No. M., July 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. K. GOPALACHARIYAR Avargal, Chairman, Municipal Council, Tirupati, to the Chief Secretary to Government (through the Head Assistant Collector of North Arcot), dated 14th June 1896, Ref. on Cur. No. 1392-M.

I have the honour to submit my report on the administration of the Tirupati Municipality for the official year 1895-96.

I.—Constitution of the Council.

2. The maximum number of councillors was twelve, of whom three were officials and nine non-officials. Seven vacancies occurred during the year—four by efflux of time, one by death, and the remaining two by resignation on account of old age and physical inability. They were all filled up—four by re-nominations, two by new nominations, within the year, and one, though reported within the year, was gazetted only on the 28th April 1896, as there has been some correspondence about it in the interval. The total number of meetings actually held during the year was twenty against twenty-nine in last year, and the average attendance at each meeting was 1·55 among officials and 4·35 among non-officials. The appreciable decline in the number of meetings was due to the less number of appeals against tax on arts in particular. Only four meetings, as against three in last year, were adjourned for want of quorum. I continued to be the Chairman throughout the year.

II.—Receipts.

3. The total receipts of the municipality during the year under the several heads of accounts amounted to Rs. 24,853-12-8, against Rs. 28,260 as estimated in the revised estimate. The opening balance at the credit of municipal funds on the 1st April 1895, excluding the deposit balance, was Rs. 10,986-13-1, against Rs. 10,990. The year closed with a balance of Rs. 10,234-8-4, exclusive of the deposit balance, against Rs. 10,660 as estimated in the revised estimate.

4. *Tax on Arts.*—The amount as originally assessed was Rs. 2,137-8-0, of which Rs. 45 were remitted by the council on appeal, and the net demand as finally settled was Rs. 2,092-8-0. Of this sum, Rs. 1,928-8-0, or 92 per cent. against 86 in last year, were collected and Rs. 164 left outstanding at the close of the year. Of this, Rs. 47-8-0 have since been realized. The arrear balance at the beginning of the year was Rs. 486-5-11, of which Rs. 148-10-6 were collected and Rs. 5 remitted, thus leaving a balance of Rs. 332-11-5. Of this, again, Rs. 23-8-0 have since been collected. Some of the cases among the remaining have to be written off as irrecoverable, as the defaulters concerned have left the town and their whereabouts are not traceable; some, again, have become so poor as not to pay their dues. These will be disposed of as early as possible after due enquiry into the reports of the sanitary inspector, &c. Necessary steps are being taken for the realization of the collectable balances. The tax under this head was revised during the year as usual. The decline of the current demand—viz., Rs. 2,092-8-0 against Rs. 2,400 as estimated in the revised estimate—was due to the general depression of trade in the town.

5. *Tax on Buildings.*—There has been practically a very slight change in the demand under this head, and it was due to the inclusion in the tax register of some of the new houses. The final assessment was thus Rs. 5,398–5–1, of which Rupees 5,143–10–2, or 95 per cent. against 93 in last year, were collected during the year, Rs. 1–2–4 remitted on account of poverty, and Rs. 253–8–7 left outstanding at the close of the year. Of this, again, Rs. 85–14–11 have since been collected. The arrear demand at the beginning of the year was Rs. 567–2–6, of which Rupees 282–7–1 were collected during the year and Rs. 1–10–3 remitted under section 51 on account of poverty, and Rs. 283–1–2 remained at the close of the year uncollected. Rs. 33–13–6 out of this have since been realized. Necessary arrangements have been made to realize the outstandings as early as practicable.

6. *Tax on Lands.*—The demand under this head amounted to Rs. 318–13–4, and the small reduction was due to some of the vacant sites having been occupied by new houses. Of the said amount, Rs. 307–13–11, or 96 per cent. against 85 in last year, were collected during the year and Rs. 10–15–5 left outstanding at the close of the year. Of this, Rs. 2–7–11 have since been collected. The arrear demand at the commencement of the year was Rs. 82–7–11. Of this, Rs. 73–0–4 were collected during the year, leaving a balance of Rs. 9–7–7. Rs. 2–6–8 have since been realized.

7. From the above, it will be observed that there was an appreciable improvement in the percentages of collections of taxes on arts, buildings and lands during the year over the figures of last year.

8. *Coercive Process.*—Appendix A to Statements IV-A and IV-B shows the extent to which coercive measures were adopted for the collection of several taxes in the year under report. Property was distrained in twenty-six cases involving Rs. 22, and the collection of taxes was made in majority of cases without having recourse to the execution of warrants. The total number of unexecuted warrants at the close of the year was 816.

9. *Tax on Vehicles with Springs and Palanquins.*—Rs. 171 were realized under this head against an estimate of Rs. 220 in the revised estimate. Some of the palanquins and spring vehicles, having either been unfit for use or the owners having refrained from utilizing them, were not brought during the year for registration. Hence the decline under this head.

10. *Tax on Animals and Carts without Springs.*—The incomes under these heads were Rs. 567–4–0 and Rs. 640, respectively. The number of animals and carts without springs registered was more or less the same as in last year and the difference was consequently due to over-estimate.

11. *Tolls.*—There are four toll-gates. They were leased out for Rs. 2,310 against Rs. 2,750 in 1894–95. The whole of the amount was collected within the year, and the share of the district board, Rs. 770, being one-third of the income, was also remitted to the Tirupati sub-treasury before the close of the year. Annas 2 were collected from the toll-gate farmer as penalty on account of overdue kists and the proportionate share of the district board was similarly remitted to the said treasury. Tolls were levied at maximum rates.

12. *Rent of Lands.*—A sum of Rs. 21–14–3 was realized under this head against an estimate of Rs. 40. The decrease was due to the fact that, owing to the intolerable heat of the sun during the Ganga Jatra festival, more temporary shops were not opened on the municipal lands, nor was there a good gathering of people on the occasion to encourage the opening of more shops.

13. *Rent of Buildings.*—A portion of the municipal office building has been let out on a rental of Rs. 7 per mensem for the use of the Deputy Tahsildar of Tirupati division to hold his office, as a new building for that officer is in course of construction. The rent for March was not paid before the close of the year. The same has, however, been realized since.

14. *Avenue Receipts.*—Some of the avenue trees which were obstructive to the erection of houses in the town and also some of those which fell on account of storm were sold in public auction, and their sale-proceeds amounted to Rs. 143–2–6 against an estimate of Rs. 100 in the revised estimate.

15. *Produce of Lands, Gardens, &c.*—Rs. 47–4–0 were realized from sale of withered trees in the People's Park.

16. *Sale-proceeds of old Materials, &c.*—Under this head Rs. 16–5–9 were realized by the sale of kerosine oil empty tins and dealwood boxes. This is a fluctuating item.

17. *Conservancy Receipts.*—The receipts under this head amounted to Rs. 253–4–0. There has been no proper demand for this owing to failure of monsoons. Hence the decrease.

18. *Fees from Educational Institutions.*—The sum of Rs. 237–3–3 was the amount of school-fees collected from the municipal salary-results schools during the year. The increase over the estimate was due to the large number of boys in the upper primary department of the Nathanapuram school.

19. *Income from Markets.*—Municipal meat market and the vegetable market were leased out for Rs. 165 and Rs. 273, respectively, against an estimate of Rs. 500 in the revised estimate. The decrease was owing to want of keen competition for them at the auction sale. A sum of Rs. 1–2–7 was collected as penal interest on account of over-due kists.

20. *Income from Slaughter-house.*—The municipal slaughter-house was leased out during the year for Rs. 360 against an estimate of Rs. 340 in the revised estimate. There has been a keen competition among the bidders for the same. Hence the increase.

21. *Distraint Fees.*—Though coercive process was freely resorted to, collection of taxes was made without any necessity for distraint in majority of cases. Distraint was made only in twenty-six cases, and Rs. 8–12–0 were realized on that account against the revised estimate of Rs. 100.

22. *Fines under Municipal and other Acts.*—The income under this amounted to Rs. 425–8–0. The increase was chiefly due to the hearty co-operation of the police in charging the offenders for offences under the Towns Improvement Act III of 1889. The sanitary inspector also prosecuted eighty-nine cases under the Municipal Act and forty-one cases under the Towns Improvement Act during the year.

23. *Grants from Government.*—In accordance with G.O., No. 398 M., dated 9th March 1895, a municipal girls' school was opened on the 1st of July last and examined for grants on the 15th February 1896, but no certifying memorandum has yet been received. One certifying memorandum for Rs. 4–6–0 on account of Muhammadan school was cashed on the 31st March last, and as the money was received a little too late into the municipal office the same was taken credit of in the accounts on the following day. Further, an application for Rs. 40, being the salary grant payable from Provincial funds on account of the gymnasium establishment attached to the municipal schools, was made to the Inspector of Schools, Southern Circle, in March last, but the sanction of the Director of Public Instruction for the same was communicated to me only recently. Hence nothing has been shown under this head.

24. *Other Grants and Contributions.*—Rs. 55 shown under this head was the amount of contribution paid by the Bugga Mahant for watching the bugga from pollution. After repeated reminders to the Sri Mahant of Tirupati, he kept me informed, in his letter, No. 99, dated 17th May last, that, notwithstanding his payment for two instalments of his contribution towards the water-supply scheme, no work was commenced yet, and that he would, in consequence, contribute the amount only after the work is actually set on foot. Hence the decrease under this head.

