GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. T. CHIDAMBARA RAO Garu, B.A., Chairman, Municipal Council, Kurnool, to the Chief Secretary to Government (through the Revenue Divisional Officer in charge of Ramallakot taluk), dated 8th June 1896, No. 132.

I have the honour to submit the administration report of the Kurnool Municipality for 1895–96.

I.—CONSTITUTION OF THE COUNCIL.

2. There were twenty-three meetings of the council held during the year, of which two were adjourned for want of quorum. The average attendance at each meeting of official councillors was 1·99 and of non-officials 6·58. The total average attendance at each meeting was 51·13. The total number of members on the council was sixteen, of which six were Hindus, six Muhammadans, two Europeans, one American and one Parsi.

II.—RECEIPTS.

3. The incidence of taxation was As. 9–9 a head against As. 9–7 of the previous year and the incidence of the aggregate income Rs. 7–1–7 against Rs. 4–11–8 of 1894–95, the increase under the latter being due chiefly to Government grant in connection with the water-works.

4. Including the opening balance the receipts amounted to Rs. 2,52,568–10–2 including a grant of Rs. 1,34,730 for the water-works or, excluding the amount connected with the water-supply, Rs. 37,960–5–4 as against Rs. 34,860–14–8 of the previous year. The expenditure during the period was Rs. 52,295–1–9 including the water-works charges or, without these charges, Rs. 39,460–14–2 as against Rupees 35,240–14–6 in 1894–95. The closing balance on the 31st March was Rupees 1,99,643–8–5 as against Rs. 79,498 of the previous year.

5. The following is a statement comparing the receipts of the year with the figures of the revised estimate and the actuals of 1894–95 :—

—	Actuals, 1894–95.	Revised estimate, 1895–96.	Actuals, 1895–96.
	Rs.	Rs.	Rs.
Tax on Arts	3,034	3,150	3,103
,, on Buildings	8,095	8,150	8,061
,, on Lands	612	640	560
,, on Vehicles	348	350	343
,, on Animals	1,248	1,320	1,285
,, on Carts	1,278	1,400	1,452
Tolls (less Local Fund share)	5,297	7,670	7,637
Contribution from Provincial Funds	27,784	1,37,860	1,37,613
,, ,, Local Funds	2,000	2,000	2,000
Fines and Fees	1,668	2,020	1,842
Fees from Markets, &c.	2,453	2,700	2,708
,, Municipal Schools	2,776	3,020	3,340
Miscellaneous	58,689	3,140	3,126
Total ..	1,15,282	1,73,420	1,73,070
Opening Balance ..	799	79,490	79,498
Grand Total ..	1,16,081	2,52,910	2,52,568

6. Compared with the figures of the revised estimate there is an increase of about Rs. 320 in the fees from municipal schools, due to an increase in the strength of the schools, of Rs. 86 under stipends to normal students, which is due to the circumstance that the arrears of 1894–95 were collected during the current year and of Rs. 52 in the taxes on carts, owing to an increase in the number of carts. The decrease under taxes on arts, buildings and lands is due partly to remissions granted on account of poverty and partly to the non-recovery of the taxes in certain cases owing to the absence of several of the defaulters from the town. The decrease of Rs. 180 under sale-proceeds of night-soil is due to want of competition at the sales and of about Rs. 300 in the contribution to the net cost of the municipal high school is due to an increase in the fees collected in the upper secondary department of the high school. The decrease under fines is due to the uncertain nature of the item.

7. As compared with the actuals of 1894–95, the receipts show an increase all round, except in certain cases. The large increase under tolls is due to the collection of tolls at the maximum rate. The increase of Rs. 174 under taxes on carts is due to an increase in the number of carts. The increase of about Rs. 308 under sale-proceeds of night-soil is due to a greater demand for the night-soil refuse than in the previous year. The increase of about Rs. 560 under fees from municipal schools is due to increase in the attendance at the schools and the increases of Rs. 113 and Rs. 141 in fees from the market and slaughter-houses respectively are due to brisk competitions at the sales. The increase of about Rs. 240 under fines is due to infliction of heavy fines by the magistracy and the increase of Rs. 116 under stipends to normal students is due to the recovery of arrears during the year.

The decreases being very slight no remarks have been offered.

8. It now remains to deal individually with some of the chief items under receipts.

9. *Tax on Arts.*—The original demand was Rs. 3,237–8–0, of which Rs. 3–8–0 was remitted on revision and Rs. 41–8–0 on appeal. Thus the net demand was Rupees 3,192–8–0, of which Rs. 3,073 or 96·27 per cent. were collected during the year against 98·23 in the previous year. Of the balance of Rs. 119–8–0, only Rupees 55–8–0 have since been collected and the remaining sum of Rs. 64 could not be collected owing to the absence of the parties concerned from the town. Of the arrears of Rs. 54 due for 1894–95, a sum of Rs. 30 was collected, Rs. 4–8–0 were remitted on appeal and Rs. 19–8–0 were written off as irrecoverable. Two hundred and thirty-eight warrants were issued for the recovery of Rs. 305 and Rs. 244, being the sum of 185 warrants, collected. Property was attached in six cases but not sold.

10. *Tax on Buildings.*—The tax was levied at the rate of 7½ per cent. as usual. The original demand was Rs. 8,250–1–2, of which Rs. 56–8–2 were remitted on appeal. The final demand was Rs. 8,193–9–0, of which Rs. 8,005–14–3 or 97·70 per cent. were collected within the year, Rs. 50–12–6 were remitted on vacant and ruined buildings, leaving a balance of Rs. 136–14–3. Of this sum only Rs. 21–6–0 have been collected up to date. The balance could not be collected as usual owing to the absence of the defaulters from the town in some cases and to no property being available for attachment in other cases. The arrear demand of the previous year was Rs. 118–6–0, of which Rs. 55–2–8 were collected during the year, Rs. 2–10–8 were remitted on appeal and Rs. 60–8–8 were written off as irrecoverable. One thousand and seventy-eight warrants were issued for the collection of Rs. 726–11–2 against 1,252 for the recovery of Rs. 773–14–0 in the previous year. The amount of 810 warrants, viz., Rs. 593–0–2, was collected. Property was actually attached in 31 cases, but in no case was property sold.

11. *Land-tax.*—The net demand was Rs. 630–10–4, of which Rs. 525–8–4 was collected during the year. Out of the balance of Rs. 105–2–0 a sum of Rs. 53–3–10 has been collected; the remaining sum of Rs. 51–14–2 could not be collected owing to the absence of the defaulters. One hundred and two warrants were issued for the collection of Rs. 193–9–7 against one hundred warrants for the recovery of Rupees 146–0–3 in the previous year. Rs. 90–7–9 were collected, being the amount of fifty warrants. Property was attached in only one case but not sold. The arrear

demand was Rs. 41–13–5, of which Rs. 34–15–0 were collected and the balance of Rs. 6–14–5 was written off as irrecoverable. The total extent of lands assessed during the year was 1,158 acres and 60 cents.

12. *Tolls.*—Tolls were levied at the maximum rate during the year. The gross receipts under tolls amounted to Rs. 10,361–4–0. The charges came up to Rs. 917–4–2. The amount contributed to the district board up to 31st March 1896 was Rs. 1,890–13–10 and a sum of Rs. 470–2–1 was paid in April 1896. The net municipal income from tolls was thus Rs. 7,082–15–11.

13. *Provincial Contribution to the Upper Secondary Department of the High School.*—A sum of Rs. 2,722–14–5, including Rs. 450–6–5, arrears for 1894–95, or Rs. 2,272–8–0, was collected during the year on this account. According to the statement of receipts and charges and net cost of the high school for 1895–96 furnished by the headmaster, the net charges of the upper secondary department amount only to Rs. 2,215–8–1. A sum of Rs. (2,272–8–0 —2,215–8–1) 56–15–11 was thus drawn in excess of the actual amount due. This will be adjusted in the accounts of the current year.

14. *Private Scavenging Fees.*—Under this head a sum of Rs. 374–10–2 was collected during the year as against Rs. 368 in the previous year. One hundred and sixty-seven houses were served as against 174 in 1894–95. The decrease of seven houses is due to tenants having vacated. As it was not possible with the present staff to increase the number of private houses served by municipal toties, it was expected that more people could be made to utilize the services of municipal toties by the appointment of a special inspector or supervisor on Rs. 10; but as the Government could not, owing to want of funds, sanction the appointment, it has not been possible to effect any improvement in this direction.

III.—Charges.

15. The following abstract compares the charges of the year with those of the previous year:—

	1894–95.	1895–96.
	Rs.	Rs.
Grant I	8,490	22,132
„ II	8,032	8,464
„ III	12,763	13,851
„ IV	1,884	1,375
„ V	2,532	3,584
Repayment of debt	..	1,431
Interest	..	1,953
Advances recoverable	2,382	120
Refund of current collections	..	15
Balance	79,498	1,99,644
Total	1,16,081	2,52,569

Grant I, (1) *New Works*—(*a*) *Communications.*—A provision of Rs. 1,050 was made in the budget for the improvement of street No. 11 Fort, and of Rs. 1,000 for street No. 6 Peta. A sum of Rs. 875 was actually spent for street No. 11 Fort, and Rs. 811 for street No. 6 Peta. The full sums allotted for the improvement of the streets were not spent partly because of the delay in settling compensation with owners of house-sites required for improving the streets and partly because of the fall in the receipts from tolls. The improvement to street No. 11 Fort will be completed during the current year and it will be two or three years before street No. 6 Peta can be completely improved.

(*b*) *Buildings.*—A sum of Rs. 60 was spent on account of the pay of the temporary draftsman employed for the preparation of estimates and plans for the improvements and repairs of the municipal hospital sanctioned in G.O., Mis. No. 947 M., dated 16th June 1895.

(*d*) *Water-supply.*—A sum of Rs. 13,458–3–7 was actually spent in connection with the water-works now in progress. The state of the work on the 31st March 1896 was as follows:—

(1) *Offtake at Canal.*—About three-fourths completed.

(2) *Engine and Boiler-house.*—About one-third completed.

(3) *Fencing Roads, Land, &c.*—A small approach road and culvert built; the compensation for land not yet decided.

(4) *Engines, Pumps and Boilers.*—These are being made in England and will be delivered here in June.

(5) *Pumping Main.*—Contract for supply was placed in February.

(6) *Laying and jointing pumping main.*—Contract will not be given out till the pipes arrive in June.

(7) *Settling Reservoir.*—Excavation practically complete; the final decision as to lining having now been arrived at, the masonry works will be pushed on.

(8) *Masonry Conduit.*—Earthenware pipes have been substituted being cheaper and better. The excavation is nearly complete and most of the pipes are delivered.

(9) *Filter Beds.*—Ninety per cent. of masonry finished.

(10) *Service Reservoir.*—Excavation of foundations complete and masonry started.

(11) *Pipes valves, &c.*—The contract for delivery (to commence in June) was made in February 1896.

(12) *Laying and jointing.*—Contract will be given out in June when delivery of pipes commences.

