Administration Report.

Reviewing the ——— of the M

Dist: Bd. for 1895-96.

No. 1939 L., 19th October 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers :—

From J. HEWETSON, Esq., I.C.S., President, District Board, Malabar, to the Chief Secretary to Government, dated Calicut, 10th July 1896, Dis. No. 667-C.F.

I have the honour to submit herewith my report on the administration of Local funds in this district for the past official year, together with the prescribed statements as per separate list attached.

I.—General.

2. *Administration.*—There are no unions under any of the taluk boards in the district. Last year it was stated that proposals for forming unions had been called for, but as there are no villages in the district, nothing can be done until the Local Boards Act is amended. No change was effected in the number or in the territorial jurisdiction of the taluk boards during the year under report.

3. *The District Board.*—The constitution of the district board remained the same as in the previous year. Of the maximum strength of thirty-six on the board, six were ex-officio members being Divisional Officers, twelve, including three official and nine non-official members, were nominated by Government and the remaining eighteen were elected by the five taluk boards. Surgeon-Major H. St. C. Carruthers, the District Medical and Sanitary Officer, left the district on leave in the latter part of October 1895, and was subsequently posted to South Canara. His seat on the board was filled up by the appointment of his successor Surgeon-Lieutenant-Colonel Hackett Wilkins on the 19th November 1895. The vacancies in the elective seats during the year were duly filled up by the taluk boards. Two elective seats were, however, vacant on the 31st March 1896, and these were caused by the transfers of M.R.Ry. S. Ananta Pattar Avargal, Tahsildar, from Walluvanad to Palghat, and of M.R.Ry. V. Kesava Menon, Sub-Assistant Inspector of Schools, from Palghat as teacher to the Kumbakónam College. Both the above vacancies have been filled up by election since the close of the official year. Thus the strength of the board on the 31st March 1896 was 34 against 36, the maximum strength. Mr. Moberly held the office of president till the 16th September 1895, when I took charge of the district. During December 1895 and January 1896, I had to leave for the Laccadives and Mr. Pinhey was in charge. Rao Sahib S. Swaminatha Aiyar Avargal, Head-quarter Deputy Collector, continued to be the Vice-President. Twelve meetings were held during the year against the same

number in 1894–95 and none was adjourned for want of a quorum. As in the previous year, M.R.Ry. P. Kanaran Avargal, a non-official member, attended all the twelve meetings, while Mr. R. K. Walker of the Wynaad Planters' Association attended only a single meeting of the board. Mr. Walker was absent in Europe for a few months in the year and consequently was not able to attend those meetings. The average attendance of the official and the non-official members was 5·33 and 11·50 against 5·74 and 11·91 in the previous year. There was a slight falling off in the attendance of both the official and the non-official members. The decline in the case of the officials was due to the fact that the elected Tahsildar members were not able to more frequently attend the meetings owing to pressure of their revenue work. In the case of the non-officials, the decline was due to the fact that—

(i) M.R.Ry. Nilambur Manavikrama Elaya Tirumulpad Avargal attended only one meeting till the date of his resignation which was accepted by me on the 30th October 1895; and

(ii) that Mr. J. B. Burnett was elected by the Tellicherry Taluk Board in the place of M.R.Ry. Ch. Kunhi Chandu Nambiar Avargal, whose term expired on the 31st May 1895 only on the 11th December 1895 (*vide* G.O., Mis. No. 1720 L., dated 19th September 1895, and this office letter, Dis. No. 901 L. F., dated 26th November 1895).

4. *Taluk Boards.*—The constitution of the five taluk boards, the number of meetings held by each board and the average attendance of both the official and the non-official members are detailed in the following statement :—

Taluk Boards.	Sanctioned strength.	Number of members on the 31st March 1896.		Number of meetings.	Average attendance	
		Officials.	Non-officials.		Officials.	Non-officials.
Tellicherry	12	5	8	12	1·83	5·75
Calicut	12	4	8	12	2·08	6·25
Malapuram	12	3	8	12	1·75	4·08
Palghat	12	3	9	12	1·66	4·92
Wynaad	12	3	8	12	1·92	3·09

It will be observed from the above statement that the taluk boards held the minimum number of meetings prescribed by section 28 of the Local Boards Act V of 1884. The number of meetings shown in the above statement is exclusive of one meeting of the Tellicherry Taluk Board adjourned for want of a quorum. The deficiency in the strength of the Tellicherry and the Malappuram Taluk Boards on the 31st March 1896 was due to the transfers of M.R.Ry. P. C. Ramaswami Aiyar Avargal and S. Ananta Pattar Avargal as Tahsildars of Walluvanad and Palghat, respectively, towards the close of the official year. In the Wynaad Taluk Board the deficiency was due to the vacancy caused by the transfer to Madras on the 4th March 1896 of M.R.Ry. T. Thyream Pillai, Civil Apothecary, Vayitri, not having been filled up till after the close of the year.

5. The attendance of official members shows an advance over that of the previous year in all the taluk boards except Malappuram. Under non-officials, the attendance was almost the same as that of the last year in the Taluk Boards of Tellicherry, Malappuram and Palghat. In the Calicut Taluk Board, the attendance may be considered fair even though there was a slight falling off. In the Wynaad Taluk Board, there was a perceptible decrease in attendance which is reported to be due to the fact that four of the non-official members attended but very few of the meetings. The attention of the President, Taluk Board, will be drawn to section 24, clause (ii) of the Local Boards Act V of 1884 and he will be requested to report in future to Government for removal those members who neglect for more than three consecutive months to be present at the meetings of the board. M.R.Ry. P. Unni Kutti Kidavu Avargal of the Tellicherry Taluk Board and M.R.Ry. P. Kanaran Avargal and P. Nilakandan Nambudiri Avargal of the Calicut Taluk Board attended eleven out of the twelve meetings held by their respective taluk boards during the year. The vacancies that occurred in the several taluk boards were duly filled up during the year with the exception of the three referred to in paragraph 4 *supra*.

