GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. K. SESHADRI AIYANGAR Avargal, Chairman, Municipal Council, Srírangam, to the Chief Secretary to Government (through the Revenue Divisional Officer, Trichinopoly), dated 1st June 1896, No. 108.

I have the honour to submit the administration report of this municipality for the year 1895–96 passed at the meeting held on the 31st ultimo with the usual statements in the prescribed forms.

I.—Constitution of the Council.

2. The elective system has been in force from 1888. The sanctioned number of councillors is sixteen as in previous years. The elective seats are eight in number as stated in the last administration report. The right of electing the Chairman, conceded to the council, is in force. At the beginning of the year under review, the council consisted of sixteen members—one being official (Revenue Divisional Officer, *ex-officio*), three non-official (nominated) and twelve non-official (elected). Of the above sixteen seats, nine had fallen vacant—seven in April, one in July 1895 and the other in February 1896. Among the nine vacancies thus caused, eight seats—five by nomination by Government and three by election—were filled up during the year. One of the five nominated councillors, M.R.Ry. S. Gopalaiyar, Sub-Assistant Inspector of Schools, having been transferred, his successor M.R.Ry. C. S. Swami Aiyangar Avargal was nominated in his place in March 1896. At the close of the year under review there were fifteen councillors—one *ex-officio*, one nominated official, six nominated non-officials and seven elected members who are also non-officials.

3. Fresh lists of voters for 1895 were received before 1st May as per G.O., Mis. No. 574 M., dated 4th May 1894, and in the usual course it came into operation on the 12th July succeeding. The registered number of voters for the first or Srírangam west ward was 237 against 191, for the second or Srírangam east ward 277 against 237 and for the third or Jambukeswaram ward 183 against 164. The increase in the number of voters of the three wards is mainly due to the number of persons assessed under tax on arts.

4. Thirty-seven meetings against 31 in the previous year were convened during the year. Only one meeting as against seven in the previous year was adjourned for want of quorum. The average attendance has also slightly risen from 7·5 to 7·8.

II.—Receipts.

5. The total receipts excluding the opening balance amounted to Rs. 30,448–8–9 showing a decrease of Rs. 1,921–7–3 under the revised estimate of Rs. 32,370 and an increase of Rs. 4,824–4–3 over the actuals, Rs. 25,624–4–6, of 1894–95. The variations are explained below.

A.—Receipts from Taxation.

6. *Tax on Arts, &c.*—The total amount of tax as assessed by the Chairman was Rs. 3,940–8–0. The demand notices for the year were prepared and issued for two

half years separately. A special bill collector was in anticipation of sanction appointed under the revised estimate for the purpose of expediting the collections, whose services were discontinued on the receipt of G.O., No. 437 M., dated 16th March 1896. Out of 1,370 and 1,375 persons assessed for the first and second half years, respectively, 514 preferred appeals within the year under the provisions of the Act, of which 393 appeals were disposed of before the close of the year and Rs. 394 were thereupon remitted. A sum of Rs. 2,041 was realised before the close of the year under review and Rs. 259 in April and May 1896.

7. *Tax on Buildings and Lands.*—The house and land registers were not revised during the year under report as they were revised only in the previous year. The method of assessing the taxes which was explained in the administration report of this municipality for 1890–91, as stated in the footnote appended to statement I, is still adopted. The total extent of land assessed was 3,507 acres as in last year.

8. *Demand, Collection and Balance Statements IV-A and IV-B*—(1) *Tax on Arts, &c.*—From the latter statement it will be seen that the arrears under this head were Rs. 1,762 at the beginning of the year 1895–96 which, with finally settled demand of Rs. 3,553–8–0 for the year under review, made a total of Rs. 5,315–8–0, of which Rs. 1,140 for the arrears and Rs. 2,041 for the current, making a total of Rs. 3,181, were collected and Rs. 384–8–0 were remitted or written off the accounts, leaving a balance of Rs. 1,750 at the close of the year under report, which was by subsequent collections reduced to Rs. 1,491.

(2) *Tax on Buildings and Lands.*—There were Rs. 2,577–6–0 as arrears under these heads at the beginning of the year under review and the demand of the year was Rs. 10,817–9–0. Of these amounts, Rs. 2,466–7–6 for the arrears, Rs. 9,613 for the current, making a total of Rs. 12,079–7–6, were collected and Rs. 8–2–0 remitted. There were Rs. 1,307–5–6 in arrears at the close of the year 1895–96, which were reduced by the subsequent collections to Rs. 785–15–0. The percentages of collection to the current final demand and to arrears were 88·9 and 95·7 respectively against 77·7 and 88·5 of the previous year. The number of houses under taxation for the year under review was 4,130 against 4,134 of the last year and the incidence of tax per house was Rs. 1–10–4.

9. Water-tax on buildings and lands is not imposed in this municipality.

10. *Tax on Vehicles, Animals and Carts.*—The total receipts under these heads amounted to Rs. 4,589, which show an increase of Rs. 259 and Rs. 284–8–0 over the revised estimate of the year under review and the actuals of 1894–95, respectively.

11. *Coercive Process.*—The number of warrants that remained unexecuted at the close of 1894–95 was 295 and the number issued during the year under report was 2,928, making a total of 3,223. Two thousand six hundred and forty-six warrants were returned without distress as the defaulters paid up their dues before execution; in fourteen cases properties were attached and released, the tax having been realised before the time for sale, and in two cases, the attached properties were sold and the tax recovered. There were 89 warrants remaining unexecuted at the close of the year under review, 472 warrants being cancelled.

12. There are no toll-gates under the management of this municipality; but the Trichinopoly District Board continues paying contribution of Rs. 1,000 to this municipality.

13. *Incidence of Taxation.*—The total population according to the census of 1891 is 21,632, and the total income from taxation in the year under review was Rupees 19,961–2–0 excluding tolls and Rs. 20,961–2–0 including them. The incidence of tax per head of population including tolls was As. 15–6 and excluding tolls was As. 14–9 against As. 12–3 and As. 13, respectively, in last year.

14. *Realizations under Special Acts—Fees under Act II of* 1888.—Three licenses were granted for opening places of public resort during the year under review; hence an increase of Rs. 75 over the actuals of last year.

B.—Miscellaneous Receipts.

15. *Revenue derived from municipal property and powers apart from taxation.*—The receipts under this amounted to Rs. 5,084–3–7, showing a decrease below the actuals of the previous year by Rs. 106–6–5. This is chiefly under item conservancy receipts.

Sale-proceeds of Night-soil, Street-refuse, &c.—There is a decrease both below the revised estimate and the actuals of previous year by Rs. 138–5–2 and Rs. 280–8–8, respectively. The reason for the decrease was that when the contract of rubbish was cancelled at the latter part of the year for failure of monthly payment by the contractor, the rubbish was not re-sold but utilized for the purposes of filling up ditches by the sides of the Ammamantapam road and thereby widening it as provided for in the budget estimate. There was no receipt under night-soil sale-proceeds for the year, as it was only towards the end of the year that the council was able to secure a contract for sale, and the amount will be realized along with that of the present year. The site that had been used as night-soil depôt till March 1895 has been leased out for three years for cultivation at Rs. 28 per year.

16. *Grants and Contributions.*—The total receipts under this head were Rupees 3,087–9–2, which show a decrease below the revised estimate and an increase above the actuals of 1894–95 by Rs. 292–6–10 and Rs. 2,205–5–7, respectively. The difference is explained in the following items:—

(*b*-ii) *Medical—From Local Boards.*—There is an increase of Rs. 2,000 over the actuals of previous year 1894–95, which is due to the balance of contribution due by the taluk board towards the maintenance of the hospital and dispensary for the year 1894–95 having been paid in the year, the payment of the balance was deferred by the board, pending the disposal of the question as to whether the whole or one-third of the promised contribution was to be paid by the board.

(*b*-iii) *Other purposes.*—There is a decrease of Rs. 198–5–10 below the revised estimate which was attributable to the contribution from the taluk board for the late Yekadasi festival not having been drawn within the year.

(*c*) *Other Grants and Contributions—Medical.*—The receipts under this head were Rs. 135 showing a decrease both below the revised estimate and the actuals of previous year 1894–95. This was owing to the monthly contribution by the trustees of the Srírangam pagoda towards the maintenance of the hospital and dispensary not having been paid within the year under review.

17. *Miscellaneous—Recoveries on account of services rendered to Private Individuals—Private scavenging.*—There was a balance of Rs. 168–7–6 at the commencement of the year under report which, with the demand of the year Rs. 1,065–4–6, made a total of Rs. 1,233–12–0, of which Rs. 70–5–0 for arrears and Rs. 1,022–5–6 for current were collected and leaving a balance of Rs. 140–8–6 which was reduced to Rs. 138–3–6 by the subsequent collections. The council found the arrears to be due to the carelessness of the scavenging inspector who was forced to resign and of whose salary Rs. 30 has been resolved to be made good for this item.

The number of houses served by the private scavenging agency on the 31st March was 1,028, the number in first half year being 996, as against 1,004 in 1894–95. The increase of houses is probably due to the greater number of prosecutions (21 against 7 in the previous year) that have been instituted under instructions of Government in No. 1422 M., dated 4th September 1895. It may not be out of place here to remark that though houses were suspected to be unclean and 137 notices issued for the inspection of private privies, yet the time of six hours allowed under the Act was probably availed of to get them cleaned, thus enabling the owners to save themselves from prosecution.

In obedience to the other instructions of Government in the said Government Order, we beg to state that the rates are raised from this year to make the system self-supporting as far as possible. This has caused considerable hardship to the poor inhabitants and that, with the present system of collecting the fee in advance, might reduce the number of houses served as it is only optional to utilize the services of municipal toties.

III.—EXPENDITURE.

18. The total expenditure for the year under review under all grants amounted to Rs. 28,265–9–9, which when compared with the revised estimates of the year and the actuals of the previous year 1894–95 shows a decrease below the estimate and an increase over the actuals by Rs. 3,754–6–3 and Rs. 5,274–8–7, respectively. The variations are shown below.

19. *Grant I, Public Works, New Works—Communications.*—Rs. 4,513–3–10 were spent under this head showing an increase both over the revised estimate and the actuals of 1894–95 by Rs. 43–3–10 and Rs. 1,066–3–10, respectively. The slight difference between the revised estimate and the expenditure does not require any special remark and the reason for the excess over the actuals of last year is due to an extension of one and a quarter miles of new metalled road as against half a mile for the last year.

