AUGUST.

Administration Report.

Reviewing the — of the Salem District Board for 1895–96.

No. 1544 L., 26TH AUGUST 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From C. H. MOUNSEY, Esq., President, District Board, Salem, to the Chief Secretary to Government, dated 8th July 1896, No. 93-Govt.

I have the honour to report on the operation of local funds in the Salem district for the official year 1895–96, and to submit the prescribed statements including the educational statements I to IV furnished by the Assistant Inspector of Schools.

I.—GENERAL.

2. *Administration.*—During the year 1895–96, the only change in the territorial jurisdiction of the taluk boards was the inclusion of the village of Vengalapuram which hitherto formed part of the Tiruppattúr Taluk Board in the Tiruppattúr Municipality under notification No. 210, published at page 51, Part I-A of the *Fort St. George Gazette*, dated 24th March 1896. The proposal of the Vániyambádi Municipality to include the village of Puttúr within the limits of that municipality referred to in paragraph 2 of the last year's report was not finally approved of by Government within the year—*vide* notification No. 272, published at page 73, Part I-A of the *Fort St. George Gazette*, dated 21st April 1896. The new union of Harúr constituted last year under the sanction conveyed in G.O., No. 196 L., dated 1st February 1895, commenced operations only during the year under report. Under G.Os., No. 363 L., dated 28th February 1895, and No. 1587 L., dated 2nd September 1895, the villages of Pachudayampatti, Muthugapatti and Tottiyapatti, which formed part of the Shendamangalam Union, and the village of Kattainachampatti, which formed part of the Rasipuram Union, were excluded from them.

3. *District Board.*—The constitution of the district board on the 31st March 1896 and the average attendance of the members at meetings are shown in statement XVI-A. On that date the board had the maximum sanctioned strength of thirty-two members; of these four were ex-officio, twelve nominated and sixteen elected.* The nominated members consisted of four officials and eight non-officials. Of the elected members, six were officials and ten non-officials. The two vacancies at the close of the previous year among the nominated members and the twenty-two vacancies, which occurred in the course of the year under review, viz., five among nominated and seventeen among elected members, were filled up within the year. Twelve meetings were held as in the previous year and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 17·3

	—

(6·0 among officials and 11·3 among non-officials), or 54·0 per cent. of the actual strength, against 18·6 (4·6 officials and 14·0 non-officials), or 62 per cent. in 1894–95. The decrease in the attendance of non-officials is due to vacancies in the year among elected members in particular who generally attended all meetings.

4. *Taluk Boards.*—Statement XVI-A shows the constitution and attendance of the taluk boards. The four taluk boards in the district had, on the 31st March 1896, fifty-four members, being the full sanctioned strength as in the previous year. There occurred forty-two vacancies during the year—two by death, three by resignation, nine by transfer from the local areas of the taluk boards, twenty-seven by expiry of the term of office and one by removal, the gentleman having left India without resigning. All these vacancies were filled up within the year. Fifty-five meetings were held against fifty in 1894–95 and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 8·1 (2·3 among officials and 5·8 among non-officials), or 62·3 per cent. of the actual strength against, 8·1 (2·4 among officials and 5·7 among non-officials), or 62·3 per cent. in the preceding year. On the whole, the taluk boards worked satisfactorily.

5. *Union Panchayats.*—There were thirty-two union panchayats at work at the end of the year against thirty-one in the previous year; statement XVI-A shows their constitution and the number of meetings held by them. The panchayats had, on the 31st March 1896, an aggregate strength of 271 members against the sanctioned number 284, thirteen vacancies having occurred towards the close of the year in the marginally-noted * panchayats. All these, except the vacancies on the Atur and Chendarapatti panchayats, have since been filled up. For the same reason and for want of prompt steps to fill up vacancies on the part of the Salem Taluk Board office, the number of members on the panchayat of Chendarapatti was less than the minimum number of five fixed by the Act. The number of officials exceeded that of non-officials in the Rasipuram, Thammampatti, Námakkal and Dharmapuri panchayats. The necessary steps for remedying this defect have since been taken in respect of the Rasipuram and Thammampatti Unions by appointing non-officials to the two vacancies on each of the panchayats, and as regards the other two panchayats necessary steps will be taken. Of the actual number of members given above, 83 were ex-officio members, 20 other officials and 168 non-officials. Excluding the seven meetings, at which a quorum was not secured, the panchayats held 405 meetings or 12·7 on an average, against 378 meetings or 12·2 in the preceding year, and the average attendance at each meeting was 5·1 (1·9 among officials and 3·2 among non-officials) against 5·5 (2·0 officials and 3·5 non-officials) in 1894–95 out of an average actual strength of 8·5. The attendance of the non-official element on the Omalúr and the Taramangalam panchayats was unsatisfactory and it was due as already stated to want of prompt steps to fill up vacancies on the part of the Salem Taluk Board office. The largest number of meetings, viz., 22, were held in Pethunaickenpalaiyam. The number of meetings held by the marginally-noted panchayats fell short of the number required by section 129 of the Act. The details of vacancies that occurred and the appointments made in the several union panchayats in the district are shown in statement XVI-B.

†1. Omalúr.	4. Veeraganur.
2. Chendarapatti.	5. Nanjaedayar.
3. Tadavur.	

The affairs of all the unions except nineteen were managed by non-official chairmen. The local medical officers at Thammampatti and Palacode, the sub-registrars of Rasipuram Omalúr, Atur, Námakkal, Shendamangalam, Tathiengarpet, Tiruchengódu, Hosúr and Harúr, the Deputy Tahsildar of Pennagaram and the ex-officio members of Taramangalam, Pethunaickenpalaiyam, Chendarapatti, Veeraganur, Morupatti, Denkanikota and Krishnagiri filled the place of chairmen of the panchayats in their respective unions. The appointment of officials other than hospital assistants as members and chairmen is due to the difficulty of securing competent non-official members to discharge the

full duties of a chairman. The members and the chairmen of the panchayats with a few exceptions are reported to have worked harmoniously and with zeal, and attended to sanitation and the laying out of village streets and conservancy. The ward system of supervision was extended during the year under review to Kaveripatnam and Papparapatti Unions under the Hosúr Taluk Board. This system is reported to have not worked satisfactorily in fourteen out of the nineteen unions in which it was introduced and was abandoned for the same reason in the Hosúr Union. The Tiruppattúr Taluk Board President promises to give a trial to this system by introducing it in the newly-constituted union of Harúr. Private scavengering was in force in Rasipuram and Hosúr Unions and is reported to have worked with some success in the latter, while it proved a failure in the former. In the course of the current year a further trial will be given to the system by introducing it in the Atur and Harúr Unions. The Presidents of the Salem and the Hosúr Taluk Boards report that it cannot be introduced in the other unions under their management owing partly to the existence of a large number of cesspits and partly to want of scavengers. No information has been furnished by the Námakkal Taluk Board President. All the union panchayats are reported to have worked, on the whole, satisfactorily.

6. *Financial Position.*—The subjoined statement compares the receipts and the expenditure (debt heads excluded) with those of 1894–95:—

	1894–95.				1895–96.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.

Balance ..	43,674	43,995	8,512	96,181	44,450	39,152	7,950	91,552

Excluding debt heads (Rs. 11,821) the year opened with a balance of Rs. 96,181 against Rs. 63,076 in the previous year. The current actual receipts and charges excluding debt heads (Rs. 29,149 and Rs. 32,556) amounted to Rs. 3,63,761 and Rs. 3,68,390, respectively, against Rs. 3,85,420 and Rs. 3,52,315 in 1894–95. The year thus closed with a balance of Rs. 91,552 (excluding debt heads Rs. 8,414), of which Rs. 23,520 appertained to endowed institutions in charge of the local boards, leaving Rs. 68,032 or 18·7 per cent. of the actual receipts available for general purposes. This result was due to an opening balance in excess of the estimate and to enhanced receipts under land-cess, tolls, contributions for purposes other than educational, medical or public works, fees and fines and public works, and to short expenditure under Grant I. The principle upon which the receipts and charges were distributed among the local boards remained the same as in the previous years. A contribution of Rs. 53,330 was paid to taluk boards as below to make up for their inadequate receipts:—

	Rs.
(1) Salem	22,030
(2) Námakkal	1,225
(3) Hosúr	22,585
(4) Tiruppattúr	7,490
Total ..	53,330

The incidence of local fund taxation per head of the population according to the census of 1891 is shown in the subjoined statement :—

Area in square miles.	Population according to the census of 1891.	Income from taxation.				Total, Local Fund Receipts.
		Land-cess.	Tolls.	House-tax.	Total.	
1	2	3	4	5	6	7
7,521	1,862,544 ..	Rs. 2,02,209*	Rs. 43,331	Rs. 27,291	Rs. 2,73,331	Rs. 3,63,761

		1894–95.	1895–96.	1894–95.	1895–96.	1894–95.	1895–96.
		8	9	10	11	12	13
7,521	1,862,544 ..	Rs. A. P. * 0 1 11	Rs. A. P. 0 2 0	Rs. A. P. * 0 2 4	Rs. A. P. 0 2 4	Rs. A. P. * 0 3 2	Rs. A. P. 0 3 1

* The Government figures have been adopted.

The incidence of taxation excluding tolls showed an increase as compared with that in the previous year, while the incidence of the total local fund receipts showed a decrease. The increase in the former was due to large collection under land-cess, and the decrease in the latter to fall under total actual receipts.

II.—RECEIPTS.

7. Statements I-A and II-B show the total receipts of the local boards and union panchayats under the several heads including debt head transactions. The year opened with a balance of Rs. 1,08,002 against Rs. 66,291 in the previous year. The increase was due to a sum of Rs. 16,000 having been added to receipts towards the famine expenditure and to the large fall in the estimated expenditure under Grant I in 1894–95. The current receipts excluding debt heads (Rs. 29,149) amounted to Rs. 3,63,761 against Rs. 3,85,420 in 1894–95.

8. *Land-cess.*—This cess was levied as usual at the rate of one anna in the rupee. It will be observed from statement VII that the total demand including arrears amounted to Rs. 2,04,193, of which Rs. 2,00,622 or 98·3 per cent. of the total demand were collected within the year against Rs. 1,92,900 or 91·8 per cent. in 1894–95. The increase was due to the collection of heavy arrears which stood uncollected at the close of the previous year. A sum of Rs. 19 was written off as irrecoverable and there was a balance of Rs. 3,552 left at the close of the year.

9. *Tolls.*—Statement V shows the receipts and charges of tolls. There were fifteen toll-gates as in the previous year. But the gates at Kakangari and Sundugurki were transferred to Kannalapatti and Shulagiri, respectively, under G.Os., Mis. Nos. 290 L. and 2148 L., dated 15th February 1895 and 11th November 1895. Tolls were levied at all the gates at the maximum rates. All were leased out for the year for a sum of Rs. 39,779 against Rs. 37,713 in 1894–95. The increase is due to competition among the bidders. There were no arrears outstanding at the beginning of the year and the whole of the aforesaid lease amount was collected within the year. Excluding charges incurred for construction and repair of toll-sheds and contingencies, the net income from all heads of tolls amounted to Rs. 43,518 or Rs. 25–12–9 per mile of road maintained by local boards. The cost of maintaining each mile of these roads, excluding charges on account of bridges, &c., being Rupees 74–0–4, the income from tolls covered 35 per cent. of the total outlay against 36 per cent. in the previous year. The difference is due to increased expenditure on roads during the year under report on account of special repairs.

10. *House-tax.*—This tax was levied in all the thirty-two unions. Three-fourths of the maximum rates were in force in the unions of Shendamangalam, Hosúr, Krishnagiri, Dharmapuri and Harúr and half the rates in the remaining twenty-seven unions. From statement VIII it will be seen that there was an arrear of Rs. 210 outstanding at the beginning of the year which, together with the current demand Rs. 27,476, raised the total amount for realization to Rs. 27,686. Of this demand Rs. 27,290 or 98·5 per cent. were collected within the year against 97·4 per cent. in the preceding year. A sum of Rs. 119 was remitted on account of vacant houses and Rs. 220 were written off as irrecoverable being due on demolished or deserted houses and on houses whose owners were too poor to pay the tax. There was a balance of Rs. 57 left uncollected at the end of the year, of which the greater portion has since been collected or remitted. The collections were good in all the unions except Nanji Edayar, Hosúr, Krishnagiri and Dharmapuri.

From statement XVII it will be seen that the number of houses in the aforesaid thirty-two unions was 38,250 as per census of 1891, and the number actually assessed to the tax was 41,350. The number of houses actually assessed to the tax is in excess of the census figure of 1891 in all the unions except Mohanur, Velur, Vengarai, Edapady, Hosúr and Karimangalam. In all these latter cases except Edapady this was the result of exemptions granted by the taluk boards concerned on the ground of poverty under section 86 and to the exclusion of places used for charitable purposes under section 78 (2) of the Act. As regards the Edapady Union the Námakkal Taluk Board President reports that some of the hamlets comprised in it and not assessed by mistake, as reported to Government in this office letter No. 2056-L.F., dated 20th August 1895, will be assessed in the current year (1896–97). The average incidence of the tax per house assessed was As. 10–8 against As. 10–7 in 1894–95 and ranged between Rs. 1–12–8 in Hosúr and As. 5–5 in Morupatti. Coercive measures were resorted to in all the unions except Chendarapatti, Thathiengarpett, Pennagaram, Palacode and Harúr. Distress warrants were issued in 3,830 cases, property distrained in 651 and sold only in 62, the corresponding figures for 1894–95 being 4,729, 772 and 110. The amount recovered by actual sale was only Rs. 38. The largest number of warrants, viz., 850, was issued in Námakkal, but they were not executed with promptitude, distraint having resulted in thirty cases, while sales were effected in no case.

11. *Education.*—The receipts under this head fell from Rs. 20,272 to Rs. 19,774, the decrease appearing chiefly under school-fees in consequence of the reduction of fees in the backward localities of the Námakkal Taluk Board.

12. *Medical.*—The income under this head declined from Rs. 834 to Rs. 779 ; the reasons for this falling off are explained in the last column of statement I-A.

13. *Interest.*—The interest on investments made by local boards in favour of the endowed institutions in their charge amounted to Rs. 2,067 against Rs. 2,657 as shown in statement VI-A. The decrease is due to the difference of interest for some months of the year under report having been granted in the previous year.

14. *Miscellaneous.*—The income under this head declined from Rs. 66,021 to Rs. 56,579, the principal variations under several items being as follows :—

(*a*) *Contribution from Private Individuals.*—The receipts under this head rose from Rs. 528 to Rs. 2,436, the increase, which occurred chiefly under the Tiruppattúr Taluk Board, was due to the assumption of the management of the sanitary associations by the board with the amounts that were available and to the collection as contribution of one-half of the cost of the several sanitary establishments maintained at the cost of the taluk board.

(*b*) *Choultry Rents.*—These are derived from the lands attached to the choultries at Talavasal, Mohanur, Royacottah and Mathagiri and from the assessment of the lands made over to the Tiruppattúr Taluk Board for the chattram at Tiruppattúr. The sum realized from these sources amounted to Rs. 280 against Rs. 493 in 1894–95. The decrease was due to arrears outstanding at the beginning of last year having been collected in that year and to the renter of the lands attached to the choultry at Mohanur not having paid up his rent for the current year.

(*c*) *Market Rents including Slaughter-house Fees.*—There were 48 markets as the previous year. The fee system was extended during the year to the markets of Pudupet, Harúr, Chintalapadi, Attúr and Ayodiapatnam under G.Os., No. 404 L., dated 5th March 1895, and Mis. No. 932 L., dated 27th May 1895, and thus fees were levied in 39 against 34 in the previous year. It will be extended in the current year to the Taramangalam market, for which necessary provision has been made in the budget. The receipts from these institutions amounted to Rs. 11,922 against Rupees 12,147 plus Rs. 142 (being slaughter-house fees) in 1894–95. The decrease was due to heavy balance left uncollected. Other miscellaneous receipts credited to market funds amounted to Rs. 128. The expenditure on public works, &c., connected with them was Rs. 15,467 against Rs. 14,818. The balance in favour of the markets at the close of the year amounted to Rs. 16,954. Every endeavour was made to reduce the balance under this head still further by providing allotments for the construction of sheds, but it was found not possible to spend them within the year owing to the Sanitary Board's objections to the estimates forwarded for approval. The condition of the markets is reported to be good, and they are freely resorted to by the public.

(*d*) *Ferry Rents.*—The receipts from this source rose from Rs. 5,122 to Rupees 5,581, the increase occurring chiefly under the Hosúr Taluk Board owing to higher bids at the time of sales.

(*e*) *Bungalow Fees.*—There were 28 bungalows as in the previous year, and they were used by 575 travellers against 482. The total receipts from fees amounted to Rs. 746 against Rs. 617, the increase being due to the increased number of travellers that halted in them. The fees with the miscellaneous receipts amounted to Rs. 814. The total charges, excluding the cost of public works repairs (Rs. 2,226), amounted to Rs. 977 against Rs. 679 in the preceding year, the increase being due to the purchase of furniture for some bungalows. All bungalows except those under the Hosúr Taluk Board are reported to have been maintained in good order. The Hosúr Taluk Board President reports that the buildings under that board are in bad repairs for want of funds. With a few exceptions, all of them are well furnished.

(*f*) *Fees and Fines.*—The receipts under this head rose from Rs. 2,235 minus Rs. 142 (being the slaughter-house fees) to Rs. 3,095, the increase occurred chiefly under fines under the Police Act and other fees and fines in the Hosúr Taluk Board being due to the better enforcement of the provisions of the Town Nuisance Act and to the levying of temporary fees at the fairs and festivals of Adamancottah, Nathopatti and Hogavakal.

(*h*) *Fishery Rents.*—The total receipts from this source were Rs. 7,455 against Rs. 6,427 in 1894–95, and the increase was due to competition among the bidders. According to the demand, collection and balance statement furnished by the Treasury Deputy Collector, the total demand including arrears amounted to Rs. 8,767, of which Rs. 7,452 or 85·0 per cent. were realized within the year against 95·3 per cent. in 1894–95, leaving a balance of Rs. 1,315 uncollected at the close of the year. Rs. 283 realized from the Public Works Department has been shown as a separate item under this head instead of under 6. Public Works.

(*i*) *Rents and Produce of Land.*—The income under this head is derived from the sale of vegetables, rents of produce of trees, &c., on local fund lands and amounted to Rs. 196. This is shown in the current year under this head instead of under sundry receipts as required in paragraph 1 (1) of the memorandum of Government, No. 1179, dated 23rd August 1895.

