GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From C. J. WEIR, Esq., President, District Board, Ganjám, to the Chief Secretary to Government, dated Chatrapur, 18th July 1896, No. 2092.

I have the honour to submit the following report on the administration of local funds in this district for the official year 1895–96 together with the prescribed statements as noted in the margin and the report of the District Medical and Sanitary Officer on the working of dispensaries, &c.

1 Book containing statements, I-A, I-B, II-B, IV-A, IV-B, V, VI, VI-A, VIII, IX, IX-A, X, XI, XII, XIII, XIV, XV, XVI, XVI-A, XVI-B, XVII, XVIII.
1 Statement III.
1 District Medical and Sanitary Officer's report.
5 Statements submitted by the Assistant Inspector of Schools.

8

I.—GENERAL.

2. *Administration.*—The affairs of the local fund department were administered during the year by a district board, four taluk boards and fifteen union panchayats. No alterations were made either in their territorial jurisdiction or constitution. A new union (Suradá) was constituted during the year—*vide* G.O., No. 2594 L., dated 14th December 1894.

The amalgamation of Chicacole and Parlákimedi Taluk Boards was sanctioned during the year, and came into effect on 1st April 1896.

3. *District Board.*—Statement No. XVI shows the constitution of the district and taluk boards at the close of the year and the average attendance of the members at the meetings held. The sanctioned strength of the district board is 32 and, under the election rules in force, half of this number should consist of nominated and ex-officio and the other half of members elected by the four taluk boards in the district —six by the Berhampur, four by the Chicacole and three each by the Goomsur and Parlákimedi Taluk Boards.

On the 31st March 1896 there were on the district board 28 members against the sanctioned strength of 32. Of these four were ex-officio members, twelve were nominated (four officials and eight non-officials) and twelve elected (two officials and ten non-officials). The deficiency among the elected members was due to the expiry of the term of office of three members of the Berhampur Taluk Board towards the close of the year and to the death of one member of the Chicacole Taluk Board on the 27th March 1896. The proportion of officials including nominated and ex-officio members to the total strength of the board was 28·6 per cent. against 24·1 in the previous year and that of the elected members 42·9 per cent. against 48·3. The number of Europeans and Eurasians occupying seats on the district board at the close of the year was three against four in the previous year.

Excluding one meeting adjourned for want of a quorum, the district board met altogether twelve times during the year against eleven in the previous year. The average attendance at each meeting was 13·25 (4·25 officials and 9 non-officials) against 11·4 (4·1 officials and 7·3 non-officials) in the previous year and the percentage to actual strength was 47·3 against 39·3 in 1894–95. The attendance of non-official

members has considerably improved on account of the opening of the railway. Those members who were irregular in attendance were called on for explanation and all of them gave reasonable excuses. M.R.Ry. M. L. Narasingarow Pantulu Garu, a member of the district board, exhibited his interest in local fund work by visiting unions, dispensaries and schools in the district. I hope that this laudable example will be followed by other members.

4. *Taluk Boards.*—The four taluk boards in the district had on the 31st March last 53 members (16 officials and 37 non-officials) against a sanctioned strength of 54. All the taluk boards except Chicacole had the full complement of members sanctioned. The vacancy in the Chicacole Taluk Board occurred just at the close of the year by the death of a member, and it has since been filled up. All the taluk board members are appointed by Government. As in last year there were three Europeans and Eurasians occupying seats on the taluk boards on the 31st March 1896. The number of meetings held by the taluk boards was 54 but business was transacted at only 52 meetings, 2 meetings called for by Berhampur and Chicacole Taluk Boards having been postponed for want of a quorum. All the taluk boards met not less than twelve times during the year as required by the Act. The largest number of meetings (14) was held by the Taluk Board, Goomsur. The average attendance of official members of the Chicacole Taluk Board increased from 1·4 to 2·0, while their attendance at the meetings of the other boards declined. There was a slight improvement in the attendance of non-official members of all the taluk boards except Goomsur. The working of the taluk boards was, on the whole, satisfactory. The four taluk boards were represented on the district board by twelve members against sixteen the sanctioned number. Of the twelve members, each board was represented by three members. The number of elections held during the year under report was eight against six in the previous year.

5. *Union Panchayats.*—There were fifteen union panchayats working against fourteen in the previous year, Suradá having been added to the list. Statement XVI-A shows their constitution and the number of meetings held by them. There were on the 31st March last, 99 panchayatdars against the sanctioned strength of 101. Of these 30 were officials including ex-officio headmen of villages and 69 non-officials against 89 (26 officials and 63 non-officials) on the corresponding date of the previous year. Owing to the occurrence of vacancies towards the close of the year, the number of members on the panchayats of Ichchhápuram and Battili was less than the sanctioned strength. The union panchayats held altogether 173 meetings against 158 in the previous year; in addition to these there were 21 meetings which had to be postponed for want of a quorum by the unions noted in the margin. The failure of the Suradá and Varanasi Union Panchayats to meet at least once a month as required by section 129 of the Act was due to the postponement of one and three meetings, respectively, for want of a quorum, while that of Ganjám and Russellkonda was due to want of business to be transacted at meetings. As usual, the working of the panchayats consisted chiefly in the supervision of the conservancy establishments and the carrying out of local sanitary arrangements in the villages under their control. Their work was, on the whole, fairly satisfactory. The President, Taluk Board, Goomsur, reports that the working of the three unions in his division was, on the whole, more satisfactory than the in previous year.

			—

The ward system of supervision was in force only in the Russellkonda Union. It was reported to have worked fairly satisfactorily during the year under report. A few members, though not all, exerted themselves to keep their respective wards in a good sanitary condition. The President, Taluk Board, Berhampur, reports that the ward system has not been introduced into any of the unions in his division as the capacity of the individual panchayatdars to look after the affairs of a ward is much doubted. This is generally true of the unions in the district. I think, however, the system might be extended to Chatrapur and this will be suggested to the taluk board

The private scavenging system continued to be in force in the Russellkonda Union. It is self-supporting. The number of latrines under the management of the union on the 31st March last was 131 against 82 in the previous year. The fees collected during the year under report were Rs. 230–8–0 against Rs. 32–10–0 in the previous year. The President, Taluk Board, Goomsur, reports that arrangements could not be made for employing itinerating gangs of scavengers and for lighting the towns and villages for want of funds.

6. *District, Taluk and Union Funds.*—The following abstract compares the general results of the year under report with those of the previous year:—

	1894–95.				1895–96.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.

Allotments from taluk to district funds	..	..	..	..	+ 30,913	— 30,913	..	..
Allotments from taluk to union funds	..	— 1,991	+ 1,991	..	..	— 2,856	+ 2,856	..
Allotments from union to taluk funds	..	..	..	..	..	+ 4,360	— 4,360	..
Total ..	1,47,456	1,58,974	16,490	3,22,920	1,62,781	1,52,659	14,224	3,29,664
Expenditure ..	1,54,828	1,37,806	12,518	3,05,152	1,34,023	1,48,778	13,922	2,96,723
Balance ..	— 7,372	21,168	3,972	17,768	28,758	3,881	302	32,941

Excluding debt heads (Rs. 14,936) and contributions from one local board to another (Rs. 64,149), the actual receipts amounted to Rs. 2,96,960 against Rupees 3,11,229 in the previous year, and the charges, also excluding debt heads (Rs. 8,909), to Rs. 2,87,814 against Rs. 2,94,928.

The year closed with a balance of Rs. 32,941 or 11·09 per cent. of actual receipts. If Rs 1,197 appertaining to endowed institutions and Rs. 302 to union funds be left out, the balance at the close of the year was Rs. 31,442. The subjoined statement shows the incidence of local fund taxation per head of the population in the district according to the census of 1891:—

Area in square miles.	Population according to census of 1891.	Income from taxation.				Total local fund receipts.	Incidence of taxation excluding tolls.		Incidence of taxation including tolls.		Incidence of total local fund receipts.	
		Land-cess.	Tolls.	House-tax.	Total.		1894–95.	1895–96.	1894–95.	1895–96.	1894–95.	1895–96.

II.—RECEIPTS.

7. The year opened with a credit balance of Rs. 17,768 in place of the expected credit balance of Rs. 6,250. The reasons of this difference were explained in the remarks accompanying the revised estimate for 1895–96.

