OCTOBER.

Administration Report.

Reviewing the — of the South Canara District Board for 1895–96.

No. 1910 L., 14th October 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From L. C. MILLER, Esq., President, District Board, South Canara, to the Chief Secretary to Government, dated Mangalore, 14th July 1896, Dis. No. 493-D.B.

I have the honour to submit my report on the administration of the local boards in this district during the last official year 1895–96, together with the prescribed statements and a copy of the resolution of the district board passing the report.

I.—General.

2. *Administration.*—There was no change in the number of boards during the year or in their territorial jurisdiction.

Constitution, etc., of Boards—Statement XVI.

3. *The District Board.*—On the 31st March last there were, on the district board, 24 members, the full sanctioned number, against 17 on the same date in the previous year. Fifteen vacancies occurred during the year which were filled up by the appointment of two official members, the re-appointment of two members—one official and one non-official—by the election of three new non-official members and the re-election of eight old ones. Five election meetings were held, one by each taluk board.

4. The district board held 15 meetings at which an average of 12·1 members attended (2·8 official and 9·3 non-official) against 13 meetings and 12 members (2·4 official and 9·6 non-official) in the previous year. No meeting was adjourned for want of a quorum.

5. *Taluk boards.*—The five taluk boards had each twelve members. Their aggregate strength on the 31st March 1896 was 60 members (19 official and 41 non-official) against 48 (16 official and 32 non-official) on the corresponding date of the preceding year. These boards held in all 66 meetings against 65 in the previous year, the average attendance at each meeting being 7·2 (2·1 official and 5·1 non-official) against 6·3 (2 official and 4·3 non-official) in 1894–95. Every taluk board met at least once a month as required by section 28 of the Act. The Udipi Taluk Board held the largest number of meetings, 16, and the Coondapoor Board, 14. The remaining three boards held twelve meetings each. No meeting was adjourned for want of a quorum.

6. The working of the taluk boards is reported to be satisfactory.

7. *Union Panchayats.*—No unions have as yet been formed in this district for reasons explained in former years.

Financial Position—Statement I.

8. *General.*—Excluding debt heads, the receipts amounted to Rs. 3,47,230 and the charges to Rs. 2,59,035 against Rs. 3,29,831 and Rs. 2,15,941, respectively, in the previous year, and the year closed with a balance of Rs. 96,854 which, was 27·8 per cent. of the receipts.

9. The principle on which the receipts and charges were distributed among the several local boards continued to be the same as in the previous years.

10. *Taxation.*—The incidence of taxation per head of population was As. 2–10 including and As. 2–1 excluding tolls against As. 2–9 and As. 2, respectively, in the preceding year. The increase was due to larger receipts both from "Land-cess" and "Tolls."

II.—Receipts.

11. *Opening balance, Rs.* 1,09,365.—This is the actual closing balance of the preceding year and exceeded the estimate by Rs. 22,585. The excess resulted chiefly from short expenditure under Grant I during 1894–95.

12. *Receipts.*—The total current receipts of the local boards amounted to Rs. 2,37,865 against Rs. 2,32,860, the estimate of the year, and Rs. 2,34,278, the actuals of the previous year. The receipts under the several heads are compared below :—

Heads.	1894–95.	1895–96.	Percentage of total receipts.	
			1894–95.	1895–96.
	Rs.	Rs.		
Rates and Taxes—				
Cess on land	1,30,304	1,32,010	55·6	55·5
Tolls	47,031	48,620	20·1	20·5
Education—				
School-fees	14,938	15,218	6·4	6·4
Other items	1,126	672	0·5	0·3
Medical	243	307	0·1	0·1
Contribution from private individuals	53	..	..	..
Miscellaneous—				
Choultry rents	6	..	..	..
Market rents	1,379	1,630	0·6	0·7
Ferry rents	29,026	28,666	12·4	12·0
Bungalow fees	1,473	1,216	0·6	0·5
Fees and fines	1,433	2,056	0·6	0·9
Rents and produce of land	14	3	..	..
Avenues	1,253	780	0·5	0·3
Sundry receipts	42	63	..	..
Public works	631	1,994	0·3	0·8
Contributions from Provincial funds	5,315	4,626	2·3	2·0
Do. from Special funds	11	4	..	..
Total	2,34,278	2,37,865	100	100

13. *Land-cess* levied at the usual rate of 1 anna 6 pies in the rupee of assessment realized Rs. 1,32,010 and was 55·4 per cent. of the total current receipts and 98·2 per cent. of the demand against Rs. 1,30,304, 55·6 per cent. and 98·5 per cent., respectively, in the preceding year.

14. *Tolls.*—The number of toll-gates maintained was fourteen against fifteen in the preceding year. The Baindur toll-gate, whose site was changed in order to avoid tolling local traffic, had to be abolished, as it did not fetch any reasonable price at the sale in its new site (G.O., Mis. No. 710 L., dated 22nd April 1895). The remaining fourteen gates were under the management of the district board as usual and were leased out for Rs. 48,600 against Rs. 47,003 in the preceding year. Tolls continued to be levied at the maximum rates at all the gates. The total receipts including interest and penalties levied from toll-contractors for delay in payment of kists and composition fees

amounted to Rs. 48,620 against Rs. 47,031 in the preceding year. The increase was due to keen competition among the bidders at the auction sale. A sum of Rs. 155 having been spent on works, the net income under this head was Rs. 48,465 or Rupees 44–2–2 per mile of roads maintained during the year and 63·7 per cent. of the total outlay on roads (including a sum of Rs. 6,669 referred to in paragraph 31 *infra*) against 67·1 per cent. in the preceding year. The whole of the demand was collected.

15. *Educational.*—The receipts under this head amounted to Rs. 15,890 against Rs. 16,064 in the previous year. The receipts from school-fees amounted to Rupees 15,218 against Rs. 14,500, the estimate for the year, and Rs. 14,938, the actuals of the preceding year. The increase was due to the collection during the year of the arrears of the preceding year and to better attendance. The fall in the sale-proceeds of books was due to the post of one of the colporteurs having remained vacant for a considerable time and to many books in use being out of print. As such books could not be supplied to the depôts, the pupils had to buy old books from former students.

16. *Medical.*—The sum of Rs. 154 appearing against sale of medicines is the value of medicines sold to the taluk boards from the reserve stock of medicines maintained by the district board. Rs. 100 is the amount of annual contribution paid by the Mangalore Municipality to the district board for the lymph supplied to it from the local fund vaccine depôt, Mangalore. The miscellaneous receipts under this head are the sale-proceeds of unserviceable articles belonging to the hospitals and dispensaries.

17. *V. Miscellaneous*—(*a*) *Contributions*—(3) *From Private Individuals.*—Private scavenging fees realized by the Kasaragod and Udipi boards have been credited to the Head V. Miscellaneous, (*f*) Fees and Fines under instructions from the Accountant-General.

18. *Market Rents.*—A new market has been started at Kandlur in the Coondapoor taluk. The Mudabidri market building is being enlarged, the accommodation being found insufficient. A substantial shed has been erected for the Kunjal market and a second shed has been constructed for the fish market at Udipi. The markets were popular and largely attended. Fees were levied at all of them except the new one at Kandlur, at rates varying from 1 to 3 pies per head-load as fixed by taluk boards. The right of collecting fees was leased out, and the whole demand was realized. The increase noticed in the receipts was due to keen competition at the auction sale. It is reported that the weekly fair held at Mulki is improving, and a fair started at Bajpe in the Mangalore taluk in May 1895 is freely resorted to by the people. No fees are levied here, as no building has been provided. The Taluk Board of Mangalore, however, contemplates the building of some sheds in the course of the current year. There are no markets under the Uppinangadi Taluk Board. The market building at Puttúr, which was not used as such during the year, has been rcently rented to the Survey Department, as it was found that, as a market, it was not resorted to.