6. *Working of the Taluk Boards.*—The President, Taluk Board, Calicut, reports that his board worked satisfactorily during the year, the members taking lively interest in carrying out the purposes of the Act. The Presidents of Tellicherry and Malappuram Taluk Boards also report that the members of their boards generally evinced interest in the discussion of the subjects placed before them. The presidents of the other taluk boards have not reported on their working; but they have, as a matter of fact, worked satisfactorily during the year.

7. The rates of travelling allowances given to the non-official members of the district and taluk boards remained the same as in the previous year.

8. *Financial position.*—The details of receipts and charges of the district and the taluk boards are exhibited in statements I-A and I-B. The subjoined table compares the totals with those of the preceding year :—

—	Actuals of 1894–95.			Actuals of 1895–96.		
	District fund.	Taluk funds.	Total.	District fund.	Taluk funds.	Total.
	RS.	RS.	RS.	RS.	RS.	RS.
Opening balance	16,570	165	16,735	36,708	21,316	58,024
Receipts	3,51,689	1,71,485	5,23,174	3,22,389	1,72,372	4,94,761
Allotments from district to taluk funds	..	47,304	..	..	33,820	..
Total assets ..	3,68,259	2,18,954	5,39,909	3,59,097	2,27,508	5,52,785
Total expenditure ..	3,31,551	1,97,638	4,81,885	3,23,034	1,99,715	4,88,929
Closing balance ..	36,708	21,316	58,024	36,063	27,793	63,856

Excluding contributions, the actual receipts of the year amounted to Rs. 4,94,761 against Rs. 5,23,174 in the previous year. Adding to this the opening balance of Rs. 58,024 the total assets came to Rs. 5,52,785. The total charges of the year amounted to Rs. 4,88,929 against Rs. 4,81,885 in 1894–95. The year thus closed with a balance of Rs. 63,856, of which Rs. 36,063 appertain to district and Rs. 27,793 to taluk funds.

9. The statement subjoined shows the incidence of local fund taxation per head of the population :—

Area in square miles.	Population as per census of 1891 excluding municipalities.	Taxation including tolls.	Incidence of taxation including tolls.		Incidence of taxation excluding tolls.	
			1894–95.	1895–96.	1894–95.	1895-96.
		RS.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.
5,554	2,474,791	3,29,764	0 2 1	0 2 1	0 1 7	0 1 6

It is below the presidency average of As. 3 including tolls and As. 2–7 excluding them.

10. The year opened with a balance of Rs. 58,024 against Rs. 26,520, the budget estimate and Rs. 16,735, the balance of 1894–95. The large increase over the estimate was due to the actual expenditure under all the grants having fallen short of the revised estimate for 1894–95.

11. The following abstract compares the current collections under the several heads of revenue during the year under report with those of the previous year :—

Items.	1894–95.	1895–96.	Percentage of total receipts.	
			1894–95.	1895–96.
	RS.	RS.	RS.	RS.

Miscellaneous debt accounts	.. 67,595	.. 41,932	.. 12·92	.. 8·48
Total ..	5,23,174	4,94,761	100·00	100·00

II.—Receipts.

The total current receipts amounted to Rs. 4,94,761 against Rs. 5,23,174 in the previous year. The large increase under debt heads in 1894–95 is accounted for by the fact that in April 1894 all the items of local fund deposits outstanding in the revenue deposit registers were transferred to Local funds and credited under that head.

12. *Land Cess.*—The income from this source amounted to Rs. 2,43,939–1–2 against Rs. 2,42,330, the budget estimate and Rs. 2,46,089, the actuals of 1894–95. The increase in 1894–95 was, as remarked in the administration report for that year, due to the prompt collection of a large amount of arrear demand outstanding at the end of the previous year. The demand including the arrears of 1894–95 amounted to Rs. 2,64,754–11–9 against the total demand of Rs. 2,75,305–15–2 of the previous year. The percentage of collections to the total demand was 92·1 against 89·4 in the previous year. The balance at the close of the year was Rs. 20,212–11–9, of which Rs. 18,698–1–1 have since been collected, leaving only a balance of Rs. 1,514–10–8 at the close of the fasli year.

13. *Tolls.*—Statement V furnishes information regarding tolls in the district. The number of toll-gates was 39 against 38 in 1894–95. Tolls were levied at the maximum rates specified in schedule B of the Act at all the toll-gates except at Kutnad and Edappat in the Ponnáni taluk, where they were levied at half the maximum rates. No toll was conducted under amani during the year. The total receipts from all the 39 toll-gates amounted to Rs. 79,888–3–4 against Rs. 80,000, the budget estimate, and Rs. 77,338, the actuals of 1894–95. The increase over the actuals of the previous year was due to keener competition during the sale of the toll farms in the district. Particulars regarding the demand, collection and balance of tolls are exhibited in statement No. VIII. The balance at the close of the year was Rs. 500 which has since been adjusted from the contractor's deposit of Rs. 500 invested in the Postal Savings Bank. The total contribution paid by the Palghat municipality to the district board on account of tolls for last year was Rs. 5,936–5–11. This sum includes Rs. 542–2–8, the arrear contribution due for 1894–95 paid by the municipality in accordance with G.O., Mis. No. 1719 L., dated 19th September 1895. Deducting contributions to Provincial funds, municipalities and the French Government and the cost of maintenance of toll sheds, the net receipts from tolls during the year amounted to Rs. 68,489–12–4 or 36 per cent. of the total outlay on communications against 37 per cent. in the previous year.