(*j*) *Avenues.*—Statement IV-B gives statistics of road avenues. The number of miles of road provided with avenues was 1,262¾ miles as in the previous year. There were at the commencement of the year 219,381 trees; 1,483 plants were put down in the year and 1,281 perished, so that there were at the close of the year 219,583 trees. No satisfactory progress was made in this direction as the season was not favourable, and the planting was therefore only confined to filling up the gaps in the existing avenues. The receipts from the lease of avenue produce and sale of avenue clippings and withered trees amounted to Rs. 23,304 against Rs. 36,997 in 1894–95. The large decrease was due to a fall in the market price from Rs. 8 to Rs. 2 per 10 maunds for old tamarind and to Rs. 5 for new tamarind, and to the

...ity supply expected at the time of sales. This matter is receiving the special attention of the board. Excluding Rs. 5,431, the expenditure incurred in planting and maintaining avenues, the net receipts under this head amounted to Rs. 7,480 or 5·2 per cent. of the expenditure on repair of roads excluding bridges, &c., against 28·9* per cent. in the previous year. According to statement VIII, the total demand including arrear rents amounted to Rs. 23,839, of which Rs. 21,454 or 90 per cent. was collected within the year against 90·9 per cent. A sum of Rs. 1,057 was written off as irrecoverable. The balance that remained uncollected at the close of the year was thus Rs. 1,328, and it is almost covered by decrees which are in course of execution. The property purchased at a court sale held in satisfaction of a portion of a decree of one of the defaulters was sold, and the sale-proceeds were credited to local funds in the current year (1896–97) under sanction conveyed in G.O., Mis. No. 571 L., dated 21st March 1896. The condition of the existing avenues is reported to be fair.

* This was by mistake shown as 26·4 in the last year's report.

15. *Public Works.*—The total receipts under this head rose from Rs. 1,988 to Rs. 3,036. The increase occurred chiefly under (*e*) Refunds of expenditure and (*f*) Miscellaneous and is explained in the last column of the statement I-A.

16. *Contributions from Provincial Funds.*—The receipts from this source amounted to Rs. 7,970 against Rs. 23,837 in 1894–95. The decrease was due to an adjustment of Rs. 16,000 towards the famine expenditure having been included in the receipts of the previous year under this head.

III.—EXPENDITURE.

17. Statement I-B shows the total expenditure of the local boards under all grants including debt-head transactions. The total expenditure excluding debt heads (Rs. 32,556) amounted to Rs. 3,68,390 against Rs. 3,52,315 in 1894–95. The difference is the net result of increased expenditure under Grants I and III and decrease under Grants II and IV. The outlay under the several grants and the percentages of expenditure under each grant to the total outlay of the year are exhibited below:—

Grants.	Expenditure.		Percentage.	
	1894–95.	1895–96.	1894–95.	1895–96.
	Rs.	Rs.		
Grant I	1,71,275	1,88,078	49	51
,, II	73,529	71,426	21	19
,, III	79,256	83,382	22	23
,, IV	28,255	25,504	8	7
Total ..	3,52,315	3,68,390	100	100

18. *Grant I, Public Works.*—Statement III shows the particulars of the outlay on works. The total expenditure on works amounted to Rs. 1,55,186 against Rupees 1,46,474 in the preceding year, the increase being mainly due to additional allotments provided for the special repair of certain roads which were much in need of repairs and to allotments sanctioned from the balance of the market fund under the Námakkal Taluk Board for the construction of two feeder roads to markets. The expenditure was equivalent to 42·7 per cent. of the year's receipts and 42·1 per cent. of the total charges against 38·0 and 41·6 per cent., respectively, in 1894–95, and was incurred wholly by the Engineering establishment with the exception of a small amount of Rs. 4,804, which was spent by the Revenue Department and the union panchayats on sundry petty works.

19. *Communications—New and Repair.*—Of the total outlay on works mentioned in the preceding paragraph, Rs. 1,32,643 or 85·9 per cent. of the allotment were spent on roads against Rs. 1,25,087 or 88·2 per cent. in 1894–95. The decrease was due to the incompetency of the Salem East overseer and to the delay on the part of the second Personal Assistant to the District Board Engineer in check-measuring works.

Both of these officers have since left the district. Statement IV-A gives statistics of roads in the district. There were 2,053⅛ miles of road in charge of local boards at the commencement of the year. Of this length 1,687 miles were maintained against 1,676¼ miles in 1894–95. Excluding the charges on account of bridges, toll-sheds, &c., the cost of maintaining each mile of road repaired was Rs. 104 for district, Rs. 58 for taluk and Rs. 117 for village roads, against Rs. 98, Rs. 53 and Rs. 95, respectively, in the previous year. The total outlay on village roads was Rs. 8,237 or 6·5 per cent. of the total outlay on roads, viz., Rs. 1,26,872, against 4·3 per cent. in 1894–95.

20. *Condition of Roads.*—The President, Taluk Board, Salem, states that as he is new to the district, he cannot express an opinion on the state of the roads under his board, but I regret to say they were in a very bad condition last year. The President, Taluk Board, Námakkal, says that the state of roads in both the revenue taluks is far from satisfactory, and in Námakkal particularly they are in the worst possible condition. The President, Taluk Board, Hosúr, reports that some of the roads in the Krishnagiri and Dharampuri taluks are in a fair condition while others are in a deplorable state requiring special repairs, and that in the Hosúr taluk they are particularly bad. The President, Taluk Board, Tiruppattúr, says that the general condition of the roads under his board is fair with a few exceptions. The District Board Engineer states that every endeavour is being made by him to restore these roads by obtaining special grants. The matter has received special attention.

21. *Civil Buildings—New and Repair.*—A sum of Rs. 5,461 was spent out of a total sanctioned allotment of Rs. 17,760 on "New works," which consisted in providing four schools, four dispensaries, two choultries, two bungalows and some other petty buildings—*vide* my letter No. 192-Government, of 24th December 1895. The decrease is mainly due to the disapproval of the estimates relating to dispensary buildings by the Sanitary Board and to the non-acquisition of sites in some cases and to late sanction in the case of some others. Under "Repairs" a sum of Rs. 5,024 was spent against a sanctioned allotment of Rs. 7,131 for repairing and whitewashing, as usual, the buildings in charge of local boards. The decrease is due to savings effected and to late sanction of allotments.

22. *Miscellaneous Public Improvements—New and Repair.*—Rs. 5,935 were spent under "New works" against an allotment of Rs. 11,893. The decrease is mainly due to the disapproval of the estimates for market sheds by the Sanitary Board. No important work worthy of mention was undertaken under "Repairs"; a sum of Rs. 6,123 was spent against an allotment of Rs. 13,243 for maintaining avenues and repairing market sheds. The decrease is due to the provision of lump sums in the budget without details as to works on which they are to be spent and to subsequent sanction of allotments from "Reserve" when estimates are received for sanction and allotment of funds. This practice will be put a stop to in framing the ensuing year's budget as directed by Government at the end of paragraph 20 of the general local fund administration report for 1894–95.

23. *Engineering Establishment.*—Mr. H. W. Allen having resigned on the 27th April 1895, Mr. J. B. MacFarlane was appointed District Board Engineer and joined the district on the 1st November 1895. In the interval Mr. A. B. Coalkers temporarily filled the place. A second Personal Assistant to the Engineer was appointed in the year with the sanction of Government conveyed in G.O., Mis. No. 870 L., dated 16th May 1895. The cost of the establishment including contingencies amounted to Rs. 27,120, or 18·0 per cent. of the outlay on works by that agency (Rs. 1,50,382), against 17·9 per cent. in 1894–95, the maximum limit prescribed by Government being 20 per cent.

Tools and Plant.—The outlay on tools and plant by the Engineering staff was Rs. 4,823, or 3·2 per cent. of the expenditure on works by that agency, against 0·25 per cent. in the previous year, the maximum limit prescribed being 1 per cent. The large increase was due to the necessity for purchasing a large number of tools owing to the abolition of the system of contract for spreading as reported last year.

24. *Grant II, Education.*—The educational operations of local boards in the district were conducted on the same lines as in previous years. One sessional school, five schools on the salary system, 228 on the salary-result system and 289 on the result grant system were maintained against 2, 5, 218 and 273 * respectively, in 1894–95. The education of Panchama children received attention; and of the number of schools noted above, nineteen were exclusively maintained for this class—of these schools, thirteen were on the salary-result system and the rest on the result grant system. There were also thirty-two schools on the salary-result system and one on the result grant system for the exclusive benefit of Muhammadans. There were on the rolls in all the schools on the 31st March last 14,968 boys and 1,404 girls against 13,887 † boys and 1,220 girls in 1894–95, and the total number of boys under instruction bore a proportion of 10·7 per cent. of the school-going male population (139,691) calculated at 7½ per cent. of the total population of the district against 9·9 per cent. in the previous year. The outlay on education, excluding the expenditure on school buildings (Rs. 2,987) shown in statement III, amounted to Rs. 71,426 against Rupees 73,529 in 1894–95 and formed nearly 19·6 per cent. of the current receipts and 19·4 per cent. of the current charges of the year. The high percentage was due to the fact of some of the secondary schools being not self-supporting. Necessary steps are being taken to reduce the expenditure under this head as required by Government in reviewing the budget for the current year (1896–97).

* Includes also the two mixed Hindustani schools, for which information was furnished last year on receipt of objections.

† According to statements IX and X furnished last year for board and aided schools, the number of boys are only 13,887.

25. (*a*) *Inspection.*—The inspecting and supervising agencies continued unaltered. The ten inspecting schoolmasters employed by the district board visited 1,836 villages and prepared 772 ‡ schools for examination against 1,721 and 787 ‡, respectively, in 1894–95. The result shows a decrease in the number of other schools prepared for examination and is apparently due to more attention paid to board schools. The cost of this establishment amounted to Rs. 4,955 against Rs. 4,979 in 1894–95.

	1895–96.	1894–95.
‡ Number of board schools ..	291	286
„ of other schools ..	481	501
Total ..	772	787

26. (*b*) *Training Schools.*—Nil.

27. (*c*) *Sessional Schools.*—There was one school of this kind against two in the previous year, and it was worked at Námakkal, Tiruchengódu and Súramangalam. The sanctioned strength of twenty against ten in the preceding year was taught in each of the three centres in which this school was held. Thus sixty students were educated and all of them went up for the Primary School examination and thirty-seven secured a complete pass. The total cost for the year was Rs. 1,117, and the average cost to Local funds for a teacher under training was Rs. 18–9–10 against Rs. 24–8–10 in 1894–95.

Besides the students referred to above, two Muhammadan teachers were trained during the year in the Muhammadan branch of the Training school at Madras, and they were paid stipends from Local funds as usual. The total cost under this head was Rs. 83 against 192 in the preceding year, and the decrease was due to the late admission of the students. Out of 1,283 teachers employed in the board and other aided and unaided schools, 682 possessed the qualification shown in the margin § and the remaining 601 teachers were untrained. The number of untrained teachers employed in the aided and unaided schools was 571; excluding this number, the number of untrained teachers employed in the board schools was thirty against twenty-four in the preceding year. The attention of the educational officers and of the Presidents of taluk boards will be invited to the

§ Number holding trained teachers' certificates	248
Number holding untrained teachers certificates	44
Number holding general education certificates	390
Total ..	682

advisability of employing only trained teachers and of getting those already employed trained as early as possible.

28. *Technical Schools.*—In the Námakkal high schooi, carpentry was taught throughout the year. There were on the 31st March 1896 forty-four students against thirty-five in the previous year. The transactions relating to this department of the high school having been clubbed in the returns from the educational officers, with the upper and lower secondary departments of that school, it has not been found possible to show them separately in statement IX as required in paragraph 1 (24) of the memorandum of Government, dated 23rd August 1895, No. 1179.

29. (*d*) *Secondary Schools*—(i) *Salary System.*—There were five board secondary schools on the salary system as in the previous year attended by 543 boys and thirteen girls against 584 boys and eight girls in the previous year. Of the above five schools one was of the upper secondary and the others of the lower secondary grade. Out of nine students who appeared for the Matriculation examination only two passed, the corresponding figures for the previous year being thirteen and five. The result is bad. From the lower secondary schools and the lower secondary department of the upper secondary school 52 students were presented for the Lower Secondary examination, but only 5 or 9·6 per cent. secured a complete pass against 42, 16 and 38·1 per cent. In the year under report, 26 more students passed partially. The result is, however, very unsatisfactory. The average net cost of educating each pupil in the upper secondary school and department was Rs. 10–6–10 against Rs. 34–11–6. The net cost of each pupil in the lower secondary schools and departments fell from Rupees 6–3–5 to Rs. 2–7–7. None of the schools under this head are self-supporting.

(ii) *Salary-result System.*—There were four lower secondary schools on the salary-result system at Rasipuram, Shendamangalam, Denkanicottah and Harúr against the same number in the previous year. The school at Uttenkarai was reduced to primary grade and the Harúr primary school was raised to the secondary grade in the year under report. The above four schools were attended by 409 boys and 29 girls against 326 boys and 32 girls. None of these schools present pupils for the lower secondary examination as the students are taught only up to the second form. The net cost of educating each pupil in these schools and departments was Rs. 21–13–0 against Rs. 25–7–5 in 1894–95. Though the average shows a decrease when compared with that of the last year, it is yet high. For this reason, the Rasipuram school was placed on the salary system in the current year as it was suggested by the educational officers that by this arrangement the net cost of the school will be reduced.

30. (*e*) *Elementary Schools*—(i) *Salary system*—Nil—(ii) *Salary result-system.*—There were at the beginning of the year 214 schools—179 for all classes generally, 23 for Muhammadans and 12 for Panchamas. Ten additional schools were opened during the year—nine for Muhammadans (three in the Salem taluk, four in the Atur taluk and two in the Tiruchengódu taluk) and one for Panchamas in the Dharmapuri taluk. Five more schools—one in each of the taluks of Salem, Atur, Hosúr, Krishnagiri and Uttangarai were transferred from one village to another on account of poor attendance. There were thus at the close of the year 224 schools—179 for all classes generally, thirty-two for Muhammadans and thirteen for Panchamas which had on the rolls 7,916 boys and 1,362 girls against 7,414 and 1,180, respectively. The net cost to local funds of maintaining these schools and departments was Rs. 30,386 or Rs. 3–11–2 per pupil against Rs. 30,232 and Rs. 4–0–8, respectively, in the preceding year. The number of pupils who appeared for the standard examinations from these schools and from the primary departments of the secondary schools was 5,838, of which 4,351 or 74·5 per cent. passed, the corresponding figures for the previous year being 5,792, 4,201 and 72·5 per cent.

31. (*f*) *Grants-in-aid*—(2) *Results Grants.*—There were 289 schools aided on the result-system with 6,100 pupils on the rolls at the close of the year against 273 * schools with 5,563 pupils in the previous year. The number of pupils examined for grant was 4,279, of whom 3,005 or 70·2 per cent. were found qualified, the corresponding figures for 1894–95 being 4,382, 2,997 and 68·4 per cent. Grants were paid at the maximum rates, and out of the total amount of Rs. 7,015 earned, Rs. 6,040 or 86·1 per cent. were disbursed within the year. The total expenditure including arrear payments amounted to Rs. 6,346 against a sanctioned allotment of Rs. 6,351 or 99·9 per cent.

* Includes the two mixed Hindustani schools for which information was furnished last year on receipt of memorandum of Government, dated 23rd August 1895, No. 1179.

(3) *Building Grants and* (4) *Miscellaneous Grants.*—The details of the charges under these heads are given in the foot-note to statement X.

32. (*h*) *Miscellaneous.*—The expenditure under this head fell from Rs. 1,285 to Rs. 876, the decrease being mainly due to a smaller demand for books.

33. *Grant III, Medical Services, Sanitation, &c.*—There were as in the previous year twenty-one medical institutions including the gosha women's dispensary at Salem. During the year under report, the Sankaridrug hospital was converted into a dispensary and the dispensary at Tiruchengódu was made a hospital. Of these, eight were hospitals containing accommodation for in-patiets and the rest were dispensaries. All the above institutions, except the gosha women's dispensary at Salem and the dispensaries at Thammanpatti, Shandamangalam, Thalli and Royacottah were located in local fund buildings. Estimates for the construction of suitable buildings for the dispensaries at Thammanpatti, Shandamangalam and Thalli were sanctioned, but they were not approved by the sanitary board. They will be undertaken in the course of the current year as soon as the estimates now under revision are approved of by the sanitary board. The local fund dispensary building at Omalur was repaired in the year at a cost of Rs. 617. In all the twenty-one institutions, 899 in-patients and 158,665 out-patients were treated against 808 and 163,088 respectively, in 1894–95. The total number of in and out patients treated during the year bore a proportion of 8·6 per cent. of the total population against 8·8 per cent. in the preceding year. The reasons for the decrease are set forth in the District Medical officer's report enclosed. The total cost of maintaining these institutions amounted to Rs. 30,234 as detailed in statement XII against Rupees 29,547 * in 1894–95. The average cost of treating each patient was As. 3 against As. 2–11 in 1894–95. The increase is due to the fall in the number of out-patients treated. There were no local committees for the medical institutions under the Hosúr and Tiruppattúr Taluk Boards. These boards consider that the supervision of the District Medical officer is sufficient. The Námakkal Taluk Board President reports that committees appointed for the institutions under his board continued to work satisfactorily. As regards the hospital committee at Yercaud, the Salem Taluk Board President says that the draft revised rules received from the District Medical officer have been referred to a sub-committee, and that they will be introduced in the course of the current year (1896–97). The Hosúr hospital and the Royacottah dispensary have endowments attached to them, the former draws interest from the investments as detailed in statement VI-A, and the latter derives its income from the rents on lands attached to it. The receipts from these and other miscellaneous sources amounted to Rs. 252 and Rs. 16, respectively, and the charges to Rs. 3,330 and Rs. 845, the difference in both cases having been made good from general funds.

* The Government figure in the general administration report has been adopted.

34. *Medical Schools and Medical Pupils.*—Nil.

35. *Midwives and Midwifery pupils.*—There were four midwives against five, one having left the district at the close of 1894–95. A total number of 194 labour cases were attended by them against 212 in the preceding year. The decrease is due to short work turned out by the Hosúr midwife and she has been called upon to explain it. They are paid by results. The cost of maintaining midwives amounted to Rs. 636 and the average cost of each case attended was Rs. 3–4–5 against Rs. 2–15–1 † in the previous year. The increase is due to the short work referred to above. Though provision was made in the budget for employing ten midwives, still, for want of trained women, the employment of the full sanctioned number was not possible. To meet this, four are undergoing training and, as soon as they complete their course, they will be posted where wanted. The charges for training these pupils amounted to Rs. 129.

