No. M., July 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. B. SURYANARAYANA SASTRI Garu, B.A., B.L., Chairman, Municipal Council, Vizagapatam, to the Chief Secretary to Government (through the Collector of Vizagapatam), dated 25th June 1896, No. 588.

I have the honour to submit my annual report on the working of the Vizagapatam Municipality for 1895–96, together with the prescribed statements as per separate packet.

I.—CONSTITUTION OF THE COUNCIL.

2. The municipality continued to be administered under Madras Act IV of 1884. I have held the office of chairman during the year under report.

3. The sanctioned strength of the council is twenty, consisting of five nominated and fifteen elected members. Mr. A. W. U. Pope, nominated member, having resigned, Mr. J. S. Heaney, Assistant Collector, was appointed on 3rd March 1896, and thus filled up the vacancy. In addition to the vacancy in the elected seats at the close of the year 1894–95, another seat fell vacant during the year owing to the death of M.R.Ry. M. Jagannatha Rao Pantulu Garu on the 26th March 1896. The former vacancy was filled by M.R.Ry. K. V. Ramanaiya Pantulu Garu on the 23rd April 1895, and the latter was the only vacancy left unfilled on the 31st March 1896.

4. As no elections took place during the year, schedule X-A is *nil*.

5. There were nineteen members at the close of the year, of whom eight were officials and eleven non-officials.

6. During the year under report, the council met thirty-one times against thirty-four times in the previous year, which was on average 2·58 per mensem. Three meetings were dissolved for want of quorum. The average attendance at each meeting actually held was 11·51 (against 8·9 of last year), of which the average attendance of officials was 4 61 against 2·38 of last year.

II.—RECEIPTS.

7. The following abstract shows the receipts under the several heads in 1895–96 as compared with the figures of the preceding year and with the revised estimate:—

Items.	Actuals, 1894–95.	Actuals, 1895–96.	Increase.	Decrease.	Revised estimate, 1895–96.
	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	8,582	17,409	8,829	..	17,410
Tax on buildings and lands	19,358	14,575	..	4,783	17,180
,, on vehicles with springs, animals and carts ..	3,551	2,943	..	608	3,070
,, on arts	6,525	6,006	..	519	6,310
Tolls	10,917	12,038	1,121	..	10,570
Total ..	40,451	35,562	1,121	5,910	37,130

Items.	Actuals, 1894–95.	Actuals, 1895–96.	Increase.	Decrease.	Revised estimate, 1895–96.
	Rs.	Rs.	Rs.	Rs.	Rs.
Realization under special Act	155	210	55	..	140
Rent of lands, buildings and sale-proceeds of lands and produce of gardens	853	3,334	2,481	..	3,190
Conservancy receipts	18	28	10	..	30
Fees and revenue from educational institutions ..	43	47	4	..	40
,, from markets and slaughter-houses.	1,206	1,540	334	..	1,530
License fees	207	205	..	2	300
Other fees	584	563	..	21	650
Fines under Municipal and other Acts	545	621	86	..	560
Grants from Government	901	174	..	727	410
,, from Local funds	1,786	700	..	1,086	600
,, from other sources	12,343	128	..	12,515	240
Recoveries from services rendered to private individuals	1,859	2,222	363	..	2,410
Miscellaneous	349	376	24	..	400
Advances recoverable	9	104	95	..	110
Total ..	61,509	45,814	4,576	20,261	47,710
Total, including opening balance ..	70,091	63,223	13,403	20,261	65,210

The total current receipts amounted to Rs. 45,814 against Rs. 61,509, the actuals of the preceding year, and Rs. 47,710 anticipated in the revised estimate. The decrease as compared with the previous year is the net result of an increase in four items and decrease in six items. The increase is largest under (i) Tolls and sale-proceeds of lands. The largest decrease is in the items (1) Tax on buildings and lands, (2) Grants from Local funds, and (3) Grants from other sources.

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—This tax continued to be levied at Rs. 7·5 per cent. on the rent value of buildings and lands. During the year under report, the tax has been revised with an increase of Rs. 219–8–0; in addition to this, the villages of Akshayyammapeta and New Dondaparti were also brought under taxation. The date of the register is 3rd July 1895.

9. According to the census of 1891, there were in all 9,069 houses. The number of houses assessed on 31st March 1895 was 4,340 as per last year's report. Adding to this 277 new houses brought under taxation during the year under review, the total number was 4,617. Of this, forty-four were exempted on account of poverty of owners, demolition, &c., leaving 4,573 on the 31st March 1896.

10. *House-tax.*—Including the increase effected by revision and new assessments as explained in paragraph 8 *supra*, the current net demand amounted to Rupees 16,301–4–0 against Rs. 16,668–1–6 in the preceding year. The decrease in the demand was owing to the inclusion of arrear taxes of the Railway department in 1894–95. The current collections within the year were Rs. 13,137–6–2 and Rupees 148–1–4 were remitted against Rs. 15,815–13–6 and Rs. 43–8–6 in the previous year. Rs. 2,523–5–7 have since been collected. The decrease in collections was chiefly attributable to the non-payment of taxes by the Railway department on railway buildings, amounting to Rs. 2 069–9–11, within the year in spite of repeated reminders. This amount has since been collected.

11. The arrear demand amounted to Rs. 1,112–3–7; Rs. 733–4–9 was collected during the year, Rs. 7–8–0 remitted and Rs. 200–13–10 written off and the balance Rs. 170–9–0 will be adjusted shortly. The current and arrears collections brought to credit were Rs. 13,870–10–11 against Rs. 18,593–2–3 in the preceding year. The decrease is mainly due to want of arrears and to the decrease in the demand for the current year. Of the current year 80·59 and of arrears 65·90 per cent. were realised within the year against 94·88 and 80·12 in the previous year. The percentage would not have fallen off had the Railway department paid their taxes within the year.

12. The current demand on lands was Rs. 668–12–0 against Rs. 648–3–0, the increase being the result of assessing the lands of the Railway department and other lands with reference to their present rents. The collections within the year were Rs. 579–12–6 against Rs. 530–11–6 in the previous year. The Railway department

did not pay Rs. 60 within the year but after the 31st March 1896. The arrear demand was Rs. 144–11–0, of which Rs. 124–4–6 was collected and Rs. 20–6–6 written off. The extent of lands assessed cannot be given, as they have not been surveyed. The land tax is assessed ordinarily on the rent value fixed with reference to rents paid for similar lands in the neighbourhood.

13. *Tax on Arts, &c.*—This tax was, as usual, levied on all classes but the first in schedule B. Particulars are as follow:—

Class.	Number of persons.	Amount. Rs.	A.	P.
2nd Class	16	775	0	0
3rd ,, ...	51	1,225	0	0
4th ,, ...	101	1,182	0	0
5th ,, ...	174	1,011	0	0
6th ,, ...	315	925	8	0
7th ,, ...	79	153	0	0
8th ,, ...	650	633	8	0
Total ..	1,386	5,905	0	0

In the 2nd, 3rd, 4th, 5th, 6th, 7th and 8th classes, one, four, five, two, thirteen, five, and thirty-three persons, respectively, were assessed to the tax for one half year only.

14. The current demand was Rs. 5,905 against Rs. 5,929–8–0 in the preceding year. Of the current year's demand, Rs. 5,629 or 95·32 per cent. was collected within the year against 93·92 during last year, leaving Rs. 276 for subsequent adjustment. The arrears demand was Rs. 460–9–0, of which Rs. 376–11–3 was collected, Rs. 12 remitted and Rs. 38–8–0 written off, leaving a balance of Rs. 33–5–9 which will be adjusted shortly.

15. The average incidence of this tax was Rs. 4–4–2 against Rs. 4–5–3 in the previous year per head of persons assessed to the tax.

16. *Tax on Vehicles, Animals and Carts.*—The full schedule rates were levied on vehicles and animals but not on carts. The demand under this tax was Rs. 3,171–12–0 against Rs. 3,204–4–0 in the preceding year. There was a decrease of Rs. 78–0–0 in the demand for vehicles, which is due to some vehicles belonging to Sree Rajah G. N. Gajapathi Row Garu, C.I.E., and Ranee Akshayyammagaru not having been in use during the year. The current collections amounted to Rs. 2,896–12–0 against Rs. 3,164 in the previous year. Of the balance Rs. 275, Rs. 264 have since been collected and the rest will be adjusted shortly.

17. *Coercive Process.*—Appendix A to statements IV-A and IV-B shows the extent to which coercive measures were resorted to during the current year for the collection of taxes. The number of warrants of all kinds issued was 1,048 against 2,134 in the preceding year. Adding to this the unexecuted warrants of 1894–95, the total number was 1,396, of which 1,204 were executed or cancelled within the year, leaving 192 to be executed. The number of prosecutions instituted during the year for arrears and current taxes was 19 against 123 in the previous year. All these but one were disposed of within the year.

18. *Tolls.*—There are five toll-gates, viz.—

(1) Bowdara.
(2) Katakamvari.
(3) Waltair.
(4) Turner Pontoon bridge.
(5) Dolphin's ferry.

These were levied at full schedule rates. The right of collecting tolls was, as usual, leased out to farmers at a public auction and realised Rs. 13,212 *plus* Rupees 26–9–11, or Rs. 13,238–9–11 against Rs. 10,916–11–1 in the previous year, showing an increase of Rs. 2,321–14–10. This increase is attributable to brisk competition at the time of auction. The whole of this amount was collected and the district board's share, Rs. 1,200, the toll receipts on Turner Pontoon bridge, was paid during the year.

19. *Incidence of Taxation.*—Statements IX and IX-A exhibit the incidence of taxation in the year under review. The total average incidence was Rs. 1-0-6 with tolls and As. 10-10 excluding them against Rs. 1-2-9 and As. 13-8½, respectively, in the preceding year.

