From

SURGEON LIEUT.-COL. W. G. KING, M.B., C.M., D.P.H.,
SANITARY COMMISSIONER FOR MADRAS,

To

THE Chief Secretary
to Government
Local & Municipal Deptt

Enclosure.

SIR,

I have the honor to forward herewith for the information of Government Copy of my letter No 1843/5 dated 3rd October 1896 addressed to the President Municipal Commission, Madras, advising in continuation of my letter of the 28 September 1896, efforts towards general sanitary improvements of the condition of dwell and specifying certain methods of dealing with trade refuse accumulated in parts inhabited by Bombay merchants &c.

2. I may add for the information of Government that I have arranged for inspection of all passengers arriving from the Bombay side at Adoni and Bezwada and have addressed the President, Municipal Commission, Madras to take advantage of the fact by arranging a system of intercommunica

intercommunication between these parts, conjoined with a system of observation of passengers for ten days after arrival in Madras.

I have the honor to be,
Sir,
Your most obedt Servant
W G King
Surgn: Lt Col:
Sanitary Commissioner

3,000—6-2-96.

OFFICE OF SANITARY COMMISSIONER,
Camp Chidambaram ~~Fort St. George~~, 3d Octr 1896.
Despd 5th.

From

SURGEON LIEUT.-COL. W. G. KING, M.B., C.M., D.P.H.,
SANITARY COMMISSIONER FOR MADRAS,

To

THE President,
Municipal Commission
Madras.

Enclosure.

* will follow.

SIR,

In continuation of this Office letter No. 1793/S dated 28th Septr 1896, I have the honour to forward Telegu, Tamil and Hindustani* translations of the Circular therein enclosed, which I suggest you might find useful if freely circulated in the form of hand bills in the town.

2. As since giving the recommendations made in the letter referred to, it has been ascertained that Plague is increasing in severity in Bombay, it is desirable that beyond the special means for early detection and segregation of any cases that may be imported as therein advised, you should attempt to improve the general sanitary condition

of

1/2735 M of 96

of the town. For this purpose, it would be advisable that a house-to-house inspection should be commenced in the more highly insanitary portions to be selected by the Health Officer – the first parts attended to being those inhabited by persons having much communication with Bombay. I understand that such persons usually reside in Anderson, Godown, and Mint Streets, and their vicinity. All details as to household sanitation should here be insisted upon; such as cleanliness of the interior of the walls (whitewashing being particularly useful) and floors, and backyards, free ventilation, and correct condition of conservancy and water supply. Definite measures should be taken to prevent the accumulation of trade refuse such as old rags, paper, dust, and the like. In arranging for the removal of rubbish from these localities, it would be advisable that, in default of correctly covered dust-carts, their contents be sprinkled

with

with disinfectants and be covered with tarpaulins when passing through streets, and that before return the carts and the tarpaulins be washed at the depot with perchloride of mercury solution. If it were possible to remove the rubbish from these localities to a separate depot where cremation could be accomplished, it would of course be preferable. Further, in these localities, the drains should be daily flushed and disinfected. It is particularly desirable that filth from the drains here should not in the first place be put on the ground; instant removal should be arranged for.

3. The Conservancy staff serving in these areas should be carefully watched by the Sanitary Inspectors, and in the event of absence from illness of any member being ascertained at roll-call, an inspection in each case should take place in order to ascertain the true cause.

4. In connection with the above matters, I would remind you

that
