GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. V. SUBBA RAO Avargal, B.A., Chairman, Municipal Council, Karúr, to the Chief Secretary to Government (through the Revenue Officer of the Division, Coimbatore), dated 9th June 1896, No. 5.

I have the honour to submit the annual report on the working of the Karúr Municipality for the year 1895–96. The prescribed statements and reports accompany.

I.—Constitution of the Council.

2. The council contained its full strength at the close of the year. Three seats which had remained vacant on the 31st March 1895 and two vacancies which took place during the year—one by retirement and the other by death—were duly filled up. The total number of meetings held was 29 against 25 in the previous year, and there was a slight increase in the average attendance including that of official councillors. Only one meeting was adjourned for want of quorum.

3. The revenue realized and the charges incurred during the last five years are shown below :—

Year.	Receipts.	Charges.	Surplus.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
1891–92	15,021 4 10	17,730 8 4	— 2,709 3 6
1892–93	13,248 14 8	16,138 11 4	— 2,894 12 8
1893–94	14,975 15 8	15,821 0 10	— 845 1 2
1894–95	15,755 5 1	14,716 8 3	+ 1,038 12 10
1895–96	17,445 1 11	16,388 2 7	+ 1,056 15 4

The revenue collected in the year is the highest on record and shows an advance of Rs. 1,690, or nearly 11 per cent. over the preceding year. Attention was drawn to the low state of the municipal finances by the Government in its order reviewing the budget estimate for 1895–96 and the council was directed to improve them. No efforts were spared to develop the revenues as best as they could be.

4. The incidence of taxation per head of the population which is 10,750 rose from Rs. 1–7–7 to Rs. 1–10–0 in the year including tolls from Rs. 1–1–4 to Rupees 1–4–6 without them.

II.—Receipts.

5. The total receipts during the year amounted to Rs. 17,445–1–11 against Rs. 15,755–5–1 in 1894–95, showing an advance of Rs. 1,689–12–10 distributed under nearly all heads as shown in the following table :—

—	Receipts in 1894–95.	Receipts in 1895–96.	Increase or decrease.
	Rs.	Rs.	Rs.
Tax on Buildings	4,116	4,671	+ 555
„ on Lands	340	640	+ 300
„ on Vehicles	155	276	+ 121
„ on Animals	385	471	+ 86
Tolls	4,098	3,660	— 378
Ferry Rents	496	667	+ 171
Fees under Act II of 1888	45	180	+ 135
Sale of sweepings	..	279	+ 279
Fees from educational institutions	1,948	2,268	+ 320
Income from markets	509	651	+ 141
„ slaughter-house	297	327	+ 30
Cart-stand fees	389	560	+ 171
Fines under Municipal Acts	115	173	+ 58
Contributions—Medical	1,238	1,058	— 180
Private scavenging fees	122	168	+ 46

6. *Tax on Buildings.*—The increase under this head of Rs. 555 is due chiefly to the revision of the house-tax register which raised the demand from Rs. 4,094 to Rs. 4,435 and to the collection of arrears. More than 98 per cent. of the demand for the year was realized. There remained Rs. 112–12–0 uncollected, of which Rs. 43–8–0 related to the two preceding years. Coercive processes were issued in 91 cases, property was distrained in 10 and sold only in two for a sum of Rs. 3–3–0. One hundred and sixty-two warrants that remained undisposed of at the beginning of the year were, all of them, executed or cancelled. There were 38 warrants for a sum of Rs. 33–2–0 which remained unexecuted, many of them have been since disposed of. The revision caused some dissatisfaction and there were 80 appeals against my assessments, in 55 the council reduced them.

7. *Tax on Lands.*—The collections nearly doubled, having risen from Rs. 346–3–0 to Rs. 639–14–3. Land-tax registers were also revised during the year which brought up the demand from Rs. 366 to Rs. 485. The balance that remained uncollected at the close of the year was Rs. 41, of which Rs. 15 have since been collected. A large portion of the balance relates to taxes on vacant sites, the realization of which is attended with some difficulty, as many of the owners do not reside within municipal limits. Taking the land-tax alone, the balance was Rs. 12–12–0.

8. *Tax on Vehicles and Animals.*—There was an increase of Rs. 207. Vehicles with springs have risen in number, while carts without them remained stationary, their number ranging from 200 to 216.

9. *Tolls.*—The four toll-gates were leased out for Rs. 5,606 against Rs. 4,750 in the previous year and, although they were higher by Rs. 856, the actual amount credited to Municipal funds fell to Rs. 3,660 from Rs. 4,097. The arrears due to the district board for their share in former years amounting to Rs. 602–11–8 were paid in the year under report and account for the decrease. The demand for the year was fully collected. The balance shown in statement IV-B relates to the years 1893–94 and 1894–95. Rs. 500 remain in the Post Office Savings Bank and could not be adjusted owing to the pass-book remaining in courts as evidence in connection with certain charges against the ex-Chairman. Rs. 787–8–0 form the misappropriated amounts reported last year.

10. *Ferry rents.*—The demand for fasli 1305 ending with 30th June 1896 was Rs. 573 against Rs. 471. Rs. 143–4–0 shown as uncollected in statement IV-A does not properly form a portion of the demand for the official year and became due in April last. The amount has since been realized.

11. *Fees under Act II of* 1888.—There has been a large advance from Rs. 45 to Rs. 180 under this head owing to certain circus and theatrical troupes which gave performances in the town.

12. *Sale of Sweepings.*—The sweepings and rubbish for the year were sold for Rs. 151 which, with the arrears of the previous year, made the collections amount to Rs. 278–15–9. The removal of the depôt to a long distance from the irrigated fields which are close to the town has reduced the demand as compared with the year 1893–94.

They are not used as manure in dry lands to the same extent as in irrigated tracts, and the few wet fields that are near it are not well cultivated. There are not the same facilities for carrying the manure now to places, which require it most, that there were, when there were two depôts on either side of the town.

13. *Fees from Educational Institutions.*—There has been considerable improvement, an advance of Rs. 320 in the fees having occurred owing to the improved strength of the high and primary schools. The number of boys in the primary school was 238 against 207 of the previous year and in the high school including the lower secondary department it rose from 67 to 102, the highest class showing twelve boys against seven and two in the years 1894–95 and 1893–94, respectively.

14. *Income from Markets.*—There are three markets including the butchers' stalls which were leased out as shown in the margin for a sum of Rs. 641 against Rs. 457 in the year 1894–95. The most marked increase is under butcher stalls, which on account of the practise in former years of renting them out at a monthly rate of one rupee per stall could not fetch more than Rs. 80 on a average. They are now leased out to the highest bidders.

	1894–95.	1895–96.
	Rs.	Rs.
1. Daily market ..	142	160
2. Weekly „ ..	250	261
3. Butchers' stalls ..	65	220
Total ..	457	641

15. *Slaughter-house.*—The rent rose to Rs. 326 from Rs. 275 in 1894–95.

16. *License Fees.*—The amount was nearly the same as in the previous year. Particular attention is paid to the provisions of section 188 of the Municipal Act. There were two prosecutions for carrying on offensive trades without permission.

17. *Cart-stand Fees.*—The municipal cart-stand was leased out for Rs. 560 against Rs. 350 in the previous year. This is an unusually large amount due to a morbid competition among the contractors and is not likely to recur.

18. *Contribution—Medical.*—Notwithstanding the grant of Rs. 200 obtained from the district board on account of the caste and gosha dispensary maintained jointly by them and the council, there was a decrease of Rs. 170 owing to the reduction in the contribution payable by the Erode Taluk Board from Rs. 1,200 to a third of the actual expenses (*vide* G.O., No. 1303 L., dated 17th July 1894). This arrangement was brought into force for the first time in the year under report and has resulted in a loss of Rs. 350 to the council.

Section under which charged.	Number of persons convicted.	Amount of fines imposed.
		Rs. A. P.
189	2	0 4 0
192	9	3 4 0
218	2	0 12 0
221	10	2 10 0
222	1	0 4 0
225	7	2 0 0
Total ..	31	9 2 0

19. *Fines under Municipal and other Acts.*—There was an increase of Rs. 67. The amount did not come up to the figures in the estimates according to which it should have been Rs. 200. The number of persons prosecuted by the council and the fines imposed on them by the bench magistrates are shown in the margin. It will be seen that the fines are too small and produce no deterrent effect. This leniency is much to be regretted, as it has made the people indifferent to municipal prosecutions.

20. *Fishery.*—No rent is collected for fishery in the river Amarávati within the municipal limits. The district board used to lease it out in former years, which on my protest, they have ceased to do from the current year.

21. *Private Scavenging fees.*—The fees show an increase of Rs. 46 over the preceding year. The number of houses served rose from 93 to 140. The scale of fees is very low ranging from one to four annas a month. There was a small balance of 15 annas remaining uncollected out of the demand for the year. It has since been

received. A sum of Rs. 84–12–0 being the arrears for the three years ending with 1894–95 were written off as irrecoverable as they related to houses which were either not served by the municipal scavengers or the owners of which had left the town.

22. Statements IV-A and IV-B giving the details of the arrears will show that, except under house and land taxes, the collections covered the demand for the year and that what remained uncollected were mostly the misappropriated sums for the recovery of which steps are being taken.

III.—Charges.

23. The total charges for the year come up to Rs. 16,388–2–7 showing an increase of Rs. 1,671–10–4 over the expenditure for the year 1894–95. It has, however, fallen below the revised estimate, according to which it should have been Rs. 17,760 owing to sites for the burning and burial grounds, for which a sum of Rs. 800 was provided not having been acquired and to expenditure on buildings to the extent of Rs. 200 not having been incurred during the year.

24. The following table compares the expenditure under different grants during the last two years :—

	Expenditure in 1894–95.	Expenditure in 1895–96.
	RS.	RS.
Grant I	2,006	2,450
„ II	3,533	3,624
„ III	6,817	7,589
„ IV	1,297	1,450
„ V	1,064	1,264

There has been an increase under each grant, notably under Grants I and III for reasons given below.

25. *Grant I.*—The total outlay was Rs. 2,450–4–8 distributed as follows :—

	RS.	A.	P.
New works—			
Communications	330	2	0
Buildings	*Nil.*		
Water-supply			
Repairs—	29	10	9
Communications			
Buildings	1,542	8	1
Water-supply	445	14	6
Drainage	2	5	4
	99	12	0

There were no works of any importance carried out in the year. Rough-stone revetments on the sides of three existing roads and streets have been classified under new works—communications. No new building was constructed, though it was intended to have two latrines at a cost of Rs. 200. Sites have been chosen and their acquisition has been applied for through the Collector. It was intended to build a latrine for the school, but owing to a proposal to transfer a part of the municipal school compound to the Mission industrial institution, its construction was put off.

An allotment of Rs. 100 for water-supply could not be fully utilized, as the excavation of a well could not be proceeded with owing to early rains. It has since been completed.

