No. M., JUNE 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From G. HAMNETT, Esq., Chairman, Municipal Council, Ootacamund, to the Collector of Nilgiris, dated 11th June 1896, No. 1038.

I have the honour to send you the administration report of this municipality for the year 1895–96 for transmission to the Government, together with an extract * from the proceedings of a meeting of the municipal council held on the 6th June 1896.

* Resolution No. XV.

From G. HAMNETT, Esq., Chairman, Municipal Council, Ootacamund, to the Chief Secretary to Government (through the Collector of Nilgiris), dated 20th May 1896, No. 1034.

I have the honour to submit the administration report of the Ootacamund Municipality for the official year 1895–96, together with the prescribed statements, and copies of the reports of the Civil Surgeon and the Assistant Inspector of Schools, Eighth Division.†

† Coimbatore.

I.—CONSTITUTION OF THE COUNCIL.

2. The council consisted of sixteen members, of whom four were officials and twelve non-officials. Of the four officials, two were Europeans, one a Eurasian, and one a native. Of the twelve non-officials, four were Europeans, four Eurasians and four natives. There were three vacancies during the year, of which two were nominated and one elected. The election was not contested.

II.—Receipts.

3. The estimated receipts and the actuals are compared in the annexed statement with the actuals for 1894–95 :—

Items.	Actuals for 1894–95.	Actuals for 1895–96.	Increase.	Decrease.	Revised estimate for 1895–96.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

Grand Total ..	1,37,628 1 2	1,72,031 1 7	45,490 2 11	11,087 2 6	1,73,960 0 0

"The income from all sources" including the opening balance of Rs. 46,908–15–0 amounted to Rs. 1,72,031–1–7. This includes the assignments made by the Government, amounting to Rs. 89,000, for improving the water-supplies of the town. The expenditure, including a fixed deposit of Rs. 50,000 in the Bank of Madras for six months, at 3 per cent. interest per annum, amounted to Rs. 1,37,033–15–7, leaving a balance of Rs. 34,997–2–0, the whole of which belongs to the unexpended assignments above referred to. The closing balance should properly have been Rupees 39,858–10–2 had the municipality not appropriated the difference, viz., Rupees 4,861–8–2 for its current expenditure owing to its income having been unexpectedly reduced by about Rs. 8,000 by an adverse decision of the Madras High Court in the case of the land-tax, and by the opinion of counsel in the case of license fees for burning bricks within the town for private use. The land-tax was levied in accordance with G.O., Mis. No. 646 M., dated 4th April 1892, and the question on which decision went against the Ootacamund Municipal Council was a nice legal question. The subject has been a difficult and troublesome one.

4. The income from taxation amounted to Rs. 40,487–6–3 against Rs. 43,650, the revised estimate, and Rs. 48,007–10–3, the actuals for 1894–95. The income apart from taxation was Rs. 21,861–2–2 against Rs. 20,430, the revised estimate, and Rs. 19,716–12–7, the actuals for 1894–95. Miscellaneous receipts amounted to Rs. 7,608–6–0 against Rs. 7,620, the revised estimate, and Rs. 9,394–14–3, the actuals for 1894–95.

5. The balance outstanding on the 31st March 1895 was Rs. 3,632–4–5, of which Rs. 759–12–8 were collected, Rs. 1,261–9–1 remitted and Rs. 95–6–0 written off as irrecoverable, leaving a balance of Rs. 1,515–8–8. The demand for 1895–96 was Rs. 56,452–12–9 against the demand of Rs. 61,222–9–11 in 1894–95. The falling off in 1895–96 is to be ascribed solely to the exclusion of the land-tax heretofore levied on lands appropriated to buildings. Of the demand of Rs. 56,452–12–9, Rs. 54,220–13–7 were collected and Rs. 219–9–2 remitted on account of vacant houses, leaving a balance of Rs. 2,012–6–0, which, added to the previous year's balance, viz., Rs. 1,515–8–8, amounts to Rs. 3,527–14–8, or Rs. 104–5–9 less than the unrealized balance on the 31st March 1895.

6. *Tax on Buildings and Lands.*—During the year there was no change in the rates of taxation on buildings and in the water-tax. The land-tax of Rs. 1–8–0 per acre was abandoned under the decision of the High Court, and a rate of $7\frac{1}{2}$ per cent. per annum levied on the income actually realized on the lands. The demand, as finally settled on buildings, was Rs. 28,325–6–10, or Rs. 1,248–12–7 in advance of the demand for 1894–95, and is due to the revision made by the Chairman. The demand on lands amounted to Rs. 1,627–4–5 and is less than that of the previous year by Rs. 6,175–13–9 for reasons stated above. Of the amount collected, viz., Rupees 1,148–0–7, a refund of Rs. 710–1–11 must be made to the Forest Department which paid the tax prior to the receipt of G.O., Mis. No. 1386 M., dated 24th August 1895, cancelling the resolution of the municipal council that the gross rental of all land not let with any residence shall be assessed upon an assumed gross rental of Rs. 20 per annum.

7. *The Water-tax on Buildings.*—The demand was Rs. 3,776–13–6, of which Rs. 3,613–15–6 were collected, Rs. 25–13–2 remitted on account of unoccupied houses, leaving a balance of Rs. 137–0–10, which, added to the arrears of 1894–95, viz., Rs. 95–14–10, raises the balance to Rs. 232–15–8.