B.—Miscellaneous Receipts.

20. The receipts under this head amounted to Rs. 10,252 against Rs. 21,158 in the preceding year. The decrease is chiefly due to want of contribution from private individuals in the current year as in the previous year.

21. *Rent of Lands, &c.*—The income from these sources amounted to Rs. 3,334 against Rs. 853 in the previous year and Rs. 3,180 in the revised estimate. The increase, as compared with the previous year's figure, was chiefly owing to the compensation received from the Railway department on account of some roads and cart-stand situated near the railway station acquired by the railway.

22. *Conservancy Receipts*—amounted to Rs. 28 against Rs. 18 in the previous year and Rs. 30 in the revised estimate.

23. *Fees from Educational Institutions*—show an increase of Rs. 4 over the collections in the previous year.

24. *Fees and Revenue from Markets and Slaughter-houses*—amounted to Rs. 1,540 against Rs. 1,206 in the preceding year and Rs. 1,530 in the revised estimate. The increase was due to the increase in the rate of fees in bull slaughter-house.

25. *License Fees.*—Under this head Rs. 205 was realised during the year under review.

26. *Other Fees*—amounted to Rs. 563 against Rs. 584 in the previous year. The following are the details :—

	Rs.	A.	P.
(*a*) Distraint fees	11	12	0
(*b*) Cart-stand fees	548	6	5
(*c*) Other fees	3	0	0
Total ..	563	2	5

27. *Fines under Municipal and other Acts.*—Receipts under this head amounted to Rs. 621 against Rs. 545-2-0 in the preceding year. The increase was due to the increased activity on the part of the police and the municipal executive in checking nuisance.

28. *Grants and Contributions from Government.*—(*a*) Rs. 103-5-8 was drawn from Provincial funds on account of contribution due towards the stipends of normal students paid from Municipal funds during the year under report.

(*b*) Rs. 71 was contributed by the Military Pay Examiner on account of profession tax due from the military officers doing duty in this municipality.

From Local Funds.—Rs. 600 was the usual contribution paid by the district board towards maintenance of its roads lying within the municipal limits. Besides this, Rs. 100 was also contributed by the Taluk Board, Vizagapatam, for the upkeep of a watershed.

Other Grants.—Subscriptions from local gentlemen on account of the poor house are entered under this head. They amounted to Rs. 109-8-0. The decrease was due to some of the gentlemen having withdrawn their monthly subscriptions. Rupees 18-6-0 was contributed by Ranee Akshayyammagaru for the improvement of Akshayyammapeta.

29. *Recoveries for services rendered to Private individuals.*—There were 1,079 private latrines under municipal agency at the beginning of the year under report. During the year 65 were added to the number and 59 were withdrawn owing to the absence of parties from the station. In consequence, the number remaining on the 31st March 1896 was 1,085. The demand for the current year was Rs. 2,117-4-9 against Rs. 1,820-6-1 in the preceding year. The current collections amounted to Rs. 2,067-2-7, leaving a balance of Rs. 50-2-2 which will be adjusted shortly. The

arrears demand was Rs. 343-2-3, of which Rs. 151-14-6 was collected and Rupees 187-3-9 written off leaving Rs. 4 for subsequent adjustment. During the year under report, the rates of private scavenging fees was increased by 25 per cent.

30. Four hundred and fifty notices were issued during the year to various persons under the provisions of the Act, and 44 prosecutions were instituted for failure to comply with them.

31. *Other Items.*—Fishery rents amounted to Rs. 348-4-4 against Rs. 312 in the preceding year. The increase was due to the brisk competition at the time of auction. The other items which fall under this head are fees for numbering carts, sundries, which fetched Rs. 17-8-0 and Rs. 10-12-0, respectively, in the year under review.

32. *Loans.*—No loans were contracted during the year under report.

33. *The opening balance.*—The closing balance of 1894-95 was according to the audited figure Rs. 17,409, which has been adopted as the opening balance of the year under report.

III.—Expenditure.

34. The following abstract shows the expenditure under the several heads as compared with the figures of the previous year and the revised estimate for that under review :—

Expenditure.

Items.	Actuals of 1894-95.		Actuals of 1895-96.		Revised estimate.
	Rs.	Rs.	Rs.	Rs.	Rs.
Grant I—					
(*a*) Communications	15,730		12,870		12,830
(*b*) Buildings	1,801		1,654		3,330
(*c*) Drainage	2,016		2,414		2,670
(*d*) Water-supply	705		831		460
(*e*) Miscellaneous	365		6		100
Establishment	1,151		984		1,000
Miscellaneous tools and plants	1,036		8		550
		22,804		18,767	
Grant II—					
Education	4,666		5,065		5,710
		4,666		5,065	
Grant III—					
(*a*) Hospitals and dispensaries	2,817		2,846		2,850
Vaccination	331		289		320
Registration	599		656		710
Conservancy	12,271		12,870		14,200
		16,018		16,661	
Grant IV—					
Lighting	1,425		2,481		2,380
Market and slaughter-house	132		142		140
Choultries and travellers' bungalows	2,229		1,777		1,890
Avenues	157		190		210
Public gardens and other charges	1,044		1,085		2,180
		4,987		5,675	
Grant V—					
Supervision and management	3,969		4,420		4,180
Repayment of loans	..		..		..
Interest on debt	..		..		..
Advances recoverable	100		..		10
Refunds	138		..		
		4,207		4,420	
Total, Expenditure ..		52,682		50,588	55,720
Closing balance ..		17,409		12,635	9,400
Total, including balance ..		70,091		63,223	65,120

35. The total expenditure was less than the preceding year's figure by Rs. 2,094, the decrease occurring chiefly under New works—Communications.

36. The following shows the percentage of expenditure under each grant to the total charges of the municipality :—

	1894-95.	1895-96.
Grant I, Public Works	43·29	37·10
„ II, Education	8·86	10·01
„ III, Medical and Sanitation	30·40	32·93
„ IV, Lighting and Municipal purposes	9·47	11·22
„ V, Supervision	7·53	8·74
Advances and Refunds	0·45	..
Total ..	100·	100·

37. *Grant I, Public Works.*—The total outlay under this grant amounted to Rs. 18,767 or 37·10 of the total expenditure of the year against Rs. 22,804 or 43·29 per cent. in the preceding year and Rs. 20,940 in the revised estimate. The details are given in the statement II-A. The decrease, when compared with the revised estimate, chiefly occurs under new communications.

38. *Communications.*—The expenditure on new works was Rs. 5,859–1–11 and on repairs Rs. 7,010–5–4 against Rs. 9,969–7–5 and Rs. 5,760–4–1, respectively, in the previous year and Rs. 12,830 provided in the revised estimate. The decrease, as compared with the revised estimate, is very small and calls for no remark. Rs. 5,859–1–11 were spent on new roads (as shown in statement II-A). The road-works in new Dondaparti itself cost Rs. 2,171–14–0, while the road from the band stand to judge's bungalow cost Rs. 2,884–3–6. The total expenditure on these two items up to 1895–96 is as follows:—

	1894–95.	1895–96.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
(*a*) Roads in New Dondaparti	808 12 8	2,171 14 0	2,980 10 8
(*b*) Road from band stand to judge's bungalow	9,099 1 10	2,884 3 6	11,983 5 4

Out of the amount contributed by the Maharaja of Vizianagram, G.C.I.E., there was only a balance of Rs. 16–10–8 unspent at the close of the year. This road was constructed under the supervision of the Local Fund Engineer and has not been made over to the council up to date. As regards road works in New Dondaparti, there was a balance of Rs. 169–5–4 out of the compensation received from the railway department and it is required for planting avenues on all the road sides and for the construction of a culvert.

39. The total mileage of roads under the municipal control at the end of 31st March 1896 was as follows:—

Mileage at the end of March.	1895.			1896.		
	Mls.	Fls.	Yds.	Mls.	Fls.	Yds.
(*a*) Metalled and gravelled roads	33	2	167	34	0	167
(*b*) Gravelled roads	3	7	169	5	0	169
(*c*) Pathways	2	7	42	2	6	42

Of these 28 miles of roads were actually repaired during the year.

40. *Tolls and Road Charges.*—The total expenditure incurred during the year on new communications and roads came up to Rs. 832 more than the toll revenue as given below:—

	Rs.
The net toll receipts	12,038
Expenditure on roads	12,870

41. The roads were kept in good order. The Sanitary Commissioner visited this town in August 1895 and has expressed no opinion as to the condition of the roads.

42. *Buildings.*—The charges under this head amounted to Rs. 1,826–4–4 against Rs. 1,801 in the previous year and Rs. 3,330 in the revised estimate. The decrease, as compared with the revised estimate, was due to the non-construction of an iron

latrine proposed to be constructed within the year as expected. The materials did not arrive here from Calcutta till after the year closed. The work is, however, now in progress. The provision of Rs. 500 for constructing a school building was not utilized for want of a proper site. It is under contemplation to acquire a building and play ground estimated to cost about Rs. 1,500.

43. *Drainage.*—Rs. 2,414 under the head was spent for constructing new drains, repairing old ones and for drain-flushing establishment. The following are the details:—

	Rs. A. P.
(*a*) New drains	683 3 0
(*b*) Repairs to drains including baling out sewage water ..	260 7 10
(*c*) Drain-flushing establishment	1,470 11 3
Total ..	2,414 6 1

The details of all these items are given in statements II-A and II-B. During the year under report the drain near the Seven Wells was extended and improved with reference to the suggestions of the Sanitary Commissioner in paragraph 11-B of his notes printed in G.O., No. 479 M., dated 20th March 1896. A small new drain was constructed in Sivalayam Street at a cost of Rs 30. The preliminary steps for constructing drainage works at Dondaparti were carried out at a cost of Rs. 263–3–0 at the suggestion of the Sanitary Commissioner. A sewage filter was constructed in the swamp at a cost of Rs. 22–11–4. The filter was approved by the Sanitary Commissioner and is in working order.

