No. 264

FROM,

M-R-Ry,

C. SITARAMAYYA PANTULU GARU;

CHAIRMAN,

MUNICIPAL COUNCIL ELLORE.

To,

The Chief Secretary to Government
Fort Saint George
Madras.

Sir,

I have the honor to inform you that I have been trying for nearly two years or so to secure a quarry at Janampetla for metal and gravel for the use of this Municipality and have not yet succeeded in securing the same on account of some technicality or other. This Municipality has been greatly inconvenienced for want of supply of the same and the roads have suffered therefore very badly. Although ample provision was made this year for Public works, owing to want of supply of metal and

Gravel nothing has been done yet
this year towards repairing the roads
which are, as I have already
submitted in the Administration
report, in a very wretched condition.
I have however now arranged
with the Local Fund Quarry to get
necessary supply of metal and gravel
to this Municipality and I hope to
be able to improve the roads
and put the town in a pretty
good condition before the
end of December. Any inspection
by the Sanitary Commissioners in
the present state of the Municipality
it must be admitted, will be
most inopportune and place this Municipality
in a very unfortunate position before
Government.

May I therefore request, that you will
be pleased to request the Sanitary
Commissioners to postpone his visit
to our town till December next to
enable us to put the town in a proper
condition and thus prevent Sanitary
Commissioners inspection during his expected
visit to these parts in this month
during Easter week. Hoping
to receive urgent orders on the
Subject.

I have the honor to be

Sir,

Your most obedient servant

Chairman.

Requesting to ask the
Sanitary Commission to
postpone his visit to Gloucester
till December next.

Submitted to the Collector

2. It was only after I joined this Division that an ^{earnest} attempt has been made by the Municipality in July last to obtain gravel and I have arranged for the supply of their requirements from the local Sand Quarries at Janampeta and Badampudi. This could have been arranged long ago - but the matter seems not to have received earnest attention.

3. The state of the roads in the town is now most discreditable and there is no doubt the visit of the Sanitary Commissioner, which has been for some time past put off at the instance of the Council to allow it time to mend matters will show that the opportunity given to it by Government has not been utilized.

Submitted to Government. I do not see much good in asking the Sanitary Commissioner to postpone his visit to the Municipality. The object of his visit is to point out its defects to the Council in view to their rectification. I think more real good will result from his advice when he sees things in their true light than after they have been temporarily brushed up. I understood that the Sanitary Commissioner is going to visit the district during the Godavari Pusalkaram festival to inspect the Sanitary arrangements on the occasion. If this be so, I see no reason why he should lose the opportunity of inspecting the Municipality of Elmore.