8. *Tax on Arts and Professions.*—The balance on the 31st March 1895 was Rs. 237–8–0. The amount collected during the year was Rs. 35–8–0, leaving the balance of Rs. 202 to be recovered. The demand for 1895–96 was Rs. 3,399–8–0, or Rs. 120–8–0 less than in 1894–95. This was caused by the abolition and reduction of certain offices in the Military Department. Of the demand, Rs. 3,114–8–0 were collected, leaving a balance of Rs. 285, which, added to the balance of last year, raises the amount to be recovered to Rs. 487.

9. *Tax on Vehicles, Animals and Carts.*—The estimate for 1895–96 was fixed at Rs. 4,000. The revised estimate at Rs. 5,450. The amount actually collected was Rs. 4,770.

10. The number of processes remaining unexecuted at the beginning of the year was 392. Issued during the year 671, making a total of 1,063. Of this number, 634 were executed and cancelled and 429 remained unexecuted. The number of warrants cancelled and no collections made was 51. The number of warrants withdrawn in consequence of the demands having been satisfied before distraint was 583. No property was distrained or sold. The number of prosecutions instituted was 427. In 318 cases payment was made before judgment was delivered by the Court. In four cases after judgment by the Court. The number of cases remaining undisposed of was 97.

11. No general revision of assessments was made during the year.

12. The revenue apart from taxation amounted to Rs. 21,861–2–2 against Rs. 18,090, the estimate, Rs. 20,430, the revised estimate, and Rs. 19,716–12–7, the actuals for 1894–95. The increase of Rs. 2,144–5–7 is due to the deposits by renters for 1896–97 having been taken to credit under G.O., No. 1040 M., dated 28th June 1895. The income from slaughter-houses during the year advanced by Rs. 370 as compared with 1894–95, and under School-fees there was a decrease of Rs. 366–2–0.

13. *Grants and Contributions from Government.*—The revised estimate was fixed at Rs. 54,380, but the actual contribution was Rs. 54,166–8–0.

14. *Miscellaneous recoveries on account of services rendered to private individuals.*—The estimate for private scavenging was taken at Rs. 5,000 and the revised estimate fixed at Rs. 5,400; but the actuals did not exceed Rs. 5,238–12–0. Under "Other purposes" the estimate (Rs. 500) and revised estimate (Rs. 2,200) were exceeded by the actuals (Rs. 2,304–4–6) by Rs. 104–4–6. The other items amounting to Rupees 65–5–6 relate to adjustments of petty items in the deposit account.

15. *Extraordinary and debt.*—Under loans, Rs. 477–11–11 relate to realizations of the sinking fund for repayment of loans and Rs. 521–0–3 to advances recovered.

III.—Expenditure.

16. The actuals for 1894–95 and the revised estimate and actuals for 1895–96 are set forth in the following abstract:—

Charges.

Abstract.	Actuals of 1894–95.	Revised estimate for 1895–96.	Actuals for 1895–96.

Grant V—			
Purchase of account books, &c.	77	0	11
Advances	28	2	6

18. *Grant I—Public Works.*—The expenditure (Rs. 24,190–0–2) was less than that incurred (Rs. 29,589–5–6) in 1894–95 by Rs. 5,399–5–4, but exceeded the revised estimate (Rs. 23,780) by Rs. 410–0–2. This excess was incurred in connection with "New Works"—buildings Rs. 40–10–8; drainage, Rs. 99–2–6 and water-supply Rs. 270–3–0. No money was spent on communications.

19. *[illegible] Buildings.*—The expenditure of Rs. 340–10–8 was, on account of dust-bins, Rs. 190–10–8, and for constructing a shed for barbers at the back of the grain market, Rs. 150.

20. *Drainage.*—The expenditure of Rs. 539–2–6 was for compensation for land taken up for the Kandal drainage in the year 1892, Rs. 360; and for constructing two new drains, one across the road below St. Bartholomew's hospital (Rs. 79–2–6), and the other on the side of the grain market (Rs. 100) to carry off the sewage from a portion of Meanji Sait's lines, which was discharged into the side drain on the upper bazaar road and caused a great nuisance.

21. *Water-supply.*—The expenditure under this head amounted to Rs. 1,449–2–8, of which, Rs. 666–11–4 were spent for removing peat from the bed of the Marlimund reservoir and for repairing the bund; Rs. 288–5–6 for removing silt from the bed of Dodabetta lower reservoir and for repairing the bunds of both the upper and lower reservoirs; Rs. 432–1–4 for cleaning and repairing disused wells in the town during the scarcity of water; and Rs. 62–0–6 for repairing the north supply Snowdon channel.

22. *Under Miscellaneous Public Improvements.*—Rs. 676–7–3 were expended being Rs. 16–7–3 over the revised estimate (Rs. 660). The money was spent for metalling cart-stand, Rs. 174–12–8; renewing Hobart Park fence on Etienne's road, Rs. 226–10–3; repairing willow bund and lake fence, Rs. 156–5–6; lake conservancy, Rs. 96–13–10; for cleaning Mettucheri and Agraharam streams, Rs. 20–4–0; and for repairing Lockend bridge, Rs. 7–9–0.