Fourteen roads and streets were repaired, nine of them having been metalled and the rest gravelled. The total expenditure on account of roads and streets was Rupees 1,872–10–1 being more than 50 per cent. of the net income from tolls.

Under repairs to buildings a sum of Rs. 445 was spent against Rs. 138 in the previous year. Three public latrines were repaired at a cost of Rs. 83, the flooring of the daily market was improved as suggested by the Deputy Sanitary Commissioner in his inspection report, dated 24th and 25th July 1894. The hospital sheds, the condition of which was reported by the District Medical and Sanitary Officer to be bad were reformed at a cost of Rs. 99. Repairs to the Municipal office store-rooms and primary school buildings cost Rs. 138.

Drainage Repairs.—A sum of Rs. 99–12–0 was spent for the repair of the pukka masonry drain in the Mavadiyan Kovil Street.

26. *Grant II, Education.*—The charges on account of the high school establishment show a decline owing to the absence of the permanent headmaster on deputation to provincial service and to the salary of his substitute having been fixed at Rs. 50 a month. The increase under contingencies, both in the high and primary schools, is due to the supply of twelve back-benches. The municipal high school has improved both as regards strength and instruction. The number of boys in the fourth form has risen from two and seven in 1893–94 and 1894–95 to twelve in 1895–96. The total strength in the four forms at the close of the year was 102 against 67 in the year 1894–95. The institution is now almost self-supporting, the net cost having been Rs. 83–5–6 against Rs. 698 and Rs. 414–8–0 in the two previous years. In reference to the remarks of the Government in its order reviewing the last annual report, that efforts should be made to render the school as nearly self-supporting as possible, the council is glad that its endeavours to carry out the directions of the Government have been successful. The school was examined by T. T. Logan, Esq., Inspector of Schools, Western Circle, who expressed himself satisfied at the progress made in the year 1895–96 in the following words: "I really think the school has at last begun to show signs of improvement. Discipline and tone more satisfactory than they had been for a long time." The number of boys in the primary school under the direct management of the council rose from 207 to 238. The school did well at the annual examinations held by the Assistant Inspector of Schools—125 having passed out of 133 that were presented. The net cost to the municipality on account of the primary school was Rs. 608 against Rs. 576 in 1894–95.

Results Schools.—There was a fall in the number of aided schools from six to five and the number of boys in them declined from 301 to 258. The results turned out were, however, better in quality, as the grants paid to them advanced from Rs. 205 to Rs. 296–9–0.

27. *Grant III, Hospitals and Dispensaries.*—The main hospital has been in charge of M.R.Ry. E. Annaswami Mudaliyar who was appointed to it in June 1895 in the place of M.R.Ry. C. Sekharan transferred. His report on the working of the two dispensaries maintained by the municipality is herewith submitted. Both of them are growing in importance. The number of out-patients treated in the main hospital was 11,407 and in the caste and gosha dispensary 15,050, making a total of 26,457 against 22,577 in the year 1894–95. Miss A. W. Watson, who is in charge of the latter dispensary, continues to be popular as evidenced by the increase in the number of her patients. The average number treated by her daily was 95·5 and 86·16 in the main hospital. The expenditure on account of medical aid has risen to Rs. 3,510 and is very high, being nearly 20 per cent. of the revenue. A contribution of Rs. 200 is obtained from the district board towards the upkeep of the female dispensary, which is too small to maintain it in proper condition. Under the advice of the Dufferin's Fund Committee and the Surgeon-General, a male compounder on a salary of Rs. 12 has been appointed to it and instruments and appliances, at a cost of Rs. 170, have been supplied. The midwife, who is now working under the supervision of the lady apothecary, attended 70 cases of labour against 52 in the year 1894–95; and Miss A. W. Watson attended 13 cases, of which 5 were difficult.

28. *Vaccination.*—The following table gives the results of vaccination for the last five years :—

Year.	Below one year.				Above one year.				Total number of vaccinations.	Total successful.	Total unsuccessful.	Total unknown.
	Number vaccinated.	Successful.	Unsuccessful.	Unknown.	Number vaccinated.	Successful.	Unsuccessful.	Unknown.				
1891–92	215	189	23	3	135	119	12	4	350	308	35	7
1892–93	199	177	16	6	229	192	30	7	428	369	46	13
1893–94	89	49	40	..	200	173	24	3	289	222	64	3
1894–95	344	305	38	1	548	480	62	7	892	785	101	6
1895–96	333	312	19	2	222	198	21	3	555	510	40	5

received. A sum of Rs. 84–12–0 being the arrears for the three years ending with 1894–95 were written off as irrecoverable as they related to houses which were either not served by the municipal scavengers or the owners of which had left the town.

22. Statements IV-A and IV-B giving the details of the arrears will show that, except under house and land taxes, the collections covered the demand for the year and that what remained uncollected were mostly the misappropriated sums for the recovery of which steps are being taken.

III.—Charges.

23. The total charges for the year come up to Rs. 16,388–2–7 showing an increase of Rs. 1,671–10–4 over the expenditure for the year 1894–95. It has, however, fallen below the revised estimate, according to which it should have been Rs. 17,760 owing to sites for the burning and burial grounds, for which a sum of Rs. 800 was provided not having been acquired and to expenditure on buildings to the extent of Rs. 200 not having been incurred during the year.

24. The following table compares the expenditure under different grants during the last two years :—

	Expenditure in 1894–95.	Expenditure in 1895–96.
	Rs.	Rs.
Grant I	2,006	2,450
„ II	3,543	3,624
„ III	6,817	7,589
„ IV	1,297	1,450
„ V	1,064	1,264

There has been an increase under each grant, notably under Grants I and III for reasons given below.

25. *Grant I.*—The total outlay was Rs. 2,450–4–8 distributed as follows :—

	Rs.	A.	P.
New works—			
Communications	330	2	0
Buildings		*Nil.*	
Water-supply			
Repairs—			
Communications	29	10	9
Buildings	1,542	8	1
Water-supply	445	14	6
Drainage	2	5	4
	99	12	0

There were no works of any importance carried out in the year. Rough-stone revetments on the sides of three existing roads and streets have been classified under new works—communications. No new building was constructed, though it was intended to have two latrines at a cost of Rs. 200. Sites have been chosen and their acquisition has been applied for through the Collector. It was intended to build a latrine for the school, but owing to a proposal to transfer a part of the municipal school compound to the Mission industrial institution, its construction was put off.

An allotment of Rs. 100 for water-supply could not be fully utilized, as the excavation of a well could not be proceeded with owing to early rains. It has since been completed.

Fourteen roads and streets were repaired, nine of them having been metalled and the rest gravelled. The total expenditure on account of roads and streets was Rupees 1,872–10–1 being more than 50 per cent. of the net income from tolls.

Under repairs to buildings a sum of Rs. 445 was spent against Rs. 138 in the previous year. Three public latrines were repaired at a cost of Rs. 83, the flooring of the daily market was improved as suggested by the Deputy Sanitary Commissioner in his inspection report, dated 24th and 25th July 1894. The hospital sheds, the condition of which was reported by the District Medical and Sanitary Officer to be bad were reformed at a cost of Rs. 99. Repairs to the Municipal office store-rooms and primary school buildings cost Rs. 138.

Drainage Repairs.—A sum of Rs. 99–12–0 was spent for the repair of the pukka masonry drain in the Mavadiyan Kovil Street.

26. *Grant II, Education.*—The charges on account of the high school establishment show a decline owing to the absence of the permanent headmaster on deputation to provincial service and to the salary of his substitute having been fixed at Rs. 50 a month. The increase under contingencies, both in the high and primary schools, is due to the supply of twelve back-benches. The municipal high school has improved both as regards strength and instruction. The number of boys in the fourth form has risen from two and seven in 1893–94 and 1894–95 to twelve in 1895–96. The total strength in the four forms at the close of the year was 102 against 67 in the year 1894–95. The institution is now almost self-supporting, the net cost having been Rs. 83–5–6 against Rs. 698 and Rs. 414–8–0 in the two previous years. In reference to the remarks of the Government in its order reviewing the last annual report, that efforts should be made to render the school as nearly self-supporting as possible, the council is glad that its endeavours to carry out the directions of the Government have been successful. The school was examined by T. T. Logan, Esq., Inspector of Schools, Western Circle, who expressed himself satisfied at the progress made in the year 1895–96 in the following words: "I really think the school has at last begun to show signs of improvement. Discipline and tone more satisfactory than they had been for a long time." The number of boys in the primary school under the direct management of the council rose from 207 to 238. The school did well at the annual examinations held by the Assistant Inspector of Schools—125 having passed out of 133 that were presented. The net cost to the municipality on account of the primary school was Rs. 608 against Rs. 576 in 1894–95.

Results Schools.—There was a fall in the number of aided schools from six to five and the number of boys in them declined from 301 to 258. The results turned out were, however, better in quality, as the grants paid to them advanced from Rs. 205 to Rs. 296–9–0.

27. *Grant III, Hospitals and Dispensaries.*—The main hospital has been in charge of M.R.Ry. E. Annaswami Mudaliyar who was appointed to it in June 1895 in the place of M.R.Ry. C. Sekharan transferred. His report on the working of the two dispensaries maintained by the municipality is herewith submitted. Both of them are growing in importance. The number of out-patients treated in the main hospital was 11,407 and in the caste and gosha dispensary 15,050, making a total of 26,457 against 22,577 in the year 1894–95. Miss A. W. Watson, who is in charge of the latter dispensary, continues to be popular as evidenced by the increase in the number of her patients. The average number treated by her daily was 95·5 and 86·16 in the main hospital. The expenditure on account of medical aid has risen to Rs. 3,510 and is very high, being nearly 20 per cent. of the revenue. A contribution of Rs. 200 is obtained from the district board towards the upkeep of the female dispensary, which is too small to maintain it in proper condition. Under the advice of the Dufferin's Fund Committee and the Surgeon-General, a male compounder on a salary of Rs. 12 has been appointed to it and instruments and appliances, at a cost of Rs. 170, have been supplied. The midwife, who is now working under the supervision of the lady apothecary, attended 70 cases of labour against 52 in the year 1894–95; and Miss A. W. Watson attended 13 cases, of which 5 were difficult.

28. *Vaccination.*—The following table gives the results of vaccination for the last five years :—

Year.	Below one year.				Above one year.				Total number of vaccinations.	Total successful.	Total unsuccessful.	Total unknown.
	Number vaccinated.	Successful.	Unsuccessful.	Unknown.	Number vaccinated.	Successful.	Unsuccessful.	Unknown.