19. *Ferry Rents.*—The right of collecting tolls at the public ferries has been leased out for three years from 1st April 1895 instead of two as in previous years. Under the terms of the new lease, the renters are to provide their own boats of all kinds, but the Jangar platforms are supplied by the district board. The renters were bound to purchase the boats that had been already supplied to the ferries by the district board at a valuation fixed by the Local Fund Engineer. The receipts from ferries exceeded the estimate by Rs. 526, but fell short of the actuals of the preceding year by Rs. 360, the decrease being due to a falling off in the bids owing to the condition of sale requiring the purchase of existing boats. The whole demand was realized.

20. *Bungalow Fees.*—Eight hundred and eighty-five travellers halted at the bungalows against 997 in the previous year. The receipts amount to Rs. 1,216 against Rs. 1,473 in the preceding year, the difference being chiefly due to the fact that the actuals of 1894–95 included arrears collected from subscribers to the old district bungalow fund. The condition of the bungalows is reported to be good throughout the district.

21. *Fees and Fines.*—The receipts under this head are made up of Rs. 1,450 realized by the sale of the right of levying fees at the cattle fair at Kulgunda, of Rs. 186, fees levied on shop-sites and cart-stands on the occasion of the several fairs and festivals, of Rs. 153 being the amount of fines levied under the Police Act and of Rs. 267 levied for cleansing private latrines in the towns of Udipi and Kasaragod. The first item exceeded the last year's receipts by Rs. 430. The increase is due to the revision of rates of fees.

22. *Avenues.*—Statement IV-B gives the statistics of road avenues. Out of 1,850 miles of road under the local boards, 437 miles were provided with avenues. There were, at the beginning of the year, 78,342 trees; 601 new trees were planted during the year and 446 trees perished, leaving 78,497 trees at the close of the year. The income from this source fell short of the estimate by Rs. 180 and the actuals of the last year by Rs. 473. The decrease is due to the sale of a smaller quantity of avenue clippings and to the failure of a contractor for the collection of the fruits of the *Vateria indica* trees to pay his rent. The contract has been rescinded since.

23. *Sundry Receipts, Rs.* 63.—This amount is made up of the following items :—

	Rs.
Sale-proceeds of cow-dung and rubbish collected at cart-stands and market-sites	19
Sale-proceeds of unserviceable hand-carts, lamps and lamp-posts	27
Petty items	17
Total	63

24. *Public Works.*—The increase under "sale of old materials" is chiefly due to the sale of the old windows of the Hosdrug school and timber of the Vekkattur bridge.

The receipts under miscellaneous consist of—

	Rs.
(1) Sale-proceeds of local fund boats sold to ferry contractors—*vide* paragraph 19 *supra*	948
(2) Remuneration paid by the Landing and Shipping Dues Committee on account of the services of the Local Fund Engineer in preparing plans and estimates	100
(3) Rent of the Jeppu quay	100
(4) Rent of the local fund buildings	49
(5) Petty items	40
Total	1,237

25. *Grants from Provincial Funds towards education.*—The estimate advised by the educational officers was too high. Hence a decrease is noticed in the receipts under this head. The Udipi and Coondapoor boards obtained no receipts under "Building grant," as the boards did not provide any buildings for their primary schools. The teachers in a few cases erected buildings of their own, the board paying a grant-in-aid.

III.—EXPENDITURE.

26. Excluding debt heads (Rs. 22,291), the total charges amounted to Rupees 2,59,035 against Rs. 2,15,941 in the previous year, the increase occurring under all the grants, but especially under Grant I. The expenditure under the several heads and the percentage of outlay under each grant are compared in the following abstract with the corresponding figures in 1894–95.

Grants.	1894–95.	1895–96.	Percentage. 1894–95.	Percentage. 1895–96.
GRANT I.	Rs.	Rs.		
Communications	85,940	1,18,519		
Buildings	9,027	9,781		
Miscellaneous public improvements	3,026	2,456		
Establishment and contingencies	23,300	23,607		
Tools and plant	1,455	1,497		
Miscellaneous including refund of receipts	40	30		
Total	1,22,788	1,55,890	56·9	60·2
GRANT II.				
Education	41,178	44,251		
Miscellaneous including refunds	1,783	1,834		
Total	42,961	46,085	19·9	17·8
GRANT III.				
Hospitals and dispensaries (including medical pupils, midwives, midwifery pupils and District Medical and Sanitary Officer's establishment).	22,448	22,075		
Vaccination	6,593	7,737		
Sanitation	5,898	6,955		
Total	34,939	36,767	16·2	14·2
GRANT IV.				
Markets	5	84		
Choultries	324	348		
Bungalows	1,087	3,055		
Contribution to Provincial, &c., funds	2,308	2,833		
Miscellaneous	411	727		
Refunds	20	..		
Total	4,155	7,047	1·9	2·7
GRANT V.				
Supervision and management	11,096	13,242		
Refunds	2	4		
Total	11,098	13,246	5·1	5·1
Grand Total	2,15,941	2,59,035	100	100

27. *Grant I, Public Works.*—Statement III gives the particulars of outlay on public works which amounted to Rs. 1,30,756 against Rs 1,85,430, the allotment for the year, and Rs. 97,993, the actuals of the previous year. The actuals were 70·5 per cent. of the allotment in 1895–96 against 62·0 per cent. in 1894–95.

28. The following note on the question of short expenditure has been left by Mr. Welsh who was President throughout the year :—

"The progress would have been a good deal better; had not the late Engineer entrusted no less than seven new works and seven repairs to one contractor on piece-work agreement in addition to five large written contracts which were approved by the President of the District Board. Under this piece-work system a contractor only works at parts which he thinks will pay him and, as soon as he comes to any difficulty, he stops work without reporting to any one, and as he was given an allowance of 7½ per cent. for providing supervision, the maistries were under his orders and it was only after a time that the overseers found out the stoppage of the work. He also pays his coolies irregularly and in consequence raises their wages, thereby spoiling the market, and permits a slovenly style of work. The same contractor also took other contracts for the Forest Department and had thus far more on his hands than he could manage or had capital for; consequently instead of being made to give security to the engineer for faithful execution of his contracts, he claimed advances to be made to enable him to execute them, and instead of attending to orders, he petitioned the President to interfere with the orders of the engineering establishment. Much delay and friction naturally resulted, but great credit is due to the acting Engineer M.R.Ry. Vaikunta Baliga, for the energy with which he overcame the obstruction and brought to notice the disobedience and neglect of Dasappaya and other overseers.

"Had it not been for his exertions, the progress would have been not nearly so good as it is, for the new Engineer Mr. Dods had a great deal on his hands, taking charge as he did on the 8th of January, rather late in the working reason. But M.R.Ry. Vaikunta Baliga's excellent arrangements were of great help to Mr. Dods.