† The Government figure in the general administration report has been adopted.

36. *Medical Training of Women.*—Of the two lady apothecaries Miss Greene and Miss Holmes trained at the expense of this board, the former was placed in charge of a gosha dispensary at Salem and the latter was attached to the municipal hospital at Tiruppattúr. A separate gosha dispensary was opened at Tiruppattúr on the 1st April 1896 and Miss Holmes is in charge of it. The municipality have promised to bear one-fourth of the cost of maintaining this dispensary.

37. *Vaccination.*—There were three deputy inspectors of vaccination and 48 vaccinators and probationers employed by the district board as in the previous year. Of the above 48 vaccinators and probationers, two second-class vaccinators were employed in the central vaccine depôt. The total number of operations performed by this agency was 76,652, of which 70,757 or 92·3 per cent. were successful, the corresponding figures for 1894–95 being 76,598, 69,183 and 90·3 per cent. The average cost of each successful case was As. 2–1 as in the preceding year.

The outturn by the medical subordinates in charge of hospitals and dispensaries shows an increase as compared with that of the preceding year. The total number vaccinated was 2,201 against 1,366 in 1894–95 and the number successful 1,689 against 1,156. But the percentage of successful cases fell from 84·6 to 76·7.

Including the work done by these subordinates, the total number of successful operations was 72,446 or 38·7 per mille of the total population as per census of 1891 against 38·0 in 1894–95. The total number of operations on children under one year of age was 24,502, of which 23,365 or 40·4 per cent. of the number born (57,778) were successfully protected within the year against 23,829 or 40·2 per cent. in 1894–95. Vaccination was conducted throughout the year solely with glycerine vaccine paste supplied from the central depôt at Salem.

38. *Sanitation.*—The outlay under this head was as shown below :—

	1894–95.	1895–96.
	Rs.	Rs.
(1) Improvement of water-supply	3,153	3,535
(2) Do. of village-site	2,343	4,004
(3) Scavengering establishment	21,172	22,379
(4) Arrangements at fairs and festivals	526	464
(5) Other Sanitary outlay	509	855
Total ..	27,703	31,237

There is increase under all the items except fairs and festivals as compared with the actuals of the preceding year. Five new wells were dug, 44 existing sources of water-supply were repaired and 21 sources of drinking-water were guarded, the corresponding figures last recorded being 7, 52 * and 16. In 70 villages prickly-pear was removed and in seven villages streets were repaired against 43 and 7, respectively, in 1894–95. Conservancy establishments were maintained in 32 unions and 23 other villages against 31 and 27, respectively, in the previous year. The establishments entertained for Belur, Patchur, Mallapadi and Papparapatti were abolished and one was newly entertained in the Marandahalli village. The arrangements regarding the supervision of these establishments continued unaltered. Special sanitary arrangements were made at the time of festivals at fifteen places against sixteen in the preceding year, and this accounts for the short expenditure under this item. Under other sanitary outlay a sum of Rs. 855 was spent chiefly in constructing two latrines, repairing eight latrines, repairing a cholera shed and in the purchase of cholera preventives.

* This figure corresponds with the last year's statement. The figure 46 given in the report that accompanied it is a mistake.

The proportion of the total outlay on sanitation to the sanctioned allotment (Rs. 34,323) was 91 per cent. against 90 per cent. in 1894–95.

39. *Choultries.*—The local boards maintained 40 choultries against 39 in the previous year. The MacLeod's Choultry at Pethunaickenpalaiyam was brought on the list by the Salem Taluk Board during the year and Rs. 330 were spent in repairing it. These were used as mere rest-houses and no account was therefore maintained to

record the number of travellers that halted in them. The total cost of their upkeep, as per details furnished in statement XI, amounted to Rs. 1,071, excluding the cost of public works expenditure (Rs. 3,471) against Rs. 1,144 in 1894–95 and a total estimate of Rs. 1,288. The Talavasal, Mohanur, Royacottah, Mathagiri and Tiruppattúr have endowments in lands as detailed in paragraph 14 (*b*) of this report and the choultries at Suramangalam, Thoppur, Jalarpet and Morappur receive a contribution of Rs. 1,750 from provincial funds. The income derived from the above sources, together with other miscellaneous receipts, amounted to Rs. 2,041, which added to the balance of Rs. 8,415 and a contribution of Rs. 278 made in the year under review to the choultries at Paramathi and Royacottah from the general local fund revenues to wipe off the *minus* balances with which they closed, raised their total assets to Rs. 10,734. Deducting the total charges Rs. 4,168 as shown in statement VI, there was a balance of Rs. 6,566 at the end of the year.

40. *Bungalows.*—The expenditure and other particulars under this head have been noticed in paragraph 14 (*e*) of this report.

41. *Contributions.*—A sum of Rs. 1,534 was debited to the district board on the advice of the Accountant-General, being the proportionate cost of sanitary inspection, reserve medical staff, and cutler's establishment. The contribution payable to the Coimbatore District Board towards the cost of lighting the Cauvery bridge under G.O., No. 825 L. Mis., dated 8th May 1895, was not paid as no claim was made for it in the year. The Tiruppattúr Taluk Board contributed Rs. 1,044 to the Municipal Councils of Tiruppattúr and Vániyambádi for the upkeep of the hospitals maintained by them calculated at 25 per cent. of the net cost as per G.O., No. 2104 L., dated 20th September 1893. As usual Rs. 1,355 were paid from the district fund to the Municipal Council, Salem, Rs. 1,100 towards the maintenance of hospitals as regulated with reference to G.O., No. 800 L. Mis., dated 11th April 1893, Rs. 200 for the poor house and Rs. 55 for the lying-in ward.

42. *Miscellaneous Endowed Institutions.*—The only item falling under this head is the charge incurred on account of the water-shed establishment maintained in the district court compound. Similar charges incurred in markets during the hot season are debited to the contingencies of the respective markets and not to this head as stated in the last year's report.

43. *Lighting.*—The charges under this head amounted to Rs. 3,603 against Rs. 4,480 in 1894–95. The lights were put up at the places detailed in the subjoined statement :—

Places.	Number of lamp-lighters.	Number of lights put up.	Total cost.	Remarks.
			Rs.

Taluk Board	..	..	30	Do. do.
Total ..	30	784	3,603	

The number of lights maintained in the unions and other places increased from 732 to 784, and the sum spent on them amounted to Rs. 3,603 against Rs. 4,480 in 1894–95. The cost of each light maintained was Rs. 4–6–3 against Rs. 6–1–11 in the preceding year, excluding Rs. 162 incurred on the purchase of new lights and posts. Keeping in view the instructions of Government to reduce the expenditure in this direction, large provisions made by the Námakkal Taluk Board in particular were disallowed by the district board in passing the current year's budget.

44. *Grant IV, Miscellaneous—Supervision and Office management.*—The total cost of general administration including contingencies amounted to Rs. 25,342 against Rs. 24,521 in 1894–95 and the total estimate Rs. 27,501. The total expenditure formed 7 per cent. of the current receipts and 6·9 per cent. of the current charges against 6·4 and 7 per cent., respectively, in the preceding year. The variations are explained in the last column of Statement I-B. The rates at which travelling allowance was paid to members of local boards remained unaltered.

45. The report was passed by the district board at its meeting held on the 8th instant. A copy of the resolution is enclosed.

ENCLOSURE.

ANNUAL Concise Report on the working of the Local Fund Hospitals and Dispensaries in the Salem District for the year 1895–96.

Public Health.—The climate of the year was seasonable and the rainfall well distributed over the first eight months of the year, the average for the district being 38·51 inches as compared with 30·62 inches in the previous year; nevertheless, the public health, though fairly good, was not so good as in 1894–95 on account of the greater prevalence of fevers throughout the year. Cholera was less prevalent than usual and existed only during the first half of the year in the Salem, Námakkal and Tiruchengódu taluks, the rest of the district remaining nearly free from the disease.

Small-pox in a sporadic form existed throughout the year and was most prevalent during the latter months in the taluks of Dharmapuri, Krishnagiri and Uttengarai, where vaccination is backward. In the month of March influenza was prevalent in the Salem, Námakkal and Tiruchengódu taluks.

Vital Statistics.—Sixty-two thousand and eight births and 36,049 deaths were registered, showing a birth-rate of 31·58 and a death-rate of 18·36 per mille: the number of births were 1,333 less, and the deaths 3,279 more, than registered in the previous year: the increase in deaths was under the headings of Fevers and All other causes.

Registration was fairly good in the villages, but defective in the towns where the duty is entrusted to karnams who are, as a rule, unable to collect the necessary information where a large population is concerned.

Sanitation.—Conservancy establishments were maintained in 55 towns and villages constituting 32 unions and 7 sanitary associations. The union at Harúr was established during the year.

In the larger unions where the supervision is better, satisfactory attention and progress has been made in maintaining the cleanliness of the town sites and the condition of the roads, drains and water-supply, but in the smaller unions and villages where the supervision is not so good, sanitation makes little, if any, progress: attention is certainly given to the water-supply, but the removal of rubbish is often done in a perfunctory manner owing to the work of the sweepers not being closely supervised, and as scavengers are scarce and cannot be obtained elsewhere than in the larger towns, the present number of public latrines—forty-one—cannot be increased or the existing ones properly attended to, so animals, mostly pigs, are largely relied on to remove human ordure deposited about the streets and vacant spaces. At Hosúr private scavenging has been worked satisfactorily on a small scale, but in other towns of similar size the system cannot be introduced partly owing to the want of scavengers and partly to the unsuitable arrangement of the houses and yards.

Vaccination.—The local fund vaccinators performed 76,652 vaccinations, of which 70,757 or 92·30 per cent. were successful, and the medical subordinates 2,201 vaccinations, of which 1,689 or 76·73 per cent. were successful: these results are very similar to those obtained in the previous year when the local fund vaccinators did 76,598 vaccinations, of which 69,183 or 90·31 per cent. were successful, and the medical subordinates 1,366 vaccinations, of which 1,156 or 84·62 per cent. were successful; but of the total work done by the vaccinators and the medical subordinates this year, there was a decrease of 4,736 primary vaccinations and an increase of 5,625 re-vaccinations.

Twenty-four thousand five hundred and two infantile vaccinations were performed, of which 23·365 or 95·35 per cent. were successful: there was a decrease of 1,372 of these vaccinations as compared with the previous year.

Twelve thousand two hundred and three re-vaccinations were performed, of which 9,919 or 81·28 per cent. were successful as compared with 6,578 re-vaccinations, of which 5,110 or 86·83 per cent. were successful in the previous year.

All vaccinations were performed with glycerine vaccine paste supplied from the depôt at Salem and the results have been generally satisfactory except during the hot months when the vaccinators are prone to keep the paste too long before use and to insufficiently guard it against the influence of heat.

Hospitals and Dispensaries—(a) Nature and sufficiency of Accommodation.—No alteration was made in the number of hospitals (eight) and dispensaries (thirteen), and the institutions were distributed as follows:—

Boards.	Hospitals.	Dispensaries.
Hosúr Taluk Board	(1) Hosúr. (2) Dharmapuri. (3) Krishnagiri.	(1) Denkanikota. (2) Pennagaram. (3) Palcode. (4) Royakota. (5) Thalli.
Námakkal Taluk Board	(1) Námakkal. (2) Tiruchengódu.	(1) Sankaridrug. (2) Shendamangalam.
Tiruppattúr Taluk Board	(1) Harúr.	(1) Uttengarai. (2) Alangayam.
Salem Taluk Board	(1) Yercaud. (2) Atur.	(1) Rasipur. (2) Omalúr. (3) Thammampatty.
District Board	....	(1) Gosha Women's, Salem.

The hospital at Sankaridrug was reduced to the status of a dispensary and the dispensary at Tiruchengódu converted to a hospital in the month of May.

The hospitals accommodate sixty-two beds which are found to be sufficient; the dispensaries receive out-patients only.

The buildings are public property, except those of Thammampatty, Thalli, Royakota and Shendamangalam, which are rented.

Dead-houses are required at Yercaud, Alangayam, Denkanikota, Atur, Thammampatty, Omalúr and Shendamangalam.

(b) State of repair of Buildings.—The buildings at Thalli and Omalúr are in bad condition and it is intended to construct new ones. The contagious diseases sheds at Námakkal, Yercaud, Dharmapuri and Krishnagiri and the *post-mortem* sheds at Uttengarai and Dharmapuri and the cook-house at Pennagaram require repairs; in other respects the buildings are in good condition.

(*e*) *State of repair of Furniture.*—The furniture has been maintained in good condition and has been sufficient.

(*d*) *Inspections*—(1) *Steps taken to carry out the recommendations of the Surgeon-General with the Government of Madras.*—The Surgeon-General did not visit the district during the year.

(2) *Steps taken to carry out the recommendations of other Inspecting officers.*—All recommendations made have received attention from the local authorities concerned.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines.*—Nil.

(*f*) *Number of patients treated as compared with previous years.*—Eight hundred and ninety-nine in and 1,58,665 out patients were treated during the year and the average daily attendance was 40·82 and 965·72 respectively; there was an increase of 91 in-patients and a decrease of 4,423 out-patients and a small increase in the average daily attendance as compared with the previous year: the decrease of out-patients is attributed to the less prevalence of ophthalmia and to the changes among the medical subordinates attached to the Royakota and Thammampatty dispensaries.

The attendance for the past four years is compared :—

Years.	Admissions.		Average daily attendance	
	In.	Out.	In.	Out.
1892–93	795	155,842	31·15	948·55
1893–94	776	144,149	31·80	881·58
1894–95	808	163,088	33·60	954·95
1895–96	899	158,665	40·82	965·72

(*g*) *Mortality and actual causes of it.*—Nineteen deaths occurred among the in-patients from the following causes :—

Dropsy 3, phthisis 2, effects of hanging 1, pneumonia 2, ulcer 1, infantile convulsions 1, extravasation of urine 1, fracture of skull 1, valvular disease of heart 1, wound of abdomen 1, concussion of brain 1, debility 1, and tetanus 3.

Forty deaths among out-patients—from lung diseases 5, fevers 7, stricture of urethra 1, dropsy 2, ulcer 1, injury 1, burns 4, fracture of thigh 1, extravasation of urine 1, dysentery 4, pneumonia 2, fracture of skull 1, puerperal eclampsia 1, tetanus 3, obstruction of bowels 1, brights' disease 1, suicide 1, hydrophobia 1, hæmaphila 1, and diarrhœa 1.

(*h*) *Operations and results.*—Eighty-three major and 4,697 minor operations were performed with one death from puerperal eclampsia.

(*i*) *Establishment whether sufficient and efficient.*—The establishment was sufficient and generally efficient.

(*j*) *Midwives.*—Four midwives were employed, and attached to the hospitals at Hosúr Dharmapuri, Námakkal and Atur, and altogether attended 194 cases of labour besides making themselves generally useful among the female patients attending the hospitals: they have been paid on the salary-grant system and with the exception of the midwife at Hosúr, who only attended sixteen cases of labour, their work has been satisfactory.

Four women are undergoing a course of training at the Maternity Hospital, Madras, with the view to subsequent employment at Krishnagiri, Harúr, Tiruchengódu and Sankaridrug.

(*k*) *Dispensary for Caste and Gosha Women.*—The district board together with the Salem Municipal Council have maintained a dispensary for gosha women and children in the town of Salem. Three thousand six hundred and thirty-two out-patients with a daily average attendance of 25·70 have been treated. Apothecary Miss J. A. Greene has been in charge and also receives a carriage allowance for gratuitous attendance at their homes on any females, gosha or otherwise, who may require her services between certain hours.

(*l*) *General Remarks.*—All the hospitals and dispensaries and the stations in which they are located were inspected once during the year, and also the principal villages along the route of inspection.

SALEM, 30*th May* 1896. (Signed) A. N. ROGERS-HARRISON, Surgn.-Lt.-Col., *District Medical and Sanitary Officer.*

ORDER—No 1544 L., dated 26th August 1896.

The local fund receipts and charges of the Salem district for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95 :—

	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.

2. *Local Boards and Panchayats.*—The local boards met a sufficient number of times and the attendance was good, except in the case of the official members of the District and Salem taluk boards. There were 32 union panchayats at work against 31 in the previous year and the average attendance at their meetings continued to be fair, being five out of a strength of eight; five of these panchayats failed to meet once a month as required by section 129 of the Local Boards Act, notwithstanding the fact that this irregularity was noticed in the case of four of them in the previous year also. The Presidents of the taluk boards concerned should see that this does not recur. The ward system of supervision, which was in force in seventeen unions, was extended to two others during the year under review, but it is reported to have worked satisfactorily in only five of them. This is not satisfactory and the Government trusts that in future the panchayatdars will take more interest in the discharge of the duties entrusted to them and endeavour to make the system a success. The private scavenging service continued to be in operation in the Hosúr and Rasipuram unions and attained some success in the former, while in the latter it proved a failure. The taluk boards and panchayats are reported to have worked on the whole satisfactorily.

3. *Receipts.*—(1) The collections under land-cess amounted to 98 per cent. of the demand against 92 per cent. in the previous year.

(2) The whole of the demand under tolls was realised within the year.

(3) House-tax was levied at half the maximum rates in 27 unions and at three-fourths rates in the remaining five. The receipts from this source fell from Rs. 29,807 to Rs. 27,290, owing to the absence of large arrears at the commencement of the year, as in 1894–95, but the percentage of the collections to the demand rose from 97 to 99. Coercive measures were resorted to in 27 unions, the number of warrants issued being 3,830, but property was distrained in only 651 cases and sold in 62.

(4) There were 48 markets under the control of the local boards and fees were levied in 39 of them, against 34 in the previous year. The receipts from this source fell from Rs. 12,522 to Rs. 12,050, while the charges rose from Rs. 12,961 to Rupees 15,467. There was, however, a large balance of Rs. 16,954 in favour of these institutions at the end of the year, which was due to the fact that objection was taken by the Sanitary Board to the estimates for the construction of some sheds proposed to be built and consequently the work had to be postponed. The Government trusts that the balance will be considerably reduced in the current year.

(5) The receipts from avenues declined from Rs. 36,997 to Rs. 23,304, the decrease being ascribed to a fall in the market price of tamarind and to the scanty produce expected at the time of the leases. This subject, however, is stated to be receiving the special attention of the district board. There was a small increase in the total number of trees and their condition is reported to have been fair.

