *Inspections.*—The District Medical and Sanitary officer, Ganjám, inspected the hospital on the 28th and 29th December 1895.

(1) *Steps taken to carry out the recommendations of the Surgeon-General with Government of Madras.*—None.

(2) *Steps taken to carry out the recommendations of other inspecting officers.*—Two night-soil carts have been purchased and a provision of Rs. 144 has been made in the current year's budget for the employment of four persons to drag them.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines.*—None.

(*f*) *Number of patients treated as compared with the previous years.*—The following table

shows the number of patients treated:—

	Admissions.			Average daily attendance		
	In.	Out.	Total.	In.	Out.	Total.
1892–93	240	18,176	18,416	12·22	97·78	110·00
1893–94	185	19,150	19,335	10·10	118·17	128·27
1894–95	151	24,853	25,104	11·84	137·00	148·84
1895–96	132	23,424	23,556	7·62	128·72	136·34

The number of in-patients treated during the year was 132 against 151 of the previous year. The decrease is due to admission of military men on sick leave having been almost discontinued on account of their being transferred to military hospitals for treatment and to civil patients of a serious nature only being admitted into the hospital on the score of economy.

Twenty-three thousand four hundred and twenty-four out-patients were treated during the year against 24,853 of the previous year, this decrease is mainly due to the police out-patients not being included in this return as on previous years, but shown separately in the police returns, as well as to the public health being good and to the absence of epidemics. The decrease in the daily average sick is also due to the above cause.

(*g*) *Mortality and actual causes of it.*—There were twelve deaths during the year and the actual causes were: exhaustion four, coma six, and syncope two. This is a large number, but, as stated above, that very serious cases are admitted, a smaller number cannot be expected as a great many of the cases that died were in a hopeless condition when admitted. The number of deaths among out-patients cannot be stated, as it is difficult to obtain the results of out-patients treated, especially as some come from very distant villages.

(*h*) *Operations and results.*—Sixty-nine major operations were performed during the year with the following results—sixty-two cured and seven relieved against twenty-four major operations performed in 1894–95. Three hundred and seventy-nine minor operations—all successful—were performed during the year against 264 of the previous year.

(*i*) *Establishment whether sufficient and efficient.*—The establishment is sufficient and performs the several duties in an efficient manner.

(*j*) *Midwives.*—The midwife attached to this institution attended sixty-six cases of labour during the year against seventy-seven of the previous year, the decrease in a great measure is due to there being a good number of barber caste women within the reach of the people as well as to the attendance of the lady apothecary in difficult and protracted cases of labour.

(*k*) *Dispensaries for Caste and Gosha Women, &c.*—No provision is made for the treatment of gosha and caste women in a separate dispensary. The ~~lady~~ apothecary, who joined this hospital on the 24th August 1895, has a room allotted to her for attending to female out-patients and her prescriptions made up by the compounder attached to the hospital; at present the services of the native midwife and the female ward-attendant are placed at her disposal as a temporary measure. In my opinion a separate place with a female compounder and female attendant, with appropriate medicines and instruments, &c., should be set apart for her.

General remarks.—Nil.

(Signed) S. C. WHITE, Surgn.-Capt.,
Senior Asst. Surgeon, Civil Station, Chicacole.

PROCEEDINGS of the meeting of the Municipal Council, Chicacole, held on the morning of Saturday the 23rd May 1896, at 7 A.M., in the Municipal office, Chicacole.

* * * *

8. Read letter No. 1817, dated 13th May 1896, from the Assistant Inspector of Schools, Ganjám and Vizagapatam Division, forwarding educational statements of the Chicacole Municipality for the year 1895–96.

9. Read annual report of the Municipal Hospital, Chicacole, for the year 1895–96.

Resolution.—The statements and report will be submitted to Government.

No. 1216 Rev.

16*th May* 1896.

Dis. No. 588-Eng.

Forwarded.

2. Most of the main roads are not in good order and compare unfavourably to the local fund roads outside the municipal limits. I notice the chairman promises to put this right in the current year.

3. The decline in the number of vaccinations is disappointing.

4. The registration of vital statistics appears to be very unsatisfactory. Only 396 births were registered during the year against 419 in 1894–95 and 451 in 1893–94. The number of deaths shows, however, an increase, being 476 against 429 in the previous year. A comparison of the rate per mille of births and deaths establishes sufficiently the inaccuracies of the figures. Twelve cases are said to have been instituted during the year for failure to register births and deaths; but it is not stated how they have ended.

CHATRAPUR,
21*st May* 1896.

(Signed) C. J. WEIR,
Collector.

2. The municipal council held 3[illegible] meetings against 36 in 1894–95. The average attendance of the non-official m[illegible]bers continued to be satisfactory, but that of the officials was poor. The Collecto[illegible]hould inform the latter that the Government expects them to attend more regularly i[illegible]ture.

3. *Receipts.*—(1) The net current d[illegible]and under the tax on arts fell from Rupees 2,170 to Rs. 2,109 and the average asse[illegible]ent per head was only Rs. 3–0–6 against a general average of Rs. 4–2–5 for all m[illegible]cipalities in 1894–95. No explanation of this fall has been offered and the muni[illegible]l council has apparently taken no steps to develop this source of revenue. This sh[illegible]ld be done at an early date, and the result reported to Government. The demand [illegible]nder the tax on houses showed a slight increase, * while that under the tax on lands remained stationary. The collections under these taxes continued to be satisfactory.

	Rs.
* 1895–96	2,755
1894–95	2,724

(2) There was a decrease of Rs. 19 under the tax on animals, but this was partly met by an increase of Rs. 82 unde[illegible] the tax on carts.