29. *Important Projects.*—The most important public works under construction during the year were the following :—

	Expenditure in the year. Rs.
1. Constructing the Sullya bridge	2,461
2. Do. the Kadimbilla bridge	14,376
3. Renewing the Birchinhalla bridge	5,565
4. Constructing Balcutta bridge	1,143
5. Renewing the Omilar do.	1,866
6. Constructing Panambur Karnad road	2,942
7. Do. Bajpe-Surathkal road	1,746
8. Improving coast road south of Netravati river	1,383
9. Gravelling coast road north of Mahbukal river	1,805
10. Improving coast road near Kanp bungalow	1,263

30. Work No. 1 stands on road No. 1 (Mangalore-Mercara) and works Nos. 2, 3 and 4 on road No. 2 between Mysore and Mangalore. Works Nos. 6, 7 and 9 are identical with Nos. 4, 5 and 6 mentioned in paragraph 29 of the report for 1894–95. Work No. 8 was undertaken in 1885 under a sanctioned estimate of Rs. 35,000. Rs. 33,821 have been expended on it up to the end of March last. Work No. 10 is a portion of the coast road in the Udipi taluk. The amount standing against work No. 6 was the cost of constructing culverts which formed part of the road estimate and that against the last work, the cost of materials collected. Works Nos. 4 and 5 were completed during the year.

31. *Roads.*—Statement IV-A shows the statistics of roads in the several taluks. Eight miles of village roads were constructed during the year at a cost of Rs. 5,272, raising the mileage of roads from 1,842 to 1850. Of these, 1,098 miles were repaired during the year at a cost of Rs. 64,049 against 1,040 miles and Rs. 59,789, respectively, during the previous year. The average cost of maintaining a mile of village road was Rs. 21, taluk road, Rs. 36 and district road, Rs. 143 against Rs. 32, Rs. 36 and Rs. 126 in 1894–95. A sum of Rs 6,669, being the cost of improving the coast road and five other smaller roads in the district is excluded from this statement under instructions contained in G.O., Mis. No. 2154 L., dated 11th November 1895. The expenditure on village roads amounted to 11·6 per cent. of the total outlay on roads including the sum of Rs. 6,669 just mentioned against 9·8 per cent. in the preceding year.

32. Mr. Welsh left the following note on the state of the roads :—

"The cross roads and minor roads are generally in excellent condition, especially where good laterite is obtainable and the traffic and the gradient are not heavy.

"On the coast also the same may be said, though some stretches of mud and dust exist in Udipi taluk where complaint is made that contractor M.R.Ry. K. Subraya Pai used bad material instead of good gravel.

"Of the six main lines from the mountains to the coast, the chief, the Siradi ghât, is in good order and the Agumbe ghât is in very good order. The Kollur, the most northerly, is in fair order. The most southerly, the Sampaje route from Coorg is said to have been spoilt by the contractor picking up the old surface for miles as if to repair it and then omitting to do so. The parts which I have seen from Mangalore to Puttur are, however, in fair order, considering the heavy traffic. The last remaining route, that of Charmdi, was reported as very bad in the monsoon, but by the efforts of the engineering establishment it has been greatly improved and from its junction with the Sampaje ghât to the 58th mile, the second mile of the ghât, it is decidedly good. The reports of the remaining miles of the ghât are not favourable, but the establishment has worked most creditably in overcoming the difficulties of scarce labour, poor water-supply, absence of shops, want of shelter and feverish climate.

"The following are the chief damages caused during the monsoon. In one instance, where an unfinished work, the Pollotte three vent-culvert, was partly washed away, the result was fortunate, as it disclosed the fact that the contractor had put work not according to the specification into the substructure :—

"1. A culvert at Chibidri.
"2. Road embankment at Yernodi.
"3. The Coombra bridge.
"4. A small bridge between Puttúr and Khow.
"5. The Pollotte culvert."

33. *Buildings.*—Rs. 7,450 were spent on new buildings and Rs. 2,331 on repairs. The principal buildings, the construction of which was undertaken during the year, were a dispensary at Shankranaraina, quarters for the hospital assistants at Kollur and Shankranaraina and the medical subordinate at Puttúr, an animal vaccine depôt in the compound of the Wenlock hospital at Mangalore, a primary school-house at Padubidri, an additional wing to the high school at Coondapoor, chattrams at Mani, Adhur, Muliar Bastipadpu (Bantval) and Sullia and travellers' bungalows at Charmadi and Albadi.

34. *Miscellaneous Public Improvements.*—Rs. 177 were spent on planting avenues. The construction and improvement of market sheds has been already noticed in paragraph 18 *supra*. The work of three new wells—one in the town of Mulki and two at Udipi was completed during the year and the work of another at Bastipadpu (Bantval) was partly done. A second corrugated iron latrine at Coondapoor was also completed.

35. *Establishment.*—A sum of Rs. 1,854 was paid to the Public Works Department for the scrutiny of the plans and estimates of the Kadimbilla, Birchinhalla, Sullia, Hossangadi and Yenoor bridges.

36. Mr. J. B. Macfarlane, the late Local Fund Engineer, was transferred to Salem district in October last and his successor Mr. J. C. Dods was appointed in January last. The transfer of Mr. Macfarlane was sanctioned in G.O., Mis. No. 1255 L., dated 18th July 1895.

37. The cost of the establishment amounted during the year to Rs. 19,621 against Rs. 21,211 in the preceding year. The decrease was due to the rate of the new engineer's pay being Rs. 400 per mensem, while that of his predecessor was Rs. 500. The new engineer, moreover, joined nearly three months after Mr. Macfarlane's departure, the charge of the engineering department being in the interval entrusted to the supervisor with an acting allowance of Rs. 80 per mensem. The head draughtsman's salary was raised from Rs. 40 to Rs. 45 from 1st April 1895. The total cost of the establishment including contingencies amounted to Rs. 21,715 which was 16·7 per cent. of the outlay on works executed by the department against Rs. 23,208 or 24 per cent. in the previous year. The whole cost of the establishment was, as usual, debited to the district board.

38. *Tools and Plant.*—The expenditure under this head amounted to Rs. 1,497 or 1·1 per cent. of the outlay on works against Rs. 1,455 or 1·4 per cent. in the preceding year. The excess over the prescribed percentage was due to the purchase of certain mathematical instruments urgently required by the Local Fund Engineer.

39. *Grant II, Education—Inspection.*—The number of inspecting schoolmasters remained the same as in the previous year, viz., six for the five taluks and one for the Muhammadan schools in the district. They visited 482 villages and prepared 331 (141 board and 190 result) schools for examination. The cost on account of inspection was Rs. 2,900 against Rs. 3,300, the estimate, and Rs. 3,112, the actuals of the previous year. The decrease is partly due to the appointment of an inspecting schoolmaster on Rs. 22–8–0 in the place of one on Rs. 32–8–0 and partly to savings in travelling allowance. The work of the inspecting schoolmasters is reported to be fairly satisfactory by the Assistant Inspector of Schools.

40. *Sessional Schools.*—There were three sessional schools at Udipi, Kasaragod and Puttúr working for three months each. Besides these, one opened at Puttúr on the 7th of January 1895 was closed early in the following April, and one opened at Kasaragod on 28th March 1896 continued working into the current year. The number of students admitted in the three full-term schools was nineteen, of whom ten were board schoolmasters, four result schoolmasters and five stipendiary students. Of the nineteen students, eighteen appeared for the Primary School examination, and all passed. The sum of Rs. 601 standing against sessional schools includes Rs. 61 being the cost incurred on account of the school at Puttúr, which was closed early in April 1895, the statistics of which were given in the last year's administration report. The net cost of the three full-term schools was therefore Rs. 540, which was Rs. 28–6–8 for each student educated, and Rs. 30 for each student passed against Rs. 24–1–7 and

Rs. 26–12–5 in the previous year. This increase is due to the fact that the sessional schoolmaster drew his pay the whole of the year 1895–96, while in the preceding year he drew it for eight months only from July 1894 in which month his post was newly sanctioned.