23. *Repairs—Communications.*—The budget provision was Rs. 11,500. It was reduced in the revised estimate to Rs. 10,800. The actual expenditure did not exceed Rs. 9,485–11–7, as the municipal council found it necessary to keep down expenditure as far as practicable in consequence of the loss of the revenue derived from land. The total mileage of roads now maintained is found to be 68¼ miles, viz., 41½ metalled and 26¾ unmetalled. The contract system for supplying material for the roads and for repairing and reforming the roads was freely adopted. The council finds it very difficult, under existing circumstances, to keep the communications in such a state of repair as it considers to be necessary.

24. *Repairs—Buildings.*—The expenditure was Rs. 2,723–15–7 against the revised estimate of Rs. 2,440. The excess over estimate was Rs. 283–15–7, which was unavoidable. The buildings on which the largest sums were spent were the market, Rs. 324–10–9; cattle shed, Rs. 210–10–10; Agraharam chattram, Rs. 175–0–9; slaughter-houses, Rs. 675–14–1; Kandal cooly lines, Rs. 442–4–1; the chattram in the main bazaar, Rs. 113–9–3; market fence, Rs. 111–9–0; Breeks' Memorial High school, Rs. 106–14–3; and laying on water for flushing the market urinals, Rs. 81–13–6.

25. *Drainage.*—The expenditure (Rs. 933–7–2) was below the revised estimate (Rs. 1,020) by Rs. 86–8–10. The improvement of the drains in the mosque and Abboo Sait's street cost Rs. 469–7–9; improving Kandal drainage by removing sumpts on the main bazaar road and elsewhere, Rs. 261–15–11; petty repairs to drains, Rs. 105–1–6; improving and diverting drain near Meanji Sait's lines, Rs. 51–14–0; repairing the wooden platforms from the margin of lake to the sumpts in the bed of the lake in connection with the main sewer, Rs. 35; and repairing culvert below Dresser's lane, Rs. 10. The council believes it to be unnecessary here to advert to the fact that it has repeatedly since 1892 urged that the defect in the sewer on the bazaar side of the willow bund should be treated as an urgent matter. The work was executed under the Sanitary Engineer to Government and the council being powerless to deal with it, though one of great urgency, has been able only to solicit the attention of Government to it in the marginally-noted communications.

From the Chairman, No. 1067, dated 22nd June 1895.
From the Chairman, No. 2497, dated 25th September 1895.
From the Chairman, No. 4270, dated 4th February 1896.
From the Chairman, No. 4582, dated 22nd February 1896.

26. *Water-supply.*—The revised estimate was fixed at Rs. 1,090. The expenditure did not exceed Rs. 879–7–0, of which Rs. 281–6–0 were spent on general repairs

to the water-supplies; protecting the north supply main at Hill side and Woodside, Rs. 145–1–7; repairing main pipe, Rs. 43–2–6; opening foot-path along the main, Rs. 27–11–6; repairing the Old Ootacamund water-supply cistern, Rs. 59–4–6; erecting stand fountain below "Glenora," Rs. 23–3–6; constructing a masonry channel across the road to Kóttagiri for conveying the Shoodukad stream without wastage of water to the European houses, Rs. 97; repairing Dodabetta reservoirs, Rs. 40–13–11; cleaning and petty repairs to wells in the town, Rs. 13–4–6; erecting pillar fountain at Pudumund, Rs. 18–13–6; purchasing rubber rings for pillar fountains and taps, Rs. 85; repairing pillar fountains and other small repairs, &c., Rs. 44–10–0.

27. *Tools and Plant and other Stores.*—The allotment in the revised estimate was Rs. 570; the expenditure amounted to Rs. 735–4–6, or Rs. 165–4–6 over the estimate. The excess was caused chiefly by the purchase of a prismatic compass for Rs. 82–11–0 and by repairing the levelling instrument at a cost of Rs. 113–8–0.

28. *Grant II, Education.*—The provision in the budget estimate for education was Rs. 9,920. It was reduced in the revised estimate to Rs. 9,750; but the expenditure actually incurred (Rs. 9,794–7–10) was slightly in excess. There was a change in the schools aided and maintained, viz., the Breeks' Memorial High school, the Municipal bazaar school, the Muhammadan school and the Kandal school, the Church Mission schools at Mettucherry, Bandyshola, Old Ootacamund and Kandal, the Wesleyan Mission school and St. Joseph's.

29. *The Breeks' Memorial High school.*—The Trustees, the Director of Public Instruction, and the municipal council found, after due consideration, that, if the school was to improve, the change in its management, which was noted in paragraph 4 (2) of G.O., No. 1760 M., dated the 25th October 1895, should be promptly carried out. They accordingly resolved upon appointing a new headmaster, and the school is now under the management of Mr. L. C. Hodgson, a graduate of the University of Cambridge, and for some time connected with education in Ceylon. He entered upon his duties on the 1st November 1895, and the number of boys in the school has advanced from forty-six on the 31st March 1895 to sixty-three on the 31st March 1896. In the upper secondary department there were during the year eight boys; in the lower secondary seventeen, and in the primary school thirty-eight. The school received from Provincial funds Rs. 3,013. It realized from school-fees Rs. 1,523–15–0 and from other sources (rent of Church cottage and school) Rs. 870, amounting together to Rs. 5,406–15–0. The expenditure amounted to Rs. 6,851–9–3, or Rs. 1,444–10–3 in excess of receipts, which was defrayed from Municipal funds. The average net cost per pupil in the upper secondary department was Rs. 106–8–10, in the lower secondary Rs. 54–9–7, and in the primary schools Rs. 13–1–3. The Director of Public Instruction, in his order No. 4577, dated 16th July 1895, on the inspection report of the Inspector of Schools, Western Circle, observed :—

"There was but one change in the *personnel* of the staff, and its work during the year is reported to be fair, though the result of the public examinations were anything but satisfactory. . . . .