(3) The municipal share of the [illegible]receipts from tolls rose from Rs. 3,055 to Rs. 6,055 in consequence of the tolls ha[illegible]ng been levied at three-fourths instead of at half the maximum rates, and of the r[illegible]duction of the district board's share from one-half to one-fourth. The increase w[illegible]s also partly due to the fact that the tolls were taken under departmental managemnt during the year under review.

(4) The revenue derived from the[illegible]sale of sweepings increased from Rs. 23 to Rs. 42. The Government trusts that the[illegible]efforts made to extend the demand for these will be sustained. The receipts from sch[illegible]ol-fees rose from Rs. 6,381 to Rs. 6,723, and there was a marked increase in the net[illegible]income from markets, which amounted to Rs. 2,153 against Rs. 1,740 in the previo[illegible]s year.

(5) The number of houses served [illegible]y the private scavenging agency rose from 258 to 281, and the expenditure on this [illegible]service was almost fully met by the fees collected. The service is however capabl[illegible] of much extension, as the total number of houses assessed to the tax on buildings i[illegible]1,239, of which less than one-quarter are now served by municipal agency.

4. *Expenditure*—(1) *Public Works.*—[illegible]A sum of Rs. 1,312–14–10 was spent on new works—buildings—the most import[illegible]nt of which was the reconstruction of a portion of the hospital building. The [illegible]penditure on communications was 49·6 per cent. of the net income from tolls. The [illegible]ivisional officer and the Collector report that the main roads were not in good order, b[illegible]t it is noted that the Chairman promises to attend to their improvement in the curre[illegible]t year.

(2) *Education.*—The net expenditu[illegible]re on primary education was Rs. 1,981, while that on secondary education showed a m[illegible]nus figure of Rs. 837. The total outlay on education was thus Rs. 1,144, or 8·6 p[illegible]er cent. of the income from taxation. As in 1894–95, the municipal council maint[illegible]ined one high school and one lower secondary school on the salary system, but th[illegible] number of primary schools on the salary-result system rose from seven to eight, o[illegible]e school having been abolished and two new ones having been opened during the year. [illegible] The number of aided primary schools fell from six to five. The strength of the high[illegible] school declined from 91 to 84, but that of the lower secondary and primary schools incre[illegible]sed by 48 and 50, respectively. The attendance in the aided schools fell from 344 t[illegible]251, owing apparently to the closing of one of them during the year. The allot[illegible]ent for result grants to these schools was however fully utilized. Excepting the l[illegible]ver secondary examination, at which only five pupils passed out of sixteen presente[illegible], the examination results were fair and better than those of the previous year. The t[illegible] number of boys under instruction rose from 842 to 866, or 68·1 per cent. of the [illegible]male population of school-going age.

(3) *Medical Relief.*—There was [illegible]ll in the number of in-patients treated in the municipal hospital from 151 to 132 [illegible]nd in that of out-patients from 24,853 to 23,424. The decrease under the for[illegible] head is due to the transfer of military patients to the military hospitals, and t[illegible]dmission being restricted to patients suffering from diseases of a serious nature, [illegible] the score of economy. The fall in the number of out-patients is accounted for [illegible] the improvement in public health and the

K Sivarao
Chairman.

Municipal Office,

CHICACOLE.

No. 336

Dated, 28th May 1896.

From

M R Ry W. Siva Rao Pantulu garu

CHAIRMAN,

MUNICIPAL COUNCIL, CHICACOLE.

To

THE The Chief Secretary
to the Government
Fort St George
Madras

Sir,

In continuation of this Office letter No. 312 dated 9 May 1896, I have the honor to submit the Educational statements and the Medical Officer's report with the following Explanations for the variations between the figures in the Statements already submitted, and those of the accompanying statements

Statement No IV- The figures already submitted regarding the number of pupils presented and passed in the Salary result and pure result Schools, were given by the Supervisor of Municipal schools with reference to the certifying Memoranda, and they are now corrected according to the figures given by the Assistant Inspector of Schools Ganjam and Vizagapatam division.

Statement V As the Apistant Inspector of Schools classified the Carpentry class attached to the High School as a separate school, whereas it was treated as a part of the High School in the Statement

...tant
...pupil who
...portion of the lower
...tion.

In Statement V B. the difference
between the figures shown in the
10 & 11 of the accompanying statement
...se of the statements already sub-
...itted is due to the Council having declined
to sanction the sum of Annas 4 earned by the
Punapanthacut School for English subjects
which is not sanctioned by the Council to be
taught in Results Schools.

I have the honor to be
Sir
Your Most Obedt Servt

W Smith
Chairman M.C.

Municipal Office,
CHICACOLE.
Dated, 28th May 1896.

No. 336

From
M R Ry W Suria Rao Pantulu Garu
CHAIRMAN
MUNICIPAL COUNCIL, CHICACOLE.

To
THE The Chief Secretary
to Government
Fort St George
Madras

1190

2. Vital statistics. ...registered 3996 births & 2...
Eight cases for failure to reg... four cases
for failure to register deaths were Officiated before
the Magistrate & all were fined. ...

3. Sanitation. The Sanitation of the town
is being improved in every possible way. A large
number of prosecutions for nuisances have been
instituted & the Offenders have been punished. The
Sanitary Staff Consists of 1. Sanitary Inspector,
4 Nuisance peons, 38. Sweepers, 5 Jotties, 6 Conser...
Cartmen & 2. Sewage Cartmen, & private Scaveng...
ing Staff of 1. Maistry & 19 Jotties. The System
of private Scavengering is working fairly well.
The water Supply is from wells, Conserved tank...
& the river, the last is Conserved within muni...
limits.