1892–93	199	177	16	6	229	192	30	7	428	369	46	13
1893–94	89	49	40	..	200	173	24	3	289	222	64	3
1894–95	344	305	38	1	548	480	62	7	892	785	101	6
1895–96	333	312	19	2	222	198	21	3	555	510	40	5

As in the former year, an enumeration was ordered of all unprotected children and measures were adopted for their vaccination. Fifteen cases were prosecuted before the Magistrate for failure to vaccinate. An inoculated calf was sent for, and as many as 113 were vaccinated directly from it. The total for the year, however, shows a decline as in the year 1894–95. Four hundred and forty-eight children above the age of one year had remained unprotected. The average number of births in a year is about 400, and in future unless re-vaccination is largely resorted to, the number must decline. The total number of re-vaccination was thirty-eight against twenty of the previous year. There was only one death from small-pox in the town. The average cost of vaccination was As. 7–1, while it was only As. 4–8 in the year 1894–95. The rise is due to the charges for the supply of animal lymph for the last two years having been paid in the year under report and to the smaller number of cases vaccinated.

29. The accompanying table gives the vital statistics for the last five years :—

Year.	Total births registered.	Total deaths registered.	Population of the town.
1891–92	437	340	10,750
1892–93	408	261	
1893–94	386	357	
1894–95	413	283	
1895–96	402	303	

The number of births registered was nearly the same in the last two years and that of deaths shows an increase from 283 to 303. Particular care was taken to make the registers as complete as possible. Eighteen persons were prosecuted under sections 247 and 283 of the Municipal Act for not giving information within the prescribed period. Public health was fairly satisfactory. There was no epidemic of any kind and the largest number of deaths was on account of fever and bowel-complaints.

30. *Sanitation.*—The total charges under this head were Rs. 3,626–11–8 showing an increase of Rs. 170–9–9. The increase under conservancy other—charges from Rs. 837 to Rs. 1,059 is due to twenty corrugated galvanised iron dust-bins and a new iron night-soil cart which were ordered during the year. There are now nine public latrines – six for women and three for men. It is proposed to have two more, and the council is taking steps to acquire sites for them.

Backyards.—On a careful enumeration of houses which have accommodation for privies served by municipal or other scavengers, it has been found that their number was 478, of which 159 have been registered under the private scavenging system, 84 are served privately by municipal toties and sweepers without registration or recognition by the council and 135 by other scavengers. Steps will be taken to bring as many of the latter as possible under municipal control. One hundred and twenty-five houses had well latrines or cess-pits, which were never cleaned, forty of them were closed under the strict orders of the council, which were complied with only after the prosecution of nine persons under section 221. The closure of such of them only as had separate entrances opening into lanes was insisted on in the year.

Notices were issued to fifteen persons calling attention to the filthy condition of their backyards and two were prosecuted and punished.

No arrangement was made for the removal of the sewage and the proposal to have it organised on a self-supporting basis is under the consideration of the council. Provision has been made in the current year's budget for constructing a drain in the Car street and Kurumba lane.

A new burial-ground has been opened for the use of the northern half of the town, the place originally used for storing rubbish being utilised for the purpose. Another burial-ground towards the west is necessary before people can be prevented from using the present objectionable places. A site for burning dead bodies has also been chosen and the instructions of the sanitary board as to its suitability have been applied for. The secretary to the board has promised to inspect the place and advise.

31. *Grant IV.*—The town continues to be lighted for twenty nights in a month by means of 126 lanterns. The total cost for lighting, including the salary of the masalchies, amounted to Rs. 890 against Rs. 774 in 1894–95. Fifty old lanterns were replaced by new ones, and kerosene oil was selling dearer than in the previous year, which explain the increase. A sum of Rs. 50 was paid for a piece of ground acquired for storing rubbish on the Pugalore road in September 1894.

32. *Grant V.*—The charges under this grant call for no special remarks. The payment of Rs. 159–0–6 for the purchase of account books, &c., includes the arrears of the preceding year.

IV.—Closing Balance.

33. The year closed with a balance of Rs. 3,435–3–8 excluding the deposit balance.

34. Copy of the resolution of the council approving the report is submitted.

Enclosures.

Concise Annual Report on the working of the Municipal Hospital, Karúr, for the year 1895–96.

Public Health.—The public health was, on the whole, satisfactory throughout the year under report. There were no epidemics during the year. Fever prevailed largely about the middle of the year.

2. *Vital Statistics.*—There were 303 deaths in the town during the year. Of these 95 were children under one year of age. The largest number of deaths comes under fever and bowel-complaints. The total number of births registered during the year was 402.

3. *Sanitation.*—The drinking water is chiefly obtained from the river Amarávati. There are some draw-wells in the town set apart for drinking purposes only; they are kept in good condition, but the water in most of these wells is brackish. There are only nine latrines in the town; they are freely used by the people. Some more additional latrines are required. The council has decided to build some more latrines during the current year. There is no proper system of drainage in the town. The sewage of private houses is in some cases allowed to run into the backyards, where it is used in irrigating trees. In some places it is allowed to run into the street-drains, where it stagnates for want of proper system of drainage. There are no cesspools in the town, but there were several cesspits or well-latrines; most of these have been closed. The dead bodies are still burnt in the bed of the river. The municipal council has selected a piece of ground to be used a burning ground which will be acquired on being approved by the Sanitary Commissioner, Madras. The sanitary condition of the town is fair.

4. *Vaccination.*—Vaccination is compulsory in this town. A 1st-class vaccinator is employed by the council. Five hundred and fifty-one cases were vaccinated during the year against 843 cases in the previous year. Of these, 113 cases were from calf to arm and 438 cases from glycerine paste. Of the former 93 per cent. were successful, and in the latter 91 per cent. were successful. Three hundred and thirty-three cases were under one year. There were thirty-eight cases of re-vaccination.

5. *Hospital.*—(*a*) In the main building there are two wards—one male and one female—accommodating six patients in all. There is another small ward for lying-in cases. There is a shed for bed-ridden cases.

The contagious sheds are in a dilapidated condition.

(*b*) The main building requires minor repairs.

(*c*) Furniture in fair condition; a good filter and a bath tub are required.

(*d*) The tabular statement given below shows the number treated as compared with previous years :—

Years.	In-door.	Out-door.	Total.
1891–92	78	10,854	10,932
1892–93	67	15,102	15,169
1893–94	70	15,951	16,021
1894–95	93	15,801	15,894
1895–96	55	11,407	11,462

The decrease under in-patients is due to admitting only those cases that require to be treated as in-patients. A large number of pilgrims was admitted in the last year as in-patients, but no pilgrims came in this year. The fall in out-patients is due to the opening of a female dispensary in the centre of the town under the charge of a lady apothecary from 1st September 1894.

(*e*) There were five deaths among in-patients during the year—two from injuries, two from chronic diarrhœa and one from anæmia and dropsy.

(*f*) Fifty-three major and 591 minor operations were performed during the year with no deaths.

(*g*) Establishment is sufficient and efficient.

(*h*) The midwife attached to this hospital has attended seventy cases of labour during the year against fifty-two cases in the previous year. From the 1st April 1896 the midwife has been transferred to the female dispensary, Karúr.

(*i*) The hospital compound is small. Contagious sheds, which are close to the wards, must be far removed from the main building.

KARUR,
2*nd May* 1896.

(Signed) E. ANNASWAMI MUDALIYAR,
Civil Apothecary.

CONCISE Annual Report on the working of the Women and Children's Dispensary, Karúr, for the year 1895–96.

A separate dispensary, for the exclusive use of women and children, was opened on the 1st September 1894 under the charge of Miss A. W. Watson, lady apothecary. It is located in the local fund chattram. Fifteen thousand and fifty cases were treated during the year with a daily average of 95·5, against 6,776 cases treated during a period of seven months in 1894–95 with a daily average of 75·93.

Thirteen major and 416 minor operations were performed during the year with two deaths—one died from peritonitis and one from exhaustion.

Thirteen cases of labour were treated during the year with one death. Of these, eight were natural and five difficult labours. The one death resulted from peritonitis.

Ag. Sub-Collector.

Dis. No. 2119-Rev.

Forwarded.

2. *Paragraph* 2.—As to the number of meetings held by the municipal council and the average attendance of the official and non-official members, the year showed an improvement over its predecessor.

3. *Paragraphs* 6 *and* 7.—The house and land tax registers were revised during the year, and the collections were satisfactory. Almost all the items of receipts showed increases over the preceding year. The outstandings under house and land taxes were small, and of these, portions are stated to have been realised since the end of the year. No useful purpose is served by retaining in the accounts amounts which relate to previous years and which it is impossible to collect, and the council should consider the advisability of treating them as irrecoverable and according sanction for their being written off the accounts. Prompt steps should be taken for the recovery from the ex-Chairman by a civil suit (for the institution of which Government has in order

Mis. No. 434 M., dated 16th March 1896, accorded its sanction) of the amounts embezzled, or the question of writing them off also should be considered, as ordered by Government in the closing sentence of paragraph 3 of its order No. 1803 M. of 30th October 1895.

4. *Paragraph* 9.—Tolls fetched a larger sum than in 1894–95, although the net amounts actually credited fell off. This result is satisfactorily explained.

5. *Paragraph* 12.—The explanation of the decrease is not altogether satisfactory. The depôt has not been moved to any great distance from wet lands, and if the sweepings have any value for manure, they ought to be easily saleable.

6. *Paragraph* 19.—The decrease in receipts from fines is explained, and I am calling the attention of the President of the Town Bench to the necessity for the fines being sufficient to produce a deterrent effect.

7. *Paragraph* 21.—The private scavenging service shows an improvement as compared with the preceding year, but there is still room for the extension of the system. The service was worked at a profit.

8. There was no new work of any note carried out during the year. The total outlay on communications was more than 50 per cent. of the net income from tolls, and the roads are reported by the Sub-Collector to be in a fairly good condition. They were fair when I saw them in February last.

9. *Paragraph* 24.—It is to be regretted that the amount sanctioned for the construction of two latrines was left unutilised.

10. The net expenditure on education was about 11 per cent. of the income from taxation, and the net cost to the municipal council on account of the high school was Rs. 83 only, which is satisfactory. The council continued to maintain a primary school on the salary-results system and aided five primary schools against six in 1894–95.

11. The municipal hospital and the caste and gosha dispensary continued to work. There is a falling off in both the number of in- and out- patients in the former, but the number of out-patients treated at the latter rose from 6,776 to 15,050. No mention is made in the report of the inspection of the medical institutions by the Surgeon-General, and the action taken on his recommendations made at the time as required by G.O., No. 2059 L., dated 28th October 1895. It is presumed that neither the hospital nor the dispensary was inspected by him.

12. Attention appears to have been paid to vaccination—especially infantile vaccination—and the registration of births and deaths; but there is a noticeable decrease in the number of vaccinated cases, and the cost per case is high. This is accounted for.

13. Expenditure upon sanitation showed an increase over the sanctioned budget and the actuals of the preceding year. The charges on account of conservancy in particular were larger than the actuals for 1894–95 and reached 98 per cent. of the sanctioned budget. The sum of Rs. 800 sanctioned in the budget for providing burial and burning grounds lapsed, but a new burial-ground has been opened for the use of the northern half of the town; and it is hoped that the other burial-ground, which is stated to be needed towards the west, will soon be secured, and that the site chosen for the burning-ground will soon be inspected by the sanitary board and opened for the use of the public.

