SIR,

I have the honor to sub-
mit for sanction of Government a
Resolution of the Council passed at their
Meeting held on the 9th Instant with regard
to the entertainment of a lady-apothecary
for the Municipal Hospital.

2. That there is absolute ne-
cessity for the employment of a
female apothecary in this important
City, the Council hopes, cannot be too
strongly urged. A feat soon will thus
be conferred on female out-patients.

3. The Council also respect-
fully submits for favorable Considera-
tion of Government their decision
as to the Construction of a Separate

Hospital for women the details of which will, on receipt of plan and estimate for the building & of forecast of the probable establishment required, be submitted for orders.

4. In connection with the above proposition, it may perhaps not be out of place to invite attention to the fact that according to the latest census the population of Trichinopoly consists of 46,529 females and it appears obligatory on the part of the Council to arrange for this most important help being within easy and convenient reach of women who, in very many instances, do not care to avail themselves of the medical aid in the present hospital on account of

prejudices peculiar to Hindu & Mohammedan females.

5. In soliciting sanction for the employment of the female apothecary at once the Council begs that permission may also be given for the submission of details for the construction of a hospital for women.