41. *Secondary Schools.*—As in the previous year there was one upper secondary school at Coondapoor and four lower secondary schools at Udipi, Karkal, Kasaragod and Puttúr. The Coondapoor school was worked on the salary system and the others on the salary-results system. The number on the rolls in all the five schools on the 31st March 1896 was 613 against 641 on the corresponding date of the preceding year. The Coondapoor high school sent up fourteen candidates for the Matriculation examination, of whom six passed, one in the first class against twelve presented and four passed in 1894–95. For the Lower Secondary examination, twenty-one students appeared from the same school and eight passed, Udipi passed ten out of twelve, Karkal nine out of ten, and Kasaragod seven out of eleven candidates. Instruction in gymnastics continued to be given in all the secondary schools by specially trained teachers attached to the schools. A supply of books costing Rs. 381 was purchased for the Coondapoor high school library.

42. The cost of these institutions exclusive of the amount of Rs. 1,254 debited to grant I was Rs. 10,611 against Rs. 11,501 in the previous year. Comparing the receipts, Rs. 11,026 with the charges, Rs. 10,611 these schools were worked at a profit of Rs. 415. Including the amount spent on buildings, the board spent Rs. 839 on these institutions in excess of the receipts.

43. *Primary Schools.*—The number of schools at the beginning of the year was 141. Three were since opened and three were closed, leaving the number in existence the same at the end of March. There were 5,185 pupils on the rolls on that date against 4,902 on the corresponding date of the preceding year. Three thousand four-hundred and seventy-three pupils were presented for examination and 2,759 or 79·4 per cent. passed against 3,041, 2,479 and 81·1 per cent. in 1894–95.

44. As in the previous year the boards maintained seventeen primary schools for Muhammadans, six in the Mangalore taluk, four in the Udipi taluk and seven in the Coondapoor taluk. These schools had 429 pupils (354 boys and 75 girls) on the rolls on the 31st March 1896 against 431 (372 boys and 59 girls) on the corresponding date of the previous year. Two hundred and ninety-three boys and 22 girls were examined of whom 233 boys and 13 girls passed, against 269 boys and 24 girls presented and 203 boys and 19 girls passed in the preceding year.

45. There were two Panchama schools as in the preceding year—one at Jeppu in the Mangalore taluk and another at Kudlu in the Kasaragod taluk. The former school is reported to have worked well. The latter school was opened at the close of the year. It could not be opened earlier for want of a building.

46. The total cost on account of the board primary schools was Rs. 22,169 against Rs. 22,080, the estimate. The increase occurs under result grants.

47. *Aided Schools.*—Of aided schools there were 188 against 154 in the previous year. Two Hindustani schools have been newly started in the Mangalore taluk—one at Yekkar Padavu in October and one at Ganjimat in November 1895. Two more private schools have also been opened in the same taluk—one at Ullal and the other at Bantval in the month of March 1896 for the instruction of Mappilla children with the object of bringing these institutions on the aided list during the current year. The number of pupils on the 31st March 1896 was 7,195, of whom 6,343 were boys and 852 girls. Four thousand two-hundred and seventy-five pupils were presented for examination and 3,619 or 84·6 per cent. passed against 3,867, 3,143 or 81·2 per cent. in the preceding year. The results grants were paid at the maximum rates and amounted to Rs. 7,520.

48. (*h*) *Miscellaneous.*—A sum of Rs. 1,827 was spent for supplying books for sale at the local fund book depôts and for the payment of the selling agency. The greater part of the allotment was utilized.

49. *Grant III, Medical Services, &c.—Hospitals and Dispensaries.*—There were six hospitals and ten dispensaries as in the preceding year. The hospitals were in charge of civil apothecaries and the dispensaries in charge of hospital assistants. All the medical subordinates were natives of the district except one, the civil apothecary in charge of the Karkal hospital. One Government hospital assistant, who was a native of Malabar, was recalled, because an officer trained by the district board became available during the year. The number of patients treated in all the institutions was 67,448 (387 in and 67,061 out) against 75,188 (353 in and 74,835 out) or 6·6 per cent. of the population against 7·4 per cent. in the preceding year. A decrease in the number treated is noticed against all the institutions except the dispensaries at Mulki, Uppinangadi and Hosdrug, and is attributed by the District Medical and Sanitary Officer chiefly to the closure of the buildings for some days during the triennial transfer of the medical subordinates within the district and to the absence of the medical subordinates from their stations for giving evidence in criminal courts, to the less prevalence of malarial fevers and to the closure of the dispensaries at Hebri, Kollur and Sullia for 49, 63 and 105 days, respectively, during the absence of the medical subordinates on sick leave. The second reason appears to be doubtful since the same cause was in operation during the previous year also.

50. The proposal of the Uppinangadi Taluk Board to transfer the Golitattu dispensary to Uppinangadi which was once negatived in G.O., Mis. No. 899 L., dated 20th May 1895, was subsequently, on a reconsideration of the matter, approved in G.O., Mis. No. 603 L., dated 27th March 1896. A building for the local fund dispensary at Shankranaraina estimated to cost Rs. 1,670 is in course of construction. A sum of Rs. 671 was spent on the work up to the end of March last. Quarters were provided for the hospital assistant at Hebri, and quarters for the medical subordinates at Puttúr, Kullur and Shankranaraina were under construction. They are expected to be ready for occupation during the current year. Compounders were employed at all the hospitals but not at dispensaries.

51. The total cost of maintaining the hospitals and dispensaries was Rs. 19,344 or As. 4–7 for each patient treated against Rs. 19,820 or As. 4–3 in 1894–95. The increase is due to the increment of pay of some of the medical subordinates and to the entertainment in the year of compounders at Karkal and Puttúr

52. *Medical Pupils.*—There were four medical pupils under training—three at the Madras Medical College and one in the Wenlock Hospital at Mangalore. One of the former passed out of the college in June 1895 and on his return to the district was put in charge of a local fund dispensary. The latter proceeded to complete his course at Madras in October 1895. The cost of training these pupils amounted to Rs. 437.

53. *Midwives and Midwifery Pupils.*—There were eight midwives as in the previous year. The number of labour cases at which the midwives assisted was 822 or on an average 8·5 cases per month against 826 cases or on an average 8·6 cases per month in the previous year. The Kasaragod Taluk Board has sent a woman for training in midwifery at Madras for eventual employment at Hosdrug. The midwife at Mudabidri was transferred to Manjeshwar.

54. *Medical Training of Women.*—The board contributed as usual Rs. 1,000 towards the Women and Children's hospital at Mangalore. Provision has been made in the current year's budget for the training of a female pupil for the apothecary's grade.

55. *Vaccination.*—The vaccine staff was reorganized from the 1st of April 1895. The scheme was sanctioned in G.O., No. 155 L., dated 24th January 1895, reviewing the consolidated budget of the district for 1895–96. The details of the scheme are given in paragraph 42 of the President's letter, No. 2282, dated 13th December 1894, read in the Government Order. According to the new scale the vaccine staff consisted of two deputy inspectors, six first-class vaccinators, ten second-class vaccinators and ten probationers. At the recommendation of the District Medical and Sanitary Officer three pupil-vaccinators on Rs. 4 each were also entertained from August 1895 to undergo training in vaccination work at the local fund vaccine depôt with the object of filling vacancies occurring in the posts of vaccinators by trained men. The vaccinators performed in all 34,120 operations, of which 25,741 or 75·4 per cent. were successful

against 34,684 operations and 62·5 percentage of success in 1894–95. The medical subordinates performed 246 operations, of which 199 or 80·8 per cent. were successful against 356 with a success percentage of only 56·1 in the previous year. The total number of operations performed in the local fund district was thus 34,366, of which 25,940 or 75·4 per cent. were successful against 35,040, 21,900 and 62·5 per cent. in the preceding year. The total number of successful cases bears a ratio of 25·6 per mille to the total population against 21·6 per mille in 1894–95.

