Chairman
Municipal Council
Tellicherry.

To

The Chief Secretary to Government
Fort St George
through the Sub Collector of Malabar
Tellicherry

Sir,

I have the honor to enclose an extract from the Proceedings of the Council, dated 30th March 1896, resolving to close the Municipal Branch Dispensary at Chali as suggested by the Surgeon General with the Government of Madras at his last inspection.

2. It is thought that the main Hospital which is situated within a mile from Chali will, if improved, amply suffice for the requirements of the whole town.

3. The Councils resolution above referred to, h not been given effect to, as a petition from some of the inhabitants of Chali is pending consideration and orders of Government.

LOCAL & MUNICIPAL DEPT.
CURRENT No. 1651

May it please your Excellency.

We the undersigned who represent the population of that part of the Municipality of Tellicherry, called Chāl, & its suburbs most respectfully beg leave to make this representation to your Excellency in the earnest hope that you will be pleased to redress our grievances.

2. The locality of Chal is the most densely populated portion of the Town of Tellicherry and confessedly the most ill-kept place in respect of sanitation & drainage, so that in past years epidemics found an easy way in our midst. This is also the hot bed of infectious disease in the Municipality; such as leprosy, elephantiasis, through bad water & syphilis has also become very common in our midst. To remedy this and other evils, the Municipality on the 16th May 1896 opened a Branch dispensary there which has hitherto proved an invaluable boon to the residents.

3. On the 27th February last, the Surgeon General with the Government of Madras, who was out on tour visited the Chal dispensary, and recorded the suggestion that it would be far better if the Municipality would close the dispensary, and utilize the money expended for its up-keep in

4. The Surgeon General was apparently led to make this suggestion for the reason that the Branch dispensary at Chal is only a mile from the main Hospital.

5. On hearing of the suggestion, we petitioned the Municipal Council praying that the dispensary may be allowed to Continue, but x we have reasons to believe that they are averse to granting our request in the face of the Surgeon General's opinion.

x our petitions were rejected and –

6. We feel assured that the Surgeon General needs only to be put in possession of the grounds on which our application is based to be persuaded of the necessity for continuing the dispensary; we are impressed with the idea that the Municipal Council should have taken steps to acquaint the Surgeon General with the reasons that existed for the retention of the dispensary. We however, regret to have to say that the Council have completely misunderstood their responsibilities & duties towards a large section of the population entrusted to their care & have acquiesced in the suggestion to close the dispensary simply because it emanated from the Surgeon General.

7. The Chal dispensary was opened on the 16th May 1890. During the official year 1890/91 there were 2,767 patients treated, the number rising gradually till in 94/95 it reached 6,085 as the following tabular statement extracted from G. O Local & Municipal no: 1706 M d/22nd October 1895 reviewing the

to up-Keep

the administration report of the Tellicherry Municipality for 94/95 will show.

	1890 – 91		1891 – 92.		1892 – 93		1893 – 94.		1894 – 95.		
	Number treated.	Daily average number.	Number treated.	Daily average number.	Number treated.	Daily average number.	Number treated.	Daily average number.	Number treated.	Daily average number.	
Branch Dispensary Chali – out door.	2,767	27.58	5,500	44.11	5,187	46.08	5552	46.96	6085	51.0.	

The main Hospital during the official Year 94/95 treated 14,834 out & 718 in-patients, making a total of 15,552 with a staff consisting of 1 Civil Surgeon, 2 Hospital Assistants, a nurse & a midwife, 2 Compounders one paid & one voluntary & on an average 3 medical pupils, 2 surgery attendants, 1 cook, a peon, toties &c. Comparatively speaking then the Chal dispensary has proved a more popular institution than the main Hospital.

vide page 9 of G.O.

8. The bulk of the population of Chal consists of fishermen & cultivators most of whom have to live from hand to mouth, turning out for work at early dawn and returning home late in the evening – and a dispensary in their midst is really a boon as it saves them the necessity of having to go to the main Hospital and wait there to take their turn, the no: of patients treated there in 94/95 being 134 daily & thus losing half the day. It is true that in the Madras General Hospital about 200 patients [illegible] attended to daily & the work finished

(vide page 9 of G.O.)

to up-Keep

within 3 hours, but the Circumstances of the patients attending, and the arrangements for their being promptly attended to, have to b considered.

9. In other respects, too, the continuance of the dispensary at Chāl is advisable. Being the filthiest & most densely populated portion of the Town, epidemics may be arreste with better success than if the dispensary were abolished. It is a well-known fact that natives do not resort to the Hospitals unless they are within easy reach, and in cases of Cholera it is sometime before medicin are procurable.

10. We are almost pursuaded that the Contemplated closing of the dispensary bodes evil times in the near future, not only to ourselves, but to the Municipality of Tellicherry at large. It is no wise policy to improve the efficiency of the main Hospital by doing away with an institution which is growing into rising popularity every year & which is a sine qua non in the midst of so much filth & nastiness for the efficient removal of which the Municipal Council evince no further interest than keeping the public road & grounds abutting in tolerable order.