44. *Water-supply.*—Rs. 659 was spent during the year against Rs. 705 in 1894–95 and Rs. 460, the revised estimate. The increase was chiefly due to the payment for a well constructed in New Dondaparti in 1894–95 having been made in 1895–96, and to the reconstruction of a well in Allipore. Some of the wells were lined with Portland cement at the suggestion of the Sanitary Commissioner and platforms to the wells in Dondaparti are almost finished. The plans and estimates of the Hanumantha Vaka water project are with the Sanitary Engineer.

45. *Miscellaneous.*—About Rs. 6 was spent under the head for the reclamation of a certain piece of land in Allipore for extension of its main road and for measuring the land occupied by fisherman's huts.

46. *Establishment.*—The cost of the establishment and contingencies amounted to Rs. 984 against Rs. 1,151 in the preceding year and Rs. 1,000 in the revised estimate. The decrease, as compared with the revised estimate, is small and calls for no remark while the decrease, as compared with the actuals of the previous year, was due to the decrease of pay of the overseer newly appointed. No new tools were purchased during the year under report excepting a measuring tape at a cost of Rs. 7–11–0.

47. *Grant II, Education.*—The expenditure under this grant amounted to Rupees 5,065 against Rs. 4,666 in the preceding year. The increase over the actuals was due chiefly to the entertainment of a drawingmaster and to the payment of building and salary grants, and the decrease, as compared with the revised estimate, was due to the non-utilization of result and building grants.

48. *Training Schools.*—Four masters were under training in the Vizagapatam Training school. Rs. 207–4–1 was spent towards the stipends of these students against Rs. 188–0–9 in the preceding year and Rs. 220 in the revised estimate. The increase over the actuals of 1894–95 was due to the payment of arrears stipends, and the decrease, as compared with the revised estimate, was due to the late admission of some of the students into the institution.

49. *Salary-result Schools.*—There were five schools at the beginning of the year. The Night school at Chengalraopeta was abolished during the year for want of sufficient attendance of boys. The total expenditure under this head was Rupees 1,482–1–10 against Rs. 1,572–4–9 of last year and Rs. 1,490 in the revised estimate. The decrease, as compared with the actuals of last year, was, owing to the abolition of

the night school as already stated and to the fact of dispensing with the services of the assistant master in the fort night school. The decrease, as compared with the revised estimate, is small and calls for no remark.

50. *Salary Grants.*—Rs. 1,031-2-9 was spent on this account against Rs. 811-11-6 in the preceding year and Rs. 900 in the revised estimate. The increase over the actuals of 1894-95 and the revised estimate was due to the payment of arrears of salary grant to some of the teachers of the London Mission High school and Hindu College. The strength of the Middle School Department of the Hindu College and London Mission High school was 131 and 173, respectively, against 123 and 167 in the previous year.

51. The number of result schools aided by the council was seventeen against eighteen in the last year. Two were newly started and three were closed during the year. Rs. 1,393-8-0 on account of current and Rs. 48-6-0 on account of arrears were paid to the managers of result schools on account of grants earned by them against Rs. 1,478-15-0 in the previous year. The decrease is small and chiefly due to the strict mode of examining on the part of inspecting officers. Result grants were paid at maximum rates.

52. *Inspection.*—The charges under this head were Rs. 211-11-8 against Rs. 252 in the preceding year and Rs. 220 in the revised estimate. The decrease, as compared with the actuals of 1894-95, was due to the fact that the post of Superintendent of Municipal Schools was vacant for a couple of months. The decrease, as compared with the revised estimate, is small and calls for no remark.

53. *Miscellaneous.*—Rs. 690-13-1 was spent under this head against Rs. 363-7-0 and Rs. 880 in the revised estimate. The increase over the previous year was due to the appointment of a drawingmaster on Rs. 20 a month and to the payment of building grants to the London Mission High school and also furniture grant to some of the results schools. Particulars of other items are as follow:—

	Rs.	A.	P.
(*a*) (i) Payment of gymnastic instructor	144	0	0
(ii) Contingencies	19	0	0
(*b*) Pay of drawingmaster	151	9	10
Contingencies	68	1	0
Total ..	382	10	10

54. *Statement I.*—The total number of schools in the municipality was 36 and the number of pupils under instruction was 2,283 boys and 159 girls against 2,114 boys and 140 girls in 35 schools in the preceding year. The increase in the number of schools is attributable to the opening of a drawing class. The increase in the number of pupils is satisfactory.

55. *Statement II* gives the classwar distribution of pupils. There was an increase in the number of boys in all classes and in girls in class Nos. II and III and a decrease of girls in the Hindus, while the number of girls in the European class was stationary.

56. *Statement III.*—The number of teachers employed in schools was 104, of whom 24 possessed trained teachers' certificates, 16 untrained teachers' certificates, 47 general education certificates, and 17 were unpassed teachers against 100, 13, 13, 51 and 23, respectively, in the preceding year. Of the 47 untrained teachers, 23 were trained, but have not obtained certificates yet, 6 out of 17 unpassed belong to technical schools. One of them possessed a Civil Engineering College certificate.

57. *Statement IV, Result Schools.*—The number of pupils presented for examination was 727 against 788, of whom 453 against 517 passed. The pupils presented for examination and those passed showed a marked decrease, while the results in Geography and English showed a little improvement. The Assistant Inspector remarks that the results have, on the whole, deteriorated and the Superintendent's work is not satisfactory, because there was no special Superintendent for about three months and the schools examined in June last were not well prepared for grant examination.

58. *Statement IV, Salary-result Schools.*—The number of pupils presented was 146 against 182, of whom 92 passed against 108 in the preceding year. The results in the compulsory subjects of the IV and III standards were not at all satisfactory and reflect discredit on the headmasters of the institutions, who were warned with reduction of grants in future. It is observed that Geography and Hygiene are not properly taught.

59. *Grant III, Medical Services, Sanitation, &c.—Hospitals and Dispensaries.*—Rs. 2,400 was paid as contribution to the civil dispensary during the year under review as in last year. Rs. 244, 166, 32 and 4 were also paid in the year on account of contributions to the Medical College, Sanitary Inspection, Medical Reserve Staff and Cutler's establishment, respectively. The total charges under this head were Rs. 2,846 against Rs. 2,817 in 1894-95. The dispensary of Vizagapatam is under the management of a committee of seven members among whom are the Collector, the District Surgeon and the Chairman of the municipality.

60. The total number of sick treated at the civil dispensary was 21,523, of whom 453 were *intern* and 21,070 *extern* patients against 464 and 21,056 in the preceding year.

61. *Vaccination.*—This has been compulsory in the town since 1st August 1890. The total number of operations performed by the first-class vaccinator was 1,514, including re-vaccination against 1,575 in 1894-95. Of these, 1,253 or 82·76 per cent. were successful. Out of these, 864 were under one year of age. The total number of children vaccinated being 968 as compared with the last year's figure 1,071, there was a fall in the number vaccinated under one year of age. This is accounted for as hereunder. The total number of children that were to be vaccinated six months after birth during the year 1895-96 was 1,206. Of these, 208 died, 321 left the station, 52 were sick and 625 vaccinated. It will be seen, therefore, that of the 968 children under one year of age vaccinated during the year, there were 968 — 625 or 343 outsiders, as all the available children (625) under one year born in Vizagapatam were vaccinated during the year. All these cases were operated with calf lymph. The number of prosecutions under clause II, section 138 of Act IV of 1884 was 27 and none were convicted. The expenditure under vaccination was Rs. 289-3-9 against Rs. 330-15-11 in the previous year and Rs. 320 in the revised estimate. The decrease was due to the non-payment for calf lymph for some months within the year.

62. *Vital Statistics.*—The following statement shows the total number of births and deaths during the year with the ratio per mille as compared with the figures of the preceding year:—

Years.	Births.	Rate per mille.	Deaths.	Rate per mille.
1894-95	1,189	34·47	1,061	30·76
1895-96	1,223	35·46	953	27·72

The cases of death were classified as below:—

Small-pox or measles	1
Fever	244
Bowel complaints	347
Suicide	1
Wounds and accidents	7
Snake-bite	2
All other causes	354
Total ..	956

The total number of births registered was 1,223 against 1,189 in the preceding year showing an increase of thirty-four. No prosecutions were instituted against the defaulters who were warned.

63. The total charges on account of registration of vital statistics were Rupees 655–10–5 against Rs. 598–13–3 in the preceding year, and Rs. 710 in the revised estimate. The increase was chiefly due to the printing of forms required for the department.

64. *General Health.*—There was no scarcity of water felt throughout the year. The market supply and the prices of food-grains were same as in the preceding year. The public health was satisfactory. There was no cholera nor small-pox and the cases of bowel-complaints were less than in the previous year.

65. The death-rate is less than the birth-rate by 6·74 per mille of population during the year under report. The total mortality fell from 1,061 to 956 as compared with the last year. The death-rate was 27·72 per mille of population against 30·76 in the previous year. The District Surgeon's report is herewith submitted.

66. *Conservancy.*—The charges under this head amounted to Rs. 12,869–15–3 against Rs. 12,270–12–11, showing an increase of Rs. 599–2–4 over the actuals of the preceding year. These charges amounted to 28·09 per cent. of the total receipts against 24·95 in the preceding year. The increase was due to the purchase of corrugated iron dust-bins and night-soil carts, &c.