4. *Expenditure*—(1) *Public Works.*—It is to be regretted that the percentage of the outlay under this head to the allotment again declined, being 75 against 79 in 1894–95, and that the expenditure on communications was only 92 per cent. of the minimum lately prescribed by Government. The explanation of this decrease offered in paragraphs 19 and 21 of the President's report cannot be accepted as satisfactory. The Government trusts that the practice of entering in the budgets works for which estimates are not ready will be discontinued in future. Notwithstanding the increase in the total outlay on roads from Rs. 1,16,049 to Rs. 1,26,872, their condition is reported to have been bad, except in the Tiruppattúr taluk. No explanation has been offered of this, but the President states that the matter has received special attention. The expenditure on village roads was Rs. 8,237, or 6·5 per cent. of the total outlay on roads, against Rs. 6,628 and 5·7 per cent., respectively, in the previous year. The cost of the Local Fund Engineering establishment was again 18 per cent. of the outlay on works, but the expenditure on tools and plant amounted to 3·2 per cent. against the prescribed maximum of 1 per cent., the increase being due to the purchase of a large number of tools in consequence of the abolition of the contract system of spreading materials.

(2) *Education.*—As in the previous year, there were ten inspecting schoolmasters, but their work did not show much improvement and should be scrutinised with greater care in the current year. The district board maintained one sessional school against two in the previous year; this worked at three centres in succession and trained sixty students, of whom all appeared for, and thirty-seven passed, the Primary examination. The number of untrained teachers employed in the board schools was thirty against twenty-four in the previous year. No time should be lost in replacing them by trained men. Nearly 40 per cent. of the teachers employed in the aided schools were untrained and every endeavour should be made to reduce this proportion. For this purpose, the number of sessional schools might with advantage be increased, the additional allotment being met by a corresponding reduction under the other heads of educational expenditure. The taluk boards continued to maintain one high and eight lower secondary schools. The Námakkal high school fared very badly in the Matriculation examination, only two students having passed out of the nine that were sent up. In the Lower Secondary examination, however, this school did well, twelve students having passed out of sixteen. The schools at Hosúr and Krishnagiri also did well in this examination, while the results produced by the Dharmapuri school were again unsatisfactory. It is gratifying to note that the net cost of the secondary departments of board schools fell from Rs. 3,633 to Rs. 1,964, but the average cost of educating each pupil in the lower secondary departments of the salary-results system schools was still high, being Rs. 21–13–0. Steps to reduce this in the current year have already been taken. There were 224 board primary schools with an attendance of 9,278 pupils against 214 with 8,594 pupils in 1894–95, and they appear to have made fair progress, 75 per cent. of the pupils examined having passed against 72 per cent. The number of schools aided with result grants, which were paid at the maximum rates, rose from 273 with 5,563 pupils to 289 with 6,100 pupils, and the total number of boys under instruction in the schools maintained and aided from local funds was 10·7 per cent. of the male population of school-going age against 9·9 in the previous year.

(3) *Medical Relief.*—As in the previous year, the local boards maintained eight hospitals and thirteen dispensaries, one of the latter being the gosha dispensary at Salem in charge of a female apothecary; the number of out-patients treated showed a considerable decline *, which is ascribed by the District Medical Officer to the fact that ophthalmia was less prevalent and to changes in the medical subordinates attached to the Rayakota and Thammampatty dispensaries. A second female

* 1894–95	163,896
1895–96	159,564

apothecary continued to work at Tiruppattúr, where a separate gosha dispensary has since been opened. The remarks of the District Medical Officer regarding the repairs that are necessary to certain of the dispensary buildings should receive the attention of the local boards; but his suggestion that dead-houses should be constructed in certain localities has already been disposed of in paragraph 42 of the President's report for 1894–95 reviewed in G.O., No. 1642 L., dated 7th September 1895. There were four midwives against five in the previous year and four others were under training at Madras. They attended 194 labour cases, or only 4 cases each per mensem, against 212 and 5, respectively, in that year. No efforts should be spared to secure better results in the current year, and especially to improve the work of the midwife at Hosúr, which is reported to be unsatisfactory.

(4) *Vaccination.*—The work of this department showed a further improvement, the number of successful operations being 39 per mille of the population against 38 in 1894–95 and the percentage of success rose from 90 to 92, but the number of successful operations on children under one year fell from 12·8 to 12·5 per mille. Compared with the registered births of the year, only 40 per cent. as in the previous year, of the children born during the year were successfully protected from small-pox. There is therefore considerable scope for the extention of operations in this direction.

(5) *Sanitation.*—The expenditure under this head was 91 per cent. of the allotment against 90 per cent. in 1894–95. The number of watchmen employed to guard drinking-water sources increased from sixteen to 21, and prickly-pear and rank vegetation were removed from seventy villages against 43 in the previous year, but the number of places provided with conservancy establishments decreased from 58 to 55. The number of unions inspected by the District Medical and Sanitary Officer or his assistant has not been stated—an omission which should be supplied in future reports.

5. *General Remarks.*—The year closed with a balance of Rs. 99,966, of which Rs. 23,520 appertained to endowed institutions and Rs. 7,760 to unions. The amount available for general purposes was thus Rs. 68,686, or nearly 22 per cent. of the receipts. The greater portion of this and of the balance in favour of unions should be spent on the improvement of roads in the current year.

Except as regards the expenditure on public works, which was again inadequate, the administration of local affairs showed a further improvement and continued to be satisfactory.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From C. H. MOUNSEY, Esq., President, District Board, Salem, to the Chief Secretary to Government, dated 8th July 1896, No. 93-Govt.

I have the honour to report on the operation of local funds in the Salem district for the official year 1895–96, and to submit the prescribed statements including the educational statements I to IV furnished by the Assistant Inspector of Schools.

I.—GENERAL.

2. *Administration.*—During the year 1895–96, the only change in the territorial jurisdiction of the taluk boards was the inclusion of the village of Vengalapuram which hitherto formed part of the Tiruppattúr Taluk Board in the Tiruppattúr Municipality under notification No. 210, published at page 51, Part I-A of the *Fort St. George Gazette*, dated 24th March 1896. The proposal of the Vániyambádi Municipality to include the village of Puttúr within the limits of that municipality referred to in paragraph 2 of the last year's report was not finally approved of by Government within the year—*vide* notification No. 272, published at page 73, Part I-A of the *Fort St. George Gazette*, dated 21st April 1896. The new union of Harúr constituted last year under the sanction conveyed in G.O., No. 196 L., dated 1st February 1895, commenced operations only during the year under report. Under G.Os., No. 363 L., dated 28th February 1895, and No. 1587 L., dated 2nd September 1895, the villages of Pachudayampatti, Muthugapatti and Tottiyapatti, which formed part of the Shendamangalam Union, and the village of Kattainachampatti, which formed part of the Rasipuram Union, were excluded from them.

3. *District Board.*—The constitution of the district board on the 31st March 1896 and the average attendance of the members at meetings are shown in statement XVI-A. On that date the board had the maximum sanctioned strength of thirty-two members; of these four were ex-officio, twelve nominated and sixteen elected.* The nominated members consisted of four officials and eight non-officials. Of the elected members, six were officials and ten non-officials. The two vacancies at the close of the previous year among the nominated members and the twenty-two vacancies, which occurred in the course of the year under review, viz., five among nominated and seventeen among elected members, were filled up within the year. Twelve meetings were held as in the previous year and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 17·3

* Salem	4	
Námakkal	5	
Hosúr	4	
Tiruppattúr	3	
Tatal ..	16	

(6·0 among officials and 11·3 among non-officials), or 54·0 per cent. of the actual strength, against 18·6 (4·6 officials and 14·0 non-officials), or 62 per cent. in 1894–95. The decrease in the attendance of non-officials is due to vacancies in the year among elected members in particular who generally attended all meetings.

4. *Taluk Boards.*—Statement XVI-A shows the constitution and attendance of the taluk boards. The four taluk boards in the district had, on the 31st March 1896, fifty-four members, being the full sanctioned strength as in the previous year. There occurred forty-two vacancies during the year—two by death, three by resignation, nine by transfer from the local areas of the taluk boards, twenty-seven by expiry of the term of office and one by removal, the gentleman having left India without resigning. All these vacancies were filled up within the year. Fifty-five meetings were held against fifty in 1894–95 and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 8·1 (2·3 among officials and 5·8 among non-officials), or 62·3 per cent. of the actual strength against, 8·1 (2·4 among officials and 5·7 among non-officials), or 62·3 per cent. in the preceding year. On the whole, the taluk boards worked satisfactorily.

5. *Union Panchayats.*—There were thirty-two union panchayats at work at the end of the year against thirty-one in the previous year; statement XVI-A shows their constitution and the number of meetings held by them. The panchayats had, on the 31st March 1896, an aggregate strength of 271 members against the sanctioned number 284, thirteen vacancies having occurred towards the close of the year in the marginally-noted * panchayats. All these, except the vacancies on the Atur and Chendarapatti panchayats, have since been filled up. For the same reason and for want of prompt steps to fill up vacancies on the part of the Salem Taluk Board office, the number of members on the panchayat of Chendarapatti was less than the minimum number of five fixed by the Act. The number of officials exceeded that of non-officials in the Rasipuram, Thammampatti, Námakkal and Dharmapuri panchayats. The necessary steps for remedying this defect have since been taken in respect of the Rasipuram and Thammampatti Unions by appointing non-officials to the two vacancies on each of the panchayats, and as regards the other two panchayats necessary steps will be taken. Of the actual number of members given above, 83 were ex-officio members, 20 other officials and 168 non-officials. Excluding the seven meetings, at which a quorum was not secured, the panchayats held 405 meetings or 12·7 on an average, against 378 meetings or 12·2 in the preceding year, and the average attendance at each meeting was 5·1 (1·9 among officials and 3·2 among non-officials) against 5·5 (2·0 officials and 3·5 non-officials) in 1894–95 out of an average actual strength of 8·5. The attendance of the non-official element on the Omalúr and the Taramangalam panchayats was unsatisfactory and it was due as already stated to want of prompt steps to fill up vacancies on the part of the Salem Taluk Board office. The largest number of meetings, viz., 22, were held in Pethunaickenpalaiyam. The number of meetings held by the marginally-noted panchayats fell short of the number required by section 129 of the Act. The details of vacancies that occurred and the appointments made in the several union panchayats in the district are shown in statement XVI-B.

†1. Omalúr.	4. Veeraganur.
2. Chendarapatti.	5. Nanjaíedayar.
3. Tadavur.	

The affairs of all the unions except nineteen were managed by non-official chairmen. The local medical officers at Thammampatti and Palacode, the sub-registrars of Rasipuram Omalúr, Atur, Námakkal, Shendamangalam, Tathiengarpet, Tiruchengódu, Hosúr and Harúr, the Deputy Tahsildar of Pennagaram and the ex-officio members of Taramangalam, Pethunaickenpalaiyam, Chendarapatti, Veeraganur, Morupatti, Denkanikota and Krishnagiri filled the place of chairmen of the panchayats in their respective unions. The appointment of officials other than hospital assistants as members and chairmen is due to the difficulty of securing competent non-official members to discharge the

functions of a chairman. The members and the chairmen of the panchayats with a few exceptions are reported to have worked harmoniously and with zeal, and attended to sanitation and the laying out of village streets and conservancy. The ward system of supervision was extended during the year under review to Kaveripatnam and Papparapatti Unions under the Hosúr Taluk Board. This system is reported to have not worked satisfactorily in fourteen out of the nineteen unions in which it was introduced and was abandoned for the same reason in the Hosúr Union. The Tiruppattúr Taluk Board President promises to give a trial to this system by introducing it in the newly-constituted union of Harúr. Private scavengering was in force in Rasipuram and Hosúr Unions and is reported to have worked with some success in the latter, while it proved a failure in the former. In the course of the current year a further trial will be given to the system by introducing it in the Atur and Harúr Unions. The Presidents of the Salem and the Hosúr Taluk Boards report that it cannot be introduced in the other unions under their management owing partly to the existence of a large number of cesspits and partly to want of scavengers. No information has been furnished by the Námakkal Taluk Board President. All the union panchayats are reported to have worked, on the whole, satisfactorily.

6. *Financial Position.*—The subjoined statement compares the receipts and the expenditure (debt heads excluded) with those of 1894–95:—

—	1894–95.				1895–96.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.

Balance ..	43,674	43,995	8,512	96,181	44,450	39,152	7,950	91,552

Excluding debt heads (Rs. 11,821) the year opened with a balance of Rs. 96,181 against Rs. 63,076 in the previous year. The current actual receipts and charges excluding debt heads (Rs. 29,149 and Rs. 32,556) amounted to Rs. 3,63,761 and Rs. 3,68,390, respectively, against Rs. 3,85,420 and Rs. 3,52,315 in 1894–95. The year thus closed with a balance of Rs. 91,552 (excluding debt heads Rs. 8,414), of which Rs. 23,520 appertained to endowed institutions in charge of the local boards, leaving Rs. 68,032 or 18·7 per cent. of the actual receipts available for general purposes. This result was due to an opening balance in excess of the estimate and to enhanced receipts under land-cess, tolls, contributions for purposes other than educational, medical or public works, fees and fines and public works, and to short expenditure under Grant I. The principle upon which the receipts and charges were distributed among the local boards remained the same as in the previous years. A contribution of Rs. 53,330 was paid to taluk boards as below to make up for their inadequate receipts:—

	Rs.
(1) Salem	22,030
(2) Námakkal	1,225
(3) Hosúr	22,585
(4) Tiruppattúr	7,490
Total ..	53,330

The incidence of local fund taxation per head of the population according to the census of 1891 is shown in the subjoined statement :—

Area in square miles.	Population according to the census of 1891.	Income from taxation.				Total, Local Fund Receipts.
		Land-cess.	Tolls.	House-tax.	Total.	
1	2	3	4	5	6	7
7,521	1,862,544 ..	Rs. 2,02,209	Rs. 43,831	Rs. 27,291	Rs. 2,73,331	Rs. 3,63,761

Area in square miles.	Population according to the census of 1891.	Incidence of taxation excluding tolls.		Incidence of taxation including tolls.		Incidence of the total Local Fund Receipts.	
		1894–95.	1895–96.	1894–95.	1895–96.	1894–95.	1895–96.
		8	9	10	11	12	13
7,521	1,862,544 ..	Rs. A. P. * 0 1 11	Rs. A. P. 0 2 0	Rs. A. P. * 0 2 4	Rs. A. P. 0 2 4	Rs. A. P. * 0 3 2	Rs. A. P. 0 3 1

* The Government figures have been adopted.

The incidence of taxation excluding tolls showed an increase as compared with that in the previous year, while the incidence of the total local fund receipts showed a decrease. The increase in the former was due to large collection under land-cess, and the decrease in the latter to fall under total actual receipts.

II.—Receipts.

7. Statements I-A and II-B show the total receipts of the local boards and union panchayats under the several heads including debt head transactions. The year opened with a balance of Rs. 1,08,002 against Rs. 66,291 in the previous year. The increase was due to a sum of Rs. 16,000 having been added to receipts towards the famine expenditure and to the large fall in the estimated expenditure under Grant I in 1894–95. The current receipts excluding debt heads (Rs. 29,149) amounted to Rs. 3,63,761 against Rs. 3,85,420 in 1894–95.

8. *Land-cess.*—This cess was levied as usual at the rate of one anna in the rupee. It will be observed from statement VII that the total demand including arrears amounted to Rs 2,04,193, of which Rs. 2,00,622 or 98·3 per cent. of the total demand were collected within the year against Rs. 1,92,900 or 91·8 per cent. in 1894–95. The increase was due to the collection of heavy arrears which stood uncollected at the close of the previous year. A sum of Rs. 19 was written off as irrecoverable and there was a balance of Rs. 3,552 left at the close of the year.

9. *Tolls.*—Statement V shows the receipts and charges of tolls. There were fifteen toll-gates as in the previous year. But the gates at Kakangari and Sundugurki were transferred to Kannalapatti and Shulagiri, respectively, under G.Os., Mis. Nos. 290 L. and 2148 L., dated 15th February 1895 and 11th November 1895. Tolls were levied at all the gates at the maximum rates. All were leased out for the year for a sum of Rs. 39,779 against Rs. 37,713 in 1894–95. The increase is due to competition among the bidders. There were no arrears outstanding at the beginning of the year and the whole of the aforesaid lease amount was collected within the year. Excluding charges incurred for construction and repair of toll-sheds and contingencies, the net income from all heads of tolls amounted to Rs. 43,518 or Rs. 25–12–9 per mile of road maintained by local boards. The cost of maintaining each mile of these roads, excluding charges on account of bridges, &c., being Rupees 74–0–4, the income from tolls covered 35 per cent. of the total outlay against 36 per cent. in the previous year. The difference is due to increased expenditure on roads during the year under report on account of special repairs.

10. *House-tax.*—This tax was levied in all the thirty-two unions. Three-fourths of the maximum rates were in force in the unions of Shendamangalam, Hosúr, Krishnagiri, Dharmapuri and Harúr and half the rates in the remaining twenty-seven unions. From statement VIII it will be seen that there was an arrear of Rs. 210 outstanding at the beginning of the year which, together with the current demand Rs. 27,476, raised the total amount for realization to Rs. 27,686. Of this demand Rs. 27,290 or 98·5 per cent. were collected within the year against 97·4 per cent. in the preceding year. A sum of Rs. 119 was remitted on account of vacant houses and Rs. 220 were written off as irrecoverable being due on demolished or deserted houses and on houses whose owners were too poor to pay the tax. There was a balance of Rs. 57 left uncollected at the end of the year, of which the greater portion has since been collected or remitted. The collections were good in all the unions except Nanji Edayar, Hosúr, Krishnagiri and Dharmapuri.

From statement XVII it will be seen that the number of houses in the aforesaid thirty-two unions was 38,250 as per census of 1891, and the number actually assessed to the tax was 41,350. The number of houses actually assessed to the tax is in excess of the census figure of 1891 in all the unions except Mohanur, Velur, Vengarai, Edapady, Hosúr and Karimangalam. In all these latter cases except Edapady this was the result of exemptions granted by the taluk boards concerned on the ground of poverty under section 86 and to the exclusion of places used for charitable purposes under section 78 (2) of the Act. As regards the Edapady Union the Námakkal Taluk Board President reports that some of the hamlets comprised in it and not assessed by mistake, as reported to Government in this office letter No. 2056-L.F., dated 20th August 1895, will be assessed in the current year (1896–97). The average incidence of the tax per house assessed was As. 10–8 against As. 10–7 in 1894–95 and ranged between Rs. 1–12–8 in Hosúr and As. 5–5 in Morupatti. Coercive measures were resorted to in all the unions except Chendarapatti, Thathiengarpett, Pennagaram, Palacode and Harúr. Distress warrants were issued in 3,830 cases, property distrained in 651 and sold only in 62, the corresponding figures for 1894–95 being 4,729, 772 and 110. The amount recovered by actual sale was only Rs. 38. The largest number of warrants, viz., 850, was issued in Námakkal, but they were not executed with promptitude, distraint having resulted in thirty cases, while sales were effected in no case.