56. There were 2,103 successful operations on children under one year of age, of which 13 were performed by the medical subordinates and the rest by vaccinators against 1,001 in the previous year. The ratio of successful operations to the total number of births, 31,057 recorded in the year was 67·7 per mille against 30·4 per mille in the previous year.

57. Although there was a decrease in the total number of operations, the number of successful cases increased. There was some improvement too in infant vaccination; but on the whole the work turned out both as regards the total number of operations and the percentage of success is far from satisfactory. Further details on the subject of vaccine operations will be found in the District Medical and Sanitary Officer's report, No. 1114, dated 2nd June 1896, forming an enclosure to this report. The District Medical and Sanitary Officer's proposal to depute an officer to study the methods employed at the vaccine institute at Bangalore will be adopted.

58. The District Medical and Sanitary Officer visited in the course of the year the following places:—Udipi, Coondapoor, Mulki and Beltangadi twice, and Shankranaraina, Bantval, Mudabidri, Kullur, Manjeshwar and Karkal once. He did not visit any outlying villages probably, because he has been relieved of the duty under G.O., No. 295 L., dated the 9th February 1895.

59. The total cost of vaccination amounted to Rs. 7,737 and the average cost of each successful case was As. 4–9 against Rs. 6,593 and As. 4–10, respectively, in the preceding year. This increase in cost is due to the reorganization of the establishment involving enhanced pay to vaccinators and to the entertainment of pupil-vaccinators.

60. *Sanitation.*—Excluding the cost of wells and latrines, Rs. 1,043 debited to Grant I, the total outlay amounted to Rs. 6,955 as shown below against Rs. 5,898 in the previous year:—

	1895–96. Rs.	1894–95. Rs.
1. Improvement of water-supply	1,252	1,251
2. Scavenging establishment	3,556	3,377
3. Arrangements at fairs and festivals	1,306	1,088
4. Other sanitary outlay	841	182
Total ..	6,955	5,898

The allotments under these heads have been almost fully worked out. The details of the expenditure are given in the accompanying statement XIV. The total cost on account of sanitation including Rs. 1,043 debited to Grant I was 95·6 per cent. of the allotment against 70·2 per cent. in the previous year.

61. *Public Health.*—*Vide* District Medical and Sanitary Officer's report.

62. *Grant IV, Public and Charitable Institutions.*—A sum of Rs. 84 was spent for payment of the assessment of the several market-sites and of the seigniorage for felling trees on the Baindur market-site. Some of the travellers' bungalows were supplied with new furniture. This accounts for the large increase in the expenditure under "Public Bungalows," as compared with the expenditure of the preceding year.

63. *Contributions.*—The amount of contributions to Provincial services was the amount of actual expenditure advised by the Accountant-General. A sum of Rupees 1,600 was paid to the Municipal Council of Mangalore, Rs. 600 being the usual contribution towards the cost of the Wenlock Hospital and Rs. 1,000, the amount sanctioned in G.O., Mis. No. 1200 L., dated 29th June 1894, in aid of the local hospital for women and children. The usual grant of Rs. 250 was also paid to the St. Joseph's Leper Asylum at Kankanadi.

64. *Miscellaneous.*—A sum of Rs. 170 was spent for payment of rewards for the destruction of stray dogs and Rs. 164 for similar rewards for killing poisonous snakes. The Taluk Boards of Mangalore, Udipi and Coondapoor paid at the rate of Re. 1 for each snake destroyed and the remaining two Taluk Boards of Kasaragod and Uppinangadi As. 8. In three of the taluks rewards were paid on the certificates of potels which is a system open to criticism. In two taluks the snakes were produced before medical officers. An expenditure of Rs. 393 was incurred for the maintenance of street lamps in the towns of Udipi, Coondapoor and Kasaragod.

65. *Grant V, Supervision and Management.*—The expenditure under this grant amounted to Rs. 13,246 or 3·8 per cent. of the total receipts and 5·1 per cent. of the total charges against Rs. 11,098, 3·3 per cent. and 5 per cent., respectively, in the preceding year.

66. A sum of Rs. 1,380 standing against the head "Law charges" is the amount paid by the Udipi Taluk Board to the trustees of the Anantheswar temple at Udipi being the amount decreed by the High Court in their favour in connection with the suit referred to in paragraph 55 of the last year's administration report.

67. *Allotment from District Funds.*—The allotments made by the district board to the several taluk boards were as shown below:—

	Rs.
Mangalore	9,460
Kasaragod	7,670
Uppinangadi	1,300
Udipi	23,540
Coondapoor	8,820
Total ..	50,790

The comparatively large allotment made to the Udipi Taluk Board included a sum of Rs. 20,490 allotted by the district board for the construction of the Malpe bridge.

68. *Endowment.*—As in previous years the only endowments in the district were the fifteen markets shown in statement VI. The total receipts from the markets were Rs. 4,487 and the total expenditure Rs. 1,139, leaving a balance of Rs. 3,348.

69. *Local Fund Accounts.*—The Assistant Inspector of Local Fund Accounts inspected the accounts of the district for the period from March 1894 to January 1896 and reported that the general result of the inspection was, on the whole, satisfactory.

ENCLOSURE.

No. 1114.

ANNUAL Report on the working of Local Fund hospitals and dispensaries of South Canara District for the official year 1895–96.

Public Health and Vital Statistics.—The number of births and deaths in the year, with the causes of the latter, was as follows:—

Deaths.										Births.		
Cholera.	Small-pox.	Fevers.	Dysentery and diarrhœa.	Suicide.	Accidents.	Snake-bite.	Killed by wild beasts.	All other causes.	Total.	Males.	Females.	Total.
79	104	8,789	1,563	101	225	60	2	10,172	21,095	16,754	15,542	32,296

Death-rate per mille	19·97
Birth rate do.	30·58

The health of the district was on the whole good, the mortality from all causes except from dysentery and diarrhœa being less than the preceding year. There were no abnormal seasonal phenomena excepting that the rains failed earlier than usual. The crops were generally good.

The rainfall at Mangalore was 126·63. Under the head of "cholera" 79 deaths were recorded during the year; only in Coondapoor taluk the epidemic prevailed and the origin of it was traced to a pilgrim who had returned from Tirupati with the attack and succumbed to it. The hospital assistant of Shankarnarayana dispensary was placed on special duty with necessary medicines.

Small-pox was reported to have prevailed in some villages of Puttúr taluk, but not in an epidemic form. The number of deaths registered under this head was 104 against 156 of the previous year.