67. The number of public latrines was 78 against 75 in the preceding year. Of these four were built according to the standard plan for rural tracts, forty-three square blocks enclosed by pucca walls and twenty-eight temporary, which were being replaced, as they are damaged. The latrines are freely resorted to and are cleaned twice a day by toties under the supervision of two inspectors and five maistries. The average population per latrine was 442.

68. Four night-soil depôts are in use, whereto the night-soil is carried by toties in twelve air-tight hand-carts and deposited there in trenches dug for the purpose which are cropped after six months.

69. The cart-stand near the town railway station was acquired by the East Coast Railway, and the cart-stand in the market, Kottapeta, was abolished during the year under report.

70. The number of toties that attended to the public latrines was fifty-seven and it was found sufficient.

71. The rubbish in the town is removed to the cinerators constructed at the four night-soil depôts and burnt there. Debris of houses, &c., is deposited in the swamp. In his inspection notes, the Sanitary Commissioner suggested the abolition of the rubbish depôt at Chachadipeta. Endeavours are being made to secure a proper site for another depôt. Thirty more corrugated iron dust-bins were purchased during the year in addition to the existing bins, viz., 32 galvanized iron, 54 sheet iron, 180 masonry. Besides these, 123 wicker baskets were also provided for temporary deposit of rubbish. The number of conservancy carts employed was fourteen.

72. *Private Scavenging.*—The expenditure under this head was Rs. 2,058–12–5 against Rs. 1,933–5–6 in the previous year and Rs. 2,400 in the revised estimate. From this it will be seen that this department is self-supporting. The number of latrines conserved by the municipal agency was 1,085 against 1,079 in the preceding year.

73. *Grant IV, Lighting and Miscellaneous Municipal Purposes.*—The number of lights during the year under report was 265 against 225 in the preceding year. The charges under this head amounted to Rs. 2,481–6–7 against Rs. 1,425–3–0 in 1894–95. The increase was due to the purchase of forty lanterns, posts, brackets and the increased cost of oil and other expenses.

74. The other charges amounted to Rs. 3,193–11–2 against Rs. 3,561–10–6 in the preceding year. The decrease was chiefly owing to the reduction of in-mates of the poor-house.

75. The charges on account of the poor-house establishment amounted to Rs. 390 and the contingent charges including the cost of feeding and clothing paupers amounted to Rs. 1,386–9–11 against Rs. 456 and Rs. 1,772–10–0, respectively, in the preceding year. The decrease was due to the reduction in the number of paupers fed.

The aggregate number of paupers dieted in the institution during the year under report was 18,240 against 22,973 in 1894–95, the average daily number being 49·97 and 63·97, respectively. The average cost of clothing and dieting per head per diem was As. 1–6 same as last year.

76. *Grant V, Supervision and Management* amounted to Rs. 4,420–2–8 against Rs. 3,968–12–2 in the preceding year, and Rs. 4,180 in the revised estimate. The following were the particulars:—

	Rs.	A.	P.
(*a*) Office establishment	1,691	4	0
(*b*) Collection of taxes and contingencies	2,448	14	8
(*c*) Contribution to Central office establishment	280	0	0
Total ..	4,420	2	8

The increase in (*a*) was chiefly due to the payment of horse allowance to the Chairman under G.O., Mis. No. 776 M., dated 28th October 1895. The increase in (*b*) was due to the payment of the cost of account forms supplied by the Victoria Jubilee Press during the year.

77. The other items call for no remark.

78. The total cost of supervision and management was 9·64 per cent. of the receipts against 6·45 per cent. in the preceding year.

79. *Closing Balance* amounted to Rs. 12,635–3–5 against Rs. 17,409 in the previous year and is 27·58 per cent. against 28·3 per cent. of the receipts of the preceding year.

80. The audit of accounts for 1895–96 has not been conducted yet.

NOTE TO STATEMENT I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes.
2. Tax on buildpgs is levied at 7½ per cent. and tax on lands at ~~7½~~ not annas 4 per cent. of rent value. for every 80 square yards.
3. Water-tax on buildings and lands is levied at — per cent.
4. Tax on vehicles and animals is levied at — the maximum rates.
5. Tax on carts, &c., is levied at Rs. 2 per cart per annum.
6. Tolls are levied at — the maximum rates.
7. License-fees are levied at the rates sanctioned in G. O. ~~of~~ Rt. 692 no 1011 In. Same
8. The house-tax registers were last revised in the official year 1895-96 and the land tax registers in the official year.
9. Total extent of land assessed is — acres.
10. The mode of estimating the annual rental of houses and lands is as follows:— In cases of houses the actual rent they are fetching or had last fetched is taken as the rent value. In other cases the gross annual rental at which a building might reasonably be assessed is fetched with reference to rent paid for similar houses in the neighbourhood is taken.

Land tax is assessed ordinarily on the rent for the which the land has been leased out the land and in other cases rent value is fixed with reference to the rent paid for similar lands in the neighbourhood.

D. Sanjeevarayudu
Chairman M.C.

Subject.

Extract from the Proceedings of the municipal Council, Vizagapatam approving the Administration Report for 1895-96.

[C. P.—9-7-95.—500.]

OFFICE OF THE DISTRICT MEDICAL AND SANITARY OFFICE,
VIZAGAPATAM. 18 May 1896

No. 1205/20

From

THE DISTRICT MEDICAL AND SANITARY OFFICER,
VIZAGAPATAM.

To

THE Chairman,
Municipal Council,
Vizagapatam.

Sir,

I have the honor to forward the Annual Report on the Civil Hospital for the year 1895-96.

I Public Health. The public Health was satisfactory. No cases of cholera or Small-pox occurred and only one death was reported from Measles.

Bowel diseases were less prevalent than in the previous year.

II Vital Statistics.- The following table gives the births and deaths reported in the Municipality in the Compound, when not required for other purposes

Years.	Births	Ratio per mille.	Deaths	Ratio per mille.
1893-94.	1341	38.88	994	28.82.
1894-95.	1189	34.47	1061	30.76.
1895-96	1223.	35.46	956	27.72.

III Sanitation:- The Sanitary commissioner inspected and reported on the state of the Town in August. It would appear from the replies of the Council on his inspection notes that attention is being given to his recommendations

IV. Vaccination:- Vaccination is supposed to be compulsory but there were no punishments for neglect. There were 1514 Vaccinations. Of these 1232 were primary and 282 re-vaccinations; 968 were under one year of age. Of

of 90.10. Of the re-vaccinations 143 were successful, a percentage of 50.70. The revaccinations were mostly all among the Police recruits and Government Servants.

All Vaccinations were with calf lymph preserved in Glycerine.

The Assistant Surgeon superintends the Calf Depot and inspects the work in the town. He inspected in all 723 successful cases.

V Hospitals and Dispensaries.

(a) accommodation is sufficient.

There are 42 beds, 34 in the general wards and 8 in the contagious sheds.

(b) The buildings are in a good state of repair. Rs. 75-5-6 are spent for white washing and minor repairs during the year.

(c) The furniture is good and sufficient.

when not required for other purpos

showing a small increase of 15 out. Patients and a decrease of 11 In. patients compared with the previous year.

(c) Mortality. There 12 deaths among In-patients from the following causes:

Malarial fevers	1
Phthisis	3
Beri-Beri	1
Heart Disease	1
Pneumonia	1
Diarrhoea	3
Albuminuria	1
Gunshot wound	1

The ratio of deaths percent to total treated is 2·65.

(f) One Hundred and thirty Seven Major, and 604 Minor Surgical operations were performed during the year.

(g) Establishment is sufficient and complete.

[illegible]

now works under the supervision of the Female Practitioner.

(i) The Victoria Gosha Hospital being supported by the District Board, the report on that Institution is furnished to the President.

(j) First class Hospital Assistant M. Appalanarasayya Naidu has been incharge throughout the year and has given complete satisfaction.

The Surgeon-General inspected the Hospital in January last and made the following remarks:—

"Inspected the Hospital today with the District Medical and Sanitary officer and am much pleased with the arrangements and general cleanliness and good order of the institution. It appears to be doing admirably good work and the staff generally are attentive to the sick. The wards are well ventilated, clean and airy when not required for other purposes

I would suggest the desirability of erecting a separate Standard-plan out-patient Department with adequate arrangements for the Separation of the Sexes. I consider that a certain number of the beds should be kept for genral cases of poor females of good character. In accordance with the repeated orders of Government, there should be a separate ward for females suffering from Venerial Diseases.

One or two huts on the Standard plan are required for high caste patients.

A small Isolation hut on the Standard plan is required for female Septic and dirty cases. The equipment of the hospital should be brought up to the minimum [illegible] in Standing

treatment of Cholera and small pox cases should be made on the lines in the Government orders quoted in Standing orders 54 and 87 as far as possible.

I have the honor to be

Sir

Your most obedt: Servt:

W. Crumpmant
Lieut: Col: I.M.S.
Surgeon
District Medical & Sanitary officer.

Supplement to the annual Civil Hospital. Vizaga-
Report on patam for the year 1895-96

111X

Steps taken to carry out the recommendations of the Surgeon-General with the Government of Madras.

Put the Contractor's Report

(a) The erection of a building for the out-patients in the Sd Hospital plan is contemplated by the Hospital Committee. The Local Fund Board and the Municipality will be asked to contribute towards the cost of the building.

(b) Females of good character applying for admission are now admitted.

(c) Until a shed for females suffering from Venereal disease has been provided arrangements have been made to accommodate any such in the contagious shed, when not required for others purpose

(d) Estimates have been called for, for erection of 3 huts for high caste patients.