14. A distinct improvement appears to have been made in most branches of the municipal administration, which is, I consider, due to the present Chairman.

15. In checking the accounts in this office, the following discrepancies have been discovered:—

(1) The figures opposite some of the items under actuals (1894–95) both on the receipts and charges sides, and consequently the totals differ from those as given in the Government Order reviewing the budget for 1896–97. It is not known whether this is owing to the adoption of audited figures.

(2) In statement II-A details of the grant against each of the items under 2(*b*) Repairs—Buildings are not given.

(*e*) There were five deaths among in-patients during the year—two from injuries, two from chronic diarrhœa and one from anæmia and dropsy.

(*f*) Fifty-three major and 591 minor operations were performed during the year with no deaths.

(*g*) Establishment is sufficient and efficient.

(*h*) The midwife attached to this hospital has attended seventy cases of labour during the year against fifty-two cases in the previous year. From the 1st April 1896 the midwife has been transferred to the female dispensary, Karúr.

(*i*) The hospital compound is small. Contagious sheds, which are close to the wards, must be far removed from the main building.

(1) The figures opposite some of the items under actuals (1894–95) both on the receipts and charges sides, and consequently the totals differ from those as given in the Government Order reviewing the budget for 1896–97. It is not known whether this is owing to the adoption of audited figures.

(2) In statement II-A details of the grant against each of the items under 2(*b*) Repairs—Buildings are not given.

(3) In statement IV-A the figures in column 5, opposite item 12 (cocoanut tope), do not correspond with those given in statement I; and the difference between columns 4 and 5, opposite item 7, is Rs. 1-1-11 and not Rs. 1-11-0 (*vide* entry in the remarks column).

(4) Of the number 258 shown in column 6 against "Total" in statement V-B, 252 appear to be boys and 6 girls (*vide* statement I of the Assistant Inspector of Schools).

(5) According to the Chairman's report, paragraph 9, the share of tolls due to the district board on account of previous years is Rs. 602-11-8; but from statement VII it is seen that it comes to only Rs. 429-2-8 (column 10—column 9).

s still considerable ~~scope~~ room for improve-
ill be drawn to the civil apothecary's
g the repairs and furniture required

e reported number of persons vacci-
which no adequate explanation has
however, slightly improved and was
ation rose from As. 4–5 to As. 7–1,
28 of the Chairman's report. Infan-
, but the number of children under
more nearly the number of births
satisfactory. The monthly average of vaccinations was only 46 and it seems a question whether
the figure is the lowest which can safely be
taken as the number of cases which are really
available, it would not be
desirable to substitute a 2nd class
for a 1st class vaccinator. This
would materially reduce the
cost of this branch of the
administration which is also heavy

ued to be fair, but the rates of births
ial.

der this head, amounting to Rs. 3,627,
nd was 20·3 per cent. of the receipts.
y the civil apothecary to have been fair,
report it appears that the subject is

ith a balance of Rs. 3,865, or 21·6 per
and as much as possible the use of tabular

uring the year under review showed an
s ascribed by the Divisional officer and
, and was generally satisfactory.

Govt is pleased to note my high.

No. 1404 M., 20TH AUGUST 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. V. SUBBA RAO Avargal, B.A., Chairman, Municipal Council, Karúr, to the Chief Secretary to Government (through the Revenue Officer of the Division, Coimbatore), dated 9th June 1896, No. 5.

I have the honour to submit the annual report on the working of the Karúr Municipality for the year 1895–96. The prescribed statements and reports accompany.

I.—CONSTITUTION OF THE COUNCIL.

2. The council contained its full strength at the close of the year. Three seats which had remained vacant on the 31st March 1895 and two vacancies which took place during the year—one by retirement and the other by death—were duly filled up. The total number of meetings held was 29 against 25 in the previous year, and there was a slight increase in the average attendance including that of official councillors. Only one meeting was adjourned for want of quorum.

3. The revenue realized and the charges incurred during the last five years are shown below :—

Year.	Receipts.	Charges.	Surplus.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
1891–92	15,021 4 10	17,730 8 4	— 2,709 3 6
1892–93	13,243 14 8	16,138 11 4	— 2,894 12 8
1893–94	14,975 15 8	15,821 0 10	— 845 1 2
1894–95	15,755 5 1	14,716 8 3	+ 1,038 12 10
1895–96	17,445 1 11	16,388 2 7	+ 1,056 15 4

The revenue collected in the year is the highest on record and shows an advance of Rs. 1,690, or nearly 11 per cent. over the preceding year. Attention was drawn to the low state of the municipal finances by the Government in its order reviewing the budget estimate for 1895–96 and the council was directed to improve them. No efforts were spared to develop the revenues as best as they could be.

4. The incidence of taxation per head of the population which is 10,750 rose from Rs. 1–7–7 to Rs. 1–10–0 in the year including tolls, from Rs. 1–1–4 to Rupees 1–4–6 without them.

II.—RECEIPTS.

5. The total receipts during the year amounted to Rs. 17,445–1–11 against Rs. 15,755–5–1 in 1894–95, showing an advance of Rs. 1,689–12–10 distributed under nearly all heads as shown in the following table :—

No. 1404 M., 20TH AUGUST 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. V. SUBBA RAO Avargal, B.A., Chairman, Municipal Council, Karúr, to the Chief Secretary to Government (through the Revenue Officer of the Division, Coimbatore), dated 9th June 1896, No. 5.

I have the honour to submit the annual report on the working of the Karúr Municipality for the year 1895–96. The prescribed statements and reports accompany.

I.—CONSTITUTION OF THE COUNCIL.

2. The council contained its full strength at the close of the year. Three seats which had remained vacant on the 31st March 1895 and two vacancies which took place during the year—one by retirement and the other by death—were duly filled up. The total number of meetings held was 29 against 25 in the previous year, and there was a slight increase in the average attendance including that of official councillors. Only one meeting was adjourned for want of quorum.

3. The revenue realized and the charges incurred during the last five years are shown below :—

Year.	Receipts.	Charges.	Surplus.
	RS. A. P.	RS. A. P.	RS. A. P.
1891–92	15,021 4 10	17,730 8 4	— 2,709 3 6
1892–93	13,243 14 8	16,138 11 4	— 2,894 12 8
1893–94	14,975 15 8	15,821 0 10	— 845 1 2
1894–95	15,755 5 1	14,716 8 3	+ 1,038 12 10
1895–96	17,445 1 11	16,388 2 7	+ 1,056 15 4

The revenue collected in the year is the highest on record and shows an advance of Rs. 1,690, or nearly 11 per cent. over the preceding year. Attention was drawn to the low state of the municipal finances by the Government in its order reviewing the budget estimate for 1895–96 and the council was directed to improve them. No efforts were spared to develop the revenues as best as they could be.

4. The incidence of taxation per head of the population which is 10,750 rose from Rs. 1–7–7 to Rs. 1–10–0 in the year including tolls, from Rs. 1–1–4 to Rupees 1–4–6 without them.

II.—RECEIPTS.

5. The total receipts during the year amounted to Rs. 17,445–1–11 against Rs. 15,755–5–1 in 1894–95, showing an advance of Rs. 1,689–12–10 distributed under nearly all heads as shown in the following table :—

—	Receipts in 1894–95.	Receipts in 1895–96.	Increase or decrease.
	Rs.	Rs.	Rs.
Tax on Buildings	4,116	4,671	+ 555
„ on Lands	340	640	+ 300
„ on Vehicles	155	276	+ 121
„ on Animals	385	471	+ 86
Tolls	4,098	3,660	— 378

Fees under Act II of 1888	45	180	+ 135
Sale of sweepings	..	279	+ 279
Fees from educational institutions	1,948	2,268	+ 320
Income from markets	509	651	+ 141
„ slaughter-house	297	327	+ 30
Cart-stand fees	389	560	+ 171
Fines under Municipal Acts	115	173	+ 58
Contributions—Medical	1,238	1,058	— 180
Private scavenging fees	122	168	+ 46

6. *Tax on Buildings.*—The increase under this head of Rs. 555 is due chiefly to the revision of the house-tax register which raised the demand from Rs. 4,094 to Rs. 4,435 and to the collection of arrears. More than 98 per cent. of the demand for the year was realized. There remained Rs. 112–12–0 uncollected, of which Rs. 43–8–0 related to the two preceding years. Coercive processes were issued in 91 cases, property was distrained in 10 and sold only in two for a sum of Rs. 3–3–0. One hundred and sixty-two warrants that remained undisposed of at the beginning of the year were, all of them, executed or cancelled. There were 38 warrants for a sum of Rs. 33–2–0 which remained unexecuted, many of them have been since disposed of. The revision caused some dissatisfaction and there were 80 appeals against my assessments, in 55 the council reduced them.

7. *Tax on Lands.*—The collections nearly doubled, having risen from Rs. 346–3–0 to Rs. 639–14–3. Land-tax registers were also revised during the year which brought up the demand from Rs. 366 to Rs. 485. The balance that remained uncollected at the close of the year was Rs. 41, of which Rs. 15 have since been collected. A large portion of the balance relates to taxes on vacant sites, the realization of which is attended with some difficulty, as many of the owners do not reside within municipal limits. Taking the land-tax alone, the balance was Rs. 12–12–0.

8. *Tax on Vehicles and Animals.*—There was an increase of Rs. 207. Vehicles with springs have risen in number, while carts without them remained stationary, their number ranging from 200 to 216.

9. *Tolls.*—The four toll-gates were leased out for Rs. 5,606 against Rs. 4,750 in the previous year and, although they were higher by Rs. 856, the actual amount credited to Municipal funds fell to Rs. 3,660 from Rs. 4,097. The arrears due to the district board for their share in former years amounting to Rs. 602–11–8 were paid in the year under report and account for the decrease. The demand for the year was fully collected. The balance shown in statement IV-B relates to the years 1893–94 and 1894–95. Rs. 500 remain in the Post Office Savings Bank and could not be adjusted owing to the pass-book remaining in courts as evidence in connection with certain charges against the ex-Chairman. Rs. 787–8–0 form the misappropriated amounts reported last year.

10. *Ferry rents.*—The demand for fasli 1305 ending with 30th June 1896 was Rs. 573 against Rs. 471. Rs. 143–4–0 shown as uncollected in statement IV-A does not properly form a portion of the demand for the official year and became due in April last. The amount has since been realized.

11. *Fees under Act II of* 1888.—There has been a large advance from Rs. 45 to Rs. 180 under this head owing to certain circus and theatrical troupes which gave performances in the town.

12. *Sale of Sweepings.*—The sweepings and rubbish for the year were sold for Rs. 151 which, with the arrears of the previous year, made the collections amount to Rs. 278–15–9. The removal of the depôt to a long distance from the irrigated fields which are close to the town has reduced the demand as compared with the year 1893–94.

They are not used as manure in dry lands to the same extent as in irrigated tracts, and the few wet fields that are near it are not well cultivated. There are not the same facilities for carrying the manure now to places, which require it most, that there were, when there were two depôts on either side of the town.