2. *Sanitation.*—Conservancy establishments were maintained in 23 towns and villages as in the previous year. In towns where there are hospitals or dispensaries the work is supervised by medical subordinates, but elsewhere it is neglected as the establishment consists of only one sweeper whose work is not properly supervised. Though so many villages are said to be conserved still in many of them there as yet exists no arrangement for the disposal of human excreta and the result is that people defæcate indiscriminately in public lanes and alleys. The excreta thus passed is allowed to remain there till it is cleared by pigs (which abound in number) or washed away by rain into the nearest drinking-water wells or streams. It is to this fact the large number of bowel complaints (typhoid fever included) is due. The only remedy is to increase the number of public latrines and to have them cleansed by a properly organized staff. As this suggestion involves an extra expenditure, I would suggest that the taluk kasba towns in the district may be constituted into unions, so that requisite funds may be raised by the imposition of house-tax.

The following is extracted from the last annual report drawn up by Surgeon-Major W. A. Lee to show that the district is not unsuited, as it is believed by some, for the working of unions:—

"Excluding the Nilgiris, unions have now been established in every district throughout the Presidency excepting Malabar and Canara, though it cannot be maintained that there are any exceptional conditions in this district to prejudice their utility; on the contrary, I am convinced that their operations in the places indicated would be attended with much and substantial advantage."

More public wells are needed especially on roads frequented by travellers.

3. *Vaccination.*—The number of vaccine operations performed by the vaccine department and by medical subordinates is shown in the subjoined statements:—

By Vaccinators.

Year.	Total vaccinated.				Under one year of age.			
	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
1894-95	21,700	11,085	1,899	34,684	978	710	75	1,763
1895-96	25,741	6,864	1,515	34,120	2,090	715	120	2,925

By Medical Subordinates.

Year.	Total vaccinated.				Under one year of age.			
	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
1894-95	200	126	30	356	23	17	3	43
1895-96	199	28	19	246	13	1	1	15

The year's totals show a decrease of 564 cases against 3,114, the difference of the past year, while the percentage of successful cases in the Northern circle from glycerine was 72·68 against 61·4 per cent. and in the Southern circle 65·42 against 61·6. The result of operation with lanoline paste could not, however, be compared, as this was the first year this vehicle was used in the preparation of the paste. The percentage of successful cases with lanoline paste in the Northern circle was 88·85 and 87·35 in the Southern circle.

Both the Deputy Inspectors speak very favourably of lanoline paste and state that though the percentage of success with glycerine was higher than last year, the supply of lymph from the depôt varied in its quality and quantity from time to time, that better results were not produced. The fall in this year's number of operations, small as it is, is greatly to be regretted. It is due to the non-receipt of lymph for one month by one or two vaccinators situated far away from post offices. To them parcels of paste were sent through Revenue officers and they were mislaid somewhere in the revenue office or sent late so that the paste lost its efficacy. This is one of the

reasons for the percentage of successful cases being lower in the Second-class Deputy Inspector's circle where these vaccinators are located. It is under contemplation to re-distribute the vaccinators' divisions so that each vaccinator may have his head-quarters in post office village or very near it. This, I think, will conduce to greater work being done next year.

As a rule, vaccinators are fond of shirking work and performing the work most perfunctorily, while a few of them have not only vaccinated the minimum number of cases and more to earn rewards, but also produced very successful results with the paste which in the hands of others has either failed or contributed many unsuccessful cases. During the year under report some of them who were found to be distinctly careless and lax in duties were recommended to be fined. On the suggestion of Surgeon-Major W. A. Lee, the district board had sanctioned the entertainment of one probationary vaccinator on Rs. 10 per mensem and three pupil vaccinators on Rs. 4 per mensem (all to work at the head-quarter depôt), but so far Dr. Lee's expectations that better class of men will enter the depôt with the ultimate prospect of promotion and that the inferior set of men now in service will be replaced in due course have not been realized. Perhaps the pay offered is too little to attract a better class of men.

There has been a decided improvement in the supply of lymph both in quantity and quality during the year as compared to the previous year, but it is still a matter for regret that a continuous supply of lymph cannot be maintained. Attention to various details was paid and the use of antiseptics was discontinued, but the working of the depôt has not yet attained that standard of perfection desired or desirable. The vaccinator in charge of the depôt, who produced very good results during the first two years of his appointment, has somehow lost power over his hand, and the result was that his incisions were either too deep or very superficial. This man has, after all, been transferred and his place is taken by another from whom better results are confidently expected next year. In the meanwhile a report on the working of this depôt has been sent to the Inspector of Vaccination with the request that measures to improve the quality and thus to secure an uninterrupted supply of lymph may be communicated. If that officer falls in with the proposal, the depôt vaccinator would be sent to Bangalore to obtain a practical knowledge of its working.

Government has sanctioned the use of lanoline in the preparation of vaccine paste for use in the district—*vide* G.O., Mis. No. 15 L., of 6th January 1896.

The cost of working the animal vaccine depôt at Mangalore was Rs. 920–14–7, the expenditure on establishment being Rs. 448–6–1 and on hire of calves, feeding charges and contingencies Rs. 472–8–6; while the receipts (including Rs. 100 contributed by the Mangalore Municipality) were Rs. 102–10–0.

4. *Hospitals and Dispensaries.*—There were six hospitals and ten dispensaries in the district. No new hospital or dispensary was opened nor any abolished during the year. Government has sanctioned, in its Order, Mis. No. 603 L., of 27th March 1896, the permanent transfer of Golitallu dispensary to Uppinangadi. Several of the dispensaries are still located in hired buildings, and the sooner pucka buildings according to standard plan are raised at the cost of the board, with quarters for hospital assistants, the better it will be for making the institutions popular, not only with the subordinates who very often suffer for want of lodgings, but also with the people.

There was a slight increase of 34 among in-patients treated, but there was a decrease of 7,774 among out-patients treated. The decrease is chiefly owing to the closure of the institutions for some days during the general transfer of the medical subordinates in the district, to the absence of the medical subordinates from their stations for giving evidence in criminal courts, and to the less prevalence of malarial fevers during the year under report. The dispensaries at Hebri, Kolloor and Sullia were closed for 49, 63 and 105 days, respectively, during the absence on sick leave of the medical subordinates in charge.

Among hospitals Kasaragod, and among dispensaries Hosdrug, Mulki and Uppinangadi, show the largest number of out-patients; while Bantval records the largest number of in-patients. The attendance of patients in Sullia and Kollur is decidedly bad—probably due to the absence of malarial fever.

A statement showing the attendance of patients treated in each hospital and dispensary is appended.

5. *Inspections.*—Statement showing the number of hospitals and dispensaries in the district inspected during the year is given below:—

Hospitals.						Dispensaries.									
Udipi.	Coondapoor.	Karkal.	Bantval.	Puttur.	Kasaragod.	Mulki.	Mudbidri.	Hebri.	Beltangadi.	Sullia.	Uppinangadi.	Kollur.	Shankarnarayana.	Manjeshwar.	Hosdrug.
2	2	1	1	..	..	2	1	..	2	..	..	1	1	1	..

All the hospitals and dispensaries were supplied with sufficient furniture and all the medical subordinates have been directed to include in their next annual indents the old articles that are to be repiaced by new ones according to the instructions laid down in Surgeon-General's Standing Order, No. 22, of 15th June 1895.

One hundred and eighteen major operations were performed by the medical subordinates during the year against 87 in 1894–95 and 91 in 1893–94. The medical subordinates in charge of Udipi, Karkal and Coondapoor, it is gratifying to note, have done the largest number. Of the four medical pupils that were under training in Madras, one returned from Madras after duly qualifying himself as hospital assistant in July 1895 and was posted to Hebri.

The recommendations made by the inspecting officers were duly attended to by the taluk boards.

No recoveries were made from patients as they were not in a position to pay.

The Surgeon-General with the Government of Madras did not visit any of the local fund institutions during the year under report.