20. *Buildings.*—The expenditure under this head amounted to Rs. 1,335–9–7, which shows a decrease of Rs. 534–6–5 below the revised estimate and an increase of Rs. 810–13–9 over the actuals of Rs. 524–11–10 of 1894–95. The main reason for the increase over the actuals of last year is that three new latrines were built, the dressing-room of the hospital was erected, twenty dust-bins against twelve for the last year were bought and the renewal of flight of steps at the bathing ghaut of Nattuvaikal at Kondayampettai was made, and the reason for the difference below the revised estimate is that the price of 49 dust-bins supplied within the year was billed for after the new year commenced. Further, the fittings for the meeting hall were not undertaken as a new design is now under consideration.

21. *Water-supply.*—The expenditure under this head amounted to Rs. 168–12–8, which shows a decrease of Rs. 291–3–4 below the revised estimate and an increase of Rs. 146–15–8 over the actuals of last year. The reason for the decrease is due to the council having resolved not to carry out the raising of the platforms around seven wells with pulleys for the same in view of the water scheme now pending before the Government. The increase over the last year is mainly due to having sunk two new wells with pulleys.

22. *Repairs—Communications.*—The expenditure under this head was Rs. 648–7–9 showing a decrease below the revised estimate and the actuals of previous year 1894–95 by Rs. 651–8–3 and Rs. 566–2–10, respectively. The reason for the difference is due to there having been savings under each head of the repairs. The repairs effected were not so much as anticipated and even the cost of the works done was less than what was estimated for.

The length of the roads including the streets maintained during the year under review was 16¾ miles as in previous years, of which total length of metalled roads was 8¾ miles as against 7½ miles in previous year. $1\frac{11}{16}$ miles were re-metalled during the year under review. All the streets were sectioned providing side channels for the free passage of rain water.

23. *Buildings.*—A sum of Rs. 148–5–10 was spent under this head showing a decrease of Rs. 151–10–2 below the revised estimate and an increase of Rs. 121–2–2 over the actuals of the last year. The decrease is mainly due to the repairs in the hospital not having been commenced within the year and the increase is due to the repair of the slaughter-house as per Sanitary Commissioner's suggestion.

24. *Grant II, Education.*—The expenditure under this grant amounted to Rs. 3,046–5–10, which shows a decrease of Rs. 1,333–10–2 below the revised estimate and an increase over the actuals of previous year 1894–95 by Rs. 109–8–1. The decrease below the revised estimate is due to the non-payment of stipends to normal students for which no bill was received and to the savings effected from the provisions made for several items under this grant. The increase is due to the granting of over-earned grants to aided schools under result system.

25. *Municipal Schools on Salary-result~~s~~ System—Primary Education of boys.*—There were seven schools at the beginning of the year under review and one was opened on the 30th September 1895 in West Adayavalanjan street as recommended by the educational authorities. As the strength of the Mélúr result system school went down, the headmaster was found sufficient to manage the whole school and his assistant was transferred therefrom to this newly started school. This teacher is undergoing normal training. The cost of this new school was met from the budget allotment, and it did not suggest itself to the council to obtain the sanction of the Government for the same, if really its sanction is necessary. The percentage of passes is 78·91 as the following table shows:—

	Pupils presented.	Pupils passed.
Infant standard	40	32
First do.	40 girls 2	31 girls 2
Second do.	28	26
Third do.	27	20
Fourth do.	10	5
Total	147	116

The strength of these eight schools on the rolls was 275 boys and 31 girls on the 31st March 1896 against 215 boys and 29 girls in previous year, and this is due to the starting of this new school in a good locality and to the strength of the Anglo-Vernacular school having risen from 57 to 82. All these eight schools were examined for grants. A sum of Rs. 293–3–9 was paid in the shape of result~~s~~ stipends to these schools at the maximum rate with the exception of Anglo-Vernacular school to which 75 per cent. was paid as recommended by the Educational department.

26. *Result~~s~~ Grants.*—The number of schools notified for examination in the combined list was nine. Of these eight were examined and Rs. 1,144–3–6 were given to them as result~~s~~ grants including Rs. 218–9–0 paid as over-earned grants. These grants were paid at the maximum rates from infant to seventh standard. Rupees 150 allotted in the budget for salary grants were transferred to the head of result~~s~~ grants and the same was utilized in the payment of result~~s~~ grants to the lower secondary school at Thiruvanakaval. This transfer was sanctioned by Government in G.O., No. 742 M., dated 2nd May 1896. The percentage of passes is 74·77 as shown below:—

	Pupils presented.	Pupils passed.
Infant standard	55 girl 1	40 girl 1
First do.	45	38
Second do.	73	56
Third do.	80	58
Fourth do.	55	42
Fifth do.	15	10
Sixth do.	10	5
Seventh do.	3	2
Total	337	252

The strength of the Panchama's school has risen from 56 to 66.

27. Furniture grant was also paid to the above schools to the extent of Rs. 99 on the recommendation of the inspecting officers.

28. *Drawing and Gymnasium.*—The drawing master and the gymnastic instructor are certificated men. Instructions in gymnastics to private persons, which were discontinued last year, are revived from January 1896. The pupils of two lower secondary schools in the town were also allowed to undergo instructions in the drawing and gymnastic classes at the request of the managers thereof on payment of monthly contribution of Rs. 2 from each.

29. It is to be noted that all the teachers employed in all salary-result~~s~~ schools under the management of the municipality are passed men. The net expenditure

was Rs. 2,478–15–10 or 11·4 per cent. of the income from taxation. Of the net expenditure, Rs. 180 were spent on secondary education and the remainder on primary education.

30. *Grant III, Sanitation and Medical Services.*—The expenditure under this grant was Rs. 11,812–14–7 against the revised estimate of Rs. 13,270 and the actuals of Rs. 10,232–10–0 of 1894–95, showing a decrease of Rs. 1,457–1–5 below the former and an increase of Rs. 1,580–4–7 over the latter.

31. *Hospital and Dispensary.*—This institution has, as usual, maintained its usefulness. It is under the charge of the Senior First-class Hospital Assistant C. Thirumalai Naidu. He is assisted by a third-class hospital assistant. The latter was appointed on the 21st October last, as provided for in the budget, on abolishing the office of the clerk on Rs. 10 a month attached to this institution. The number of in-door patients treated during the year was 234 against 236 of last year and out-door patients 17,420 against 18,548. There had been a decrease both in the in-and out-door patients by 2 and 1,128, respectively. The decrease was due to non-appearance of cholera and to the small number of sore-eye cases treated during the year under report. Fifteen Brahman in-door patients were admitted and treated. Usual arrangements were made for their accommodation in the hospital. Eight of them were dieted at the municipal cost.

32. The number of labour cases treated in the lying-in ward by the midwife was 3 as in last year, and that in the town and adjacent villages was 101 against 108 in previous year. The untrained midwife was paid up to December 1895 a monthly salary of Rs. 12 in addition to a remuneration of one rupee for each labour case attended by her over the fixed minimum and also a corresponding reduction of one rupee was made in her salary for each case below the minimum. From January 1896 she is paid Rs. 10 a month with a remuneration of annas 8 for each case under G.O., No. 441 L., dated 9th March 1895, without any corresponding reduction for short work. The midwifery pupil, Soosanna Ammal, referred to in paragraph 37 of the last year's administration report, has completed her course of study in the Government Maternity Hospital, Madras, and she is expected to join her duty shortly. The total expenditure under item hospital and dispensary amounted to Rs. 2,786–0–9. There is a decrease of Rs. 213–15–3 below the revised estimate of Rs. 3,000 and an increase of Rs. 595–12–10 over the actuals of previous year Rs. 2,190–3–11. The decrease below the revised estimate was due to the unavoidable delay in payment of the value of medicines supplied by Messrs. Burgoyne, Burbidges & Co., London, within the year under report. The increase is mainly due (1) to the increase in the establishment charges by the appointment of a third-class hospital assistant, (2) to the payment of medicine charges incurred in the year 1894–95, (3) to the putting of screens as suggested by the Surgeon-General, and (4) to the purchase of a patent filter at the suggestion of the Collector of the district.

33. *Contribution to Provincial Funds.*—Rs. 238 were paid towards the proportionate cost of Medical College, Sanitary Inspection, Medical Reserve Staff and Cutler's Establishment. There was an increase of Rs. 8 over the revised estimate and a decrease of Rs. 26 below the actuals of previous year. No explanation for the difference is necessary as the contribution was paid according to the demand made by the treasury officer of the district under the instructions of the Accountant-General.

34. *Vaccination.*—The charges amounted to Rs. 288–3–6, showing a decrease of Rs. 11–12–6 below the revised estimate and an increase of Rs. 72–0–3 over the actuals of previous year. The increase was due to the working of animal vaccination throughout the year under review. The glycerine paste purchased by the municipality, at the suggestion of the senior hospital assistant, was intended for and was utilized in the cases where the parties allowed their children to be vaccinated, as in such cases, which were few in number at a time, the bringing of a calf for ready use was considered not advantageous. Of 43 cases thus treated, 41 proved successful. The total number of cases vaccinated during the year, both by the municipal vaccinator and the senior hospital assistant, was 1,233, of which 1,185 cases were by the vaccinator and the remainder 48 by the hospital assistant, which show an increase of 106 cases

over the number (1,127) in last year. Of 1,185 cases operated on by the vaccinator, 1,140 were successful, 15 unsuccessful and 30 unknown. Of 48 cases performed by the hospital assistant, 46 were successful and the 2 unsuccessful as detailed below:—

—	Under one year.			Above one year.		
	Successful.	Unsuccessful.	Unknown.	Successful.	Unsuccessful.	Unknown.
Vaccinator	480	3	5	660	12	25
Hospital Assistant	16	..	..	30	2	..
Total ..	496	3	5	690	14	25

35. *Infantile Vaccination.*—To find out the percentage of infantile vaccination in the year under review to the number of births, we are to take into calculation births between 1st October 1894 and 30th September 1895, as under section 134 of the District Municipalities Act IV of 1884 an unprotected child of over six months alone can be vaccinated. The births during this period are 702, of which 98 died before issue of notice, 17 died after issue of notice and prosecution, 138 left the place before issue of notice, and 46 left the station after issue of notice but before prosecution, thus leaving 403 cases capable of being vaccinated. Of this 17 cases before, and 45 cases after, the issue of notice were vaccinated, 219 cases were vaccinated after prosecution, 58 cases left the station after prosecution, and 63 cases were pending at the close of the year before magistracy. One case is unaccounted for.