8. The total current receipts amounted to Rs. 2,96,960 against Rs. 3,11,229 in the previous year. In that year the receipts were raised by the large amount of contribution of Rs. 32,000 from Provincial funds for the Berhampur-Govindapur road, whereas the contribution for the same during the year under report was only Rs. 10,000. The following abstract compares the realizations under the several heads of revenue with those of 1894–95:—

Particulars.	Receipts in		Percentages of total receipts in	
	1894–95.	1895–96.	1894–95.	1895–96.
	RS.	RS.		
Rates and taxes	2,52,514	2,55,843	81·13	86·15
Education	3,467	2,983	1·11	1·01
Medical	980	1,025	·32	·35
Interest	1,044	2,026	·34	·68
Miscellaneous	18,817	20,727	6·05	6·98
Public Works	94	1,782	·03	·60
Contributions from Provincial funds	34,300	12,569	11·02	4·23
Do. from Special funds	13	5	..	..
Total ..	3,11,229	2,96,960	..	..

9. *Land-cess.*—This cess continued to be levied at the rate of one anna per rupee of the annual rent value ; and the collections during the year amounted to Rs. 2,16,843 or 75·56 per cent. of all the receipts put together excluding debt head receipts (Rupees 14,936) and Provincial contributions for public works (Rs. 10,000) against Rupees 2,06,241 or 73·86 per cent. in 1894–95.

Of the total demand, 77·4 was collected, which is 115·34 per cent. of the estimate. The increase was chiefly due to the revision of land-cess in some of the zemindaries in this district.

10. *Tolls.*—The number of toll-gates was twelve as in the previous year. All of them were leased out, the rent being Rs. 27,872 as against Rs. 35,116 in the previous year.

The decrease is due to the opening of the East Coast railway.

Of this sum Rs. 27,837 were collected during the year, leaving a balance of Rs. 35 which has since been collected. On account of interest on overdue instalments Rs. 10 were collected and credited to "Tolls." Of the arrear balance of Rs. 2,594 remaining at the end of the previous year, Rs. 1,062 were collected and steps are being taken for the recovery of the arrear balance under decrees already obtained. The net income from tolls covered 30·46 per cent. of the outlay on repairs of roads during the year.

The Chicacole Municipality contributed towards local fund tolls one-fourth of its net toll revenue instead of one-half under the orders conveyed in G.O., Mis. No. 1497 M., dated 14th September 1895.

The Parlákimedi Municipality contributed one-sixth of its net toll revenue.

Seven toll-sheds were repaired at a cost of Rs. 54–3–0.

11. *House-tax.*—This tax was levied for the full year in the fifteen unions in the district at half schedule rates in Varanasi and at full schedule rates in all the other unions. In the fifteen unions Rs. 8,149 were collected against a demand of Rs. 8,616. The percentage of collections to demand is 94·5 (34·5 of arrears and 96·8 of current). Collections were very good in nearly all the unions except Battili. In Ganjám, Sómpéta, Baruva, Aska and Calingapatam the whole demand was collected. With regard to Battili Union, the balance, viz., Rs. 128–12–0 refers to both arrear and current. In spite of repeated orders from the Taluk Board President, the Chairman could not collect the whole amount within the year. Strict orders have been issued from this office for speedy realization of the balance. The total number of houses in all the unions according to the census of 1891 was 14,848 and the number assessed was 18,054. The demand on houses was Rs. 8,310 and the average incidence per house was As. 7–4. Coercive processes were issued by eleven unions in 368 cases, but property was sold in only eight cases. The largest number of processes (118) was issued by the Ichchhápuram Union.

12. *Educational.*—The receipts under the head amounted to Rs. 2,983 against Rs. 3,467 in the previous year, the decrease occurring chiefly under "School-fees."

13. *Medical.*—The realizations under this head amounted to Rs. 1,025 against Rs. 980 in the previous year.

14. *Interest.*—Rs. 387 were drawn on account of interest on the endowment in favour of Haddanuru Srinivasa Rao's chattram at Kanchili and Rs. 1,609 on account of interest on the endowment of M.R.Ry. T. Sivaramayya Pantulu Garu for the maintenance of the chattram at Chatrapur, for the support of the Kallikóta College at Berhampur, and for the scholarships founded in the name of Mr. J. G. Horsfall, C.I.E., for the year 1895–96.

15. *Miscellaneous.*—The receipts connected with "Bungalows," "Ferry Rents," "Fishery Rents," "Avenues," &c., aggregated Rs. 20,727 against Rs. 18,817 in the previous year. The principal variations under the important heads are noticed below :—

(*a*) *Market Rents.*—There were no regular markets built or acquired by the local boards and consequently no rents were realized on market buildings. Only temporary sheds were constructed in some places.

(*b*) *Fees and Fines.*—Fees for the erection of pandals in public streets and for the use of cart-stands, fees levied on articles brought for sale to daily bazaars and weekly fairs and fines levied for nuisances under the Police Act are credited to this head. Rs. 3,741 were realized under this head against Rs. 3,295 in last year. In the unions of Ganjám, Sómpéta, Calingapatam and Varanasi, no fees were levied in daily bazaars and weekly fairs. These fees were levied outside the unions at Betlugunta and Patapatnam.

(*c*) *Bungalow Fees.*—Rs. 586 were realized under this head against Rs. 845 in the previous year. The decrease was due to the opening of the railway. The number of bungalows was twelve as in last year. The bungalow at Chatrapur was repaired during the year. The condition of the other bungalows except in the sub-division was in general good. All were furnished and supplied with crockery and glassware. As the opening of the railway has much altered the conditions of travelling in the littoral portion of the district, it is under contemplation to close some of the bungalows along the trunk road.

(*d*) *Ferry Rents.*—Rs. 2,822 were collected against Rs. 3,073 in last year.

(*e*) *Fishery Rents.*—The receipts under the head amounted to Rs. 12,417 against Rs. 11,013 in the previous year.

(*f*) *Avenues.*—Out of 734 miles of road in charge of the local boards, 636½ miles were provided with avenues. There were at the beginning of the year 43,377 trees on the road sides ; 5,011 new trees were planted in the course of the year and 2,435 perished and the number remaining at the close of the year was 45,953. There were, besides, 8,685 plants in the nurseries. Rs. 297 were realized on account of sale-proceeds of avenue clippings and rent of fruit trees against Rs. 180 in the previous year. The increase is small and I would refer Government to my remarks on this subject in last year's report. The condition of the avenues was generally good. The casuarina plantation at Madapam is reported to be in a thriving condition.

16. *Contribution from Provincial Funds.*—The receipts under this head are compared below :—

Particulars.	1894–95.	1895–96.
	RS.	RS.
(1) Education	2,300	2,569
(2) Public works	32,000	10,000
Total ..	34,300	12,569

III.—EXPENDITURE.

17. *Grant* 1. *Public Works.*—Details of the expenditure on public works excluding the cost of the engineering establishment, contingencies and tools and plant are given in statement III. The expenditure incurred on public works during the year under report amounted to Rs. 1,57,915 against an estimate of Rs. 1,67,530 and Rs. 1,63,966, the actuals of the previous year. The decrease under the estimate was due partly to the savings effected and partly to the non-utilization of allotments, while

that under the actuals was due to the smaller expenditure incurred on the Berhampur-Govindapur road. This amount was 53·2 per cent. of the receipts (excluding debt heads) and 54·8 per cent. of the total charges and it was spent by the several agencies as shown below :—

	Rs.
By the Local Fund Engineering establishment	1,52,630
„ other agency	4,491
„ the Public Works Department	794
Total ..	1,57,915

18. *New Works—Communications.*—The total outlay on new works amounted to Rs. 23,486 against an estimate of Rs. 25,878 and Rs. 26,549, the actuals of the previous year. The decrease under the estimate was mainly due to the fact that the works were not completed until just before the end of the year and could not be completely paid for out of the year's allotment. The following feeder roads which were under construction during 1894–95 were completed during the year under report :—

(1) Road from Palakonda road to the railway station at Amudalavalsa.
(2) Road from Alikam road to the railway station at Amudalavalsa.
(3) Road from Parlakimedi-Calingapatam road to the railway station at Tilaru.