(e) With regard to female septic and dirty cases, they will be accommodated, for the present, in the contagious shed. This shed, which is provided for infectious diseases, has only once been required for that purpose (for a case of small-pox) since 1892.

(f) The bedding and clothing though not in accordance with the Standing order No 22 of 1895 up to the minimum Standard is found to be sufficient, and a further supply can be obtained, at any moment, by sending to the District jail where a supply is kept for sale. It is inconvenient to keep a larger store at hospital and it is liable to be damaged by insects.

Steps taken to carry out the recommendations of other Sanitary officers.

The Sanitary Commissioner visited the Hospital and considered the Kitchen arrangements primitive and inefficient but as far as efficiency is concerned, the Committee do not consider a change necessary.

The furniture he considered to be only fit for firewood and recommended that 1000/- Rupees realized from payments for medicines sold be expended on new furniture but the Committee are not of the same opinion.

(h) Amount of recoveries from patients who have been able to pay for their diets and medicines.

The Sum of Rs: 41. 4. 6 has been

been received for diets supplied.

Rs: 975·13·8 for medicines supplied.

W. Beaumont
Surgeon Lieut. Col.,
District Medical & Sanitary Officer.

Vizagapatam.

SEPTEMBER.

Administration Report.

Reviewing the — of the Vizagapatam Municipal Council for 1895–96.

No. 1504 M., 5TH SEPTEMBER 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. B. SURYANARAYANA SASTRI Garu, B.A., B.L., Chairman, Municipal Council, Vizagapatam, to the Chief Secretary to Government (through the Collector of Vizagapatam), dated 25th June 1896, No. 588.

I have the honour to submit my annual report on the working of the Vizagapatam Municipality for 1895–96, together with the prescribed statements as per separate packet.

I.—CONSTITUTION OF THE COUNCIL.

2. The municipality continued to be administered under Madras Act IV of 1884. I have held the office of chairman during the year under report.

3. The sanctioned strength of the council is twenty, consisting of five nominated and fifteen elected members. Mr. A. W. U. Pope, nominated member, having resigned, Mr. J. S. Heaney, Assistant Collector, was appointed on 3rd March 1896, and thus filled up the vacancy. In addition to the vacancy in the elected seats at the close of the year 1894–95, another seat fell vacant during the year owing to the death of M.R.Ry. M. Jagannatha Rao Pantulu Garu on the 26th March 1896. The former vacancy was filled by M.R.Ry. K. V. Ramanaiya Pantulu Garu on the 23rd April 1895, and the latter was the only vacancy left unfilled on the 31st March 1896.

4. As no elections took place during the year, Statement X-A is *nil*.

5. There were nineteen members at the close of the year, of whom eight were officials and eleven non-officials.

6. During the year under report, the council met thirty-one times against thirty-four times in the previous year, which was on average 2·58 per mensem. Three meetings were dissolved for want of quorum. The average attendance at each meeting actually held was 11·51 (against 8·9 of last year), of which the average attendance of officials was 4·61 against 2·38 of last year.

II.—RECEIPTS.

7. The following abstract shows the receipts under the several heads in 1895–96 as compared with the figures of the preceding year and with the revised estimate:—

Items.	Actuals, 1894–95.	Actuals, 1895–96.	Increase.	Decrease.	Revised estimate, 1895–96.

Fees and revenue from educational institutions ..	43	47	4	..	40
,, from markets and slaughter-houses.	1,206	1,540	334	..	1,530
License fees	207	205	..	2	300
Other fees	584	563	..	21	630
Fines under Municipal and other Acts	545	621	86	..	560
Grants from Government	901	174	..	727	410
,, from Local funds	1,786	700	..	1,086	600
,, from other sources	12,543	128	..	12,515	240
Recoveries from services rendered to private individuals	1,859	2,222	363	..	2,410
Miscellaneous	349	376	24	..	400
Advances recoverable	9	104	95	..	110
Total ..	61,509	45,814	4,576	20,261	47,710
Total, including opening balance ..	70,091	63,223	13,403	20,261	65,210

The total current receipts amounted to Rs. 45,814 against Rs. 61,509, the actuals of the preceding year, and Rs. 47,710 anticipated in the revised estimate. The decrease as compared with the previous year is the net result of an increase in four items and decrease in six items. The increase is largest under (i) Tolls and sale proceeds of lands. The largest decrease is in the items (1) Tax on buildings and lands, (2) Grants from Local funds, and (3) Grants from other sources.

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—This tax continued to be levied at Rs. 7·5 per cent. on the rent value of buildings and lands. During the year under report, the tax has been revised with an increase of Rs. 219–8–0; in addition to this, the villages of Akshayyammapeta and New Dondaparti were also brought under taxation. The date of the register is 3rd July 1895.

9. According to the census of 1891, there were in all 9,069 houses. The number of houses assessed on 31st March 1895 was 4,340 as per last year's report. Adding to this 277 new houses brought under taxation during the year under review, the total number was 4,617. Of this, forty-four were exempted on account of poverty of owners, demolition, &c., leaving 4,573 on the 31st March 1896.

10. *House-tax.*—Including the increase effected by revision and new assessments as explained in paragraph 8 *supra*, the current net demand amounted to Rupees 16,301–4–0 against Rs. 16,668–1–6 in the preceding year. The decrease in the demand was owing to the inclusion of arrear taxes of the Railway department in 1894–95. The current collections within the year were Rs. 13,137–6–2 and Rupees 148–1–4 were remitted against Rs. 15,815–13–6 and Rs. 43–8–6 in the previous year. Rs. 2,523–5–7 have since been collected. The decrease in collections was chiefly attributable to the non-payment of taxes by the Railway department on railway buildings, amounting to Rs. 2,069–9–11, within the year in spite of repeated reminders. This amount has since been collected.

11. The arrear demand amounted to Rs. 1,112–3–7; Rs. 733–4–9 was collected during the year, Rs. 7–8–0 remitted and Rs. 200–13–10 written off and the balance Rs. 170–9–0 will be adjusted shortly. The current and arrears collections brought to credit were Rs. 13,870–10–11 against Rs. 18,593–2–3 in the preceding year. The decrease is mainly due to want of arrears and to the decrease in the demand for the current year. Of the current year 80·59 and of arrears 65·90 per cent. were realised within the year against 94·88 and 80·12 in the previous year. The percentage would not have fallen off had the Railway department paid their taxes within the year.

12. The current demand on lands was Rs. 668–12–0 against Rs. 648–3–0, the increase being the result of assessing the lands of the Railway department and other lands with reference to their present rents. The collections within the year were Rs. 579–12–6 against Rs. 530–11–6 in the previous year. The Railway department

did not pay Rs. 60 within the year but after the 31st March 1896. The arrear demand was Rs. 144–11–0, of which Rs. 124–4–6 was collected and Rs. 20–6–6 written off. The extent of lands assessed cannot be given, as they have not been surveyed. The land tax is assessed ordinarily on the rent value fixed with reference to rents paid for similar lands in the neighbourhood.

13. *Tax on Arts, &c.*—This tax was, as usual, levied on all classes but the first in schedule B. Particulars are as follow:—

Class.	Number of persons.	Amount. Rs.	A.	P.
2nd Class	16	775	0	0
3rd ,, ...	51	1,225	0	0
4th ,, ...	101	1,182	0	0
5th ,, ...	174	1,011	0	0
6th ,, ...	315	925	8	0
7th ,, ...	79	153	0	0
8th ,, ...	650	633	8	0
Total ..	1,386	5,905	0	0

In the 2nd, 3rd, 4th, 5th, 6th, 7th and 8th classes, one, four, five, two, thirteen, five, and thirty-three persons, respectively, were assessed to the tax for one half year only.

14. The current demand was Rs. 5,905 against Rs. 5,929–8–0 in the preceding year. Of the current year's demand, Rs. 5,629 or 95·32 per cent. was collected within the year against 93·92 during last year, leaving Rs. 276 for subsequent adjustment. The arrears demand was Rs. 460–9–0, of which Rs. 376–11–3 was collected, Rs. 12 remitted and Rs. 38–8–0 written off, leaving a balance of Rs. 33–5–9 which will be adjusted shortly.

15. The average incidence of this tax was Rs. 4–4–2 against Rs. 4–5–3 in the previous year per head of persons assessed to the tax.

16. *Tax on Vehicles, Animals and Carts.*—The full schedule rates were levied on vehicles and animals but not on carts. The demand under this tax was Rs. 3,171–12–0 against Rs. 3,204–4–0 in the preceding year. There was a decrease of Rs. 78–0–0 in the demand for vehicles, which is due to some vehicles belonging to Sri Raja G. N. Gajapati Rao Garu, C.I.E., and Ranee Akshayyammagaru not having been in use during the year. The current collections amounted to Rs. 2,896–12–0 against Rs. 3,164 in the previous year. Of the balance Rs. 275, Rs. 264 have since been collected and the rest will be adjusted shortly.

17. *Coercive Process.*—Appendix A to Statements IV-A and IV-B shows the extent to which coercive measures were resorted to during the current year for the collection of taxes. The number of warrants of all kinds issued was 1,048 against 2,134 in the preceding year. Adding to this the unexecuted warrants of 1894–95, the total number was 1,396, of which 1,204 were executed or cancelled within the year, leaving 192 to be executed. The number of prosecutions instituted during the year for arrears and current taxes was 19 against 123 in the previous year. All these but one were disposed of within the year.

18. *Tolls.*—There are five toll-gates, viz.—

(1) Bowdara.
(2) Katakamvari.
(3) Waltair.
(4) Turner Pontoon bridge.
(5) Dolphin's ferry.