36. Seven hundred and nineteen notices were served upon the parents and guardians to get their children vaccinated; 205 persons complied with these notices and got their children vaccinated, 46 left Srírangam to other places, 12 died, and 456 failed to vaccinate their children. The magistracy was requested to take proceedings against the said 456 persons, as also against 75 others remained in last year. Out of 531 cases, 292 got their children vaccinated within the time given by the magistrates and in 29 cases the parents were convicted and punished for disobedience of order; 159 left the town, 11 died and 69 cases pending before magistracy including 63 cases shown under the head infantile vaccination. Of the 29 cases convicted, the children were vaccinated in 27 cases, in 1 case the child had left the town and 1 died.

37. The services of the probationary vaccinator appointed under the orders of Government had been dispensed with from 1st October 1895 as required by the Inspector of Vaccination and Deputy Sanitary Commissioner in his inspection notes embodied in G.O., No. 1997 M., dated 28th November 1895.

38. The number of births and deaths registered during the year under review were 740 and 653, respectively, showing an increase of 84 births and a decrease of 37 deaths over and below the figures of last year. The number of prosecutions for default in registering occurrences of births is 32 and of deaths 30. These, with the 2 cases pending before the magistracy at the commencement of the year, made a total of 64 cases; in 47 cases the defaulters were convicted, 4 cases were withdrawn and the remaining 13 were pending before the magistracy at the close of the year.

39. *Conservancy.*—The expenditure under this head was during the year under review Rs. 8,380–7–0, showing a decrease of Rs. 1,219–9–0 below the revised estimate and an increase of Rs. 887–11–6 over the actuals of previous year 1894–95. The increase over the actuals of previous year was chiefly owing to the temporary entertainment of an observation staff consisting of one division inspector, three circle inspectors, four peons and four toties for cholera purposes under G.O., No. 1028 M., dated 26th June 1895, from 27th November 1895 to 7th January 1896, and to the purchase of cholera medicines and four wooden rubbish carts. The decrease below the revised estimate is chiefly owing to the saving from the cholera heading and the saving of Rs. 400 allotted for four water carts, which were not able to get ready within the year. A proposition statement for entertainment of cholera staff is submitted for sanction of Government.

40. *Private Scavenging.*—Rs. 1,669-9-2 were spent under this head, which show a decrease both below the revised estimate and the actuals of previous year 1894–95 by Rs. 210-6-10 and Rs. 88-0-7, respectively. The decrease was owing to the non-entertainment of toties, as proposed in the budget, and to the savings from the allotment for the purchase of sewage cart. The net charge under this head was Rs. 576-14-8.

41. The conservancy establishment, as it remained on the 31st March 1896, is as follows:—

3 sanitary inspectors,
10 peons,
14 sweepers,
20 conservancy scavengers,
1 private scavenging inspector,
18 private scavengers,
2 conservancy night-soil carts,
6 private scavenging carts, and,
15 rubbish carts.

With the above establishment all the streets and roads, &c., were kept clean. The street sweepings were removed twice a day to private gardens pointed out by the rubbish contractor and approved of by the sanitary inspector as usual. There were 16 public latrines on the 1st April 1895, of which one was closed and a new one was erected at a distant place at the suggestion of the Sanitary Commissioner. The two temporary latrines on the famine relief road were converted into pucka ones. There were 16 latrines at the close of the year, of which 10 were pucka built and 6 were temporary. The night-soil from these latrines was removed twice a day at about 7 A.M. and between 3 and 4 P.M., and that from the privies of the houses in Srírangam proper was removed daily between 7 and 9 A.M. and buried in the night-soil depôt.

42. The wells used for drinking purposes were preserved from impurities and a portion of Nattuvaikal channel in Srírangam and in Jambukeswaram was reserved solely for taking water for drinking purposes and watchmen were posted thereat to prevent people from polluting it. The proposal of introducing water scheme into the town is postponed pending the result of that in Trichinopoly Municipality.

43. There were 42 inches and 75 cents of rain as registered during the year under review as against 28 inches and 70 cents in the previous year. As water had fallen down considerably in the Coleroon river during the summer, Rs. 82-0-6 were spent in deepening the water course, &c. The health of the town was generally good throughout the year. The Ekadasi festival commenced on the 17th December last and continued for 21 days. Extra sanitary arrangements were made and cholera sheds, &c., were erected for both sexes as usual, at the suggestion of the District Medical and Sanitary officer and the Revenue Divisional officer. Isolation shed and quarantine sheds at the outskirts of the town were erected and the special hospital assistants and compounder were posted thereat with necessary medicines. The senior hospital assistant was also deputed to perambulating duty. The report submitted through the Collector on the working of the sanitary arrangement was reviewed by Government in their order, No. 500 M., dated 21st March 1896. A proposition statement of the special establishment entertained during the festival is herewith submitted for sanction of Government.

44. *Grant IV, Lighting and Miscellaneous Municipal Purposes.*—The total cost incurred during the year under review under this grant was Rs. 3,455-14-6, showing a decrease of Rs. 84-1-6 below the revised estimate and an increase of Rs. 1,589-3-6 over the actuals of previous year 1894–95. The variations are explained below.

(*a*) *Lighting.*—At the commencement of the year under report there were 286 lights, and 24 new lights were put up. The total number at the close of the year was 310. The cost of these lights was Rs. 1,840-9-1, showing a decrease of Rs. 149-6-11 below the revised estimate (Rs. 1,990). The decrease was due to the kerosene-oil, &c., not having been purchased at the higher rate at which estimate was framed.

(*b*) *Other Charges.*—(i) The expenditure under the head was Rs. 1,596-14-10, which shows an increase both over the revised estimates and the actuals of previous year 1894–95 by Rs. 96-14-10 and Rs. 1,283-15-5, respectively. The increase over the revised estimate was due to the cost of printing municipal proceedings and the furniture purchased for municipal meeting hall having exceeded the allotment made in the estimate.

(ii) Rupees 51-15-1 was spent in removing prickly-pear besides the removal of the same by private parties on notices being served on them.

(iii) *Destruction of Wild Animals.*—One hundred and forty-two dogs were killed at a cost of Rs. 19-0-2. ?

45. *Grant V, Supervision and Management.*—The total expenditure under this grant was Rs. 2,279-4-0, showing an increase of Rs. 9-4-0 over the revised estimate (Rs. 2,270). The increase is small and calls for no explanation.

46. The year closed with the balance of Rs. 7,537-3-4, or 21·47 per cent. of the current receipts. 24·8/

47. The accounts of the year under review have not as yet been audited.

48. In conclusion, I beg to add that I had the hearty co-operation of the councillors in administering the municipal affairs.

ENCLOSURE.

CONCISE Report of the Municipal Hospital, Srírangam, for the official year 1895–96.

1. *Public Health.*—I am glad to report that the health of the people has been very good during the whole year. The rainfall during the year was ample. The total quantity of rain collected during the year was 42 inches and 75 cents against 28 inches and 70 cents in the previous year. The price of grains considerably reduced. Water was scanty in the end of last quarter in Cauvery, Coleroon and Nattoovaikal.

the/ ⊙/ ⊙/ ,/

Neither cholera nor epidemics of any kind occurred during the year under report.

2. *Vital Statistics.*—There is only one registrar of births and deaths for this municipality.

Years.	Births.	Deaths.
1894–95	656	690
1895–96	740	6[illegible]3

3. *Sanitation.*—The sanitary condition of the town is fair.

STATEMENT showing the Conservancy Establishment for 1895–96.

Sanitary Inspectors.	Peons.	Scavenging Inspector.	Toties attached to		Latrines.		Sweepers.	Rubbish carts.	Night-soil carts.	Dust-bins.		Lights.	Sewage water cart employed during the festival.
			Latrines.	Private scavenging.	Permanent.	Temporary.				Old.	New.		
3	10	1	20	18	10	6	14	15	* 8	96	20	320	1

* Conservancy, 2; Private scavenging, 6.

4. *Vaccination.*—Vaccination of the town is conducted by one first-class vaccinator. Vaccination was made compulsory in this town from the year 1888. Animal and paste lymph are used in this municipality.

—	Years.	Total vaccination.			Under one year.		
		Successful.	Unsuccessful.	Total.	Successful.	Unsuccessful.	Total.
By town municipal vaccinator.	1894–95 ..	1,012	71	1,083	342	17	359
	1895–96 ..	1,140	45	1,185	480	8	488
By medical subordinate ..	1894–95 ..	43	1	44	28	..	28
	1895–96 ..	46	2	48	16	..	16

40. *Private Scavenging.*—Rs. 1,669–9–2 were spent under this head, which show a decrease both below the revised estimate and the actuals of previous year 1894–95 by Rs. 210–6–10 and Rs. 88–0–7, respectively. The decrease was owing to the non-entertainment of toties, as proposed in the budget, and to the savings from the allotment for the purchase of sewage cart. The net charge under this head was Rs. 576–14–8.

41. The conservancy establishment, as it remained on the 31st March 1896, is as follows:—

3 sanitary inspectors,
10 peons,
14 sweepers,
20 conservancy scavengers,
1 private scavenging inspector,
18 private scavengers,
2 conservancy night-soil carts,
6 private scavenging carts, and,
15 rubbish carts.

With the above establishment all the streets and roads, &c., were kept clean. A/ yu/

SRIRANGAM,
25th *April* 1896.

(Signed) G. THIRUMALLI NAIDU,
1st-class Hospital Assistant, in medical charge.

There is an improvement in registration of vital statistics and vaccination; but infantile vaccination is still unsatisfactory.

TRICHINOPOLY,
28th *April* 1896.

(Signed) W. O'HARA, Surgn.-Lt.-Colonel,
District Medical and Sanitary Officer.

C. No. 1267-Rev.

Submitted to the Collector.

2. More attention should have been paid to the prompt collection of taxes.

3. The council will do well to increase their allotment for metalling roads and streets.

4th *June* 1896.

(Signed) A. SHANMUGASUNDARAM PILLAI,
Deputy Collector.

Dis. No. 944-Rev.

Submitted.