14. *Education.*—The receipts under this head amounted to Rs. 23,864 against Rs. 23,211 in the previous year. There were increases of Rs. 417 and Rs. 268 under " School fees " and " Sale-proceeds of books " and a decrease of Rs. 32 under " Miscellaneous."

15. *School-fees.*—The collections under this head amounted to Rs. 21,748 against Rs. 20,480, the budget estimate and Rs. 21,331, the actuals of 1894–95. The collections exceeded the estimate in all the taluks excepting Calicut and Wynaad which was due to improved attendance in the middle schools under their management. The decrease under the estimate in the Calicut Taluk was due to seven Hindu salary-result schools having been closed during the year, while in the Wynaad Taluk it is attributed to the following causes :—

(i) the abolition of Meppadi and Ponamaram schools ;

(ii) the falling off in the strength of the Trichaleri school which was also abolished after the close of the year ;

(iii) the difficulty in the realization of school-fees owing to the great number of poor scholars on the rolls ; and

(iv) over estimate by educational officers at the time of framing their budget.

16. *Sale-proceeds of Books.*—The income under this head amounted to Rs. 2,028 against Rs. 1,750, the budget estimate for the year and Rs. 1,761, the actuals of 1894–95. The increase over both the estimate and the actuals of last year was due to the very prompt sale of books in the local fund book depôt at Palghat.

17. *Education—Miscellaneous.*—The sum of Rs. 87–7–9 shown under this head consists of—

(i) Rs. 12–8–0 the amount of stipend recovered from a normal student who left the Educational department after training in contravention of the terms of his agreement ;

(ii) Rs. 1–4–0 sale-proceeds of benches of the Sessional school, Calicut Range, under the district board ;

(iii) Rs. 17–7–6 sale-proceeds of unserviceable articles in the schools under the management of taluk boards ;

(iv) Rs. 2 the rent obtained by letting the Badagara Middle school for two magic lantern performances ; and

(v) Rs. 54–4–3 refund of undisbursed pay and contingencies of certain Hindu and Moplah salary-result schools in the Kottayam taluk.

18. *Medical.*—The receipts under this head amounted to Rs. 1,146 against Rs. 567 in the previous year. Rs. 30–7–4 shown under the head of " Hospital receipts " represent the dieting charges recovered from paying patients during the year. Of the above amount, Rs. 29–11–3 were realized by the Wynaad Taluk Board and the balance As. 12–1 by the Tellicherry Taluk Board. A sum of Rs. 293–0–9 was also realized by the taluk boards of Tellicherry, Palghat and Wynaad by the sale of medicines from the hospitals and dispensaries under their control. At the suggestion of the District Medical and Sanitary Officer, the above taluk boards introduced for the first time a set of rules for adoption in the medical institutions under them to charge for medicines supplied to patients in certain cases. It was by working the above rules that this large income of Rs. 293–0–9 under " Sale of medicines " was realized.

19. *Contribution from Municipalities.*—The sum of Rs. 487–2–6 shown under this head represents the contribution paid by some of the municipalities and Government medical institutions in the district for the vaccine paste supplied to them from the central vaccine depôt at Calicut. It will be observed from paragraph 69 *infra* that of the total quantity of 35,283 grains of glycerine paste manufactured at the depôt, only a fourth, viz., 9,736, grains were supplied during the year to the municipalities and Government medical institutions, the remaining quantity being supplied to the local fund vaccinators. This mainly accounts for the large decrease under the estimated income which is exactly one-half of the provision made in the budget for maintaining the depôt. The statement of paste supplied was, as in the previous year, received from the depôt vaccinator only on the 17th of March last and consequently the amount

30. *Sundry Receipts.*—The collections under this head which consist of miscellaneous items amounted to Rs. 93–1–0 against Rs. 490, the budget estimate and Rs. 146, the actuals of 1894–95. The large decrease under the estimate was mainly due to the estimated figure having included the income accruing from the sources that are now shown under "other fees and fines" owing to a change in the classification of accounts.

31. *Public Works.*—The receipts under this head amounted to Rs. 2,401 against Rs. 2,770, the budget estimate and Rs. 7,799, the actuals of 1894–95. The large increase in the actuals of 1894–95 was due to the contribution of Rs. 5,164–1–5 paid by the French Government for the construction of the Mahe bridge which was completed in that year. The sum of Rs. 500 shown under "sale of buildings" represents the amount paid by Government as compensation for the school building at Angádipuram under the Malappuram Taluk Board, which was pulled down to make room for the new taluk cutcherry at that place. The amount under "tools and plant" represents the sale-proceeds of a number of second-hand tools sold at two-thirds of their value to the A system contractors. The amount shown under contribution from private individuals consists of—

(i) Rs. 151–6–0, the contribution paid by the Police Department for the repairs of Vayittiri and Manantoddy hospitals and for the Police ward at the Manjéri hospital;

(ii) Rs. 18–10–0, the amount contributed by the inhabitants of Meppadi in the Wynaad taluk towards the construction of a well at that place; and

(iii) Rs. 1,058–15–11, being the contribution made by the Cochin Sircar on account of—

(1) frontier ferries for the years 1894–95 and 1895–96; and
(2) for the maintenance of the Ponnáni-Cochin canal for 1894–95. Steps have been taken since the close of the year for recovering the contribution due on account of the latter for the year 1895–96 also.

32. *Contribution from Provincial Funds for Education.*—The amount received as contribution from Provincial funds for education during the year under report amounted to Rs. 16,565–7–11 against Rs. 21,490, the budget estimate for the year and Rs. 15,979, the actuals of 1894–95. The large decrease below the estimate is reported to be due to—

(i) overestimate, as in previous years, by the Educational officers at the time of framing their budget;

(ii) the closing of seven of the salary-result schools under the Calicut Taluk Board; and

(iii) the building grant of Rs. 615 anticipated by the Palghat Taluk Board not having been drawn before the close of the official year.