25. *Private Scavenging Fees.*—The receipts under this head amounted to Rs. 563–8–0 against an estimate of Rs. 700 in the revised estimate. Of the current demand of Rs. 547–8–0, Rs. 501–12–0 were collected during the year and Rs. 45–12–0 left outstanding at the close of the year. Again, of the arrear demand of Rs. 102–12–0, Rs. 61–12–0 were collected, Rs. 24–8–0 written off as irrecoverable, and Rs. 16–8–0 remained uncollected at the close of the year. Of course, there were nineteen fresh applications for enlistment of private latrines for operation and there were similar withdrawals in thirteen cases during the year; besides fifteen houses had to be removed from the register on account of the owners thereof having been indifferent

in putting in withdrawal applications. Making allowance for the above, there remained in the register on the 31st March last only 165. With the exception of the Sri Mahant's School, H.L.G.M. High School, each of which pays at Re. 1 per mensem for scavenging the latrines attached thereto, and the District Munsif's Court which pays Rs. 1–8–0, all the other houses were charged at a uniform rate of Annas four payable monthly and in advance. The Tirupati Sub-Jail scavenging was under the supervision of the municipal agency on payment of a fee of Rs. 4 per mensem, but it was also withdrawn at the beginning of October 1895 as a separate hand was appointed by the authority concerned for the said purposes. Hence there was a noticeable decline under this head. As remarked in paragraph 3 (4) of G.O., No. 1664 M., dated 18th October 1895, steps were taken to put down the practice of pig scavenging by killing stray pigs for three months from June 1895 and for six months again from March last. Only eight pigs were killed during the first period and forty-two pigs between the 15th and 31st March 1896. The killing of these pigs was first attended to during the day, when the owners thereof were in the habit of driving them away without the municipal limits and bringing them back into the town after sunset and just let them loose as usual on public roads, &c., during nights. In the notification issued in March last, it has clearly been announced that stray pigs would be killed both day and night indiscriminately. When the killers began their work, they complained that the said animals being furious ones they were afraid to approach them during nights. It was, therefore, thought advisable to kill them between sunrise and sunset. The killers have accordingly been ordered. The present progress, however, leads me to believe that I may be successful in the course of a few months to reduce the number of stray pigs to achieve the diffusion of the private scavenging system at least during the current year, 1896–97.

26. *Other Purposes.*—A sum of Rs. 136 was entrusted to the council by M.R.Ry. Lodkrishnadas Balamukundadas of Madras for constructing a water-trough in the G. Car street for the use of cattle. The water-trough was constructed at a cost of Rupees 117–6–0, and Rs. 12–3–2 was given over to the municipality for the maintenance of the lamp attached to it and Rs. 6–6–10 were returned to him.

27. *Refunds of Expenditure of previous year.*—The late sanitary inspector, P. Kodandarama Rao, was sent to Madras in 1895 to undergo a course of training in hygiene for three months to qualify himself to become a certificated sanitary inspector —*vide* G.O., No. 1914 M., dated 10th December 1894. He was paid during the course of training at Madras his salary on condition of refunding the same whenever he quits the service of this municipality within three years of his joining the appointment after returning from Madras. In January last he resigned the appointment and executed an agreement promising to pay the said amount by instalments at Rs. 10 per mensem. He was allowed this concession and the amount shown under this head represents the January and February instalments.

28. *Advances.*—The sum of Rs. 110–8–0 is made up of Rs. 90 recovered from water-trough contractor, Rs. 20 from Bekina Boyadu to whom the said amount was advanced in connection with the investigation of the water-supply scheme, and As. 8 recovered on account of process fees.

III.—Expenditure.

29. *Grant I, New Works—Buildings.*—Rs. 664–1–8 were expended for the construction of the following:—

	Rs.	A.	P.
(1) Corrugated-iron latrine with six seats	237	9	9
(2) Dharmasala urinal	103	8	0
(3) Penta street do.	100	13	3
(4) Anantha street latrine	187	2	8
(5) Six corrugated-iron dust-bins	35	0	0
Total ..	664	1	8

An allotment of Rs. 200 for the erection of one corrugated-iron latrine, Rs. 150 for two corrugated-iron urinals at Rs. 75 each, were provided in the revised estimate, but the expenditure on these works has slightly exceeded the allotments. The value of the iron materials themselves supplied by Messrs. D. Raju & Co. for the aforesaid works cost the allotted amounts, and separate provision for the necessary masonry works for them had therefore to be made. Hence the difference.

30. Estimates and plans for the erection of cholera-sheds at a cost of Rs. 1,400 were submitted to the Sanitary Engineer to Government, Madras, and they were returned by the Sanitary Board with its proceedings, No. 3524, dated 27th November 1895, for revision of the estimates in reference to the standard plan which it furnished. As I have not had a competent hand to prepare the said estimates, I requested the President of the District Board, North Arcot, to desire the District Board Engineer to prepare them for me, and he has accordingly ordered their preparation and their receipt is awaited. The erection of kerosine-oil shed was completed a few days before the close of the year, but the contractor owing to his illness having delayed the preparation and submission of a bill therefor in time the payment had to be made during the current year. The site originally selected for the erection of a shed for rubbish carts was condemned and another site had therefore to be selected. A sub-committee was formed for the purpose and they accordingly reported one. But when the estimate was prepared, the allotment of Rs. 200 provided in the revised estimate was found inadequate. Hence the erection of this shed had to be deferred.

31. At the suggestion of the Deputy Sanitary Commissioner in his inspection notes embodied in G.O., No. 1813 M., dated 1st November 1895, a separate shed for calves at a cost of Rs. 31 was constructed, and no bill having been submitted by the contractor before the close of the year, this amount also had to be paid during the current year.

32. (*d*) *Water-supply.*—Of the sum of Rs. 500 sanctioned by the council at its meeting held on the 15th August 1894 for the investigation of the water-supply scheme, Rs. 22–11–4 was spent in that year (1894–95) and Rs. 466–5–5 during the year under report.

33. *Repairs*—(*a*) *Communications.*—A provision of Rs. 1,500 was originally made in the budget for the repair of roads. When these roads were almost repaired, there arose a necessity for making an additional provision of Rs. 1,000 on account of the heavy rain which fell in December last and considerably damaged many of the repaired roads. The total sum of Rs. 2,376–11–10 was spent under this head during the year and Rs. 105–2–9 were paid in April last as the contractor did not furnish bills in time owing to his illness and also to some disputes about certain defects noticed in his works. The special repairs for Rs. 1,000 were almost executed under amani by employing coolies.

34. (*b*) *Buildings.*—A sum of Rs. 333–2–9 was expended for the following buildings:—

	Rs.	A.	P.
(1) Annatha Street latrine wall	24	9	3
(2) Bamboo tatties purchased for replacing the old tatties used to the tatti latrines	112	8	0
(3) Vaccination shed	7	0	0
(4) Vegetable market	40	0	0
(5) Repair of tatti latrines by tar-Painting, &c.	27	15	8
(6) Chinnangudi street urinal	20	12	7
(7) Meat market	100	5	3
Total ..	333	2	9

35. *Drainage.*—Rs. 300 were provided for the improvement of the Penta drain in accordance with the suggestions of the Sanitary Commissioner, Madras, but when the estimate was submitted to the Sanitary Engineer to Government, it was returned for the preparation and submission of sketch, &c. These are now under preparation by the local fund overseer under the orders of the District Board Engineer on my requisition through the President of the District Board, North Arcot. Hence the allotment could not be utilized within the year.

36. (*d*) *Water-supply.*—The sum of Rs. 199 was spent towards putting up stone parapet around Narasimha Tirtham tank. Bommala Bavi was provided with pulleys on all sides at a cost of Rs. 16–2–4. Platform of the Gazu street well was thoroughly repaired at a cost of Rs. 15–9–1. Some slight repairs were also made to Ramachandra Gunta bund and meat market well at a cost of Rs. 9–13–7 and Rupees 8–8–0 respectively. With a view to make certain improvements towards the public scattered wells, a sum of Rs. 200 was provided in the revised estimate. But on giving strict notices to the so-called owners, some of them consented to make the necessary improvements and hence savings under this head.

37. The total outlay under Grant I amounted to Rs. 4,448–0–3 against Rupees 6,890 in the revised estimate.

38. *Grant II, Education—Training Schools.*—The amounts of Rs. 1–14–0 and As. 5–9 shown under this head appertain, respectively, to the salary of the sessional school teacher and contingencies payable to him in 1894–95 but paid during the year under report.

39. *Salary-result System Schools.*—Rs. 515–12–11 were spent under "(*a*) Fixed Payments" against Rs. 550 in the revised estimate. The difference was due to the opening of the girls' school in July last. Rs. 179–4–0 were paid towards "Result grants" against Rs. 160 in the revised estimate. The increase was due to the good grants earned by the municipal schools during the year. The sum of Rupees 199–5–6 represents the contingencies of the municipal schools, and the decrease against an estimate of Rs. 250 was due to the fact that the girls' school was opened in July last and also to the strict economy observed in utilizing the allotment.

40. *Salary Grants.*—Under this head a sum of Rs. 406–14–9 was spent against Rs. 450 in the revised estimate. Some of the teachers of the H.L.G.M. High school, Tirupati, which is the only secondary school receiving aid from the municipal funds, not having qualified themselves to receive grant, some savings were effected.