16. (2) *Repairs*—(*a*) *Communications.*—The provision of Rs. 1,900 made for the maintenance of roads was exceeded by Rs. 36–5–9 as the sum allotted was insufficient. Including new works a total sum of Rs. 3,622 was spent on communications being more than half the net income to the municipality from tolls, which amounted to Rs. 7,082–15–10.

(*b*) *Buildings.*—(i) Although a sum of Rs. 50 was provided in the budget for repairs to the hospital building only, a sum of Rs. 1–15–11 was actually spent for the purpose.

(ii) The repairs to the high school building cost Rs. 58–5–6 against Rs. 45 sanctioned in the budget.

(iii) No repairs were effected to the traveller's bungalow although a sum of Rs. 150 was provided for the purpose in the budget.

(iv) A sum of Rs. 7–1–10 was expended for repairs to the municipal office against Rs. 20 sanctioned in the budget.

(v) Only a sum of Rs. 1–8–0 was spent for repairs to toll-gates against a provision of Rs. 15.

(vi) There was no provision in the budget for repairs to the slaughter-house, but a sum of Rs 1–8–0 was spent for the purpose.

(vii) The charges for repairs to public latrines amounted to Rs. 37–13–8 against a provision of Rs. 40.

(viii) No provision was made in the budget for repairs to the municipal upper primary school building. As accommodation in the school was insufficient in consequence of the increase in the strength of the school, a sum of Rs. 259–4–3 was expended for effecting the necessary improvements and repairs to the building. Of this amount sanction was accorded in G.O., Mis. No. 737 M., dated 6th May 1895, for Rs. 199–8–6 and Rs. 41–11–8 was sanctioned in the revised estimate. A sum of Rs. 18–0–1 was thus spent in excess of the sanctioned amount. A total sum of Rs. 390 was sanctioned in the revised estimate for repairs to buildings, but only a sum of Rs. 372–15–9 was actually spent for the purpose, including repairs and improvements to the municipal upper primary school building.

(*c*) *Drains.*—There was a provision of Rs. 50 in the budget, and a sum of Rs. 50–11–6 was spent on this account.

(*d*) *Water-supply.*—The charges under this head amounted to Rs. 157–10–0 against Rs. 160 sanctioned.

17. *Grant II, Education.*—The charges under this head came to Rs. 8,463–8–1, against Rs. 8,520 sanctioned in the revised estimate and against Rs. 8,032–2–1 of the previous year. The decrease in the charges, as compared with the revised estimate, is due chiefly to permanent arrangements not having been made to fill up the second assistant's place in the municipal high school, which became vacant at the end of January 1896 owing to the death of the permanent incumbent.

18. *Training Schools.*—There was a provision of Rs. 120 sanctioned in the budget. However, a sum of Rs. 46 only was spent for the purpose. The decrease of Rs. 74 under this head is due to stipends having been paid to normal students only for the months of March, April and May 1895.

19. *The Municipal High School.*—The total charges amounted to Rs. 5,950–12–10, against Rs. 5,990 sanctioned in the budget and Rs. 6,034 of the revised estimate. The decrease in the charges is due to permanent arrangements not having been made during the year to fill up the place of the second assistant, which became vacant by the death of the permanent incumbent. The charges of the previous year amounted to Rs. 5,795.

The charges were apportioned as follows:—

	Rs.	A.	P.
Upper Secondary department	3,670	14	4
Lower do.	2,279	14	6
Total ..	5,950	12	10

The average strength of the school during the year was 124·75 as against 115·54 of 1894–95 and the average attendance 102·22 against 99·10 as detailed hereunder:—

	Average number on rolls.	Average attendance.
Upper Secondary department	40·46	33·53
Lower do.	84·29	68·69
Total ..	124·75	102·22

The results at the public examinations were again far from being creditable. Only one, out of eight pupils sent up for the Matriculation examination, passed. The results of the Lower Secondary examination were, however, satisfactory; 15, out of 17 pupils sent up, passed the examination—3 of them passed in list I, 6 in list II and 6 in list III. The special attention of the headmaster has been drawn to the unsatisfactory results of the Matriculation examination, and, it is hoped, that there will be an improvement in the future.

20. *The Upper Primary School.*—The total charges, including a sum of Rs. 250 paid for result grants, amounted to Rs. 1,101–1–10. This sum does not include the pay of the gymnastic instructor. The average strength of the school during the year was 200 and the average attendance 166. The number of pupils presented for examination under each standard, the number passed, and the percentage of passes to the number examined will appear from the following tabular statement:—

Name of examination.	Name of standard.	Number presented for examination.	Number passed.	Percentage of passes to number examined.
Lower Primary Examination	[illegible]fant ..	22	14	63
	[illegible]t Standard..	17	12	70
	[illegible]d do. ..	21	15	71
	3rd do. ..	29	20	69
Upper do.	4th do. ..	29	10	34

(*d*) *Water-supply.*—A sum of Rs. 13,458–3–7 was actually spent in connection with the water-works now in progress. The state of the work on the 31st March 1896 was as follows:—

(1) *Offtake at Canal.*—About three-fourths completed.

(2) *Engine and Boiler-house.*—About one-third completed.

(3) *Fencing Roads, Land, &c.*—A small approach road and culvert built; the compensation for land not yet decided.

(4) *Engines, Pumps and Boilers.*—These are being made in England and will be delivered here in June.

(5) *Pumping Main.*—Contract for supply was placed in February.

(6) *Laying and jointing pumping main.*—Contract will not be given out till the pipes arrive in June.

(7) *Settling Reservoir.*—Excavation practically complete; the final decision as to lining having now been arrived at, the masonry works will be pushed on.

(8) *Masonry Conduit.*—Earthenware pipes have been substituted being cheaper and better. The excavation is nearly complete and most of the pipes are delivered.

(9) *Filter Beds.*—Ninety per cent. of masonry finished.

(10) *Service Reservoir.*—Excavation of foundations complete and masonry started.

(11) *Pipes valves, &c.*—The contract for delivery (to commence in June) was made in February 1896.

(12) *Laying and jointing.*—Contract will be given out in June when delivery of pipes commences.

16. (2) *Repairs*—(*a*) *Communications.*—The provision of Rs. 1,900 made for the maintenance of roads was exceeded by Rs. 36–5–9 as the sum allotted was insufficient. Including new works a total sum of Rs. 3,622 was spent on communications being more than half the net income to the municipality from tolls, which amounted to Rs. 7,082–15–10.

(*b*) *Buildings.*—(i) Although a sum of Rs. 50 was provided in the budget for repairs to the hospital building only, a sum of Rs. 1–15–11 was actually spent for the purpose.

(ii) The repairs to the high school building cost Rs. 58–5–6 against Rs. 45 sanctioned in the budget.

(iii) No repairs were effected to the traveller's bungalow although a sum of Rs. 150 was provided for the purpose in the budget.

(iv) A sum of Rs. 7–1–10 was expended for repairs to the municipal office against Rs. 20 sanctioned in the budget.

(v) Only a sum of Rs. 1–8–0 was spent for repairs to toll-gates against a provision of Rs. 15.

(vi) There was no provision in the budget for repairs to the slaughter-house, but a sum of Rs 1–8–0 was spent for the purpose.

(vii) The charges for repairs to public latrines amounted to Rs. 37–13–8 against a provision of Rs. 40.

(viii) No provision was made in the budget for repairs to the municipal upper primary school building. As accommodation in the school was insufficient in consequence of the increase in the strength of the school, a sum of Rs. 259–4–3 was expended for effecting the necessary improvements and repairs to the building. Of this amount sanction was accorded in G.O., Mis. No. 737 M., dated 6th May 1895, for Rs. 199–8–6 and Rs. 41–11–8 was sanctioned in the revised estimate. A sum of Rs. 18–0–1 was thus spent in excess of the sanctioned amount. A total sum of Rs. 390 was sanctioned in the revised estimate for repairs to buildings, but only a sum of Rs. 372–15–9 was actually spent for the purpose, including repairs and improvements to the municipal upper primary school building.

(*c*) *Drains.*—There was a provision of Rs. 50 in the budget, and a sum of Rs. 50–11–6 was spent on this account.

(*d*) *Water-supply.*—The charges under this head amounted to Rs. 157–10–0 against Rs. 160 sanctioned.

17. *Grant II, Education.*—The charges under this head came to Rs. 8,463–8–1, against Rs. 8,520 sanctioned in the revised estimate and against Rs. 8,032–2–1 of the previous year. The decrease in the charges, as compared with the revised estimate, is due chiefly to permanent arrangements not having been made to fill up the second assistant's place in the municipal high school, which became vacant at the end of January 1896 owing to the death of the permanent incumbent.

18. *Training Schools.*—There was a provision of Rs. 120 sanctioned in the budget. However, a sum of Rs. 46 only was spent for the purpose. The decrease of Rs. 74 under this head is due to stipends having been paid to normal students only for the months of March, April and May 1895.

19. *The Municipal High School.*—The total charges amounted to Rs. 5,950–12–10, against Rs. 5,990 sanctioned in the budget and Rs. 6,034 of the revised estimate. The decrease in the charges is due to permanent arrangements not having been made during the year to fill up the place of the second assistant, which became vacant by the death of the permanent incumbent. The charges of the previous year amounted to Rs. 5,795.

The charges were apportioned as follows:—

	Rs.	A.	P.
Upper Secondary department	3,670	14	4
Lower do.	2,279	14	6
Total ..	5,950	12	10

The average strength of the school during the year was 124·75 as against 115·54 of 1894–95 and the average attendance 102·22 against 99·10 as detailed hereunder:—

	Average number on rolls.	Average attendance.
Upper Secondary department	40·46	33·53
Lower do.	84·29	68·69
Total ..	124·75	102·22

The results at the public examinations were again far from being creditable. Only one, out of eight pupils sent up for the Matriculation examination, passed. The results of the Lower Secondary examination were, however, satisfactory; 15, out of 17 pupils sent up, passed the examination—3 of them passed in list I, 6 in list II and 6 in list III. The special attention of the headmaster has been drawn to the unsatisfactory results of the Matriculation examination, and, it is hoped, that there will be an improvement in the future.

20. *The Upper Primary School.*—The total charges, including a sum of Rs. 250 paid for result grants, amounted to Rs. 1,101–1–10. This sum does not include the pay of the gymnastic instructor. The average strength of the school during the year was 200 and the average attendance 166. The number of pupils presented for examination under each standard, the number passed, and the percentage of passes to the number examined will appear from the following tabular statement:—

Name of examination.	Name of standard.	Number presented for examination.	Number passed.	Percentage of passes to number examined.
Lower Primary Examination	fant ..	22	14	63
	t Standard ..	17	12	70
	d do. ..	21	15	71
Upper do.	3rd do. ..	29	20	69
	4th do. ..	29	10	34

21. *Building and Furniture Grants.*—A sum of Rs. 50 was provided in the budget for building and furniture grants. As no applications had been received for the same at the time of the submission of the revised estimate, no provision was made in the revised estimate. But on the representation of the inspecting schoolmaster and the headmaster of the upper primary school that the furniture already provided for the upper primary school was insufficient for the pupils of that school, a sum of Rs. 50 was spent for the purchase of furniture for the use of the upper primary school. Sanction for this increased expenditure is respectfully solicited.