The establishment maintained in hospitals and dispensaries was sufficient and efficient.

6. *Work of Midwives and Medical Training of Women.*—The number of midwives all trained at the Government Lying-in, called at present Government Maternity, Hospital remains the same as in the previous year, viz., eight, who were stationed in the following towns:—Coondapoor, Udipi, Karkal, Bantval, Puttur, Kasaragod, Mulki and Manjeshwar. The total number of labour cases attended by these women was 822 against 826 in 1894–95.

During the year under report the midwife at Udipi was on sick leave, but none could be sent in her place. Quite recently the midwife at Bantval applied for three months' privilege leave, but her services being largely in demand in that town the midwife from Mulki had to be sent temporarily. To remedy this state of things I would suggest the board to sanction the entertainment of at least one midiwifery pupil, so that she may be utilized in filling up such temporary vacancies. To keep a station without a midwife is as inconvenient to the people as it is to a midwife to be refused leave while in ill-health.

The work of the midwives was on the whole satisfactory. The Taluk Board of Kasaragod has sent a woman for training at the Government Maternity Hospital, Madras, for eventual employment as midwife at Hosdrug. The midwife at Mudbidri was transferred to Manjeshwar in the early part of the year under report, as she conducted very few cases there and was considered not to be popular.

ORDER—No. 1910 L., dated 14th October 1896.

The local fund receipts and charges of the South Canara district for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95:—

—	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.

2. *Local Boards.*—The local boards met a sufficient number of times and the attendance of their members was fair. The District Medical and Sanitary Officer and the Sub-Assistant Inspector of Schools should be warned to be more regular in their attendance in future. The working of the taluk boards is reported to have been satisfactory. No unions have yet been formed in this district.

3. *Receipts.*—(1) The collections under land-cess amounted to 98·2 per cent. of the demand against 98·5 per cent. in the previous year.

(2) There were fourteen toll-gates against fifteen in the previous year, but owing to keen competition at the sale of the farms, the demand under this head rose from Rs. 47,015 to Rs. 48,600 and the whole of it was realised within the year.

(3) Fees were levied in thirteen markets as in the previous year, but the receipts from this source fell from Rs. 3,711 to Rs. 1,630. The cause of this decline has not been explained—an omission which should be supplied.

(4) The receipts from avenues again declined, being Rs. 780 against Rs. 1,253 in 1894–95. The decrease is attributed to the sale of a smaller quantity of avenue clippings and to the failure of a contractor to pay the amount of rent due by him.

4. *Expenditure*—(1) *Public Works.*—The outlay under this head rose from Rs. 97,993, or 62 per cent. of the allotment, to Rs. 1,30,756, or 70 per cent., and the expenditure on communications exceeded by nearly 4 per cent., the minimum prescribed by Government in its Order, No. 1686 L., dated 14th September 1895. The decrease under the estimate is explained in paragraph 28 of the President's report. The expenditure on village roads was Rs. 8,830, or 11·6 per cent. of the total outlay on roads, against Rs. 6,889, or 9·9 per cent., in the previous year. The condition of the roads is reported to have been good, except in a few cases. Owing to the increased expenditure on public works, the cost of the local fund engineering establishment was only 17 per cent. of the outlay on works against 24 per cent. in 1894–95. The cost of tools and plant, however, slightly exceeded the limit prescribed by Government, in consequence of the purchase of certain mathematical instruments urgently required by the Local Fund Engineer.

(2) *Education.*—As in the previous year, there were seven inspecting schoolmasters and their work is reported to have been satisfactory. The district board again maintained three sessional schools, but the number of students trained in them fell from 24 to 19. Of the latter, 18 appeared for the primary examination and all of them were successful. The taluk boards continued to maintain an upper and four lower secondary schools and these were attended on the 31st March 1896 by 613 pupils against 641 on the corresponding day in the previous year. The Coondapoor high school sent up 14 candidates for the Matriculation examination, of whom 6 passed, against 12 and 4, respectively, in 1894–95. In the lower secondary examination, however, it fared badly, only eight students having passed out of the 21 that were sent up. The schools at Udipi and Karkal did particularly well in this examination, while the results produced by the Kasaragod school were fair. These institutions were worked at a net profit of Rs. 415 to the taluk boards. There were 141 board primary schools as in the previous year, but their attendance rose from 4,902 to 5,185 and they appear to have made fair progress, 79 per cent. of the pupils examined having passed the standard examinations against 81 per cent. Of these schools, two were again maintained for the exclusive benefit of Panchamas and 17 for Muhammadans. Of the former, the school at Jeppu continued to work well, while the other at Kasaragod was not successful, and was transferred, at the close of the year, to Kudlu. In the report for 1894–95 it was stated that the question of opening special schools for Mappillas would be taken in hand in the next year, but no information on this subject has been given in the present report. The omission should be supplied. The number of schools aided with result grants, which were paid at the maximum rates, rose from 154 with 5,179 pupils to 188 with 6,275 pupils. The total number of boys under instruction in the schools maintained and aided from local funds was 13·8 per cent. of the male population of school-going age against 12·3 per cent. in the previous year.

(3) *Medical Relief.*—The local boards continued to maintain six hospitals and ten dispensaries, but the number of patients treated showed a considerable decline, * which is ascribed by the District Medical Officer chiefly to the closure of many of the institutions for some days in the year, during the absence of the medical subordinates on other duty or on leave, and to the fact that malarial fevers were less prevalent. The eight midwives employed in the district attended 822 cases of labour against 826 in 1894–95, the average for each midwife continuing to be nine

* 1894–95	..	..	..	75,188
1895–96	..	..	..	67,448

cases per mensem. It would not seem desirable to adopt the suggestion made by the District Medical Officer that at least one midwifery pupil should be entertained for filling up temporary vacancies among the midwives, until all the medical institutions in the district have been provided with a midwife apiece. Notwithstanding the remarks of Government in paragraph 4 (3) of the review of the previous year's report, no steps were taken in furtherance of female medical education, but it is observed that provision has been made in the current year's budget for the training of a female pupil for the Apothecary grade.

(4) *Vaccination.*—The work of this department, which declined in 1894–95, showed a slight improvement, though the results obtained were not so good as in 1893–94, the number of successful operations per mille of the population, which fell from 34 to 21·5 in the previous year, having risen to 25·6 during the year under review. The percentage of successful cases to the total number vaccinated was 75·5, against 62·5 in 1894–95 and 90 in 1893–94, while the number of successful operations on children under one year was 2·1 per mille of the population against 0·9 per mille in the previous year and 2·8 per mille in 1893–94. Compared with the registered births of the year, no more than 7 per cent. of the children born during the year were protected by vaccination. There is thus very considerable scope for the extension of the board's operations in this direction, and the Government trusts that every endeavour will be made to show better results in the current year.

(5) *Sanitation.*—The expenditure under this head was Rs. 6,955, or 98 per cent. of the allotment, against Rs. 5,906, or 80 per cent., in the previous year. Eight new wells were sunk as in 1894–95, and twelve existing sources of water-supply were improved against eight in that year. The attention of the taluk boards will be again drawn to the suggestion made by the District Medical and Sanitary Officer that more public wells should be constructed on the roads frequented by travellers. Conservancy establishments continued to be maintained in 23 villages. In cases in which strict supervision over these establishments is not feasible, they might well be dispensed with, as the money expended on them is merely thrown away. No information has been given regarding the working of the private scavenging system, which was in force in a few villages in 1894–95. The report of the District Medical and Sanitary Officer might with advantage have been considerably reduced in bulk.