Two Corrugated iron latrines, one for male...
one for females have been put up. 16. Dust Bins
have been purchased & utilized during

as those in use being insufficient.

The pay of the Sweepers has been raised from Rs. 3. to Rs. 3-4-0.

The pay of the private Scavengers has also been raised from Rs. 2-4-0 to Rs. 2-8-0 from December 95.

The Management of private Cesspools was taken departmentally by the Municipal Council in the Month of September 1895. & the Number of cesspools under the above Management on the 31st March 1896. was 13. Two night Soil Carts have been purchased & a provision of Rs. 144. has been made in the Current Years budget for the Employment of 4 Men persons to drag them. Provision had been made for a new Slaughter house but the Site Selected was objected to by the Sanitary Board; So Nothing was done in this line beyond a Separate Site being again Selected & Submitted for the approval of the above Board.

4. Vaccination. In accordance to the act, Compulsory vaccination is being Strictly Carried out. A large Number of Cases were reported to the Magistrate & after Excluding Cases Excused by him where the parties had their Children vaccinated before the Expiry of the Notice given them by him, two Still remained for punishment for disobedience of the orders of the Magistrate & a Sum of Rs. 4/ was realized as fines under this head.

The Number of Cases vaccinated by the Medl Subordinate during the Year was 28 with 24 Successful & 4 Unsuccessful. The Municipal Vaccinator vaccinated 991. Cases with 824 Successful,

163. Unsuccessful & 4 Unknown. He has been working very Satisfactorily during the Year & has done his best in assisting me and my predecessors in the Enforcing of the Compulsary Sections of the act. He is required to Vaccinate only 900. Cases a Year but has exceeded this amount by 91.

5. Hospital and Dispensaries.

(a) Nature and Sufficiency of accommodation The building was originally a dwelling house but was improved & used as a Hospital, Separate wards were built for females & this building is a part from the main building A proper Store room fitted up with Shelves is much needed. The accommodation is more than Sufficient.

(b) State of repair of buildings. The terraced portion of the Hospital had been knocked down owing to its dilapedated Condition & is undergoing repairs. The Male patients from the Main ward have been removed to one Compartment of the females ward as a temporary measure.

(c) State of repair of furniture. The furniture is Sufficient & in a fair State of repair. It would be well if the present wooden Cots in the Male ward be replaced by iron Cots.

(d) Inspections. The District Medical and Sanitary Officer Canjam inspected the hospital on the 28th & 29th December 1895.

(1) Steps taken to Carry out the recommendation of the Surgeon General with Government of Madras

None

(2) Steps taken to Carry out the recommendations of Others Inspecting Officers.

Two Night Soil Carts have been purchased & a provision of Rs 144 has been made in the Current years budget for the Employment of ~~two~~ four persons to drag them -

(e) Amount of recoveries from patients who have been able & pay for their diets & Medicines.

None -

(f) Number of patients treated as Compared with the previous Years.

The following table Shows the Number of patients treated ——

	Admissions			Average daily attendance		
	In	out	Total	In	out	Total
1892. 93.	240	18176	18416	12. 22	97. 78	110. 00
1893. 94	185	19150	19335	10. 10	118. 17	128. 27
1894. 95	151	24853	25104	11. 84	137. 00	148. 84
1892. 96.	132	23424	23556	7. 62	128. 72	136. 34

The Number of inpatients treated during the year was 132. Against 151. of the previous year. The decrease is due & admission of Military men on Sick leave having been almost discontinued on account of their being transferred & Military Hospitals for treatment & & Civil patients of a Serious Nature being admitted into Hospital in the Desire of Economy.

23424. out patients were treated during the year against 24853. of the previous year, this decrease is mainly due & the Police out patients not being included in this Return as on previous years but shown Separately in the Police Returns as well as & the public health being good and no Epidemics. The decrease in the daily average is also due & the above Cause -

(g) Mortality & actual Causes of it. There were 12. deaths during the year & the actual Causes were Exhaustion 4. Coma 6. & Syncope 2. This is a large Number, but as Stated above that very Serious Cases are admitted, a Smaller Number Cannot be Expected as a great many of the Cases that died were in a hopeless Condition when admitted. The Number of deaths among out patients Cannot be Stated, as it is difficult & obtain the results of out patients treated Especially as Some come from very distant villages.

(h) Operations & results. Sixty Nine Major operations were performed during the year with the following results, 62. Cured and 7 relieved against 24. Major operations performed in 1894. 95. 379. Minor operations all Successful were performed during the year against 264 of the previous year.

(i) Establishment Whether Sufficient & Efficient. The establishment is Sufficient & performs the Several duties in an Efficient Manner.

(j) Midwives. The Midwife attached & this Institution, attended 66. Cases of labour during the year against 77. of the previous year, the decrease in a great Measure is due & there being a good Number of barber Caste women within the reach of the people, as well as & the attendance of the Lady Apothecary on difficult and protracted Cases of labour -

(K) Dispensaries for Caste & Gosha women &c - No provision is made for the treatment of Gosha & Caste women in a Separate Dispensary. The Lady Apothecary Who joined this Hospital on the 21st August 1895. has a room allotted & her for attending & female out patients

as those in use being insufficient.

The pay of the Sweepers has been raised from Rs. 3. to Rs 3-4-0.

The pay of the private Scavengers has also been raised from Rs. 2-4-0 to Rs. 2-8-0 from December 95.

