Sir,

With reference to remarks (2) contained

7. Read resolution No. 25 dated 19th August 96

in G.O. No 1112. m. mis dated 4th July 96 with
respect to the rate of Private Scavenging fees.

"Under the Circumstances stated in
Resolution No 25 dated 19th August 96, the
Government will be asked to reconsider
its order."

2. In this connection I beg respectfully
to state that the Service is voluntary and there
is no provision in the Municipal Law under
which private persons can be compelled to
use the Private Scavenging Agency the muni-
cipal Council provide. The houses into which
the System is already introduced lie far
apart from each other except in a very few
cases, there being, besides, the fact that there
are extensive areas of open fields to which
persons who cannot and are unwilling to
pay for the Services of municipal Scaveng-
ing establishment, resort. Another disad-
vantage is that the densely populated parts
of this town are almost Brahmin villages
where it is found impossible to extend the

System for want of a large number of Caste
Scavengers.

3. There is no doubt that the greater
the number of houses which are brought under
municipal management the lower will be the
proportionate cost on each house. Having this
fact in view, the Council resolved to reduce
the rate of fees during 92-93 from 4 annas to 2
annas per mensem which was raised to 3 annas
during 94-95. The number of houses has risen
from 457 on the 31st March 93 to 657 on this date.

4. The number of prosecutions under
Section 221 of the District Municipalities Act
also increased to 87 during 95-96 against 6
in 1893-94. Efforts are being made to extend the
System into about 110 houses in 3 Brahmin villages
where Cories are not allowed any access. Steps
are being taken to acquire sites for paths
wherever necessary. The orders of Government
contained in G.O. No 1632. m. dated 5th November 1894

are strictly adhered to by withdrawing the services of municipal scavengers from the houses of persons who fail to pay their fees in advance and directing the Sanitary Inspector to see whether the owners of such houses keep their compounds clean and to prosecute the defaulters.

5. All the above facts will show that every endeavour is being made to make the System effective, popular and remunerative, and that much improvement has been effected in this direction. It is also hoped that the System will be less expensive in the course of 3 or 4 years without the current rates being raised.

I have the honour to be,

Sir,

Your most obedient servant,

Chairman.