41. *Result Grants.*—Only five result schools, against seven in the previous year, were examined and they earned a sum of Rs. 257–14–0 against an estimate of Rs. 350. Of the two schools disappearing from the list during the year, one is said to have been closed and the manager of the other would seem not inclined to subject it under the control of the municipal council. Hence the savings.

42. No annual returns were submitted by the Sub-Assistant Inspector of Schools, Madras Girls' Range, and by the Sub-Assistant of the Muhammadan Schools, for the girls' schools and Muhammadan schools, respectively. The returns received from the Sub-Assistant Inspector of Schools, Wallajah Range, through the Assistant Inspector of Schools, only showed the figures for the Nathanapuram and Bandla schools. Hence I have based my figures on those given in certifying memoranda and pass lists furnished to the said schools. On verifying the pass lists of the Nathanapuram school and Bandla school with the figures given in Statement No. IV forwarded by the Sub-Assistant Inspector of Schools, I observe that two boys in the infant standard of the former, and two boys in the same standard of the latter, school were found omitted in the certifying memoranda of the respective schools. I have, however, communicated the aforesaid discrepancies to the said officer. The results turned out by the municipal schools and aided result schools were satisfactory, as has been endorsed by the Assistant Inspector of Schools, Arcot Division. Both the result schools and the municipal salary-result schools have been provided with passed teachers.

43. *Common Gymnasium.*—Under this head Rs. 80 were spent for the salary of the gymnastic instructor and Rs. 54–10–0 for the purchase of the necessary apparatus.

44. The total expenditure under Grant II amounted to Rs. 1,762–14–1 against Rs. 1,960 in the revised estimate.

45. *Grant III.*—Rs. 84 on account of contribution to medical college, Rs. 57 for sanitary inspection, and Rs. 11 for medical reserve staff, were paid during the year, against the revised estimates of Rs. 10, 30 and 10, respectively.

46. *Vaccination.*—The staff under this head consisted of one superintendent, one 2nd-class vaccinator and one peon. The superintendent, who is the local hospital assistant, is paid an allowance of Rs. 2–8–0 per mensem as sanctioned in G.O., No. 421 M., dated 15th April 1889. The minimum number of cases to be vaccinated has been fixed at 56 per month, and the vaccinator has to lose one anna for every case short of the maximum number or to gain one anna as remuneration for every case in excess thereof. The amount spent under establishment was Rs. 250–13–2 against the revised estimate of Rs. 260. The decrease was chiefly due to the amounts withheld on account of cases falling short of the maximum number.

47. The total number of cases vaccinated was 541 against 496 in last year, of which 480 were successful. Ninety-two cases were prosecuted before the magistrate under section 138 of the District Municipalities Act. The total population of this town is 14,242 and the number of cases vaccinated was 38·6 per mille against 35·4 in the previous year. Compulsory vaccination was introduced in this town on the 1st of March 1890. The animal lymph is regarded by the inhabitants of this town as a most successful one for vaccine purposes. A good deal of difficulty is often experienced in procuring calves for operation at the rate of five or six every month. Whenever a complaint of the want of calves is brought to me, I have, in the capacity of Deputy Tahsildar of the division, to prevail upon the villagers and arrange with them for their supply. This is indeed a very difficult task, inasmuch as the villagers refuse sometimes to supply calves on the pretext that they cannot supply both to the municipality and the local funds. The failure of lymph in this town is of an ordinary occurrence whenever the supply of calves fails. It is found on such occasions exceedingly difficult to get calves in the town, even though a high price is offered to the owner. In these circumstances, the average cost of every successful vaccination has been above As. 8. Every endeavour is being made to reduce the cost but without avail for the time being.

48. *Registration of Births and Deaths.*—The number of births registered during the year was 432 and deaths 440 against 445 and 403, respectively, in last year, and the cost of the establishment and contingencies was Rs. 96 and Rs. 15–1–8 against an estimate of Rs. 100 and 10, respectively.

49. *Conservancy and Road-cleaning.*—The strength of the road-cleaning establishment was raised from twenty-nine to thirty-four and scavenging establishment from five to eight and one of the maistry's pay was raised from Rs. 7 to 8 besides the increase of horse allowance from Rs. 5 to 7 to the sanitary inspector. The total cost of establishment was Rs. 2,897–0–11 against an estimate of Rs. 2,950. The slight decrease was due to the entertainment of additional sweepers and scavengers in the latter part of May 1895, some time after the receipt of the budget.

50. *Other Charges.*—The sum of Rs. 208–13–2 under this head comprises (1) the cost of repair of rubbish and night-soil carts, &c., Rs. 142–5–0; (2) value of big and small baskets for the removal of rubbish, Rs. 10–2–0; (3) rent of rubbish depôts, Rs. 42; (4) purchase of crowbars and mamoties required for conservancy purposes, Rs. 9–8–9; and (5) value of signboards to the latrines and urinals, Rs. 5. Eight night-soil hand-carts were supplied by Messrs. D. Raju & Co., Madras, but on account of some defects they were returned to them for rectification and they were not therefore paid for as yet. The two new rubbish-carts were not purchased during the year as they were not available locally, and consequently there was a large saving under this head. There were eleven tatti and one puckah latrines and three urinals in existence at the beginning of the year. One corrugated-iron latrine, two corrugated-iron urinals and a tatti latrine were added to the existing number. The number of rubbish-carts and latrine-carts continued to be the same as in last year.

51. *Private Scavenging.*—Rs. 549–11–5 represent the cost of establishment and Rs. 84–1–9 comprise Rs. 60 and Rs. 20, values of one night-soil cart and six iron receptacles purchased from Messrs. D. Raju & Co., Madras.

52. *Cholera Charges.*—The sum of Rs. 189–5–8 was spent in purchasing cholera medicines, cumblies for patients, and in paying the wages of cholera temporary coolies and dhooly-bearers employed in connection with the Tirumalai Brahmotsavam held in September last.

53. (*d*) *Contingencies.*—The total expenditure under this head amounted to Rs. 597–3–10 against an estimate of Rs. 720. The details for the aforesaid amount are given below :—

	Rs.	A.	P.
Travelling allowance to conservancy establishment while proceeding to Chandragiri to prosecute municipal cases	29	15	0
Greasing rubbish-carts	19	15	11
Signboards to latrines	4	2	0
Value of one cask of disinfecting powder	21	8	0
Cost of temporary coolies engaged during Ganga jatra	57	15	0
Cart-hire for the removal of rubbish during the Ganga jatra	17	9	7
Putting up temporary latrines during the Brahmotsavam	37	6	8
Cutting the top of kerosine tins so that they serve the place of buckets	0	13	0
Purchase of alum for precipitation	4	7	0
Bridges to maistries, &c.	3	12	0
Wages of temporary tank watchmen and conservancy coolies	317	1	0
Repair of cholera-sheds	19	15	11
Disinfecting powder	16	7	0
Repair of Thattaya gunta supply-channel	3	4	5
„ of Alipiri road	35	7	8
„ of Bommala bavi	2	3	8
Cinerators	4	13	0
Cocoanut ropes	0	7	0
Total ..	597	3	10

No payment was made for the removal of prickly-pear during the year, as the work was incomplete. Hence savings under this head.

54. The total outlay under Grant III was Rs. 5,161–14–3 against the revised estimate, Rs. 5,560.

55. *Grant IV, Lighting.*—The sum of Rs. 259–3–4 was the pay of the lighting establishment against Rs. 300 in the revised estimate. The difference was due to the withholding of the salaries of the lighters who happened to be absent without permission when there were no lighting works. Rs. 844–9–6, against an estimate of Rs. 700, were spent on account of purchase of burners, chimneys, kerosine oil, &c., and for the repair of lanterns and lamp-posts.

56. *Avenues.*—Rs. 53–8–4 were spent on avenue establishment and Rs. 3 for the purchase of materials required for planting trees and maintaining them.

57. *Public Garden.*—The sum of Rs. 120 shown under this head was expended in payment of salaries to two gardeners. There was no necessity for the purchase of seeds, &c., as they were engaged in maintaining the existing trees in the municipal office compound and in watching the People's Park.

58. *Works done to Private Individuals.*—Rs. 117–6–0 were spent for the erection of a water-trough in G. Car street at the expense of M.R.Ry. Lodkrishnadas Balamukundadas for the use of cattle (*vide* paragraph 26 *supra*).

59. Stray dogs were not killed during the year, and consequently the sum of Rs. 12–2–0 shown under this head was spent as reward for the destruction of pigs.

60. *Printing.*—Only Rs. 210–11–10 were paid on account of printing minutes of proceedings, &c. As further bills for printing proceedings, &c., were not received within the year, there was an appreciable saving under this head.

61. *Other Items.*—The sum of Rs. 45–5–5 shown under this head, against an estimate of Rs. 70, was spent as follows :—

	Rs.	A.	P
For numbering carts ..	11	7	0
„ land-cess	1	2	0
„ signboards	22	4	5
„ law charges	10	8	0

The last item relates to the process fees paid in the district court in respect of the acquisition of the land of Krishnaswami Rao Pantulu for the new vegetable market.