22. *Other Aided Schools.*—The number of elementary schools at the beginning of the year was 30 with a strength of 1,101 boys and 315 girls, and at the end of the year the number of schools was 29 with a strength of 1,069 boys and 326 girls. Seventeen schools were examined for result grants and Rs. 892–13–0 paid as grants. The number of boys presented for examination was 498 against 608, and the number passed was 372 against 413 in the previous year.

23. *Grant III—The Municipal Dispensary.*—The charges under this head amounted to Rs. 5,627–0–2 as against Rs. 5,950 of the revised estimate. The decrease compared with the revised estimate is due to the bills of hospital diets, sundries and contingencies having been presented for payment only up to December 1895 instead of up to March 1896 and to fines and stoppages in the pay of the hospital subordinates. The charges for 1894–95 amounted to Rs. 5,226–4–5. The increased expenditure over that of the previous year is due to extra emergent indents for medicine having been passed and to additional bedding, clothing and furniture supplied to the hospital at the instance of the District Medical and Sanitary Officer. The hospital staff consisted of one second-class hospital assistant on Rs. 45, one third-class hospital assistant on Rs. 35, one midwife on Rs. 15, two compounders (one on Rs. 15 and the other on Rs. 9), two ward coolies on Rs. 7 each, one peon on Rs. 7, one nurse on Rs. 8, one cook on Rs. 7, three toties on Rs. 8 each, one dhobi on Rs. 3 and one barber on Rs. 2–8–0 per mensem. The number of in-patients treated in the hospital was 284 against 395 in 1894–95, and the number of out-patients 18,183 against 19,829 in the previous year. The District Medical and Sanitary Officer attributes the decrease in the number of patients to the circumstance that the year under report was more healthy than the year previous.

The number of operations performed were 103 major and 226 minor against 64 and 385, respectively, of the previous year.

The work of the hospital midwife during the year was satisfactory. One hundred and eleven cases of natural labour were conducted as against 28 in the previous year.

The report of the District Medical and Sanitary Officer regarding the municipal hospital is herewith submitted.

24. No women were trained up as native doctors and nurses during the year.

25. *Medical College, Sanitary Inspection and Medical Reserve Staff and Cutler's Establishment.*—A contribution of Rs. 319 was paid to Provincial funds against Rs. 190 sanctioned in the revised estimate and Rs. 200 sanctioned in the budget. The amount payable was fixed by the Accountant-General in his letters No. I.B.B.—53, dated 7th March 1896; No. I.B.B.—24, dated 8th February 1896; and No. I.B.B.—73, dated 27th March 1895, to the Collector of Kurnool, copies of which were communicated to this office.

26. *Vaccination.*—The vaccine establishment consisted, as usual, of one vaccinator on Rs. 15 and a peon on Rs. 6. The establishment charges amounted to Rs. 252 as in the previous year. The contingent charges under this head amounted to Rupees 328–11–10 as against Rs. 212–0–6 of the previous year. The increased expenditure is owing to the abolition of the district board glycerine depôt and the reversion to the old practice of maintaining vaccine calves. The total number of vaccine operations performed during the year was 1,391, with 1,122 successful, as against 1,314, with 865 successful, in the previous year. Five hundred and ninety-eight were operations performed on children under one year and 524 of these were successful. The number of births during the year was 882 or, excluding those of still-born children, only 864. The vaccination of only 449 of these was compulsory as being six months and

over old. According to the registers maintained in the office under G.O., No. 1502 M., dated 19th October 1894, it appears that out of these 449 children, leaving out of account children that died or left the town during the year, only 31 children remained unprotected. All the others had been successfully vaccinated. Registers were maintained in the office and monthly statements submitted to the Inspector of Vaccination as required by the Government Order quoted above.

The average cost of each operation was As. 6–8 as against As. 5–8 and of each successful case was As. 8–3 as against As. 8–7 in the previous year. The lymph used was purely animal. Thirty prosecutions were instituted during the year.

27. *Births and Deaths.*—The number of births during the year was 864, or 35·44 per mille, against 778 in the previous year. The number of deaths was 845, or 34·67 per mille, against 699 in 1894–95. No prosecutions were instituted during the year for failure to report births and deaths.

28. *Conservancy.*—The total charges during the year amounted to Rs. 7,231–3–7 as against Rs. 6,675–2–6. The increased expenditure is mainly due to cholera charges, which came up to Rs. 655–3–3. One inspector on Rs. 25, a maistry on Rs. 10 and seven peons on salaries ranging from Rs. 6 to Rs. 7 were employed during the year to attend to the conservancy and sanitation of the town. The municipality sustained a great loss at the close of the year by the death, on the 4th of March 1896, of the sanitary inspector, who had faithfully discharged the duties of his office for upwards of twenty-nine years.

Thirty-four sweepers (twenty-one males and thirteen females) were, as usual, employed for sweeping the streets and twelve toties for cleaning public latrines. One toty was also employed to cover the night-soil and rubbish heaped at the manure depôt with dry-earth and sand. There were four toties engaged for private scavenging. Four pukkalies and four sweepers (two males and two females) were employed to flush the drains and one pukkali for watering avenue trees. Two, and for a short period three, night-soil carts were used to carry the night-soil from the thirty-eight public latrines. Five carts and nine buffaloes were employed for the removal of street sweepings and other rubbish. Two buffaloes were also employed to supply dry-earth for covering the night-soil at the manure depôt.

The sale-proceeds of the manure collected at the manure depôt during the year amounted to Rs. 1,619–4–0 as against Rs. 1,310–8–0, and that of cart-stand manure amounted to Rs. 144 against Rs. 138 of 1894–95.

29. *Cholera.*—Cholera appeared in a mild form in July and continued more or less till November. The number of cases recorded was only 64. The necessary precautions, as suggested in G.O., No. 1028 M., dated 26th June 1895, were adopted, in consultation with the District Medical and Sanitary Officer, to prevent the spread of the disease.

30. *Grant IV, Lighting Establishment and Charges.*—As in the previous year one hundred and twenty lights were maintained. The charges of maintenance amounted to Rs. 477–7–0 against Rs. 580 of 1894–95. The decrease in the charges is due to the circumstance that in 1894–95 new lanterns and other necessary materials were purchased. Three masalchies on Rs. 5 each were employed during the year.

31. *Slaughter-house.*—One peon on Rs. 6, one pukkali on Rs. 6 and a sweeper on Rs. 5 were employed during the year. The expenditure amounted to Rs. 213–12–0 as against Rs. 261–1–9 of 1894–95. The decrease is due to only one peon having been employed, instead of two as in the previous year.

32. *Travellers' Bungalow.*—The charges amounted to Rs. 109 as in the previous year. One maty on Rs. 5 a month and a toty on Rs. 3 were employed.

33. *Queen's Park.*—The expenditure came to Rs. 80–12–8 as against Rs. 81–10–6 of 1894–95. One gardener was employed as usual on Rs. 4.

34. *Cart-stand.*—No charges were incurred during the year under this head with the exception of Rs. 12–15–11 paid in April 1895 on account of the contingent charges and the pay of two peons employed in March 1895.

35. *Destruction of Dogs.*—There was a provision of Rs. 30 in the budget and of Rs. 17–0–1 in the revised estimate for this purpose, but a sum of only Rs. 13–14–0 was actually expended.

36. (1) *Printing Charges.*—The charges under this head amounted to Rupees 321–2–3 against Rs. 300 sanctioned in the budget. The increase of expenditure is due mainly to the printing of new forms for the maintenance of vaccination registers and the issue of notices as required by G.O., No. 1502 M., dated 19th October 1894.

(2) *Sign-boards.*—There was a provision of Rs. 8 for this purpose in the budget, but there was no occasion to incur any charges on this account.

37. *Grant V—(a)* (i) *Office Establishment.*—The charges amounted to Rupees 1,458–4–5 as against Rs. 1,445 of the previous year.

(ii) *Inspection.*—The charges amounted to Rs. 300 as sanctioned in the budget and in the revised estimate.

(*c*) *Collection of Tolls.*—Tolls were levied during the year at the maximum rate. As the work of collecting tolls was kept under the direct management of the council, a special establishment, consisting of 10 toll-gate keepers, 3 watchers on Rs. 5 each and 1 gumastah on Rs. 10 per mensem, was employed. This was sanctioned in G.O., Mis. No. 936 M., dated 5th June 1895.

The total charges under this head including contingencies amounted to Rupees 911–8–2, besides a sum of Rs. 5–12–0 spent for repairs to toll-gates.

38. *Repayment of Debt and Interest on Loan.*—A loan of Rs. 56,220 was granted to the municipality in connection with the water works. A sum of Rs. 1,431–7–11 was paid during the year towards the repayment of the debt and of Rs. 1,952–12–1 towards interest as required by the Accountant-General.

39. *Advances Recoverable.*—A sum of Rs. 120 was advanced as follows :—

	Rs.
To the District Medical and Sanitary Officer for the purchase of bazaar medicines for cholera charges	30
To Municipal Inspector for cholera purposes	90

40. *Refunds.*—A sum of Rs. 8–2–2 was refunded to house-tax and profession-tax appellants, and a sum of Rs. 7 was refunded to the party, the fine inflicted on whom by the Second-class Magistrate was remitted on appeal to the Sub-Divisional Magistrate.

41. The following figures give the ratio of the expenditure under different grants to the total expenditure :—

	Per cent.
Grant I	41·817
„ II	15·992
„ III	26·169
„ IV	2·599
„ V	6·771
Repayment of debt and interest on loans and advances, &c. ..	6·652
Total ..	100·000

42. The delay in the submission of the report is due to my unavoidable absence from the station during the month of May.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Hospital, Kurnool, for the year 1895–96.

I.—Public Health.—Compared with last year the statistics show a general improvement in the health of the town, and this may be attributed to a comparatively mild hot weather, the early setting-in of the monsoons and to the favourable condition of the crops. The district being noted for malaria, the diseases most prevalent are fevers, enlarged spleen and liver, dysentery and

debility; yet compared with previous years there is a decided improvement in the general health from these causes, owing, no doubt, to the improvement in sanitation and attention to a good water-supply.

Epidemics.—Cholera appeared in this town in July and continued more or less till November; sixty-four cases were recorded. It was first brought into the town by Roman Catholic pilgrims who were on their way from Hyderabad to Negapatam for the Velanganni festival. A batch consisting of twenty-nine souls, chiefly women and children, halted here and the disease broke out amongst them. Of these, two women and a child were admitted into hospital in a moribund state and died. I persuaded the rest to remain at Kurnool and fed them at municipal expense for about ten days and after they were properly fumigated and disinfected they were allowed to proceed. The disease subsided for a short period and then appeared in a sporadic form on the Kurnool-Dhone road and was then carried into the town by passengers from Dhone to Kurnool. The disease was confined chiefly to the Ramallakot taluk and can be attributed only to the infection caused by these pilgrims. Two hospital assistants were posted on cholera duty at Kurnool and a special sanitary staff employed as laid down in G.O., No. 1028 M., dated 26th June 1895. The town was divided into two sections—one under each hospital assistant—and house-to-house inspection made from time to time by me as also by the Assistant Surgeon. Disinfection and fumigation were carried out in all affected localities. Saw-dust, paddy-husks, McDougall's powder were mixed with excreta, and soiled bedding and clothing burnt on the spot. Such places infected by vomits and stools were well washed with perchloride of mercury lotion and every effort made to prevent the spread of the disease. Permanganate of potash was thrown into drinking-water cisterns in the neighbourhood of infected localities and in the water pots of infected houses.

