Ganjām	* 1,896	379.2	64	442	87	..	The districts of Malabar, South Canara, Nilgiris and Madras and the deltaic taluks of Tanjore, Kistna and Godavari have been exempted from the operation of the rules for the preparation of programmes of famine relief works. The programmes are for the rest of the Presidency and include generally the construction and repair of irrigation works and roads and miscellaneous works for the improvement of the drinking water-supply and village sanitation, the clearance of village sites and the like, as well as well-sinking and the removal of <i>nuth</i> grass, &c., to be executed with the aid of loans under the Land Improvement Loans Act. The bulk of the provision falls in most districts, as in last year, under the construction of wells and repair of the existing roads, neither of which class of works is likely to be sanctioned except under the pressure of necessity for providing relief works. The provision made is generally adequate. The entries in columns 4 and 5 of the statement are larger than those in columns 6 and 7 in the case of all districts except South Arcot and Trichinopoly. The deficiency in these districts was explained in the statement for the last year. The attention of the Collectors of these and other districts has been drawn to the instructions of the Government of India at the end of paragraph 5 of its Circular Resolution, dated 24th August 1893, No. 35-33, and they have been requested to revise the classification of works accordingly. The number of persons under the head "not sanctioned" is small in proportion to that under the head "sanctioned" in the case of all districts except Bellary. The Collectors have not explained what measures are being taken to bring more of the large works under sanction. They have been requested to furnish this information in future.