These were levied at full schedule rates. The right of collecting tolls was, as usual, leased out to farmers at a public auction and realised Rs. 13,212 *plus* Rupees 26–9–11, or Rs. 13,238–9–11 against Rs. 10,916–11–1 in the previous year, showing an increase of Rs. 2,321–14–10. This increase is attributable to brisk competition at the time of auction. The whole of this amount was collected and the district board's share, Rs. 1,200, the toll receipts on Turner Pontoon bridge, was paid during the year.

19. *Incidence of Taxation.*—Statements IX and IX-A exhibit the incidence of taxation in the year under review. The total average incidence was Rs. 1-0-6 with tolls and As. 10-10 excluding them against Rs. 1-2-9 and As. 13-8½, respectively, in the preceding year.

B.—Miscellaneous Receipts.

20. The receipts under this head amounted to Rs. 10,252 against Rs. 21,158 in the preceding year. The decrease is chiefly due to want of contribution from private individuals in the current year as in the previous year.

21. *Rent of Lands, &c.*—The income from these sources amounted to Rs. 3,334 against Rs. 853 in the previous year and Rs. 3,180 in the revised estimate. The increase, as compared with the previous year's figure, was chiefly owing to the compensation received from the Railway department on account of some roads and cart-stand situated near the railway station acquired by the railway.

22. *Conservancy Receipts*—amounted to Rs. 28 against Rs. 18 in the previous year and Rs. 30 in the revised estimate.

23. *Fees from Educational Institutions*—show an increase of Rs. 4 over the collections in the previous year.

24. *Fees and Revenue from Markets and Slaughter-houses*—amounted to Rs. 1,540 against Rs. 1,206 in the preceding year and Rs. 1,530 in the revised estimate. The increase was due to the increase in the rate of fees in bull slaughter-house.

25. *License Fees.*—Under this head Rs. 205 was realised during the year under review.

26. *Other Fees*—amounted to Rs. 563 against Rs. 584 in the previous year. The following are the details:—

	Rs.	A.	P.
(*a*) Distraint fees	11	12	0
(*b*) Cart-stand fees	548	6	5
(*c*) Other fees	3	0	0
Total ..	563	2	5

27. *Fines under Municipal and other Acts.*—Receipts under this head amounted to Rs. 621 against Rs. 545-2-0 in the preceding year. The increase was due to the increased activity on the part of the police and the municipal executive in checking nuisance.

28. *Grants and Contributions from Government.*—(*a*) Rs. 103-5-8 was drawn from Provincial funds on account of contribution due towards the stipends of normal students paid from Municipal funds during the year under report.

(*b*) Rs. 71 was contributed by the Military Pay Examiner on account of profession tax due from the military officers doing duty in this municipality.

From Local Funds.—Rs. 600 was the usual contribution paid by the district board towards maintenance of its roads lying within the municipal limits. Besides this, Rs. 100 was also contributed by the Taluk Board, Vizagapatam, for the upkeep of a watershed.

Other Grants.—Subscriptions from local gentlemen on account of the poor house are entered under this head. They amounted to Rs. 109-8-0. The decrease was due to some of the gentlemen having withdrawn their monthly subscriptions. Rupees 18-6-0 was contributed by Ranee Akshayyammagaru for the improvement of Akshayyammapeta.

29. *Recoveries for services rendered to Private individuals.*—There were 1,079 private latrines under municipal agency at the beginning of the year under report. During the year 65 were added to the number and 59 were withdrawn owing to the absence of parties from the station. In consequence, the number remaining on the 31st March 1896 was 1,085. The demand for the current year was Rs. 2,117-4-9 against Rs. 1,820-6-1 in the preceding year. The current collections amounted to Rs. 2,067-2-7, leaving a balance of Rs. 50-2-2 which will be adjusted shortly. The

arrears demand was Rs. 343-2-3, of which Rs. 151-14-6 was collected and Rupees 187-5-9 written off leaving Rs. 4 for subsequent adjustment. During the year under report the rates of private scavenging fees was increased by 25 per cent.

30. Four hundred and fifty notices were issued during the year to various persons under the provisions of the Act, and 44 prosecutions were instituted for failure to comply with them.

31. *Other Items.*—Fishery rents amounted to Rs. 348-4-4 against Rs. 312 in the preceding year. The increase was due to the brisk competition at the time of auction. The other items which fall under this head are fees for numbering carts, sundries, which fetched Rs. 17-8-0 and Rs. 10-12-0, respectively, in the year under review.

32. *Loans.*—No loans were contracted during the year under report.

33. *The opening balance.*—The closing balance of 1894-95 was according to the audited figure Rs. 17,409, which has been adopted as the opening balance of the year under report.

III.—EXPENDITURE.

34. The following abstract shows the expenditure under the several heads as compared with the figures of the previous year and the revised estimate for that under review:—

Supervision and management	3,969		4,420		4,180
Repayment of loans	..		..		..
Interest on debt	..		..		..
Advances recoverable	100		..		..
Refunds	138		..		10
		4,207		4,420	
Total, Expenditure ..		52,682		50,588	55,720
Closing balance ..		17,409		12,635	9,400
Total, including balance ..		70,091		63,223	65,120

35. The total expenditure was less than the preceding year's figure by Rs. 2,094, the decrease occurring chiefly under New works—Communications.

36. The following shows the percentage of expenditure under each grant to the total charges of the municipality:—

	1894–95.	1895–96.
Grant I, Public Works	43·29	37·10
„ II, Education	8·86	10·01
„ III, Medical and Sanitation	30·40	32·93
„ IV, Lighting and Municipal purposes	9·47	11·22
„ V, Supervision	7·53	8·74
Advances and Refunds	0·45	..
Total ..	100·	100·

37. *Grant I, Public Works.*—The total outlay under this grant amounted to Rs. 18,767 or 37·10 of the total expenditure of the year against Rs. 22,804 or 43·29 per cent. in the preceding year and Rs. 20,940 in the revised estimate. The details are given in the statement II-A. The decrease, when compared with the revised estimate, chiefly occurs under new communications.

38. *Communications.*—The expenditure on new works was Rs. 5,859–1–11 and on repairs Rs. 7,010–5–4 against Rs. 9,969–7–5 and Rs. 5,760–4–1, respectively, in the previous year and Rs. 12,830 provided in the revised estimate. The decrease, as compared with the revised estimate, is very small and calls for no remark. Rs. 5,859–1–11 were spent on new roads (as shown in statement II-A). The road-works in new Dondaparti itself cost Rs. 2,171–14–0, while the road from the band stand to judge's bungalow cost Rs. 2,884–3–6. The total expenditure on these two items up to 1895–96 is as follows:—

	1894–95.	1895–96.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
(*a*) Roads in New Dondaparti	808 12 8	2,171 14 0	2,980 10 8
(*b*) Road from band stand to judge's bungalow	9,099 1 10	2,884 3 6	11,983 5 4

Out of the amount contributed by the Maharaja of Vizianagram, G.C.I.E., there was only a balance of Rs. 16–10–8 unspent at the close of the year. This road was constructed under the supervision of the Local Fund Engineer and has not been made over to the council up to date. As regards road works in New Dondaparti, there was a balance of Rs. 169–5–4 out of the compensation received from the railway department and it is required for planting avenues on all the road sides and for the construction of a culvert.

39. The total mileage of roads under the municipal control at the end of 31st March 1896 was as follows:—

Mileage at the end of March.	1895.	1896.
	Mls. Fls. Yds.	Mls. Fls. Yds.
(*a*) Metalled and gravelled roads	33 2 167	34 0 167
(*b*) Gravelled roads	3 7 169	5 0 169
(*c*) Pathways	2 7 42	2 6 42

Of these 28 miles of roads were actually repaired during the year.

40. *Tolls and Road Charges.*—The total expenditure incurred during the year on new communications and roads came up to Rs. 832 more than the toll revenue as given below:—

	Rs.
The net toll receipts	12,038
Expenditure on roads	12,870

41. The roads were kept in good order. The Sanitary Commissioner visited this town in August 1895 and has expressed no opinion as to the condition of the roads.

42. *Buildings.*—The charges under this head amounted to Rs. 1,826–4–4 against Rs. 1,801 in the previous year and Rs. 3,330 in the revised estimate. The decrease, as compared with the revised estimate, was due to the non-construction of an iron

latrine proposed to be constructed within the year as expected. The materials did not arrive here from Calcutta till after the year closed. The work is, however, now in progress. The provision of Rs. 500 for constructing a school building was not utilized for want of a proper site. It is under contemplation to acquire a building and play ground estimated to cost about Rs. 1,500.

43. *Drainage.*—Rs. 2,414 under the head was spent for constructing new drains, repairing old ones and for drain-flushing establishment. The following are the details:—

	Rs. A. P.
(*a*) New drains	683 3 0
(*b*) Repairs to drains including baling out sewage water ..	260 7 10
(*c*) Drain-flushing establishment	1,470 11 3
Total ..	2,414 6 1

The details of all these items are given in Statements II-A and II-B. During the year under report the drain near the Seven Wells was extended and improved with reference to the suggestions of the Sanitary Commissioner in paragraph 11-B of his notes printed in G.O., No. 479 M., dated 20th March 1896. A small new drain was constructed in Sivalayam Street at a cost of Rs 30. The preliminary steps for constructing drainage works at Dondaparti were carried out at a cost of Rs. 263–3–0 at the suggestion of the Sanitary Commissioner. A sewage filter was constructed in the swamp at a cost of Rs. 22–11–4. The filter was approved by the Sanitary Commissioner and is in working order.