II.—Vital Statistics.—The deaths recorded during the year were 845 against 699, and the births 864 against 778, in the previous year. The chief causes of deaths were—cholera 42, small-pox 8, fevers 375, bowel-complaints 25, and all other causes 387.

III.—Sanitation.—The sweepings and refuse of the streets and houses are first deposited in dust-bins, of which there are 255 in the town. When these dust-bins are full, their contents are removed and conveyed in carts or on buffaloes to the manure depôt some distance from the town. There are thirty-eight latrines in the town, four of which are provided with seats and partitions, the others are the ordinary "open-space ones." The night-soil is carted away in closed vehicles to the municipal manure depôt and buried in trenches mixed with the rubbish and street sweepings and covered over with dry earth. The manure collected at the depôt is auctioned periodically.

The conservancy establishment consists of one inspector, eight peons, thirty-eight sweepers (twenty-three males and fifteen females).

Water-supply.—The town receives its drinking-water supply from the Government irrigation canal through masonry conduits. Cisterns to draw water from are provided at short distances all along the town supply channels. People living near the Handri and Tungabhadra rivers obtain water from springs in the bed of the rivers. The scheme for supplying the town with water from the canal by means of pipes is now being carried out.

Drainage.—The water from many houses runs into the main drains in the streets. There are masonry-built drains in twelve of the main streets which are flushed daily. There are 423 cess-pools in the town. The drainage system of the town is very unsatisfactory and at certain places dangerous to public health.

IV.—Vaccination.—Compared with last year, more cases of vaccination have been turned out by the vaccinator. The lymph used was purely animal, as glycerine paste, which was in vogue last year, proved a great failure. The following figures will show the work done :—1,391 cases with 1,122 successful, against 1,314 with 865.

V.—Hospital and Dispensary—(a) Nature and sufficiency of Accommodation.—The hospital consists of three blocks of buildings—one for the out-patients' dispensary, one for male in-patients consisting of two wards to accommodate six patients each, and a third for female in-patients. The following are the out-houses in connection with the hospital :—two latrines, a kitchen, a dead-house, a purveyor's room and a store-room.

(*b*) *State of repair of Buildings.*—There is a cholera shed in a bad state of repair which was condemned by the Surgeon-General during his inspection in September 1894, and with regard to his remarks in the visitors' book of the hospital suggesting certain improvements and the addition of wards for infectious diseases, the municipal council requested the Assistant Sanitary Engineer, Mr. J. E. Lockyer, engaged at present on the water-works and was not able to undertake the hospital improvements. I accordingly called upon the municipal council to employ other means to carry out the work. But this they are not disposed to do. It is not from want of funds, as there is a special reserve of Rs. 5,000 which cannot be utilised for any other purpose. It is the difficulty to get proper professional supervision to conform to the regulations of the

Sanitary Board, I believe, which causes the present delay in executing the required improvements. I do not see why the Public Works Department should not be asked to undertake the work, the municipality providing the necessary funds. The following improvements suggested in the last annual report have not been carried out :—

(1) Providing better lighting and ventilation for the compounding room.
(2) Providing separate waiting accommodation for men and women.
(3) Improvement of the flooring and roof of the female ward.
(4) Erection of a separate lying-in ward.
(5) Huts for venereal and infectious diseases.

(*e*) *State of repair of Furniture.*—The furniture is in good condition.

(*d*) *Inspections*—

(1) Steps taken to carry out the recommendations of the Surgeon-General.—*Nil.*
(2) Steps taken to carry out the recommendations of other inspecting officers.—*Nil.*

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines*—Rs. 63 by subscriptions.

(*f*) *Number of patients treated as compared with previous year*—

—	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.
Total treated—					
In	286	260	345	395	284
Out	19,360	19,021	15,972	19,829	18,183
Average daily sick—					
In	15·23	7·26	9·80	10·77	11·67
Out	128·52	120·28	95·25	115·97	123·34

The above table shows a decrease of 111 in and 1,646 out patients, but the average daily sick has increased from 10·77 to 11·67 among in-patients and from 115·97 to 123·34 among out-patients. The decrease in the total number of patients is due to the year under report being more healthy than the previous year.

(*g*) *Mortality and actual causes of it.*—Twenty-seven deaths occurred among in-patients against fourteen in the preceding year :—

Diseases.	No.
Cholera	3
Malarial fevers	1
Debility from starvation	1
All other general diseases	2
Diseases of the nervous system	2
„ „ circulatory system	1
Lungs (diseases of)	9
Other diseases of the respiratory system	1
Diarrhœa	1
Diseases of generative system	1
„ organs of locomotion	2
Ulcers	2
General injuries	1
Total	27

(*h*) *Operations and Results.*—One hundred and three major and 226 minor operations were performed against 64 and 385 in 1894-95.

(*i*) *Establishment whether sufficient and efficient.*—Both sufficient and efficient.

(*j*) *Midwives—Work actually done.*—A trained midwife was entertained at the commencement of the year who has been doing her work satisfactorily. One hundred and eleven cases of natural labour were conducted against 28 during the past year.

(*k*) *General Remarks.*—Nil.

KURNOOL,
25*th May* 1896.

(Signed) A. T. L. PATCH, M.B., Surgn.-Major,
District Medical and Sanitary Officer.

(Signed) MD. S. HUSSAIN,
Deputy Collector.

Dis. No. 874-Eng.

Forwarded.

2. Of the twenty-three meetings convened, two were adjourned for want of quorum and only twenty-one were held against twenty-nine in the previous year. Though the average attendance of officials rose from 1·62 to 1·99, that of non-officials fell from 7·00 to 6·58.

3. *Receipts.*—Excluding the contribution of Government for the water works and excluding the *minus* balance of Rs. 379-15-10 of the previous year, the receipts amounted to Rs. 37,960-5-4 against Rs. 34,860-14-8 in the previous year. Though the receipts under private scavengering rose by Rs. 6 and odd, the number of houses served fell from 174 to 167 in spite of the remarks of Government in the last two successive reviews.

Tax on Arts.—There was again great laxity in the execution of warrants for the collection of this tax ; 53 warrants remaining pending execution at the end of the year against 32 in the previous year. The percentage thus rose from 17 per cent. to about 21 per cent. in spite of the remarks of Government in the last review.

4. *Charges.*—These amounted to Rs. 39,460-14-2 against Rs. 35,240-14-6 (as audited since) in the previous year, the increase being mainly due to the repayment with interest of an instalment of the Government loan for water works. Besides this, a sum of Rs. 13,458-3-7 was actually spent on the water works in progress.

5. *Education.*—The charges amounted to Rs. 8,463-8-1 against Rs. 8,032-2-1 in the previous year, the increase being mainly due to increments of pay of some of the teachers in the high school. The delay in filling up the second master's vacancy in the high school is to be regretted, especially as the results of the Matriculation examination (*nil* out of 6 in 1894 and 1 out of 8 in 1895) were very unsatisfactory.

6. *Medical.*—The number of patients treated in the municipal dispensary was 18,467 against 20,224 in the previous year. The decrease is explained by both the Chairman and the District Medical and Sanitary Officer to be due to the year having been more healthy than the previous one.

It is satisfactory to note that the midwife attended 111 cases of labour against 28 in the previous year.

7. *Vaccination.*—Out of 1,391 cases vaccinated, against 1,314 in the previous year, 1,122 turned out successful against 865, which is a very satisfactory result. Out of the 449 children that were born and attained the compulsory age during the year, all excepting 31 were vaccinated. This is satisfactory.

8. *Vital Statistics.*—The births were 864 against 778 in the previous year and the deaths 845 against 669. No cases were, in spite of the remarks of Government last year, prosecuted for failure to register.

9. *Sanitation.*—Of the several recommendations made by Dr. King in his inspection notes printed in G.O., No. 480 M., dated 10th April 1894, the following have been attended to :—

(1) *Street Improvement.*—The narrow streets Nos. 11 and 6 have been widened at a cost of Rs. 875 and Rs. 811 respectively.

(2) *Latrines.*—Four conservancy pans and one conservancy cart have been provided.

(3) *Market.*—A loan of Rs. 5,000 for the construction of the market has been applied for. This will be a great improvement to the town and should be expedited.

2. The municipal council held ~~twenty-one~~ meetings against ~~twenty-nine~~ in the previous year and the average attendance of the members was fair. There was an improvement in the attendance of the officials, but a decline in that of the non-officials.

3. *Receipts.*—(1) Owing, apparently, to more careful assessment, there was a further increase of ~~forty-two~~ in the number of persons assessed to the tax on arts and professions and of Rs. 140 in its net current demand. The demand under the taxes on buildings and lands remained almost stationary.

(2) The current collections under the principal taxes, though not so good as in the previous year, were, on the whole, satisfactory; but the realization of the arrears, except in the case of the land tax, was poor.

(3) Coercive measures were adopted to a smaller extent than in 1894–95, but notwithstanding the remarks in G.Os., No. 1069 M., dated 11th August 1894, and No. 1663 M., dated 18th October 1895, more than 21 per cent. of the total number of warrants under disposal remained unexecuted at the close of the year. This is not creditable to the municipal executive and the Chairman should see that there is no occasion for a similar remark in future.

(4) There was a large increase in the income from tolls, due chiefly to the enhancement of the rate from three-fourths to the maximum. The receipts from the tax on carts, sale-proceeds of sweepings, school-fees, markets and slaughter-houses also improved under the circumstances explained by the Chairman in paragraph 7 of the report. The increase in the income from fines, which is attributed to the infliction of deterrent sentences by the magistracy, is satisfactory.

(5) The private scavenging system made but little progress during the year. It was worked at a small profit of Rs. 87 against Rs. 63 in 1894–95; but the number of houses served was only 167, or seven less than in the previous year. This is only about 2·8 per cent. of the total number of houses assessed to the tax on buildings, and the explanation offered by the Chairman in paragraph 14 of his report is not at all satisfactory. Owing to want of funds the Government disallowed the entertainment of the private scavenging inspector on Rs. 1[illegible], but sanctioned two additional scavengers on Rs. 6 each. With this extra establishment there was no reason why this service should not have been properly worked without the supervision of a separate inspector, as is done in several other municipalities. In the reviews of the administration of the two previous years, the council was reminded that the surest means to the extension of this service was the systematic prosecution of the owners of insanitary premises, but no action appears to have been taken on these ~~instructions~~. Special steps should now be taken to extend the service and a report on the progress made up to 1st October next should be submitted through the Collector.