11. *Education.*—The receipts under this head fell from Rs. 20,272 to Rs. 19,774, the decrease appearing chiefly under school-fees in consequence of the reduction of fees in the backward localities of the Námakkal Taluk Board.

12. *Medical.*—The income under this head declined from Rs. 834 to Rs. 779 ; the reasons for this falling off are explained in the last column of statement I-A.

13. *Interest.*—The interest on investments made by local boards in favour of the endowed institutions in their charge amounted to Rs. 2,067 against Rs. 2,657 as shown in statement VI-A. The decrease is due to the difference of interest for some months of the year under report having been granted in the previous year.

14. *Miscellaneous.*—The income under this head declined from Rs 66,021 to Rs. 56,579, the principal variations under several items being as follows :—

(*a*) *Contribution from Private Individuals.*—The receipts under this head rose from Rs. 528 to Rs. 2,436, the increase, which occurred chiefly under the Tiruppattúr Taluk Board, was due to the assumption of the management of the sanitary associations by the board with the amounts that were available and to the collection as contribution of one-half of the cost of the several sanitary establishments maintained at the cost of the taluk board.

(*b*) *Choultry Rents.*—These are derived from the lands attached to the choultries at Talavasal, Mohanur, Royacottah and Mathagiri and from the assessment of the lands made over to the Tiruppattúr Taluk Board for the chattram at Tiruppattúr. The sum realized from these sources amounted to Rs. 280 against Rs. 493 in 1894–95. The decrease was due to arrears outstanding at the beginning of last year having been collected in that year and to the renter of the lands attached to the choultry at Mohanur not having paid up his rent for the current year.

(*e*) *Market Rents including Slaughter-house Fees.*—There were 48 markets as in the previous year. The fee system was extended during the year to the markets of Pudupet, Harúr, Chintalapadi, Attúr and Ayodiapatnam under G.Os., No. 404 L., dated 5th March 1895, and Mis. No. 932 L., dated 27th May 1895, and thus fees were levied in 39 against 34 in the previous year. It will be extended in the current year to the Taramangalam market, for which necessary provision has been made in the budget. The receipts from these institutions amounted to Rs. 11,922 against Rupees 12,147 plus Rs. 142 (being slaughter-house fees) in 1894–95. The decrease was due to heavy balance left uncollected. Other miscellaneous receipts credited to market funds amounted to Rs. 128. The expenditure on public works, &c., connected with them was Rs. 15,467 against Rs. 14,818. The balance in favour of the markets at the close of the year amounted to Rs. 16,954. Every endeavour was made to reduce the balance under this head still further by providing allotments for the construction of sheds, but it was found not possible to spend them within the year owing to the Sanitary Board's objections to the estimates forwarded for approval. The condition of the markets is reported to be good, and they are freely resorted to by the public.

(*d*) *Ferry Rents.*—The receipts from this source rose from Rs. 5,122 to Rupees 5,581, the increase occurring chiefly under the Hosúr Taluk Board owing to higher bids at the time of sales.

(*e*) *Bungalow Fees.*—There were 28 bungalows as in the previous year, and they were used by 575 travellers against 482. The total receipts from fees amounted to Rs. 746 against Rs. 617, the increase being due to the increased number of travellers that halted in them. The fees with the miscellaneous receipts amounted to Rs. 814. The total charges, excluding the cost of public works repairs (Rs. 2,226), amounted to Rs. 977 against Rs. 679 in the preceding year, the increase being due to the purchase of furniture for some bungalows. All bungalows except those under the Hosúr Taluk Board are reported to have been maintained in good order. The Hosúr Taluk Board President reports that the buildings under that board are in bad repairs for want of funds. With a few exceptions, all of them are well furnished.

(*f*) *Fees and Fines.*—The receipts under this head rose from Rs. 2,235 minus Rs. 142 (being the slaughter-house fees) to Rs. 3,095, the increase which occurred chiefly under fines under the Police Act and other fees and fines in the Hosúr Taluk Board being due to the better enforcement of the provisions of the Town Nuisance Act and to the levying of temporary fees at the fairs and festivals of Adamancottah, Nathopatti and Hogavakal.

(*h*) *Fishery Rents.*—The total receipts from this source were Rs. 7,455 against Rs. 6,427 in 1894–95, and the increase was due to competition among the bidders. According to the demand, collection and balance statement furnished by the Treasury Deputy Collector, the total demand including arrears amounted to Rs. 8,767, of which Rs. 7,452 or 85·0 per cent. were realized within the year against 95·3 per cent. in 1894–95, leaving a balance of Rs. 1,315 uncollected at the close of the year. Rs. 283 realized from the Public Works Department has been shown as a separate item under this head instead of under 6. Public Works.

(*i*) *Rents and Produce of Land.*—The income under this head is derived from the sale of vegetables, rents of produce of trees, &c., on local fund lands and amounted to Rs. 196. This is shown in the current year under this head instead of under sundry receipts as required in paragraph 1 (1) of the memorandum of Government, No. 1179, dated 23rd August 1895.

(*j*) *Avenues.*—Statement IV-B gives statistics of road avenues. The number of miles of road provided with avenues was 1,262¾ miles as in the previous year. There were at the commencement of the year 219,381 trees; 1,483 plants were put down in the year and 1,281 perished, so that there were at the close of the year 219,583 trees. No satisfactory progress was made in this direction as the season was not favourable, and the planting was therefore only confined to filling up the gaps in the existing avenues. The receipts from the lease of avenue produce and sale of avenue clippings and withered trees amounted to Rs. 23,304 against Rs. 36,997 in 1894–95. The large decrease was due to a fall in the market price from Rs. 8 to Rs. 2 per 10 maunds for old tamarind and to Rs. 5 for new tamarind, and to the

scanty supply expected at the time of sales. This matter is receiving the special attention of the board. Excluding Rs. 5,431, the expenditure incurred in planting and maintaining avenues, the net receipts under this head amounted to Rs. 7,480 or 5·2 per cent. of the expenditure on repair of roads excluding bridges, &c., against 28·9 * per cent. in the previous year.

* This was by mistake shown as 26·4 in the last year's report.

According to statement VIII, the total demand including arrear rents amounted to Rs. 23,839, of which Rs. 21,454 or 90 per cent. was collected within the year against 90·9 per cent. A sum of Rs. 1,057 was written off as irrecoverable. The balance that remained uncollected at the close of the year was thus Rs. 1,328, and it is almost covered by decrees which are in course of execution. The property purchased at a court sale held in satisfaction of a portion of a decree of one of the defaulters was sold, and the sale-proceeds were credited to local funds in the current year (1896–97) under sanction conveyed in G.O., Mis. No. 571 L., dated 21st March 1896. The condition of the existing avenues is reported to be fair.

15. *Public Works.*—The total receipts under this head rose from Rs. 1,988 to Rs. 3,036. The increase occurred chiefly under (*e*) Refunds of expenditure and (*f*) Miscellaneous and is explained in the last column of the statement I-A.

16. *Contributions from Provincial Funds.*—The receipts from this source amounted to Rs. 7,970 against Rs. 23,837 in 1894–95. The decrease was due to an adjustment of Rs. 16,000 towards the famine expenditure having been included in the receipts of the previous year under this head.

III.—Expenditure.

17. Statement I-B shows the total expenditure of the local boards under all grants including debt-head transactions. The total expenditure excluding debt heads (Rs. 32,556) amounted to Rs. 3,68,390 against Rs. 3,52,315 in 1894–95. The difference is the net result of increased expenditure under Grants I and III and decrease under Grants II and IV. The outlay under the several grants and the percentages of expenditure under each grant to the total outlay of the year are exhibited below:—

Grants.	Expenditure.		Percentage.	
	1894–95.	1895–96.	1894–95.	1895–96.
	Rs.	Rs.		
Grant I	1,71,275	1,88,078	49	51
„ II	73,529	71,426	21	19
„ III	79,256	83,382	22	23
„ IV	28,255	25,504	8	7
Total ..	3,52,315	3,68,390	100	100

18. *Grant I, Public Works.*—Statement III shows the particulars of the outlay on works. The total expenditure on works amounted to Rs. 1,55,186 against Rupees 1,46,474 in the preceding year, the increase being mainly due to additional allotments provided for the special repair of certain roads which were much in need of repairs and to allotments sanctioned from the balance of the market fund under the Námakkal Taluk Board for the construction of two feeder roads to markets. The expenditure was equivalent to 42·7 per cent. of the year's receipts and 42·1 per cent. of the total charges against 38·0 and 41·6 per cent., respectively, in 1894–95, and was incurred wholly by the Engineering establishment with the exception of a small amount of Rs. 4,804, which was spent by the Revenue Department and the union panchayats on sundry petty works.

19. *Communications—New and Repair.*—Of the total outlay on works mentioned in the preceding paragraph, Rs. 1,32,643 or 85·9 per cent. of the allotment were spent on roads against Rs. 1,25,087 or 88·2 per cent. in 1894–95. The decrease was due to the incompetency of the Salem East overseer and to the delay on the part of the second Personal Assistant to the District Board Engineer in check-measuring works.

Both of these officers have since left the district. Statement IV-A gives statistics of roads in the district. There were 2,053⅛ miles of road in charge of local boards at the commencement of the year. Of this length 1,687 miles were maintained against 1,676¼ miles in 1894–95. Excluding the charges on account of bridges, toll-sheds, &c., the cost of maintaining each mile of road repaired was Rs. 104 for district, Rs. 58 for taluk and Rs. 117 for village roads, against Rs. 98, Rs. 53 and Rs. 95, respectively, in the previous year. The total outlay on village roads was Rs. 8,237 or 6·5 per cent. of the total outlay on roads, viz., Rs. 1,26,872, against 4·3 per cent. in 1894–95.

20. *Condition of Roads.*—The President, Taluk Board, Salem, states that as he is new to the district, he cannot express an opinion on the state of the roads under his board, but I regret to say they were in a very bad condition last year. The President, Taluk Board, Námakkal, says that the state of roads in both the revenue taluks is far from satisfactory, and in Námakkal particularly they are in the worst possible condition. The President, Taluk Board, Hosúr, reports that some of the roads in the Krishnagiri and Dharampuri taluks are in a fair condition while others are in a deplorable state requiring special repairs, and that in the Hosúr taluk they are particularly bad. The President, Taluk Board, Tiruppattúr, says that the general condition of the roads under his board is fair with a few exceptions. The District Board Engineer states that every endeavour is being made by him to restore these roads by obtaining special grants. The matter has received special attention.

21. *Civil Buildings—New and Repair.*—A sum of Rs. 5,461 was spent out of a total sanctioned allotment of Rs. 17,760 on "New works," which consisted in providing four schools, four dispensaries, two choultries, two bungalows and some other petty buildings—*vide* my letter No. 192-Government, of 24th December 1895. The decrease is mainly due to the disapproval of the estimates relating to dispensary buildings by the Sanitary Board and to the non-acquisition of sites in some cases and to late sanction in the case of some others. Under "Repairs" a sum of Rs. 5,024 was spent against a sanctioned allotment of Rs. 7,131 for repairing and whitewashing, as usual, the buildings in charge of local boards. The decrease is due to savings effected and to late sanction of allotments.

22. *Miscellaneous Public Improvements—New and Repair.*—Rs. 5,935 were spent under "New works" against an allotment of Rs. 11,893. The decrease is mainly due to the disapproval of the estimates for market sheds by the Sanitary Board. No important work worthy of mention was undertaken under "Repairs"; a sum of Rs. 6,123 was spent against an allotment of Rs. 13,243 for maintaining avenues and repairing market sheds. The decrease is due to the provision of lump sums in the budget without details as to works on which they are to be spent and to subsequent sanction of allotments from "Reserve" when estimates are received for sanction and allotment of funds. This practice will be put a stop to in framing the ensuing year's budget as directed by Government at the end of paragraph 20 of the general local fund administration report for 1894–95.

23. *Engineering Establishment.*—Mr. H. W. Allen having resigned on the 27th April 1895, Mr. J. B. MacFarlane was appointed District Board Engineer and joined the district on the 1st November 1895. In the interval Mr. A. B. Coalkers temporarily filled the place. A second Personal Assistant to the Engineer was appointed in the year with the sanction of Government conveyed in G.O., Mis. No. 870 L., dated 16th May 1895. The cost of the establishment including contingencies amounted to Rs. 27,120, or 18·0 per cent. of the outlay on works by that agency (Rs. 1,50,382), against 17·9 per cent. in 1894–95, the maximum limit prescribed by Government being 20 per cent.

Tools and Plant.—The outlay on tools and plant by the Engineering staff was Rs. 4,823, or 3·2 per cent. of the expenditure on works by that agency, against 0·25 per cent. in the previous year, the maximum limit prescribed being 1 per cent. The large increase was due to the necessity for purchasing a large number of tools owing to the abolition of the system of contract for spreading as reported last year.

24. *Grant II, Education.*—The educational operations of local boards in the district were conducted on the same lines as in previous years. One sessional school, five schools on the salary system, 228 on the salary-result system and 289 on the result grant system were maintained against 2, 5, 218 and 273 * respectively, in 1894–95. The education of Panchama children received attention; and of the number of schools noted above, nineteen were exclusively maintained for this class—of these schools, thirteen were on the salary-result system and the rest on the result grant system. There were also thirty-two schools on the salary-result system and one on the result grant system for the exclusive benefit of Muhammadans. There were on the rolls in all the schools on the 31st March last 14,968 boys and 1,404 girls against 13,887 † boys and 1,220 girls in 1894–95, and the total number of boys under instruction bore a proportion of 10·7 per cent. of the school-going male population (139,691) calculated at 7½ per cent. of the total population of the district against 9·9 per cent. in the previous year. The outlay on education, excluding the expenditure on school buildings (Rs. 2,987) shown in statement III, amounted to Rs. 71,426 against Rupees 73,529 in 1894–95 and formed nearly 19·6 per cent. of the current receipts and 19·4 per cent. of the current charges of the year. The high percentage was due to the fact of some of the secondary schools being not self-supporting. Necessary steps are being taken to reduce the expenditure under this head as required by Government in reviewing the budget for the current year (1896–97).

* Includes also the two mixed Hindustani schools, for which information was furnished last year on receipt of objections.

† According to statements IX and X furnished last year for board and aided schools, the number of boys are only 13,887.

25. (*a*) *Inspection.*—The inspecting and supervising agencies continued unaltered. The ten inspecting schoolmasters employed by the district board visited 1,836 villages and prepared 772 ‡ schools for examination against 1,721 and 787 ‡, respectively, in 1894–95. The result shows a decrease in the number of other schools prepared for examination and is apparently due to more attention paid to board schools. The cost of this establishment amounted to Rs. 4,955 against Rs. 4,979 in 1894–95.

	1895-96.	1894-95.
‡ Number of board schools ..	291	286
„ of other schools ..	481	501
Total ..	772	787

26. (*b*) *Training Schools.*—Nil.

27. (*c*) *Sessional Schools.*—There was one school of this kind against two in the previous year, and it was worked at Námakkal, Tiruchengódu and Súramangalam. The sanctioned strength of twenty against ten in the preceding year was taught in each of the three centres in which this school was held. Thus sixty students were educated and all of them went up for the Primary School examination and thirty-seven secured a complete pass. The total cost for the year was Rs. 1,117, and the average cost to Local funds for a teacher under training was Rs. 18–9–10 against Rs. 24–8–10 in 1894–95.

Besides the students referred to above, two Muhammadan teachers were trained during the year in the Muhammadan branch of the Training school at Madras, and they were paid stipends from Local funds as usual. The total cost under this head was Rs. 83 against 192 in the preceding year, and the decrease was due to the late admission of the students. Out of 1,283 teachers employed in the board and other aided and unaided schools, 682 possessed the qualification shown in the margin § and the remaining 601 teachers were untrained. The number of untrained teachers employed in the aided and unaided schools was 571; excluding this number, the number of untrained teachers employed in the board schools was thirty against twenty-four in the preceding year. The attention

§ Number holding trained teachers' certificates	248
Number holding untrained teachers certificates	44
Number holding general education certificates	390
Total ..	682

of the educational officers and of the Presidents of taluk boards will be invited to the advisability of employing only trained teachers and of getting those already employed trained as early as possible.

28. *Technical Schools.*—In the Námakkal high school, carpentry was taught throughout the year. There were on the 31st March 1896 forty-four students against thirty-five in the previous year. The transactions relating to this department of the high school having been clubbed in the returns from the educational officers, with the upper and lower secondary departments of that school, it has not been found possible to show them separately in statement IX as required in paragraph 1 (24) of the memorandum of Government, dated 23rd August 1895, No. 1179.

29. (*d*) *Secondary Schools*—(i) *Salary System.*—There were five board secondary schools on the salary system as in the previous year attended by 543 boys and thirteen girls against 581 boys and eight girls in the previous year. Of the above five schools one was of the upper secondary and the others of the lower secondary grade. Out of nine students who appeared for the Matriculation examination only two passed, the corresponding figures for the previous year being thirteen and five. The result is bad. From the lower secondary schools and the lower secondary department of the upper secondary school 52 students were presented for the Lower Secondary examination, but only 5 or 9·6 per cent. secured a complete pass against 42, 16 and 38·1 per cent. In the year under report, 26 more students passed partially. The result is, however, very unsatisfactory. The average net cost of educating each pupil in the upper secondary school and department was Rs. 10–6–10 against Rs. 34–11–6. The net cost of each pupil in the lower secondary schools and departments fell from Rupees 6–3–5 to Rs. 2–7–7. None of the schools under this head are self-supporting.

(ii) *Salary-result System.*—There were four lower secondary schools on the salary-result system at Rasipuram, Shendamangalam, Denkanicottah and Harúr again t the same number in the previous year. The school at Uttenkarai was reduced to primary grade and the Harúr primary school was raised to the secondary grade in the year under report. The above four schools were attended by 409 boys and 29 girls against 326 boys and 32 girls. None of these schools present pupils for the lower secondary examination as the students are taught only up to the second form. The net cost of educating each pupil in these schools and departments was Rs. 21–13–0 against Rs. 25–7–5 in 1894–95. Though the average shows a decrease when compared with that of the last year, it is yet high. For this reason, the Rasipuram school was placed on the salary system in the current year as it was suggested by the educational officers that by this arrangement the net cost of the school will be reduced.

