Opening of a municipal dispensary at Dindigul

FOR ORDERS.

H.M. & Circ

C 17/8
R 21/8

Rs 5000 to Rs 6000. If it is considered advisable to construct such a building & to give a loan of the Govt. the San. Bd. may be requested to submit an estimate. Perhaps for the present a rented building would be better, as when Dr. Chester has gone other arrangements with regard to the Mission Hospital may possibly be made.

Wood
30.7.96

I should say he wd. easily raise this sum in America, when he will of course raise the cry of persecution by Govt. HS

Dr. Chester is not at all likely to be able to raise Rs. 2000 for a for his hospital nor will Dr. Chester in all probability remain much longer in charge of it. When he goes the hospital will be pretty sure to collapse. If Dr. Chester was not quite so stiff necked a *modus vivendi* might be possible but it is quite evident that he will not bate one jot or tittle.

Why not? He is young enough to have recently married again!
HS

It is quite possible that the attendance at the muncl. dispensary will be small: indeed all things considered it will whilst Dr. Chester remains where he is be extremely probable but Dr. C's hospital cannot go on for ever and some time or the other and most likely not in the distant future the municipality will have to open an ~~establishment~~ institution of its own. To after what has been said give in now would be a mistake. The Dindigul hospital is behind the times and as Dr. C will not do anything to bring it up to date the only thing to be done is I submit to build and open a municipal dispensary: if after a reasonable time the ~~expenditure upon~~ attendance it is not commensurate with the expenditure the latter can be reduced or the dispensary closed until the time which will inevitably come arrives when it will be

As I think I said before, I should let the whole business alone as long as Dr. C. carries on his work
HS
8/8/96

I agree with Hon. Member.
A.S.H
12.8.96

I think it is better to let matters rest till Dr. Chester dies or retires. Then we shall probably be able to rent the present building. Now we shd. have to build (we have been told that no suitable places can be obtained on rent) & the Municipality cannot afford that, so Provincial Funds wd. have to pay. ~~[illegible]~~ The Dr. Chester's hospital, Dindigul has a hospital which, though it is not worked in accordance with the modern system, has worked sufficiently well for 25 years & more, and is far better than any institution the Town could set up for itself. If a Dispensary is established very little work will be done there & the upkeep will cost more than what little is worth. No absolute necessity for a Dispensary has been shown yet.

The V.P.'s letter says "dispensary"

LOCAL AND MUNICIPAL DEPARTMENT.

Against G.O. No. 387 M, dated 7th March 1896.
Current Nos 1705 & 2107 M.

From

FOR ORDERS.

Please see the notes and orders in G.O.No.387 M.,dated 7th March 1896.

2. The Municipal Council states that it is willing to start an out-patient dispensary of its own,as suggested by Government, and that in the event of ~~its~~ this being opened, it will entirely withhold the grant of Rs.625 now paid to Dr.Chester's hospital. The Dindigul Taluk Bd. says that it is in favour of opening a new hospital(probably a dispensary is ment)and is willing to contribute annually a sum not exceeding Rs.1,200 towards its maintenance,in addition to a grant of Rs.500 for the Mission Hospital so long as Dr.Chester remains in charge of it.

3. The present municipal grant of Rs.625 to Dr.Chester's hospital with the contribution of Rs.1,200 now promised by the Taluk Board, which for the sake of convenience

convenience might be fixed at two-thirds of the total cost, more than covers the cost of the new dispensary, which is estimated at Rs.1,800.

4. As regards the provision of a dispensary building, it does not appear that the funds required for the purpose can be found from the current revenues of the Municipality. They will therefore have to be met by a loan or a grant from Provincial funds.

V.R. 23/7/96 5. If the Council's & M. Bd's proposals are sanctioned it will entail a loss of Rs 1973 (Rs (1848 - 500) + Rs 625) to Dr. Chester's mission hospital, & unless he can raise this amount by private subscription, he will be turned out of the field. Dr. Chester however seems to think that he will be able to raise these subscriptions (please see his letter in G.O. $\frac{1352\,M}{17\text{-}8\text{-}95}$ & Flag A.). If so, it is probable that, except for official work, such as postmortems, certificates &c., his hospital will do nearly all the work of the town, as it does at present. If this happens, the work done in the proposed munl. dispensary will hardly justify ~~its~~ the cost of its upkeep, to say nothing of the cost of building, an estimate for which is not yet available. The cost has been put down roughly at

51. Read- the District Board President's R. C. No 49 dated 16-3-1896 forwarding G. O. No $\frac{387 \text{ M. mis}}{7.3.1896}$

requesting to report what amount, the taluk Board would be willing to contribute toward the upkeep of a separate out-patient dispensary at Dindigal, if started anew, and to state whether the Board would be willing to continue their present contribution to the Mission dispensary in the event of a new dispensary being started.

Also resolution No. 271 / 30-3-1896

Also the copy of the Inspection Notes of the Surgeon-General sent by him through the President District Board.

Resolution: The Board, at present, contributes Rs 1848 annually towards the Mission Hospital which is a much larger sum than that contributed by the Municipality. Besides Doctor Chester's services, the mission contributes practically nothing, except, perhaps, the building. The Surgeon General's remarks show that the hospital staff is not up to the requisite standard. Unless, therefore, Doctor Chester consents to the alterations proposed by Government, the Taluk Board is not prepared to continue its present scale of contribution. It is in favor of a new hospital being established jointly by the Municipality and the Board.

Dispensary?

When such a hospital is established, the Board would be prepared to Contribute an amount not greater than Rs 1200 a year towards its expenses When this is done, the Board would have to reduce its Contribution to the Mission Hospital to not more than Rs 500 a year. This maximum of Rs 500 a year the Board will be willing to Contribute as long as Doctor Chester remains in charge of the Hospital in Consideration of his long and great services gratuitously performed. But the Board does not pledge itself to Continue any Contribution after Doctor Chester ceases to be in charge