19. *Civil Buildings.*—Rs. 1,443 were expended under this head against an estimate of Rs. 2,286 and Rs. 400, the actuals of the previous year. The decrease under the estimate was mainly due to the following works not having been undertaken during the year :—

	Amount of allotment. Rs.
(1) Construction of school buildings	450
(2) Construction of quarters for the hospital assistant at Suradá ..	200
(3) Reconstruction of an out-house attached to the travellers' bungalow at Narasannapéta	50
Total ..	700

The construction of the hospital assistant's quarters at Suradá could not be undertaken as the amount provided, viz., Rs. 200, is not sufficient to meet the charge according to the standard plan and the taluk board have no funds to meet the estimated expenditure, viz., Rs. 2,000, of a standard building. No explanation has been offered by the taluk boards for not undertaking the works Nos. 1 and 3.

Of the total expenditure, Rs. 158 were spent by other agency and Rs. 1,285 by the Local Fund Engineering establishment.

20. *Miscellaneous Public Improvements.*—The expenditure under this head was Rs. 503 against an estimate of Rs. 636 and Rs. 342, the actuals of the previous year. Of the total expenditure, Rs. 332 were spent by miscellaneous agency and Rs. 171 by the Local Fund Engineering establishment as detailed below :—

	Rs.
For the upkeep of the casuarina plantation over the Madapam sand hills	171
For constructing market sheds	332
Total ..	503

21. *Repairs—Communications.*—Rs. 1,01,447 were expended under this head against Rs. 1,06,520 allotted during the year—Rs. 773 by Public Works Department, Rs. 1,197 through miscellaneous agency ; and the remainder, viz., Rs. 99,477, by the Local Fund Engineering establishment. The short expenditure as compared with the allotment was chiefly due to non-utilization of allotments on certain works. This is unsatisfactory and the late Local Fund engineer has left no explanation of his failure to utilize the grants.

Rs. 54 expended for repairs to toll-sheds were included in this item.

22. *Civil Buildings.*—Rs. 3,616 were spent under this head during the year against an estimate of Rs. 4,198 and Rs. 1,673, the actuals of the previous year. Of the total outlay, Rs. 992 were spent by miscellaneous agency and Rs. 2,624 by the Local Fund Engineering establishment. With reference to paragraph 4 (1) of G.O., No. 2037 L., dated 24th October 1895, I have the honour to state that repairs to the travellers' bungalow at Chatrapur have been executed during the year under report.

23. *Miscellaneous Public Improvements.*—Rs. 2,255 were expended under this head against Rs. 2,699 allotted ; of the total outlay, Rs. 31 were spent by miscellaneous agency and the remainder by the Local Fund Engineering establishment mainly on the maintenance of avenues.

24. *Roads.*—The mileage and cost of construction and repair of roads are given in statement IV-A. During the year under report 734¼ miles of road including 24½ miles of village road were maintained against 732 in the previous year. The district board maintained 225⅝ miles of road at a cost of Rs. 46,351 and taluk boards 484⅛ miles of taluk and 24½ miles of village road at a cost of Rs. 53,405 and Rs. 1,342, respectively. The average cost of maintaining each mile of district, taluk and village road was Rs. 205, Rs. 110 and Rs. 55, respectively, against Rs. 258, Rs. 99 and Rs. 55 in the previous year. The decrease under district board roads was due to less expenditure under special repairs than last year. The expenditure on village roads was 1·1 of the total outlay on roads. The financial condition of the local boards prevented further expenditure being undertaken for the extension of village roads.

The President, Taluk Board, Berhampur, says that the taluk board roads in his division were with one or two exceptions nothing short of atrocious. The Goomsur Taluk Board President reports that he cannot endorse the Engineer's opinion that most of the roads in his division were in good or fair order. It is true that nearly all the smaller roads in the Chatrapur division are in very bad order. The late Local Fund engineer, Mr. Parker, was apparently zealous in trying to improve the roads and effected improvements on some of the main communications, but not to such an extent as I could have wished. The season was moreover a trying one on roads, as we had very heavy downpours of rain in June and again in October which caused floods to wash the roads in many places. Further the heavy traffic in sâl sleepers from Russelkonda to Berhampur cut up this important road a great deal. The condition of most of the roads in the sub-division was fairly satisfactory.

25. *Important project*—(1) *Construction of Road from Berhampur to Govindapur.*—During the year under report Rs. 9,998 were spent on this road against an allotment of Rs. 10,000. Two big bridges were finally completed and foundations of all other bridges finished.

(2) *Special repairs to Aska-Russelkonda Road.*—Rs. 2,797 were expended during the year against an allotment of Rs. 3,000 for reformation of the road from Kontiapalli to Russelkonda.

(3) *Special repairs to miles* 1 *to* 3 *of the Purushottapur-Jagannadhapur Road.*—The estimate for this work amounting to Rs. 5,026 was sanctioned in 1893. Rs. 387 were expended in previous years and Rs. 493 during the year under report against an allotment of Rs. 500.

26. *Establishment.*—As in the previous year the district board maintained its own Engineering establishment for the execution of public works, the cost being met in proportion to the outlay incurred from the district and taluk funds, respectively. An Engineer assisted by five overseers was in charge of the roads in the northern portion of the district called the Chatrapur division, and a Supervisor assisted by four overseers was in charge of the roads in the southern portion known as the Chicacole division. Both establishments worked independently of each other, but directly under the control of the President, District Board, and their cost including contingencies amounted to Rs. 24,516 or 19·2 per cent. of the total outlay on works executed by that agency against 15·2 in the previous year.

The increased percentage is due both to increase in cost of establishment and decrease in outlay in work. The latter has been explained above ; the former is mainly due to the fact that Mr. R. W. M. Macmillan had kept back travelling allowance

bills of overseers for nearly a year before he handed over charge and these had to be paid out of the year's allotment. There was no real increase in establishment.

27. *Tools and Plant.*—The outlay on tools and plant was Rs. 627 or ·5 per cent. of the total expenditure on works executed by the Local Fund Engineering establishment against Rs. 620 or ·4 per cent. in the previous year.

28. *Grant* 2. *Education.*—The educational operations of the local boards in the district were chiefly confined to the supervision, maintenance and aid of elementary boys' schools. There were 128 Local Fund schools at the close of the year under report against 125 in the previous year; of these, three were Anglo-Vernacular Secondary schools. During the year under report 5 schools were opened and 2 were closed. There were no schools separately maintained for girls; but girls were admitted to all boys' schools. On the 31st March last there were 3,934 boys and 358 girls in all these schools against 3,589 boys and 263 girls on the corresponding date in the previous year. The receipts, charges and other particulars connected with the board and aided schools are shown in statements IX and X; but they do not include receipts from the sale-proceeds of books or charges connected with the purchase of books and other miscellaneous items. The total expenditure under the head of "Education" excluding that on school buildings (Rs. 1,431) debited to Grant 1 amounted to Rs. 47,193 against Rs. 45,585, the estimate and Rs. 44,246, the actuals of the previous year. The increase occurred chiefly under "Inspection" and "Results Grants" and will be explained later on.

29. *Inspection.*—There were no changes in the agency by which the educational operations of the local boards were supervised. As in last year there were ten Inspecting schoolmasters in the employ of the district board. On account of pay, travelling allowance, &c., Rs. 4,564 were expended against Rs. 3,709 in the previous year and Rs. 4,430, the estimate. The increase was due to the arrears of pay and travelling allowance having been paid during the year. The Inspecting schoolmasters visited 1,368 villages and prepared 1,304 schools for examination, the corresponding figures for the previous year being 1,338 villages and 1,476 schools. The Assistant Inspector reports that the work of all these officers was more or less satisfactory and it was an improvement over the previous year.

30. *Training of Teachers.*—Rs. 58 were expended on account of the scholarship of an Inspecting schoolmaster who was undergoing training. In February last another Inspecting schoolmaster was sent for training.

There were no technical schools in the district.

31. *Sessional Schools.*—Two schools of this class—one at Tekkáli and the other at Digupudi—were opened during the year under report for training primary school teachers. Their cost amounted to Rs. 728 against Rs. 501 in the previous year. The increase was due to the schools having been kept up for a larger period than last year to enable the students to appear for the examination. It was with great difficulty that 22 students were secured for the two schools against 40 sanctioned. Of these, 20 were sent up for the Primary examination and 15 passed (8 from Tekkáli and 7 from Digupudi). The results of the Digupudi school are very satisfactory, as all that appeared for the examination passed.