13. *Fees from Educational Institutions.*—There has been considerable improvement, an advance of Rs. 320 in the fees having occurred owing to the improved strength of the high and primary schools. The number of boys in the primary school was 238 against 207 of the previous year and in the high school including the lower secondary department it rose from 67 to 102, the highest class showing twelve boys against seven and two in the years 1894–95 and 1893–94, respectively.

14. *Income from Markets.*—There are three markets including the butchers' stalls which were leased out as shown in the margin for a sum of Rs. 641 against Rs. 457 in the year 1894–95. The most marked increase is under butcher stalls, which on account of the practice in former years of renting them out at a monthly rate of one rupee per stall could not fetch more than Rs. 80 on a average. They are now leased out to the highest bidders.

	1894–95.	1895–96.
	Rs.	Rs.
1. Daily market ..	142	160
2. Weekly „ ..	250	261
3. Butchers' stalls ..	65	220
Total ..	457	641

15. *Slaughter-house.*—The rent rose to Rs. 326 from Rs. 275 in 1894–95.

16. *License Fees.*—The amount was nearly the same as in the previous year. Particular attention is paid to the provisions of section 188 of the Municipal Act. There were two prosecutions for carrying on offensive trades without permission.

17. *Cart-stand Fees.*—The municipal cart-stand was leased out for Rs. 560 against Rs. 350 in the previous year. This is an unusually large amount due to a morbid competition among the contractors and is not likely to recur.

18. *Contribution—Medical.*—Notwithstanding the grant of Rs. 200 obtained from the district board on account of the caste and gosha dispensary maintained jointly by them and the council, there was a decrease of Rs. 170 owing to the reduction in the contribution payable by the Erode Taluk Board from Rs. 1,200 to a third of the actual expenses (*vide* G.O., No. 1303 L., dated 17th July 1894). This arrangement was brought into force for the first time in the year under report and has resulted in a loss of Rs. 350 to the council.

19. *Fines under Municipal and other Acts.*—There was an increase of Rs. 67. The amount did not come up to the figures in the estimates according to which it should have been Rs. 200. The number of persons prosecuted by the council and the fines imposed on them by the bench magistrates are shown in the margin. It will be seen that the fines are too small and produce no deterrent effect. This leniency is much to be regretted, as it has made the people indifferent to municipal prosecutions.

Section under which charged.	Number of persons convicted.	Amount of fines imposed.
		Rs. A. P.
189 ..	2	0 4 0
192 ..	9	3 4 0
218 ..	2	0 12 0

222 ..	1	0 4 0
225 ..	7	2 0 0
Total ..	31	9 2 0

20. *Fishery.*—No rent is collected for fishery in the river Amarávati within the municipal limits. The district board used to lease it out in former years, which on my protest, they have ceased to do from the current year.

21. *Private Scavenging fees.*—The fees show an increase of Rs. 46 over the preceding year. The number of houses served rose from 93 to 140. The scale of fees is very low ranging from one to four annas a month. There was a small balance of 15 annas remaining uncollected out of the demand for the year. It has since been

6. *Tax on Buildings.*—The increase under this head of Rs. 555 is due chiefly to the revision of the house-tax register which raised the demand from Rs. 4,094 to Rs. 4,435 and to the collection of arrears. More than 98 per cent. of the demand for the year was realized. There remained Rs. 112–12–0 uncollected, of which Rs. 43–8–0 related to the two preceding years. Coercive processes were issued in 91 cases, property was distrained in 10 and sold only in two for a sum of Rs. 3–3–0. One hundred and sixty-two warrants that remained undisposed of at the beginning of the year were, all of them, executed or cancelled. There were 38 warrants for a sum of Rs. 33–2–0 which remained unexecuted, many of them have been since disposed of. The revision caused some dissatisfaction and there were 80 appeals against my assessments, in 55 the council reduced them.

7. *Tax on Lands.*—The collections nearly doubled, having risen from Rs. 346–3–0 to Rs. 639–14–3. Land-tax registers were also revised during the year which brought up the demand from Rs. 366 to Rs. 485. The balance that remained uncollected at the close of the year was Rs. 41, of which Rs. 15 have since been collected. A large portion of the balance relates to taxes on vacant sites, the realization of which is attended with some difficulty, as many of the owners do not reside within municipal limits. Taking the land-tax alone, the balance was Rs. 12–12–0.

8. *Tax on Vehicles and Animals.*—There was an increase of Rs. 207. Vehicles with springs have risen in number, while carts without them remained stationary, their number ranging from 200 to 216.

9. *Tolls.*—The four toll-gates were leased out for Rs. 5,606 against Rs. 4,750 in the previous year and, although they were higher by Rs. 856, the actual amount credited to Municipal funds fell to Rs. 3,660 from Rs. 4,097. The arrears due to the district board for their share in former years amounting to Rs. 602–11–8 were paid in the year under report and account for the decrease. The demand for the year was fully collected. The balance shown in statement IV-B relates to the years 1893–94 and 1894–95. Rs. 500 remain in the Post Office Savings Bank and could not be adjusted owing to the pass-book remaining in courts as evidence in connection with certain charges against the ex-Chairman. Rs. 787–8–0 form the misappropriated amounts reported last year.

10. *Ferry rents.*—The demand for fasli 1305 ending with 30th June 1896 was Rs. 573 against Rs. 471. Rs. 143–4–0 shown as uncollected in statement IV-A does not properly form a portion of the demand for the official year and became due in April last. The amount has since been realized.

11. *Fees under Act II of* 1888.—There has been a large advance from Rs. 45 to Rs. 180 under this head owing to certain circus and theatrical troupes which gave performances in the town.

12. *Sale of Sweepings.*—The sweepings and rubbish for the year were sold for Rs. 151 which, with the arrears of the previous year, made the collections amount to Rs. 278–15–9. The removal of the depôt to a long distance from the irrigated fields which are close to the town has reduced the demand as compared with the year 1893–94.

They are not used as manure in dry lands to the same extent as in irrigated tracts, and the few wet fields that are near it are not well cultivated. There are not the same facilities for carrying the manure now to places, which require it most, that there were, when there were two depôts on either side of the town.

13. *Fees from Educational Institutions.*—There has been considerable improvement, an advance of Rs. 320 in the fees having occurred owing to the improved strength of the high and primary schools. The number of boys in the primary school was 238 against 207 of the previous year and in the high school including the lower secondary department it rose from 67 to 102, the highest class showing twelve boys against seven and two in the years 1894–95 and 1893–94, respectively.

14. *Income from Markets.*—There are three markets including the butchers' stalls which were leased out as shown in the margin for a sum of Rs. 641 against Rs. 457 in the year 1894–95. The most marked increase is under butcher stalls, which on account of the practice in former years of renting them out at a monthly rate of one rupee per stall could not fetch more than Rs. 80 on a average. They are now leased out to the highest bidders.

15. *Slaughter-house.*—The rent rose to Rs. 326 from Rs. 275 in 1894–95.

16. *License Fees.*—The amount was nearly the same as in the previous year. Particular attention is paid to the provisions of section 188 of the Municipal Act. There were two prosecutions for carrying on offensive trades without permission.

17. *Cart-stand Fees.*—The municipal cart-stand was leased out for Rs. 560 against Rs. 350 in the previous year. This is an unusually large amount due to a morbid competition among the contractors and is not likely to recur.

18. *Contribution—Medical.*—Notwithstanding the grant of Rs. 200 obtained from the district board on account of the caste and gosha dispensary maintained jointly by them and the council, there was a decrease of Rs. 170 owing to the reduction in the contribution payable by the Erode Taluk Board from Rs. 1,200 to a third of the actual expenses (*vide* G.O., No. 1303 L., dated 17th July 1894). This arrangement was brought into force for the first time in the year under report and has resulted in a loss of Rs. 350 to the council.

Section under which charged.	Number of persons convicted.	Amount of fines imposed.
		Rs. A. P.
189	2	0 4 0
192	9	3 4 0
218	2	0 12 0
221	10	2 10 0
222	1	0 4 0
225	7	2 0 0
Total ..	31	9 2 0

19. *Fines under Municipal and other Acts.*—There was an increase of Rs. 67. The amount did not come up to the figures in the estimates according to which it should have been Rs. 200. The number of persons prosecuted by the council and the fines imposed on them by the bench magistrates are shown in the margin. It will be seen that the fines are too small and produce no deterrent effect. This leniency is much to be regretted, as it has made the people indifferent to municipal prosecutions.

20. *Fishery.*—No rent is collected for fishery in the river Amarávati within the municipal limits. The district board used to lease it out in former years, which on my protest, they have ceased to do from the current year.

21. *Private Scavenging fees.*—The fees show an increase of Rs. 46 over the preceding year. The number of houses served rose from 93 to 140. The scale of fees is very low ranging from one to four annas a month. There was a small balance of 15 annas remaining uncollected out of the demand for the year. It has since been

received. A sum of Rs. 84–12–0 being the arrears for the three years ending with 1894–95 were written off as irrecoverable as they related to houses which were either not served by the municipal scavengers or the owners of which had left the town.

22. Statements IV-A and IV-B giving the details of the arrears will show that, except under house and land taxes, the collections covered the demand for the year and that what remained uncollected were mostly the misappropriated sums for the recovery of which steps are being taken.

III.—CHARGES.

23. The total charges for the year come up to Rs. 16,388–2–7 showing an increase of Rs. 1,671–10–4 over the expenditure for the year 1894–95. It has, however, fallen below the revised estimate, according to which it should have been Rs. 17,760 owing to sites for the burning and burial grounds, for which a sum of Rs. 800 was provided not having been acquired and to expenditure on buildings to the extent of Rs. 200 not having been incurred during the year.

24. The following table compares the expenditure under different grants during the last two years :—

	Expenditure in 1894–95.	Expenditure in 1895–96.
	RS.	RS.
Grant I	2,006	2,450
„ II	3,533	3,624
„ III	6,817	7,589
„ IV	1,297	1,450
„ V	1,064	1,264

There has been an increase under each grant, notably under Grants I and III for reasons given below.

25. *Grant I.*—The total outlay was Rs. 2,450–4–8 distributed as follows :—

	RS.	A.	P.
New works—			
Communications			
Buildings	330	2	0
Water-supply	*Nil.*		
Repairs—			
Communications	29	10	9
Buildings	1,542	8	1
Water-supply	445	14	6
Drainage	2	5	4
	99	12	0

There were no works of any importance carried out in the year. Rough-stone revetments on the sides of three existing roads and streets have been classified under new works—communications. No new building was constructed, though it was intended to have two latrines at a cost of Rs. 200. Sites have been chosen and their acquisition has been applied for through the Collector. It was intended to build a latrine for the school, but owing to a proposal to transfer a part of the municipal school compound to the Mission industrial institution, its construction was put off.

An allotment of Rs. 100 for water-supply could not be fully utilized, as the excavation of a well could not be proceeded with owing to early rains. It has since been completed.