"The only candidate that appeared for the Matriculation examination failed, while out of eleven candidates for the Lower Secondary examination five passed, three qualifying for certificates. The results of the inspection were pretty fair. Physics and Chemistry were not taught properly for want of the necessary apparatus. These should be supplied at an early date if the upper secondary forms are to be kept up. . . . .

"No separate drawingmaster was employed on the staff though instruction in the subject was imparted in some of the classes. A general teacher also qualified in Drawing should be employed at the earliest opportunity, if the school is to work efficiently."

30. Adverting to these remarks, it may be mentioned that the municipal council has sanctioned the obtaining of the Physical and Chemical science apparatus required, and that the headmaster has taken the necessary steps for procuring the apparatus from England. It is expected to arrive very soon. The council has also, on the recommendation of the trustees, sanctioned the employment of an additional master on a salary of Rs. 100 per mensem, and a European graduate of the Madras University has been appointed on probation from the 1st May 1896.

31. The average attendance in the secondary schools was fifteen against twenty-three in 1894–95, and in the primary schools 132 against 149. The causes of the decrease will be enquired into and explained. The total number of boys in the schools maintained and aided from Municipal funds was 755 against 543 in 1894–95. The Assistant Inspector of Schools remarks in statement No. I that—

"There was some increase in the attendance which was shared in by both the Municipal and Aided schools."

The percentage of children under instruction to children of school-going age taken at 15 per cent. of the population was 79·8 in 1895–96, against 42·9 in 1894–95. The Assistant Inspector remarks—

"The general increase in the attendance was shared in by all the classes, Native Christians and Pariaiyas put together. There were six Badagas reading in the secondary schools."

The notes of the Educational officers who inspected the Municipal Bazaar school, the Kandal school and the Muhammadan school, show that, as regards the first, the results were satisfactory on the whole; the second, that "the results were very satisfactory, all the pupils presented having got through;" and the third, that the results were fairly satisfactory.

32. The necessity for a proper school-house for the Municipal Bazaar school was noticed by the municipal council as far back as 1892–93 (*vide* Annual Report for the year, paragraph 35), but the Government is fully aware that the funds at the disposal of the council do not permit of its undertaking any new work, or supplying the deficiencies in school requirements, as promptly as may be desired by the Educational department.

33. *Grant III, Sanitation and Medical Service.*—The budget estimate provided Rs. 22,850 for these services; the revised estimate was raised slightly to Rs. 23,080. The expenditure however (Rs. 24,099–10–5) exceeded both estimates and also the actuals (Rs. 23,799–14–0) for 1894–95. The excess over estimates may be accounted for by an increase under contributions to Provincial Funds of Rs. 508, under vaccination contingencies and contributions to local boards of Rs. 21–5–4 and under conservancy contingencies and other charges of Rs. 487–3–10. There was a small increase of Rs. 11–0–8 under registration of births and deaths. The usual contribution of Rs. 800–0–1 was made to St. Bartholomew's hospital and the Apothecary employed there. The number of patients treated in the institution during the year was 975 in-patients and 17,671 out-patients against 918 and 19,597 in 1894–95.

34. A midwife was obtained in the month of May 1895 from the Lying-in-Hospital at Madras, on a salary of Rs. 15 per mensem. As she had not much experience, she was placed for some time in St. Bartholomew's hospital, and from the commencement of 1896, was provided with an office near the vaccinator's office attached to the chuttrum in the premises occupied by the market buildings. The following rules have been issued for her guidance. They were also published for general information both in English and Tamil. From the 10th January to the 29th March 1896, the midwife treated eleven cases, falling short of the number prescribed by only one. The cases were duly verified by the Sanitary Inspector.

RULES.

1. "The midwife will have a room assigned to her as an office in the building adjoining the market where the vaccinator has his office.

2 "She must be present at the office daily from 8 to 10 A.M., and from 2 to 5 P.M.

3. She must promptly comply with all requisitions for her services within the Municipal town of Ootacamund.

4. "The minimum number of cases which she must attend in each month shall not be less than four, which will be verified by the Sanitary Inspectors.

5. "For cases over the minimum, the midwife will be paid by the municipal council As 8 for every case.

6. "No fee shall be charged by the midwife to persons whose income is less than Rs. 20. For all persons in receipt of Rs. 20 and above, a fee of Rs. 2 shall be charged for ordinary cases and a fee of Rs. 5 for difficult cases including the subsequent necessary visits.

7. "For other visits the fee shall be As. 8 per visit."