30. (*e*) *Elementary Schools*—(i) *Salary system*—Nil—(ii) *Salary result-system.*—There were at the beginning of the year 214 schools—179 for all classes generally, 23 for Muhammadans and 12 for Panchamas. Ten additional schools were opened during the year—nine for Muhammadans (three in the Salem taluk, four in the Atur taluk and two in the Tiruchengódu taluk) and one for Panchamas in the Dharmapuri taluk. Five more schools—one in each of the taluks of Salem, Atur, Hosúr, Krishnagiri and Uttangarai were transferred from one village to another on account of poor attendance. There were thus at the close of the year 224 schools—179 for all classes generally, thirty-two for Muhammadans and thirteen for Panchamas which had on the rolls 7,916 boys and 1,362 girls against 7,414 and 1,180, respectively. The net cost to local funds of maintaining these schools and departments was Rs. 30,386 or Rs. 3–11–2 per pupil against Rs. 30,232 and Rs. 4–0–8, respectively, in the preceding year. The number of pupils who appeared for the standard examinations from these schools and from the primary departments of the secondary schools was 5,838, of which 4,351 or 74·5 per cent. passed, the corresponding figures for the previous year being 5,792, 4,201 and 72·5 per cent.

31. (*f*) *Grants-in-aid*—(2) *Results Grants.*—There were 289 schools aided on the result-system with 6,100 pupils on the rolls at the close of the year against 273 * schools with 5,563 pupils in the previous year. The number of pupils examined for grant was 4,279, of whom 3,005 or 70·2 per cent. were found qualified, the corresponding figures for 1894–95

* Includes the two mixed Hindustani schools for which information was furnished last year on receipt of memorandum of Government, dated 23rd August 1895, No. 1179.

being 4,382, 2,997 and 68·4 per cent. Grants were paid at the maximum rates, and out of the total amount of Rs. 7,015 earned, Rs. 6,040 or 86·1 per cent. were disbursed within the year. The total expenditure including arrear payments amounted to Rs. 6,346 against a sanctioned allotment of Rs. 6,351 or 99·9 per cent.

(3) *Building Grants and* (4) *Miscellaneous Grants.*—The details of the charges under these heads are given in the foot-note to statement X.

32. (*h*) *Miscellaneous.*—The expenditure under this head fell from Rs. 1,285 to Rs. 876, the decrease being mainly due to a smaller demand for books.

33. *Grant III, Medical Services, Sanitation, &c.*—There were as in the previous year twenty-one medical institutions including the gosha women's dispensary at Salem. During the year under report, the Sankaridrug hospital was converted into a dispensary and the dispensary at Tiruchengódu was made a hospital. Of these, eight were hospitals containing accommodation for in-patiets and the rest were dispensaries. All the above institutions, except the gosha women's dispensary at Salem and the dispensaries at Thammanpatti, Shandamangalam, Thalli and Royacottah were located in local fund buildings. Estimates for the construction of suitable buildings for the dispensaries at Thammanpatti, Shandamangalam and Thalli were sanctioned, but they were not approved by the sanitary board. They will be undertaken in the course of the current year as soon as the estimates now under revision are approved of by the sanitary board. The local fund dispensary building at Omalur was repaired in the year at a cost of Rs. 617. In all the twenty-one institutions, 899 in-patients and 158,665 out-patients were treated against 808 and 163,088 respectively, in 1894–95. The total number of in and out patients treated during the year bore a proportion of 8·6 per cent. of the total population against 8·8 per cent. in the preceding year. The reasons for the decrease are set forth in the District Medical officer's report enclosed. The total cost of maintaining these institutions amounted to Rs. 30,234 as detailed in statement XII against Rupees 29,547 * in 1894–95. The average cost of treating each patient was As. 3 against As. 2–11 in 1894–95. The increase is due to the fall in the number of out-patients treated. There were no local committees for the medical institutions under the Hosúr and Tiruppattúr Taluk Boards. These boards consider that the supervision of the District Medical officer is sufficient. The Námakkal Taluk Board President reports that committees appointed for the institutions under his board continued to work satisfactorily. As regards the hospital committee at Yercaud, the Salem Taluk Board President says that the draft revised rules received from the District Medical officer have been referred to a sub-committee, and that they will be introduced in the course of the current year (1896–97). The Hosúr hospital and the Royacottah dispensary have endowments attached to them, the former draws interest from the investments as detailed in statement VI-A, and the latter derives its income from the rents on lands attached to it. The receipts from these and other miscellaneous sources amounted to Rs. 252 and Rs. 16, respectively, and the charges to Rs. 3,330 and Rs. 845, the difference in both cases having been made good from general funds.

* The Government figure in the general administration report has been adopted.

34. *Medical Schools and Medical Pupils.*—Nil.

35. *Midwives and Midwifery pupils.*—There were four midwives against five, one having left the district at the close of 1894–95. A total number of 194 labour cases were attended by them against 212 in the preceding year. The decrease is due to short work turned out by the Hosúr midwife and she has been called upon to explain it. They are paid by results. The cost of maintaining midwives amounted to Rs. 636 and the average cost of each case attended was Rs. 3–4–5 against Rs. 2–15–1 † in the previous year. The increase is due to the short work referred to above. Though provision was made in the budget for employing ten midwives, still, for want of trained women, the employment of the full sanctioned number was not possible. To meet this, four are undergoing training and, as soon as they complete their course, they will be posted where wanted. The charges for training these pupils amounted to Rs. 129.

† The Government figure in the general administration report has been adopted.

36. *Medical Training of Women.*—Of the two lady apothecaries Miss Greene and Miss Holmes trained at the expense of this board, the former was placed in charge of a gosha dispensary at Salem and the latter was attached to the municipal hospital at Tiruppattúr. A separate gosha dispensary was opened at Tiruppattúr on the 1st April 1896 and Miss Holmes is in charge of it. The municipality have promised to bear one-fourth of the cost of maintaining this dispensary.

37. *Vaccination.*—There were three deputy inspectors of vaccination and 48 vaccinators and probationers employed by the district board as in the previous year. Of the above 48 vaccinators and probationers, two second-class vaccinators were employed in the central vaccine depôt. The total number of operations performed by this agency was 76,652, of which 70,757 or 92·3 per cent. were successful, the corresponding figures for 1894–95 being 76,598, 69,183 and 90·3 per cent. The average cost of each successful case was As. 2–1 as in the preceding year.

The outturn by the medical subordinates in charge of hospitals and dispensaries shows an increase as compared with that of the preceding year. The total number vaccinated was 2,201 against 1,366 in 1894–95 and the number successful 1,689 against 1,156. But the percentage of successful cases fell from 84·6 to 76·7.

Including the work done by these subordinates, the total number of successful operations was 72,446 or 38·7 per mille of the total population as per census of 1891 against 38·0 in 1894–95. The total number of operations on children under one year of age was 24,502, of which 23,365 or 40·4 per cent. of the number born (57,778) were successfully protected within the year against 23,829 or 40·2 per cent. in 1894–95. Vaccination was conducted throughout the year solely with glycerine vaccine paste supplied from the central depôt at Salem.

38. *Sanitation.*—The outlay under this head was as shown below :—

	1894–95.	1895–96.
	Rs.	Rs.
(1) Improvement of water-supply	3,153	3,535
(2) Do. of village-site	2,343	4,004
(3) Scavengering establishment	21,172	22,379
(4) Arrangements at fairs and festivals	526	464
(5) Other Sanitary outlay	509	855
Total ..	27,703	31,237

There is increase under all the items except fairs and festivals as compared with the actuals of the preceding year. Five new wells were dug, 44 existing sources of water-supply were repaired and 21 sources of drinking-water were guarded, the corresponding figures last recorded being 7, 52 * and 16. In 70 villages prickly-pear was removed and in seven villages streets were repaired against 43 and 7, respectively, in 1894–95. Conservancy establishments were maintained in 32 unions and 23 other villages against 31 and 27, respectively, in the previous year. The establishments entertained for Belur, Patchur, Mallapadi and Papparapatti were abolished and one was newly entertained in the Marandahalli village. The arrangements regarding the supervision of these establishments continued unaltered. Special sanitary arrangements were made at the time of festivals at fifteen places against sixteen in the preceding year, and this accounts for the short expenditure under this item. Under other sanitary outlay a sum of Rs. 855 was spent chiefly in constructing two latrines, repairing eight latrines, repairing a cholera shed and in the purchase of cholera preventives.

* This figure corresponds with the last year's statement. The figure 46 given in the report that accompanied it is a mistake.

The proportion of the total outlay on sanitation to the sanctioned allotment (Rs. 34,323) was 91 per cent. against 90 per cent. in 1894–95.

39. *Choultries.*—The local boards maintained 40 choultries against 39 in the previous year. The MacLeod's Choultry at Pethunaickenpalaiyam was brought on the list by the Salem Taluk Board during the year and Rs. 330 were spent in repairing it. These were used as mere rest-houses and no account was therefore maintained to

record the number of travellers that halted in them. The total cost of their upkeep, as per details furnished in statement XI, amounted to Rs. 1,071, excluding the cost of public works expenditure (Rs. 3,471) against Rs. 1,144 in 1894–95 and a total estimate of Rs. 1,288. The Talavasal, Mohanur, Royacottah, Mathagiri and Tiruppattúr have endowments in lands as detailed in paragraph 14 (*b*) of this report and the choultries at Suramangalam, Thoppur, Jalarpet and Morappur receive a contribution of Rs. 1,750 from provincial funds. The income derived from the above sources, together with other miscellaneous receipts, amounted to Rs. 2,041, which added to the balance of Rs. 8,415 and a contribution of Rs. 278 made in the year under review to the choultries at Paramathi and Royacottah from the general local fund revenues to wipe off the *minus* balances with which they closed, raised their total assets to Rs. 10,734. Deducting the total charges Rs. 4,168 as shown in statement VI, there was a balance of Rs. 6,566 at the end of the year.

40. *Bungalows.*—The expenditure and other particulars under this head have been noticed in paragraph 14 (*e*) of this report.

41. *Contributions.*—A sum of Rs. 1,534 was debited to the district board on the advice of the Accountant-General, being the proportionate cost of sanitary inspection, reserve medical staff, and cutler's establishment. The contribution payable to the Coimbatore District Board towards the cost of lighting the Cauvery bridge under G.O., No. 825 L. Mis., dated 8th May 1895, was not paid as no claim was made for it in the year. The Tiruppattúr Taluk Board contributed Rs. 1,044 to the Municipal Councils of Tiruppattúr and Vániyambádi for the upkeep of the hospitals maintained by them calculated at 25 per cent. of the net cost as per G.O., No. 2104 L., dated 20th September 1893. As usual Rs. 1,355 were paid from the district fund to the Municipal Council, Salem, Rs. 1,100 towards the maintenance of hospitals as regulated with reference to G.O., No. 800 L. Mis., dated 11th April 1893, Rs. 200 for the poor house and Rs. 55 for the lying-in ward.

42. *Miscellaneous Endowed Institutions.*—The only item falling under this head is the charge incurred on account of the water-shed establishment maintained in the district court compound. Similar charges incurred in markets during the hot season are debited to the contingencies of the respective markets and not to this head as stated in the last year's report.

43. *Lighting.*—The charges under this head amounted to Rs. 3,603 against Rs. 4,480 in 1894–95. The lights were put up at the places detailed in the subjoined statement :—

Places.	Number of lamp-lighters.	Number of lights put up.	Total cost.	Remarks.
Salem District Board.			Rs.	
Salem-Suramangalam road	2	50	289	
Salem Taluk Board.				
Rasipur	1	37	175	Six new lights put up.

Harúr	..	..	54	Cost of new lamps purchased and not put up.
Taluk Board	..	..	30	Do. do.
Total ..	30	784	3,603	

The number of lights maintained in the unions and other places increased from 732 to 784, and the sum spent on them amounted to Rs. 3,603 against Rs. 4,480 in 1894–95. The cost of each light maintained was Rs. 4–6–3 against Rs. 6–1–11 in the preceding year, excluding Rs. 162 incurred on the purchase of new lights and posts. Keeping in view the instructions of Government to reduce the expenditure in this direction, large provisions made by the Námakkal Taluk Board in particular were disallowed by the district board in passing the current year's budget.

44. *Grant IV, Miscellaneous—Supervision and Office management.*—The total cost of general administration including contingencies amounted to Rs. 25,342 against Rs. 24,521 in 1894–95 and the total estimate Rs. 27,501. The total expenditure formed 7 per cent. of the current receipts and 6·9 per cent. of the current charges against 6·4 and 7 per cent., respectively, in the preceding year. The variations are explained in the last column of Statement I-B. The rates at which travelling allowance was paid to members of local boards remained unaltered.

45. The report was passed by the district board at its meeting held on the 8th instant. A copy of the resolution is enclosed.

ENCLOSURE.

ANNUAL Concise Report on the working of the Local Fund Hospitals and Dispensaries in the Salem District for the year 1895–96.

Public Health.—The climate of the year was seasonable and the rainfall well distributed over the first eight months of the year, the average for the district being 38·51 inches as compared with 30·62 inches in the previous year; nevertheless, the public health, though fairly good, was not so good as in 1894–95 on account of the greater prevalence of fevers throughout the year. Cholera was less prevalent than usual and existed only during the first half of the year in the Salem, Námakkal and Tiruchengódu taluks, the rest of the district remaining nearly free from the disease.

Small-pox in a sporadic form existed throughout the year and was most prevalent during the latter months in the taluks of Dharmapuri, Krishnagiri and Uttengarai, where vaccination is backward. In the month of March influenza was prevalent in the Salem, Námakkal and Tiruchengódu taluks.

Vital Statistics.—Sixty-two thousand and eight births and 36,049 deaths were registered, showing a birth-rate of 31·58 and a death-rate of 18·36 per mille: the number of births were 1,333 less, and the deaths 3,279 more, than registered in the previous year: the increase in deaths was under the headings of Fevers and All other causes.

Registration was fairly good in the villages, but defective in the towns where the duty is entrusted to karnams who are, as a rule, unable to collect the necessary information where a large population is concerned.

Sanitation.—Conservancy establishments were maintained in 55 towns and villages constituting 32 unions and 7 sanitary associations. The union at Harúr was established during the year.

In the larger unions where the supervision is better, satisfactory attention and progress has been made in maintaining the cleanliness of the town sites and the condition of the roads, drains and water-supply, but in the smaller unions and villages where the supervision is not so good, sanitation makes little, if any, progress: attention is certainly given to the water-supply, but the removal of rubbish is often done in a perfunctory manner owing to the work of the sweepers not being closely supervised, and as scavengers are scarce and cannot be obtained elsewhere than in the larger towns, the present number of public latrines—forty-one—cannot be increased or the existing ones properly attended to, so animals, mostly pigs, are largely relied on to remove human ordure deposited about the streets and vacant spaces. At Hosúr private scavenging has been worked satisfactorily on a small scale, but in other towns of similar size the system cannot be introduced partly owing to the want of scavengers and partly to the unsuitable arrangement of the houses and yards.

Vaccination.—The local fund vaccinators performed 76,652 vaccinations, of which 70,757 or 92·30 per cent. were successful, and the medical subordinates 2,201 vaccinations, of which 1,689 or 76·73 per cent. were successful: these results are very similar to those obtained in the previous year when the local fund vaccinators did 76,598 vaccinations, of which 69,183 or 90·31 per cent. were successful, and the medical subordinates 1,366 vaccinations, of which 1,156 or 84·62 per cent. were successful; but of the total work done by the vaccinators and the medical subordinates this year, there was a decrease of 4,736 primary vaccinations and an increase of 5,625 re-vaccinations.

Twenty-four thousand five hundred and two infantile vaccinations were performed, of which 23·365 or 95·35 per cent. were successful: there was a decrease of 1,372 of these vaccinations as compared with the previous year.

Twelve thousand two hundred and three re-vaccinations were performed, of which 9,919 or 81·28 per cent. were successful as compared with 6,578 re-vaccinations, of which 5,110 or 86·83 per cent. were successful in the previous year.

All vaccinations were performed with glycerine vaccine paste supplied from the depôt at Salem and the results have been generally satisfactory except during the hot months when the vaccinators are prone to keep the paste too long before use and to insufficiently guard it against the influence of heat.

Hospitals and Dispensaries—(*a*) *Nature and sufficiency of Accommodation.*—No alteration was made in the number of hospitals (eight) and dispensaries (thirteen), and the institutions were distributed as follows:—

Boards.	Hospitals.	Dispensaries.
Hosúr Taluk Board	(1) Hosúr. (2) Dharmapuri. (3) Krishnagiri.	(1) Denkanikota. (2) Pennagaram. (3) Palcode. (4) Royakota. (5) Thalli.
Námakkal Taluk Board	(1) Námakkal. (2) Tiruchengódu.	(1) Sankaridrug. (2) Shendamangalam.
Tiruppattúr Taluk Board	(1) Harúr.	(1) Uttengarai. (2) Alangayam.
Salem Taluk Board	(1) Yercaud. (2) Atur.	(1) Rasipur. (2) Omalúr. (3) Thammampatty.
District Board	....	(1) Gosha Women's, Salem.

The hospital at Sankaridrug was reduced to the status of a dispensary and the dispensary at Tiruchengódu converted to a hospital in the month of May.

The hospitals accommodate sixty-two beds which are found to be sufficient; the dispensaries receive out-patients only.

The buildings are public property, except those of Thammampatty, Thalli, Royakota and Shendamangalam, which are rented.

Dead-houses are required at Yercaud, Alangayam, Denkanikota, Atur, Thammampatty, Omalúr and Shendamangalam.

(*b*) *State of repair of Buildings.*—The buildings at Thalli and Omalúr are in bad condition and it is intended to construct new ones. The contagious diseases sheds at Námakkal, Yercaud, Dharmapuri and Krishnagiri and the *post-mortem* sheds at Uttengarai and Dharmapuri and the cook-house at Pennagaram require repairs; in other respects the buildings are in good condition.

(*c*) *State of repair of Furniture.*—The furniture has been maintained in good condition and has been sufficient.

(*d*) *Inspections*—(1) *Steps taken to carry out the recommendations of the Surgeon-General with the Government of Madras.*—The Surgeon-General did not visit the district during the year.

(2) *Steps taken to carry out the recommendations of other Inspecting officers.*—All recommendations made have received attention from the local authorities concerned.

(*e*) *Amount of recoveries from patients who have been able to pay for their diets and medicines.*—Nil.