2. *Paragraph* 6, *Tax on Arts.*—The work of the municipality under this head is still unsatisfactory. In spite of the remarks in the last report, the demand as fixed at the end of the year was only Rs. 3,553, and as there were no less than 121 appeals pending, the demand may be still further reduced. The collections also were very poor, and there are still outstanding balances of the three preceding years. Stricter attention is required towards careful revision of the taxes early in the year, prompt disposal of appeal petitions and prompt collections.

3. *Paragraphs* 7 *and* 8 (2), *Tax on Buildings and Lands.*—Though better than in previous year, the percentage of collection is still considerably below the presidency average, and old arrears dating as far back as 1890-91 should be collected or written off.

4. *Paragraph* 10, *Tax on Vehicles, Animals and Carts.*—The collections show a satisfactory increase as compared with last year, but as the statement do not show the demand (current and arrears), it is impossible to state what percentage has been collected. I presume the municipality keeps a demand, collection and balance register. If not one should be opened at once, as the absence of such a register would facilitate fraud.

5. *Paragraph* 17, *Private Scavenging.*—More attention should be paid to the repeated orders of Government on this important subject, both with a view to make it self-supporting and to see that the fees are collected in advance, which latter does not appear to be always the case.

6. *Paragraph* 22, *Roads.*—The Divisional officer has not given his opinion on the state of the roads, as he only joined a few months ago. They are in fair order.

7. *Paragraphs* 34 *to* 36, *Vaccination.*—As remarked by the District Medical officer there was an improvement in vaccination (save infantile, which is not satisfactory) and registration of vital statistics.

8. *Paragraph* 43, *&c.*, *Sanitation and Ekadesi Festival.*—The arrangements for the latter were satisfactory, and I am glad to record that the Chairman and Council showed a great readiness to fall in with any suggestions for the furtherance of sanitation during that festival as well as at other times.

9. *General Remarks.*—There is still very much room for improvement, especially in the direction of taxation, collections, and private scavengering; but I think that a decided improvement has begun, which will, it is to be hoped, continue during the current year.

10th *June* 1896.

(Signed) J. ANDREW,
Collector.

5. *Hospitals and Dispensaries*—(*a*) *Nature and Sufficiency of Accommodation.*—Accommodation is very comfortable.

* Estimate sanctioned. Will be completed soon.
K. SESHADRI IYENGAR,

NOTE TO STATEMENT I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes. of schedule A
2. Tax on buildings is levied at 6¼ per cent. and tax on lands at 6¼ per cent. of rent value. annas 2 for every 80 square yards.
3. Water-tax on buildings and lands is levied at per cent. Nil
4. Tax on vehicles and animals is levied at —— the maximum rates. Shown in schedule B
5. Tax on carts, &c., is levied at Rs. 4 per cart per annum.
6. Tolls ~~are levied at —— the maximum rates.~~ Rs 1000 fixed grant from the Dt. Board irrespective of Schedule G.O. No. 1288 28-8-93
7. License-fees are levied at the rates sanctioned in G.O. Mis. Nos 577, 993, 144, 1654, 1588 dated 14-4-91, 29-6-91, 22-1-92, 15-10-92, 12-10-93
8. The house-tax registers were last revised in the official year 1894-95 and the land tax registers in the official year.
9. Total extent of land assessed is 350 acres.
10. The mode of estimating the annual rental of houses and lands is as follows:— The house tax was assessed on the annual rental estimated by the Chairman & the Councillors on personal inspection of the houses considering of the importance of the locality, extent and demand for habitation and also upon the actual rent for which similar houses in the vicinity has been rented out. The land tax was upon calculation of the annual rental for which similar lands in the same locality have been leased out & in some cases upon the actual income of the land. The house sites were assessed under section 63 (2) of the Act accordi

T. Seshadri Iyengar
Chairman

Concise Report of the Municipal Hospital Srirangam for the official year 1895-96.

(1) Public health: I am glad to report that the health of people has been very good during the whole year. The rainfall during the year was ample. The total quantity of rain collected during the year was 42 inches and 75 cents against 28 inches and 70 cents in the previous year. The price of grains considerably reduced. Water was scanty in the end of last quarter in Cauvery, Coleroon and Nattoovaikkal.

Neither Cholera nor Epidemics of any kind ~~of disease~~ occurred during the year under report.

(2) Vital Statistics: There is only one registrar of Births & Deaths for the Municipality.

Years	Births	Deaths
1894-95	656	690
1895-96	740	653

(3) Sanitation: The sanitary condition of the town is fair.

1896

Srirangam Municipality

Enclosure to letter No. 108

Enclosure No. 2.

No. 1231 M., 22nd July 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. K. SESHADRI AIYANGAR Avargal, Chairman, Municipal Council, Srírangam, to the Chief Secretary to Government (through the Revenue Divisional Officer, Trichinopoly), dated 1st June 1896, No. 108.

I have the honour to submit the administration report of this municipality for the year 1895–96 passed at the meeting held on the 31st ultimo with the usual statements in the prescribed forms.

I.—Constitution of the Council.

2. The elective system has been in force from 1888. The sanctioned number of councillors is sixteen as in previous years. The elective seats are eight in number as stated in the last administration report. The right of electing the Chairman, conceded to the council, is in force. At the beginning of the year under review, the council consisted of sixteen members—one being official (Revenue Divisional Officer, *ex-officio*), three non-official (nominated) and twelve non-official (elected). Of the above sixteen seats, nine had fallen vacant—seven in April, one in July 1895 and the other in February 1896. Among the nine vacancies thus caused, eight seats—five by nomination by Government and three by election—were filled up during the year. One of the five nominated councillors, M.R.Ry. S. Gopalaiyar, Sub-Assistant Inspector of Schools, having been transferred, his successor M.R.Ry. C. S. Swami Aiyangar Avargal was nominated in his place in March 1896. At the close of the year under review there were fifteen councillors—one *ex-officio*, one nominated official, six nominated non-officials and seven elected members who are also non-officials.

3. Fresh lists of voters for 1895 were received before 1st May as per G.O., Mis. No. 574 M., dated 4th May 1894, and in the usual course it came into operation on the 12th July succeeding. The registered number of voters for the first or Srírangam west ward was 237 against 191, for the second or Srírangam east ward 277 against 237 and for the third or Jambukeswaram ward 183 against 164. The increase in the number of voters of the three wards is mainly due to the number of persons assessed under tax on arts.

4. Thirty-seven meetings against 31 in the previous year were convened during the year. Only one meeting as against seven in the previous year was adjourned for want of quorum. The average attendance has also slightly risen from 7·5 to 7·8.

II.—Receipts.

5. The total receipts excluding the opening balance amounted to Rs. 3 44 showing a decrease of Rs. 1,921–7–3 under the revised estimate of Rs. 32, n increase of Rs. 4,824–4–3 over the actuals, Rs. 25,624–4–6, of 1894–95. ar tions are explained below.

A.—Receipts from Taxation.

6. *Tax on Arts, &c.*—The total amount of tax as assessed by the Chair s. 3,940–8–0. The demand notices for the year were prepared and issued

1896

No. 1231 M., 22nd July 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From M.R.Ry. K. SESHADRI AIYANGAR Avargal, Chairman, Municipal Council, Srírangam, to the Chief Secretary to Government (through the Revenue Divisional Officer, Trichinopoly), dated 1st June 1896, No. 108.

I have the honour to submit the administration report of this municipality for the year 1895–96 passed at the meeting held on the 31st ultimo with the usual statements in the prescribed forms.

I.—Constitution of the Council.

2. The elective system has been in force from 1888. The sanctioned number of councillors is sixteen as in previous years. The elective seats are eight in number as stated in the last administration report. The right of electing the Chairman, conceded to the council, is in force. At the beginning of the year under review, the council consisted of sixteen members—one being official (Revenue Divisional Officer, *ex-officio*), three non-official (nominated) and twelve non-official (elected). Of the above sixteen seats, nine had fallen vacant—seven in April, one in July 1895 and the other in February 1896. Among the nine vacancies thus caused, eight seats—five by nomination by Government and three by election—were filled up during the year. One of the five nominated councillors, M.R.Ry. S. Gopalaiyar, Sub-Assistant Inspector of Schools, having been transferred, his successor M.R.Ry. C. S. Swami Aiyangar Avargal was nominated in his place in March 1896. At the close of the year under review there were fifteen councillors—one *ex-officio*, one nominated official, six nominated non-officials and seven elected members who are also non-officials.

3. Fresh lists of voters for 1895 were received before 1st May as per G.O., Mis. No. 574 M., dated 4th May 1894, and in the usual course it came into operation on the 12th July succeeding. The registered number of voters for the first or Srírangam west ward was 237 against 191, for the second or Srírangam east ward 277 against 237 and for the third or Jambukeswaram ward 183 against 164. The increase in the number of voters of the three wards is mainly due to the number of persons assessed under tax on arts.

4. Thirty-seven meetings against 31 in the previous year were convened during the year. Only one meeting as against seven in the previous year was adjourned for want of quorum. The average attendance has also slightly risen from 7·5 to 7·8.

—Receipts.

5. The total receipts e [illegible] ng balance amounted to Rs. 30,448-8-9 showing a decrease of Rs. [illegible] he revised estimate of Rs. 32,37 [illegible] nd an increase of Rs. 4,824 [illegible] ver e a [illegible] Rs. 25,624-4-6, of 1894–95. T [illegible] riations are explain [illegible]

A.—R [illegible] om Taxation.

6. *Tax on Arts, &c.* The total amount of tax as assessed by the Chairman was nt Rs. 3,940-8-0. The demand n [illegible] for the year were prepared and issued for two of

half years separately. A special bill collector was in anticipation of sanction appointed under the revised estimate for the purpose of expediting the collections, whose services were discontinued on the receipt of G.O., No. 437 M., dated 16th March 1896. Out of 1,370 and 1,375 persons assessed for the first and second half years, respectively, 514 preferred appeals within the year under the provisions of the Act, of which [illegible] appeals were disposed of before the close of the year and Rs. 394 were thereupo remitted. A sum of Rs. 2,041 was realised before the close of the year under revi and Rs. 259 in April and May 1896.

7. *Tax on Buildings and Lands.*—The house and land registers were not revi during the year under report as they were revised only in the previous year. The method of assessing the taxes which was explained in the administration report of the municipality for 1890–91, as stated in the footnote appended to statement I, is s adopted. The total extent of land assessed was 3,507 acres as in last year.