33. The allotments made from district funds to the various taluk boards during the year amounted to Rs. 33,820 as shown below:—

	RS.
(1) Tellicherry Taluk Board	6,060
(2) Calicut Taluk Board	6,640
(3) Malappuram Taluk Board	7,450
(4) Palghat Taluk Board	1,590
(5) Wynaad Taluk Board	12,080
Total ..	33,820

The above amount includes the allotment for primary education on account of net savings to the district board caused by the transfer of the training schools to Government. The amount originally allotted to taluk boards was only Rs. 31,520, but this was supplemented by an additional contribution of Rs. 2,300, of which Rs. 1,800 were allotted to the Malappuram Taluk Board for the purpose of building a travellers' bungalow at Manjéri and the remaining Rs. 500 to the Calicut Taluk Board for the opening up of five miles and two furlongs of Mankavu-Kamiparamba road for cart-traffic.

III.—Expenditure.

34. Excluding allotments from district to taluk funds, the amount actually spent during the year was Rs. 4,88,929 against Rs. 4,81,885 in the previous year. Statement I-B shows in detail the total amount expended as compared with the budget estimates for the year and the actuals of 1894–95, while the following abstract compares the expenditure under the several heads and the percentage of outlay under each grant with the corresponding figures of the previous year.

Items.	1894–95.	1895–96.	Percentage.

Grand total, expenditure ..	4,81,885	4,88,929	100·00	100·00

35. The total amount spent on public works during the year was Rs. 2,03,903 against Rs. 2,28,645, the budget estimate for the year and Rs. 1,91,295, the actuals of 1894–95; 89·1 per cent. of the total allotment was spent against 92·7 in the previous year. The decrease in percentage was due to —

(i) The allotment for the construction of the Kootoopoya bridge not having been fully utilized before the close of the year owing to (*a*) the contractor's failure to complete the work within the time stipulated in the contract bond and (*b*) to the receipt of the iron works required for the bridge from Messrs. Burn and Co. of Calcutta only towards the end of March;

(ii) the late receipt of sanction to the revised estimate for constructing the Kundathode arch bridge on road No. 5 and Nellikuthu bridge on road No. 55;

(iii) liabilities amounting to Rs. 1,502 on five completed works not having been paid before the close of the year owing to funds in the treasuries of the Palghat subdivision having been exhausted as reported by the Sub-Divisional officer, Palghat, on the last day of the year, when it was too late to arrange for fresh credits being placed and spent before the year closed; and

(iv) to savings amounting to Rs. 577 on certain completed works.

With regard to item No. 1, Kootoopoya bridge, it has to be remarked that owing to the contractor's failure to complete the work within the prescribed time it was taken out of his hands and is now being done by departmental agency at the contractor's risk as stipulated in the contract bond. A revised estimate necessitated by the enhanced cost of the iron works and by the substitution of laterite in chunam for rough stone work has lately been forwarded through the Superintending Engineer to the Chief Engineer, Public Works Department, for the sanction of Government. Of the total expenditure on Public Works, Rs. 1,87,484 were spent on communications alone, Rs. 12,015 on civil buildings and Rs. 4,404 on miscellaneous public improvements against Rs. 1,72,625, 11,937 and 6,732, respectively, in the previous year. The details of expenditure on public works are exhibited in statement No. III. Of the total outlay on works, Rs. 1,99,076 were spent by the Local Fund Engineering Department and Rs. 4,827 by the Revenue Department on behalf of the local boards.

36. *Communications—New Works.*—Forty-two works were taken in hand under this head during the year against thirty-one in the previous year. The total expenditure on these works amounted to Rs. 45,297 against Rs. 33,845 in 1894–95. The above amount includes the expenditure on petty works costing Rs. 300 and less which are lumped together as "minor works" in statement No. III. The Engineer reports that 102 original works (including minor works) were completed during the year under report at a cost of Rs. 20,614 as shown below:—

	RS.
One rolled-iron beam bridge	1,749
Eight rail-girder bridges	3,412
Fifty-one wooden and masonry earthen tube culverts	6,643
Thirty-three renewals of platforms of bridges with wood, iron rolled beams and rail girders	6,521
Nine miscellaneous, such as diversions, abutments, revetments, &c.	2,289
Total ..	20,614

The reconstruction of the Kootoopoya bridge not having been completed by the close of the official year, the expenditure of Rs. 17,685–1–2 incurred on it up to 31st March 1896 has not been included in the above amount. The following are some of the important works completed or in progress during the year:—

Project.	Amount of estimate.	Outlay in the previous year.	Outlay during 1895-96.	Remarks.
	RS. A. P.	RS. A. P.	RS. A. P.	
(1) Reviewing the platform of Nellipoya bridge with rolled-iron beams and timber planking.	1,753 1 11	877 13 0	870 14 5	Work completed.
(2) Reconstructing the Kootoopoya bridge with masonry support and iron superstructure and timber platform.	26,000 0 0	1,542 3 10	16,142 13 4	Work in progress. Iron works from Calcutta were received at the end of March 1896.
(3) Reconstructing bridge with laterite, masonry and rail-girders platform at 33/8 mile on road No. 5.	1,944 0 0	..	1,946 2 9	Work completed. The excess expenditure has been asked to be admitted in the accounts.
(4) Dismantling Kundathode arch and converting it into a rail girder bridge at 35th mile on road No. 5.	4,070 0 0	..	122 7 5	Revised estimate submitted and was awaiting Superintending Engineer's sanction at the end of the year.
(5) Reconstructing the Nellikuthu bridge with rolled-iron beams and old rails, piles, and timber planking on road No. 55.	2,700 0 0	..	504 5 7	Do. do.