4. *Expenditure*—(1) *Public Works.*—The most important work under execution during the year was that of water-supply, on which a total sum of Rs. 14,800 was spent up to 31st March 1896, against an estimate of Rs. 2,22,440. The expenditure on communications amounted to Rs. 3,6[illegible]2, or 51·1 per cent. of the net municipal income from tolls, and the town roads are reported by the Revenue divisional officer to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 2,241, or 9·8 per cent. of the income from taxation. Of this, Rs. 459 were spent on secondary, and the remainder on primary, education. The municipal council maintained a high school on the salary system and two primary schools on the salary-result system, against one of each in the previous year. The attendance at these institutions taken together improved and the success obtained in the lower secondary and departmental examinations was fair; but the results of the matriculation examination continued to be very unsatisfactory, only one out of the eight students who competed having passed. In this connection the municipal council's attention will be drawn to paragraph 5 of the Collector's endorsement. The council also aided seventeen primary schools with result grants against nineteen in the previous year. The strength of these schools declined, but the results of the grant examinations were fair. Nearly the whole of the allotment for result grants was utilized; but the total number of boys under instruction in the municipal and aided schools fell from 61·9 to 56·9 per cent. of the male population of school-going age.

ORDER—No. 1297 M., dated 5th August July 1896.

The receipts and charges of the Kurnool Municipality for 1895-96 are compared below with the budget and revised estimates for the year and the actuals of 1894-95 :—

ct.)

Under Secy., P.W.D.,
for Chief Secretary.

29
2/8/96

This remark has been omitted in the proofs submitted for approval. As no provision for contribution for cutlers establishment has been made in the budget for 1896-97 it will not be made in future budgets, the item will not be referred to in future reports. In this case the charge was in error under this head in 1895-96 probably on account of the previous year's dues properly referred to in para

Very well adopted

NOTE TO STATEMENT I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes. At the Municipal Act Schedule rates.
2. Tax on buildings is levied at 7 1/2 per cent. and tax on lands at annas 12 4 per cent. of rent value. for every 80 square yards.
3. Water-tax on buildings and lands is levied at per cent.
4. Tax on vehicles and animals is levied at - to - the maximum rates.
5. Tax on carts, &c., is levied at Rs. 4 per cart per annum.
6. Tolls are levied at - to - the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. No 542 Jn. Mis: dated 13th April 1891
8. The house-tax registers were last revised in the official year 1894-95 and the land tax registers in the official year. 1894-96
9. Total extent of land assessed is 1158 acres. 60 Cents
10. The mode of estimating the annual rental of houses and lands is as follows:—

(1) In cases in which the buildings were let out on hire, the tax was assessed on the actual annual rent paid by the tenant.

(2) In cases in which the owners themselves lived in buildings the tax was assessed on the probable amount of rent that the house might fetch, having regard to the locality, the state of the fielding and of the adjacent buildings let out on hire.

(3) In respect to gardens and other lands leased out to tenants the tax was levied on the rents collected from them. In respect to lands cultivated by the owners themselves, the rental value of such lands was taken to be, if it should be wet land Rs 7-13-0 per acre, and if it should be dry Rs 3-14-6 per acre.

T. Chidambaram
Municipal Commissioner

No. 1297 M., 5TH AUGUST 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. T. CHIDAMBARA RAO Garu, B.A., Chairman, Municipal Council, Kurnool, to the Chief Secretary to Government (through the Revenue Divisional Officer in charge of Ramallakot taluk), dated 8th June 1896, No. 132.

I have the honour to submit the administration report of the Kurnool Municipality for 1895–96.

I.—CONSTITUTION OF THE COUNCIL.

2. There were twenty-three meetings of the council held during the year, of which two were adjourned for want of quorum. The average attendance at each meeting of official councillors was 1·99 and of non-officials 6·58. The total average attendance at each meeting was 51·13 per cent. of the strength of the council. The total number of members on the council was sixteen, of which six were Hindus, six Muhammadans, two Europeans, one American and one Parsi.

II.—RECEIPTS.

3. The incidence of taxation was As. 9–9 a head against As. 9–7 of the previous year and the incidence of the aggregate income Rs. 7–1–7 against Rs. 4–11–8 of 1894–95, the increase under the latter being due chiefly to Government grant in connection with the water-works.

4. Including the opening balance the receipts amounted to Rs. 2,52,568–10–2 including a grant of Rs. 1,34,730 for the water-works or, excluding the amount connected with the water-supply, Rs. 37,960–5–4 as against Rs. 34,860–14–8 of the previous year. The expenditure during the period was Rs. 52,295–1–9 including the water-works charges or, without these charges, Rs. 39,460–14–2 as against Rupees 35,240–14–6 in 1894–95. The closing balance on the 31st March 1896 was Rupees 1,99,643–8–5 as against Rs. 79,498 of the previous year.

5. The following is a statement comparing the receipts of the year with the figures of the revised estimate and the actuals of 1894–95 :—

—	Actuals, 1894–95.	Revised estimate, 1895–96.	Actuals, 1895–96.
	Rs.	Rs.	Rs.
Tax on Arts	3,034	3,150	3,103

Grand Total ..	1,16,081	2,52,910	2,52,568

6. Compared with the figures of the revised estimate there is an increase of about Rs. 320 in the fees from municipal schools, due to an increase in the strength of the schools, of Rs. 86 under stipends to normal students, which is due to the circumstance that the arrears of 1894–95 were collected during the current year and of Rs. 52 in the taxes on carts, owing to an increase in the number of carts. The decrease under taxes on arts, buildings and lands is due partly to remissions granted on account of poverty and partly to the non-recovery of the taxes in certain cases owing to the absence of several of the defaulters from the town. The decrease of Rs. 180 under sale-proceeds of night-soil is due to want of competition at the sales and of about Rs. 300 in the contribution to the net cost of the municipal high school is due to an increase in the fees collected in the upper secondary department of the high school. The decrease under fines is due to the uncertain nature of the item.

7. As compared with the actuals of 1894–95, the receipts show an increase all round, except in certain cases. The large increase under tolls is due to the collection of tolls at the maximum rate. The increase of Rs. 174 under taxes on carts is due to an increase in the number of carts. The increase of about Rs. 308 under sale-proceeds of night-soil is due to a greater demand for the night-soil refuse than in the previous year. The increase of about Rs. 560 under fees from municipal schools is due to increase in the attendance at the schools and the increases of Rs. 113 and Rs. 141 in fees from the market and slaughter-houses respectively are due to brisk competitions at the sales. The increase of about Rs. 240 under fines is due to infliction of heavy fines by the magistracy and the increase of Rs. 116 under stipends to normal students is due to the recovery of arrears during the year.

The decreases being very slight no remarks have been offered.

8. It now remains to deal individually with some of the chief items under receipts.

9. *Tax on Arts.*—The original demand was Rs. 3,237–8–0, of which Rs. 3–8–0 was remitted on revision and Rs. 41–8–0 on appeal. Thus the net demand was Rupees 3,192–8–0, of which Rs. 3,073 or 96·27 per cent. were collected during the year against 98·23 in the previous year. Of the balance of Rs. 119–8–0, only Rupees 55–8–0 have since been collected and the remaining sum of Rs. 64 could not be collected owing to the absence of the parties concerned from the town. Of the arrears of Rs. 54 due for 1894–95, a sum of Rs. 30 was collected, Rs. 4–8–0 were remitted on appeal and Rs. 19–8–0 were written off as irrecoverable. Two hundred and thirty-eight warrants were issued for the recovery of Rs. 305 and Rs. 244, being the sum of 185 warrants, collected. Property was attached in six cases but not sold.

10. *Tax on Buildings.*—The tax was levied at the rate of 7½ per cent. as usual. The original demand was Rs. 8,250–1–2, of which Rs. 56–8–2 were remitted on appeal. The final demand was Rs. 8,193–9–0, of which Rs. 8,005–14–3 or 97·70 per cent. were collected within the year, Rs. 50–12–6 were remitted on vacant and ruined buildings, leaving a balance of Rs. 136–14–3. Of this sum only Rs. 21–6–0 have been collected up to date. The balance could not be collected as usual owing to the absence of the defaulters from the town in some cases and to no property being available for attachment in other cases. The arrear demand of the previous year was Rs. 118–6–0, of which Rs. 55–2–8 were collected during the year, Rs. 2–10–8 were remitted on appeal and Rs. 60–8–8 were written off as irrecoverable. One thousand and seventy-eight warrants were issued for the collection of Rs. 726–11–2 against 1,252 for the recovery of Rs. 773–14–0 in the previous year. The amount of 810 warrants, viz., Rs. 593–0–2, was collected. Property was actually attached in 31 cases, but in no case was property sold.

11. *Land-tax.*—The net demand was Rs. 630–10–4, of which Rs. 525–8–4 was collected during the year. Out of the balance of Rs. 105–2–0 a sum of Rs. 53–3–10 has been collected; the remaining sum of Rs. 51–14–2 could not be collected owing to the absence of the defaulters. One hundred and two warrants were issued for the collection of Rs. 193–9–7 against one hundred warrants for the recovery of Rupees 146–0–3 in the previous year. Rs. 90–7–9 were collected, being the amount of fifty warrants. Property was attached in only one case but not sold. The arrear

demand was Rs. 41–13–5, of which Rs. 34–15–0 were collected and the balance of Rs. 6–14–5 was written off as irrecoverable. The total extent of lands assessed during the year was 1,158 acres and 60 cents.

12. *Tolls.*—Tolls were levied at the maximum rate during the year. The gross receipts under tolls amounted to Rs. 10,361–4–0. The charges came up to Rs. 917–4–2. The amount contributed to the district board up to 31st March 1896 was Rs. 1,890–13–10 and a sum of Rs. 470–2–1 was paid in April 1896. The net municipal income from tolls was thus Rs. 7,082–15–11.

13. *Provincial Contribution to the Upper Secondary Department of the High School.*—A sum of Rs. 2,722–14–5, including Rs. 450–6–5, arrears for 1894–95, or Rs. 2,272–8–0, was collected during the year on this account. According to the statement of receipts and charges and net cost of the high school for 1895–96 furnished by the headmaster, the net charges of the upper secondary department amount only to Rs. 2,215–8–1. A sum of Rs. (2,272–8–0 —2,215–8–1) 56–15–11 was thus drawn in excess of the actual amount due. This will be adjusted in the accounts of the current year.

14. *Private Scavenging Fees.*—Under this head a sum of Rs. 374–10–2 was collected during the year as against Rs. 368 in the previous year. One hundred and sixty-seven houses were served as against 174 in 1894–95. The decrease of seven houses is due to tenants having vacated. As it was not possible with the present staff to increase the number of private houses served by municipal toties, it was expected that more people could be made to utilize the services of municipal toties by the appointment of a special inspector or supervisor on Rs. 10; but as the Government could not, owing to want of funds, sanction the appointment, it has not been possible to effect any improvement in this direction.

III.—CHARGES.