8. *Demand, Collection and Balance Statements IV-A and IV-B*—(1) *Tax Arts, &c.*—From the latter statement it will be seen that the arrears under this h were Rs. 1,762 at the beginning of the year 1895–96 which, with finally sett demand of Rs. 3,553–8–0 for the year under review, made a total of Rs. 5,315–8–0 which Rs. 1,140 for the arrears and Rs. 2,041 for the current, making a total Rs. 3,181, were collected and Rs. 384–8–0 were remitted or written off the accou leaving a balance of Rs. 1,750 at the close of the year under report, which was subsequent collections reduced to Rs. 1,491.

(2) *Tax on Buildings and Lands.*—There were Rs. 2,577–6–0 as arr under these heads at the beginning of the year under review and the demand of year was Rs. 10,817–9–0. Of these amounts, Rs. 2,466–7–6 for the arrears, Rs. for the current, making a total of Rs. 12,079–7–6, were collected and Rs. remitted. There were Rs. 1,307–5–6 in arrears at the close of the year 18 which were reduced by the subsequent collections to Rs. 785–15–0. The perc of collection to the current final demand and to arrears were 88·9 and 95·7 resp against 77·7 and 88·5 of the previous year. The number of houses under for the year under review was 4,130 against 4,134 of the last year and the in of tax per house was Rs. 1–10–4.

9. Water-tax on buildings and lands is not imposed in this municipality.

10. *Tax on Vehicles, Animals and Carts.*—The total receipts under these amounted to Rs. 4,589, which show an increase of Rs. 259 and Rs. 284–8–0 revised estimate of the year under review and the actuals of 1894–95, respe

11. *Coercive Process.*—The number of warrants that remained unex the close of 1894–95 was 295 and the number issued during the year under re 2,928, making a total of 3,223. Two thousand six hundred and forty-six w were returned without distress as the defaulters paid up their dues before ex in fourteen cases properties were attached and released, the tax having been before the time for sale, and in two cases, the attached properties were sold tax recovered. There were 89 warrants remaining unexecuted at the clo year under review, 472 warrants being cancelled.

12. There are no toll-gates under the management of this municipality. Trichinopoly District Board continues paying contribution of Rs. 1,00 municipality.

13. *Incidence of Taxation.*—The total population according to the cens is 21,632, and the total income from taxation in the year under review wa 19,961–2–0 excluding tolls and Rs. 20,961–2–0 including them. The of tax per head of population including tolls was As. 15–6 and excludi As. 14–9 against As. 12–3 and As. 13, respectively, in last year.

14. *Realizations under Special Acts—Fees under Act II of 1888.*—Th ere granted for opening places of public resort during the year under re an increase of Rs. 75 over the actuals of last year.

B.—Miscellaneous Receipts.

15. *Revenue derived from municipal property and powers apart from taxation.*—The receipts under this amounted to Rs. 5,084–3–7, showing a decrease below the actuals of the previous year by Rs. 106–6–5. This is chiefly under item conservancy receipts.

Sale-proceeds of Night-soil, Street-refuse, &c.—There is a decrease both below the revised estimate and the actuals of previous year by Rs. 138–5–2 and Rs. 280–8–8, respectively. The reason for the decrease was that when the contract of rubbish was cancelled at the latter part of the year for failure of monthly payment by the contractor, the rubbish was not re-sold but utilized for the purposes of filling up ditches by the sides of the Ammamantapam road and thereby widening it as provided for in the budget estimate. There was no receipt under night-soil sale-proceeds for the year, as it was only towards the end of the year that the council was able to secure a contract for sale, and the amount will be realized along with that of the present year. The site that had been used as night-soil depôt till March 1895 has been leased out for three years for cultivation at Rs. 28 per year.

16. *Grants and Contributions.*—The total receipts under this head were Rupees 3,087–9–2, which show a decrease below the revised estimate and an increase above the actuals of 1894–95 by Rs. 292–6–10 and Rs. 2,205–5–7, respectively. The difference is explained in the following items :—

(*b*-ii) *Medical—From Local Boards.*—There is an increase of Rs. 2,000 over the actuals of previous year 1894–95, which is due to the balance of contribution due by the taluk board towards the maintenance of the hospital and dispensary for the year 1894–95 having been paid in the year, the payment of the balance was deferred by the board, pending the disposal of the question as to whether the whole or one-third of the promised contribution was to be paid by the board.

(*b*-iii) *Other purposes.*—There is a decrease of Rs. 198–5–10 below the revised estimate which was attributable to the contribution from the taluk board for the late Yekadasi festival not having been drawn within the year.

(*c*) *Other Grants and Contributions—Medical.*—The receipts under this head were Rs. 135 showing a decrease both below the revised estimate and the actuals of previous year 1894–95. This was owing to the monthly contribution by the trustees of the Srírangam pagoda towards the maintenance of the hospital and dispensary not having been paid within the year under review.

17. *Miscellaneous—Recoveries on account of services rendered to Private Individuals—Private scavenging.*—There was a balance of Rs. 168–7–6 at the commencement of the year under report which, with the demand of the year Rs. 1,065–4–6, made a total of Rs. 1,233–12–0, of which Rs. 70–5–0 for arrears and Rs. 1,022–5–6 for current were collected and leaving a balance of Rs. 140–8–6 which was reduced to Rs. 138–3–6 by the subsequent collections. The council found the arrears to be due to the carelessness of the scavenging inspector who was forced to resign and of whose salary Rs. 30 has been resolved to be made good for this item.

The number of houses served by the private scavenging agency on the 31st March was 1,028, the number in first half year being 996, as against 1,004 in 1894–95. The increase of houses is probably due to the greater number of prosecutions (21 against 7 in the previous year) that have been instituted under instructions of Government in No. 1422 M., dated 4th September 1895. It may not be [illegible] place here to remark that though houses were suspected to be unclean an [illegible] notices issued for the inspection of private privies, yet the time of six hours [illegible] under the Act was probably availed of to get them cleaned, thus enabling [illegible] owners to save themselves from prosecution.

In obedience to the other instructions of Government in the said Government Order, we beg to state that the rates are raised from this year to make the system self-supporting as far as possible. This has caused considerable hardship to the poor inhabitants and that, with the present system of collecting the fee in advance, might reduce the number of houses served as it is only optional to utilize the services of municipal toties.

half years separately. A special bill collector was in anticipation of sanction appointed under the revised estimate for the purpose of expediting the collections, whose services were discontinued on the receipt of G.O., No. 437 M., dated 16th March 1896. Out of 1,370 and 1,375 persons assessed for the first and second half years, respectively, 514 preferred appeals within the year under the provisions of the Act, of which 393 appeals were disposed of before the close of the year and Rs. 394 were thereupon remitted. A sum of Rs. 2,041 was realised before the close of the year under review and Rs. 259 in April and May 1896.

7. *Tax on Buildings and Lands.*—The house and land registers were not revised during the year under report as they were revised only in the previous year. The method of assessing the taxes which was explained in the administration report of this municipality for 1890–91, as stated in the footnote appended to statement I, is still adopted. The total extent of land assessed was 3,507 acres as in last year.

8. *Demand, Collection and Balance Statements IV-A and IV-B*—(1) *Tax on Arts, &c.*—From the latter statement it will be seen that the arrears under this head were Rs. 1,762 at the beginning of the year 1895–96 which, with finally settled demand of Rs. 3,553–8–0 for the year under review, made a total of Rs. 5,315–8–0, of which Rs. 1,140 for the arrears and Rs. 2,041 for the current, making a total of Rs. 3,181, were collected and Rs. 384–8–0 were remitted or written off the accounts, leaving a balance of Rs. 1,750 at the close of the year under report, which was by subsequent collections reduced to Rs. 1,491.

(2) *Tax on Buildings and Lands.*—There were Rs. 2,577–6–0 as arrears under these heads at the beginning of the year under review and the demand of the year was Rs. 10,817–9–0. Of these amounts, Rs. 2,466–7–6 for the arrears, Rs. 9,613 for the current, making a total of Rs. 12,079–7–6, were collected and Rs. 8–2–0 remitted. There were Rs. 1,307–5–6 in arrears at the close of the year 1895–96, which were reduced by the subsequent collections to Rs. 785–15–0. The percentages of collection to the current final demand and to arrears were 88·9 and 95·7 respectively against 77·7 and 88·5 of the previous year. The number of houses under taxation for the year under review was 4,130 against 4,134 of the last year and the incidence of tax per house was Rs. 1–10–4.

9. Water-tax on buildings and lands is not imposed in this municipality.

10. *Tax on Vehicles, Animals and Carts.*—The total receipts under these heads amounted to Rs. 4,589, which show an increase of Rs. 259 and Rs. 284–8–0 over the revised estimate of the year under review and the actuals of 1894–95, respectively.

11. *Coercive Process.*—The number of warrants that remained unexecuted at the close of 1894–95 was 295 and the number issued during the year under report was 2,928, making a total of 3,223. Two thousand six hundred and forty-six warrants were returned without distress as the defaulters paid up their dues before execution; in fourteen cases properties were attached and released, the tax having been realised before the time for sale, and in two cases, the attached properties were sold and the tax recovered. There were 89 warrants remaining unexecuted at the close of the year under review, 472 warrants being cancelled.

12. There are no toll-gates under the management of this municipality; but the Trichinopoly District Board continues paying contribution of Rs. 1,000 to this municipality.

13. *Incidence of Taxation.*—The total population according to the census of 1891 is 21,632, and the total income from taxation in the year under review was Rupees 19,961–2–0 excluding tolls and Rs. 20,961–2–0 including them. The incidence of tax per head of population including tolls was As. 15–6 and excluding tolls was As. 14–9 against As. 12–3 and As. 13, respectively, in last year.

14. *Realizations under Special Acts—Fees under Act II of* 1888.—Three licenses [illegible]ere granted for opening places of public resort during the year under review; hence an increase of Rs. 75 over the actuals of last year.

B.—Miscellaneous Receipts.

15. *Revenue derived from municipal property and powers apart from taxation.*—The receipts under this amounted to Rs. 5,084–3–7, showing a decrease below the actuals of the previous year by Rs. 106–6–5. This is chiefly under item conservancy receipts.