Fourteen roads and streets were repaired, nine of them having been metalled and the rest gravelled. The total expenditure on account of roads and streets was Rupees 1,872–10–1 being more than 50 per cent. of the net income from tolls.

Under repairs to buildings a sum of Rs. 445 was spent against Rs. 138 in the previous year. Three public latrines were repaired at a cost of Rs. 83, the flooring of the daily market was improved as suggested by the Deputy Sanitary Commissioner in his inspection report, dated 24th and 25th July 1894. The hospital sheds, the condition of which was reported by the District Medical and Sanitary Officer to be bad were reformed at a cost of Rs. 99. Repairs to the Municipal office store-rooms and primary school buildings cost Rs. 138.

Drainage Repairs.—A sum of Rs. 99–12–0 was spent for the repair of the pukka masonry drain in the Mavadiyan Kovil Street.

26. *Grant II, Education.*—The charges on account of the high school establishment show a decline owing to the absence of the permanent headmaster on deputation to provincial service and to the salary of his substitute having been fixed at Rs. 50 a month. The increase under contingencies, both in the high and primary schools, is due to the supply of twelve back-benches. The municipal high school has improved both as regards strength and instruction. The number of boys in the fourth form has risen from two and seven in 1893–94 and 1894–95 to twelve in 1895–96. The total strength in the four forms at the close of the year was 102 against 67 in the year 1894–95. The institution is now almost self-supporting, the net cost having been Rs. 83–5–6 against Rs. 698 and Rs. 414–8–0 in the two previous years. In reference to the remarks of the Government in its order reviewing the last annual report, that efforts should be made to render the school as nearly self-supporting as possible, the council is glad that its endeavours to carry out the directions of the Government have been successful. The school was examined by T. T. Logan, Esq., Inspector of Schools, Western Circle, who expressed himself satisfied at the progress made in the year 1895–96 in the following words: "I really think the school has at last begun to show signs of improvement. Discipline and tone more satisfactory than they had been for a long time." The number of boys in the primary school under the direct management of the council rose from 207 to 238. The school did well at the annual examinations held by the Assistant Inspector of Schools—125 having passed out of 133 that were presented. The net cost to the municipality on account of the primary school was Rs. 608 against Rs. 576 in 1894–95.

Result Schools.—There was a fall in the number of aided schools from six to five and the number of boys in them declined from 301 to 258. The results turned out were, however, better in quality, as the grants paid to them advanced from Rs. 205 to Rs. 296–9–0.

27. *Grant III, Hospitals and Dispensaries.*—The main hospital has been in charge of M.R.Ry. E. Annaswami Mudaliyar who was appointed to it in June 1895 in the place of M.R.Ry. C. Sekharan transferred. His report on the working of the two dispensaries maintained by the municipality is herewith submitted. Both of them are growing in importance. The number of out-patients treated in the main hospital was 11,407 and in the caste and gosha dispensary 15,050, making a total of 26,457 against 22,577 in the year 1894–95. Miss A. W. Watson, who is in charge of the latter dispensary, continues to be popular as evidenced by the increase in the number of her patients. The average number treated by her daily was 95·5 and 86·16 in the main hospital. The expenditure on account of medical aid has risen to Rs. 3,510 and is very high, being nearly 20 per cent. of the revenue. A contribution of Rs. 200 is obtained from the district board towards the upkeep of the female dispensary, which is too small to maintain it in proper condition. Under the advice of the Dufferin's Fund Committee and the Surgeon-General, a male compounder on a salary of Rs. 12 has been appointed to it and instruments and appliances, at a cost of Rs. 170, have been supplied. The midwife, who is now working under the supervision of the lady apothecary, attended 70 cases of labour against 52 in the year 1894–95; and Miss A. W. Watson attended 13 cases, of which 5 were difficult.

28. *Vaccination.*—The following table gives the results of vaccination for the last five years :—

Year.	Below one year.				Above one year.				Total number of vaccinations.	Total successful.	Total unsuccessful.	Total unknown.
	Number vaccinated.	Successful.	Unsuccessful.	Unknown.	Number vaccinated.	Successful.	Unsuccessful.	Unknown.				
1891–92	215	189	23	3	135	119	12	4	350	308	35	7
1892–93	199	177	16	6	229	192	30	7	428	369	46	13
1893–94	89	49	40	..	200	173	24	3	289	222	64	3
1894–95	344	305	38	1	548	480	62	7	892	785	101	6
1895–96	333	312	19	2	222	198	21	3	555	510	40	5

received. A sum of Rs. 84–12–0 being the arrears for the three years ending with 1894–95 were written off as irrecoverable as they related to houses which were either not served by the municipal scavengers or the owners of which had left the town.

22. Statements IV-A and IV-B giving the details of the arrears will show that, except under house and land taxes, the collections covered the demand for the year and that what remained uncollected were mostly the misappropriated sums for the recovery of which steps are being taken.

III.—CHARGES.

23. The total charges for the year come up to Rs. 16,388–2–7 showing an increase of Rs. 1,671–10–4 over the expenditure for the year 1894–95. It has, however, fallen below the revised estimate, according to which it should have been Rs. 17,760 owing to sites for the burning and burial grounds, for which a sum of Rs. 800 was provided not having been acquired and to expenditure on buildings to the extent of Rs. 200 not having been incurred during the year.

24. The following table compares the expenditure under different grants during the last two years :—

	Expenditure in 1894–95.	Expenditure in 1895–96.
	RS.	RS.
Grant I	2,006	2,450
„ II	3,533	3,624
„ III	6,817	7,589
„ IV	1,297	1,450
„ V	1,064	1,264

There has been an increase under each grant, notably under Grants I and III for reasons given below.

25. *Grant I.*—The total outlay was Rs. 2,450–4–8 distributed as follows :—

New works—	RS.	A.	P.
Communications	330	2	0
Buildings		*Nil.*	
Water-supply	29	10	9
Repairs—			
Communications	1,542	8	1
Buildings	445	14	6
Water-supply	2	5	4
Drainage	99	12	0

There were no works of any importance carried out in the year. Rough-stone revetments on the sides of three existing roads and streets have been classified under new works—communications. No new building was constructed, though it was intended to have two latrines at a cost of Rs. 200. Sites have been chosen and their acquisition has been applied for through the Collector. It was intended to build a latrine for the school, but owing to a proposal to transfer a part of the municipal school compound to the Mission industrial institution, its construction was put off.

An allotment of Rs. 100 for water-supply could not be fully utilized, as the excavation of a well could not be proceeded with owing to early rains. It has since been completed.

Fourteen roads and streets were repaired, nine of them having been metalled and the rest gravelled. The total expenditure on account of roads and streets was Rupees 1,872–10–1 being more than 50 per cent. of the net income from tolls.

Under repairs to buildings a sum of Rs. 445 was spent against Rs. 138 in the previous year. Three public latrines were repaired at a cost of Rs. 83, the flooring of the daily market was improved as suggested by the Deputy Sanitary Commissioner in his inspection report, dated 24th and 25th July 1894. The hospital sheds, the condition of which was reported by the District Medical and Sanitary Officer to be bad were reformed at a cost of Rs. 99. Repairs to the Municipal office store-rooms and primary school buildings cost Rs. 138.

Drainage Repairs.—A sum of Rs. 99–12–0 was spent for the repair of the pukka masonry drain in the Mavadiyan Kovil Street.

26. *Grant II, Education.*—The charges on account of the high school establishment show a decline owing to the absence of the permanent headmaster on deputation to provincial service and to the salary of his substitute having been fixed at Rs. 50 a month. The increase under contingencies, both in the high and primary schools, is due to the supply of twelve back-benches. The municipal high school has improved both as regards strength and instruction. The number of boys in the fourth form has risen from two and seven in 1893–94 and 1894–95 to twelve in 1895–96. The total strength in the four forms at the close of the year was 102 against 67 in the year 1894–95. The institution is now almost self-supporting, the net cost having been Rs. 83–5–6 against Rs. 698 and Rs. 414–8–0 in the two previous years. In reference to the remarks of the Government in its order reviewing the last annual report, that efforts should be made to render the school as nearly self-supporting as possible, the council is glad that its endeavours to carry out the directions of the Government have been successful. The school was examined by T. T. Logan, Esq., Inspector of Schools, Western Circle, who expressed himself satisfied at the progress made in the year 1895–96 in the following words: "I really think the school has at last begun to show signs of improvement. Discipline and tone more satisfactory than they had been for a long time." The number of boys in the primary school under the direct management of the council rose from 207 to 238. The school did well at the annual examinations held by the Assistant Inspector of Schools—125 having passed out of 133 that were presented. The net cost to the municipality on account of the primary school was Rs. 608 against Rs. 576 in 1894–95.

Result Schools.—There was a fall in the number of aided schools from six to five and the number of boys in them declined from 301 to 258. The results turned out were, however, better in quality, as the grants paid to them advanced from Rs. 205 to Rs. 296–9–0.

27. *Grant III, Hospitals and Dispensaries.*—The main hospital has been in charge of M.R.Ry. E. Annaswami Mudaliyar who was appointed to it in June 1895 in the place of M.R.Ry. C. Sekharan transferred. His report on the working of the two dispensaries maintained by the municipality is herewith submitted. Both of them are growing in importance. The number of out-patients treated in the main hospital was 11,407 and in the caste and gosha dispensary 15,050, making a total of 26,457 against 22,577 in the year 1894–95. Miss A. W. Watson, who is in charge of the latter dispensary, continues to be popular as evidenced by the increase in the number of her patients. The average number treated by her daily was 95·5 and 86·16 in the main hospital. The expenditure on account of medical aid has risen to Rs. 3,510 and is very high, being nearly 20 per cent. of the revenue. A contribution of Rs. 200 is obtained from the district board towards the upkeep of the female dispensary, which is too small to maintain it in proper condition. Under the advice of the Dufferin's Fund Committee and the Surgeon-General, a male compounder on a salary of Rs. 12 has been appointed to it and instruments and appliances, at a cost of Rs. 170, have been supplied. The midwife, who is now working under the supervision of the lady apothecary, attended 70 cases of labour against 52 in the year 1894–95; and Miss A. W. Watson attended 13 cases, of which 5 were difficult.