15. The following abstract compares the charges of the year with those of the previous year:—

	1894–95.	1895–96.
	Rs.	Rs.
Grant I	8,990	22,132
„ II	8,032	8,464
„ III	12,763	13,851
„ IV	1,884	1,375
„ V	2,532	3,584
Repayment of debt	..	1,431
Interest	..	1,953
Advances recoverable	2,382	120
Refund of current collections	..	15
Balance	79,498	1,99,644
Total	1,16,081	2,52,569

Grant I, (1) *New Works*—(*a*) *Communications.*—A provision of Rs. 1,050 was made in the budget for the improvement of street No. 11 Fort, and of Rs. 1,000 for street No. 6 Peta. A sum of Rs. 875 was actually spent for street No. 11 Fort, and Rs. 811 for street No. 6 Peta. The full sums allotted for the improvement of the streets were not spent partly because of the delay in settling compensation with owners of house-sites required for improving the streets and partly because of the fall in the receipts from tolls. The improvement to street No. 11 Fort will be completed during the current year and it will be two or three years before street No. 6 Peta can be completely improved.

(*b*) *Buildings.*—A sum of Rs. 60 was spent on account of the pay of the temporary draftsman employed for the preparation of estimates and plans for the improvements and repairs of the municipal hospital sanctioned in G.O., Mis. No. 947 M., dated 16th June 1895.

(*d*) *Water-supply.*—A sum of Rs. 13,458–3–7 was actually spent in connection with the water-works now in progress. The state of the work on the 31st March 1896 was as follows:—

(1) *Offtake at Canal.*—About three-fourths completed.

(2) *Engine and Boiler-house.*—About one-third completed.

(3) *Fencing Roads, Land, &c.*—A small approach road and culvert built; the compensation for land not yet decided.

(4) *Engines, Pumps and Boilers.*—These are being made in England and will be delivered here in June.

(5) *Pumping Main.*—Contract for supply was placed in February.

(6) *Laying and jointing pumping main.*—Contract will not be given out till the pipes arrive in June.

(7) *Settling Reservoir.*—Excavation practically complete; the final decision as to lining having now been arrived at, the masonry works will be pushed on.

(8) *Masonry Conduit.*—Earthenware pipes have been substituted being cheaper and better. The excavation is nearly complete and most of the pipes are delivered.

(9) *Filter Beds.*—Ninety per cent. of masonry finished.

(10) *Service Reservoir.*—Excavation of foundations complete and masonry started.

(11) *Pipes valves, &c.*—The contract for delivery (to commence in June) was made in February 1896.

(12) *Laying and jointing.*—Contract will be given out in June when delivery of pipes commences.

16. (2) *Repairs*—(*a*) *Communications.*—The provision of Rs. 1,900 made for the maintenance of roads was exceeded by Rs. 36–5–9 as the sum allotted was insufficient. Including new works a total sum of Rs. 3,622 was spent on communications being more than half the net income to the municipality from tolls, which amounted to Rs. 7,082–15–10.

(*b*) *Buildings.*—(i) Although a sum of Rs. 50 was provided in the budget for repairs to the hospital building only, a sum of Rs. 1–15–11 was actually spent for the purpose.

(ii) The repairs to the high school building cost Rs. 58–5–6 against Rs. 45 sanctioned in the budget.

(iii) No repairs were effected to the traveller's bungalow although a sum of Rs. 150 was provided for the purpose in the budget.

(iv) A sum of Rs. 7–1–10 was expended for repairs to the municipal office against Rs. 20 sanctioned in the budget.

(v) Only a sum of Rs. 1–8–0 was spent for repairs to toll-gates against a provision of Rs. 15.

(vi) There was no provision in the budget for repairs to the slaughter-house, but a sum of Rs 1–8–0 was spent for the purpose.

(vii) The charges for repairs to public latrines amounted to Rs. 37–13–8 against a provision of Rs. 40.

(viii) No provision was made in the budget for repairs to the municipal upper primary school building. As accommodation in the school was insufficient in consequence of the increase in the strength of the school, a sum of Rs. 259–4–3 was expended for effecting the necessary improvements and repairs to the building. Of this amount sanction was accorded in G.O., Mis. No. 737 M., dated 6th May 1895, for Rs. 199–8–6 and Rs. 41–11–8 was sanctioned in the revised estimate. A sum of Rs. 18–0–1 was thus spent in excess of the sanctioned amount. A total sum of Rs. 390 was sanctioned in the revised estimate for repairs to buildings, but only a sum of Rs. 372–15–9 was actually spent for the purpose, including repairs and improvements to the municipal upper primary school building.

(*c*) *Drains.*—There was a provision of Rs. 50 in the budget, and a sum of Rs. 50–11–6 was spent on this account.

(*d*) *Water-supply.*—The charges under this head amounted to Rs. 157–10–0 against Rs. 160 sanctioned.

17. *Grant II, Education.*—The charges under this head came to Rs. 8,463–8–1, against Rs. 8,520 sanctioned in the revised estimate and against Rs. 8,032–2–1 of the previous year. The decrease in the charges, as compared with the revised estimate, is due chiefly to permanent arrangements not having been made to fill up the second assistant's place in the municipal high school, which became vacant at the end of January 1896 owing to the death of the permanent incumbent.

18. *Training Schools.*—There was a provision of Rs. 120 sanctioned in the budget. However, a sum of Rs. 46 only was spent for the purpose. The decrease of Rs. 74 under this head is due to stipends having been paid to normal students only for the months of March, April and May 1895.

19. *The Municipal High School.*—The total charges amounted to Rs. 5,950–12–10, against Rs. 5,990 sanctioned in the budget and Rs. 6,034 of the revised estimate. The decrease in the charges is due to permanent arrangements not having been made during the year to fill up the place of the second assistant, which became vacant by the death of the permanent incumbent. The charges of the previous year amounted to Rs. 5,795.

The charges were apportioned as follows:—

	Rs.	A.	P.
Upper Secondary department	3,670	14	4
Lower do.	2,279	14	6
Total ..	5,950	12	10

The average strength of the school during the year was 124·75 as against 115·54 of 1894–95 and the average attendance 102·22 against 99·10 as detailed hereunder:—

	Average number on rolls.	Average attendance.
Upper Secondary department	40·46	33·53
Lower do.	84·29	68·69
Total ..	124·75	102·22

The results at the public examinations were again far from being creditable. Only one, out of eight pupils sent up for the Matriculation examination, passed. The results of the Lower Secondary examination were, however, satisfactory; 15, out of 17 pupils sent up, passed the examination—3 of them passed in list I, 6 in list II and 6 in list III. The special attention of the headmaster has been drawn to the unsatisfactory results of the Matriculation examination, and, it is hoped, that there will be an improvement in the future.

20. *The Upper Primary School.*—The total charges, including a sum of Rs. 250 paid for result grants, amounted to Rs. 1,101–1–10. This sum does not include the pay of the gymnastic instructor. The average strength of the school during the year was 200 and the average attendance 166. The number of pupils presented for examination under each standard, the number passed, and the percentage of passes to the number examined will appear from the following tabular statement:—

Name of examination.	Name of standard.	Number presented for examination.	Number passed.	Percentage of passes to number examined.
Lower Primary Examination	Infant ..	22	14	63
	1st Standard ..	17	12	70
	2nd do. ..	21	15	71
	3rd do. ..	29	20	69
Upper do.	4th do. ..	29	10	34

21. *Building and Furniture Grants.*—A sum of Rs. 50 was provided in the budget for building and furniture grants. As no applications had been received for the same at the time of the submission of the revised estimate, no provision was made in the revised estimate. But on the representation of the inspecting schoolmaster and the headmaster of the upper primary school that the furniture already provided for the upper primary school was insufficient for the pupils of that school, a sum of Rs. 50 was spent for the purchase of furniture for the use of the upper primary school. Sanction for this increased expenditure is respectfully solicited.

22. *Other Aided Schools.*—The number of elementary schools at the beginning of the year was 30 with a strength of 1,101 boys and 315 girls, and at the end of the year the number of schools was 29 with a strength of 1,069 boys and 326 girls. Seventeen schools were examined for result grants and Rs. 892–13–0 paid as grants. The number of boys presented for examination was 498 against 608, and the number passed was 372 against 413 in the previous year.

23. *Grant III—The Municipal Dispensary.*—The charges under this head amounted to Rs. 5,627–0–2 as against Rs. 5,950 of the revised estimate. The decrease compared with the revised estimate is due to the bills of hospital diets, sundries and contingencies having been presented for payment only up to December 1895 instead of up to March 1896 and to fines and stoppages in the pay of the hospital subordinates. The charges for 1894–95 amounted to Rs. 5,226–4–5. The increased expenditure over that of the previous year is due to extra emergent indents for medicine having been passed and to additional bedding, clothing and furniture supplied to the hospital at the instance of the District Medical and Sanitary Officer. The hospital staff consisted of one second-class hospital assistant on Rs. 45, one third-class hospital assistant on Rs. 35, one midwife on Rs. 15, two compounders (one on Rs. 15 and the other on Rs. 9), two ward coolies on Rs. 7 each, one peon on Rs. 7, one nurse on Rs. 8, one cook on Rs. 7, three toties on Rs. 8 each, one dhobi on Rs. 3 and one barber on Rs. 2–8–0 per mensem. The number of in-patients treated in the hospital was 284 against 395 in 1894–95, and the number of out-patients 18,183 against 19,829 in the previous year. The District Medical and Sanitary Officer attributes the decrease in the number of patients to the circumstance that the year under report was more healthy than the year previous.

The number of operations performed were 103 major and 226 minor against 64 and 385, respectively, of the previous year.

The work of the hospital midwife during the year was satisfactory. One hundred and eleven cases of natural labour were conducted as against 28 in the previous year.

The report of the District Medical and Sanitary Officer regarding the municipal hospital is herewith submitted.

24. No women were trained up as native doctors and nurses during the year.

25. *Medical College, Sanitary Inspection and Medical Reserve Staff and Cutlers' Establishment.*—A contribution of Rs. 319 was paid to Provincial funds against Rs. 190 sanctioned in the revised estimate and Rs. 200 sanctioned in the budget. The amount payable was fixed by the Accountant-General in his letters No. I.B.B.—53, dated 7th March 1896; No. I.B.B.—24, dated 8th February 1896; and No. I.B.B.—73, dated 27th March 1895, to the Collector of Kurnool, copies of which were communicated to this office.

26. *Vaccination.*—The vaccine establishment consisted, as usual, of one vaccinator on Rs. 15 and a peon on Rs. 6. The establishment charges amounted to Rs. 252 as in the previous year. The contingent charges under this head amounted to Rupees 328–11–10 as against Rs. 212–0–6 of the previous year. The increased expenditure is owing to the abolition of the district board glycerine depôt and the reversion to the old practice of maintaining vaccine calves. The total number of vaccine operations performed during the year was 1,391, with 1,122 successful, as against 1,314, with 865 successful, in the previous year. Five hundred and ninety-eight were operations performed on children under one year and 524 of these were successful. The number of births during the year was 882 or, excluding those of still-born children, only 864. The vaccination of only 449 of these was compulsory as being six months and over old. According to the registers maintained in the office under G.O., No. 1502 M., dated 19th October 1894, it appears that out of these 449 children, leaving out of account children that died or left the town during the year, only 31 children remained unprotected. All the others had been successfully vaccinated. Registers were maintained in the office and monthly statements submitted to the Inspector of Vaccination as required by the Government Order quoted above.