Sale-proceeds of Night-soil, Street-refuse, &c.—There is a decrease both below the revised estimate and the actuals of previous year by Rs. 138–5–2 and Rs. 280–8–8, respectively. The reason for the decrease was that when the contract of rubbish was cancelled at the latter part of the year for failure of monthly payment by the contractor, the rubbish was not re-sold but utilized for the purposes of filling up ditches by the sides of the Ammamantapam road and thereby widening it as provided for in the budget estimate. There was no receipt under night-soil sale-proceeds for the year, as it was only towards the end of the year that the council was able to secure a contract for sale, and the amount will be realized along with that of the present year. The site that had been used as night-soil depôt till March 1895 has been leased out for three years for cultivation at Rs. 28 per year.

16. *Grants and Contributions.*—The total receipts under this head were Rupees 3,087–9–2, which show a decrease below the revised estimate and an increase above the actuals of 1894–95 by Rs. 292–6–10 and Rs. 2,205–5–7, respectively. The difference is explained in the following items:—

(*b*-ii) *Medical—From Local Boards.*—There is an increase of Rs. 2,000 over the actuals of previous year 1894–95, which is due to the balance of contribution due by the taluk board towards the maintenance of the hospital and dispensary for the year 1894–95 having been paid in the year, the payment of the balance was deferred by the board, pending the disposal of the question as to whether the whole or one-third of the promised contribution was to be paid by the board.

(*b*-iii) *Other purposes.*—There is a decrease of Rs. 198–5–10 below the revised estimate which was attributable to the contribution from the taluk board for the late Yekadasi festival not having been drawn within the year.

(*c*) *Other Grants and Contributions—Medical.*—The receipts under this head were Rs. 135 showing a decrease both below the revised estimate and the actuals of previous year 1894–95. This was owing to the monthly contribution by the trustees of the Srírangam pagoda towards the maintenance of the hospital and dispensary not having been paid within the year under review.

17. *Miscellaneous—Recoveries on account of services rendered to Private Individuals—Private scavenging.*—There was a balance of Rs. 168–7–6 at the commencement of the year under report which, with the demand of the year Rs. 1,065–4–6, made a total of Rs. 1,233–12–0, of which Rs. 70–5–0 for arrears and Rs. 1,022–5–6 for current were collected and leaving a balance of Rs. 140–8–6 which was reduced to Rs. 138–3–6 by the subsequent collections. The council found the arrears to be due to the carelessness of the scavenging inspector who was forced to resign and of whose salary Rs. 30 has been resolved to be made good for this item.

The number of houses served by the private scavenging agency on the 31st March was 1,028, the number in first half year being 996, as against 1,004 in 1894–95. The increase of houses is probably due to the greater number of prosecutions (21 against 7 in the previous year) that have been instituted under instructions of Government in No. 1422 M., dated 4th September 1895. It may not be [illegible]f place here to remark that though houses were suspected to be unclean an[illegible] notices issued for the inspection of private privies, yet the time of six hours [illegible]d under the Act was probably availed of to get them cleaned, thus enabling t[illegible]wners to save themselves from prosecution.

In obedience to the other instructions of Government in the said Government Order, we beg to state that the rates are raised from this year to make the system self-supporting as far as possible. This has caused considerable hardship to the poor inhabitants and that, with the present system of collecting the fee in advance, might reduce the number of houses served as it is only optional to utilize the services of municipal toties.

III.—EXPENDITURE.

18. The total expenditure for the year under review under all grants amounted to Rs. 28,265–9–9, which when compared with the revised estimates of the year and the actuals of the previous year 1894–95 shows a decrease below the estimate and an increase over the actuals by Rs. 3,754–6–3 and Rs. 5,274–8–7, respectively. The variations are shown below.

19. *Grant I, Public Works, New Works—Communications.*—Rs. 4,513–3–10 were spent under this head showing an increase both over the revised estimate and the actuals of 1894–95 by Rs. 43–3–10 and Rs. 1,066–3–10, respectively. The slight difference between the revised estimate and the expenditure does not require any special remark and the reason for the excess over the actuals of last year is due to an extension of one and a quarter miles of new metalled road as against half a mile for the last year.

20. *Buildings.*—The expenditure under this head amounted to Rs. 1,335–9–7, which shows a decrease of Rs. 534–6–5 below the revised estimate and an increase of Rs. 810–13–9 over the actuals of Rs. 524–11–10 of 1894–95. The main reason for the increase over the actuals of last year is that three new latrines were built, the dressing-room of the hospital was erected, twenty dust-bins against twelve for the last year were bought and the renewal of flight of steps at the bathing ghaut of Nattuvaikal at Kondayampettai was made, and the reason for the difference below the revised estimate is that the price of 49 dust-bins supplied within the year was billed for after the new year commenced. Further, the fittings for the meeting hall were not undertaken as a new design is now under consideration.

21. *Water-supply.*—The expenditure under this head amounted to Rs. 168–12–8, which shows a decrease of Rs. 291–3–4 below the revised estimate and an increase of Rs. 146–15–8 over the actuals of last year. The reason for the decrease is due to the council having resolved not to carry out the raising of the platforms around seven wells with pulleys for the same in view of the water scheme now pending before the Government. The increase over the last year is mainly due to having sunk two new wells with pulleys.

22. *Repairs—Communications.*—The expenditure under this head was Rs. 648–7–9 showing a decrease below the revised estimate and the actuals of previous year 1894–95 by Rs. 651–8–3 and Rs. 566–2–10, respectively. The reason for the difference is due to there having been savings under each head of the repairs. The repairs effected were not so much as anticipated and even the cost of the works done was less than what was estimated for.

The length of the roads including the streets maintained during the year under review was $16\frac{3}{4}$ miles as in previous years, of which total length of metalled roads was $8\frac{3}{4}$ miles as against $7\frac{1}{2}$ miles in previous year. $1\frac{11}{16}$ miles were re-metalled during the year under review. All the streets were sectioned providing side channels for the free passage of rain water.

23. *Buildings.*—A sum of Rs. 148–5–10 was spent under this head showing a decrease of Rs. 151–10–2 below the revised estimate and an increase of Rs. 121–2–2 over the actuals of the last year. The decrease is mainly due to the repairs in the hospital not having been commenced within the year and the increase is due to the repair of the slaughter-house as per Sanitary Commissioner's suggestion.

24. *Grant II, Education.*—The expenditure under this grant amounted to Rs. 3,046–5–10, which shows a decrease of Rs. 1,333–10–2 below the revised estimate and an increase over the actuals of previous year 1894–95 by Rs. 109–8–1. The decrease below the revised estimate is due to the non-payment of stipends to normal students for which no bill was received and to the savings effected from the provisions made for several items under this grant. The increase is due to the granting of over-earned grants to aided schools under result system.

25. *Municipal Schools on Salary-result System—Primary Education of boys.*—There were seven schools at the beginning of the year under review and one was opened on the 30th September 1895 in West Adayavalanjan street as recommended by the educational authorities. As the strength of the Mélúr result system school went down, the headmaster was found sufficient to manage the whole school and his assistant was transferred therefrom to this newly started school. This teacher is undergoing normal training. The cost of this new school was met from the budget allotment, and it did not suggest itself to the council to obtain the sanction of the Government for the same, if really its sanction is necessary. The percentage of passes is 78·91 as the following table shows:—

	Pupils presented.	Pupils passed.
Infant standard	40	32
First do.	40 girls 2	31 girls 2
Second do.	28	26
Third do.	27	20
Fourth do.	10	5
Total ..	147	116

The strength of these eight schools on the rolls was 275 boys and 31 girls on the 31st March 1896 against 215 boys and 29 girls in previous year, and this is due to the starting of this new school in a good locality and to the strength of the Anglo-Vernacular school having risen from 57 to 82. All these eight schools were examined for grants. A sum of Rs. 293–3–9 was paid in the shape of result stipends to these schools at the maximum rate with the exception of Anglo-Vernacular school to which 75 per cent. was paid as recommended by the Educational department.

26. *Result Grants.*—The number of schools notified for examination in the combined list was nine. Of these eight were examined and Rs. 1,144–3–6 were given to them as result grants including Rs. 218–9–0 paid as over-earned grants. These grants were paid at the maximum rates from infant to seventh standard. Rupees 150 allotted in the budget for salary grants were transferred to the head of result grants and the same was utilized in the payment of result grants to the lower secondary school at Thiruvanakaval. This transfer was sanctioned by Government in G.O., No. 742 M., dated 2nd May 1896. The percentage of passes is 74·77 as shown below:—

	Pupils presented.	Pupils passed.
Infant standard	55 girl 1	40 girl 1
First do.	45	38
Second do.	73	56
Third do.	80	58
Fourth do.	55	42
Fifth do.	15	10
Sixth do.	10	5
Seventh do.	3	2
Total ..	337	252

The strength of the Panchama school has risen from 56 to 66.

27. Furniture grant was also paid to the above schools to the extent of Rs. 99 on the recommendation of the inspecting officers.

28. *Drawing and Gymnasium.*—The drawing master and the gymnastic instructor are certificated men. Instructions in gymnastics to private persons, which were discontinued last year, are revived from January 1896. The pupils of two lower secondary schools in the town were also allowed to undergo instructions in the drawing and gymnastic classes at the request of the managers thereof on payment of monthly contribution of Rs. 2 from each.

29. It is to be noted that all the teachers employed in all salary-result schools under the management of the municipality are passed men. The net expenditure

was Rs. 2,478–15–10 or 11·4 per cent. of the income from taxation. Of the net expenditure, Rs. 180 were spent on secondary education and the remainder on primary education.

30. *Grant III, Sanitation and Medical Services.*—The expenditure under this grant was Rs. 11,812–14–7 against the revised estimate of Rs. 13,270 and the actuals of Rs. 10,232–10–0 of 1894–95, showing a decrease of Rs. 1,457–1–5 below the former and an increase of Rs. 1,580–4–7 over the latter.

31. *Hospital and Dispensary.*—This institution has, as usual, maintained its usefulness. It is under the charge of the Senior First-class Hospital Assistant C. Thirumalai Naidu. He is assisted by a third-class hospital assistant. The latter was appointed on the 21st October last, as provided for in the budget, on abolishing the office of the clerk on Rs. 10 a month attached to this institution. The number of in-door patients treated during the year was 234 against 236 of last year and out-door patients 17,420 against 18,548. There had been a decrease both in the in-and out-door patients by 2 and 1,128, respectively. The decrease was due to non-appearance of cholera and to the small number of sore-eye cases treated during the year under report. Fifteen Brahman in-door patients were admitted and treated. Usual arrangements were made for their accommodation in the hospital. Eight of them were dieted at the municipal cost.