5. *General Remarks.*—The year closed with a balance of Rs. 96,854, of which Rs. 3,348 appertained to endowed institutions, leaving Rs. 93,506, or nearly 40 per cent. of the receipts, available for general purposes. It is not creditable to the local boards that in spite of the remarks of Government in the reviews of the reports for the preceding three years, such a large balance should have remained unspent. The greater portion of it is allotted for expenditure in the current year, and again Government trusts that it will actually be spent and not left to swell the closing balance as in the year under review. The administration of the local boards showed some improvement on that of the previous year, and was, on the whole, satisfactory.

2. Local Boards. The Local Boards met a sufficient number of times and the attendance of their members was fair, except in the case of the officials members on the District Board. The District Medical and Sanitary officer and the Sub Assistant Inspector of Schools, who were chiefly responsible for this bad result should be warned to be more regular in their attendance in future. The working of the Taluk Boards is reported to have been satisfactory. No Unions have yet been formed in this district.

3 Receipts. (1) The Collections under Land cess amounted to 98.2 per cent of the demand against 98.15 per cent in the previous year.

(2) There were 14 toll gates against 15 in the previous year, owing to keen competition at the sale of the farms, the demand under this head rose from Rs 47.015 to Rs 48.600 and the whole of it was realised within

the year.

(3) Fees were levied in 13 markets as in the previous year, but the receipts from this source fell from Rs 3711 to Rs 1630. The cause of this decline has not been explained, an omission which should now be supplied.

(4) The receipts from avenues again declined, being Rs 780 against Rs 1253 in 1894-95. The decrease is attributed to the sale of a smaller quantity of avenue clippings and to the failure of a contractor to pay the amount of rents due by him.

4. Expenditure (1) Public Works. The outlay under this head rose from Rs 97,993, or 62 per cent of the allotment, to Rs 130,756, or 70 per cent, and the expenditure on Communications exceeded by nearly 4 per cent. the minimum prescribed by Government in its order No 1686 L dated 14th September 1895. The decrease under the estimate is explained in para 28 of the President's report. The

expenditure on village roads was Rs 8830, or 11.6 per cent of the total outlay on roads, against Rs 6,889, or and 9.9 per cent, respectively, in the previous year. The condition of the roads is reported to have been good, except in a few cases. Owing to the increased expenditure on Public Works, the cost of the Local Fund Engineering establishment was only 17 per cent of the outlay on works against 24 per cent in 1894-95. The cost of tools and plant, however, slightly exceeded the limit maximum prescribed by Government, in consequence of the purchase of certain mathematical instruments urgently required by the Local Fund Engineer.

(2) Education. As in the previous year, there were seven inspecting school masters and their work is reported to have been fairly satisfactory. The again District Board maintained three Sessional schools as in 1894-95,

the number of students trained in them fell from 24 to 19. Of the latter, 18 appeared for the Primary examination and all of them were successful. The Taluk Boards continued to maintain an upper and four lower secondary schools and these were attended on the 31st March 1896, by 613 pupils against 641 on the corresponding day in the previous year. The Coondapoor High School sent up 14 candidates for the Matriculation Examination of whom six passed, against 12 and four, respectively, in 1894-95. In the Lower Secondary Examination, however, it fared badly, only eight students having passed out of the 21 that were sent up. The schools at Udipi and Karkal did particularly well in this examination, while the results produced by the Kasaragod School were fair. These institutions were worked at a net profit of Rs 415 to the Taluk Boards. There were 141 Board primary schools as in the previous year but their attendance rose from 4,902 pupils to 5,185 and they appear to have made fair progress, 79 per cent of the pupils examined having passed the standard examinations against 81 per cent. Of these schools, two were again maintained for the exclusive benefit of panchamas and 17 for Muhammadans. Of the former, the school at Jeppu continued to work well, while the other at Kasaragod was not successful and was transferred, at the close of the year, to Kudlu. In the report for 1894-95 it was stated that the question of opening special schools for Mappilas would be taken in hand in the next year, but no information on this subject has been given in the present report. The omission should be supplied. The number of schools aided with result grants, which

were paid at the maximum rates, rose from 154 with 5179 pupils to 188 with 6,275 pupils and the total number of boys under instruction in the Schools maintained and aided from local funds was 13.8 per cent of the male population of school going age against 12.3 per cent in the previous year.

(3) Medical Relief. The Local Boards continued to maintain six hospitals and ten dispensaries but the number of patients treated showed a considerable decline, which is ascribed by the District Medical officer chiefly to the closure of many of the institutions for some days in the year, during the absence of the Medical subordinates on other duty or on leave, and to the fact that malarial fevers were less prevalent. The eight midwives employed in the district attended 822 cases of labour against 826 in 1894-95 the average for each midwife continuing to be nine cases per

1894-95	75,188
1895-96	67,448

per mensem. The suggestion made by the District Medical officer that at least one midwifery pupil should be entertained for filling up temporary vacancies among the midwives cannot be adopted until all the medical institutions in the district have been provided with a midwife apiece. Notwithstanding the remarks of Government in para 4(3) of the review of the previous year's report, no steps were taken in furtherance of female medical education towards it is observed that but provision has been made in the Current year's budget for the training of a female pupil for the Apothecary grade.

(4) Vaccination. The work of this department, which declined in 1894-95 showed a slight improvement though the results obtained were not so good as in 1893-94 the number of successful operations per mille of the population, which fell from 34 to 21.5 in the previous year, having risen to 25.6 during the year under review. The percentage of successful cases to the total number

vaccinated was 75·5 against 62·5 in 1894-95 and 90 in 1893-94. while the number of successful operations on children under one year was 2·1 per mille of the population against 0·9 per mille in the previous year and 2·8 per mille in 1893-94. Compared with the registered births of the year, no more than Seven per Cent of the Children born during the years were protected by vaccination. There is thus very considerable scope for the extension of the Board's operations in this direction and the Government trusts that every endeavour will be made to show better results in the current year.

(5) Sanitation. The expenditure under this head was Rs 6,955, or 98 per Cent of the allotment against Rs 5906, or 80 per Cent, in the previous year. Eight new wells were sunk as in 1894-95, and 12 existing sources of water supply were improved against eight in that year. The attention of the

Taluk

Boards will be again drawn to the suggestion made by the District Medical and Sanitary officer that more public wells should be constructed on the roads frequented by travellers. Conservancy establishments continued to be maintained in 23 villages. In cases in which strict supervision cannot be enforced over these establishments is not feasible, they might well be as the money expended on them is much more than displeased with. No information has been given regarding the working of the private scavenging system, which was in force in a few villages in 1894-95. The report of the District Medical and Sanitary officer might with advantage have been ~~and in future years should be~~, considerably reduced in bulk.

5 General Remarks. The year closed with a balance of Rs 96,854, of which Rs 3,348 appertained to endowed institutions, leaving Rs 93,506 or nearly 40 per Cent of the receipts available for general purposes. This not Creditable to the Local Boards tha

In spite of the remarks of Government on the reviews of the reports for the preceding three years, such a large balance should have remained unspent. Every endeavour should be made in the current year to utilise the greater portion of this, on the improvement of the roads, which are in bad order and on other objects of public utility such as the sinking of public wells.

The administration of the Local Boards has shown some improvement on that of the previous year and was, on the whole, fairly satisfactory.

Print this report.

The greater portion of it is allotted for expenditure in the current year, and again Government trusts that it will actually be spent and not left to swell the closing balance as in the year under review.