The average cost of each operation was As. 6–8 as against As. 5–8 and of each successful case was As. 8–3 as against As. 8–7 in the previous year. The lymph used was purely animal. Thirty prosecutions were instituted during the year.

27. *Births and Deaths.*—The number of births during the year was 864, or 35·44 per mille, against 778 in the previous year. The number of deaths was 845, or 34·67 per mille, against 699 in 1894–95. No prosecutions were instituted during the year for failure to report births and deaths.

28. *Conservancy.*—The total charges during the year amounted to Rs. 7,231–3–7 as against Rs. 6,675–2–6. The increased expenditure is mainly due to cholera charges, which came up to Rs. 655–3–3. One inspector on Rs. 25, a maistri on Rs. 10 and seven peons on salaries ranging from Rs. 6 to Rs. 7 were employed during the year to attend to the conservancy and sanitation of the town. The municipality sustained a great loss at the close of the year by the death, on the 4th of March 1896, of the sanitary inspector, who had faithfully discharged the duties of his office for upwards of twenty-nine years.

Thirty-four sweepers (twenty-one males and thirteen females) were, as usual, employed for sweeping the streets and twelve toties for cleaning public latrines. One toty was also employed to cover the night-soil and rubbish heaped at the manure depôt with dry-earth and sand. There were four toties engaged for private scavenging. Four pukkalies and four sweepers (two males and two females) were employed to flush the drains and one pukkali for watering avenue trees. Two, and for a short period three, night-soil carts were used to carry the night-soil from the 38 public latrines. Five carts and nine buffaloes were employed for the removal of street sweepings and other rubbish. Two buffaloes were also employed to supply dry-earth for covering the night-soil at the manure depôt.

The sale-proceeds of the manure collected at the manure depôt during the year amounted to Rs. 1,619–4–0 as against Rs. 1,310–8–0, and that of cart-stand manure amounted to Rs. 144 against Rs. 138 of 1894–95.

29. *Cholera.*—Cholera appeared in a mild form in July and continued more or less till November. The number of cases recorded was only 64. The necessary precautions, as suggested in G.O., No. 1028 M., dated 26th June 1895, were adopted, in consultation with the District Medical and Sanitary Officer, to prevent the spread of the disease.

30. *Grant IV, Lighting Establishment and Charges.*—As in the previous year one hundred and twenty lights were maintained. The charges of maintenance amounted to Rs. 477–7–0 against Rs. 580 of 1894–95. The decrease in the charges is due to the circumstance that in 1894–95 new lanterns and other necessary materials were purchased. Three masalchies on Rs. 5 each were employed during the year.

31. *Slaughter-house.*—One peon on Rs. 6, one pukkali on Rs. 6 and a sweeper on Rs. 5 were employed during the year. The expenditure amounted to Rs. 213–12–0 as against Rs. 261–1–9 of 1894–95. The decrease is due to only one peon having been employed, instead of two as in the previous year.

32. *Travellers' Bungalow.*—The charges amounted to Rs. 109 as in the previous year. One maty on Rs. 5 a month and a toty on Rs. 3 were employed.

33. *Queen's Park.*—The expenditure came to Rs. 80–12–8 as against Rs. 81–10–6 of 1894–95. One gardener was employed as usual on Rs. 4.

34. *Cart-stand.*—No charges were incurred during the year under this head with the exception of Rs. 12–15–11 paid in April 1895 on account of the contingent charges and the pay of two peons employed in March 1895.

35. *Destruction of Dogs.*—There was a provision of Rs. 30 in the budget and of Rs. 17–0–1 in the revised estimate for this purpose, but a sum of only Rs. 13–14–0 was actually expended.

36. (1) *Printing Charges.*—The charges under this head amounted to Rupees 321–2–3 against Rs. 300 sanctioned in the budget. The increase of expenditure is due mainly to the printing of new forms for the maintenance of vaccination registers and the issue of notices as required by G.O., No. 1502 M., dated 19th October 1894.

(2) *Sign-boards.*—There was a provision of Rs. 8 for this purpose in the budget, but there was no occasion to incur any charges on this account.

37. *Grant V—(a)* (i) *Office Establishment.*—The charges amounted to Rupees 1,458–4–5 as against Rs. 1,445 of the previous year.

(ii) *Inspection.*—The charges amounted to Rs. 300 as sanctioned in the budget and in the revised estimate.

(c) *Collection of Tolls.*—Tolls were levied during the year at the maximum rate. As the work of collecting tolls was kept under the direct management of the council, a special establishment, consisting of 10 toll-gate keepers, 3 watchers on Rs. 5 each and 1 gumastah on Rs. 10 per mensem, was employed. This was sanctioned in G.O., Mis. No. 936 M., dated 5th June 1895.

The total charges under this head including contingencies amounted to Rupees 911–8–2, besides a sum of Rs. 5–12–0 spent for repairs to toll-gates.

38. *Repayment of Debt and Interest on Loan.*—A loan of Rs. 56,220 was granted to the municipality in connection with the water works. A sum of Rs. 1,431–7–11 was paid during the year towards the repayment of the debt and of Rs. 1,952–12–1 towards interest as required by the Accountant-General.

39. *Advances Recoverable.*—A sum of Rs. 120 was advanced as follows :—

	Rs.
To the District Medical and Sanitary Officer for the purchase of bazaar medicines for cholera charges	30
To Municipal Inspector for cholera purposes	90

40. *Refunds.*—A sum of Rs. 8–2–2 was refunded to house-tax and profession-tax appellants, and a sum of Rs. 7 was refunded to the party, the fine inflicted on whom by the Second-class Magistrate was remitted on appeal to the Sub-Divisional Magistrate.

41. The following figures give the ratio of the expenditure under different grants to the total expenditure :—

	Per cent.
Grant I	41·817
„ II	15·992
„ III	26·169
„ IV	2·599
„ V	6·771
Repayment of debt and interest on loans and advances, &c. ..	6·652
Total ..	100·000

42. The delay in the submission of the report is due to my unavoidable absence from the station during the month of May.

Enclosure.

Annual Concise Report of the Municipal Hospital, Kurnool, for the year 1895–96.

I.—Public Health.—Compared with last year the statistics show a general improvement in the health of the town, and this may be attributed to a comparatively mild hot weather, the early setting-in of the monsoons and to the favourable condition of the crops. The district being noted for malaria, the diseases most prevalent are fevers, enlarged spleen and liver, dysentery and debility; yet compared with previous years there is a decided improvement in the general health from these causes, owing, no doubt, to the improvement in sanitation and attention to a good water-supply.

Epidemics.—Cholera appeared in this town in July and continued more or less till November; sixty-four cases were recorded. It was first brought into the town by Roman Catholic pilgrims who were on their way from Hyderabad to Negapatam for the Velanganni festival. A batch consisting of twenty-nine souls, chiefly women and children, halted here and the disease broke out amongst them. Of these, two women and a child were admitted into hospital in a moribund state and died. I persuaded the rest to remain at Kurnool and fed them at municipal expense for about ten days and after they were properly fumigated and disinfected they were allowed to proceed. The disease subsided for a short period and then appeared in a sporadic form on the Kurnool-Dhone road and was then carried into the town by passengers from Dhone to Kurnool. The disease was confined chiefly to the Ramallakot taluk and can be attributed only to the infection caused by these pilgrims. Two hospital assistants were posted on cholera duty at Kurnool and a special sanitary staff employed as laid down in G.O., No. 1028 M., dated 26th June 1895. The town was divided into two sections—one under each hospital assistant—and house-to-house inspection made from time to time by me as also by the Assistant Surgeon. Disinfection and fumigation were carried out in all affected localities. Saw-dust, paddy-husks, McDougall's powder were mixed with excreta, and soiled bedding and clothing burnt on the spot. Such places as were infected by vomits and stools were well washed with perchloride of mercury lotion and every effort made to prevent the spread of the disease. Permanganate of potash was thrown into drinking-water cisterns in the neighbourhood of infected localities and in the water pots of infected houses.

II.—Vital Statistics.—The deaths recorded during the year were 845 against 699, and the births 864 against 778, in the previous year. The chief causes of deaths were—cholera 42, small-pox 8, fevers 375, bowel-complaints 25, and all other causes 387.

III.—Sanitation.—The sweepings and refuse of the streets and houses are first deposited in dust-bins, of which there are 255 in the town. When these dust-bins are full, their contents are removed and conveyed in carts or on buffaloes to the manure depôt some distance from the town. There are thirty-eight latrines in the town, four of which are provided with seats and partitions, the others are the ordinary "open-space ones." The night-soil is carted away in closed vehicles to the municipal manure depôt and buried in trenches mixed with the rubbish and street sweepings and covered over with dry earth. The manure collected at the depôt is auctioned periodically.

The conservancy establishment consists of one inspector, eight peons, thirty-eight sweepers (twenty-three males and fifteen females).

Water-supply.—The town receives its drinking-water supply from the Government irrigation canal through masonry conduits. Cisterns to draw water from are provided at short distances all along the town supply channels. People living near the Handri and Tungabhadra rivers obtain water from springs in the bed of the rivers. The scheme for supplying the town with water from the canal by means of pipes is now being carried out.

Drainage.—The water from many houses runs into the main drains in the streets. There are masonry-built drains in twelve of the main streets which are flushed daily. There are 423 cess-pools in the town. The drainage system of the town is very unsatisfactory and at certain places dangerous to public health.

IV.—Vaccination.—Compared with last year, more cases of vaccination have been turned out by the vaccinator. The lymph used was purely animal, as glycerine paste, which was in vogue last year, proved a great failure. The following figures will show the work done:—1,391 cases with 1,122 successful, against 1,314 with 865.

V.—Hospital and Dispensary—(a) Nature and sufficiency of Accommodation.—The hospital consists of three blocks of buildings—one for the out-patients' dispensary, one for male in-patients consisting of two wards to accommodate six patients each, and a third for female in-patients. The following are the out-houses in connection with the hospital :—two latrines, a kitchen, a dead-house, a purveyor's room and a store-room.

(b) *State of repair of Buildings.*—There is a cholera shed in a bad state of repair which was condemned by the Surgeon-General during his inspection in September 1894, and with regard to his remarks in the visitors' book of the hospital suggesting certain improvements and the addition of wards for infectious diseases, the municipal council requested the Assistant Sanitary Engineer, Mr. J. E. Lockyer, engaged at present on the water-works and was not able to undertake the hospital improvements. I accordingly called upon the municipal council to employ other means to carry out the work. But this they are not disposed to do. It is not from want of funds, as there is a special reserve of Rs. 5,000 which cannot be utilised for any other purpose.

