CHAIRMAN, MUNICIPAL COUNCIL,

KARUR.

To

THE

The Chief Secretary to Government,
Local and Municipal Dept.,
Fort Saint George,
Madras.

Sir,

With reference to the remarks of the Government in para 4 (3) reviewing the Karur Municipal Budget for 1896-97 in its order No 318 M dated 24th February 1896, requesting to report whether a service for the removal of the Sewage from private cess-pools cannot be organised on a self supporting basis, I have the honor to submit a copy of the resolution of the Municipal Council Karur.

2. Any fees that may be levied for carrying the Sewage will be felt as an additional

taxation and the Council is anxious to make
sure that the system of employing a carriage
for the purpose will be a success before fees
can be demanded for the purpose. For
the present, the Council is against charging
fees.

I have the honor to be,
Sir,

Your most obedt. Servant

Rubla Khan
Chairman.

Proceedings of the general meeting of the
Municipal Council Kairi held on Thursday the
18th June 1896.

3. Opinions of the Divisional Council on
the suggestion of the Government, that the
removal of sewage from private cess-pools
should be arranged on a self supporting
basis.

There are 164 houses in the town, which
allow sewage to run into roadsides. The Council
is of opinion that a ^{carriage} carrying for removing it
from private cess-pools may be maintained at
the cost of the Municipality and that it is not
desirable for the present to levy fees for the
purpose.

Subject.

Informing that the Service for the removal of sewage from private cesspools cannot be organised on a self supporting basis for the present and also submitting the resolution of the Council.

C.S.

misc

order No 1128 Mmsd 7/6/96

The Government considers that although the Municipal Council is bound in the interests of public health and convenience to see that all private cess-pools in the town are kept in a satisfactory state, it is not equitable that the expenditure on this account should be defrayed from the taxes raised from the general body of rate-payers. The Council should therefore endeavour to organize a service, similar to that for private scavenging, which may be as nearly as possible self-supporting.