32. *Secondary Schools.*—There were only 3 lower secondary schools, viz., Russellkonda, Aska and Tekkáli with 125 pupils at the end of the year, as against the same number of schools with 141 in the previous year. Their progress is briefly described below.

The expenditure on these schools was Rs. 3,701 against Rs. 3,952, the estimate. The decrease was due to the savings under contingencies—

(1) *Lower Secondary school at Russellkonda.*—On the 31st March last the number of pupils on the rolls was 54 against 63 on the corresponding date in the previous year. Ten pupils appeared for the Lower Secondary examination, of whom 5 passed in compulsory portion with an optional subject against 6 out of 17 in the previous year. The school was worked on salary system. The receipts on account of school-fees, &c., were Rs. 951 against Rs. 735 in the previous year, and the net cost to

Local funds on account of the school was Rs. 628 against Rs. 1,008 in 1894–95. This is due to Rs. 471 having been drawn as salary grant during the year against none in the previous year.

(2) *Lower Secondary school at Aska.*—This school, which was worked on the salary-result system, had on its rolls on the 31st March last 44 pupils against 43 on the corresponding date in the previous year. The school was recognised by the Educational department during the year under report and cost the board Rs. 1,227 against Rs. 1,384 in the previous year. The decrease was due to the abolition of the third standard in the school. Five pupils appeared for the Lower Secondary examination, of whom three passed, one completely and the other two only in the compulsory subjects. A sum of Rs. 600 was collected from school fees and provincial grant against Rs. 538 in the previous year. The net cost of the school to the board was Rs. 627 against Rs. 846 in the previous year. The average net cost per pupil was about Rs. 24. Steps will be taken to reduce this heavy cost.

(3) *Lower Secondary school at Tekkáli.*—This school which was worked on salary-result system had on its rolls on the 31st March last 27 pupils against 35 on the corresponding date in the previous year. The decrease was due to the contemplated abolition of the school. Eight pupils were presented for the Lower Secondary examination, of whom five passed. The school has no primary departments. It cost the board Rs. 896, of which Rs. 570 were recovered by school fees and provincial grant. The net cost for each pupil was about Rs. 11 against Rs. 12 in the previous year.

33. *Primary schools.*—The board primary schools in the district were all worked on the salary-result system. There were 125 schools against 122 in the previous year. The number of pupils reading in these schools was 4,167 including 358 girls against 3,711 including 263 girls in the preceding year. The cost of maintaining these schools was Rs. 20,380 against Rs. 20,043 in last year. Rs. 3,305 were realized by school fees and provincial grants. The average cost per pupil in these schools was Rs. 5–1–8 against Rs. 4–12–3. The total number of pupils that appeared for the infant and the first three standard examinations was 2,443, of whom 1,647 or 67·4 per cent. passed. The average net cost per pupil in the upper primary department of Lower Secondary school, Russellkonda, was Rs. 18–6–3 and in the Upper and Lower Primary departments of the salary-result system, secondary and primary schools was Rs. 7–7–10 and Rs. 4–13–5, respectively. The salary-results system is not well adapted to the rural primary schools of this district. The managers and teachers have little ambition and are content with the barest subsistence allowance in the form of fixed salary. When they receive in the form of fixed salary just enough to live upon, they rarely care to trouble themselves to work zealously and efficiently with a view to secure the percentage of the results grant. The results system is better suited to people having so little ambition. Under these circumstances 40 Local Fund primary schools were abolished from 1st April 1896 and increased provision was made for result grants in the current year's budget.

34. *Muhammadan Education, &c.*—As in last year there were five special schools for Muhammadans at Russellkonda, Aska, Suradá, Ichchhápuram and Chatrapur. The Assistant Inspector reports as follows on the working of these schools :—

> "All these schools have been more or less struggling for their existence since their establishment and I am afraid they are not likely to improve much. The school at Ichchhápuram is nominally of the upper primary grade. The Muhammadan population in this district is very small and they have no desire for education."

There were six schools for Pariahs and fishermen against three in the previous year. The number of pupils on the rolls on the 31st March last was 162 against 54 on the corresponding date in the previous year.

Two schools—one for Khonds and the other for Savaras—have been opened during the year. The number of pupils in the two schools on the 31st March last was 41. No information has been furnished by the Educational officers regarding the working of these schools.

35. *Grants-in-aid.*—Statement X furnishes the statistics of primary schools aided from local funds during the year under report. Grants to private schools from Local funds were confined to primary schools and to the primary departments of secondary schools. Rs. 29 were paid by the Berhampur Taluk Board as salary grant to a teacher in charge of the primary department in the Onslow institution at Chatrapur. Results grants to the extent of Rs. 16,528, against an estimate of Rs. 14,410 and Rs. 15,252, the actuals of the previous year, were paid to 737 schools attended by 17,024 pupils against 615 schools attended by 16,800 pupils. The increase was due partly to excess grants of the year and partly to grants earned in the previous year having been paid during the year under report. The number of pupils actually presented for the examination was 11,043, of whom 6,805 were found qualified for grant against 11,629 and 7,111, respectively, in the previous year. The average grant per pupil found qualified amounts to Rs. 2-6-10. Results grants were paid at maximum rates by all the taluk boards.

36. *Building Grants, &c.* — The Goomsur Taluk Board spent on account of building and furniture grants, Rs. 150 and Rs. 90, respectively, during the year under report.

37. *Contributions to Private Individuals.*— Rs. 400 were paid to the Kallikóta College in terms of M.R.Ry. T. Sivaramayya Pantulu Garu's trust and Rs. 132 on account of Mr. Horsfall's scholarships.

38. *Grant* 3. *Medical Services, Vaccination and Sanitation.*—Statement XII shows the working of these institutions. As in last year there were at the close of the year one hospital and eleven dispensaries under the charge of the local boards. All these institutions, with the exception of those at Gorabanda, Ichchhápuram, Purushottapur, Ganjám and Russellkonda, are provided with buildings erected for the purpose. The dispensary at Ganjám was located in the old Deputy Tahsildar's office building which was recently transferred to local funds under G.O., Mis. No. 1625 L., dated 6th September 1895. The dispensary at Russellkonda is located in a room of the police hospital and the rest in rented buildings. The hospital assistants in charge of these institutions, except Russellkonda, are paid seven-eighths of their salaries and charge allowance from Local funds and the balance from Provincial funds. Compensation in lieu of quarters was granted to the hospital assistants at Ichchhápuram, Ganjám, Sómpéta and Varanasi; the others, viz., Purushottapur, Suradá and Garabanda hospital assistants are occupying portions of the dispensary buildings, as no quarters are available within the prescribed distance from the dispensary. The medical officer in charge of the police hospital at Russellkonda is also in charge of the local fund institution. In all these institutions 133 in-patients and 92,664 out-patients were treated at an average cost of Rs. 2-14-8 per head for in-patients and As. 3-3 for out-patients. In the previous year 110 in-patients and 93,715 out-patients were treated at an average cost of Rs. 3-6-8 and As. 3-3 per head respectively. Besides these, 6,488 out-patients against 4,513 in the previous year were treated at the police hospital, Chatrapur, for which a grant of Rs. 150 for medicines has been sanctioned by the district board. In the hospital at Tekkali accommodation was provided for eight in-patients as in the previous year. In most of the dispensaries provision has been made for the admission of in-patients in emergent cases. The average number of patients treated at each dispensary during the year under report was 7,733 against 7,819 in the previous year and 6,692 in 1893-94.

Separate accommodation for civil patients is much needed both at Russellkonda and Chatrapur.

The Surgeon-General with Government of Madras urged at his inspection on 6th January 1896 that a hospital on standard plan should be erected at the latter place. As the financial position of the district board has recently improved considerably owing to the revision of land assessment in zemindaries, I hope to be able to provide for the erection of at least one of the new buildings needed next year.