35. *Vaccination.*—In the budget and revised estimates Rs. 380 were provided under this head. The expenditure (Rs. 401–5–4) exceeded the provision by Rupees 21–5–4, consequent on an increase of Rs. 12–11–1 under contingencies for printing notice forms, &c., and Rs. 8–10–3 under contribution to local boards. The work done by the municipal vaccinator under the supervision of the chairman, as determined in G.O., No. 1502 M., dated 19th October 1894, was satisfactory. The number of operations during the year was 1,238 against 1,212 in 1894–95. Of this number 1,054 were primary and 184 re-vaccination. The number of successful operations was 1,229, of which 1,051 were primary and 178 re-vaccination. The number of operations with animal lymph was 1,238, of which 1,229 were successful. The total number of successful operations was 81·64 per mille of population against 78·85 in 1894–95. The number of prosecutions for failure to have children vaccinated was 302. The average cost of each successful vaccination was As. 5–3 against As. 5–8 in 1894–95.

36. *Registration of Births and Deaths.*—The provision in the estimate was Rs. 280. The expenditure amounted to Rs. 251–0–8 against Rs. 272–8–6 in 1894–95. The number of births registered was 485 and deaths registered 357, against 466 and 339 in 1894–95, or per mille per annum of 32·21 and 23·71 against 30·95 and 22·52 in 1894–95. Five prosecutions were instituted for failure to register. In 1895–96 there were 19 more births and 18 more deaths than in the previous year. The steps which have been taken to ensure accuracy in the registration of both births and deaths were reported to the Government in the chairman's letter, No. 500, dated 6th May 1896.

37. *Conservancy and Road-cleaning.*—The expenditure incurred, viz., Rupees 18,103–9–4, exceeds the revised estimate by Rs. 413–9–4 and the actuals of 1894–95 by Rs. 181–14–3. The excess occurs under the head of "Other charges" and was explained in paragraph 15 (2) of the Chairman's letter, No. 4020, dated the 2nd January 1896, recorded in G.O., No. 446 M., dated 17th March 1896, to be due to the purchase of two night-soil carts of an improved pattern and also to the purchase of six pairs of new wheels for the night-soil and rubbish carts in use. These carts have worn away a great deal and will soon have to be replaced by fresh carts. The charges under (*d*) Contingencies exceed the revised estimate by only Rs. 64–15–6. The number of bullocks maintained was 51, the number of night soil carts 13, rubbish carts 12, sewage cart 1, and sewage hand carts 4. The night-soil continues to be deposited at the Titical depôt, as no steps have yet been taken, from want of funds, to arrange for the manufacture of poudrette, or for opening a sewage farm.

38. The number of latrines and urinals was the same as in the previous year, viz., 48 and 6, respectively, as the provision for constructing four new latrines was dropped owing to the land-tax having been abandoned by the judgment of the High Court.

39. *Private Scavenging.*—The estimate was fixed at Rs. 2,600. The actual expenditure amounted to Rs. 2,565–13–4 against Rs. 2,638–11–3 in 1894–95. The number of houses conserved rose from 251 to 260. The income derived from work done was Rs. 5,238–12–0 against Rs. 5,604 in 1894–95. The balance to credit was Rs. 2,672–14–8. This is more apparent than real, inasmuch as it has not been the practice up to this time to include under the head of contingencies (ii) the "cost of scavenging carts, &c.," which was debited to "Conservancy—(*a*) (ii) Other charges." It is proposed that, in future, the cost of scavenging carts and the cost of their repair shall be debited to "Private scavenging."

40. *Grant IV, Lighting—Miscellaneous.*—The number of lamps during the year was 251 * including the four lamps in the market premises. The lighting was managed departmentally by one inspector, one maistry and eight lamp-lighters, at a cost of Rs. 1,158–12–2 and the charge for new lanterns obtained from Ditmar in Bombay as an experiment, burners, chimneys wicks, new iron lamp-posts, &c., amounted to Rs. 1,960–6–0. The total expenditure was Rs. 3,119–2–2, and the cost of lighting each lamp was about Rs. 1–0–7 per month. The price of kerosine-oil having, however, risen from Rs. 4–8–0 to Rs. 6–4–0 per case

* As per printed list attached.

of eight gallons, it has been deemed advisable to give the lighting out again on contract at As. 14 per light. The arrangement was brought into force from the 28th April, and the establishment, with the exception of the inspector, has been given notice that it will be dispensed with from the 1st June 1896. The lighting of so extended an area, much of which is more rural than urban, necessarily presents exceptional difficulty.

41. *Market.*—The tolls and rents realised amounted to Rs. 7,810 against Rs. 7,820 in 1894–95. The expenditure including the interest on loans and sinking funds of Rs. 5,100 amounted to Rs. 6,139–3–6. The balance to credit was Rupees 1,670–12–6. If the whole of the balance to credit could be made available towards improving and extending the market buildings, the income would most probably exceed the amount heretofore realised.

42. *Slaughter-houses.*—The amount realised at the annual sale for the fees to be collected at these houses was Rs. 5,010 or Rs. 370 more than that in 1894–95 (Rs. 4,640). The expenditure on account of establishment, &c., was Rs. 272–15–3 and for repairs, &c., Rs. 734–6–9, leaving a balance at credit of the municipality, Rs. 4,002–10–0.