It is the difficulty to get proper professional supervision to conform to the regulations of the Sanitary Board, I believe, which causes the present delay in executing the required improvements. I do not see why the Public Works Department should not be asked to undertake the work, the municipality providing the necessary funds. The following improvements suggested in the last annual report have not been carried out :—

(1) Providing better lighting and ventilation for the compounding room.
(2) Providing separate waiting accommodation for men and women.
(3) Improvement of the flooring and roof of the female ward.
(4) Erection of a separate lying-in ward.
(5) Huts for venereal and infectious diseases.

(*c*) *State of repair of Furniture.*—The furniture is in good condition.

(*d*) *Inspections*—

(1) Steps taken to carry out the recommendations of the Surgeon-General.—*Nil.*
(2) Steps taken to carry out the recommendations of other inspecting officers.—*Nil.*

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines*—Rs. 63 by subscriptions.

(*f*) *Number of patients treated as compared with previous year*—

	1891–92.	1892–93.	1893–94.	1894–95.	1895–96.
Total treated—					
In	286	260	345	395	284
Out	19,360	19,021	15,972	19,829	18,183
Average daily sick—					
In	15·23	7·26	9·80	10·77	11·67
Out	128·52	120·28	95·25	115·97	123·34

The above table shows a decrease of 111 in and 1,646 out patients, but the average daily sick has increased from 10·77 to 11·67 among in-patients and from 115·97 to 123·34 among out-patients. The decrease in the total number of patients is due to the year under report being more healthy than the previous year.

(*g*) *Mortality and actual causes of it.*—Twenty-seven deaths occurred among in-patients against fourteen in the preceding year :—

Diseases.	No.
Cholera	3
Malarial fevers	1
Debility from starvation	1
All other general diseases	2
Diseases of the nervous system	2

(*h*) *Operations and Results.*—One hundred and three major and 226 minor operations were performed against 64 and 385 in 1894–95.

(*i*) *Establishment whether sufficient and efficient.*—Both sufficient and efficient.

(*j*) *Midwives—Work actually done.*—A trained midwife was entertained at the commencement of the year who has been doing her work satisfactorily. One hundred and eleven cases of natural labour were conducted against 28 during the past year.

(*k*) *General Remarks.*—Nil.

KURNOOL, (Signed) A. T. L. PATCH, M.B., Surgn.-Major,
25th May 1896. *District Medical and Sanitary Officer.*

Forwarded.

2. The municipal roads are in good condition.

PYÁPALI, (Signed) MD. S. HUSSAIN,
10th June 1896. *Deputy Collector.*

Dis. No. 874-Eng.

Forwarded.

2. Of the 23 meetings convened, two were adjourned for want of quorum and only 21 were held against 29 in the previous year. Though the average attendance of officials rose from 1·62 to 1·99, that of non-officials fell from 7·00 to 6·58.

3. *Receipts.*—Excluding the contribution of Government for the water works and excluding the *minus* balance of Rs. 379–15–10 of the previous year, the receipts amounted to Rs. 37,960–5–4 against Rs. 34,860–14–8 in the previous year. Though the receipts under private scavengering rose by Rs. 6 and odd, the number of houses served fell from 174 to 167 in spite of the remarks of Government in the last two successive reviews.

Tax on Arts.—There was again great laxity in the execution of warrants for the collection of this tax ; 53 warrants remaining pending execution at the end of the year against 32 in the previous year. The percentage thus rose from 17 per cent. to about 21 per cent. in spite of the remarks of Government in the last review.

4. *Charges.*—These amounted to Rs. 39,460–14–2 against Rs. 35,240–14–6 (as audited since) in the previous year, the increase being mainly due to the repayment with interest of an instalment of the Government loan for water works. Besides this, a sum of Rs. 13,458–3–7 was actually spent on the water works in progress.

5. *Education.*—The charges amounted to Rs. 8,463–8–1 against Rs. 8,032–2–1 in the previous year, the increase being mainly due to increments of pay of some of the teachers in the high school. The delay in filling up the second master's vacancy in the high school is to be regretted, especially as the results of the Matriculation examination (*nil* out of 6 in 1894 and 1 out of 8 in 1895) were very unsatisfactory.

6. *Medical.*—The number of patients treated in the municipal dispensary was 18,467 against 20,224 in the previous year. The decrease is explained by both the Chairman and the District Medical and Sanitary Officer to be due to the year having been more healthy than the previous one.

It is satisfactory to note that the midwife attended 111 cases of labour against 28 in the previous year.

7. *Vaccination.*—Out of 1,391 cases vaccinated, against 1,314 in the previous year, 1,122 turned out successful against 865, which is a very satisfactory result. Out of the 449 children that were born and attained the compulsory age during the year, all excepting 31 were vaccinated. This is satisfactory.

8. *Vital Statistics.*—The births were 864 against 778 in the previous year and the deaths 845 against 669. No cases were, in spite of the remarks of Government last year, prosecuted for failure to register.

9. *Sanitation.*—Of the several recommendations made by Dr. King in his inspection notes printed in G.O., No. 480 M., dated 10th April 1894, the following have been attended to :—

(1) *Street Improvement.*—The narrow streets Nos. 11 and 6 have been widened at a cost of Rs. 875 and Rs. 811 respectively.

(2) *Latrines.*—Four conservancy pans and one conservancy cart have been provided.

(3) *Market.*—A loan of Rs. 5,000 for the construction of the market has been applied for. This will be a great improvement to the town and should be expedited.

KURNOOL, (Signed) C. M. MULLALY,
27th June 1896. *Collector.*

Order—No. 1297 M., dated 5th August 1896.

The receipts and charges of the Kurnool Municipality for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95 :—

—	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.

2. The municipal council held 21 meetings against 29 in the previous year and the average attendance of the members was fair. There was an improvement in the attendance of the officials, but a decline in that of the non-officials.

3. *Receipts.*—(1) Owing, apparently, to more careful assessment, there was a further increase of 42 in the number of persons assessed to the tax on arts and professions and of Rs. 140 in its net current demand. The demand under the taxes on buildings and lands remained almost stationary.

(2) The current collections under the principal taxes, though not so good as in the previous year, were, on the whole, satisfactory; but the realization of the arrears, except in the case of the land tax, was poor.

(3) Coercive measures were adopted to a smaller extent than in 1894–95; but, notwithstanding the remarks in G.Os., No. 1069 M., dated 11th August 1894, and No. 1663 M., dated 18th October 1895, more than 21 per cent. of the total number of warrants under disposal remained unexecuted at the close of the year. This is not creditable to the municipal executive and the Chairman should see that there is no occasion for a similar remark in future.

(4) There was a large increase in the income from tolls, due chiefly to the enhancement of the rate from three-fourths to the maximum. The receipts from the tax on carts, sale-proceeds of sweepings, school-fees, markets and slaughter-houses also improved under the circumstances explained by the Chairman in paragraph 7 of the report. The increase in the income from fines, which is attributed to the infliction of deterrent sentences by the magistracy, is satisfactory.

(5) The private scavenging system made but little progress during the year. It was worked at a small profit of Rs. 87 against Rs. 63 in 1894–95; but the number of houses served was only 167, or seven less than in the previous year. This is only about 2·8 per cent. of the total number of houses assessed to the tax on buildings, and the explanation offered by the Chairman in paragraph 14 of his report is not at all satisfactory. Owing to want of funds the Government disallowed the entertainment of the private scavenging inspector on Rs. 10, but sanctioned two additional scavengers on Rs. 6 each. With this extra establishment there was no reason why this service should not have been properly worked without the supervision of a separate inspector, as is done in several other municipalities. In the reviews of the administration of the two previous years, the council was reminded that the surest means to the extension of this service was the systematic prosecution of the owners of insanitary premises, but no action appears to have been taken on these remarks. Special steps should now be taken to extend the service and a report on the progress made up to 1st October next should be submitted through the Collector.

4. *Expenditure*—(1) *Public Works.*—The most important work under execution during the year was that of water-supply, on which a total sum of Rs. 14,800 was spent up to 31st March 1896, against an estimate of Rs. 2,22,440. The expenditure on communications amounted to Rs. 3,622, or 51·1 per cent. of the net municipal income from tolls, and the town roads are reported by the Revenue Divisional Officer to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 2,241, or 9·8 per cent. of the income from taxation. Of this, Rs. 459 were spent on secondary, and the remainder on primary, education. The municipal council maintained a high school on the salary system and two primary schools on the salary-result system, against one of each in the previous year. The attendance at these institutions taken together improved and the success obtained in the lower secondary and departmental examinations was fair; but the results of the matriculation examination continued to be very unsatisfactory, only one out of the eight students who competed having passed. In this connection the municipal council's attention will be drawn to paragraph 5 of the Collector's endorsement. The council also aided seventeen primary schools with result grants against nineteen in the previous year. The strength of these schools declined, but the results of the grant examinations were fair. Nearly the whole of the allotment for result grants was utilized; but the total number of boys under instruction in the municipal and aided schools fell from 61·9 to 56·9 per cent. of the male population of school-going age.

(3) *Medical Relief.*—There was a decline of 1,757 in the total number of patients treated at the municipal hospital, which is ascribed to the fact that the year under review was more healthy than its predecessor. The council's attention will be drawn to the necessity of certain repairs to the hospital buildings referred to in paragraph V (*b*) of the District Medical Officer's report. It is satisfactory to note that the midwife attached to the municipal hospital attended 111 cases of labour against 28 in the previous year.

(4) *Vaccination and Vital Statistics.*—The reported number of persons vaccinated during the year increased by 77 and the quality of the work also improved, the ratio of success being 80·7 against 65·8 in 1894–95; but even now the results cannot be considered satisfactory. Infantile vaccination made some progress, but the total number of children under one year successfully vaccinated was only 21·5 per mille of the population, or about five-eighths of the registered number of births. The average cost of each successful operation continued to be high, but this is explained in paragraph 26 of the Chairman's report.

There was improvement in the registration of vital statistics, which was more marked in that of deaths. The death returns may now be regarded as fairly complete, but the rate per mille of births registered was still below the normal. It is observed that, notwithstanding the repeated remarks of Government in its reviews of the administration of the previous years, not a single prosecution was instituted for failure to register births. This fact may, however, be passed over in view of the great improvement in the registration returns.

(5) *Sanitation.*—On conservancy a sum of Rs. 7,231, or a little more than the sanctioned allotment and 18·7 per cent. of the current receipts, was spent. The Government is glad to observe from paragraph 9 of the Collector's endorsement that some of the suggestions made by the Sanitary Commissioner in his last inspection notes have received attention. His other suggestions and those of the District Medical and Sanitary Officer should be carried out as soon as funds permit.

5. *General Remarks.*—The year closed with a balance of Rs. 2,00,006, or 115·3 per cent. of the receipts, but the greater portion of this sum is reserved for expenditure on the water-supply scheme. The excess expenditure over the budget grant (and not over the revised estimate), referred to in paragraphs 16 (viii) and 21 of the Chairman's report, will be admitted in the accounts.

The administration of the municipality continued to be, on the whole, fair. The statements given in paragraphs 5 and 15 of the Chairman's report were unnecessary and should be omitted in future.