The management of private Cesspools was taken departmentally by the Municipal Council in the Months of September 1895. & the Number of Cesspools under the above Management on the 31st March 1896. was 13. Two night Soil Carts have been purchased & a provision of Rs. 144. has been made in the Current Year's budget for the Employment of 4 Hand persons to drag them. Provision had been made for a new Slaughter house but the Site Selected was objected to by the Sanitary Board; So nothing was done in this line beyond a Separate Site being again Selected & Submitted for the approval of the above Board.

4. Vaccination. In accordance to the act, Compulsory vaccination is being Strictly Carried out. A large Number of Cases were reported to the Magistrate & after Excluding Cases Excused by him where the parties had their Children vaccinated before the Expiracy of the Notice given them by him, two Still remained for punishment for disobedience of the orders of the Magistrate & a Sum of Rs. 4/ was realized as fines under this head.

The Number of Cases vaccinated by the Med. Subordinate during the Year was 28 with 24 Successful & 4 Unsuccessful. The Municipal [illegible] vaccinated 991. Cases with 891 Successful & 100 Unsuccessful.

(g) Mortality & actual Causes of it. There were 12. deaths during the year & the actual Causes were Exhaustion 4. Coma 6. & Syncope 2. This is a large Number, but as Stated above that very Serious Cases are admitted, a Smaller Number Cannot be Expected as a great many of the Cases that died were in a hopeless Condition when admitted. The Number of deaths among out patients Cannot be Stated, as it is difficult to obtain the results of out patients treated Especially as Some come from very distant Villages.

(h) Operations & results. Sixty Nine Major operations were performed during the Year with the following results, 62. Cured and 7 relieved against 24. Major Operations performed in 1894-95. 379. Minor Operations all Successful were performed during the Year against 264 of the previous Year.

(i) Establishment Whether Sufficient & Efficient. The establishment is Sufficient & performs the Several duties in an Efficient Manner.

(j) Midwives. The Midwife attached to this Institution, attended 66. Cases of labour during the Year against 77 of the previous Year. The decrease in a Great Measure is due to there being a good Number of barber Castes women within the reach of the people as well as to the attendance of the Lady Apothecary in difficult and protracted Cases of labour.

(K) Dispensaries for Caste & Gosha women &c. No provision is made for the treatment of Gosha & Caste women in a Separate Dispensary. The lady Apothecary who joined this Hospital on the 24th August 1895. has a room allotted to her for attending to female outpatients

and her prescriptions made up by the Compounder attached to the hospital, at present the services of the Native Midwife and the female ward attendant are placed at her disposal as a temporary measure. In my opinion a separate place with a female Compounder and female attendant with appropriate Medicines and Instruments &c should be set a part for her.

General remarks. Nil.

Subject,

Submitting Educational Statements and Medical Report of the Chicacole Municipality for the year 1895-96.

Religious - Vol of Water

No. 1114 M., 4TH JULY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. T. V. SIVARAO PANTULU Garu, Chairman, Municipal Council, Chicacole, to the Chief Secretary to Government (through the Principal Assistant Collector, Ganjám), dated Chicacole, 9th May 1896, No. 312.

I have the honour to submit, herewith, the annual report on the administration of the Chicacole Municipality for the year 1895–96, together with the prescribed statements. These were passed by the council at its meeting held on 9th May 1896.

2. The accounts of the year under report have not been as yet audited. The report of the Medical officer has not as yet reached me.

3. The opening balance of the year under report was Rs. 2,967–6–0 which, of course, was the closing balance of 1894–95 as verified by the auditor. The receipts of the year under report were Rs. 26,078–14–11, and that sum, together with the opening balance, amounted to Rs. 29,046–4–11, which are the total receipts of the year. The total charges of the year were Rs. 25,840–1–8, leaving a balance of Rs. 3,206–3–3, which is the opening balance of the current year.

4. The following amounts have been expunged both from receipts and charges, as they were credited and also debited during the year :—

		RS.	A.	P.
(1)	Tolls contribution	1,700	2	9
(2)	Advances recovered	150	0	0
(3)	Refunds of tax on arts	308	0	0
(4)	Do. of tax on buildings	10	13	0
(5)	Do. of tax on tolls	0	6	9
(6)	Do. tax on animals	1	8	0

Item (1) is the Local Fund share paid to the district board as contribution of tolls. Item (2) is the amount recovered from the supervisor of works who was given the amount in advance to purchase timber for the repairs of the hospital building, &c. Item (3) is the amount refunded to the parties on appeal. Item (4) is the amount refunded to house-owners under section 72 of the Act. Item (5) is the amount remitted to the owners of carts and animals for which tolls were collected inasmuch as some of them were subsequently proved to have been already licensed, and some carts which cannot be called "laden" were proved to have been charged with full tolls. Item (6) is the amount refunded to parties from whom the tax on animals was collected on erroneous demand.

	RS.
Revised estimate	2,000
Actuals	2,035
Increase ..	35

5. *Tax on Arts and Professions.*—The increase is too trifling to require an explanation. The arrears of Rs. 2 collected during the year is also included in the increase.

	RS.	A.	P.
Revised estimate	2,600	0	0
Actuals	2,658	4	3
Increase ..	58	4	3

6. *Tax on Buildings.*—The increase is due to several new houses having been assessed during the year.

submitting budget estimate of the Chicacole Municipality for the year 1895–96. The increase over the revised estimate is too trifling to require any explanation.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	3	8	0
Decrease ..	6	8	0

24. *Distraint Fees.*—Only in nine cases, viz., three for tax on arts, one for tax on buildings, and three for tax on animals, two for rents of market godowns, it was found necessary to distrain property. Hence small amount realised under this head.

25. *License Fees.*—The decrease can be explained as follows. It was by mistake that the amount of Rs. 50 realised from the dramatic company mentioned in paragraph 12 *supra* was included under this head in the revised estimate and it is now rightly shown under "Fees under Act II of 1888." However, there was an improvement in the year under report over the actuals of the year 1894–95 under this head.