Under these circumstances we humbly & earnestly beg your Excellency will graciously be pleased to pass such orders as will ensure the continuance of the Chāl dispensary. For which act of Kindness we shall feel ever grateful.

Petition from the inhabitants of the Southern half of Tellicherry, against the closing of the Branch Dispensary by the municipality according to the Surgeon General's recommendation

---

Remarks made by the Surgeon General with the Government of Madras in the visitors book of the Civil Hospital Tellicherry.

Date of visit	Remarks.
27th February 1896.	Visited the Hospital with the Civil surgeon, it is kept clean but it is very badly equipped and arranged. The separation of the sexes is not properly attended to. A new out patient department on the standard plan should be erected separate from the hospital under the Bastion. A lying-in, and a labour ward on the standard plan should be erected near the site of the building which was bought for the purpose. The ruined building should be removed; there should be quarters for the nurse and midwife on the standard plan close to the lying-in-ward. The arrangements of the accommodation in the hospital itself requires reconsideration. There must be a separate ward or shed for female venereal cases. There should be separate huts on the standard plan for septic and dirty male cases and the same for female cases. There should be atleast one hut on the standard plan, for caste patients. The obsolete records should be got rid of. The bundle system of keeping records should be adopted. The hospital should be equipped up to the suggested minimum standard in standing order no 22 of 1895. The proper medical subordinate staff for this Hospital should be one Civil Apothecary who should assist the Civil Surgeon in his charge of both the in and out patients and one third class Hospital assistant who should supervise the dressing and compounding. The male and female ward attendants should be regularly trained by the Hospital Assistant, from the Madras nursing manual and examined from it at least once a week by the Civil surgeon. The system of obtaining supplies from a Contractor is a bad one and is expensive The medical Officer should make his own arrangements on a permanent advance, and the price charged can be checked from the bazaar rates. The Civil surgeon should lay copies of the different orders of the Government of India and Madras republished in departmental Standing orders and Circulars regarding the Dufferin Fund before the Municipal Council with a view to bringing the facts before them and getting more assistance in educating female medical practitioners.

(True Copy)

Chairman.

Remarks made by the Surgeon General with the Government of Madras in the Visitors book of the Branch Dispensary Chali; Tellicherry dated 27th February 1896.

Visited the Dispensary with the Civil Surgeon, if this is to be kept up the accounts should be kept separate in accordance with the orders of the Government of India. The building is not at all adapted for the purpose of a dispensary. It is clean, neat, and in good order. It costs rent Rs 7-8-- a month, pay of the Hospital Assistant Rs 25 + 5 house rent, Compounder Rs 9, and Surgery attendant Rs 6. for an average of about 45 patients a day, last year. The distance from the main Hospital is about a mile. It would be far better if the Council would close this dispensary and expend the money in making the main Hospital efficient.

~~No. 671~~

Malabar Sub Collector's Office
Tellicherry, 30th May 1896.

From.

M. J. Murphy Esquire,
Ag. Sub Collector of Malabar

To,

The Collector of Malabar
Calicut

Sir,

I have the honor to forward herewith for transmission to Government a memorial addressed by the residents of Chali in Tellicherry protesting against the closure of the Municipal Dispensary located at the place. At the recent visit of the Surgeon General he appears to have recommended abolition of this Dispensary with a view to utilising the funds that will be available in improving the main hospital, but the Council appears to have resolved upon abolishing the Dispensary and left other matters referred to by the Surgeon-General for future consideration.

2. The Chali ward is the worst spot

in the Municipality in the matter of Sanitation &c. It is inhabited mostly by fishermen and the poor of the town. Cholera generally makes its first appearance there. Probably therefore it is a grievance to the residents that the Dispensary should be closed. ~~But~~ Looking however to the recommendation of the Surgeon General and to the proximity of the main Hospital, I do not see that the matter can be reopened. But I think the Surgeon-General's recommendations should be accepted in their entirety and not piecemeal.

I have the honor to be
Sir,
Your most obedient servant.

Local & Municipal DEPARTMENT.

SIR,

With reference to your Endorsement No. 1087 dated 18th June '96 on the correspondence regarding the abolition of the Chali Dispensary at Tellicherry, herewith returned, I have the honor to state that I went into this question fully when at Tellicherry and am of opinion that it is not required & that the Municipal funds would be far better spent on bringing the Municipal Hospital and its out-patient department into a more efficient state.

2. I agree with the Acting Collector that my recommendations should be carried out as a whole and not peace-meal. The savings made by the abolition of this Dispensary should be spent on the hospital.

3. If the petitioners feel as strongly as they write they can make a collection to establish and endow a Dispensary for Chali which could be managed by the Municipality or by a Committee formed from amongst themselves.