28. *Vaccination.*—The following table gives the results of vaccination for the last five years :—

Year.	Below one year.				Above one year.				Total number of vaccinations.	Total successful.	Total unsuccessful.	Total unknown.
	Number vaccinated.	Successful.	Unsuccessful.	Unknown.	Number vaccinated.	Successful.	Unsuccessful.	Unknown.				
1891–92	215	189	23	3	135	119	12	4	350	308	35	7
1892–93	199	177	16	6	229	192	30	7	428	369	46	13
1893–94	89	49	40	..	200	173	24	3	289	222	64	3
1894–95	344	305	38	1	648	480	62	7	892	785	101	6
1895–96	333	312	19	2	222	198	21	3	555	510	40	5

As in the former year, an enumeration was ordered of all unprotected children and measures were adopted for their vaccination. Fifteen cases were prosecuted before the Magistrate for failure to vaccinate. An inoculated calf was sent for, and as many as 113 were vaccinated directly from it. The total for the year, however, shows a decline as in the year 1894–95. Four hundred and forty-eight children above the age of one year had remained unprotected. The average number of births in a year is about 400, and in future unless re-vaccination is largely resorted to, the number must decline. The total number of re-vaccination was thirty-eight against twenty of the previous year. There was only one death from small-pox in the town. The average cost of vaccination was As. 7–1, while it was only As. 4–8 in the year 1894–95. The rise is due to the charges for the supply of animal lymph for the last two years having been paid in the year under report and to the smaller number of cases vaccinated.

29. The accompanying table gives the vital statistics for the last five years :—

Year.	Total births registered.	Total deaths registered.	Population of the town.
1891–92	437	340	10,750
1892–93	408	261	
1893–94	386	357	
1894–95	413	283	
1895–96	402	303	

The number of births registered was nearly the same in the last two years and that of deaths shows an increase from 283 to 303. Particular care was taken to make the registers as complete as possible. Eighteen persons were prosecuted under sections 247 and 283 of the Municipal Act for not giving information within the prescribed period. Public health was fairly satisfactory. There was no epidemic of any kind and the largest number of deaths was on account of fever and bowel-complaints.

30. *Sanitation.*—The total charges under this head were Rs. 3,626–11–8 showing an increase of Rs. 170–9–9. The increase under conservancy other—charges from Rs. 837 to Rs. 1,059 is due to twenty corrugated galvanised iron dust-bins and a new iron night-soil cart which were ordered during the year. There are now nine public latrines – six for women and three for men. It is proposed to have two more, and the council is taking steps to acquire sites for them.

Backyards.—On a careful enumeration of houses which have accommodation for privies served by municipal or other scavengers, it has been found that their number was 478, of which 159 have been registered under the private scavenging system, 84 are served privately by municipal toties and sweepers without registration or recognition by the council and 135 by other scavengers. Steps will be taken to bring as many of the latter as possible under municipal control. One hundred and twenty-five houses had well latrines or cess-pits, which were never cleaned, forty of them were closed under the strict orders of the council, which were complied with only after the prosecution of nine persons under section 221. The closure of such of them only as had separate entrances opening into lanes was insisted on in the year.

Notices were issued to fifteen persons calling attention to the filthy condition of their backyards and two were prosecuted and punished.

No arrangement was made for the removal of the sewage and the proposal to have it organised on a self-supporting basis is under the consideration of the council. Provision has been made in the current year's budget for constructing a drain in the Car street and Kurumba lane.

A new burial-ground has been opened for the use of the northern half of the town, the place originally used for storing rubbish being utilised for the purpose. Another burial-ground towards the west is necessary before people can be prevented from using the present objectionable places. A site for burning dead bodies has also been chosen and the instructions of the sanitary board as to its suitability have been applied for. The secretary to the board has promised to inspect the place and advise.

31. *Grant IV.*—The town continues to be lighted for twenty nights in a month by means of 126 lanterns. The total cost for lighting, including the salary of the masalchies, amounted to Rs. 890 against Rs. 774 in 1894–95. Fifty old lanterns were replaced by new ones, and kerosene oil was selling dearer than in the previous year, which explain the increase. A sum of Rs. 50 was paid for a piece of ground acquired for storing rubbish on the Pugalore road in September 1894.

32. *Grant V.*—The charges under this grant call for no special remarks. The payment of Rs. 159–0–6 for the purchase of account books, &c., includes the arrears of the preceding year.

IV.—CLOSING BALANCE.

33. The year closed with a balance of Rs. 3,435–3–8 excluding the deposit balance.

34. Copy of the resolution of the council approving the report is submitted.

ENCLOSURES.

CONCISE Annual Report on the working of the Municipal Hospital, Karúr, for the year 1895–96.

Public Health.—The public health was, on the whole, satisfactory throughout the year under report. There were no epidemics during the year. Fever prevailed largely about the middle of the year.

2. *Vital Statistics.*—There were 303 deaths in the town during the year. Of these 95 were children under one year of age. The largest number of deaths comes under fever and bowel-complaints. The total number of births registered during the year was 402.

3. *Sanitation.*—The drinking water is chiefly obtained from the river Amarávati. There are some draw-wells in the town set apart for drinking purposes only; they are kept in good condition, but the water in most of these wells is brackish. There are only nine latrines in the town; they are freely used by the people. Some more additional latrines are required. The council has decided to build some more latrines during the current year. There is no proper system of drainage in the town. The sewage of private houses is in some cases allowed to run into the backyards, where it is used in irrigating trees. In some places it is allowed to run into the street-drains, where it stagnates for want of proper system of drainage. There are no cesspools in the town, but there were several cesspits or well-latrines; most of these have been closed. The dead bodies are still burnt in the bed of the river. The municipal council has selected a piece of ground to be used a burning ground which will be acquired on being approved by the Sanitary Commissioner, Madras. The sanitary condition of the town is fair.

4. *Vaccination.*—Vaccination is compulsory in this town. A 1st-class vaccinator is employed by the council. Five hundred and fifty-one cases were vaccinated during the year against 843 cases in the previous year. Of these, 113 cases were from calf to arm and 438 cases from glycerine paste. Of the former 93 per cent. were successful, and in the latter 91 per cent. were successful. Three hundred and thirty-three cases were under one year. There were thirty-eight cases of re-vaccination.

5. *Hospital.*—(*a*) In the main building there are two wards—one male and one female—accommodating six patients in all. There is another small ward for lying-in cases. There is a shed for bed-ridden cases.

The contagious sheds are in a dilapidated condition.

(*b*) The main building requires minor repairs.

(*c*) Furniture in fair condition; a good filter and a bath tub are required.

(*d*) The tabular statement given below shows the number treated as compared with previous years :—

Years.	In-door.	Out-door.	Total.
1891–92	78	10,854	10,932
1892–93	67	15,102	15,169
1893–94	70	15,951	16,021
1894–95	93	15,801	15,894
1895–96	55	11,407	11,462

The decrease under in-patients is due to admitting only those cases that require to be treated as in-patients. A large number of pilgrims was admitted in the last year as in-patients, but no pilgrims came in this year. The fall in out-patients is due to the opening of a female dispensary in the centre of the town under the charge of a female apothecary from 1st September 1894.

(*e*) There were five deaths among in-patients during the year—two from injuries, two from chronic diarrhœa and one from anæmia and dropsy.

(*f*) Fifty-three major and 591 minor operations were performed during the year with no deaths.

(*g*) Establishment is sufficient and efficient.

(*h*) The midwife attached to this hospital has attended seventy cases of labour during the year against fifty-two cases in the previous year. From the 1st April 1896 the midwife has been transferred to the female dispensary, Karúr.

(*i*) The hospital compound is small. Contagious sheds, which are close to the wards, must be far removed from the main building.

Karur,
2*nd May* 1896.

(Signed) E. ANNASWAMI MUDALIYAR,
Civil Apothecary.

Concise Annual Report on the working of the Women and Children's Dispensary, Karúr, for the year 1895–96.

A separate dispensary, for the exclusive use of women and children, was opened on the 1st September 1894 under the charge of Miss A. W. Watson, female apothecary. It is located in the local fund chattram. Fifteen thousand and fifty cases were treated during the year with a daily average of 95·5, against 6,776 cases treated during a period of seven months in 1894–95 with a daily average of 75·93.

Thirteen major and 416 minor operations were performed during the year with two deaths—one died from peritonitis and one from exhaustion.

Thirteen cases of labour were treated during the year with one death. Of these, eight were natural and five difficult labours. The one death resulted from peritonitis.

Karur,
22*nd May* 1896.

Assistant Surgeon in charge.

Cur. No. 2854-Rev.

Submitted.

2. The roads are in a fairly good condition, and the present Chairman is trying to improve the affairs of the municipality.

18*th June* 1896.

(Signed) T. M. SWAMINATHA AIYAR,
Ag. Sub-Collector.

Dis. No. 2119-Rev.

Forwarded.

2. *Paragraph* 2.—As to the number of meetings held by the municipal council and the average attendance of the official and non-official members, the year showed an improvement over its predecessor.

3. *Paragraphs* 6 *and* 7.—The house and land tax registers were revised during the year, and the collections were satisfactory. Almost all the items of receipts showed increases over the preceding year. The outstandings under house and land taxes were small, and of these, portions are stated to have been realised since the end of the year. No useful purpose is served by retaining in the accounts amounts which relate to previous years and which it is impossible to collect, and the council should consider the advisability of treating them as irrecoverable and according sanction for their being written off the accounts. Prompt steps should be taken for the recovery from the ex-Chairman by a civil suit (for the institution of which Government has in order

Mis. No. 434 M., dated 16th March 1896, accorded its sanction) of the amounts embezzled, or the question of writing them off also should be considered, as ordered by Government in the closing sentence of paragraph 3 of its order No. 1803 M. of 30th October 1895.

4. *Paragraph* 9.—Tolls fetched a larger sum than in 1894–95, although the net amounts actually credited fell off. This result is satisfactorily explained.

5. *Paragraph* 12.—The explanation of the decrease is not altogether satisfactory. The depôt has not been moved to any great distance from wet lands, and if the sweepings have any value for manure, they ought to be easily saleable.

6. *Paragraph* 19.—The decrease in receipts from fines is explained, and I am calling the attention of the President of the Town Bench to the necessity for the fines being sufficient to produce a deterrent effect.

7. *Paragraph* 21.—The private scavenging service shows an improvement as compared with the preceding year, but there is still room for the extension of the system. The service was worked at a profit.

8. There was no new work of any note carried out during the year. The total outlay on communications was more than 50 per cent. of the net income from tolls, and the roads are reported by the Sub-Collector to be in a fairly good condition. They were fair when I saw them in February last.

9. *Paragraph* 24.—It is to be regretted that the amount sanctioned for the construction of two latrines was left unutilised.

10. The net expenditure on education was about 11 per cent. of the income from taxation, and the net cost to the municipal council on account of the high school was Rs. 83 only, which is satisfactory. The council continued to maintain a primary school on the salary-results system and aided five primary schools against six in 1894–95.

11. The municipal hospital and the caste and gosha dispensary continued to work. There is a falling off in both the number of in- and out- patients in the former, but the number of out-patients treated at the latter rose from 6,776 to 15,050. No mention is made in the report of the inspection of the medical institutions by the Surgeon-General, and the action taken on his recommendations made at the time as required by G.O., No. 2059 L., dated 28th October 1895. It is presumed that neither the hospital nor the dispensary was inspected by him.

12. Attention appears to have been paid to vaccination—especially infantile vaccination—and the registration of births and deaths; but there is a noticeable decrease in the number of vaccinated cases, and the cost per case is high. This is accounted for.