37. *Communications—Repairs.*—The original budget grant under this head was Rs. 1,36,140 which, added to the subsequent allotments sanctioned from time to time by the various local boards in the district, amounted to Rs. 1,45,292. Of this sum,

Rs. 1,42,186 or 97·86 per cent. of the total allotment were spent on repairs of roads against 99·29 per cent. in the previous year. The decrease in the percentage was mainly due to—

(i) the non-completion of the works in a few cases owing to sanction to the estimates having been received by the Engineer towards the close of the year;

(ii) the liabilities on certain works completed not having been paid before the close of the year pending final inspection of the work done. Final inspection was delayed by the fact that both of the Assistant Engineers' posts were vacant for several months;

(iii) savings amounting to Rs. 611 under certain completed works of the district board; and

(iv) to the failure of the Ernad Tahsildar to utilize the sum of Rs. 250 sanctioned by the Malappuram Taluk Board for the repair of some of the village roads in his taluk.

38. *Roads.*—The mileage and the cost of roads constructed and repaired during the year under report are shown in statement IV-A. There were at the commencement of the year 1,464 miles and three and one-quarter furlongs of road including village roads in charge of the local boards. One thousand three hundred and seventy-six miles and four furlongs of road were repaired during the year at a cost of Rupees 95–2–6 per mile against Rs. 94–11–8 per mile of the previous year. No new roads were constructed during the year. With regard to the Kadalundi feeder road, the President of the Malappuram Taluk Board reports that the work remained incomplete as the question of laying concrete foundation for a culvert on the road was pending for some time and that the necessary orders were not given till the end of the year. The outlay on the road from the commencement of the work up to date is Rupees 1,146–7–1. It is hoped that the road will be completed and opened for traffic this year. As in previous years, all the roads in the district were in charge of the local boards with the exception of the Calicut-Vayitri road and a portion of the Chundale-Mysore road from the 60th to the 72nd mile which were maintained by the Public Works department. The tolls on the former road, five in number, were, as usual, managed by the district board and the net receipts derived therefrom, after deducting Rs. 1,170, the fixed contribution due to the Calicut Municipality on account of the Malapparamba toll in accordance with G.O., No. 285 L., dated 8th February 1887, were credited to the Public Works department towards the close of the year. Since 1st April 1896, the Calicut-Vayitri road has been transferred to the management of the district board in accordance with G.O., No. 1357 L., dated 1st August 1895.

39. *Village roads.*—One hundred and seventy-five miles and three and a half furlongs of village roads were repaired during the year at a total cost of Rs. 6,150–14–3 against 158 miles, and Rs. 6,027, the corresponding figures of the previous year.

40. *General condition of the roads.*—All the roads in the district with the exception of a portion of road No. 31 in the Wynaad taluk which was maintained by the Planters' Association continued to be under the A system contract during the year. With regard to this system, the Engineer reports that it has continued to work well in the main division under him which consists of the taluks of Calicut, Ernad and Wynaad where the roads are in very fair order. In the Palghat sub-division, the system has not been quite so satisfactory owing to (1) Mr. Dupen, the A system contractor, having gone to Europe for six months entrusting the work to a very junior assistant and (2) to want of strict supervision over the work by the Engineering staff. The roads in the above division are, however, reported by the Engineer to be in generally good order. As regards the A system contract in the Tellicherry sub-division, the Engineer reports that it was not altogether satisfactory owing to want of European supervision on all the roads. The district board roads, he states, were all however in very fair order except a portion of road No. 2, from Iritti to Kootoopoya, which will be thoroughly metalled within the next two years. A sum of Rs. 15,350 has been provided by the district board for the collection of metal on the above road during the current year. As regards the contract of taluk board roads, the President, Taluk Board, Tellicherry, remarks as follows.

"A system contracts were in force throughout the year, and in my opinion are a failure when applied to taluk board roads. The impression I formed after inspection was that the taluk boards were sacrificed to the district board roads by the contractors. The system is a good one with large district board roads where the chief item of maintenance is the spreading of a certain amount of gravel each year, but taluk board roads do not require such repairs. For the ensuing year, therefore, the board have decided to call for special estimates from the engineering department and then call on the A system contractors to do work on the roads in accordance with such special estimates."

The other Taluk Board Presidents report that the roads under them have been in very fair condition. On the whole, the Engineer considers that the roads in this district are in very fair and trafficable order for the allotments provided for them and the A system contract is a good one provided the contractors are kept up to the mark by the engineering staff and are good reliable men. The roads in the Palghat taluk are not well spoken of by the Vice-President. The roads, I have seen in Ernad, Walavanad and Ponnáni, were in better condition than I had been led to expect, and I consider that the Board gets very fair value for the money spent.

41. Statement IV-B exhibits the total length in miles of road avenues in the district during the year. One thousand seven hundred and twenty-seven trees were planted during the year against 1,459 in the previous year, the number that perished being 428 against 193, the corresponding figure for 1894–95.

42. *Civil Buildings.*—The expenditure under this head, including both repairs and original, amounted to Rs. 12,015 against Rs. 11,937 in the previous year as shown below:—

	1895–96.
	RS.
Schools	2,577
Hospitals and dispensaries	1,965
Choultries	1,031
Bungalows	3,869
Other buildings	2,573
Total ..	12,015

Some of the more important buildings completed or in progress during the year under report are enumerated below:—

No.	Description.	Amount of estimate.	Outlay in the previous year.	Outlay during 1895–96.	Remarks.
		RS. A. P.	RS. A. P.	RS. A. P.	
1	Constructing buildings for the Assistant Engineers' and Overseers' offices at Palghat.	2,300 0 0	688 10 11	1,611 5 1	Work completed, but accounts remain to be adjusted.
2	Constructing new officer's inspection shed at Kootoopoya.	1,928 0 0	..	201 3 2	Work put in hand late in year.
3	Constructing a halting shed at Chalaseri on road No. 74.	1,200 0 0	..	297 10 9	Sanction given late in the year; hence work not completed.
4	Constructing a new travellers' bungalow at Badagara.	2,450 0 0	..	442 9 5	Not completed. Work commenced in March 1896.
5	Constructing school-houses at Koroth and Payengatry.	500 0 0	..	200 0 0	Work could not be put in hand early owing to the delay in getting the site.