62. The total expenditure under Grant IV amounted to Rs. 1,674–0–5 against the revised estimate of Rs. 1,840.

63. *Office Establishment.*—Out of the total outlay of Rs. 1,480–14–4, against an estimate of Rs. 1,320, Rs. 756–4–2 were paid on account of the salary of the office establishment, Rs. 187–7–2 for the salary of the collection establishment, Rs. 429–3–0 for the purchase of stationery and printed forms, such as bill book, tax registers, miscellaneous receipt books and other similar forms, &c., from the V. N. Jubilee Press, and the cost of postage, &c., stamps, and Rs. 108 on account of contribution for the central office establishment. There was a slight difference under office establishment and (*d*) office contingencies. The attender of the office was appointed about the middle of May 1895, and some large quantities of account forms were sent for during the year. Hence the savings in the office establishment and increase under contingencies. The subjoined memorandum gives particulars of the advances made and recovered during the year :—

	Rs.	A.	P.
Balance on the 31st March 1895	338	5	2
Advances made during the year	1,826	9	0
Total ..	2,164	14	2
Advances adjusted in 1895–96 ..	1,845	8	0
Balance on the 31st March 1896 ..	319	6	2

Of this balance, Rs. 192–9–2 was advanced in 1887–88 to one Ramaswami Maistri, and a decree obtained against him, but it could not be executed as the whereabouts of the man could not be traced out; Rs. 23–4–0 were paid to the sanitary inspector for prosecuting cases, and this amount is said to be irrecoverable inasmuch as the cases have either been thrown off or compromised. Sufficient details not having been obtained, the aforesaid amount has to be kept dragging on year after year. I shall, however, try to adjust the amount as early as practicable. Rs. 12 were also paid to the servants of Messrs. Borham & Co. in connection with the removal of silt from Narsimha Tirtham tank in 1893, but this could not be adjusted as their claim for the said work was considered illegal and as the matter is still under correspondence. The sums of Rs. 20 and 10 represent the permanent advance given to the manager of the municipal office and the municipal vaccinator, respectively. A sum of Rs. 50 was advanced during the year under report to contractors Gopalacharliar and Punnyakoti Nayudu for the repair of Penta drain, but as the work was not carried out under the circumstances stated in paragraph 35 *supra* the said amount awaits adjustment during the current year. Rs. 11–9–0 were paid on account of railway fare for the receipt of night-soil carts, &c., supplied by Messrs. D. Raju & Co., Madras. This amount will be adjusted against their bill for the value of the articles they supplied when their accounts are finally adjusted shortly.

64. All the other items of receipts and charges are more or less the same as in the revised estimate and some are fluctuating items, and hence call for no special remarks.

65. *General Remarks.*—The year under report discloses an appreciable improvement in general over the past year in all the branches of works, and the inspecting officers' suggestions have been complied with as far as practicable.

66. The following papers are herewith submitted :—

(1) Annual statements.

(2) Extract from the minutes of proceedings of the council adopting the report.

(3) Statements received from the educational authorities.

2. Twenty meetings were held b
previous year. The average attendance
unsatisfactory, while that of the officials

3. *Receipts.*—(1) For the reason
report, there was a decrease of 38 in the
and of Rs. 54 in the net current demand
of this tax rose from Rs. 3-12-9 to Rs. 3
ings and lands remained almost stationar

(2) The current collections under
on those of the previous year and were o
under the land tax also improved and w
taxes declined and was poor. The arrea
and it is not creditable to the municipal c
disfigured by such entries. Steps should
or to write them off as irrecoverable.

(3) The number of warrants iss
(3,084) was less than one-half of that in
for disposal remained unexecuted at the c
tory and the Chairman should see that t
remark in future.

(4) There was a marked fall in the
reduction of the rate of contribution paya
one-third, there was an increase in the n
from avenues and sale of street-sweepings
tion of the Police in supressing nuisances,
itself.

(5) It is to be regretted that th
scavenging agency and the fees realized o
165 and Rs. 564, respectively, and that th
the council against a profit of Rs. 95 in 189
man's report, however, it appears that the n
of extending this system and is bestirring i
efforts which are being made in this directi
current year.

4. *Expenditure*—(1) *Public Works.*—
put up at a total cost of Rs. 630, and a su
investigation of the water-supply schem
amounted to Rs. 2,377, or more than 150 p
tolls. ~~The Revenue Divisional officer has
the roads—an omission which the Colle
inspection notes of the Deputy Sanitary Co
dated 1st November 1895, and the remarks
were communicated to the council in G.O.,
the roads appear to have been in very bu
when the special repairs were undertaken to~~

(2) *Education.*—The net expenditure
cent. of the receipts from taxation. Of this
remainder on primary education. As in t
maintained three primary schools on the sala
was added during the year. The attendanc
declined slightly, but the results of the dep
council also aided one secondary school with
schools with result grants. The attendance
but the results of the grant examinations
that for the reasons assigned in paragraphs 4
17 per cent. of the allotment for grants wa
under instruction in the municipal and aide
of the male population of school-going ag

that a decline has had to be recor
however, that this decline was to
49 to 106 in the number of girls
Public Instruction will be drawn
statements referred to in paragrap

(3) *Medical Relief.*—The n
and medical relief continued to be
of the District Board.

(4) *Vaccination and Vital*
performed during the year rose fr
showed a further retrogression, or
successful against 92·1 in 1894–
number of children under one yea
population as in 1894–95, and the
very high, being three times the a
unsatisfactory results are attribute
purposes and to the high prices de
come in other towns and there appe
able in Tirupati. Every effort sh
branch of the administration. Th
deaths, but that of births declined
complete, the ratio recorded bein
important subject and should be at

(5) *Sanitation.*—Under this
allotment and 32·6 per cent. of
notes recorded in G.O., No. 1813
Commissioner remarked that the s
paragraphs 49 and 50 of the Chai
now receiving some attention and t
out by Dr. Mallins will be remedi

5. *General Remarks.*—The ye
cent. of the receipts. Of this su
paid by the Mahant for the propos
the remainder will also be required
Rs. 50 under gymnasium contingen
tioned by the council under G.O.
admitted in the accounts.

Except as regards collections,
year under review showed no impr
ing the want of efficiency noticed i

in the Tirupati Municipality for 1895-96.

1895-96.			Remarks.
Number of schools	No. of pupils on 31st March 96		
	Boys	Girls	
(X) 1	203	"	
(a) 1	177	"	
(c) 3	127 (excludes girls school? why)	14	
1	10	10	
(d) 4	192	3	
(e) 1	37	2	
1	(f) 17	"	
12	763	29	

(X) This refers to the L. [illegible] School Tirupati.

The figures for the Sanskrit School were not received.

This accounts for the decrease of (under (a)).

c) Includes the number of Muhammadan Schools. The increase of 16 pupils is satisfactory.

(d) The decrease of two Schools & 52 pupils is unsatisfactory.

(e) The decrease in the number of indigenous schools is not accounted for by the Inspecting School-Master.

(f) There has been a satisfactory increase in the number of pupils.

The decrease of two aided [illegible] schools & the decrease of 8 indigenous schools are respectively due to the [illegible] (1) there being no regular I. master (2) the present I. S. master being new & not taken figures for the schools not connected with the Dept.

C. [illegible]

Sub-Assistant Inspector of Schools,
Wallajapet Range.

Statement No ii Showing the proportion of pupils of the great classes of the population under instruction to children of school going age in Tirupati Municipality (1895-96)

Classes of population		Population of school going age		Pupils under instruction		Percentage		Remarks
		Boys	Girls	Boys	Girls	Boys	Girls	
Europeans and Eurasians		"	"	"	"	"	"	The percentage under native christian boys increased by 17 while that under Hindu boys decreased by 33 & 11 respectively. The percentage under Hindus also fell by 10 & 3 for boys & girls. The fall is only nominal since the Inspecting School master says that there are no indigenous schools. This statement of the Inspecting School Master cannot be accepted. Owing to Aulinge use of indigenous schools, having not been brought under the Return, there is an apparent decrease under Hindus & Hindus girls. This is more than unreal.
Native Christians		6	5	36	10	600	200	
Muhammadans		54	44	44	11	85	25

3/898 .. of 96.

Curr No. 1322 of 96.

No 1434 N
2-6-96

Tirupati

Nellore
2-6-96

Forwarded to the Chairman Municipal Council, Tirupati.

The High School was 2038 strong in the last 2 years. The Municipal Primary Schools show increase. The aided Result schools have fallen off by two. As there are Inspecting Schoolmaster recently appointed, the lost ground can be easily made up. Indigenous Schools that do not conform to the Departmental Rules have either disappeared or [illegible] I. Inspector is wrong in giving the information. The opinion of these private schools shows a falling off under schools, school ... pupils & castes excepting Christians

Extract from the Minutes of proceedings of the Municipal Council, Tirupati, passed at its special meeting held on the 15th June 1896.

HEAD ASSIST... 22 JUN 96

G.O., No. 1433 M., 26th August 1896.

AUGUST.

Administration Report.

Reviewing the — of the Tirupati Municipal Council for 1895–96.

No. 1433, M., 26th August 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. K. GOPALACHARIYAR Avargal, Chairman, Municipal Council, Tirupati, to the Chief Secretary to Government (through the Head Assistant Collector of North Arcot), dated 14th June 1896, Ref. on Cur. No. 1392-M.

I have the honour to submit my report on the administration of the Tirupati Municipality for the official year 1895-96.

I.—Constitution of the Council.

2. The maximum number of councillors was twelve, of whom three were officials and nine non-officials. Seven vacancies occurred during the year—four by efflux of time, one by death, and the remaining two by resignation on account of old age and physical inability. They were all filled up—four by re-nominations, two by new nominations, within the year, and one, though reported within the year, was gazetted only on the 28th April 1896, as there has been some correspondence about it in the interval. The total number of meetings actually held during the year was twenty against twenty-nine in last year, and the average attendance at each meeting was 1·55 among officials and 4·35 among non-officials. The appreciable decline in the number of meetings was due to the less number of appeals against tax on arts in particular. Only four meetings, as against three in last year, were adjourned for want of quorum. I continued to be the Chairman throughout the year.