	Rs.	A	P.
Revised estimate	250	0	0
Actuals	205	3	10
Decrease ..	44	12	2

	Rs.	A.	P.
Revised estimate	400	0	0
Actuals	374	7	3
Decrease ..	25	8	9

26. *Cart-stand Fees.*—The decrease is due to less number of bandies having resorted to the places set apart for cart-stand purposes.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	7	14	0
Decrease ..	2	2	0

27. *Other Fees.*—This amount includes Rs. 4 fees for extracts from death and birth registers and Rs. 3–14–0 vaccination fees recovered under G.O., No. 1502 M., dated 19th October 1894.

	Rs.	A.	P.
Revised estimate	200	0	0
Actuals	206	2	9
Increase ..	6	2	9

28. *Fines under Municipal and other Acts.*—As in the year 1894–95, in the year under report a large income was realised under this head. One hundred and forty-five cases were prosecuted under the Towns Nuisances Act, and forty-five cases under the District Municipalities Act.

29. *Grants and Contributions from Government—Education—Municipal Schools.*—

	Rs.	A.	P.
Revised estimate	930	0	0
Actuals	841	3	0
Decrease ..	88	13	0

A sum of Rs. 817–6–6 was received as salary grant towards the salaries of the headmaster, first assistant, pandit, carpenter and gymnast of the high school. Rs. 23–12–6 was received as grant for books purchased for the library attached to the high school. A sum of Rs. 79 and odd is still due as grants for gymnastic apparatus, science apparatus and library books.

30. *Miscellaneous (a) (i) Private Scavenging.*—The increase is due to (1) greater number of houses handed over to the municipal management for private scavenging purposes, and (2) to the increased rates of private scavenging fees levied from the house-owners from December 1895. The number of houses served by the private scavenging agency was 281 on the 31st March 1896 against 258 on the last day of March 1895.

31. *Miscellaneous (a) (ii)— Other purposes—Cess-pools.*—As explained in paragraph 12 of my report submitting the revised estimates for the year under report the cleansing of cess-pools was managed departmentally. The number of cess-pools that are now under the Municipal agency is thirteen. It may not be out of place to state the manner in which the cess-pool fees are levied from the parties. The dimensions of cess-pools are taken and the gallons of water that a cess-pool contains are calculated at $7\frac{1}{2}$ gallons per cubic foot. Fees at the rate of As. 4 for 55 gallons are levied.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	35	14	0
Decrease ..	4	2	0

32. *Refunds of expenditure of previous year.*—This amount comprises the following refunds. Rs. 34–12–0 was refunded by M.R.Ry. K. Ramaswamy Iyer, the late Second Assistant of the High school, who was trained at the expense of the municipality, for having resigned his appointment before the expiry of the term during which he was bound to serve in the school. Rupee 1 was refunded by one of the teachers sent for training, as he drew his travelling allowance in excess by one rupee.

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	35	12	0
Decrease ..	4	4	0

33. The other items show little or no difference and hardly require explanation.

34. *Incidence of Taxation.*—The incidence of taxation per head on the direct taxation and rents is As. 13–1 against As. 10–6 in 1894–95.

35. The total receipts of the year amounted to Rs. 29,046–4–11 and the expenditure during the year was Rs. 25,840–1–8 against Rs. 26,890, the revised estimate figure, leaving a balance of Rs. 3,206–3–3 with which the year under report closed.

36. *Grant I.*—The total expenditure under this grant was Rs. 5,034–2–3 against Rs. 5,800 which was the revised estimate figure.

37. *Grant I (b)—New Buildings.*—This considerable decrease under this head can be explained as follows. A provision of Rs. 800 was made in the revised estimate for the purpose of constructing a slaughter-house for sheep. A site was first selected by medical officers for the slaughter-house and the site plan, &c., were forwarded to the Sanitary Engineer for approval in accordance with G.O., No. 124 M., dated 22nd January 1890, as modified by G.O., No. 79 L., dated 16th January 1891, but the site was disapproved by the Sanitary Board in their Proceedings, No. 197, dated 22nd January 1896, in which it was stated that the board prepared a new design which was being lithographed but the proofs of which were not due until the 25th February. The new design was received by me in the month of March last when there was hardly time for the construction of the house. Hence decrease. A sum of Rs. 180–1–10 out of a provision of Rs. 190 was spent on the town school building near high school for its completion, as it was left in course of construction when the year under report commenced. Rs. 30–7–0 was spent on enclosing high school verandah, which was commenced to be enclosed in the year 1894–95, but could not be finished in that year. Only Rs. 58–0–8, out of the sum of Rs. 90 allotted for the purpose in 1894–95, was expended up to the close of that year. A sum of Rs. 713–14–4 was expended on dismantling the terraced portion of the hospital building and reconstructing the same. The provision made for this purpose in the revised estimate was exceeded by Rupees 13–14–4 and yet only a portion was reconstructed inasmuch as the old timber expected to be useful before the building was dismantled, proved utterly useless after the demolition of the building and as much as Rs. 387 had to be spent on the purchase of timber for its reconstruction, the timber being very dear now in these parts. For the completion of the reconstruction of the building, a further provision will be

24. *Distraint Fees.*—Only in nine cases, viz., three for tax on arts, one for tax on buildings, and three for tax on animals, two for rents of market godowns, it was found necessary to distrain property. Hence small amount realised under this head.