The sum of Rs. 800 provided in the budget under the Calicut Taluk Board for the construction of quarters for the hospital assistant at Tamaracherri was not utilized as the Public Works Department overseer's shed on the Calicut-Vayittri road at the above station was handed over to the taluk board for the purpose. The Wynaad Taluk Board also purchased during the year for Rs. 600, a building at Sultan's Battery, at a revenue sale for locating the local fund dispensary at that station. The above sum of Rs. 600 having been agreed to be received by the Revenue department in four annual instalments of Rs. 150 each, only the first instalment of Rs. 150 was paid for it by the taluk board during the year under report.

43. *Miscellaneous Public Improvements.*—The total expenditure under this head during the year amounted to Rs. 4,404 against Rs. 6,732 in 1894–95 as shown below:—

	1895–96.
	RS.
Markets	3,363
Avenues	859
Miscellaneous public improvements	182
Total ..	4,404

The re-construction of the Angadipuram market which was in progress was stopped by the Malappuram Taluk Board, as the work turned out in accordance with the sanctioned estimate was not found to be of sufficient durability. The President, Taluk Board, Malappuram, reports that the Engineer has been asked to prepare a new estimate on a more substantial scale and that the market will be built in accordance with it as soon as it is ready.

44. *Establishment and Contingencies.*—During the year under report, Mr. Underwood, Assistant Engineer, Palghat, was transferred to Madura as District Board District Engineer and Mr. Dods, Assistant Engineer, Tellicherry, was promoted to his place. Mr. Dods' place at Tellicherry was filled up by the appointment of Mr. Ewing (G.O., Mis. No. 1274 L., dated 20th July 1895). Mr. Ewing subsequently resigned his appointment and Mr. Dods also was appointed District Board Engineer, South Canara. Thus both the Assistant Engineerships at Palghat and Tellicherry were vacant towards the close of the official year and this mainly accounts for the decrease in expenditure on public works as compared with the total allotment. The above vacancies were, however, filled up by the appointment of M.R.Ry. N. P. Hara Aiyar Avargal to Tellicherry and Mr. Arbuthnot to Palghat—*vide* G.Os., Mis. Nos. 339 L., and 511 L., dated 19th February and 17th March 1896, respectively. The total cost of the engineering establishment including contingencies amounted to Rs. 36,317–11–2 or 18·24 per cent. of the total amount expended on public works by the engineering department against 20·86 per cent. in the previous year and 20 per cent. the prescribed maximum. The decrease of 1·76 per cent. below the prescribed limit was mainly due to the posts of Assistant Engineers, Tellicherry and Palghat, having remained vacant for some time as explained above.

45. *Public Works Department Supervision.*—The sum of Rs. 84 shown under this head represents the contribution paid to the Public Works department for the scrutiny of plans and estimates.

46. *Tolls and Ferries.*—The establishment charges under this head amounted to Rs. 349–0–7 against the budget estimate of Rs. 1,500. The large decrease under the estimate was due to the Payyóli lock alone having been conducted under amani during the year.

47. *Tools and Plant.*—The expenditure under "Tools and Plant" during the year amounted to Rs. 399–4–5 against Rs. 1,220, the budget estimate and Rs. 548, the actuals of 1894–95. There was not much necessity for the purchase of new tools under the present A system contract and hence the large decrease under the estimate. The percentage of expenditure under this head to the total outlay on public works The percentage of expenditure under this head to the total outlay on public works was ·20 per cent. against ·29 in the previous year and 1 per cent. the limit prescribed by the rules.

48. *Contribution to Provincial, Municipal and other funds.*—The following are the contributions made during the year:—

	RS.	A.	P.
I. To the Public Works Department—			
The net receipts from tolls on the Calicut-Vayittiri road which is in charge of that department	10,525	0	0

	RS.	A.	P.
II. To municipalities and private individuals—			
(1) To the Calicut Municipality on account of tolls on the Beypore-Calicut and Calicut-Vayittiri roads	1,820	5	2
(2) To the above municipality for the District Surgeon's office building	290	0	0
(3) To the Tellicherry Municipality on account of tolls on the Calicut-Tellicherry and Tellicherry-Wynaad roads..	2,593	13	6
(4) To the Palghat Municipality on account of roads passing through that municipality	550	0	0
III. To the Cochin Sircar on account of frontier ferries for 1894–95 and 1895–96	3,718	2	0
IV. To the French Government on account of Mahé toll for 1895–96	1,540	10	8
Total ..	21,037	15	4

49. *Miscellaneous.*—The sum of Rs. 6–3–3 shown under this head represents the charges incurred by the Malapparam Taluk Board in removing certain trees, and bamboos which struck against the Keranallur bridge on road No. 61.

50. *Refunds.*—The sum of Rs. 2,456–12–4 shown under this head consists of—

(1) Rs. 2,318–15–0, the amount adjusted in accordance with the instructions of the Accountant-General on account of double credit under receipts as regards sale-proceeds of avenues;

(2) Rs. 120–13–4, the amount of compensation granted by the district board to toll and ferry contractors for various reasons during the year; and

(3) Rs. 17 the fee for toll passes refunded the passes not having been granted.