II.—Receipts.

3. The total receipts of the municipality during the year under the several heads of accounts amounted to Rs. 24,853-12-8, against Rs. 28,260 as estimated in the revised estimate. The opening balance at the credit of municipal funds on the 1st April 1895, excluding the deposit balance, was Rs. 10,986-13-1, against Rs. 10,990. The year closed with a balance of Rs. 10,234-8-4, exclusive of the deposit balance, against Rs. 10,660 as estimated in the revised estimate.

4. *Tax on Arts.*—The amount as originally assessed was Rs. 2,137-8-0, of which Rs. 45 were remitted by the council on appeal, and the net demand as finally settled was Rs. 2,092-8-0. Of this sum, Rs. 1,928-8-0, or 92 per cent. against 86 in last year, were collected and Rs. 164 left outstanding at the close of the year. Of this, Rs. 47-8-0 have since been realized. The arrear balance at the beginning of the year was Rs. 486-5-11, of which Rs. 148-10-6 were collected and Rs. 5 remitted, thus leaving a balance of Rs. 332-11-5. Of this, again, Rs. 23-8-0 have since been collected. Some of the cases among the remaining have to be written off as irrecoverable, as the defaulters concerned have left the town and their whereabouts are not traceable; some, again, have become so poor as not to pay their dues. These will be disposed of as early as possible after due enquiry into the reports of the sanitary inspector, &c. Necessary steps are being taken for the realization of the collectable balances. The tax under this head was revised during the year as usual. The decline of the current demand—viz., Rs. 2,092-8-0 against Rs. 2,400 as estimated in the revised estimate—was due to the general depression of trade in the town.

5. *Tax on Buildings.*—There has been practically a very slight change in the demand under this head, and it was due to the inclusion in the tax register of some of the new houses. The final assessment was thus Rs. 5,398–5–1, of which Rupees 5,143–10–2, or 95 per cent. against 93 in last year, were collected during the year, Rs. 1–2–4 remitted on account of poverty, and Rs. 253–8–7 left outstanding at the close of the year. Of this, again, Rs. 85–14–11 have since been collected. The arrear demand at the beginning of the year was Rs. 567–2–6, of which Rupees 282–7–1 were collected during the year and Rs. 1–10–3 remitted under section 51 on account of poverty, and Rs. 283–1–2 remained at the close of the year uncollected. Rs. 33–13–6 out of this have since been realized. Necessary arrangements have been made to realize the outstandings as early as practicable.

6. *Tax on Lands.*—The demand under this head amounted to Rs. 318–13–4, and the small reduction was due to some of the vacant sites having been occupied by new houses. Of the said amount, Rs. 307–13–11, or 96 per cent. against 85 in last year, were collected during the year and Rs. 10–15–5 left outstanding at the close of the year. Of this, Rs. 2–7–11 have since been collected. The arrear demand at the commencement of the year was Rs. 82–7–11. Of this, Rs. 73–0–4 were collected during the year, leaving a balance of Rs. 9–7–7. Rs. 2–6–8 have since been realized.

7. From the above, it will be observed that there was an appreciable improvement in the percentages of collections of taxes on arts, buildings and lands during the year over the figures of last year.

8. *Coercive Process.*—Appendix A to Statements IV-A and IV-B shows the extent to which coercive measures were adopted for the collection of several taxes in the year under report. Property was distrained in twenty-six cases involving Rs. 22, and the collection of taxes was made in majority of cases without having recourse to the execution of warrants. The total number of unexecuted warrants at the close of the year was 816.

9. *Tax on Vehicles with Springs and Palanquins.*—Rs. 171 were realized under this head against an estimate of Rs. 220 in the revised estimate. Some of the palanquins and spring vehicles, having either been unfit for use or the owners having refrained from utilizing them, were not brought during the year for registration. Hence the decline under this head.

10. *Tax on Animals and Carts without Springs.*—The incomes under these heads were Rs. 567–4–0 and Rs. 640, respectively. The number of animals and carts without springs registered was more or less the same as in last year and the difference was consequently due to over-estimate.

11. *Tolls.*—There are four toll-gates. They were leased out for Rs. 2,310 against Rs. 2,750 in 1894–95. The whole of the amount was collected within the year, and the share of the district board, Rs. 770, being one-third of the income, was also remitted to the Tirupati sub-treasury before the close of the year. Annas 2 were collected from the toll-gate farmer as penalty on account of overdue kists and the proportionate share of the district board was similarly remitted to the said treasury. Tolls were levied at maximum rates.

12. *Rent of Lands.*—A sum of Rs. 21–14–3 was realized under this head against an estimate of Rs. 40. The decrease was due to the fact that, owing to the intolerable heat of the sun during the Ganga Jatra festival, more temporary shops were not opened on the municipal lands, nor was there a good gathering of people on the occasion to encourage the opening of more shops.

13. *Rent of Buildings.*—A portion of the municipal office building has been let out on a rental of Rs. 7 per mensem for the use of the Deputy Tahsildar of Tirupati division to hold his office, as a new building for that officer is in course of construction. The rent for March was not paid before the close of the year. The same has, however, been realized since.

14. *Avenue Receipts.*—Some of the avenue trees which were obstructive to the erection of houses in the town and also some of those which fell on account of storm were sold in public auction, and their sale-proceeds amounted to Rs. 143–2–6 against an estimate of Rs. 100 in the revised estimate.

15. *Produce of Lands, Gardens, &c.*—Rs. 47–4–0 were realized from sale of withered trees in the People's Park.

16. *Sale-proceeds of old Materials, &c.*—Under this head Rs. 16–5–9 were realized by the sale of kerosine oil empty tins and dealwood boxes. This is a fluctuating item.

17. *Conservancy Receipts.*—The receipts under this head amounted to Rs. 253–4–0. There has been no proper demand for this owing to failure of monsoons. Hence the decrease.

18. *Fees from Educational Institutions.*—The sum of Rs. 237–3–3 was the amount of school-fees collected from the municipal salary-results schools during the year. The increase over the estimate was due to the large number of boys in the upper primary department of the Nathanapuram school.

19. *Income from Markets.*—Municipal meat market and the vegetable market were leased out for Rs. 165 and Rs. 273, respectively, against an estimate of Rs. 500 in the revised estimate. The decrease was owing to want of keen competition for them at the auction sale. A sum of Rs. 1–2–7 was collected as penal interest on account of over-due kists.

20. *Income from Slaughter-house.*—The municipal slaughter-house was leased out during the year for Rs. 360 against an estimate of Rs. 340 in the revised estimate. There has been a keen competition among the bidders for the same. Hence the increase.

21. *Distraint Fees.*—Though coercive process was freely resorted to, collection of taxes was made without any necessity for distraint in majority of cases. Distraint was made only in twenty-six cases, and Rs. 8–12–0 were realized on that account against the revised estimate of Rs. 100.

22. *Fines under Municipal and other Acts.*—The income under this amounted to Rs. 425–8–0. The increase was chiefly due to the hearty co-operation of the police in charging the offenders for offences under the Towns Improvement Act III of 1889. The sanitary inspector also prosecuted eighty-nine cases under the Municipal Act and forty-one cases under the Towns Improvement Act during the year.

23. *Grants from Government.*—In accordance with G.O., No. 398 M., dated 9th March 1895, a municipal girls' school was opened on the 1st of July last and examined for grants on the 15th February 1896, but no certifying memorandum has yet been received. One certifying memorandum for Rs. 4–6–0 on account of Muhammadan school was cashed on the 31st March last, and as the money was received a little too late into the municipal office the same was taken credit of in the accounts on the following day. Further, an application for Rs. 40, being the salary grant payable from Provincial funds on account of the gymnasium establishment attached to the municipal schools, was made to the Inspector of Schools, Southern Circle, in March last, but the sanction of the Director of Public Instruction for the same was communicated to me only recently. Hence nothing has been shown under this head.

24. *Other Grants and Contributions.*—Rs. 55 shown under this head was the amount of contribution paid by the Bugga Mahant for watching the bugga from pollution. After repeated reminders to the Sri Mahant of Tirupati, he kept me informed, in his letter, No. 99, dated 17th May last, that, notwithstanding his payment for two instalments of his contribution towards the water-supply scheme, no work was commenced yet, and that he would, in consequence, contribute the amount only after the work is actually set on foot. Hence the decrease under this head.