39. *Female Medical Aid.*—There were two female apothecaries working in the district during the year under report against one in the previous year. Miss D'Silva, the female apothecary at the Jubilee hospital, Berhampur, was transferred to Chicacole

(where there was no female apothecary last year) in August 1895, and her place was filled up by the female apothecary Miss Lena Ottmann who arrived in August last after having passed her final examination with much credit. It is reported that both of them are doing good work and their services are appreciated by the public. It has not yet been found possible to provide separate buildings for the female apothecaries to work in.

The total charges under hospitals and dispensaries amounted to Rs. 19,309 against Rs. 19,422 in the previous year.

40. *Medical Pupils.*—There are four pupils of this class engaged by the district board prosecuting their studies in the Madras Medical College. Of the four, two were sent up in October last. Rs. 553 were expended on account of the scholarships of these pupils.

41. *Midwives.*—As in the previous year there were two midwives—one at Parlákimedi and the other at Tekkali. They were attached to the hospitals at those places and worked under the supervision of the medical officers. None were newly entertained during the year. The President, Taluk Board, Berhampur, reports that the provision of Rs. 140 for a midwife at Chatrapur was not utilized as no midwives were available though requisition was made to the Surgeon-General. He proposes another at Sómpéta, and that the Surgeon-General be requested to send down one or two women offering higher pay than that proposed last year. It is very difficult to get any one in this district for such appointments even if funds are available. The number of cases attended by the two midwives was 173 against 185 in the previous year. The midwife at Parlákimedi conducted 99 cases. There was a fall in the number of cases attended by both the midwives and their work was reported to be not satisfactory. The President, Taluk Board, Chicacole, reports that steps are being taken to effect an improvement. On account of pay and house-rent of the two midwives, Rs. 414 were expended against Rs. 378 in the previous year. The increase was due to arrears of pay and house-rent having been paid during the year under report.

42. *Vaccination.*—Statement No. XIII shows the strength, cost, &c., of the vaccination establishment employed during the year. The vaccine establishment in the district consists of 2 deputy inspectors and 28 vaccinators (9 first class and 19 second class) and 3 probationers. In addition to these, there was a first-class vaccinator in charge of the calf vaccine depôt at Chicacole and a second-class man sanctioned to the depôt at Berhampur. To secure better work a first-class man from the taluk was transferred to the depôt at Berhampur. The number of cases vaccinated during the year was 30,039, of which 29,177, or 97·13 per cent., were successful against 23,134 vaccinated and 17,854, or 77·17 per cent. successful in the previous year. This shows an increase of 6,905 cases compared with last year's work. The District Medical and Sanitary Officer reports that the work turned out by the vaccinators during the year has been very satisfactory. The figures certainly show a considerable improvement on those of the previous years. The number of births registered during the year was 30,777 and the percentage of successful cases thereto is 94·8. One thousand and seventy-two cases were operated on by the medical subordinates in charge of dispensaries, of which 911, or 84·98 per cent., were successful against 1,205 operated on and 974 successful cases. Vaccination was entirely carried on by animal lymph.

43. *Infantile Vaccination.*—The number of children under one year vaccinated by medical subordinates was 159, of which 146 were successful against 156 vaccinated and 135 successful. The number of infants under one year successfully vaccinated during the year by the vaccinators was 2,460 against 1,781 in the previous year.

44. *Animal Vaccination.*—As in last year there were two calf vaccine depôts working during the year—one at Berhampur under the immediate supervision of the District Medical and Sanitary Officer and the other at Chicacole under the Medical Officer of that station. Information regarding the working of these two depôts is given in the report of the District Medical and Sanitary Officer. The difficulty reported last year in obtaining calves has been more or less overcome. The charges on account of the cost of purchasing calves and the total cost of the two vaccine depôts shown in the District Surgeon's report represent the gross expenditure,

whereas in statement XIII only the net charges were shown. The total outlay on vaccination during the year was Rs. 8,098 including that expended on animal vaccination against Rs. 7,200 in the previous year. The cost of each successful case vaccinated was As. 4–5 against As. 6–5 in the previous year which is gratifying.

45. *Sanitation.*—The details of expenditure under the head are shown in statement No. XIV. The outlay under this head amounted to Rs. 13,355, against Rs. 13,238 in the previous year and Rs. 13,795, the estimate. The following are the details :—

	1894–95.	1895–96.
	Rs.	Rs.
Improvement of water-supply	1,246	2,145
,, of village-site	1,691	217
Scavengering establishment	9,624	10,341
Arrangements at fairs and festivals	219	186
Other sanitary outlay	458	466
Total ..	13,238	13,355

The number of villages visited by the District Medical and Sanitary Officer during the year was 22.

(*a*) *Improvement of Water-supply.*—At a cost of Rs. 140 two new wells were sunk. No new tanks were dug during the year. Rs. 1,669 were spent for repairing fourteen tanks and six wells and for the repairs of steps to the Loharakhandi river in Russellkonda. Eleven watchers were employed (two by Berhampur, two by Goomsur, six by Chicacole and one by Parlákimedi Taluk Boards) to watch drinking-water sources at a cost of Rs. 336. No expenditure on sanitary works was debited to Grant 1.

(*b*) *Improvement of Village-site.*—Rs. 217 were spent in clearing of prickly-pear and other obnoxious vegetation in 23 villages. As remarked by Government, the cost of laying out and repairing roads in towns and villages was debited to Grant 1 and not to Grant 3 (*c*) Sanitation, as it was done in last year.

(*c*) *Scavenging Establishment.*—The number of villages conserved was 35 as in last year and the cost incurred was Rs. 10,341 against Rs. 9,624 in the previous year. Of the 35 conserved villages, 15 only were unions. The establishments at these places were under the direct control of the union panchayats. In other villages the work of scavengers was supervised by Government officials, except at Chikati, Mandasá, Kallikóta and Pattupur where the zemindar's officials undertook the necessary supervision. The total number of scavengers employed was 264 and the number of carts used by them was 14 against 260 and 13, respectively, in the previous year.

The scavenging establishments in the following non-union villages have been abolished from 1st April 1896 as there was no proper agency to supervise their working :—

(1) Surlá.
(2) Pattupur.
(3) Bodogodo.
(4) Jalmur.
(5) Devadi.
(6) Naupada.
(7) Púndi.
(8) Kasibugga.
(9) Kota-Bommali.
(10) Hiramandalam.
(11) Patapatnam.
(12) Gurandi.
(13) Nagarikatakam and Mokhalingam.

(*d*) *Arrangements of Fairs and Festivals.*—As usual, the villages of Srikurmam and Liviri were specially conserved during the Dolotsavam festival and the village of Mokhalingam during the Sivaratri festival. The usual sanitary arrangements were carried out and they were supervised by the Medical officers. There was no outbreak of any epidemic disease at the two festivals.

(*e*) *Other Sanitary outlay.*—A number of dust-bins, latrines, &c., were constructed and repaired at a cost of Rs. 466 during the year.

The total expenditure under Grant 3 amounted to Rs. 43,833 against Rupees 42,312 in the previous year.

46. *Contributions.*—The contributions to Provincial services on account of Medical College, Sanitary Inspection, Reserve Medical Staff and Cutlers' establishment amounted to Rs. 2,564 against Rs. 2,544 in the previous year. Towards the cost of the municipal hospitals Rs. 2,500 were paid to the Parlákimedi, Berhampur and Chicacole Municipalities.

47. *Medical Training of Women.*—Only Rs. 25 against an allotment of Rs. 300 were paid during the year on account of scholarship for one month to Miss Lena Ottmann, female apothecary who was undergoing training. The short expenditure was due to the student having returned after passing her examination and no student having been entertained in her place.

48. *Grant* 4, *Public and Charitable Institutions—Markets.*—Rs. 106 were spent on account of pay of servants employed to collect fees at markets during the year under report.

49. *Choultries.*—The choultry at Kanchili, an endowed institution, was managed by the Taluk Board, Berhampur. During the year under report 5,948 Brahmin travellers were fed at the choultry against 8,360 in the preceding year. The decrease was due to the opening of the railway. The income from the endowment was insufficient to feed all the travellers, to maintain the necessary establishment and to keep the building in repair. Under the existing arrangements the Maharaja of Vizianagram feeds the travellers and bears all the incidental charges in the first instance. Rs. 403 were paid to the Agents of the Maharaja towards the cost of feeding, &c.