13. Expenditure upon sanitation showed an increase over the sanctioned budget and the actuals of the preceding year. The charges on account of conservancy in particular were larger than the actuals for 1894–95 and reached 98 per cent. of the sanctioned budget. The sum of Rs. 800 sanctioned in the budget for providing burial and burning grounds lapsed, but a new burial-ground has been opened for the use of the northern half of the town; and it is hoped that the other burial-ground, which is stated to be needed towards the west, will soon be secured, and that the site chosen for the burning-ground will soon be inspected by the sanitary board and opened for the use of the public.

14. A distinct improvement appears to have been made in most branches of the municipal administration, which is, I consider, due to the present Chairman.

15. In checking the accounts in this office, the following discrepancies have been discovered:—

(1) The figures opposite some of the items under actuals (1894–95) both on the receipts and charges sides, and consequently the totals differ from those as given in the Government Order reviewing the budget for 1896–97. It is not known whether this is owing to the adoption of audited figures.

(2) In Statement II-A details of the grant against each of the items under 2(*b*) Repairs—Buildings are not given.

(3) In Statement IV-A the figures in column 5, opposite item 12 (cocoanut tope), do not correspond with those given in Statement I; and the difference between columns 4 and 5, opposite item 7, is Rs. 1–1–11 and not Rs. 1–11–0 (*vide* entry in the remarks column).

(4) Of the number 258 shown in column 6 against "Total" in Statement V-B, 252 appear to be boys and 6 girls (*vide* Statement I of the Assistant Inspector of Schools).

(5) According to the Chairman's report, paragraph 9, the share of tolls due to the district board on account of previous years is Rs. 602–11–8; but from Statement VII it is seen that it comes to only Rs. 429–2–8 (column 10—column 9).

(Signed) HERBERT BRADLEY,
Collector.

29*th June* 1896.

ORDER—No. 1404 M., dated 20th August 1896.

The receipts and charges of the Karúr Municipality for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95:—

—	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.

Total	17,095	16,490	19,450	20,253

2. The municipal council held 29 meetings against 25 in 1894–95. The average attendance of the members, in which there was a decline in the case of the officials and an improvement in that of the non-officials, was fair.

3. *Receipts.*—(1) Owing to the revision of the registers, the net current demand under the taxes on buildings and lands increased by Rs. 324 and Rs. 119, respectively. The collections under these heads improved appreciably and were, on the whole, satisfactory. The council's attention will be drawn to the Collector's remarks in paragraph 3 of his endorsement.

(2) There was a small increase in the receipts from the tax on vehicles and animals, market rents and fines, and a more satisfactory rise in those from realizations under special Acts, school-fees and cart-stand fees. The amount realised by the sale of sweepings was Rs. 279, which, however, included arrears of the previous year. It is stated that the demand for rubbish has decreased in consequence of the removal of the depôt away from irrigated fields; but in this connection the council's attention will be drawn to the Collector's remarks in paragraph 5 of his endorsement, in which the Government fully concurs. It is suggested that the experiment of putting the sweepings up to auction at the beginning of the cultivation season after due notice in the town and adjacent villages and selling them either as a whole or in lots, as may seem desirable, for what they will fetch should be tried. This was what was done in the case of Conjeeveram some years ago, with the result that though in the first year the price realized for a very large quantity of sweepings was only Rs. 270, the sales in the next year brought in nearly Rs. 700 and the annual income is now some Rs. 2,000.

(3) The number of houses served by the private scavenging agency and the income from this source rose from 93 to 140 and Rs. 122 to Rs. 168, respectively, and the service was worked at a small profit of Rs. 16. Nearly 86 per cent. of the arrear demand, however, was written off as irrecoverable, under the circumstances explained in paragraph 21 of the Chairman's report. As more than two-thirds of the total number of private latrines in the town are still outside the system, the municipal council should not relax the efforts which are being made in this direction until all of them have been brought under its control. If owners fail to arrange for their proper cleansing and are in consequence systematically prosecuted for keeping insanitary premises, they will certainly find it to their advantage to avail themselves of the service of the municipal scavengers. Municipal toties and sweepers should not be allowed to serve houses other than those belonging to the municipal service. If necessary, their salaries should be raised and their work increased.

(3) In Statement IV-A the figures in column 5, opposite item 12 (cocoanut tope), do not correspond with those given in Statement I; and the difference between columns 4 and 5, opposite item 7, is Rs. 1-1-11 and not Rs. 1-11-0 (*vide* entry in the remarks column).

(4) Of the number 258 shown in column 6 against "Total" in Statement V-B, 252 appear to be boys and 6 girls (*vide* Statement I of the Assistant Inspector of Schools).

(5) According to the Chairman's report, paragraph 9, the share of tolls due to the district board on account of previous years is Rs. 602-11-8; but from Statement VII it is seen that it comes to only Rs. 429-2-8 (column 10—column 9).

29*th June* 1896. (Signed) HERBERT BRADLEY,
Collector.

ORDER—No. 1404 M., dated 20th August 1896.

The receipts and charges of the Karúr Municipality for 1895-96 are compared below with the budget and revised estimates for the year and the actuals of 1894-95:—

—	Actuals, 1894-95.	Budget estimate, 1895-96.	Revised estimate, 1895-96.	Actuals, 1895-96.
Receipts.	Rs.	Rs.	Rs.	Rs.

2. The municipal council held 29 meetings against 25 in 1894-95. The average attendance of the members, in which there was a decline in the case of the officials and an improvement in that of the non-officials, was fair.

3. *Receipts.*—(1) Owing to the revision of the registers, the net current demand under the taxes on buildings and lands increased by Rs. 324 and Rs. 119, respectively. The collections under these heads improved appreciably and were, on the whole, satisfactory. The council's attention will be drawn to the Collector's remarks in paragraph 3 of his endorsement.

(2) There was a small increase in the receipts from the tax on vehicles and animals, market rents and fines, and a more satisfactory rise in those from realizations under special Acts, school-fees and cart-stand fees. The amount realised by the sale of sweepings was Rs. 279, which, however, included arrears of the previous year. It is stated that the demand for rubbish has decreased in consequence of the removal of the depôt away from irrigated fields; but in this connection the council's attention will be drawn to the Collector's remarks in paragraph 5 of his endorsement, in which the Government fully concurs. It is suggested that the experiment of putting the sweepings up to auction at the beginning of the cultivation season after due notice in the town and adjacent villages and selling them either as a whole or in lots, as may seem desirable, for what they will fetch should be tried. This was what was done in the case of Conjeeveram some years ago, with the result that though in the first year the price realized for a very large quantity of sweepings was only Rs. 270, the sales in the next year brought in nearly Rs. 700 and the annual income is now some Rs. 2,000.

(3) The number of houses served by the private scavenging agency and the income from this source rose from 93 to 140 and Rs. 122 to Rs. 168, respectively, and the service was worked at a small profit of Rs. 16. Nearly 86 per cent. of the arrear demand, however, was written off as irrecoverable, under the circumstances explained in paragraph 21 of the Chairman's report. As more than two-thirds of the total number of private latrines in the town are still outside the system, the municipal council should not relax the efforts which are being made in this direction until all of them have been brought under its control. If owners fail to arrange for their proper cleansing and are in consequence systematically prosecuted for keeping insanitary premises, they will certainly find it to their advantage to avail themselves of the service of the municipal scavengers. Municipal toties and sweepers should not be allowed to serve houses other than those belonging to the municipal service. If necessary, their salaries should be raised and their work increased.

4. *Expenditure*—(1) *Public Works.*—No new work of importance was undertaken during the year. The total outlay on communications amounted to Rs. 1,872, or 45·9 per cent. of the net municipal income from tolls against the prescribed minimum of 50 per cent., but the town roads are reported to have been in fairly good order. The council's attention will be invited to the Collector's remarks in paragraph 9 of his endorsement.

(2) *Education.*—The net expenditure on education was Rs. 1,109, or 10·1 per cent. of the receipts from taxation, and all but Rs. 83 of this sum was spent on primary education. As in the previous year, the municipal council maintained a high school on the salary system and a primary school on the salary result system. There was a marked improvement in the attendance at these institutions, the results of the departmental examinations were good, and the net cost of educating each pupil in the high school was reduced from Rs. 7–10–8 to Rs. 1–4–1. Five primary schools were also aided with result grants against six in 1894–95. The strength of these schools fell from 305 to 258, but the results of the grant examinations were fair, and nearly the whole of the allotment for grants was utilized. The total number of boys under instruction in the municipal and aided schools rose from 575 to 592, or 76·5 per cent. of the male population of school-going age. The proportion of untrained and unpassed teachers employed in these institutions is still considerable. The municipal council should employ none but duly qualified teachers in its own schools and should insist on the managers of aided schools doing the same on pain of reduction or withdrawal of the grants payable to them, penalties which should be rigorously exacted.

(3) *Medical Relief.*—There was a decline of 38 and 4,394, respectively, in the number of in-and out- patients treated at the municipal hospital, which is explained in paragraph 5 (*d*) of the civil apothecary's report. The increase in the number treated at the dispensary for women and children, which was 15,050, against 6,776 during seven months in 1894–95, is satisfactory as it indicates the growing popularity of the institution. The midwife employed by the municipal council attended 70 cases of labour against 52 in 1894–95, but there is still considerable room for improvement in her work. The council's attention will be drawn to the civil apothecary's remarks in paragraph 5 of his report regarding the repairs and furniture required for the hospital building.

(4) *Vaccination and Vital Statistics.*—The reported number of persons vaccinated during the year fell from 892 to 555, for which no adequate explanation has been offered. The quality of the work done, however, slightly improved and was fair, but the net cost of each successful operation rose from As. 4–5 to As. 7–1, under the circumstances explained in paragraph 28 of the Chairman's report. Infantile vaccination continued to receive attention, but the number of children under one year successfully protected must approach more nearly the number of births registered before the results can be regarded as satisfactory. The monthly average of vaccinations was only 46, and it seems a question whether if this is the limit of the number of cases which are really available, it would not be desirable to substitute a second-class for a first-class vaccinator. This would materially reduce the cost of this branch of the administration which is at present very high.

The registration of vital statistics continued to be fair, but the rates of births and deaths recorded were still below the normal.

(5) *Sanitation.*—The expenditure under this head, amounting to Rs. 3,627, fell short of the allotment by 2 per cent., and was 20·3 per cent. of the receipts. The sanitary condition of the town is stated by the civil apothecary to have been fair, and from paragraph 30 of the Chairman's report it appears that the subject is engaging the council's attention.

5. *General Remarks.*—The year closed with a balance of Rs. 3,865, or 21·6 per cent. of the receipts. The Chairman should avoid as much as possible the use of tabular statements which are both troublesome and costly to print and which also occupy space. The utility of instituting comparisons between the figures of five years is also open to question.

The administration of the municipality during the year under review showed an improvement in almost every branch, which Government is pleased to note is ascribed by the Divisional Officer and the Collector to the exertions of the Chairman, and was generally satisfactory.
