Extract from the Kistna Collector's letter dated 8"  
May 1896, Ref. on C. No. 2105/Ver. of 96.

Paragraph 8. The Executive Engineer refers to the necessity for draining the site, and proposes to run a drain into Pyves Canal. The Municipality has offered to contribute the small sum of Rs. 78 towards this purpose. I am under the impression, gathered from frequent personal inspection of the site that the surface of Arundelpett is, generally speaking, highest at the side of Pyves Canal, and has a uniform and considerable fall towards the Ellore Canal. I would therefore suggest that surface drainage be discharged into the last named canal; and further considering the very handsome profits made by the Municipal Council out of the purchase and sale of the land included in Arundelpett, I would strongly recommend that the council be called on to carry out a scheme of surface drainage not only for the site selected for the Stationary Submagistrate's Office and plots A and B, as suggested by the Executive Engineer, but for the whole of the petta. I believe that open drains are all that are wanted at present, and that they can be constructed for very small cost.

Read the following Proceedings of the Board of Revenue, Land Revenue, No. 3112 Mis., dated 7<sup>th</sup> July 1896:-----

Read the following:-----

1. Letter from the Collector of ~~Collector~~ Kistna Ref. on G. No. 2105/Ver., of 96, dated 8<sup>th</sup> May 1896.
2. Proceedings of the Revenue Department, No. 2034 Mis., dated 27<sup>th</sup> May 1896, stating that the Government considers that the Deputy Tahsildar's Office at Bezvada should be constructed on the site already approved.

Resolution:-----

The plan and estimate amounting to Rs. 12,000, for the construction of a Stationary Submagistrate's Office at Bezvada on the site selected in Arundelpett between the Pyves and the Ellore canals, are submitted for the sanction of Government with reference to Government Order No. 2034 Rev., dated 27<sup>th</sup> May 1896. The alternative estimates prepared with reference to para. 3 of Government Order No. 1957 W., dated 8<sup>th</sup> August 1895, have now become unnecessary.

2. The estimate includes a provision of Rs. 650 for constructing a public latrine. The Collector is requested to state whether an open latrine may not be substituted at a less cost.
3. The question whether ryots' sheds are necessary in connection with cutcherries constructed according to the revised standard plans, is now under the consideration of the Board. When the question is finally settled, a supplemental estimate will be called for if necessary.

4. In para 8 of his letter the Collector suggests that the surface drainage of the site selected for the Stationary Submagistrate should be made to discharge into the Ellore Canal and that the Municipality should be called upon to carry out a scheme of surface drainage for the whole of Arundelpett. These

suggestions will, the Board presumes, receive consideration in the Local and Municipal Department.

Order thereon. No. 2972 Mis. d/ 27<sup>th</sup> July 1896.

The plan and estimate for the construction of a stationary Submagistrate's office at Bezvada on the site selected by the Collector in Arundelpet, are approved and transferred to the Public Works Department.

2. The suggestions referred to in para 4 of the Board's ~~pro~~ Proceedings will be considered in the Local and Municipal Department.