(*f*) *Number of patients treated as compared with previous years.*—Eight hundred and ninety-nine in and 1,58,665 out patients were treated during the year and the average daily attendance was 40·82 and 965·72 respectively; there was an increase of 91 in-patients and a decrease of 4,423 out-patients and a small increase in the average daily attendance as compared with the previous year: the decrease of out-patients is attributed to the less prevalence of ophthalmia and to the changes among the medical subordinates attached to the Royakota and Thammampatty dispensaries.

The attendance for the past four years is compared:—

Years.	Admissions.		Average daily attendance	
	In.	Out.	In.	Out.
1892–93	795	155,842	31·15	948·55
1893–94	776	144,149	31·80	881·58
1894–95	808	163,088	33·60	954·95
1895–96	899	158,665	40·82	965·72

(*g*) *Mortality and actual causes of it.*—Nineteen deaths occurred among the in-patients from the following causes:—

Dropsy 3, phthisis 2, effects of hanging 1, pneumonia 2, ulcer 1, infantile convulsions 1, extravasation of urine 1, fracture of skull 1, valvular disease of heart 1, wound of abdomen 1, concussion of brain 1, debility 1, and tetanus 3.

Forty deaths among out-patients—from lung diseases 5, fevers 7, stricture of urethra 1, dropsy 2, ulcer 1, injury 1, burns 4, fracture of thigh 1, extravasation of urine 1, dysentery 4, pneumonia 2, fracture of skull 1, puerperal eclampsia 1, tetanus 3, obstruction of bowels 1, brights' disease 1, suicide 1, hydrophobia 1, hæmaphila 1, and diarrhœa 1.

(*h*) *Operations and results.*—Eighty-three major and 4,697 minor operations were performed with one death from puerperal eclampsia.

(*i*) *Establishment whether sufficient and efficient.*—The establishment was sufficient and generally efficient.

(*j*) *Midwives.*—Four midwives were employed, and attached to the hospitals at Hosúr Dharmapuri, Námakkal and Atur, and altogether attended 194 cases of labour besides making themselves generally useful among the female patients attending the hospitals: they have been paid on the salary-grant system and with the exception of the midwife at Hosúr, who only attended sixteen cases of labour, their work has been satisfactory.

Four women are undergoing a course of training at the Maternity Hospital, Madras, with the view to subsequent employment at Krishnagiri, Harúr, Tiruchengódu and Sankaridrug.

(*k*) *Dispensary for Caste and Gosha Women.*—The district board together with the Salem Municipal Council have maintained a dispensary for gosha women and children in the town of Salem. Three thousand six hundred and thirty-two out-patients with a daily average attendance of 25·70 have been treated. Apothecary Miss J. A. Greene has been in charge and also receives a carriage allowance for gratuitous attendance at their homes on any females, gosha or otherwise, who may require her services between certain hours.

(*l*) *General Remarks.*—All the hospitals and dispensaries and the stations in which they are located were inspected once during the year, and also the principal villages along the route of inspection.

SALEM,
30th May 1896.

(Signed) A. N. ROGERS-HARRISON, Surgn.-Lt.-Col.,
District Medical and Sanitary Officer.

Annual Concise Report on the working of the Local Fund Hospitals and Dispensaries in the Salem District for the year 1895-96.

Public Health

The climate of the year was reasonable and the rainfall well distributed over the first 8 months of the year, the average for the district being 38.51 inches as compared with 30.62 inches in the previous year, nevertheless the public health though fairly good was not so good as in 1894-95 on account of the greater prevalence of fevers throughout the year. Cholera was less prevalent than usual and existed only during the first half of the year in the Salem, Namakal and Tiruchengode talugs, the rest of the district remaining nearly free from the disease.

Small-pox in a sporadic form existed throughout the year and was most prevalent during the latter months in the talugs of Dharmapury, Krishnagiri and Attenkarai where vaccination is backward. In the month of March

influenza was prevalent in the Salem, Namakal and Tiruchengode taluqs.

Vital statistics

62008 births and 36049 deaths were registered, showing a birth rate of 31.68 and a death rate of 18.36 per mille: the number of births were 1383 less and the deaths 3279 more than registered in the previous year: the increase in deaths was under the headings of fevers and all other causes.

Registration was fairly good in the villages but defective in the towns where the duty is entrusted to Karnams who are as a rule unable to collect the necessary information where a large population is concerned.

Sanitation

Conservancy establishments were maintained in 35 towns and villages constituting 32 unions and 7 Sanitary associations. The Union at Harur was established during the year.

In the larger unions where the supervision is better satisfactory attention and progress has been made in maintaining the cleanliness of the town sites and the condition of the roads drains and watersupply, but in the smaller unions and villages where the supervision is not so good, sanitation makes little, if any, progress: attention is certainly given to the watersupply but the removal of rubbish is often done in a perfunctory manner owing to the work of the sweepers not being closely supervised, and as scavengers are scarce and cannot be obtained elsewhere than in the larger towns, the present number of public latrines 41 cannot be increased or the existing ones properly attended to so animals, mostly pigs are largely relied on to remove human excreta deposited about the streets and vacant spaces.

At Hosur private scavenging has been worked satisfactorily on a small scale but in other towns of similar size the system cannot be introduced partly owing to the want of scavengers and partly to the unsuitable arrangement of the houses and yards.

Vaccination

The Local Fund Vaccinators performed 76652 vaccinations of which

70757 or 92.30 per cent were successful and the medical subordinates 2201 vaccinations of which 1689 or 76.73 per cent were successful: these results are very similar to those obtained in the previous year when the Local Fund vaccinators did 76598 vaccinations of which 69183 or 90.31 per cent were successful and the medical subordinates 1366 vaccinations of which 1156 or 84.62 per cent were successful, but of the total work done by the vaccinators and the medical subordinates this year there was a decrease of 4736 primary vaccinations and an increase of 5625 revaccinations.

24502 infantile vaccinations were performed of which 23365 or 95.35 per cent were successful. there is also a decrease of 1372 of these vaccinations as compared with the previous year.

12203 revaccinations were performed of which 9919 or 81.28 per cent were successful as compared with 6578 revaccinations of which 5110 or 86.83 per cent were successful in the previous year.

All vaccinations were performed with glycerine vaccine paste supplied from the depot at Salem and the results have been generally satisfactory except during the hot months when the vaccinators are prone to keep the paste too long before use and to insufficiently guard it against the influence of heat.

Hospitals and dispensaries Nature and sufficiency of accommodation

No alteration was made in the number of Hospitals 8 and Dispensaries 13, and the institutions were distributed as follows:—

Boards	Hospitals	Dispensaries.
Hosur Taluq Board	1. Hosur 2. Dharmapury 3. Krishnagiry	1 Denkanikota 2 Pennagaram 3. Palcode 4. Royakote 5 Thalli
Namakal Taluq Board	1 Namakal 2. Tiruchengode	1. Sankry Droog 2. Sheudamangalam
Erapetta Taluq Board	1 Harur	1 Attenkarai 2. Alangayam.
Salem Taluq Board District Board	1 Yercaud 2. Attur	1. Rasipur 2. Omalur 3. Thammampatty 1. Gosha Women's Salem.

The Hospital at Sankery droog was reduced to the status of a Dispensary and the dispensary at Tiruchengode converted to a hospital in the month of May.

The Hospitals accommodate 62 beds which are found to be sufficient; the dispensaries receive outpatients only.

The buildings are public property except those at Thammampatty, Thalli, Koyakota and Chendamangalam which are rented.

b. State of repair of buildings

Dead houses are required at Yercaud, Mangayam, Denkanikota, Attur, Thammampatty, Omalur and Chendamangalam.

The buildings at Thalli and Omalur are in bad condition and it is intended to construct new ones. The contagious diseases sheds at Namkal, Yercaud, Dharmapory and Krishnagiri and the post mortem sheds at Uttenkarai and Dharmapory, and the cook house at Penagaram require repairs in other respects the buildings are in good condition.

c. State of repair of furniture

The furniture has been maintained in good condition and has been sufficient.

d. Inspections
1. steps taken to carry out the recommendations of the Surgeon General with the Government of Madras.

The Surgeon General did not visit the district during the year.

Nil

2. Steps taken to carry out the recommendations of the Inspecting officers.

All recommendations made have received attention from the local authorities concerned.

e. Amount of recoveries from patients who have been able to pay for their diet and medicines

Nil.

f. Number of patients treated as compared with previous years.

899 in and 15865 outpatients were treated during the year and the average daily attendance was 40.82 and 965.72 respectively; there was an increase of 9 inpatients and a decrease of 4425 outpatients and a small increase in the average daily attendance as compared with the previous year. The decrease of out patients is attributed to the less prevalence of opthalmia and to the changes among the medical subordinates attached to the Koyakota and Thammampatty dispensaries.

The attendance for the past 4 years is compared.

Years	Admissions		average daily attendance	
	In	out	In	out
1892—93	795	15584	31.15	948.53
1893—94	776	14414	31.80	881.58
1894—95	808	16308	38.60	954.95
1895—96	899	15865	40.82	965.72

g. Mortality and actual causes of it

19 deaths occured among the Inpatients from the following causes:—

Dropsy 3, Phthisis 2, Effect of hanging 1, Pneumonia 2, Ulcer 1, Infantile convulsions 1, Extravasation of urine 1, Fracture of skull 1, Valvular disease of heart 1, wound of abdomen 1, concussion of brain 1, Debility 1, and Tetanus 3.

40 deaths among outpatients

[redacted] eg diseases 5, Fevers 7, Stricture of urethra 1, Dropsy 2, Ulcer 1, Injury 1, Burns 4, Fracture of thigh 1, Extravasation urine 1, Dysentery 4, Pneumonia 2, Fracture of skull 1, Puerperal Eclampsia 1, Tetanus 3, obstruction of bowels 1, Brights disease 1, Suicide 1, Hydrophobia 1, Haemaphila 1, and Diarrhea 1.

h. operations and results

83 major and 4697 minor operations were performed with one death from puerperal eclampsia.

i Establishment whether sufficient and efficient

The establishment was sufficient and generally efficient.

j. midwives

4 midwives were employed, and attached to the Hospitals at Hosur, Dharmapury, Namakal and Atur, and altogether attended 194 cases of labour besides making themselves generally useful among the female patients attending the hospitals. They have been paid on the salary grant system and with the exception of the midwife at Hosur, who only attended 16 cases of labour, their work has been satisfactory.

4 Women are undergoing a course of training at the Maternity Hospital Madras with the view to subsequent employment at Krishnagiri, Harur, Tirumangod and Lakkerydroog.

K. Dispensary for caste and gosha women

The District Board together with the Salem Municipal Council have maintained a dispensary for gosha women and children in the town of Salem: 3632 outpatients with a daily average attendance of 25.70 have been treated: Apothecary Miss. J. A. Greene has been in charge and also receives a carriage allowance for gratuitous attendance at their homes on any females, gosha or otherwise, who may require her services between certain hours.

l. General Remarks.

All the Hospitals and Dispensaries and the stations in which they are located were inspected once

during the year, and also the principal villages along the route of inspection.

Wm Roger Hamilton

Salem

2. Local Boards and Panchayats.

The Local Boards met a sufficient number of times and the attendance was good except in the case of the official members of the District and Salem Taluk Boards. There were 32 Union Panchayats at work against 31 in the previous year and the average attendance at their meetings continued to be fair, being five out of a strength of eight. It is, however, a matter for regret that five of these Panchayats failed to meet once a month as required by Section 129 of the Local Boards Act, notwithstanding the fact that this irregularity was noticed in the case of four of them in the previous year also. The Presidents of the Taluk Boards concerned should see that the Panchayats comply with the provisions thus does not recur of the Law at least in the Current year. The ward system of supervision which was in force in 17 unions was extended to two others during the year under review, but it is reported to have worked satisfactorily in

This is not satisfactory as only five of them: the Government trusts to that in future the Panchayatdars will take more interest in the discharge of the duties entrusted to them and make the system a success. The private scavenging service continued to be in operation in the Nemom and Nagercoil unions and worked with some success in the former while in the latter it proved a failure. The Taluk Boards and Panchayats are reported to have worked on the whole, satisfactorily.

3. Receipts (1). The Collections under land cess amounted to 98 per cent of the demand against 92 per cent in the previous year.

(2) The whole of the ~~Current~~ ~~and arrear~~ demand under tolls was realised within the year.

(3) House tax was levied at half the maximum rates in 27 unions and at three fourths rates in the remaining five. The receipts from this source fell from Rs 29,807 ~~or 97 per cent of the demand~~ to Rs 27,290 or 99 ~~per cent~~, owing to the absence of large arrears at the commencement of the year as ~~was the case~~ in 1894-95, but the percentage of the collections to the demand rose from 97 to 99 ~~to~~ coercive measures were resorted to in 27 unions, the number of warrants issued being 3830, but property was distrained in only 651 cases and sold in 62.

(4) There were 48 markets under the control of the Local Boards and fees were levied in 39 of them, against 34 in the previous year. The receipts from this source fell from Rs 12,522 to Rs 12,050 while the charges rose from Rs 12,961 to Rs 15,467. There was, however, a large balance of Rs 16,904 in favour of these institutions at the end of the year, which was due to the fact that objection was taken by the Sanitary Board to the ~~estimates~~ for the construction of some sheds proposed to be built ~~and written~~ ~~were not~~ sanctioned by the Sanitary Board ~~in consequence of certain ob-~~ ~~jections~~. The Government trusts that the balance will be considerably

the work had to be ~~from the end of the year~~ ~~owing to certain~~

reduced in the current year.

(5) The receipts from avenues declined from Rs 36,997 to Rs 23,304 the decrease being ascribed to a fall in the market price of tamarind and to the scanty produce expected at the time of the leases. This subject, however is stated to be receiving the special attention of the District Board. There was a small increase in the total number of trees and their condition is reported to have been fair.

4. Expenditure (1) Public Works. It is to be regretted that the percentage of the outlay under this head to the allotment, again declined being 75 against 79 in 1894-95 and that the expenditure on Communications was only 92 per cent of the minimum lately prescribed by Govt. ~~half the receipts from land cess plus net income from tolls~~. The explanation of this decrease offered in paras 19 and 21 of the President's report cannot be accepted as satisfactory. The Government trusts that that the practice of entering in the budgets, works for which estimates are not ready will be ~~put a stop~~ discontinued in future. Notwithstanding the increase in the total outlay on roads from Rs 116,049 to Rs 126,872, their condition is reported to have been bad, except in the Tiruppattur taluk. No explanation has been offered for this, but the President states that the matter has received special attention. The cost of the Local Fund Engineering establishment was again 18 per cent of the outlay on works, but the expenditure on tools and plant amounted to 3·2 per cent ~~of the outlay on works~~ against the prescribed maximum of one per cent, the increase being due to the purchase of a large number of tools in consequence of the abolition of the system of Contract spreading materials.

(2) Education As in the previous year, there were ten inspecting Schoolmasters and their work did

A The expenditure on village roads was Rs 8,237 or 6·5 per cent of the total outlay on roads against Rs 6,628 and 5·7 per cent respectively in the previous year

has shown much improvement & their work ~~of these officers~~ should be scrutinised with greater care than in the current year. ~~appears to be testured at present.~~

The District Board maintained one Sessional school against two in the previous year and it worked at three centres in succession and trained 60 students, all of whom appeared for and 37 passed the Primary examination. The number of untrained teachers employed in the Board schools was 30 against 24 in the previous year. No time should be lost in replacing them by trained men. Nearly 40 per cent of the teachers employed in the aided schools were untrained and every endeavour should be made to reduce this proportion. For this purpose the number of Sessional schools might with advantage be increased, the additional allotment being met by a corresponding reduction under the other heads of educational expenditure.

expenditure. The Taluk Boards continued to maintain one high and eight lower Secondary Schools. The Namakkal High School fared very badly in the Matriculation examination, only two students having passed out of the nine that were sent up. In the Lower Secondary Examination, however, this School did well, twelve students having passed out of sixteen. The Schools at Hosur and Krishnagiri also did well in this examination, while the results produced by the Dharmapuri School were again unsatisfactory. It is gratifying to note that the net Cost of the Secondary departments of Board Schools fell from Rs 36-3-3 to Rs 19-6-4, but the average Cost of educating each pupil in the Lower Secondary departments of the Salary result system Schools was still high, being Rs 21-13-0. Steps to reduce this in the Current year have already been taken.

There were 224 Board Primary Schools with an attendance of 9,278 pupils — against 214 with 8,594 pupils in 1894-95 and they appear to have made fair progress, 75 per cent of the pupils examined having passed against 72 per cent in 1894-95. The number of schools aided with result grants, which were paid at the maximum rates, rose from 273 with 5,563 pupils to 289 with 6,100 pupils and the total number of boys under instruction in the schools maintained and aided from Local Funds was 10·7 per cent of the male population of school going age against 9·9 in the previous year.

(3) Medical Relief. As in the previous year, the Local Boards maintained eight hospitals and thirteen dispensaries, one of the latter at Salem being the Gosha dispensary in charge of a female Apothecary; and the number of patients treated out of them showed a considerable decline, which is ascribed by the District Medical

1894-95	.....	163,096
1895-96	.....	159,564

of ophthalmia has been prevalent in a less degree and to the Changes in the Medical subordinates attached to the Rayakota and Thanmampatte dispensaries. A second female Apothecary continued to work at Tirupattur where a separate Gosha dispensary has since been opened. The remarks of the District Medical officer regarding the repairs that are necessary to certain of the dispensary buildings should receive the attention of the Local Boards; but his suggestion that dead houses should be constructed in certain localities has already been disposed of in para 42 of the President's report for 1894-95 reviewed in G.O. No 1642 L dated 7th September 1895. There were four midwives against five in the previous year and four other were under training at Madras. They attended 194 labour cases or only four cases each per mensem —

There were 224 Board Primary Schools in that year. No efforts should be spared to secure better results in the current year, ~~especially the Lorries of the midwives whose work is particularly bad being discharged with, if necessary~~ to improve the work of the midwife at Hosur, which is reported to be unsatisfactory.

(4) Vaccination. The work of this department showed a further improvement, the number of successful operations being 39 per mille of the population against 38 in 1894-95, but the number of successful operations on Children under one year fell from 12.8 to 12.5 per mille. Compared with the registered births of the year, only 40 per cent of the Children born during the year were successfully protected from small-pox as in the previous year. There is therefore considerable scope for the extension of vaccination operations in this direction. ~~the percentage of success was from 90 to 92~~

(5) Sanitation. The expenditure under the allotment against 90 per cent in 1894-95. The number of watchmen employed to guard drinking-water sources increased from 16 to 21 and prickly pear and rank vegetation were removed from 70 villages against 43 in the previous year, but the number of places provided with Conservancy establishments decreased from 58 to 55. The number of villages inspected by the District Medical and Sanitary Officer has not been stated, an omission which should be supplied in future reports.