44. *Water-supply.*—Rs. 659 was spent during the year against Rs. 705 in 1894–95 and Rs. 460, the revised estimate. The increase was chiefly due to the payment for a well constructed in New Dondaparti in 1894–95 having been made in 1895–96, and to the reconstruction of a well in Alipur. Some of the wells were lined with Portland cement at the suggestion of the Sanitary Commissioner and platforms to the wells in Dondaparti are almost finished. The plans and estimates of the Hanumantha Vaka water project are with the Sanitary Engineer.

45. *Miscellaneous.*—About Rs. 6 was spent under the head for the reclamation of a certain piece of land in Allipore for extension of its main road and for measuring the land occupied by fisherman's huts.

46. *Establishment.*—The cost of the establishment and contingencies amounted to Rs. 984 against Rs. 1,151 in the preceding year and Rs. 1,000 in the revised estimate. The decrease, as compared with the revised estimate, is small and calls for no remark while the decrease, as compared with the actuals of the previous year, was due to the decrease of pay of the overseer newly appointed. No new tools were purchased during the year under report excepting a measuring tape at a cost of Rs. 7–11–0.

47. *Grant II, Education.*—The expenditure under this grant amounted to Rupees 5,065 against Rs. 4,666 in the preceding year. The increase over the actuals was due chiefly to the entertainment of a drawingmaster and to the payment of building and salary grants, and the decrease, as compared with the revised estimate, was due to the non-utilization of result and building grants.

48. *Training Schools.*—Four masters were under training in the Vizagapatam Training school. Rs. 207–4–1 was spent towards the stipends of these students against Rs. 188–0–9 in the preceding year and Rs. 220 in the revised estimate. The increase over the actuals of 1894–95 was due to the payment of arrears stipends, and the decrease, as compared with the revised estimate, was due to the late admission of some of the students into the institution.

49. *Salary-result Schools.*—There were five schools at the beginning of the year. The Night school at Chengalraopeta was abolished during the year for want of sufficient attendance of boys. The total expenditure under this head was Rupees 1,482–1–10 against Rs. 1,572–4–9 of last year and Rs. 1,490 in the revised estimate. The decrease, as compared with the actuals of last year, was, owing to the abolition of

the night school as already stated and to the fact of dispensing with the services of the assistant master in the fort night school. The decrease, as compared with the revised estimate, is small and calls for no remark.

50. *Salary Grants.*—Rs. 1,031–2–9 was spent on this account against Rs. 811–11–6 in the preceding year and Rs. 900 in the revised estimate. The increase over the actuals of 1894–95 and the revised estimate was due to the payment of arrears of salary grant to some of the teachers of the London Mission High school and Hindu College. The strength of the Middle School Department of the Hindu College and London Mission High school was 131 and 173, respectively, against 123 and 167 in the previous year.

51. The number of result schools aided by the council was seventeen against eighteen in the last year. Two were newly started and three were closed during the year. Rs. 1,393–8–0 on account of current and Rs. 48–6–0 on account of arrears were paid to the managers of result schools on account of grants earned by them against Rs. 1,478–15–0 in the previous year. The decrease is small and chiefly due to the strict mode of examining on the part of inspecting officers. Result grants were paid at maximum rates.

52. *Inspection.*—The charges under this head were Rs. 211–11–8 against Rs. 252 in the preceding year and Rs. 220 in the revised estimate. The decrease, as compared with the actuals of 1894–95, was due to the fact that the post of Superintendent of Municipal Schools was vacant for a couple of months. The decrease, as compared with the revised estimate, is small and calls for no remark.

53. *Miscellaneous.*—Rs. 690–13–1 was spent under this head against Rs. 363–7–0 and Rs. 880 in the revised estimate. The increase over the previous year was due to the appointment of a drawingmaster on Rs. 20 a month and to the payment of building grants to the London Mission High school and also furniture grant to some of the results schools. Particulars of other items are as follow :—

		Rs.	A.	P.
(*a*) (i)	Payment of gymnastic instructor	144	0	0
(ii)	Contingencies	19	0	0
(*b*)	Pay of drawingmaster	151	9	10
	Contingencies	68	1	0
	Total ..	382	10	10

54. *Statement I.*—The total number of schools in the municipality was 36 and the number of pupils under instruction was 2,283 boys and 159 girls against 2,114 boys and 140 girls in 35 schools in the preceding year. The increase in the number of schools is attributable to the opening of a drawing class. The increase in the number of pupils is satisfactory.

55. *Statement II* gives the classwar distribution of pupils. There was an increase in the number of boys in all classes and in girls in class Nos. II and III and a decrease of girls in the Hindus, while the number of girls in the European class was stationary.

56. *Statement III.*—The number of teachers employed in schools was 104, of whom 24 possessed trained teachers' certificates, 16 untrained teachers' certificates, 47 general education certificates, and 17 were unpassed teachers against 100, 13, 13, 51 and 23, respectively, in the preceding year. Of the 47 untrained teachers, 23 were trained, but have not obtained certificates yet, 6 out of 17 unpassed belong to technical schools. One of them possessed a Civil Engineering College certificate.

57. *Statement IV, Result Schools.*—The number of pupils presented for examination was 727 against 788, of whom 453 against 517 passed. The pupils presented for examination and those passed showed a marked decrease, while the results in Geography and English showed a little improvement. The Assistant Inspector remarks that the results have, on the whole, deteriorated and the Superintendent's work is not satisfactory, because there was no special Superintendent for about three months and the schools examined in June last were not well prepared for grant examination.

58. *Statement IV, Salary-result Schools.*—The number of pupils presented was 146 against 182, of whom 92 passed against 108 in the preceding year. The results in the compulsory subjects of the IV and III standards were not at all satisfactory and reflect discredit on the headmasters of the institutions, who were warned with reduction of grants in future. It is observed that Geography and Hygiene are not properly taught.

59. *Grant III, Medical Services, Sanitation, &c.—Hospitals and Dispensaries.*—Rs. 2,400 was paid as contribution to the civil dispensary during the year under review as in last year. Rs. 244, 166, 32 and 4 were also paid in the year on account of contributions to the Medical College, Sanitary Inspection, Medical Reserve Staff and Cutler's establishment, respectively. The total charges under this head were Rs. 2,846 against Rs. 2,817 in 1894–95. The dispensary of Vizagapatam is under the management of a committee of seven members among whom are the Collector, the District Surgeon and the Chairman of the municipality.

60. The total number of sick treated at the civil dispensary was 21,523, of whom 453 were *intern* and 21,070 *extern* patients against 464 and 21,056 in the preceding year.

61. *Vaccination.*—This has been compulsory in the town since 1st August 1890. The total number of operations performed by the first-class vaccinator was 1,514, including re-vaccination against 1,575 in 1894–95. Of these, 1,253 or 82·76 per cent. were successful. Out of these, 864 were under one year of age. The total number of children vaccinated being 968 as compared with the last year's figure 1,071, there was a fall in the number vaccinated under one year of age. This is accounted for as hereunder. The total number of children that were to be vaccinated six months after birth during the year 1895–96 was 1,206. Of these, 208 died, 321 left the station, 52 were sick and 625 vaccinated. It will be seen, therefore, that of the 968 children under one year of age vaccinated during the year, there were 968 — 625 or 343 outsiders, as all the available children (625) under one year born in Vizagapatam were vaccinated during the year. All these cases were operated with calf lymph. The number of prosecutions under clause II, section 138 of Act IV of 1884 was 27 and none were convicted. The expenditure under vaccination was Rs. 289–3–9 against Rs. 350–15–11 in the previous year and Rs. 320 in the revised estimate. The decrease was due to the non-payment for calf lymph for some months within the year.

62. *Vital Statistics.*—The following statement shows the total number of births and deaths during the year with the ratio per mille as compared with the figures of the preceding year :—

Years.	Births.	Rate per mille.	Deaths.	Rate per mille.
1894–95	1,189	34·47	1,061	30·76
1895–96	1,223	35·46	956	27·72

The cases of death were classified as below :—

Small-pox or measles	1
Fever	244
Bowel complaints	347
Suicide	1
Wounds and accidents	7
Snake-bite	2
All other causes	354
Total ..	956

The total number of births registered was 1,223 against 1,189 in the preceding year showing an increase of thirty-four. No prosecutions were instituted against the defaulters who were warned.

63. The total charges on account of registration of vital statistics were Rupees 655–10–5 against Rs. 598–13–3 in the preceding year, and Rs. 710 in the revised estimate. The increase was chiefly due to the printing of forms required for the department.

64. *General Health.*—There was no scarcity of water felt throughout the year. The market supply and the prices of food-grains were same as in the preceding year. The public health was satisfactory. There was no cholera nor small-pox and the cases of bowel-complaints were less than in the previous year.

65. The death-rate is less than the birth-rate by 6·74 per mille of population during the year under report. The total mortality fell from 1,061 to 956 as compared with the last year. The death-rate was 27·72 per mille of population against 30·76 in the previous year. The District Surgeon's report is herewith submitted.

66. *Conservancy.*—The charges under this head amounted to Rs. 12,869–15–3 against Rs. 12,270–12–11, showing an increase of Rs. 599–2–4 over the actuals of the preceding year. These charges amounted to 28·09 per cent. of the total receipts against 24·95 in the preceding year. The increase was due to the purchase of corrugated iron dust-bins and night-soil carts, &c.

67. The number of public latrines was 78 against 75 in the preceding year. Of these four were built according to the standard plan for rural tracts, forty-three square blocks enclosed by pucca walls, and twenty-eight temporary, which were being replaced, as they are damaged. The latrines are freely resorted to and are cleaned twice a day by toties under the supervision of two inspectors and five maistries. The average population per latrine was 442.

68. Four night-soil depôts are in use, whereto the night-soil is carried by toties in twelve air-tight hand-carts and deposited there in trenches dug for the purpose which are cropped after six months.