25. *License Fees.*—The decrease can be explained as follows. It was by mistake that the amount of Rs. 50 realised from the dramatic company mentioned in paragraph 12 *supra* was included under this head in the revised estimate and it is now rightly shown under "Fees under Act II of 1888." However, there was an improvement in the year under report over the actuals of the year 1894–95 under this head.

	Rs.	A	P.
Revised estimate	250	0	0
Actuals	205	3	10
Decrease ..	44	12	2

26. *Cart-stand Fees.*—The decrease is due to less number of bandies having resorted to the places set apart for cart-stand purposes.

	Rs.	A.	P.
Revised estimate	400	0	0
Actuals	374	7	3
Decrease ..	25	8	9

27. *Other Fees.*—This amount includes Rs. 4 fees for extracts from death and birth registers and Rs. 3–14–0 vaccination fees recovered under G.O., No. 1502 M., dated 19th October 1894.

	Rs.	A.	P.
Revised estimate	10	0	0

Increase ..	61	12	0

31. *Miscellaneous (a) (ii)—Other purposes—Cess-pools.*—As explained in paragraph 12 of my report submitting the revised estimates for the year under report the cleansing of cess-pools was managed departmentally. The number of cess-pools that are now under the Municipal agency is thirteen. It may not be out of place to state the manner in which the cess-pool fees are levied from the parties. The dimensions of cess-pools are taken and the gallons of water that a cess-pool contains are calculated at $7\frac{1}{2}$ gallons per cubic foot. Fees at the rate of As. 4 for 55 gallons are levied.

may be given the appointment. M.R.Ry. Rao Bahadur Kandukuri Veerasalingam Pantulu Garu, Telugu Pandit of the Rajahmundry College, and M.R.Ry. Vavilala Vasudevasastri Garu, B.A., a Professor in the same college, have kindly set papers for the examination on Grammar and Composition and literature in compliance with my request. The answer papers were forwarded to the examiners for valuation. The gymnast of the high school is a trained man. The results of the public examinations are favourable. Out of the eighteen pupils who appeared for the Matriculation examination, seven came out successful. This is far better especially when compared with the results of the last year. The results of the Lower Secondary examination are also satisfactory, inasmuch as five passed the full test out of sixteen. This institution had its first visit of the Director of Public Instruction in the year under report. His review of the inspection notes of this school is very favourable and speaks well of the work of the school. It is highly creditable to the headmaster of the high school as well as to the other teachers. The work of the carpentry class continued to be satisfactory during the year. The net cost of this class to the municipality was Rs. 111-2-5. The school laboratory was provided with chemicals at a cost of Rs. 109-15-0, and its library was provided with new books at a cost of Rs. 109-14-6.

48. *Schools on Salary-result System*—(*a*) *Fixed Payments.*—The decrease is due to two lower primary schools having been started in February instead of in January as originally proposed, owing to the grant inspections having been held in the latter part of January and also to some vacancies having been left unfilled for a temporary period now and then. In the year under report the salary-result school at Arsavilli was abolished and the two lower primary schools were started in the town to enable children to learn English as their compulsory language from the infant standard. Three headmasters and one assistant master that were sent for training in 1894-95, returned in the year under report and joined their appointments. The net cost of these schools to the municipality was Rs. 1,298-8-4.

Decrease ..	2	12	0

55. (7) (*e*) *Other Items.*—This amount was spent on purchasing printing receipt forms, &c., required for all the schools.

56. *Grant III*—(1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—The new feature under this head in the year under report was the entertainment of a female apothecary, a moiety of her salary having been agreed to be paid by the municipal council, and the other half by the District Board, Ganjám. She joined her appointment here in August 1895. She is given a separate room in the hospital to attend to female out-patients and some of the female servants attached to the hospital are placed at her disposal by the medical officer in charge of the hospital. The number of the out-patients attended to by her since she joined her present appointment till the end of the year under report was 3,210 women and 2,919 children. The present hospital assistant, K. Venkatasubbayya, is of the 3rd class with a service of about one year in the Medical department. The work of the midwife attached to the hospital was much more unsatisfactory in the year under report than in the previous year inasmuch as she attended only 66 labour cases against 77 in 1894-95, which were far less than the number of cases she had attended in 1893-94 in which the number was 105. However, nothing could be done in the way of inflicting upon her an adequate punishment for her neglect of duty beyond a fine in accordance with the District Medical and Sanitary Officer's recommendation, owing to the difficulty of securing another midwife in her place. The medical pupil who is undergoing training at the cost of the municipality, went to Madras in October 1895 to join the Medical College.

	RS.	A.	P.
Revised estimate	1,380	0	0
Actuals	1,370	5	7
Decrease ..	9	10	5

57. *Medicines and Supplies.* — The medicines and surgical appliances obtained from Messrs. Burgoyne Burbidges and Co. and medical stores cost only Rupees 1,726-5-4. The fracture and dislocation apparatus was purchased at a cost of Rs. 200.

	RS.	A.	P.
Revised estimate	1,800	0	0
Actuals	1,726	5	4
Decrease ..	73	10	8

58. *Diet of Patients.*—The decrease is due to a smaller number of admissions of patients in the hospital during the latter part of the year when the building was under repairs.

	RS.	A.	P.
Revised estimate	500	0	0
Actuals	309	9	10
Decrease ..	190	6	2

59. *Sundries and Contingencies.*—The excess amount was spent towards the travelling charges of the female apothecary when she assumed charge here, and the house-rent of the hospital assistant.

60. The variations in the items of contributions to Provincial funds for (i) Medical College, (ii) Sanitary Inspection, (iii) Medical reserve staff, and (iv) Cutlers' establishment, are due to the fact that they were paid in accordance with the figures given by the Accountant-General.