43. The question of providing pens for sheep and cattle has not yet been considered for the want of funds.

44. The chuttram for Hindus and Brahmins was maintained at a cost of Rupees 110–15–5 against a provision of Rs. 110. The place has been repaired at a cost of Rs. 175–0–9 and is now in better order than it has been for years back.

45. *Other charges.*—The work done for private individuals amounted to Rupees 1,805–8–6 against an estimate of Rs. 1,580. The cost of printing (Rs. 520–4–0) exceeded the estimate (Rs. 500) by Rs. 20–4–0 and the revised estimate (Rs. 330) by Rs. 190–4–0, but it was less than the expenditure (Rs. 594–8–9) incurred in the previous year by Rs. 74–4–9. The increase in printing is due to the larger number of subjects considered by the municipal council at each meeting, and to the proceedings being more extended than was the case in former years. Other items were fixed in the revised estimate at Rs. 1,100. The actuals amounted to Rs. 1,067–14–4.

46. *Grant V.*—The charge for office establishment, inspection and collection of municipal taxes was fixed in the revised estimate at Rs. 8,780. The expenditure (Rs. 8,840–4–7) exceeded the estimate by Rs. 60–4–7. The excess is accounted for by an increase under (*b*) collection (ii) purchase of account books, &c., at Rs. 77–0–11. Under the arrangement of headings under Grant V, the charge for cashkeeper, Rs. 540, which is now included in the "Office establishment" should properly come under "Collection of municipal taxes," establishment. It is proposed to adopt this arrangement hereafter.

47. *Repayment of debt.*—Rs. 3,174–9–5 were paid during the year towards the loans granted by Government to the municipality, Rs. 1,900 were invested in Government securities on account of sinking fund for the loans raised for the market buildings and the municipal office, Rs. 184–10–0 were paid for charges in connection with the investment referred to, and Rs. 6,344–12–1 on account of interest on loans obtained from the Government and private individuals. The loan of Rs. 12,420 obtained from the Government in the year 1875 was fully paid up during 1895–96.

48. *Refunds of other than current collection.*—The revised estimate was fixed at Rs. 1,400. The actual expenditure was Rs. 1,300–8–8, which includes Rs. 556–5–0 refunded to the proprietor of Bishopdown property on account of land-tax levied under sections 63–2 of Madras Act IV of 1884 for the three half years ending the 30th September 1894.

49. *Investments.*—With the sanction of the Government (order Mis. No. 665 M., dated 11th April 1896), a sum of Rs. 50,000 out of the contribution of Rs. 89,000 for the improvement of the Marlimund water-supply was, at the suggestion of the Chairman, placed in the fixed deposit in the Branch Bank of Madras for a period of six months at 3 per cent. interest.

IV.—Closing Balance.

50. The actual closing was Rs. 34,997-2-0.

51. (*a*) *General remarks.*—The municipality had no engineer in its service during the year 1895–96. The saving effected thereby under the head of establishment, Grant I., 3, as compared with the actuals of 1894–95, and by the non-employment of an overseer on Rs. 100 a month for six months, was Rs. 2,476-8-11. During the year the Chairman personally supervised the Public Works establishment and the work generally was carried out in a satisfactory manner.

Note.—There has also been a saving of 25 per cent. in the charge for laying, spreading and consolidating road materials, the charge formerly having been one rupee per cubic yard and now 12 annas per cubic yard. There has been a further saving in the rates of wages paid to temporary maistries on road work from Re. 1, 12 annas, 10 annas and 8 annas to 8 annas 7 annas and 6 annas.

(*b*) Six hundred and four notices were issued to trim hedges, remove dangerous trees, clear wattle and remove rubbish, manure, &c., from compounds. The number of prosecutions for failure to comply with notices was sixty.

(*c*) The roads in the town were kept and maintained in fair order.

(*d*) Nothing was done during the year to remedy the defect in the levels of the main intercepting sewer, or for preventing the sewage of the town from being discharged into the lake.

(*e*) The rainfall during the year 1895–96 was 9 inches and 21 cents. better than in 1894–95. The highest level reached in the Marlimund reservoir was 16 feet 40 cents. on the 27th November 1895 against 19·50, the normal water-supply level of the reservoir. The restriction enforced last year of supplying water only during the day was continued, and there was no scarcity of water in the town.

Rainfall in the town for 1895–96.

Months.	1894–95.	1895–96.

January	..	·12
February	·02	·02
March	..	1·30
Total ..	36·49	45·70
	9·21	

(*f*) No municipal meeting was adjourned for want of a quorum.

(*g*) The council would, in conclusion, express its unanimous opinion that, however desirable improvement and extention of the water-supply of the town may be, the most urgent and pressing subject, with which it should deal, is the removal of the defects in the existing drainage scheme and the provision of a satisfactory system for those parts of Ootacamund, which are at present without such a system.

(*h*) This report was circulated and adopted by the municipal council at a meeting held on the 6th June 1896.

Enclosure.

From Surgeon-Lieutenant-Colonel H. D. COOK, M.B., Civil Surgeon, Ootacamund, to the Chairman, Municipal Council, Ootacamund, dated 30th May 1896, No. 158.