51. *Grant II.*—The total expenditure of the local boards on education during the year under report amounted to Rs. 87,397–11–9 against Rs. 91,175, the budget estimate, and Rs. 85,701, the actuals of 1894–95. Statements IX and X show in detail the receipts, charges and other particulars connected with the board and aided schools.

52. *Inspection.*—The number of inspecting schoolmasters was seventeen as in the previous year, of whom eleven were for Hindu and six for Mappilla schools. Two additional Mappilla inspecting schoolmasters were sanctioned for the taluks of Ernad and Walavanad in G.O., No. 530, Educational, dated 24th June 1895, but they commenced work only from 1st April 1896, owing to the re-distribution of the sub-ranges of the Mappilla inspecting schoolmasters having been sanctioned late in the year. The work of the Hindu inspecting schoolmasters was supervised by the four Sub-Assistant Inspectors of Schools named in the margin. Muhammad Khan Sahib, the Mappilla Sub-Assistant Inspector, continued to be in charge of Mappilla education throughout the district till December 1895, when his range was split up into two, one consisting of the taluks of Chirakkal, Kóttayam, Kurumbranát, Wynaad and Calicut called the Northern Mappilla range with head-quarters at Tellicherry, and the other consisting of the remaining taluks called the Southern Mappilla range with head-quarters at Malappuram. Muhammad Khan Sahib was put in charge of the Northern range and M. Bava Sahib, one of the Mappilla inspecting schoolmasters, was appointed Sub-Assistant Inspector of the Southern range. They together supervised the work of the six Mappilla inspecting schoolmasters. The work done by the inspecting agency during the year under report is shown in statement A appended. The total charges on account of inspection during the year amounted to Rs. 9,468–5–11 against the budget estimate of Rs. 9,350. The increase over the estimate was mainly due to the travelling allowances of some of the inspecting schoolmasters, which were withheld for various reasons during 1894–95, having been paid during the year under report.

1. Sub-Assistant Inspector of Schools, Kasaragod range.
2. Sub-Assistant Inspector of Schools, Calicut range.
3. Sub-Assistant Inspector of Schools, Palghat range.
4. Sub-Assistant Inspector of Girls' Schools.

53. *Mappilla Preparatory Schools.*—As in the previous year, there were three Preparatory Mappilla Training schools at Tellicherry, Malappuram and Tirúr. They continued to be under the management of the district board and had on their rolls thirty-six students on the 31st March 1896 against thirty-four in the previous year. All the students were paid stipends from Local funds. The total expenditure on account of these three schools amounted to Rs. 2,980–14–3 against Rs. 3,223 in the previous year. The decrease was due to the services of the Hindustani munshees in these schools having been dispensed with as remarked in the administration report for 1894–95. The results of the three schools at the primary examination are shown below:—

	Number presented.	Number passed.
Mappilla preparatory school, Tellicherry	10	8
,, ,, ,, Malappuram	12	6
,, ,, ,, Tirúr	12	12

The results achieved by the Mappilla training school, Malappuram, are disappointing, while the results at the Tirúr school are creditable.

54. *Sessional Schools.*—As in the previous years, there were two permanent sessional schools in the district under full-time teachers, of which one worked in the Calicut range and the other in the Palghat range. Both these schools were under the management of the district board. They were itinerating schools, being held for four months at a time in one place. The master of each sessional school was paid Rs. 20 per mensem. The number of teachers for admission in each session of four months was restricted to ten and each teacher was paid a stipend of Rs. 5 per mensem. The sessional school in the Palghat range was successively held at Cherpalcheri, Chowghat and Alattur. Twenty-nine students were presented for the primary examination from these schools, of whom twelve passed. The sessional school at the Calicut range was held at Calicut, Manjeri and Badagara. The number sent up for the primary examination from these schools was twenty-two, of whom eleven only passed. The results achieved by both the schools are very unsatisfactory and the educational officers have not given any explanation for it. The total expenditure on account of these schools during the year amounted to Rs. 1,505–5–5.

55. *Secondary Schools.*—As in the previous year there were nine secondary schools in the district. The above number is exclusive of the two vernacular schools at Erinjolly and Pitlantavidu under the Tellicherry Taluk Board which have been classed, as in previous years, under primary schools, as they have only purely vernacular classes attached to them. The receipts and charges of each department of the secondary schools are exhibited in statement number IX. The total expenditure of these schools amounted during the year under report to Rs. 15,849–8–11 against Rs. 15,729 in the previous year. A statement showing the working of the middle schools in the prescribed form is subjoined:—

Name of schools.	Grade of schools.	Number of pupils on the 31st March 1896.	Matriculation examination.	Lower secondary examination.		Primary examination.	
				Number presented.	Number passed.	Number presented.	Number passed.
Badagara	Lower secondary grade.	96	..	15	6	20	7
Manjéri		91	..	18	13	17	14
Angadipuram		86	..	14	6	12	9
Cherpalcheri		66	..	12	12	19	9
Alattúr		156	..	22	10	32	28
Koduvayúr		106	..	20	7	20	13
Kottai		54	..	7	2	13	1
Betutnad		107	..	11	11	27	5
Chowghat		137	..	16	13	26	14

It will be seen therefore that 899 pupils were under instruction on the 31st March 1896 against 880 in the previous year. The Manjéri, Cherpalcheri, Betutnad and Chowghat schools did well in the lower secondary examination; and Badagara, Kottai and Betutnad have shown very poor results in the primary examination. It is to be regretted that the Badagara school, which showed good results last year, has fallen off considerably. There has been no improvement in the working of the Kottai school. The President, Taluk Board, Palghat, has not given any explanation for it.

