Current No. 866/6 of 1895

OFFICE OF SURGEON-GENERAL
11 NOV. 95
WITH GOVT OF MADRAS.

To

The Chief Secretary to
Government, Madras.
Through the Surgeon General
Madras.

The humble Mahazar petition
Submitted by the inhabitants
of villages surrounding
Dachepalli, Palnad Taluk
respectfully showeth.

1. That it is ordered by
the Government to transfer
the Local Taluq Cutcherry
from Dachepally to Gurzala
where it will be shortly
removed.

2. The petitioners now
learn to their sore dis-
-appointment and dismay
that the Local Fund Hospital
also will be removed along
with the Cutchery to
Gurizala and the transfer
of Hospital to Gurizala
if effected will entail
much hardship and great
trouble to the population
of 29 villages —

numbering 36000 Surrounding Dachepalli. These villages are all nearer to Dachepalli th Gurizala. It is a well known fact ratified by the Medical department that Dachepalli and its surrounding villages are highly Malarious and as such the people of these localities are frequently subject to Ague, guinea worm and other diseases resulting from the deletarious climate of Malarious places. Under these Circumstances the petitioners venture to assert that it would be no exaggiration to say that a Hospital in Dachepalli is one of the necessities of life. To remove this hospital to Gurizala a place much better in climate than Dachepalli will be to leave the thousands of people inhabiting these villages to be prayed and tortured by the veralent attacks of Malaria without mercy and without help.

3. The petitioners beg to state that the average daily attendence both of inpatients as well as out-patients never falling

below 60 persons per day is gradually on the increase year by year. It is nearly 25 years since the establishment of this hospital in this village since then the people have all along been enjoying ease & comfort getting speedy relief whenever necessary from the local hospital, it being nearer, we may say in the very Centre of this division. After affording them the solid benefit of English treatment administered by duly qualified officials for such a long time, after keeping the hospital in Dachepalli for the last quarter of a century, now to remove it to Gurizala will be simply placing the inhabitants of these localities in the most tantalizing position imaginable with no one to administer to their wants in times of physical discomfort - Some of the villages of this division are situate at a distance of even 16 miles from Gurizala and as such it is scarcely possible for patients to resort to that place for medicine. Moreover unlike other places there are no competent native physicians in this place whose aid may be sought in hours of need in absence of Government Medical Officer. The petitioners may add that these contribute a major portion of the road fund in this taluq and as such deserve the mercy and help of the Government.

4. If the Government is bent upon having a hospital where there is a cutcherry, the petitioners beg that there may be opened a new dispensary at Gurzala — moreover there are many taluqs where the villages forming head quarters of Taluk Cutcherry officials have no hospitals at all; for instance in this District only, Cherala, Naylewaram, Nuzvid & Karampoodi the villages in Bapatla Bezwada, Gannavaram and Palnad Taluk are provided with Hospital, absence of Taluk Cutcherry from those places notwithstanding.

(5) We beg to submit that under these circumstances our troubles and difficulties would be highly aggravated if there is no hospital in Dachepalli and as such pray that Government will be pleased to establish at least a dispensary in Dachepally if its hospital needs be transferred to Gurizala.

For this act of kindness we in duty bound shall ever pray.

We beg to remain
Most Honored Sir,
Your most obedient
and humble
Memorialist.

Copy of letter Ref. on. C. No. $\frac{70}{T.B}$ of 96 dated 7th March 1896 from the President, Taluk Board, Vinukonda, to the President District Board, Kistna.

OFFICE OF SURGEON-GENERAL
18 MAR. 96
WITH GOVT OF MADRAS.

In returning herewith your N. Ref. on. C. No. $\frac{52}{D.B}$ of 96 despatched on 23rd January 96, forwarding Surgeon General's letter No. $\frac{3737}{3}$ dated 18-12-95, enquiring whether the inhabitants of Dachepalli are willing to pay the expences if a dispensary is opened in their village in case if the present Hospital is transferred to Gurzala, the Present Head Quarters of the Palnad Taluk, I have the honor to state that the Tahsildar of Palnad reports in his arzi No. $\frac{906}{16-2-96}$ that the Villagers of Dachepalle do not agree to pay any contribution.

2. The Taluk Board, upon the petitions of the Villagers of Dachepalli and other surrounding Villages that the

Hospital

Hospital at Dachepalle should not be removed and that a new dispensary may be opened at Gurzala if necessary, in consequence of the transfer of the Taluk Head Quarters of the Palnad Taluk, first resolved in its resolution No. 2/21-12-95 to open a dispensary at Gurzala under a 3rd class Hospital Assistant by the savings that may accrue, if the Hospital at Dachepalle be placed in charge of a 2nd class Hospital Assistant instead of a Civil Apothecary.