32. The number of labour cases treated in the lying-in ward by the midwife was 3 as in last year, and that in the town and adjacent villages was 101 against 108 in previous year. The untrained midwife was paid up to December 1895 a monthly salary of Rs. 12 in addition to a remuneration of one rupee for each labour case attended by her over the fixed minimum and also a corresponding reduction of one rupee was made in her salary for each case below the minimum. From January 1896 she is paid Rs. 10 a month with a remuneration of annas 8 for each case under G.O., No. 441 L., dated 9th March 1895, without any corresponding reduction for short work. The midwifery pupil, Soosanna Ammal, referred to in paragraph 37 of the last year's administration report, has completed her course of study in the Government Maternity Hospital, Madras, and she is expected to join her duty shortly. The total expenditure under item hospital and dispensary amounted to Rs. 2,786–0–9. There is a decrease of Rs. 213–15–3 below the revised estimate of Rs. 3,000 and an increase of Rs. 595–12–10 over the actuals of previous year Rs. 2,190–3–11. The decrease below the revised estimate was due to the unavoidable delay in payment of the value of medicines supplied by Messrs. Burgoyne, Burbidges & Co., London, within the year under report. The increase is mainly due (1) to the increase in the establishment charges by the appointment of a third-class hospital assistant, (2) to the payment of medicine charges incurred in the year 1894–95, (3) to the putting up of screens as suggested by the Surgeon-General, and (4) to the purchase of a patent filter at the suggestion of the Collector of the district.

33. *Contribution to Provincial Funds.*—Rs. 238 were paid towards the proportionate cost of Medical College, Sanitary Inspection, Medical Reserve Staff and Cutler's Establishment. There was an increase of Rs. 8 over the revised estimate and a decrease of Rs. 26 below the actuals of previous year. No explanation for the difference is necessary as the contribution was paid according to the demand made by the treasury officer of the district under the instructions of the Accountant-General.

34. *Vaccination.*—The charges amounted to Rs. 288–3–6, showing a decrease of Rs. 11–12–6 below the revised estimate and an increase of Rs. 72–0–3 over the actuals of previous year. The increase was due to the working of animal vaccination throughout the year under review. The glycerine paste purchased by the municipality, at the suggestion of the senior hospital assistant, was intended for and was utilized in the cases where the parties allowed their children to be vaccinated, as in such cases, which were few in number at a time, the bringing of a calf for ready use was considered not advantageous. Of 43 cases thus treated, 41 proved successful. The total number of cases vaccinated during the year, both by the municipal vaccinator and the senior hospital assistant, was 1,233, of which 1,185 cases were by the vaccinator and the remainder 48 by the hospital assistant, which show an increase of 106 cases

over the number (1,127) in last year. Of 1,185 cases operated on by the vaccinator, 1,140 were successful, 15 unsuccessful and 30 unknown. Of 48 cases performed by the hospital assistant, 46 were successful and the 2 unsuccessful as detailed below :—

—	Under one year.			Above one year.		
	Successful.	Unsuccessful.	Unknown.	Successful.	Unsuccessful.	Unknown.
Vaccinator	480	3	5	660	12	25
Hospital Assistant	16	..	..	30	2	..
Total ..	496	3	5	690	14	25

35. *Infantile Vaccination.*—To find out the percentage of infantile vaccination in the year under review to the number of births, we are to take into calculation births between 1st October 1894 and 30th September 1895, as under section 134 of the District Municipalities Act IV of 1884 an unprotected child of over six months alone can be vaccinated. The births during this period are 702, of which 98 died before issue of notice, 17 died after issue of notice and prosecution, 138 left the place before issue of notice, and 46 left the station after issue of notice but before prosecution, thus leaving 403 cases capable of being vaccinated. Of this 17 cases before, and 45 cases after, the issue of notice were vaccinated, 219 cases were vaccinated after prosecution, 58 cases left the station after prosecution, and 63 cases were pending at the close of the year before magistracy. One case is unaccounted for.

36. Seven hundred and nineteen notices were served upon the parents and guardians to get their children vaccinated; 205 persons complied with these notices and got their children vaccinated, 46 left Srírangam to other places, 12 died, and 456 failed to vaccinate their children. The magistracy was requested to take proceedings against the said 456 persons, as also against 75 others remained in last year. Out of 531 cases, 292 got their children vaccinated within the time given by the magistrates and in 29 cases the parents were convicted and punished for disobedience of order; 159 left the town, 11 died and 69 cases pending before magistracy including 63 cases shown under the head infantile vaccination. Of the 29 cases convicted, the children were vaccinated in 27 cases, in 1 case the child had left the town and 1 died.

37. The services of the probationary vaccinator appointed under the orders of Government had been dispensed with from 1st October 1895 as required by the Inspector of Vaccination and Deputy Sanitary Commissioner in his inspection notes embodied in G.O., No. 1997 M., dated 28th November 1895.

38. The number of births and deaths registered during the year under review were 740 and 653, respectively, showing an increase of 84 births and a decrease of 37 deaths over and below the figures of last year. The number of prosecutions for default in registering occurrences of births is 32 and of deaths 30. These, with the 2 cases pending before the magistracy at the commencement of the year, made a total of 64 cases; in 47 cases the defaulters were convicted, 4 cases were withdrawn and the remaining 13 were pending before the magistracy at the close of the year.

39. *Conservancy.*—The expenditure under this head was during the year under review Rs. 8,380–7–0, showing a decrease of Rs. 1,219–9–0 below the revised estimate and an increase of Rs. 887–11–6 over the actuals of previous year 1894–95. The increase over the actuals of previous year was chiefly owing to the temporary entertainment of an observation staff consisting of one division inspector, three circle inspectors, four peons and four toties for cholera purposes under G.O., No. 1028 M., dated 26th June 1895, from 27th November 1895 to 7th January 1896, and to the purchase of cholera medicines and four wooden rubbish carts. The decrease below the revised estimate is chiefly owing to the saving from the cholera heading and the saving of Rs. 400 allotted for four water carts, which were not able to get ready within the year. A proposition statement for entertainment of cholera staff is submitted for sanction of Government.

40. *Private Scavenging.*—Rs. 1,669–9–2 were spent under this head, which show a decrease both below the revised estimate and the actuals of previous year 1894–95 by Rs. 210–6–10 and Rs. 88–0–7, respectively. The decrease was owing to the non-entertainment of toties, as proposed in the budget, and to the savings from the allotment for the purchase of sewage cart. The net charge under this head was Rs. 576–14–8.

41. The conservancy establishment, as it remained on the 31st March 1896, is as follows:—

3 sanitary inspectors,
10 peons,
14 sweepers,
20 conservancy scavengers,
1 private scavenging inspector,
18 private scavengers,
2 conservancy night-soil carts,
6 private scavenging carts, and,
15 rubbish carts.

With the above establishment all the streets and roads, &c., were kept clean. The street sweepings were removed twice a day to private gardens pointed out by the rubbish contractor and approved of by the sanitary inspector as usual. There were 16 public latrines on the 1st April 1895, of which one was closed and a new one was erected at a distant place at the suggestion of the Sanitary Commissioner. The two temporary latrines on the famine relief road were converted into pucka ones. There were 16 latrines at the close of the year, of which 10 were pucka built and 6 were temporary. The night-soil from these latrines was removed twice a day at about 7 A.M. and between 3 and 4 P.M., and that from the privies of the houses in Srírangam proper was removed daily between 7 and 9 A.M. and buried in the night-soil depôt.

42. The wells used for drinking purposes were preserved from impurities and a portion of Nattuvaikal channel in Srírangam and in Jambukeswaram was reserved solely for taking water for drinking purposes and watchmen were posted thereat to prevent people from polluting it. The proposal of introducing water scheme into the town is postponed pending the result of that in Trichinopoly Municipality.

43. There were 42 inches and 75 cents of rain as registered during the year under review as against 28 inches and 70 cents in the previous year. As water had fallen down considerably in the Coleroon river during the summer, Rs. 82–0–6 were spent in deepening the water course, &c. The health of the town was generally good throughout the year. The Ekadasi festival commenced on the 17th December last and continued for 21 days. Extra sanitary arrangements were made and cholera sheds, &c., were erected for both sexes as usual, at the suggestion of the District Medical and Sanitary officer and the Revenue Divisional officer. Isolation shed and quarantine sheds at the outskirts of the town were erected and the special hospital assistants and compounder were posted thereat with necessary medicines. The senior hospital assistant was also deputed to perambulating duty. The report submitted through the Collector on the working of the sanitary arrangement was reviewed by Government in their order, No. 500 M., dated 21st March 1896. A proposition statement of the special establishment entertained during the festival is herewith submitted for sanction of Government.

44. *Grant IV, Lighting and Miscellaneous Municipal Purposes.*—The total cost incurred during the year under review under this grant was Rs. 3,455–14–6, showing a decrease of Rs. 84–1–6 below the revised estimate and an increase of Rs. 1,589–3–6 over the actuals of previous year 1894–95. The variations are explained below.

(*a*) *Lighting.*—At the commencement of the year under report there were 286 lights, and 24 new lights were put up. The total number at the close of the year was 310. The cost of these lights was Rs. 1,840–9–1, showing a decrease of Rs. 149–6–11 below the revised estimate (Rs. 1,990). The decrease was due to the kerosene-oil, &c., not having been purchased at the higher rate at which estimate was framed.

(*b*) *Other Charges.*—(i) The expenditure under the head was Rs. 1,596–14–10, which shows an increase both over the revised estimates and the actuals of previous year 1894–95 by Rs. 96–14–10 and Rs. 1,283–15–5, respectively. The increase over the revised estimate was due to the cost of printing municipal proceedings and the furniture purchased for municipal meeting hall having exceeded the allotment made in the estimate.

(ii) Rupees 51–15–1 was spent in removing prickly-pear besides the removal of the same by private parties on notices being served on them.

(iii) *Destruction of Wild Animals.*—One hundred and forty-two dogs were killed at a cost of Rs. 19–0–2.

45. *Grant V, Supervision and Management.*—The total expenditure under this grant was Rs. 2,279–4–0, showing an increase of Rs. 9–4–0 over the revised estimate (Rs. 2,270). The increase is small and calls for no explanation.

46. The year closed with the balance of Rs. 7,537–3–4, or 24·8 per cent. of the current receipts.

47. The accounts of the year under review have not as yet been audited.

48. In conclusion, I beg to add that I had the hearty co-operation of the councillors in administering the municipal affairs.