[Is this necessary? Is there not some standing order by Govt? S.O.'s]

5. General Remarks. The year closed with a balance of Rs 99,966, of which Rs 23,520 appertained to endowed institutions and Rs 7,760 to unions. The amount available for general purposes was thus Rs 68,686, or nearly 2 per cent of the receipts. The greater portion of this and

There was no Rural Primary Schools should be spent on the improvement of roads in the Current year.

Except as regards the expenditure on public works which was again inadequate, the administration of local affairs showed a further improvement and continued to be, ~~on the whole~~ satisfactory.

Balance on 1st April	14,204	52,087	66,291	56,066	51,936	108,002	56,066	51,936	108,002	-	-	-	-	-	-	
1. RATES AND TAXES—																
(a) Cess on land	98,809	98,808	197,617	95,170	95,180	190,350	101,105	101,104	202,209	5,935	5,924	11,859	-	-	-	The increase is due to collection of heavy arrears outstanding at the close of the previous year.
(b) Tolls. Under Act V of 1884 ..	37,751	-	37,751	35,030	-	35,050	40,007	-	40,007	4,977	-	4,977	-	-	-	The increase is due to competition among the bidders at the time of sale
(b) Tolls. Contributions from municipalities.	3,457	-	3,457	3,010	-	3,010	3,824	-	3,824	814	-	814	-	-	-	Do Do Do Do
(c) House-tax	-	29,815	29,815	-	27,850	27,850	-	27,291	27,291	-	-	-	-	559	559	The decrease as compared with the estimate occurs chiefly under the Ramakkal Cess and it is explained to be due to exemption of some house owners from payment of the tax under Sec 96 of the Act. The decrease as compared with the actuals is due to heavy arrears outstanding at the beginning of 1894-95 having been collected in that year.
2. EDUCATION—																
(a) School-fees	-	19,613	19,613	-	19,600	19,600	-	19,304	19,304	-	-	-	-	296	296	The decrease chiefly occurs under Ramakkal Board and it is explained to be due to reduction in the scale of fees in backward localities under the Educational rules.
(b) Contributions--																
(1) From municipalities ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(2) From other District Boards ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(3) From private individuals ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(c) Sale-proceeds of books	575	-	575	500	-	500	370	-	370	-	-	-	130	-	130	The decrease is due to less demand for them in the year.
(d) Income from endowments	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(e) Miscellaneous	51	33	84	70	50	120	-	100	100	-	50	50	70	-	70	This is a fluctuating item.
3. MEDICAL--																
(a) Hospital receipts	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(b) Sale of medicines	375	363	738	500	400	900	326	397	723	-	-	-	174	3	177	Corresponds very nearly to the actuals of 1894-95 and this is a fluctuating item as the people choose to attend hospitals in person to avoid payment for the supply of medicines.
(c) Contributions—																
(1) From municipalities	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(2) From other District Boards ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(d) Income from endowments ..	-	48	48	-	60	60	-	16	16	-	-	-	-	44	44	The decrease is due to the full rent due on the lands attached to the Koyandakal dispensary not having been realized within the year.
(e) Miscellaneous	6	42	48	70	50	120	-	40	40	-	-	-	70	10	80	This is a fluctuating item.
Carried over ..	155228	200809	356037	199416	195126	388542	201698	200188	401886	11,726	5,974	17,700	444	912	1,356	

There are 200 Hindu Primary Schools.

—Consolidated Comparative Statement of Receipts of the Distr

Board of Salem for the official year 1895-96—*cont.*

Heads.	Actuals, 1894-95.			Estimate, 1895-96, including subsequent allotments, &c.			Actuals, 1895-96.			Increase over the estimate.			Decrease under the estimate.			Explanation of variations.

4. Interest—																
(a) On Government securities ..	2411	246	2657	1980	190	2,070	1875	192	2067	-	2	2	5	-	5	The variation is trifling.
(b) On arrears of revenue (land-cess) ..	575	575	1,150	210	210	420	107	107	214	-	-	-	103	103	206	The decrease is due to prompt Collections within the prescribed time.
5. Miscellaneous—																
(a) Contributions for purposes other than Education, Medical or Public Works.																
(1) From municipalities	77	-	77	100	-	100	100	-	100	-	-	-	-	-	-	
(2) From other District Boards ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(3) From private individuals ..	-	528	528	-	1,000	1,000	-	2,436	2,436	-	1436	1436	-	-	-	The increase chiefly occurs under Tirupathur (b) it is explained to be due to sanitary establishments of some villages under the management of Primary associations having been taken up under the Act having credited the amounts to available balances with them to Local Funds.
(b) Choultry rents	-	493	493	-	440	440	-	280	280	-	-	-	-	160	160	The decrease chiefly occurs under Rasipuram (b) it is explained to be due to the rents not having been paid in remittances to the year. The amount will be adjusted in the current year from the rents deposited.
(c) Market rents	-	12,147	12,147	-	13,760	13,760	-	11,958	11,858	-	-	-	-	1902	1902	The decrease is reported to be due to want of completion.
Slaughterhouse fees	-	-	-	-	-	-	-	64	64	-	-	-	-	-	-	This was being included under (f) fees & fines in the previous year & is now shown separately under the head as required in G.O. No. 2014 dt. 19.8.95
(d) Ferry rents	-	5,122	5,122	-	6610	6,610	-	5581	5,581	-	64	64	-	-	-	
(e) Bungalow fees	-	617	617	-	970	970	-	746	746	-	-	-	-	1029	1029	The decrease is reported to be due to want of completion of the sales.
(f) Fees and fines	276	1,959	2,235	-	1860	1,860	33	3062	3,095	-	-	-	-	224	224	The decrease is due to some of the Bungalows under the Salem Taluk Board having been under repairs & to the general fluctuating nature of this item.
(g) Grass rents	-	6	6	-	-	-	-	-	-	33	102	1235	-	-	-	The increase occurs chiefly under Hosur (b) it is explained to be due to better enforcement of the 20mm Nuisance Act & to carrying of temporary fees at fairs & festivals.
(h) Fishery rents	-	6,427	6,427	-	7270	7,270	-	7455	7455	-	-	-	-	-	-	
(h) Do by P.W.D		132	132	-	-	-	-	283	283	-	185	185	-	-	-	The slight increase is due to competition among the bidders.
(i) Rents and produce of land ..	-	-	-	-	-	-	-	196	196	-	283	283	-	-	-	This is a fluctuating item.
(j) Avenues	17,571	19,426	36,997	20,020	26,990	47,010	10,393	12,911	23,304	-	196	196	-	-	-	This was being included under (l) Sundry receipts in the previous years. It is now shown under this head as required in para 10 of the Memorandum of Govt. Lr. No. 11790/2322 dt. August 95.
(k) Sale of stores	-	-	-	-	-	-	-	-	-	-	-	-	9,627	14,279	23,906	The large decrease is reported to be due to fall in market price for tamarind & to the scanty supply expected at the time of sales. This matter is receiving special attention.
(l) Sundry receipts	-	1240	1240	-	1400	1,400	2	1133	1135	-	-	-	-	-	-	
(m) Contribution towards L.F. pensions.	-	-	-	-	-	-	46	-	46	2	-	2	-	267	267	The decrease is due to exclusion of rents & produce of land from this head as required in para 10 of the memorandum of Govt. Lr. No. 11790 dated 23.8.95
										46	-	46	-	-	-	This is contribution recovered under para 84 (a) of the L.F. rules in the Salem East Division Gopala Iyenga for the period he acted as Personal Assistant to the D.E.O. Govt. Order dated 28.9.95 No. 1179. This was omitted during the year from Provincial to which it was originally credited by mistake.
Carried over ..	1,76,138	2,49,727	4,25,865	2,12,626	2,55,826	4,68,452	2,14,254	2,16,492	4,30,746	1,807	9,342	2,1149	10,179	18,676	28,855	

I-A.—Consolidated Comparative Statement of Receipts of the District

Board of Salem for the official year 1895-96—*cont.*

Heads.	Actuals, 1894-95.			Estimate, 1895-96, including subsequent allotments, &c.			Actuals, 1895-96.			Increase over the estimate.			Decrease under the estimate.			Explanation of variations.

	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	
Brought forward ..	176138	249727	425865	212626	255826	468452	214254	216492	430746	1807	9342	11149	10179	18676	28855	
6. Public Works—																
(a) Sale of buildings	-	-	-	-	-	-	-	226	226	-	226	226	-	-	-	This is the amount realized by the sale of the L. T. shed building at Mangayam.
(b) Sale of tools and plant	62	98	160	40	40	80	46	72	118	6	32	38	-	-	-	The increase is due to the disposal of the large No of unserviceable tools as a fresh supply was procured during the year. This is fluctuating item.
(c) Sale of old materials	-	57	57	-	20	20	67	10	77	67	-	67	-	10	10	
(d) Contributions—																
(1) From municipalities ..	-	-	-	200	-	200	-	-	-	-	-	-	200	-	200	This is the contribution promised by the Tirupathur Municipality towards the cost of constn. a bridge over Tirupathur tank bank. The work not having been taken up as very costly at the estimate stage the contribution was not received.
(2) From other District Boards ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(3) From private individuals ..	-	23	23	2,000	100	2,100	-	43	43	-	-	-	2000	57	2057	This is also contribution promised by Dt. Bd. Member Mr. K. Raja Ms Krishna Iyer for the above bridge work & the same was not received for the same reason given above.
(e) Refund of expenditure	37	7	44	-	-	-	409	161	570	409	161	570	-	-	-	This item is mostly the recovery of advance of pay made to the ~~Engr~~ Surveyor under G.O. No. 923 dt. 7-6-20 & 1602 dt. 2-10-20. This was properly kept to his advance under 0-8-0 head & credit to that is shown here to keep harmony with Dy. figures advised to the Actt. General.
(f) Miscellaneous	1279	423	1702	-	180	180	1380	622	2002	1380	442	1822	-	-	-	This item is mostly made up of rents recovered for occupying Govt buildings & the security deposits of 7 Contractors forfeited under the terms of Contract with them.
7. Contributions from Provincial Funds—																
(a) Education	34	6053	6087	70	10370	10440	18	6202	6220	-	-	-	52	4168	4220	The decrease under Taluk B/2 is due to the late admission of the students. The actuals under Taluk B/2 are in excess of the receipts for 1894-95 but show a decrease of Rs 4168 when compared with the estimate & it is reported to be due to (1) non-drawal of grants earned within the year owing to late sanction (2) refusal to sanction furniture & other items: grants under Head B/2 and (3) non-payment of salary grants to certain teachers of the Govt. Secondary schools under Head B/2 & in the High School at Ramakkal.
(b) Public works	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(c) Hospitals and dispensaries	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(d) Choultries	-	1750	1750	1750	-	1750	1750	-	1750	-	-	-	-	-	-	
(d) Famine Relief purposes.	16000	-	16000	-	-	-	-	-	-	-	-	-	-	-	-	
(e) General purposes	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(f) Refunds	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
8. Contributions from Special Funds ..	21	-	21	-	-	-	11	-	11	11	-	11	-	-	-	
9. Allotments from the District Fund ..	-	44479	-	-	53330	-	-	53330	-	-	-	-	-	-	-	
10. Do. do. Taluk Funds ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
11. Miscellaneous Debt Accounts (under actuals only)	33754	-	33754	-	-	-	29114	35	29149	29114	35	29149	-	-	-	
Total ..	227325	299619	484465	216686	319566	483722	244769	307193	500912	42774	10238	53032	12431	22911	35342

GRANT I, PUBLIC WORKS—																
(a) New Works—																
(1) Communications ..	3824	4063	7887	1774	6301	14075	1067	3049	4116	–	–	–	6727	3252	9979	The decrease is due to delay on the part of Contractors, late sanction of estimates etc not undertaking some works as many costly.
(2) Civil Buildings ..	–	6507	6507	3234	14526	17760	2283	3178	5461	–	–	–	951	11348	12299	The decrease is mainly due to provision made for Dispensary buildings not having been entered owing to objections of the Sanitary Board to sanction the estimates.
(3) Miscellaneous Public Improvements.	–	6459	6459	–	11893	11893	–	5735	5735	–	–	–	–	5958	5958	The decrease is due to objections of the Sanitary Bd to sanction the estimates for market sheds.
(b) Repairs—																
(1) Communications ..	5433	65767	117200	57533	82865	140398	54178	74349	128527	–	–	–	3355	8516	11871	The decrease is due in particular to the neglect of the Salem East overseer who left Service Since.
(2) Civil Buildings ..	14	3609	3623	1348	5783	7131	486	4538	5024	–	–	–	862	1245	2107	The decrease is due to late sanction of Estimates.
(3) Miscellaneous Public Improvements.	1460	5338	4798	3811	9432	13243	2174	3949	6123	–	–	–	1637	5493	7120	The decrease is due in particular to non-utilization of allotments for repairs to market buildings.
(c) Establishment—																
(1) Public Works Department Supervision ..	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	
(2) Scrutiny of plans and estimates .. Other Establishment charges	–	84	84	250	–	250	–	14	14	–	14	14	250	–	250	Fluctuating item.
(3) Local Fund Engineering Establishment ..	7139	11279	18418	8660	12967	21619	8022	12662	20684	–	–	–	628	307	935	The decrease is due to the vacancy of the 2nd Personal Assistants place for a portion of the year & to the pay of trainees for whom provision was made having been debited to works as in other Districts.
(4) Tolls and Ferries..	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	
(d) Tools and Plant ..	134	213	347	4255	620	4875	1870	2953	4823	–	2333	2333	2385	–	2385	The decrease is only Rs 52 on the whole and needs no explanation.
(e) Contingencies ..	2244	3375	5819	1975	4740	6715	2496	3940	6436	521	–	521	–	800	800	The net decrease is due to the 2nd Personal Assts place having been vacant for a portion of the year.
(f) Contributions to—																
(1) Provincial Funds..	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	
(2) Other District Boards.	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	
(3) Municipalities ..	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	
(4) Private individuals.	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	
(g) Miscellaneous Advances	–	–	–	–	–	–	555	–	555	555	–	555	–	–	–	This is the advance of pay, granted to the Engineer under G.O. dated 23-5-96 & 604. This shown here instead of under debt heads to keep harmony with the Imperial figures.
(g) Miscellaneous – ..																
(1) Refund of receipts	133	–	133				330	–	330	330	–	330				This is mostly refund of security deposits forfeited but refunded on explanation.
(2) Do of Tolls	–	–	–				50	–	50	50	–					This is the amount refunded to the toll renter for 1890-91 to cover loss sustained by him.

GRANT III, MEDICAL SERVICES, VACCINATION, SANITATION, AND PUBLIC AND CHARITABLE INSTITUTIONS—																
(a) Hospitals and Dispensaries—																
(1) Superintendents ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(2) Medical Subordinates ..	1,200	15,267	16,467	1,200	16,090	17,290	1,200	15,906	17,106	-	-	-	-	184	184	Trifling.
(3) Clerks and servants.	28	3,007	3,035	60	3,396	3,456	60	3,156	3,216	-	-	-	-	240	240	The decrease is due to the compounder & female servants for the Honur hospital not having been entertained within the year.
(4) Diet of patients ..	-	1,667	1,667	-	1,801	1,801	-	1,658	1,658	-	-	-	-	143	143	The actuals correspond nearly with the expenditure of the previous year.
(5) Medicines and surgical instruments.	304	937	1,241	473	2,533	3,006	217	67	284	-	-	-	256	2,466	2,722	The decrease is due to payments to Receivers Burgoyne Burbidges & Co having been shown under Sanitation.
(6) Supplies ..	748	3,432	4,180	-	2,275	2,275	58	4,387	4,445	58	2,112	2,170	-	-	-	The increase is due to payments to the above firm being included under this head.
(6a) Bedding & Clothing ..	-	127	127	-	-	-	-	83	83	-	83	83	-	-	-	The increase is due to provision in the estimate for this being included under supplies.
(7) Midwives and Midwifery pupils ..	-	714	714	-	1,538	1,538	-	765	765	-	-	-	-	773	773	The decrease is due to non-entertainment of the sanctioned No of midwives for some institutions owing to the difficulty of securing the services of qualified midwives.
(8) Medical pupils ..	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(9) Medical practitioners	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
(10) District Medical and Sanitary officer's establishment, including travelling allowance, &c. ..	742	-	742	964	-	964	976	-	976	12	-	12	-	-	-	Trifling.
(11) Cholera charges ..	-	166	166	-	160	160	-	161	161	-	1	1	-	-	-	Trifling.
(12) House-rent to Hospital Assistants..	-	-	-	-	-	-	-	326	326	-	326	326	-	-	-	The increase is only nominal as the provision made for this charge is included under contingencies.
(13) Contingencies ..	465	2,970	3,435	510	3,789	4,299	409	2,924	3,333	-	-	-	101	865	966	The Diet & house rent having been shown separately & to savings under Travelling allowances.
(14) Miscellaneous ..	63	-	63	50	-	50	40	-	40	-	-	-	10	-	10	This is a fluctuating item.
(b) Vaccination—																
(1) Fixed charges ..	1,424	-	1,424	8,160	-	8,160	7,643	-	7,643	-	-	-	517	-	517	The decrease is due to fines imposed on Vaccinators for short work.
(2) Contingencies ..	1,622	-	1,622	2,740	-	2,740	1,724	-	1,724	-	-	-	1,016	-	1,016	The decrease is due to non-payment of remuneration to Vaccinators & to the general saving effected under this head.
(c) Sanitation—																
(1) Improvement of water-supply ..	-	3,153	3,153	-	3,913	3,913	-	3,535	3,535	-	-	-	-	378	378	The decrease is due to non-entertainment of some Watchers as estimated owing to the absence of necessity.
(2) Improvement of village sites ..	-	2,343	2,343	-	4,160	4,160	-	4,004	4,004	-	-	-	-	156	156	Trifling.
			5496			8073

Schools rose in number by the Namakal Board by the addition of the Pavilamudi School by the Salem Board and 2 more for the same community.

Namakal Taluk Boards and of a Panchayat Board. No attendance of these Boards with their increased number.

There was a good addition to the number of aided schools and the increased receipts under all heads of the Namakal Boards. on the whole considerable progress made during the year.

Of the Namakal Secondary School receiving Education included in the figures shown Board School above.

cluding 44 pupils included as explained above