3. But the District Medical & Sanitary Officer submitted the question for reconsideration of the Taluk Board saying that it is inadvisable to have the whole of the Palnad Taluk officered by Hospital assistants and that at least one Civil Apothecary should be stationed in the Palnad Taluk and in charge of a central and well maintained institution.

[illegible] 1-7-95

4. There are at present 3 medical institutions in the Palnad Taluk one at Dachepalle, one at Karempudi and one at Tummercode, the present Head Quarters of the Deputy Tahsildar. The Board cannot possibly maintain a fourth one, in its present financial state. The question of transferring the Deputy Tahsildar's Head Quarters from Tummercode to Macherla is under contemplation and so the dispensary at Tummercode may have to be transferred to Macherla along with the Deputy Tahsildar's Head Quarters. Thus the question for the present resolved itself into, whether the institution from Dachepalle or Karempudi should be removed to Gurzala. Karempudi is very centrally situated, being the junction of several important lines of communication besides being in the immediate vicinity, of the most malarious parts of the Palnad and Vinukonda Taluks

and

and around it there are several big villages as Zulakallu, Vappicherla, Adigoppula &c. Therefore the dispensary from this station cannot be shifted. Karempudi is so far as 12 miles from both Dachepalli and Gurazala whereas Dachepalli is not far from Gurazala being only 7 miles by road and about 6 miles by short cut. Moreover, if the Karempudi institution were removed to Gurzala, on the same line of communication 19 miles long, there would be three medical institutions leaving all the other parts unserved.

5. In view of the foregoing circumstances, the Taluk Board at a meeting held on 11-2-96 resolved to transfer the Hospital at Dachepalli to Gurzala and to take early steps to open a new Dispensary at Dachepalli as soon as finances would allow it.

6. I, therefore request you will be pleased to obtain the sanction of Government for the transfer of the Hospital from Dachepalli to Gurzala.

7. A copy of the Taluk Board resolution No. $\frac{13}{11-2-96}$ is enclosed.

9. Read remarks of the President Taluq Board Vinukonda made at his inspection of the Hospital at Dachepalli on 5.12.95 noting the advisability of retaining a Dispensary at Dachepalli if the Hospital is to be removed to Gurazala the Taluq Head Quarters, and the petition of the inhabitants of Dachepalli and its surrounding Villages protesting against the proposal of removing the Hospital at Dachepalli to Gurazala and also the District Medical and Sanitary Officer's endorsement N. R. Cno $\frac{1227}{D.S.H.}$

on the proceedings dated 9. 11. 95 of the Hospital Committee stating that a Dispensary with a Hospital Assistant may be had at Dachepalli when the present hospital there is removed to Gurazala.

Resolution:- The Board would be glad to have a dispensary at Gurazala and retain the one in Dachepalli if its finances would allow it. There is no prospect of its improving for the present except by savings in Grant III which could be effected if the Dachepalli hospital is placed in charge of a hospital assistant, who the Board is of opinion would do for the present.

1/1730/96

Copy of letter Ref on Cno $\frac{70}{T.B}$ of 96 dated 18th May 1896 from the President Taluq Board Vinukonda, to the President District Board Kistna.

Adverting to your foot-note Ref on Cno $\frac{52}{DB}$ of 96 dated the 7th Instant and received by me to day, forwarding for report copy of Government Memorandum No 460 dated the 27th April 1896, I have the honor to state that the Taluq Board Meeting held on 11th February 1896 was not one, specially convened to modify the resolution No $\frac{9}{21-12-95}$. This resolution was not meant to finally dispose of the question of removing or retaining the Hospital at Dachepalli; but only to express the Board's willingness circumstances permitting to have a Dispensary at Gurazala retaining the Hospital at Dachepalli in charge of a Hospital Assistant. But as the District

District Medical and Sanitary officer, Kistna said that it was not advisable not to have a Civil Apothecary even in one of the Medical institutions in Palnad Taluk the latter resolution was passed in final settlement of the question. It did not cancel or modify the former resolution so as to be brought within the purview of Section 31(3) of Act V of 1884.

2. The Taluq Board being unable to open another Medical institution at Gurazala resolved to transfer the one at Dachepalli to Gurazala.

3. A copy of resolution No 9/21-12-95 is enclosed.