25. *Private Scavenging Fees.*—The receipts under this head amounted to Rs. 563–8–0 against an estimate of Rs. 700 in the revised estimate. Of the current demand of Rs. 547–8–0, Rs. 501–12–0 were collected during the year and Rs. 45–12–0 left outstanding at the close of the year. Again, of the arrear demand of Rs. 102–12–0, Rs. 61–12–0 were collected, Rs. 24–8–0 written off as irrecoverable, and Rs. 16–8–0 remained uncollected at the close of the year. Of course, there were nineteen fresh applications for enlistment of private latrines for operation and there were similar withdrawals in thirteen cases during the year; besides fifteen houses had to be removed from the register on account of the owners thereof having been indifferent

in putting in withdrawal applications. Making allowance for the above, there remained in the register on the 31st March last only 165. With the exception of the Sri Mahant's School, H.L.G.M. High School, each of which pays at Re. 1 per mensem for scavenging the latrines attached thereto, and the District Munsif's Court which pays Rs. 1-8-0, all the other houses were charged at a uniform rate of Annas four payable monthly and in advance. The Tirupati Sub-Jail scavenging was under the supervision of the municipal agency on payment of a fee of Rs. 4 per mensem, but it was also withdrawn at the beginning of October 1895 as a separate hand was appointed by the authority concerned for the said purposes. Hence there was a noticeable decline under this head. As remarked in paragraph 3 (4) of G.O., No. 1664 M., dated 18th October 1895, steps were taken to put down the practice of pig scavenging by killing stray pigs for three months from June 1895 and for six months again from March last. Only eight pigs were killed during the first period and forty-two pigs between the 15th and 31st March 1896. The killing of these pigs was first attended to during the day, when the owners thereof were in the habit of driving them away without the municipal limits and bringing them back into the town after sunset and just let them loose as usual on public roads, &c., during nights. In the notification issued in March last, it has clearly been announced that stray pigs would be killed both day and night indiscriminately. When the killers began their work, they complained that the said animals being furious ones they were afraid to approach them during nights. It was, therefore, thought advisable to kill them between sunrise and sunset. The killers have accordingly been ordered. The present progress, however, leads me to believe that I may be successful in the course of a few months to reduce the number of stray pigs to achieve the diffusion of the private scavenging system at least during the current year, 1896-97.

26. *Other Purposes.*—A sum of Rs. 136 was entrusted to the council by M.R.Ry. Lodkrishnadas Balamukundadas of Madras for constructing a water-trough in the G. Car street for the use of cattle. The water-trough was constructed at a cost of Rupees 117-6-0, and Rs. 12-3-2 was given over to the municipality for the maintenance of the lamp attached to it and Rs. 6-6-10 were returned to him.

27. *Refunds of Expenditure of previous year.*—The late sanitary inspector, P. Kodandarama Rao, was sent to Madras in 1895 to undergo a course of training in hygiene for three months to qualify himself to become a certificated sanitary inspector —*vide* G.O., No. 1914 M., dated 10th December 1894. He was paid during the course of training at Madras his salary on condition of refunding the same whenever he quits the service of this municipality within three years of his joining the appointment after returning from Madras. In January last he resigned the appointment and executed an agreement promising to pay the said amount by instalments at Rs. 10 per mensem. He was allowed this concession and the amount shown under this head represents the January and February instalments.

28. *Advances.*—The sum of Rs. 110-8-0 is made up of Rs. 90 recovered from water-trough contractor, Rs. 20 from Bekina Boyadu to whom the said amount was advanced in connection with the investigation of the water-supply scheme, and As. 8 recovered on account of process fees.

III.—Expenditure.

29. *Grant I, New Works—Buildings.*—Rs. 664-1-8 were expended for the construction of the following :—

	Rs.	A.	P.
(1) Corrugated-iron latrine with six seats	237	9	9
(2) Dharmasala urinal	103	8	0
(3) Penta street do.	100	13	3
(4) Anantha street latrine	187	2	8
(5) Six corrugated-iron dust-bins	35	0	0
Total ..	664	1	8

An allotment of Rs. 200 for the erection of one corrugated-iron latrine, Rs. 150 for two corrugated-iron urinals at Rs. 75 each, were provided in the revised estimate, but the expenditure on these works has slightly exceeded the allotments. The value of the iron materials themselves supplied by Messrs. D. Raju & Co. for the aforesaid works cost the allotted amounts, and separate provision for the necessary masonry works for them had therefore to be made. Hence the difference.

30. Estimates and plans for the erection of cholera-sheds at a cost of Rs. 1,400 were submitted to the Sanitary Engineer to Government, Madras, and they were returned by the Sanitary Board with its proceedings, No. 3524, dated 27th November 1895, for revision of the estimates in reference to the standard plan which it furnished. As I have not had a competent hand to prepare the said estimates, I requested the President of the District Board, North Arcot, to desire the District Board Engineer to prepare them for me, and he has accordingly ordered their preparation and their receipt is awaited. The erection of kerosine-oil shed was completed a few days before the close of the year, but the contractor owing to his illness having delayed the preparation and submission of a bill therefor in time the payment had to be made during the current year. The site originally selected for the erection of a shed for rubbish carts was condemned and another site had therefore to be selected. A sub-committee was formed for the purpose and they accordingly reported one. But when the estimate was prepared, the allotment of Rs. 200 provided in the revised estimate was found inadequate. Hence the erection of this shed had to be deferred.

31. At the suggestion of the Deputy Sanitary Commissioner in his inspection notes embodied in G.O., No. 1813 M., dated 1st November 1895, a separate shed for calves at a cost of Rs. 31 was constructed, and no bill having been submitted by the contractor before the close of the year, this amount also had to be paid during the current year.

32. (*d*) *Water-supply.*—Of the sum of Rs. 500 sanctioned by the council at its meeting held on the 15th August 1894 for the investigation of the water-supply scheme, Rs. 22-11-4 was spent in that year (1894-95) and Rs. 466-5-5 during the year under report.

33. *Repairs*—(*a*) *Communications.*—A provision of Rs. 1,500 was originally made in the budget for the repair of roads. When these roads were almost repaired, there arose a necessity for making an additional provision of Rs. 1,000 on account of the heavy rain which fell in December last and considerably damaged many of the repaired roads. The total sum of Rs. 2,376-11-10 was spent under this head during the year and Rs. 105-2-9 were paid in April last as the contractor did not furnish bills in time owing to his illness and also to some disputes about certain defects noticed in his works. The special repairs for Rs. 1,000 were almost executed under amani by employing coolies.

34. (*b*) *Buildings.*—A sum of Rs. 333-2-9 was expended for the following buildings :—

	Rs.	A.	P.
(1) Annatha Street latrine wall	24	9	3
(2) Bamboo tatties purchased for replacing the old tatties used to the tatti latrines	112	8	0
(3) Vaccination shed	7	0	0
(4) Vegetable market	40	0	0
(5) Repair of tatti latrines by tar-Painting, &c.	27	15	8
(6) Chinnangudi street urinal	20	12	7
(7) Meat market	100	5	3
Total ..	333	2	9

35. *Drainage.*—Rs. 300 were provided for the improvement of the Penta drain in accordance with the suggestions of the Sanitary Commissioner, Madras, but when the estimate was submitted to the Sanitary Engineer to Government, it was returned for the preparation and submission of sketch, &c. These are now under preparation by the local fund overseer under the orders of the District Board Engineer on my requisition through the President of the District Board, North Arcot. Hence the allotment could not be utilized within the year.

36. *(d) Water-supply.*—The sum of Rs. 199 was spent towards putting up stone parapet around Narasimha Tirtham tank. Bommala Bavi was provided with pulleys on all sides at a cost of Rs. 16–2–4. Platform of the Gazu street well was thoroughly repaired at a cost of Rs. 15–9–1. Some slight repairs were also made to Ramachandra Gunta bund and meat market well at a cost of Rs. 9–13–7 and Rupees 8–8–0 respectively. With a view to make certain improvements towards the public scattered wells, a sum of Rs. 200 was provided in the revised estimate. But on giving strict notices to the so-called owners, some of them consented to make the necessary improvements and hence savings under this head.

37. The total outlay under Grant I amounted to Rs. 4,448–0–3 against Rupees 6,890 in the revised estimate.

38. *Grant II, Education—Training Schools.*—The amounts of Rs. 1–14–0 and As. 5–9 shown under this head appertain, respectively, to the salary of the sessional school teacher and contingencies payable to him in 1894–95 but paid during the year under report.

39. *Salary-result System Schools.*—Rs. 515–12–11 were spent under "(*a*) Fixed Payments" against Rs. 550 in the revised estimate. The difference was due to the opening of the girls' school in July last. Rs. 179–4–0 were paid towards "Result grants" against Rs. 160 in the revised estimate. The increase was due to the good grants earned by the municipal schools during the year. The sum of Rupees 199–5–6 represents the contingencies of the municipal schools, and the decrease against an estimate of Rs. 250 was due to the fact that the girls' school was opened in July last and also to the strict economy observed in utilizing the allotment.

40. *Salary Grants.*—Under this head a sum of Rs. 406–14–9 was spent against Rs. 450 in the revised estimate. Some of the teachers of the H.L.G.M. High school, Tirupati, which is the only secondary school receiving aid from the municipal funds, not having qualified themselves to receive grant, some savings were effected.

41. *Result Grants.*—Only five result schools, against seven in the previous year, were examined and they earned a sum of Rs. 257–14–0 against an estimate of Rs. 350. Of the two schools disappearing from the list during the year, one is said to have been closed and the manager of the other would seem not inclined to subject it under the control of the municipal council. Hence the savings.

42. No annual returns were submitted by the Sub-Assistant Inspector of Schools, Madras Girls' Range, and by the Sub-Assistant of the Muhammadan Schools, for the girls' schools and Muhammadan schools, respectively. The returns received from the Sub-Assistant Inspector of Schools, Wallajah Range, through the Assistant Inspector of Schools, only showed the figures for the Nathanapuram and Bandla schools. Hence I have based my figures on those given in certifying memoranda and pass lists furnished to the said schools. On verifying the pass lists of the Nathanapuram school and Bandla school with the figures given in Statement No. IV forwarded by the Sub-Assistant Inspector of Schools, I observe that two boys in the infant standard of the former, and two boys in the same standard of the latter, school were found omitted in the certifying memoranda of the respective schools. I have, however, communicated the aforesaid discrepancies to the said officer. The results turned out by the municipal schools and aided result schools were satisfactory, as has been endorsed by the Assistant Inspector of Schools, Arcot Division. Both the result schools and the municipal salary-result schools have been provided with passed teachers.