I have the honour to submit the annual concise medical and sanitary report on the municipal town of Ootacamund for 1895–96.

Public Health.—The general health within municipal limits was, on the whole, good. There was a mild epidemic of influenza of short duration during the months of December and January. Fevers as usual are credited with the greatest mortality, but fever being a symptom of many diseases, it is more than probable that a variety of diseases have been returned under this heading. Pneumonia, though prevalent amongst ill-clad natives during the monsoons and cold weather, was not so fatal as the previous year. Typhoid fever was not so prevalent as last year.

Vital Statistics—

Total births	485
„ deaths	357

Causes of Deaths.

Cholera	*Nil.*
Small-pox	„
Fever	125
Dysentery	21
Diarrhœa	8
All other causes	203
Total ..	357

Sanitation.—In addition to Ootacamund proper eight villages within municipal limits are conserved. The sanitation of the town receives due and daily attention at the hands of the Chairman and frequently by the councillors and Civil Surgeon. There are forty-eight public latrines; and six urinals all within the market, with twenty-four scavengers to clean them; all latrines are freely resorted to. The number of private latrines conserved by municipal agency is 260, for the cleaning of which twenty scavengers are employed. The area of the town is 11 square miles, the total length of roads 68 miles (last year 65 miles) for the surface cleaning of which seventy-six sweepers are employed. The number of street lamps is 251 (last year 235). The number of dust-bins used is 171.

There are thirteen night-soil carts of good pattern, twelve rubbish carts, one sewage cart and four hand-carts; night-soil, town sweepings and rubbish are deposited in the pits at Titical depôt two to three miles distant from the town. The sewage of streets and drains is carried off partly by the main sewer and partly by pipe sewers below the lake. The council have been unable to take any action in respect to a sewage farm or for manufacturing poudrette from want of funds.

Careful attention is given to the cleaning and conservancy of the town and attached villages; it is, however, a matter of great difficulty to get natives to keep the enclosures of their houses clean. The police deal with persons committing nuisances. The upper lake is being filled up, and when this is completed and the sewage pipes put in thorough order, the sanitation of Ootacamund will be vastly improved. The water-supply is from two principal sources, viz, the Marlimund reservoir (north supply) and the Dodabetta reservoir (south supply); from these reservoirs the water is distributed to the town by iron pipes. The catchment area of both reservoirs is open to contamination, and in the case of the Marlimund reservoir, the surroundings and part of the bed consist of peat bog; the water from this reservoir has been pronounced bad on analysis and it has been recommended by the Sanitary Commissioner that this source be abandoned, and further that the forest lands and cultivated tea estates, which at present form part of the catchment areas of both supplies, be excluded. Mr. G. T. Walch has been appointed to draw out the necessary schemes for the general water-supply of Ootacamund.

In addition to the above sources there are about 150 wells, the water contained in some of which is good, but in many inferior. Ootacamund has a system of stone drains, Kandal village has a system of cement drains, the drains run along the natural slope towards the lake, before reaching which they are met by a main intercepting sewer arranged to carry off the sewage and prevent its discharge into the lake. Through defect in construction of this intercepting sewer, it fails in its object and the whole sewage reaches the lake. The matter is just now before Government. The Kandal drainage system, which was defective, has been rectified during the year under report.

Vaccination—

Year.	Number of cases vaccinated.	Successful.	Unsuccessful.	Unknown.	Infantile.		
					Successful.	Unsuccessful.	Unknown.
1894–95	1,212	1,187	23	2	577	..	..
1895–96	1,238	1,229	3	6	631	..	..

This is a vast improvement in vaccination this year, and this is due to the personal interest taken by the efficient municipal vaccinator, Moonoosawmy, who works very well.

Hospital and Dispensaries.—The municipal council has no hospital of its own, but there are, however, two medical institutions to serve the medical requirements of the town. The one is St. Bartholomew's Hospital, Ootacamund, supported by voluntary contributions and supplemented by grant-in-aid from Government, the District Board and the Municipal Council, Ootacamund.

The municipality makes an annual contribution of Rs. 500 to St. Bartholomew's Hospital and an allowance to the Assistant Surgeon in that institution of Rs. 300–0–1, aggregating a total of Rs. 800–0–1. The other is Hamnett dispensary at Kandal mentioned in paragraph 4 of G.O., No. 1214 M., dated the 11th September 1894. The maintenance of this institution from municipal funds was not approved by Government, which, however, has sanctioned the entertainment of a midwife on Rs. 15 per mensem. The Hamnett dispensary was worked for a small part of the year by Revd. Dr. H. Soltau and for the greater part of the year it was under a pensioned hospital assistant and inspected by the Civil Surgeon occasionally. It is supported by voluntary contributions.

Not the case. I defray all expenses.
(Signed) G. HAMNETT.

I know for a certainty that Mr. Geo. Hamnett maintains this institution at his own expense.
(Signed) W. E. SMITH,
Municipal Councillor.