69. The cart-stand near the town railway station was acquired by the East Coast Railway, and the cart-stand in the market, Kottapeta, was abolished during the year under report.

70. The number of toties that attended to the public latrines was fifty-seven and it was found sufficient.

71. The rubbish in the town is removed to the cinerators constructed at the four night-soil depôts and burnt there. Debris of houses, &c., is deposited in the swamp. In his inspection notes, the Sanitary Commissioner suggested the abolition of the rubbish depôt at Chachadipeta. Endeavours are being made to secure a proper site for another depôt. Thirty more corrugated iron dust-bins were purchased during the year in addition to the existing bins, viz., 32 galvanized iron, 54 sheet iron, 180 masonry. Besides these, 123 wicker baskets were also provided for temporary deposit of rubbish. The number of conservancy carts employed was fourteen.

72. *Private Scavenging.*—The expenditure under this head was Rs. 2,058–12–5 against Rs. 1,933–5–6 in the previous year and Rs. 2,400 in the revised estimate. From this it will be seen that this department is self-supporting. The number of latrines conserved by the municipal agency was 1,085 against 1,079 in the preceding year.

73. *Grant IV, Lighting and Miscellaneous Municipal Purposes.*—The number of lights during the year under report was 265 against 225 in the preceding year. The charges under this head amounted to Rs. 2,481–6–7 against Rs. 1,425–3–0 in 1894–95. The increase was due to the purchase of forty lanterns, posts, brackets and the increased cost of oil and other expenses.

74. The other charges amounted to Rs. 3,193–11–2 against Rs. 3,561–10–6 in the preceding year. The decrease was chiefly owing to the reduction of in-mates of the poor-house.

75. The charges on account of the poor-house establishment amounted to Rs. 390 and the contingent charges including the cost of feeding and clothing paupers amounted to Rs. 1,386–9–11 against Rs. 456 and Rs. 1,772–10–0, respectively, in the preceding year. The decrease was due to the reduction in the number of paupers fed. The aggregate number of paupers dieted in the institution during the year under

report was 18,240 against 22,973 in 1894–95, the average daily number being 49·97 and 63·97, respectively. The average cost of clothing and dieting per head per diem was As. 1–6 same as last year.

76. *Grant V, Supervision and Management* amounted to Rs. 4,420–2–8 against Rs. 3,968–12–2 in the preceding year, and Rs. 4,180 in the revised estimate. The following were the particulars:—

	Rs.	A.	P.
(*a*) Office establishment	1,691	4	0
(*b*) Collection of taxes and contingencies	2,448	14	8
(*c*) Contribution to Central office establishment	280	0	0
Total ..	4,420	2	8

The increase in (*a*) was chiefly due to the payment of horse allowance to the Chairman under G.O., Mis. No. 776 M., dated 28th October 1895. The increase in (*b*) was due to the payment of the cost of account forms supplied by the Victoria Jubilee Press during the year.

77. The other items call for no remark.

78. The total cost of supervision and management was 9·64 per cent. of the receipts against 6·45 per cent. in the preceding year.

79. *Closing Balance* amounted to Rs. 12,635–3–5 against Rs. 17,409 in the previous year and is 27·58 per cent. against 28·3 per cent. of the receipts of the preceding year.

80. The audit of accounts for 1895–96 has not been conducted yet.

Submitted.

2. The number of meetings held by the municipal council was 31 against 34 in 1894–95, and the number adjourned for want of a quorum fell from four to three. The average attendance of the members, more especially that of the officials, improved and was fair.

3. *Receipts.*—(1) The net current demand under the tax on arts and professions differed but slightly from that of the previous year. The house and land tax registers were again revised during the year, with the result that the demand under the former head fell by Rs. 367, although there was an increase of 329 in the number of houses assessed, while that under the latter rose by Rs. 21. The decline in the case of the house-tax, however, is ascribed to the fact that the tax due on railway buildings for the two previous years was included in the demand for 1894–95. Considering the high average incidence of house-tax and the small number of houses assessed, it would appear that a good many more houses might fairly be included in the registers.

(2) The current collections under the taxes on arts and lands improved and were fairly good, but those under the house-tax declined for the reason mentioned in paragraph 10 of the Chairman's report, to which the attention of the Public Works Department, Railway Branch, will be drawn. Except in the case of the house-tax, under which the outstandings on the 31st March 1896 included arrears dating back to

1893–[illegible], the realization of arrears was fair. It is observed that a considerable portion of the balance has since been collected, and the Government trusts that the remainder will be fully adjusted before the close of the current year.

(3) There was an increase in the income from tolls, markets and slaughter-houses and sale-proceeds of lands, but that from the tax on vehicles and animals declined. The increase in the revenue from fines, which is ascribed to greater activity on the part of the police and the municipal executive in checking nuisances, is satisfactory.

(4) The number of houses served by the private scavenging agency (1,085) remained almost the same as in the previous year, but, owing to the enhancement in the rates of fees, the income from this source rose from Rs. 1,852 to Rs. 2,219, and the service was worked at a profit of Rs. 160, instead of a loss of Rs. 81 as in 1894–95. As the proportion of houses served is very small, being only about 28 per cent. of the total number assessed to the tax on buildings, the further extension of this service should engage the earnest attention of the council.

4. *Expenditure*—(1) *Public Works.*—The total outlay on communications amounted to Rs. 12,869, but of this Rs. 2,884 and Rs. 2,172, respectively, related to the construction of a new road from the band-stand to the Judge's bungalow at Waltair and the formation of new roads at Dondaparti, for which special contributions had been received from the Maharaja of Vizianagram and the Railway Department. These roads were completed at a total cost of Rs. 11,983 and Rs. 2,981, respectively. The ordinary expenditure on roads was thus Rs. 7,813, or 64·9 per cent. of the municipal income from tolls. The Revenue Divisional Officer has not reported on the condition of the town roads—an omission which should be supplied—but the Chairman states that they were in good order.

(2) *Education.*—The net expenditure on education was Rs. 4,915, or 13·8 per cent. of the income from taxation, and of this sum, all but Rs. 1,031 was spent on primary education. The municipal council maintained four primary schools on the salary-result system against five in 1894–95. Excluding the one which was abolished during the year, there was a decline in the total attendance at the remaining four and the results of the departmental examinations were not satisfactory. The net cost of educating each pupil in these institutions was high and should be reduced. The council also aided two secondary schools with salary grants and 20 primary schools against 18 in 1894–95, with result grants. Three of the latter were, however, closed before the 31st March 1896. The attendance at these institutions improved slightly. Notwithstanding the remark in paragraph 4 (2) of G.O., No. 1725 M., dated 23rd October 1895, no information has been furnished regarding the work done in the salary grant schools; judging from the results of the grant examinations, the working of the result system schools appears to have been even worse than in the previous year and more than one-fourth of the allotment for result grants was again allowed to lapse. The proportion of the total number of boys under instruction in the municipal and aided schools to the male population of school-going age was 56·3 per cent., or almost the same as in 1894–95. There has been some improvement in the qualifications of the teachers employed in these institutions; the efforts made in this direction should, however, not be relaxed until all the teachers are properly qualified.

(3) *Medical Relief.*—The municipal council had no hospital of its own, but a sum of Rs. 2,400 was, as usual, contributed towards the local hospital, which is under the management of a private committee. The number of patients treated at this institution remained almost stationary.

(4) *Vaccination and Vital Statistics.*—The reported number of persons vaccinated during the year again fell from 1,575 to 1,514. The quality of the work turned out also deteriorated and was poor, the ratio of reported success being 82·8 per cent. against 93 per cent. in 1894–95. Infantile vaccination declined appreciably, the number of successful operations on children under one year of age falling from 1,071 to 864. The council should devote special attention towards effecting an improvement in the current year; the unsatisfactory results obtained are probably due in a great measure to the diminution in the number of prosecutions instituted for failure to have children vaccinated.

The registration of births improved slightly, while that of deaths declined, but the returns in both cases were still incomplete. No improvement in this respect can be expected unless prosecutions are systematically instituted against all persons who fail to register these occurrences. The necessity for adopting this course has been repeatedly pointed out, and yet not a single prosecution was instituted during the year under review. The council's attention will be drawn in this connection to paragraph 9 of the Sanitary Commissioner's last inspection notes recorded in G.O., No. 479 M., dated 20th March 1896, from which, and from the past year's returns, it appears that registration has not been properly supervised. This is unsatisfactory, and the Government trusts that it will not again have to remark on this point.

(5) *Sanitation*.—The expenditure on conservancy, amounting to Rs. 12,870, fell short of the allotment by more than 8 per cent., but was 28·1 per cent. of the receipts. From paragraphs 67 to 72 of the Chairman's report, it appears that some improvements have been effected in the sanitary condition of the town since it was last inspected by the Sanitary Commissioner, but the council should not rest satisfied until all the defects pointed out by him have been remedied.

5. *General Remarks*.—The year closed with a balance of Rs. 12,635, or 27·6 per cent. of the receipts, but the greater portion of this sum is reserved for expenditure on the water-supply scheme now under consideration.

The statements in paragraphs 7, 13, 18, 26, 34, 36, 39, 40, 43 and 53 and the particulars as to causes of deaths in paragraph 62 of the Chairman's report were unnecessary and should not appear in future reports. The major portion of the details given in the statements referred to are to be found in the accounts accompanying the report. Where this is not the case, the information could have been easily given in a line or two; tabular statements where not necessary should be avoided, as they are expensive and troublesome to print and waste much space.

Except in regard to vaccination and registration of vital statistics, the administration of the municipality during the year under review continued to be efficient.

The delay of more than one month in the submission of this report is unsatisfactory and should have been explained.