ENCLOSURE.

CONCISE Report of the Municipal Hospital, Srírangam, for the official year 1895–96.

1. *Public Health.*—I am glad to report that the health of the people has been very good during the whole year. The rainfall during the year was ample. The total quantity of rain collected during the year was 42 inches and 75 cents against 28 inches and 70 cents in the previous year. The price of grains considerably reduced. Water was scanty in the end of last quarter in Cauvery, Coleroon and Nattoovaikal.

Neither cholera nor epidemics of any kind occurred during the year under report.

2. *Vital Statistics.*—There is only one registrar of births and deaths for this municipality.

Years.	Births.	Deaths.
1894–95	656	690
1895–96	740	653

3. *Sanitation.*—The sanitary condition of the town is fair.

STATEMENT showing the Conservancy Establishment for 1895–96.

Sanitary Inspectors.	Peons.	Scavenging Inspector.	Toties attached to		Latrines.		Sweepers.	Rubbish carts.	Night-soil carts.	Dust-bins.		Lights.	Sewage water cart employed during the festival.

Out-patients ..	17,933	16,183	18,548	17,420	86·33

(*e*) *Mortality and actual causes of it*—

	1894–95.	1895–96.
In-patients	13	†13
Out-patients	20	‡ 1

† Chronic dysentery, 3; acute dysentery, 1; burns, 2; chronic diarrhœa, 1; intessusseption of bowels, 1; pneumonia, 1; dyspepsia due to heart disease, 1; Bright's disease, 1; asthma, 1; cerebral fever, 1.

‡ Old age and debility, 1.

(*f*) *Operations and results.*—Nine major operations have been performed during the year, all with successful results, against seventeen in the previous year; 1,174 minor operations have been performed during the year against 1,171 in the previous year.

(*g*) *Establishment, whether sufficient and efficient.*—Establishment is complete and consists of one third-class hospital assistant on Rs. 25, one compounder on Rs. 12, one midwife on Rs. 10, one surgery cooly on Rs. 6, one ward cooly on Rs. 5, one nurse on Rs. 5, one cook on Rs. 5, one gardener on Rs. 5, one male toti on Rs. 5 and one female toti on Rs. 4.

(*h*) *Midwives.*—There is one untrained barber midwife and she has attended during the year 101 cases in the town and adjacent villages and 3 cases in the lying-in-ward against 108 and 3, respectively, in the previous year.

(*i*) There is no separate hospital for gosha women in the municipality.

(*j*) *General Remarks.*—Nil.

SRIRANGAM,
25*th April* 1896.

(Signed) G. TIRUMALAI NAYUDU,
1st-class Hospital Assistant, in medical charge.

There is an improvement in registration of vital statistics and vaccination; but infantile vaccination is still unsatisfactory.

TRICHINOPOLY,
28*th April* 1896.

(Signed) W. O'HARA, Surgn.-Lt.-Colonel,
District Medical and Sanitary Officer.

C. No. 1267-Rev.

Submitted to the Collector.

2. More attention should have been paid to the prompt collection of taxes.

3. The council will do well to increase their allotment for metalling roads and streets.

4*th June* 1896.

(Signed) A. SHANMUGASUNDARAM PILLAI,
Deputy Collector.

Dis. No. 944-Rev.

Submitted.

2. *Paragraph* 6, *Tax on Arts.*—The work of the municipality under this head is still unsatisfactory. In spite of the remarks in the last report, the demand as fixed at the end of the year was only Rs. 3,553, and as there were no less than 121 appeals pending, the demand may be still further reduced. The collections also were very poor, and there are still outstanding balances of the three preceding years.

Stricter attention is required towards careful revision of the taxes early in the year, prompt disposal of appeal petitions and prompt collections.

3. *Paragraphs* 7 *and* 8 (2), *Tax on Buildings and Lands.*—Though better than in previous year, the percentage of collection is still considerably below the presidency average, and old arrears dating as far back as 1890–91 should be collected or written off.

4. *Paragraph* 10, *Tax on Vehicles, Animals and Carts.*—The collections show a satisfactory increase as compared with last year, but as the statements do not show the demand (current and arrears), it is impossible to state what percentage has been collected. I presume the municipality keeps a demand, collection and balance register. If not, one should be opened at once, as the absence of such a register would facilitate fraud.

5. *Paragraph* 17, *Private Scavenging.*—More attention should be paid to the repeated orders of Government on this important subject, both with a view to make it self-supporting and to see that the fees are collected in advance, which latter does not appear to be always the case.

6. *Paragraph* 22, *Roads.*—The Divisional officer has not given his opinion on the state of the roads, as he only joined a few months ago. They are in fair order.

7. *Paragraphs* 34 *to* 36, *Vaccination.*—As remarked by the District Medical officer there was an improvement in vaccination (save infantile, which is not satisfactory) and registration of vital statistics.

8. *Paragraph* 43, *&c.*, *Sanitation and Ekadesi Festival.*—The arrangements for the latter were satisfactory, and I am glad to record that the Chairman and Council showed a great readiness to fall in with any suggestions for the furtherance of sanitation during that festival as well as at other times.

9. *General Remarks.*—There is still very much room for improvement, especially in the direction of taxation, collections, and private scavengering; but I think that a decided improvement has begun, which will, it is to be hoped, continue during the current year.

(Signed) J. ANDREW,
Collector.

10*th June* 1896.

ORDER—No. 1231 M., dated 22nd July 1896.

The receipts and charges of the Srírangam Municipality for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95:—

2. The municipal council held 36 meetings against 24 in the previous year, and only one meeting was adjourned for want of a quorum against seven in that year. The average attendance of the members as a whole improved, but that of the officials was still poor. Four seats were filled by election during the year; all were contested and 67·7 per cent. of the voters attended the poll.

3. *Receipts.*—(1) The net current demand under the tax on arts rose from Rs. 3,046 to Rs. 3,554 owing to an increase in the number of persons assessed, but the average incidence fell from Rs. 2–10–10 to Rs. 2–10–6 against a general average for the presidency of Rs. 4–2–5 in 1894–95. The assessment is still capable of much improvement and the matter should receive the special attention of the municipal council during the current year. The demand under the house and land taxes was almost stationary.

(2) The collections under the house and land taxes improved, but those under the tax on arts were very unsatisfactory. It is observed, however, that the council has been taking steps to recover outstandings, and the Government hopes that it will see that they are all realized at an early date. The attention of the council will be drawn to paragraphs 2 to 4 of the Collector's endorsement.

(3) The receipts from the taxes on animals and vehicles showed a slight improvement, but the income from the sale of sweepings, &c., fell from Rs. 752 to Rs. 412. The cause of this decrease is explained in paragraph 15 of the Chairman's report. There was a considerable decrease in the income from markets, which has not been explained.

(4) Only 24 houses were added during the year to the number served by the private scavenging agency in 1894–95, bringing the total number to 1,028, or only 24·9 per cent. of the number of houses assessed to house-tax, and the service continued to be worked at a considerable loss. The council again failed to collect all the fees for this service in advance. The municipal council has apparently not quite understood the remarks of Government in paragraph 3 (4) of G.O., No. 1422 M., dated 4th September 1895, regarding the prosecution of owners of insanitary premises. A single inspection of such premises cannot lead to any good. To be of real use it should be frequent and systematic, and, if so made, the Government believes it will be found that a large number of owners of houses, who do not avail themselves of the private scavenging agency, do not keep their premises in proper sanitary condition and deserve to be prosecuted under the Act. The Government is not satisfied that there has been any real improvement in the working of this service notwithstanding the repeated orders of Government, though apparently the municipal council has not been altogether inactive. The Chairman will, however, be requested to submit through the Collector at the end of three months from the date of the receipt of this order a full report as to the number of houses to which the service has been extended, the amount of fees due for the service and the amount collected up to the date of report, and the steps taken to extend the service and secure the cleanliness of all houses in the town.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year and a sum of Rs. 5,162, or more than five times the income from tolls, was spent on communications. The roads are reported by the Collector to have been in fair order.

(2) *Education.*—The net expenditure on education was Rs. 2,479, or 11·8 per cent. of the receipts from taxation, against Rs. 2,405 in the previous year. Of this amount a sum of Rs. 159 was spent on secondary, and the rest on primary, education. The municipal council maintained eight primary schools against seven in 1894–95, but the number of aided schools continued to be the same, one school having been opened and one closed during the year. The attendance at both municipal and aided schools improved, and the results at the various examinations were good. The allotment for grants was almost fully utilized, and the number of boys under instruction rose from 664 to 779, or 50·7 per cent. of the total male population of school-going age, which is still but a small proportion.

(3) *Medical Relief.*—The number of patients treated at the municipal hospital fell from 18,984 to 17,654, the decrease being most marked under out-patients. The explanation that it was partly due to the absence of cholera is not understood. It is very unusual for persons suffering from cholera to be treated at a hospital as out-patients. The midwife attended 104 cases of labour against 111 in the previous year.

(4) *Vaccination and Vital Statistics.*—The total number of vaccine operations rose from 1,127 to 1,233 and the quality of the work turned out improved. Infantile vaccination received more attention, but the number of infants vaccinated was still far below the number of births registered. The difference is explained in paragraph 35 of the Chairman's report.

The registration of births showed a slight improvement, but that of deaths declined. The rates in both cases were still below the normal average. The municipal council should endeavour to secure the completeness and accuracy of these statistics by enforcing the provisions of the Act on the subject.

(5) *Sanitation.*—The expenditure under this head was Rs. 8,381, or 4·6 per cent. in excess of the allotment and 27·6 per cent. of the total receipts. The sanitation of the town appears to have received proper attention, and the Government has already, in G.O., No. 500 M., dated 21st March 1896, expressed its satisfaction at the sanitary arrangements made by the council in connection with the Ekádasi festival.

The proposition statement referred to in paragraphs 39 and 43 of the Chairman's report is sanctioned. As it will be some time before the proposed water-supply scheme is completed, the improvement to the seven wells referred to in paragraph 21 should be carried out without further delay.

5. The year closed with a balance of Rs. 7,537, or 24·8 per cent. of the total receipts.

The administration of the municipality during the year under review was slightly better than in the previous year, but was far from efficient. The Government hopes that the improvement which has begun will be kept up, and that the council will strenuously exert itself to make the administration really satisfactory. The Government notes with pleasure the testimony borne by the Chairman to the co-operation of the councillors in the administration of the municipality.