During the year the upstair building attached to this choultry was repaired, at a cost of Rs. 382, to accommodate travellers. The chattram at Chatrapur, endowed by M.R.Ry. P. Sivaramayya Pantulu Garu, was under the management of the district board. One thousand four hundred and nineteen travellers were fed at the choultry during the year against 1,596 in the previous year. Besides these, there were seventeen choultries, the property of local boards. Rs. 1,289 were expended on repairs to choultries and Rs. 34 on establishment charges.

50. *Bungalows.*—The number of bungalows was twelve as in last year. Rs. 644 were spent on establishment charges. The expenditure incurred on repairs amounted to Rs. 1,448, which was debited to Grant 1. The total expenditure on account of bungalows was Rs. 2,092.

51. *Miscellaneous.*—Rs. 57 were incurred on account of water-pandal charges by the Berhampur, Chicacole and Parlákimedi Taluk Boards, Rs. 195 for lighting charges by the Berhampur Taluk Board and Rs. 6 as rewards for killing dogs by Berhampur and Goomsur Taluk Boards.

The total expenditure under Grant 4 amounted to Rs. 7,034 against Rs. 7,280 in the previous year.

52. *Grant* 5, *Supervision and Management.*—The charges on account of local boards and union office establishments and Collector's local fund establishments amounted to Rs. 6,871 against Rs. 6,980, the estimate. On contributions to Provincial services, on account of controlling establishments at the Presidency, printing work done at Government Press and local audit establishment, Rs. 3,497 were expended.

53. *Travelling Allowance to Non-official Members.*—Rs. 1,653 were paid against Rs. 1,755 in the previous year and Rs. 2,060, the estimate. The district board members were paid at the rate of 4 annas per mile by road and double second-class fare by rail, and taluk board members at 3 annas per mile by road and double second-class fare by rail, the maximum sanctioned by Government.

54. *Repayment of Loans.*—With reference to G.O., No. 1021, Financial, dated 17th December 1895, communicated with G.O., Mis. No. 97 L., dated 17th January 1896, Rs. 10,000 were paid on account of the outstanding debt of the Ganjám District Board.

55. The expenditure under Grant 5 amounted to Rs. 31,839 against Rs. 37,124 in 1894–95.

56. The grand total expenditure excluding debt heads amounted to Rs. 2,87,814 against Rs. 2,94,928 in the previous year, leaving a balance of Rs. 32,941, of which Rs. 16,548 represents debt head balance.

57. *General Remarks.*—A careful revision of the land-cess assessments in the district has increased the revenue of the district board by about Rs. 20,000 per annum, and I hope there will be a still further increase at the next assessment.

Our repayments to Provincial funds of amounts advanced during the last famine are now completed, and I hope we are entering on a period of greater prosperity.

The needs of the district are very great. The roads in the Chatrapur division are for the most part badly aligned and constructed in the beginning, and unless their levels are raised at large expense, they will never be satisfactory. They had got into so bad a state that to get them right must be a work of time. I hope we will be able to make larger grants for this purpose during 1897–98.

ENCLOSURE.

ANNUAL Administration Report on the Local Fund Dispensaries and Hospitals in the district for the official year 1895–96.

Public Health.—The total rainfall in the district for the year was 50·70 against 46·33 of the previous year. The outturn of crops was on the whole good and the public health satisfactory.

Cholera broke out in August 1895 at a village called Balliguda in the Berhampur taluk and the number of cases reported from various places was 313. Of these, about 50 proved fatal. The disease was imported from Puri by return pilgrims. A Medical subordinate was at once sent to Rumbha specially to watch the movements of the pilgrims in question, while several others were deputed to suppress the disease elsewhere. Besides this, the Revenue officials were requested to take the precautionary steps to prevent the spread of the disease.

There were altogether 405 deaths from small-pox and 18,869 from fevers as against 245 and 18,030, respectively, in the previous year. Small-pox prevailed in parts of the district and the vaccinators were ordered to visit the infected villages and carry out operations. There was a remarkable prevalence of malarial fevers all along the sea coast, especially at Gopalpúr, Surlá and Báruva, during the last quarter of the calendar year 1895.

The most common diseases of the district were malarial fevers, skin diseases, ulcers, eye diseases, worms and rheumatic affections.

2. *Vital Statistics*—

Births.

1893–94	
1894–95	38,068
1895–96	34,428
	30,777

The following table shows the deaths compared with the two previous years :—

—	1893–94.	1894–95.	1895–96.
Cholera	248	83	448
Small-pox	267	245	405
Fevers	16,901	18,030	18,869
Bowel-complaints	633	791	985
Injuries	316	345	348
All other causes	4,009	3,853	3,934
Total ..	22,368	23,347	24,989

3. *Sanitation.*—The sanitation of the district is fairly attended to.

The night-soil in conserved villages and unions is removed to depôts outside the villages and is either sold as manure or buried in trenches or pits. The street sweepings in unions are carted away from the villages and utilized as manure, but in small villages and hamlets they are stored in the streets and in the backyards of houses to be used as manure in the fields.

Almost all the suggestions of the District Medical and Sanitary Officer were carried out by the respective boards as far as their financial condition allowed.

The improvements effected during the year were—

(1) The construction of latrines.
(2) ,, of dust-bins.
(3) ,, of wells.
(4) Repairs to roads.
(5) Removal of rank vegetation, &c., &c.

4. *Vaccination.*—There were two calf vaccine depôts working during the year—one at Berhampur under the direct supervision of the District Medical and Sanitary Officer and the other at Chicacole under the Medical officer. A first-class vaccinator is attached to the one here and a first-class man to the one at Chicacole. The lymph produced in these depôts was invariably good and was distributed to the medical subordinates and the vaccinators. The lymph, however, failed in certain cases, and this is due to the carelessness of the vaccinators.

The following table shows the number of calves vaccinated and the charges incurred as compared with the two previous years :—

—	Number of calves vaccinated.	Total cost of calves.	Sale-proceeds of calves.	Amount realized by sale of lymph.	Total cost including the pay of vaccinators and watchers.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1893–94	141	622 4 0	294 0 0	104 7 0	1,094 0 0
1894–95	189	892 10 0	460 0 0	159 6 0	1,483 15 5
1895–96	219	1,090 9 6	463 2 0	491 8 0	2,172 4 2

From the above table it will be seen that animal vaccination has been carried on vigorously. The sale-proceeds of calves is rather low, owing to the prejudice of the people that inoculated calves are useless. There has been considerable increase under the sale-proceeds of lymph. The increase in total cost is due to the entertainment of two first-class vaccinators instead of one first and one second class man and the purchase of an increased number of calves.

The following is the work done by the vaccinators as compared with the previous year :—

—	1894–95.				1895–96.			
	Total number vaccinated.	Successful.	Unsuccessful.	Unknown.	Total number vaccinated.	Successful.	Unsuccessful.	Unknown.
Chatrapur range ..	13,648	9,039	4,461	148	15,852	15,181	641	30
Chicacole	9,486	8,815	650	21	14,187	13,996	165	26
Total ..	23,134	17,854	5,111	169	30,039	29,177	806	56

From the above it will be seen that during the year under report about 7,000 cases have been vaccinated over that of the previous year. The work turned out by the vaccinators has been very satisfactory.

5. *Hospitals and Dispensaries* (*a*).—Most of the buildings are intended only for out-patients and so meet only the requirements of dispensaries.

The following dispensaries are located in rented buildings :—

(1) Garabanda, (2) Ichchhápuram and (3) Purushottapur,

and the rest in Local Fund buildings, with the exception of those at Russellkonda and Chatrapur, which are located in a portion of the police hospitals.

(*b*) The state of repairs to the buildings is satisfactory.
(*c*) The furniture of the institutions is in a fairly good condition.
(*d*) The total number of patients treated in all the institutions is given below :—

—	Total treated.		
	In-door.	Out-door.	Total.
1892–93	142	66,666	66,808
1893–94	139	80,172	80,311
1894–95	110	98,228	98,338
1895–96	133	99,152	99,285

The total number of patients treated in all the institutions during the year under report is 99,285 against 98,338 of last year, of which 133 were in-door and 99,152 out-door patients against 105 in and 98,233 out in the previous year. This is an improvement.

The number of patients treated during the year at the Local Fund hospital at Calingapatam was less than that of the previous year by 2,044 and the civil apothecary in charge attributes the decrease to the presence of cholera in the town and surrounding villages for about three months in the year and frequent changes in the Medical officers during the year.