61. (3) (*a*) *Vaccination Establishment.*—The first-class vaccinator Vinayaka Votha continued to work during the year and vaccinated 991 cases against 1,198 in 1894–95. However, his work may be characterized as satisfactory inasmuch as he is required to vaccinate only 900 cases in the year.

	RS.	A.	P.
Revised estimate	180	0	0
Actuals	180	0	0

62. (3) (*b*) *Contingencies.*—The increase is due to the bonus of Rs. 15 given to the vaccinator in the year under report for the efficient work he turned out in the year 1894–95.

	RS.	A.	P.
Revised estimate	40	0	0
Actuals	52	1	10
Increase ..	12	1	10

63. *Registration of Births and Deaths—Establishment.*—It is a matter of great regret that no improvement was shown in the registration of vital statistics during the year under report. Eight cases for failure to report births and four cases to report deaths were prosecuted during the year under report. In this connection I may be permitted to bring to the notice of the Government that some of the councillors are of opinion that it is the duty of the registrar to inform himself of every birth and death under section 246 of the Act IV of 1884, and it is the duty of the parties under section 247 of the same Act to give information of death and birth, provided they are required by the registrar to give the particulars of death or birth as the case may be. I should differ from them in that opinion and say that it is the duty of the parties to give the information to the registrar without being so required by him inasmuch as it is clearly stated in section 246 that the registrar shall learn and register the particulars required to be registered touching every birth and death *which has not been already registered.* I believe the clause in italics confirms my opinion. The council wishes to be enlightened on the point by a ruling of the Government.

in the previous year. A comparison of the rate per mille of births and deaths establishes sufficiently the inaccuracies of the figures. Twelve cases are said to have been instituted during the year for failure to register births and deaths; but it is not stated how they have ended.

CHATRAPUR,
21*st May* 1896.

(Signed) C. J. WEIR
Collector.

From M.R.Ry. T. V. SIVARAO PANTULU Garu, Chairman, Municipal Council, Chicacole, to the Chief Secretary to Government, dated 28th May 1896, No. 336.

In continuation of this office letter, No. 312, dated 9th May 1896, I have the honour to submit the educational statements and the medical officer's report with the following explanations of the variations between the figures in the statements already submitted and those of the accompanying statements.

* * * * *

ENCLOSURES.

ANNUAL Report of the Municipal Hospital, Chicacole, for the year 1895-96.

Public Health.—The health of the public has been very satisfactory during the year under report. The town was free from epidemic though cholera prevailed in two of the villages near Chicacole during the latter part of the year. Every precautionary measure was adopted to keep off the disease from the town. During the rains and in the cold season there were a large number of cases treated under fevers of a mild malarial type.

2. *Vital Statistics.*—The registrar of births and deaths registered 396 births and 476 deaths during the year. Eight cases for failure to register births and four cases for failure to register deaths were prosecuted before the magistrate and all were fined.

3. *Sanitation.*—The sanitation of the town is being improved in every possible way. A very large number of prosecutions for nuisances have been instituted and the offenders have been punished. The sanitary staff consists of one sanitary inspector, four nuisance peons, thirty-eight sweepers, five toties, six conservancy cartmen and two sewage cartmen, and private scavenging staff of one maistry and nineteen toties. The system of private scavenging is working fairly well. The water-supply is from wells, conserved tanks and the river; the last is conserved within municipal limits.

Two corrugated iron latrines—one for males and one for females—have been put up. Sixteen dust-bins have been purchased and utilised during the year, those in use being insufficient.

The pay of the sweepers has been raised from Rs. 3 to Rs. 3-4-0.

The pay of the private scavengers was also raised from Rs. 2-4-0 to Rs. 2-8-0 from December 1895.

The management of private cess-pools was taken departmentally by the municipal council in the month of September 1895, and the number of cess-pools under the above management on the 31st March 1896 was thirteen. Two night-soil carts have been purchased and a provision of Rs. 144 has been made in the current year's budget for the employment of four persons to drag them. Provision had been made for a new slaughter-house, but the site selected was objected to by the sanitary board; so nothing was done in this line beyond a separate site being again selected and submitted for the approval of the above board.

4. *Vaccination.*—In accordance to the Act compulsory vaccination is being strictly carried out. A large number of cases were reported to the magistrate, and after excluding cases excused by him where the parties had their children vaccinated before the expiry of the notice given them by him, two still remained for punishment for disobedience of the orders of the magistrate and a sum of Rs. 4 was realised as fines under this head.

The number of cases vaccinated by the medical subordinate during the year was 28, with 24 successful and 4 unsuccessful. The municipal vaccinator vaccinated 991 cases with 824 successful, 163 unsuccessful and 4 unknown. He has been working very satisfactorily during the year and has done his best in assisting me and my predecessors in the enforcing of the compulsory sections of the Act. He is required to vaccinate only 900 cases a year, but has exceeded this amount by 91.

5. *Hospitals and Dispensaries*—(*a*) *Nature and sufficiency of accommodation.*—The building was originally a dwelling house, but was improved and used as a hospital. Separate wards were built for females and this building is apart from the main building. A proper store-room fitted up with shelves is much needed. The accommodation is more than sufficient.

(*b*) *State of repair of Buildings.*—The terraced portion of the hospital has been knocked down owing to its dilapidated condition and is undergoing repairs. The male patients from the main ward have been removed to one compartment of the female ward as a temporary measure.

(*c*) *State of repair of Furniture.*—The furniture is sufficient and in a fair state of repair. It will be well if the present wooden cots in the male ward be replaced by iron cots.

(*d*) *Inspections.*—The District Medical and Sanitary officer, Ganjám, inspected the hospital on the 28th and 29th December 1895.