43. *Common Gymnasium.*—Under this head Rs. 80 were spent for the salary of the gymnastic instructor and Rs. 54–10–0 for the purchase of the necessary apparatus.

44. The total expenditure under Grant II amounted to Rs. 1,762–14–1 against Rs. 1,960 in the revised estimate.

45. *Grant III.*—Rs. 84 on account of contribution to medical college, Rs. 57 for sanitary inspection, and Rs. 11 for medical reserve staff, were paid during the year, against the revised estimates of Rs. 10, 30 and 10, respectively.

46. *Vaccination.*—The staff under this head consisted of one superintendent, one 2nd-class vaccinator and one peon. The superintendent, who is the local hospital assistant, is paid an allowance of Rs. 2–8–0 per mensem as sanctioned in G.O., No. 421 M., dated 15th April 1889. The minimum number of cases to be vaccinated has been fixed at 56 per month, and the vaccinator has to lose one anna for every case short of the maximum number or to gain one anna as remuneration for every case in excess thereof. The amount spent under establishment was Rs. 250–13–2 against the revised estimate of Rs. 260. The decrease was chiefly due to the amounts withheld on account of cases falling short of the maximum number.

47. The total number of cases vaccinated was 541 against 496 in last year, of which 480 were successful. Ninety-two cases were prosecuted before the magistrate under section 138 of the District Municipalities Act. The total population of this town is 14,242 and the number of cases vaccinated was 38·6 per mille against 35·4 in the previous year. Compulsory vaccination was introduced in this town on the 1st of March 1890. The animal lymph is regarded by the inhabitants of this town as a most successful one for vaccine purposes. A good deal of difficulty is often experienced in procuring calves for operation at the rate of five or six every month. Whenever a complaint of the want of calves is brought to me, I have, in the capacity of Deputy Tahsildar of the division, to prevail upon the villagers and arrange with them for their supply. This is indeed a very difficult task, inasmuch as the villagers refuse sometimes to supply calves on the pretext that they cannot supply both to the municipality and the local funds. The failure of lymph in this town is of an ordinary occurrence whenever the supply of calves fails. It is found on such occasions exceedingly difficult to get calves in the town, even though a high price is offered to the owner. In these circumstances, the average cost of every successful vaccination has been above As. 8. Every endeavour is being made to reduce the cost but without avail for the time being.

48. *Registration of Births and Deaths.*—The number of births registered during the year was 432 and deaths 440 against 445 and 403, respectively, in last year, and the cost of the establishment and contingencies was Rs. 96 and Rs. 15–1–8 against an estimate of Rs. 100 and 10, respectively.

49. *Conservancy and Road-cleaning.*—The strength of the road-cleaning establishment was raised from twenty-nine to thirty-four and scavenging establishment from five to eight and one of the maistri's pay was raised from Rs. 7 to 8 besides the increase of horse allowance from Rs. 5 to 7 to the sanitary inspector. The total cost of establishment was Rs. 2,897–0–11 against an estimate of Rs. 2,950. The slight decrease was due to the entertainment of additional sweepers and scavengers in the latter part of May 1895, some time after the receipt of the budget.

50. *Other Charges.*—The sum of Rs. 208–13–2 under this head comprises (1) the cost of repair of rubbish and night-soil carts, &c., Rs. 142–5–0; (2) value of big and small baskets for the removal of rubbish, Rs. 10–2–0; (3) rent of rubbish depôts, Rs. 42; (4) purchase of crowbars and mamoties required for conservancy purposes, Rs. 9–8–9; and (5) value of signboards to the latrines and urinals, Rs. 5. Eight night-soil hand-carts were supplied by Messrs. D. Raju & Co., Madras, but on account of some defects they were returned to them for rectification and they were not therefore paid for as yet. The two new rubbish-carts were not purchased during the year as they were not available locally, and consequently there was a large saving under this head. There were eleven tatti and one puckah latrines and three urinals in existence at the beginning of the year. One corrugated-iron latrine, two corrugated-iron urinals and a tatti latrine were added to the existing number. The number of rubbish-carts and latrine-carts continued to be the same as in last year.

51. *Private Scavenging.*—Rs. 549–11–5 represent the cost of establishment and Rs. 84–1–9 comprise Rs. 60 and Rs. 20, values of one night-soil cart and six iron receptacles purchased from Messrs. D. Raju & Co., Madras.

52. *Cholera Charges.*—The sum of Rs. 189–5–8 was spent in purchasing cholera medicines, cumblies for patients, and in paying the wages of cholera temporary coolies and dhooly-bearers employed in connection with the Tirumalai Brahmotsavam held in September last.

53. (*d*) *Contingencies.*—The total expenditure under this head amounted to Rs. 597–3–10 against an estimate of Rs. 720. The details for the aforesaid amount are given below :—

	Rs.	A.	P.
Travelling allowance to conservancy establishment while proceeding to Chandragiri to prosecute municipal cases	29	15	0
Greasing rubbish-carts	19	15	11
Signboards to latrines	4	2	0
Value of one cask of disinfecting powder	21	8	0
Cost of temporary coolies engaged during Ganga jatra	57	15	0
Cart-hire for the removal of rubbish during the Ganga jatra	17	9	7
Putting up temporary latrines during the Brahmotsavam	37	6	8
Cutting the top of kerosine tins so that they serve the place of buckets	0	13	0
Purchase of alum for precipitation	4	7	0
Badges to maistries, &c.	3	12	0
Wages of temporary tank watchmen and conservancy coolies	317	1	0
Repair of cholera-sheds	19	15	11
Disinfecting powder	16	7	0
Repair of Tattaya gunta supply-channel	3	4	5
" of Alipiri road	35	7	8
" of Bommala bavi	2	3	8
Cinerators	4	13	0
Cocoanut ropes	0	7	0
Total	597	3	10

No payment was made for the removal of prickly-pear during the year, as the work was incomplete. Hence savings under this head.

54. The total outlay under Grant III was Rs. 5,161–14–3 against the revised estimate, Rs. 5,560.

55. *Grant IV, Lighting.*—The sum of Rs. 259–3–4 was the pay of the lighting establishment against Rs. 300 in the revised estimate. The difference was due to the withholding of the salaries of the lighters who happened to be absent without permission when there were no lighting works. Rs. 844–9–6, against an estimate of Rs. 700, were spent on account of purchase of burners, chimneys, kerosine oil, &c., and for the repair of lanterns and lamp-posts.

56. *Avenues.*—Rs. 53–8–4 were spent on avenue establishment and Rs. 3 for the purchase of materials required for planting trees and maintaining them.

57. *Public Garden.*—The sum of Rs. 120 shown under this head was expended in payment of salaries to two gardeners. There was no necessity for the purchase of seeds, &c., as they were engaged in maintaining the existing trees in the municipal office compound and in watching the People's Park.

58. *Works done for Private Individuals.*—Rs. 117–6–0 were spent for the erection of a water-trough in G. Car street at the expense of M.R.Ry. Lodkrishnadas Balamukundadas for the use of cattle (*vide* paragraph 26 *supra*).

59. Stray dogs were not killed during the year, and consequently the sum of Rs. 12–2–0 shown under this head was spent as reward for the destruction of pigs.

60. *Printing.*—Only Rs. 210–11–10 were paid on account of printing minutes of proceedings, &c. As further bills for printing proceedings, &c., were not received within the year, there was an appreciable saving under this head.

61. *Other Items.*—The sum of Rs. 45–5–5 shown under this head, against an estimate of Rs. 70, was spent as follows :—

	Rs.	A.	P
For numbering carts	11	7	0
" land-cess	1	2	0
" signboards	22	4	5
" law charges	10	8	0

The last item relates to the process fees paid in the district court in respect of the acquisition of the land of Krishnaswami Rao Pantulu for the new vegetable market.

