ENCLOSURES 3.

SUBJECT.

Submitting for the sanction
of the Government the plan and
estimate of a Sheep Slaughtering
House - No. 2477 of 96
Submitted with the recommendation
that the proposal of the Council
be sanctioned. The Fort Mutton
Slaughtering house answers the purpose
very well, and one built on the
plan will be much cheaper than
one built on the Standard plan.

Para 52. Read Memo of the Chairman

Suggesting that with a view to improve the Sanitary
efficiency of the Marsackpett Slaughter house

the Government be addressed to permit the Council to deviate from the Standard plan the cost of which is prohibitive and to convert the present buildings to resemble the one at the Fort with the 1000 Rs provided in the current Budget

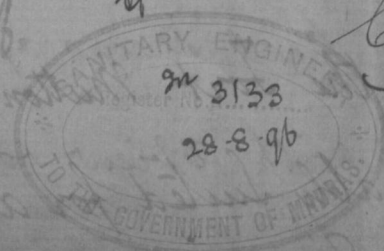

Council resolves to address Government soliciting permission to depart from the Standard plan and to have a construction like the one at the Fort, which from experience answers all the purposes for which it is intended and will be further improved when a service of Peper water is introduced. A plan of the proposed building and an estimate will be appended.

No. 42

MUNICIPAL COUNCILLORS' OFFICE,
TRICHINOPOLY 6th August 1896.

FROM, Mr. N. S. Singaravelu Pillai Avergal
CHAIRMAN,

To,

The Chief Secretary to Government,
Local and Municipal Department,
FORT ST. GEORGE.

Through the Collector of Trichinopoly.

SIR,

I have the honor to report that the present Sheep and bullock Slaughter houses at Marsackpet (Cantonment) have been condemned by every officer who has inspected them. The Space is small, surrounded by high walls and completely covered over; so that sunlight can never play and dissipate the stench or humidity. However often and well cleaned, the want of proper ventilation is their greatest drawback. One other and a very serious defect is their close proximity to a Mohamedan burial ground. The council therefore resolved to remove them to a better site and build new ones on the plan of the Fort Mutton Slaughter house which is admirably suited for all requirements.

As however to build two such houses in one year would be impossible owing to financial inconvenience, it was settled to build the Sheep Slaughter house during the current year and the bullock one in the next. Accordingly a sum of Rs 1000 was provided in the Budget.

2. Since then a standard plan of building "abattoirs" (Slaughter houses) has been received from the Sanitary Board. It is no doubt scientifically perfect, but in complexity and cost it struck the council as being far beyond its means, both pecuniarily and in the talent necessary to bring out successfully the details in construction. The council therefore resolved at a meeting to move the Government for exemption from following the standard plan and adopting the one now in existence in the Fort which though not so elaborate suffices to meet all requirements.

3. The estimated cost of the one proposed by the council comes to Rs 1020 or Rs 20 in excess of the Budget provision; whereas according

to a rough estimate furnished by the Sanitary Engineer an abattoir of equivalent dimensions ~~benefit~~ would cost Rs 3500 — if worked out in detail, it might perhaps cost more. The demands on Municipal funds are so many and pressing that the exercise of the greatest economy is a matter of urgent necessity. Therefore however desirable to possess such well designed and ornamental structures, the Council has to elect between having modest but useful buildings to having none for years to come. It must however be repeated that to continue the use of the present buildings for any length of time may result in serious harm during times of epidemic. I beg you therefore to procure the sanction of Government to the erection of a building according to the enclosed plan.

I have the honor to be

Sir

Your most obedient servant

W. B. Chaurman

Proceedings of the Sanitary Board, No. 283/dated 17th (ANCH), 1896.

Present

Surgn. Lieut. Col. W. G. King, M.B., C.M., D.P.H.,
Sanitary Commissioner for Madras
J. A. Jones, Esqr., Mem. Inst. C.E., F.R.S.E.,
Sanitary Engineer to Government

Read the following 994

Endorsement No. 994 dated 25th. August 1896 here
Mr. Phillips, Ag. Asst: Secretary to Government dated
No. 42 dated 6th. August 1896 from the Chairman, Municipal
Council, Trichinopoly forwarding for remarks plan &
estimate amounting to Rs 1020/- for constructing an Ab
Resolution

The Board considers that having
the accommodation secured the plan is extravagant, the
shed will be useless on account of its size. The
part of the structure is the two platforms adjacent
Sft.. These are uncovered & (neither) secure privy
ter for the butchers or carcasses. To secure the privy,
these platforms a wall has been added so as to
Sft. The cistern is in an unsuitable position and
tents must be carried through the compound. It is
suitable shape nor are the offal cisterns. The Sanitary
Board can supply designs of Slaughter Houses otherwise
referred to by the Council.
