SUBJECT.

Note The Incident has been requested in force since
7.12.95 to submit scheme for the purpose of
supplying water to the town. The question of
making provision for water has been
referred to the Local Board 19.12.95

*(This paper was lying under the order
of Mr. Francis but is now sent up as directed
by Mr. H.B.)* It is submitted that this
may now be needed, as it is not necessary
take action on it now that the water
supply scheme are under consideration.

SIR,

Enclosure.
1

With reference to G.O. dated 12 June 1895, No. 968,
M. Sir, I have the honor to forward an extract
from the Proceedings of an Adjourned General
Meeting held on 6 Instant.

2 The Commissioners did not think it desirable
to refer the Sanitary Commissioner's Inspection
notes to a Committee.

3. Only very recently a Committee had reported
upon the Sanitary defects as pointed out in
the Administration report, and several sug-
gestions had been approved of. Further they
were of opinion that all the suggestions of the
Sanitary Commissioner that could be carried
out with the means at their disposal could
be as effectually attended to by the Executive
as if a Committee had been appointed
to report on the Inspection notes.

4. This is apparent from the tenor of the resolution
I have the honor to be,

Yours most Obedt Servant,

Extract referred to.

G.O. No 68 M. Mis, dated 12 June 1895, on the Resolution of the Commissioners re the proposals of the Sanitary Commissioner made in his Inspection Notes for 1894.

Proposed by M.Ry. G. Subramania Iyer Avargal and
seconded by M.Ry. Rao Bahadur V. Krishnamma Chariyavargal.

That having regard to the consideration the Commissioners recently bestowed on the minor defects in the sanitary condition of the City, and also to the measures that are in contemplation for the improvement of the Drainage and Water-supply, the Commissioners regret their finances do not admit of their carrying out all the proposals of the Sanitary Commissioner, but at the same time they wish to place on record their high appreciation of the thoroughness of the Sanitary Commissioner's Inspection Notes, and so far as lies in their power they will use every endeavour to carry out all practical sanitary improvements."

To this as an amendment M.Ry. R. N. Pragasam Mudaliar Avargal proposed and M.Ry. C. Yethierajulu Nayudu Garu seconded.

That a Committee consisting of-

SUBJECT.

Forwarding an extract from the Proceedings of the Commission as an adjourned General Meeting held on 6th August 1895 to the effect that their finances do not admit of their carrying out all the proposals of the Sanitary Commissioners in his inspection notes for 1894, but they will nevertheless endeavour to carry out all practical Sanitary improvements.

LOCAL AND MUNICIPAL DEPARTMENT.

Again G.O. dated 8th January 1895, No. 18 m. 4.
Current No. 82 - 12th June 1895, dated 1st 968 m. from the
Current No. 2536 m. of 1895, dated 9th August from the Resident, m. Comm. Madras.

FOR ORDERS.

In the first of the two Government orders read above, the Sanitary Commissioner's report on the inspection of the town of Madras was recorded, pending receipt of the remarks of the Municipal Commission. On the report, the Commissioner requested Government to favour them with its views on the inspection notes of the Sanitary Commissioner as read with the comments thereon of their Health Officer; but they were informed in reply that Government was not prepared to depart from the usual course of procedure and that it awaited a report from them as to what action they were prepared to take on the proposals of the Sanitary Commissioner. Please see the notes and orders in the second G.O. read above.

In reply to this, the Commissioner

Commissioners, without shaking
what they are prepared to do on
each of Dr. King's practical pro-
posals as read with Dr. Cook's
remarks, now say generally that
having regard to the consideration
they recently bestowed on the
minor defects in the Sanitary Con-
dition of the town and also to the
measures that are in contemplation
for the improvement of the drainage
and water supply, they regret
that their finances do not admit
of their carrying out all the pro-
posals of the Sanitary Commission.
They however, record their high
appreciation of the thoroughness of
his report and state that so far
as lies in their power, they will
use every endeavour to carry out
all the practical Sanitary im-
provements.

13/1
21/9/95 Unless Govt. is to rest content
with the somewhat indefinite
promise in the resolution it will now
be necessary to specify certain of the
more financially practicable of Dr. King's
suggestions, & ask the Commrs what
action they propose to take to carry
them out. At the same time,

as much as the main difficulties are financial
it is submitted that before steps
of this sort ^{are} taken the financial
requirements of the water supply &
drainage schemes should first be
considered, & provision also made
for the construction of incinerators.
It seems clear that those three
schemes are those which should be
first carried out, & that if they
are a success much improvement
in the condition of the town will
result. The question of providing
incinerators ^{has been considered by} ~~is before~~ the Sanitary
Board ^{and is again before the Commrs} ~~which may be referred to~~
~~shortly report~~, & the Commrs sug-
gestions as to water supply & drainage
have already come in, & will be
sent up for orders in a few days.

20.8.95 It seems hardly any
use to push the Commrs any
more in this matter. They evidently
do not wish to commit themselves
to anything definite.