62. The total expenditure under Grant IV amounted to Rs. 1,674–0–5 against the revised estimate of Rs. 1,840.

63. *Office Establishment.*—Out of the total outlay of Rs. 1,480–14–4, against an estimate of Rs. 1,320, Rs. 756–4–2 were paid on account of the salary of the office establishment, Rs. 187–7–2 for the salary of the collection establishment, Rs. 429–3–0 for the purchase of stationery and printed forms, such as bill book, tax registers, miscellaneous receipt books and other similar forms, &c., from the V. N. Jubilee Press, and the cost of postage, &c., stamps, and Rs. 108 on account of contribution for the central office establishment. There was a slight difference under office establishment and (*d*) office contingencies. The attender of the office was appointed about the middle of May 1895, and some large quantities of account forms were sent for during the year. Hence the savings in the office establishment and increase under contingencies. The subjoined memorandum gives particulars of the advances made and recovered during the year :—

	Rs.	A.	P.
Balance on the 31st March 1895	338	5	2
Advances made during the year	1,826	9	0
Total	2,164	14	2
Advances adjusted in 1895–96	1,845	8	0
Balance on the 31st March 1896	319	6	2

Of this balance, Rs. 192–9–2 was advanced in 1887–88 to one Ramaswami Maistri, and a decree obtained against him, but it could not be executed as the whereabouts of the man could not be traced out; Rs. 23–4–0 were paid to the sanitary inspector for prosecuting cases, and this amount is said to be irrecoverable inasmuch as the cases have either been thrown off or compromised. Sufficient details not having been obtained, the aforesaid amount has to be kept dragging on year after year. I shall, however, try to adjust the amount as early as practicable. Rs. 12 were also paid to the servants of Messrs. Borham & Co. in connection with the removal of silt from Narasimha Tirtham tank in 1893, but this could not be adjusted as their claim for the said work was considered illegal and as the matter is still under correspondence. The sums of Rs. 20 and 10 represent the permanent advance given to the manager of the municipal office and the municipal vaccinator, respectively. A sum of Rs. 50 was advanced during the year under report to contractors Gopalachariyar and Punyakoti Nayudu for the repair of Penta drain, but as the work was not carried out under the circumstances stated in paragraph 35 *supra* the said amount awaits adjustment during the current year. Rs. 11–9–0 were paid on account of railway fare for the receipt of night-soil carts, &c., supplied by Messrs. D. Raju & Co., Madras. This amount will be adjusted against their bill for the value of the articles they supplied when their accounts are finally adjusted shortly.

64. All the other items of receipts and charges are more or less the same as in the revised estimate and some are fluctuating items, and hence call for no special remarks.

65. *General Remarks.*—The year under report discloses an appreciable improvement in general over the past year in all the branches of works, and the inspecting officers' suggestions have been complied with as far as practicable.

66. The following papers are herewith submitted :—

(1) Annual statements.

(2) Extract from the minutes of proceedings of the council adopting the report.

(3) Statements received from the educational authorities.

29*th June* 1896. (Signed) E. L. R. THORNTON,
Ag. Head Asst. Collector.

Forwarded.

2. The divisional officer has not reported on the condition of roads. He has now been called on to report on the subject.

30*th June* 1896. (Signed) G. E. L. CAMPBELL,
Acting Collector.

From M.R.Ry. G. KODANDARAMAYYA Garu, M.A., Head-quarters Deputy Collector in charge of the Head Assistant Collector's Office, North Arcot, to the Collector of North Arcot, dated Chittoor, 23rd July 1896, Dis. No. 4236 of 1896.

With reference to your letter, Current English No. 1070 of 1896, dated 30th June 1896, I have the honour to report that on my inspection of the roads in the Tirupati Municipality I found them to be in a fairly good condition.

Dis. Eng. No. 1265 of 1896.

Submitted to the Chief Secretary to Government, Local and Municipal Department, in continuation of my endorsement, dated the 1st instant, Current English No. 1052 of 1896.

PALMANER,
30*th July* 1896. (Signed) J. BURN,
for *Collector.*

ORDER—No. 1433 M., dated 26th August 1896.

The receipts and charges of the Tirupati Municipality for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95 :—

—	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.
Receipts.	Rs.	Rs.	Rs.	Rs.

Total ..	23,201	1,06,510	28,260	24,854

2. Twenty meetings were held by the municipal council against 29 in the previous year. The average attendance of the non-official members continued to be unsatisfactory, while that of the officials improved and was fair.

3. *Receipts.*—(1) For the reason assigned in paragraph 4 of the Chairman's report, there was a decrease of 38 in the number of persons assessed to the tax on arts and of Rs. 54 in the net current demand under this head, but the average incidence of this tax rose from Rs. 3–12–9 to Rs. 3–15–6. The demand of the taxes on buildings and lands remained almost stationary.

(2) The current collections under the principal taxes showed an improvement on those of the previous year and were on the whole good. The realization of arrears under the land tax also improved and was fair, but that under the arts and house-taxes declined and was poor. The arrears in some cases still date back to 1891–92, and it is not creditable to the municipal council that its books should continue to be disfigured by such entries. Steps should be taken at once either to realize these dues or to write them off as irrecoverable. It is to be remarked that, if there had been prompt collection in the past, persons owing taxes to the municipality would not have

had the opportunity of leaving the town before paying them and sums payable by persons who have since become impoverished would have been realized before they became poor.

(3) The number of warrants issued for the collection of the several taxes (3,084) was less than one-half of that in 1894–95, but 20 per cent. of the total number for disposal remained unexecuted at the close of the year. This is not at all satisfactory and the Chairman should see that there is no occasion for a repetition of this remark in future. It seems very probable as is not infrequently the case in municipalities that the issue of warrants was neglected until a very late period and that consequently there was no sufficient time for their execution before the end of the year.

(4) There was a marked fall in the gross receipts from tolls, but, owing to the reduction of the rate of contribution payable to the district board from one-half to one-third, there was an increase in the net receipts under this head. The receipts from avenues and sale of street-sweepings improved and, owing to the hearty co-operation of the Police in suppressing nuisances, the income from fines more than doubled itself.

(5) It is to be regretted that the number of houses served by the private scavenging agency and the fees realized on this account fell from 174 and Rs. 635 to 165 and Rs. 564, respectively, and that the service was worked at a loss of Rs. 70 to the council against a profit of Rs. 95 in 1894–95. From paragraph 25 of the Chairman's report, however, it appears that the municipal council is alive to the necessity of extending this system and is bestirring itself in the matter. It is hoped that the efforts which are being made in this direction will result in an improvement in the current year and that in this will be included the collection of the fees in advance, a point which the Government has repeatedly urged on municipal councils.

4. *Expenditure*—(1) *Public Works.*—Two iron latrines and two iron urinals were put up at a total cost of Rs. 630, and a sum of Rs. 466 was spent in the preliminary investigation of the water-supply scheme. The total outlay on communications amounted to Rs. 2,377, or more than 150 per cent. of the net municipal income from tolls; the town roads are reported by the Revenue Divisional Officer to have been in fair order.

(2) *Education.*—The net expenditure on education was Rs. 1,526, or 14·1 per cent. of the receipts from taxation. Of this, Rs. 215 were spent on secondary and the remainder on primary education. As in the previous year, the municipal council maintained three primary schools on the salary result system to which a girls' school was added during the year. The attendance at these three schools taken together declined slightly, but the results of the departmental examinations were fair. The council also aided one secondary school with salary, and five, against seven, primary schools with result grants. The attendance at these institutions fell from 429 to 378, but the results of the grant examinations were satisfactory. It is to be regretted that for the reasons assigned in paragraphs 40 and 41 of the Chairman's report nearly 17 per cent. of the allotment for grants was not utilized. The total number of boys under instruction in the municipal and aided schools fell from 51·4 to 47·7 per cent. of the male population of school-going age. This is the second year in succession that a decline has had to be recorded, which is not at all satisfactory. It is noted, however, that this decline was to a certain extent compensated by the increase from 49 to 106 in the number of girls under instruction. The attention of the Director of Public Instruction will be drawn to the delay in the submission of the educational statements referred to in paragraph 42 of the Chairman's report.

(3) *Medical Relief.*—The municipal council maintained no hospital of its own and medical relief continued to be supplied by the Mahant's hospital under the control of the District Board.

(4) *Vaccination and Vital Statistics.*—The total number of vaccine operations performed during the year rose from 496 to 541, but the quality of the work done showed a further retrogression, only 88·7 per cent. of the total number of cases being successful against 92·1 in 1894–95. Infantile vaccination made no progress, the

number of children under one year successfully vaccinated being 25·8 per mille of the population as in 1894–95, and the cost of each successful operation continued to be very high, being three times the average cost for all municipalities in that year. These unsatisfactory results are attributed to the difficulty in obtaining calves for vaccine purposes and to the high prices demanded for them. Such difficulties have been overcome in other towns and there appears to be no reason why they should be insurmountable in Tirupati, or why, if a sufficient number of calves cannot be obtained, arrangements to procure preserved lymph from elsewhere cannot be made. Every effort should be made in the current year to improve this branch of the administration.

There was a small advance in the registration of deaths, but that of births declined slightly. The returns in both cases, especially the latter, were far from complete, the ratio recorded being considerably below the normal. This is a most important subject and should be attended to with greater care in the current year.

(5) *Sanitation.*—Under this head a sum of Rs. 4,526, or 96·1 per cent. of the allotment and 32·6 per cent. of the current receipts, was spent. In his inspection notes recorded in G.O., No. 1813 M., dated 1st November 1895, the Deputy Sanitary Commissioner remarked that the sanitary condition of the town was backward; from paragraphs 49 and 50 of the Chairman's report, however, it appears that the many defects pointed now receiving some attention and the Government trusts that the many defects pointed out by Dr. Mallins will be remedied at an early date as far as funds permit.

5. *General Remarks.*—The year closed with a balance of Rs. 10,234, or 73·8 per cent. of the receipts. Of this sum, however, Rs. 6,000 represent the contribution paid by the Mahant for the proposed water-supply scheme, and the greater portion of the remainder will also be required for the same purpose. The excess expenditure of Rs. 50 under gymnasium contingencies—for which an allotment should have been sanctioned by the council under G.O., No. 691 M., dated 22nd June 1888—will now be admitted in the accounts. The long statement under paragraph 53 was unnecessary and should not appear in future reports; paragraph 25 might, with advantage, have been considerably abbreviated.

Except as regards collections, the administration of the municipality during the year under review showed no improvement on that of the previous year and, considering the want of efficiency noticed in that year, cannot be considered satisfactory.
