CURRENT No.

FROM
M. R. Ry. M. Venkatapathi Naidu Garu
CHAIRMAN, MUNICIPAL COUNCIL,
CONJEEVERAM.

To
THE Chief Secretary to Government Madras
Through Collector and Sub Collector Chingleput

SIR,

With reference to your reminder no 590 dated 27th May 1896 calling upon me to submit early report to G. O. no $\frac{646}{m}$ dated 8th April 1896 regarding burning and burial ground and reply thereto intimating that the reply called for has been forwarded to you through Collector and Sub Collector on the 22d April last no $\frac{16}{96}$ and that the latter officer had sent it back to me with the intimation that the grounds selected, being in the bed of the river "Vagavaty" where the works for the supply of water to this town are progressing, are unsuitable on Sanitary principle, I respectfully beg to state that the places marked 1. 2. 3 & 4 in plan B are those which were selected by the Council in its meeting dated 14th March 1896 in lieu of the old ones nos 5. 6. 7 & 8. As all of these grounds

x Not received in this office

Grounds are in the bed of the river, they are Considered as objectionable as has been pointed out by the Sub-collector, for the burial and burning in these places, will Contaminate the water supply.

2. The sections of people who were using the old burial and burning grounds nos 5, 6, 7 and 8, are brahmins, pallers and pariahs, the ~~two~~ 2 former living at Salaboghane within the limits of the municipality and the latter living out of the limits thereof.

3. The Council now took measures and arranged to the brahmins using a portion of the burial and burning place, now in use of Pillaipaliam people, marked No 12 in the plan and situated on the northern bank of the river above its high water mark; and to pallers using the high ground to the south of the road leading to Ambur which is in use by the castemen of these people and others and which appears to have been inspected by the Sanitary Commissioner during his last visit to the Town and approved by him as

as a suitable place for burial and burning. Both these places are so extensive that the people who use them readily agreed to the arrangement.

4. The place now pointed out to brahmins is at a distance of a furlong to their old burial and burning places, while the one arranged for pallers is at a distance of half a mile to them but at an easy distance to their houses.

5. The brahmins and pallers were consulted as to the Change and they are satisfied with the arrangements made. The arrangements so made avoid the necessity of procuring a separate piece of land for these people.

6. There remain only pariahs who should be provided with a place. As these men put up outside the limits of municipality the Sub-Collector has been addressed to their being provided with a suitable place.

7. Under these Circumstances, I request that permission may be accorded for the publication of a notification prohibiting the use of burial grounds nos 5 to 8.

8. My previous letter on the subject — No $\frac{16}{4.0}$ dated 22d April 1896 and its enclosures, the plan marked A, and the enclosure to this letter, Plan marked B, are herewith forwarded.

I have the honour to be

In this letter no new grounds are proposed, but only the closing of 4 burial grounds close to the head works of the water works, which are evidently objectionable. The Brahmins & Pakars are in future to use other existing burial grounds, & a ground is being provided by the Rev. authorities for the Pariahs. It is submitted therefore that the opinion of the D.M.&S.O. or the San. Engr. is not necessary as ~~the~~ no new sites are proposed. As regards the pariahs, a 2nd para is added to the Draft for approval.