The following table illustrates the attendance of patients during the last five years:—

Year.	In-patients.	Out-patients.	Total.
1891–92	823	14,180	15,003
1892–93	815	16,385	17,200
1893–94	812	18,013	18,825
1894–95	918	19,597	20,515
1895–96	975	17,671	18,646

One hundred and thirty-two lying-in cases were attended to in hospital during the year. A municipal midwife was entertained in May 1895 and worked in St. Bartholomew's Hospital till the end of 1895; she has attended to eleven cases from January to end of March 1896; she is under the direct order of the Chairman. I recommended that she should be at St. Bartholomew's hospital to be of use to patients when she has no cases to attend to in the town, but this was not approved of by the councillors.

Cur. No. 810-A.

Forwarded to Government.

2. The council will suffer permanent diminution of income owing to the causes mentioned in paragraph 3 of the report. On both subjects references have been made to Government in the communications noted in the margin. The new Act will not, it is understood, improve the position of the council in regard to land-tax or the grant of licenses for burning bricks.

I.—Land-tax—Decrease in land-tax and the consequent loss to Ootacamund Municipal Commission.

To the Chief Secy. to Govt., No. 3883, dated 20th Jan. 1893.
G.Os., Nos. Mis. 280 M., dated 1st Mar. 1893, and Mis. 363 M., dated 17th Mar. 1893.
Chairman's letter to Govt., No. 1367, dated 17th July 1895, paras. 2 & 3.
Chairman's letter to Collector, No. 1410, dated 22nd July 1895.
Chairman's letter to Govt., No. 1594, dated 5th Aug. 1895.
Chairman's letter to Govt., No. 1076, dated 11th Aug. 1895, with resolution (returned to Chairman with Mr. Francis' D.O.).

Letter to Govt., No. 332, dated 27th April 1896, paras. 3 & 4.
Letter to Govt., No. 1039, dated 12th June 1896.

II.—Brick-kilns—Loss.

Letter to Govt., No. 4707, dated 3rd Mar. 1896. and G.O., Mis, No. 618 M., dated 2nd April 1896.

3. The statement made in the report that under existing circumstances it is very difficult for the council to keep communications in a proper state of repair is noteworthy. Up to this present time, however, there has happily been no material deterioration.

4. The defects in the main sewer referred to in paragraphs 25 and 51 (*d*) should, of course, be remedied at the earliest possible date. The matter has, however, it is believed, been placed by Government in the hands of an engineer officer for treatment. In paragraph 25 the Chairman refers to the communications the council has had with Government concerning the defects in the main sewer. In the first proceedings of the council to which he refers the references of an earlier date are read, viz, :—

G.O. No. 1283 M., dated 23rd September 1893, paragraph 4.
" 1601 Mis., dated 22nd November 1893, paragraph 4.
Chairman's letter to Acting Sanitary Engineer, No. 2091, dated 7th Sept. 1894.
Do. do. do. " 347 " 1st May 1895.
Do. do. do. " 1252 " 3rd "
Annual report for 1894–95, No. 1110, dated 7th June 1895, paragraph 50 (*a*).
Demi-official letters from Chairman to the Sanitary Engineer, dated 12th Nov. 1895.
Do. do. do. " 14th " "

and demi-official from Chairman, to Secretary to Government, Public Works Department, dated 15th November 1895, also refer to the same subject.

5. The improvement in the attendance at the Breeks' school, paragraph 29, is a satisfactory sign that the change in management effected by the trustees last year is already bearing fruit and further improvement may confidently be expected to result from the additional assistance lately sanctioned for the teaching staff.

6. With the report is also forwarded the Chairman's letter, No. 1038, dated 11th June 1896. The undersigned can fully endorse this testimony to the unremitting labours of the Chairman, whose work, as is apparent from paragraph 51 (*a*), has increased with the abolition of the appointment of municipal engineer. At the same time it is far better to have no engineer than one in whom full reliance cannot be placed or in whom confidence may be misplaced; nor is an engineer a necessity while all engineering works of any importance are carried out under the supervision of the Sanitary Engineer to Government.

The land referred to in paragraph 20 was taken up during the time of the present Chairman's predecessor in office. It should have been acquired under the Land Acquisition Act.

7. The death-rate of the municipality in the year 1895 was 24·11 per mille as against an average of 23·63 for the five years 1890–94, in which the average municipal death-rate for the Presidency was 30·7. Registration here is most carefully effected and there is reason to believe that equally careful registration in other municipalities where it is attended with greater difficulties and where probably more unregistered deaths occur would tend to show the sanitary condition of Ootacamund in a still more favourable light. The comparisons made in the municipal resolution recorded in G.O., No. 1864 M., dated 3rd December 1894, are substantially applicable to the year under report. The deaths from dysentery and diarrhœa in Ootacamund were 2·52 and 2·12 in 1894–95, as against a presidency municipal average of 3·5 and 3·42, notwithstanding the fact that natives of India are particularly liable to these diseases in damp climates in the hills.

8. In reviewing the annual report for last year the Government remarked (G.O., No. 1760 M., dated 25th October 1895), that, except in the matter of education, the administration of the municipality was satisfactory. The council and the trustees of Breeks' Memorial school have, during the year under report, been co-operating with the endeavour to satisfactorily deal with the one exception. The Government is however aware that the difficulties which are freely acknowledged to exist in promoting education in the rural portions of the district are by no means non-existent in the capital town, which is chiefly inhabited by these classes, who least appreciate the opportunities of which they might avail themselves in this behalf.

(Signed) J. D. REES,
Collector.