There was a fall in the number of patients treated in the Local Fund dispensary, Purushottapur, during the year by 1,974. This considerable decrease in the number of out-patients is due to the first-class hospital assistant in charge of the dispensary having gone on three months privilege leave and a new third class hospital assistant being placed in charge of it. Besides this, cholera prevailed in the neighbouring villages of Purushottapur during the year, in consequence of which people refrained from resorting to the dispensary for medicines. These two causes have operated to thin the number of out-patients.

In almost all the other institutions the attendance is very encouraging.

(*e*) *Mortality.*—There were twelve deaths amongst in-patients and 59 amongst out-patients.

Cause of death amongst in patients.	
Dysentery	1
All other general diseases	6
Diarrhœa	1
Liver disease	2
Pneumonia	1
Local injuries	1
Total	12

The number of deaths amongst out-patients could not be ascertained with any amount of accuracy. The chief causes of death are however, malarial fevers, bowel-complaints, dysentery, lung diseases and injuries.

(*f*) Operations performed during the year as compared with the previous year are—

	1894-95.	1895-96.
Major	41	59
Minor	1,751	1,536
Total	1,792	1,595

All were successful.

(*g*) The establishment was efficient and sufficient.

(*h*) *Midwives.*—There were two trained midwives in the district and their working during the year as compared with the two previous years was as follows :—

	Cases conducted during		
	1893-94.	1894-95.	1895-96.
Parlákimedi	97	102	99
Tekkali	84	83	74
Total	181	185	173

There was a fall in the number of cases attended by both the midwives and their work was not satisfactory. The want of midwives is sadly felt in several stations.

Female Apothecary Miss D'Silva was transferred to Chicacole in August 1895 and her place at the Jubilee Hospital was filled up by female Apothecary Miss Lena Ottmann, L.M.S., a student who passed with much distinction out of the Madras Medical College in June last year. Both of them continue to do good work and their work is appreciated by the public.

There were no separate dispensaries for caste and gosha women working in the district.

(*j*) There were five apothecaries and eight hospital assistants working in the hospitals and dispensaries in the district during the year under report. They have on the whole performed their work satisfactorily. Owing to the malarial parts in which most of the dispensaries are situated, some of the Medical subordinates fell ill and they had to go either on sick or privilege leave to recruit their health. There was during the year a sufficient number of Medical subordinates available as relieving hands and to do duty in times of outbreak of cholera.

Visits.—The local authorities, viz., Presidents of District and Taluk Boards, the Principal and Senior Assistant Collector and M.R.Ry. A. Gurumurti Nayudu Garu, the Special Deputy Collector, have paid their usual visits of inspection to almost all the medical institutions in the district and the general tenor of their remarks has been favourable to the subordinates.

I am to mention that M.R.Ry. M. L. Narasingarao, a non-official member of the District Board, has continued to take much interest in visiting the Local Fund dispensaries during the year at his own expense. He has been taking the trouble of the sort during the past six or seven years and I think his work is worthy of some recognition.

The Collector's hospital assistant at Chatrapur is looking after the out-patients attending the Local Fund dispensary at Chatrapur under the supervision of the Civil Surgeon there. Plans have been obtained from the Sanitary Board for the construction of a Local Fund dispensary at Chatrapur. At present the dispensary is located in a portion of the Police hospital.

My recommendation in the last year's report to open a dispensary at Narasannapeta was not given effect to.

(Signed) F. C. PEREIRA, M.B., Surgeon-Captain,
District Medical and Sanitary Officer, Ganjám.

From C. J. WEIR, Esq., President, District Board, Ganjám, to the Chief Secretary to Government, dated 31st July 1896, No. 2300, submitting a copy of the District Board's resolution approving of the administration report for 1895–96.

ORDER—No. 1937 L., 19th October 1896.

The local fund receipts and charges of the Ganjám district for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95 :—

2. *Local Boards and Union Panchayats.*—The district board held twelve meetings against eleven in the previous year. The attendance of its official members declined and was indifferent, while that of the non-officials improved and was fair. The taluk boards met a sufficient number of times and the average attendance of their members,

excepting the officials on the Berhampur Board and the non-officials on the Parlákimedi Board, continued to be on the whole good. There were fifteen union panchayats at work, or one more than in the previous year; they met on an average twelve times each against eleven in that year, and the average attendance at their meetings was fair, being four out of a strength of seven. The Union Panchayats of Suradá and Varanási failed to meet once a month, as required by section 129 of the Local Boards Act, and as many as seven meetings of the Ichchhápuram Union Panchayat had again to be adjourned for want of a quorum. A similar irregularity was strongly commented upon in the review of last year's administration report, and to prevent a recurrence of it immediate steps should now be taken by the President of the Berhampur Taluk Board, either by removing the present Chairman or by using such other measures as may be necessary. The ward system of supervision continued to be in force only in the Russellkonda Union, in which it is reported to have worked well. The private scavenging service also continued to be in operation there, and it is satisfactory to note that it is gradually being extended on a self-supporting basis. The working of the taluk boards and union panchayats is reported to have been on the whole satisfactory.

3. *Receipts.*—(1) Owing partly to the revision of land-cess in some of the zamindaries and partly to the existence at the beginning of the year of larger arrears than in 1894–95, the demand under land-cess increased from Rs. 2,29,554 to Rs. 2,79,973, but only 77 per cent. of it was realized against 89 per cent. in the previous year.

(2) Tolls were again levied at twelve gates, but in consequence of the opening of the East Coast Railway, the demand under this head fell from Rs. 37,680 to Rupees 30,466, of which 95 per cent. was collected against 93 per cent. in 1894–95.

(3) House-tax was levied at the maximum rates in fourteen unions and at half rates in the remaining union, and the collections amounted to Rs. 8,149, or 95 per cent. of the demand, against Rs. 7,696 or 94 per cent., in the previous year. They were very good in all the unions except Battili, in which only 80 per cent. of the current demand was realized. Coercive processes were issued in eleven unions in 368 cases, of which nearly one-third were in the Ichchhápuram Union, but property was distrained in only twenty-eight cases and sold in only eight.

(4) Owing to want of funds, no regular markets were established by the taluk boards.

(5) The receipts from fishery rents again increased from Rs. 11,013 to Rupees 12,417.

(6) The income from avenues rose from Rs. 180 to Rs. 297, while the cost of maintaining them fell from Rs. 3,108 to Rs. 2,084. The general condition of the avenues is reported to have been good, and the receipts from them may be expected to increase considerably in future years.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head amounted to Rs. 1,32,751, or 93 per cent. of the allotment, against Rs. 1,42,119 or 107 per cent. in the previous year, the high percentage in the latter case being due to the expenditure incurred on the construction of the Berhampur-Govindapur road, for which there was no provision in the budget. The outlay on communications was Rs. 1,24,934 or 94 per cent. of the allotment, and 90 per cent. of the minimum prescribed by Government. Every endeavour should be made to reach this standard as soon as possible. The expenditure on village roads amounted to only Rs. 1,342, or 1·1 per cent. of the total outlay on roads, against Rs. 1,336 or 1 per cent. in the previous year. The condition of the roads in the north is stated to have been still very bad, while in the south it continued to be fair. The cost of the local fund engineering establishment amounted to 19·2 per cent. of the outlay on works executed by that agency, against 15·2 per cent. in 1894–95, the increase being due to the smaller outlay on public works above referred to and to the payment of large arrears of travelling allowances due to overseers.