(1) *Steps taken to carry out the recommendations of the Surgeon-General with Government of Madras.*—None.

(2) *Steps taken to carry out the recommendations of other inspecting officers.*—Two night-soil carts have been purchased and a provision of Rs. 144 has been made in the current year's budget for the employment of four persons to drag them.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines.*—None.

(*f*) *Number of patients treated as compared with the previous years.*—The following table shows the number of patients treated:—

—	Admissions.			Average daily attendance.		
	In.	Out.	Total.	In.	Out.	Total.
1892-93	240	18,176	18,416	12·22	97·78	110·00
1893-94	185	19,150	19,335	10·10	118·17	128·27
1894-95	151	24,853	25,104	11·84	137·00	148·84
1895-96	132	23,424	23,556	7·62	128·72	136·34

The number of in-patients treated during the year was 132 against 151 of the previous year. The decrease is due to admission of military men on sick leave having been almost discontinued on account of their being transferred to military hospitals for treatment and to civil patients of a serious nature only being admitted into the hospital on the score of economy.

Twenty-three thousand four hundred and twenty-four out-patients were treated during the year against 24,853 of the previous year, this decrease is mainly due to the police out-patients not being included in this return as on previous years, but shown separately in the police returns, as well as to the public health being good and to the absence of epidemics. The decrease in the daily average sick is also due to the above cause.

(*g*) *Mortality and the actual causes of it.*—There were twelve deaths during the year and the actual causes were: exhaustion four, coma six, and syncope two. This is a large number, but, as stated above, that very serious cases are admitted, a smaller number cannot be expected as a great many of the cases that died were in a hopeless condition when admitted. The number of deaths among out-patients cannot be stated, as it is difficult to obtain the results of out-patients treated, especially as some come from very distant villages.

(*h*) *Operations and results.*—Sixty-nine major operations were performed during the year with the following results—sixty-two cured and seven relieved against twenty-four major operations performed in 1894-95. Three hundred and seventy-nine minor operations—all successful—were performed during the year against 264 of the previous year.

(*i*) *Establishment whether sufficient and efficient.*—The establishment is sufficient and performs the several duties in an efficient manner.

(*j*) *Midwives.*—The midwife attached to this institution attended sixty-six cases of labour during the year against seventy-seven of the previous year, the decrease in a great measure is due to there being a good number of barber caste women within the reach of the people as well as to the attendance of the lady apothecary in difficult and protracted cases of labour.

(*k*) *Dispensaries for Caste and Gosha Women, &c.*—No provision is made for the treatment of gosha and caste women in a separate dispensary. The female apothecary, who joined this hospital on the 24th August 1895, has a room allotted to her for attending to female out-patients and her prescriptions are made up by the compounder attached to the hospital; at present the services of the native midwife and the female ward-attendant are placed at her disposal as a temporary measure. In my opinion a separate place with a female compounder and female attendant, with appropriate medicines and instruments, &c., should be set apart for her.

General remarks.—Nil.

(Signed) S. C. WHITE, Surgn.-Capt.,
Senior Asst. Surgeon, Civil Station, Chicacole.

PROCEEDINGS of the meeting of the Municipal Council, Chicacole, held on the morning of Saturday the 23rd May 1896, at 7 A.M., in the Municipal office, Chicacole.

* * * *

8. Read letter No. 1817, dated 13th May 1896, from the Assistant Inspector of Schools, Ganjám and Vizagapatam Division, forwarding educational statements of the Chicacole Municipality for the year 1895–96.

9. Read annual report of the Municipal Hospital, Chicacole, for the year 1895–96.

Resolution.—The statements and report will be submitted to Government.

ORDER—No. 1114 M., dated 4th July 1896.

The receipts and charges of the Chicacole Municipality for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95 :—

—	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.

Total ..	24,910	24,880	28,400	29,046

2. The municipal council held 32 meetings against 36 in 1894–95. The average attendance of the non-official members continued to be satisfactory, but that of the officials was poor. The Collector should inform the latter that the Government expects them to attend more regularly in future.

3. *Receipts.*—(1) The net current demand under the tax on arts fell from Rupees 2,170 to Rs. 2,109 and the average assessment per head was only Rs. 3–0–6 against a general average of Rs. 4–2–5 for all municipalities in 1894–95. No explanation of this fall has been offered and the municipal council has apparently taken no steps to develop this source of revenue. This should be done at an early date, and the result reported to Government. The demand under the tax on houses showed a slight increase, * while that under the tax on lands remained stationary. The collections under these taxes continued to be satisfactory.

	Rs.
* 1895–96	2,755
1894–95	2,724

(2) There was a decrease of Rs. 149 under the tax on animals, but this was partly met by an increase of Rs. 82 under the tax on carts.

(3) The municipal share of the receipts from tolls rose from Rs. 3,055 to Rs. 6,055 in consequence of the rates having been levied at three-fourths instead of at half the maximum, and of the reduction of the District Board's share from one-half to one-fourth. The increase was also partly due to the fact that the tolls were taken under departmental management during the year under review.

(4) The revenue derived from the sale of sweepings increased from Rs. 23 to Rs. 42. The Government trusts that the efforts made to extend the demand for the refuse of the town will be sustained. The receipts from school-fees rose from Rs. 6,381 to Rs. 6,723, and there was a marked increase in the net income from markets, which amounted to Rs. 2,153 against Rs. 1,740 in the previous year.

(5) The number of houses served by the private scavenging agency rose from 258 to 281, and the expenditure on this service was almost fully met by the fees collected. The service is however capable of much extension, as the total number of houses assessed to the tax on buildings is 1,239, of which less than one-quarter are now served by municipal agency.