(2) *Education.*—There were again ten inspecting schoolmasters and, though there was a decline in the number of schools prepared by them for examination, their work is reported to have been more or less satisfactory. The district board maintained two sessional schools, in which twenty-two teachers were trained; of these

twenty appeared for the Primary examination and fifteen were successful. As more than 60 per cent. of the teachers employed in the district are in no way qualified, it is not encouraging that only twenty-two teachers should have been induced to undergo training. A threat to withhold or reduce grants, if rigorously carried out, would probably induce a greater number to attend the sessional schools. The taluk boards continued to maintain three lower secondary schools attended by 125 pupils against 141 in 1894–95. The working of the school at Russellkonda, though slightly better than in the previous year, was still not satisfactory, only five out of the ten students sent up for the Lower Secondary examination having met with success. The schools at Tekkali and Aska did well, five out of eight students presented from the former and three out of five from the latter, having passed the Lower Secondary examination. The number of Board Primary schools rose from 122 with 3,711 pupils to 125 with 4,167 pupils, and the progress made by them was better than in the previous year, 67 per cent. of the pupils presented for the several standard examinations having been successful against 55 per cent. Five of these schools were maintained exclusively for the benefit of Muhammadans, six for Panchamas and fishermen, and two for other backward classes. The attendance at the last two classes of schools was good, while at the Muhammadan schools it was poor. The number and attendance of the private schools aided with result grants, which were disbursed at the maximum rates, rose from 615 and 16,800, respectively, to 737 and 17,024, but the results of the grant examinations continued to be bad, only 62 per cent. of the students presented having passed against 61 per cent. in 1894–95. The amount of grants paid to them, however, increased from Rs. 15,252, or 87 per cent. of the allotment, to Rs. 16,528 or 105 per cent. The total number of boys under instruction in the board and aided schools was 17·9 per cent. of the male population of school-going age against 17·4 per cent. in 1894–95.

(3) *Medical Relief.*—The taluk boards continued to maintain one hospital and eleven dispensaries, but the number of patients treated in them fell from 93,285 to 92,797, the decrease being explained to be chiefly due to the prevalence of cholera in the villages adjoining two of the dispensaries. The work done by the two midwives was again unsatisfactory, the total number of labour cases attended by them being 173 against 185, but it is stated that steps are being taken to effect an improvement in the current year. The two female apothecaries trained by the Countess of Dufferin Fund Committee on account of the district board, worked during the year in the Municipal hospital at Chicacole and the Jubilee hospital at Berhampur, and their services are reported to have been appreciated by the public.

(4) *Vaccination.*—The work of this department showed a considerable improvement and the ground lost in the previous two years was completely re-gained, the total number of persons successfully vaccinated being 30,088 or 19·7 per mille of the population against 18,828 or 12·3 per mille in 1894–95, and 25,930 or 17·0 per mille in 1893–94. The quality of the work turned out also improved, as it is reported that 97 per cent. of the total number of operations were successful against 77 per cent., but this figure seems hardly credible. Infantile vaccination, however, did not make much progress, the total number of children under one year successfully vaccinated being only 2,606 or 1·7 per mille of the population, and 8 per cent. of the births registered during the year. There is evidently ample scope for improvement in this direction.

(5) *Sanitation.*—The expenditure under this head amounted to Rs. 13,355 or 97 per cent. of the allotment, against Rs. 13,210, or 93 per cent. in the previous year. Two new wells were sunk, twenty-one existing sources of water-supply were repaired and eleven watchmen were employed to guard sources of drinking-water supply. The number of villages in which prickly-pear and other noxious vegetation were removed rose from fourteen to twenty-three and scavenging establishments continued to be maintained in thirty-five villages. The District Medical and Sanitary Officer visited twenty-two villages, and he states that the sanitation of the district was fairly attended to.

5. *General Remarks.*—The year closed with a balance of Rs. 32,941, of which Rs. 302 appertained to unions, Rs. 1,197 to endowed institutions and Rs. 16,548 to

debt heads, leaving Rs. 14,894, or 5 per cent. of the receipts, available for general purposes.

The administration of the local boards and union panchayats showed a considerable advance on that of the previous year, and was on the whole satisfactory, but the improvement of the roads demands increased attention. The Government is glad to note the testimony borne by the President and the District Medical and Sanitary Officer to the good services rendered by M.R.Ry. M. L. Narasinga Rao Pantulu, a member of the district board.

				9

but property was distrained in only 28 cases and sold in only eight for Rs 5.

(4) Owing to want of funds, no regular markets were established by the Taluk Boards.

Vide G.O 2463Z 26-11-94

(5) The receipts from fishery rents again increased from Rs 4,013 to Rs 12,417.

(6) The income from avenues rose from Rs 180 to Rs 297, while the cost of maintaining them fell from Rs 3108 to Rs 2084. The general condition of the avenues is reported to have been good; the receipts from them may be expected to considerably increase in future years.

4. Expenditure. (1) Public works.

The expenditure under this head amounted to Rs 13,275, or 93 per cent of the allotment, against Rs 11,211, or 107 per cent in the previous year, the high percentage in the latter case in that year being due to the expenditure incurred

corresponding provision in the

				9

works above referred to, and to the payment of large arrears of the travelling allowances due to overseers bills of overseers.

(2) Education There were again ten Inspecting Schoolmasters and, though there was a decline in the number of Schools prepared by them for examination, their work is reported to have been more or less satisfactory. The District Board maintained two Seasonal Schools in which 22 teachers were trained, of whom these 20 appeared for the Primary Examination and 15 were successful. As more than 60 per cent of the teachers employed in the district are none is no way qualified, it is not satisfactory that only 22 teachers should have been induced to undergo training. A threat to withhold or reduce grants if rigorously carried out would probably induce a greater number to attend the Seasonal Schools. This large proportion should be reduced by inducing a greater number of Schoolmasters to undergo training in the Seasonal

Schools attended by 125 p
against 121 in 1894-9
The working of the schoo

year, 67 per cent of th
presented for the Se
-ard examinations ha

five of these schools were maintained exclusively for the benefit of Muhammadans, six for Panchamas and fishermen and two for other backward classes. The attendance at the last two classes of schools was good, while that at the Muhammadan schools it does not appear to have been satisfactory. The number and attendance of the private schools aided with result grants, which were disbursed at the maximum rates, rose from 615 and with 16800, respectively pupils to 737 and with 17024 pupils, but the results of the grant examinations continued to be bad, only 62 per cent of the students presented having passed against 61 per cent in 1894-95. The amount of grants paid to them, however, increased from

The total number of [illegible] instruction in the [illegible] aided school was 17.9 [illegible] the male population [illegible] going age against 17.4 [illegible] 1894-95.

(3) Medical Relief. The [illegible] continued to maintain [illegible] and 11 dispensaries, but [illegible] of patients treated in [illegible] from 93,285 to 92,797, [illegible] being explained to be chiefly due to prevalence of Cholera [illegible] villages adjoining two of [illegible] dispensaries. The work done [illegible] midwives was again [illegible] factory, the total number [illegible] labour cases attended by [illegible] being 173 against 185, but [illegible] that steps are being taken [illegible] an improvement in the [illegible] The two female apprentices

Dufferin Fund Committee on account of the District Board, worked during the year in the Municipal hospital at Chicacole and the Jubilee hospital at Berhampur, and their services are reported to have been appreciated by the public. The proposal of the District Medical and Sanitary officer to open a dispensary at Narasannapeta cannot be entertained in the present state of the Boards' finances.

(4) Vaccination. The work of this department showed a considerable improvement and the ground lost in the previous two years was completely regained, the total number of persons successfully vaccinated being 30088 or 19·7 per mille of the population, against 18828, or 12·3 per mille, in 1894-95 and 28920, or 17·0

as it is stated 97 per cent of the total number of operations having been successful against 77 per cent. In fact, however, did much progress, the total number of children under one year fully vaccinated being only 2 per mille of the population, cent of the births registered the year. There is evidently scope for improvement in direction.

but this figure seems hardly credible.

(5) Sanitation. The expenditure under this head amounted to Rs 13355, or 97 per cent of the allotment, against Rs 13210, or 96 per cent, in the previous year. wells were sunk, 21 existing sources of water supply were repaired and 11 watchmen were employed to guard sources of drinking water. The number of

Total Amount sanctioned during the	From commencement of the work up to the close of preceding	Work Department.	Department.	
			9	

noxious vegetation were removed a rose from 14 to 23 and scavenging establishments continued to be maintained in 35 villages. The District Medical and Sanitary officer visited 22 villages and he states that the Sanitation of the district was fairly attended to.

5. General Remarks - The year closed with a balance of Rs 32,941, of which Rs 302 appertained to unions, Rs 1,197 to endowed institutions and Rs 16,548 to debt-heads, leaving Rs 14,894, or 5 per cent of the receipts, available for general purposes.

The administration of the local Boards and Union Panchayats showed a considerable advance on that of the previous year, and was on the whole satisfactory, but the