I am drawing his attention to it. In accordance with the orders of Government contained in paragraph 4 (2) of G.O., No. 1952 L., dated 19th October 1895, reviewing the administration report of the Malabar District Board for 1894–95, the Presidents of Tellicherry and Palghat Taluk Boards were requested to take steps to reduce the cost of educating each pupil in the secondary schools of Badagara, Kottai and Betutnad under their management. The President of the former taluk board now reports that the Assistant Inspector of Schools, West Coast Division, who was asked to submit proposals, brought to the notice of the taluk board, that the cost of the school during 1894–95 appeared high as the salary grant of Rs. 387 appertaining to that year was not drawn before the close of the year. It would appear that if the salary grants were regularly drawn, the net cost to the taluk board of maintaining the above school would only be about Rs. 100 or even less. In these circumstances, therefore, the taluk board was of opinion that it was not worth while to reduce the pay of the teachers who are already low paid and so foster discontent among them. The scale in the Kottai school under the Palghat Taluk Board has already been reduced in the budget for the current year. With regard to the Betutnad school, the President of that taluk board reports that the proposals called for from the Assistant Inspector of Schools, West Coast Division, have not yet been received and that that officer has been requested to expedite them.

56. *Elementary Schools.*—There were, during the year under report, 245 of these schools against 304 in the previous year. Including the three Mappilla preparatory schools of Tellicherry, Malappuram and Tirúr and the salary-result schools of Erinjolly and Pitlantavidu, referred to in the preceding paragraph, the total number of schools aggregated 250. The large decrease in the number of schools was mainly due to the abolition of a number of salary-result schools towards the close of the year by the Taluk Boards of Tellicherry and Malappuram with a view to reduce their expenditure under Grant II. The total number of pupils in attendance on the 31st March 1896 in these 250 schools was 10,859 boys and 3,033 girls, against 12,877 and 3,762, the corresponding figures of the previous year. The decrease in the attendance of boys was due to the abolition of salary-result schools referred to above. Rupees 30,652–14–9 were spent by the taluk boards in the shape of fixed salary and Rs. 9,642–11–4 as result grants, against Rs. 30,238 and Rs. 10,146, respectively, in the previous year. The contingent and other charges of these schools amounted to Rs. 3,586–5–9 against Rs. 4,041 in 1894–95. The sum of Rs. 418–1–0 shown under "Servants" represents the pay of the peons appointed for conveying the salaries of board primary school teachers. The fourteen additional Mappilla schools sanctioned by Government for the taluks of Ernad and Walavanad in G.O., No. 530, Educational, dated 24th June 1895, were opened by the Malappuram Taluk Board with effect from 1st March 1896.

57. *Grant-in-aid Schools.*—There were, on the 31st March 1896, 341 of these schools against 311 in the previous year. The increase in the number of schools must be attributed to the fact that some of the board's salary-results schools which were abolished became private schools receiving aid from Local funds. The above 341 schools had on their rolls 16,311 students, against 15,688 in 1894–95. Eight thousand nine hundred and seventy-seven pupils were examined for results grant, of whom 6,481 were found qualified, against 9,989 presented and 7,458 found qualified in the previous year. Rs. 13,790–3–0 were earned as grant, of which Rs. 10,805–2–8 were paid during the year. There is a falling off of about 1,000 both in pupils presented and pupils qualified, which is very unsatisfactory and which I am quite unable to explain.

58. *Panchama Schools.*—There were ten schools during the year under the Tellicherry Taluk Board imparting instruction to Cherumas. Nine of them were in Chirakkal and one in the Kurumbranát taluk. The Cheruma pupils in these schools were educated free. Much difficulty is reported to have been experienced in working these schools. The wealthy janmies put all possible obstructions in the way of the improvement of this down-trodden class. The schools, however, are reported to have worked well in the face of all opposition, the pupils evincing natural aptitude for education. The Taluk Boards of Calicut and Malappuram also maintained the four

Cheruma schools at Mokúr, Makkada, Malappuram and Lakkiti referred to in the last administration report. The President of the Malappuram Taluk Board reports that every effort is being made by his taluk board to encourage education among these classes, that books and slates are supplied to the boys gratis, and that presents of clothes are given to the pupils who are most successful in the examinations.

59. *Purchase of Books and Commission on Sale of Books.*—The expenditure under these heads amounted to Rs. 2,158–4–6 and Rs. 321–15–3, respectively, against the budget estimates of Rs. 1,800 and Rs. 400. No satisfactory explanation can be given for the variations, as the items are always fluctuating.

60. *Refunds.*—The sum of Rs. 8–2–0 shown under this head represents the refund of fee collections in Vylankunnu school under the Malappuram Taluk Board. The amount was collected subsequent to the date on which the school was closed as a salary-result school and it had therefore to be refunded.

61. *Grant III, Local Fund Hospitals and Dispensaries.*—There was no change in the number of medical institutions during the year. There were nine hospitals with accommodation for in-patients and nine dispensaries. The question of opening a dispensary at Mannárakkát in lieu of the one at Malappuram is still under correspondence (*vide* G.O., No. 788, Judicial, dated 30th April 1896). The buildings in which the above institutions are located are reported by the District Medical and Sanitary Officer to be well built and to afford sufficient accommodation except in a few cases (Chowghat, Alattúr, Talipparamba, Kollengode and Badagara) where increased accommodation is reported to be necessary in consequence of the increasing attendance at the above institutions. The dispensary at Alattúr has been closed since the commencement of the official year in accordance with the orders of Government on the budget. As regards the other institutions, the attention of the Presidents of Taluk Boards will be drawn to this point. One thousand seven hundred and sixty-eight in- and 119,879 out- patients were treated at the above institutions during the year, against 1,535 in- and 103,054 out- patients in the previous year. The increase in both classes of patients is a sufficient indication of the spread of confidence in European medicines and is very satisfactory. The attendance at the Triprayar dispensary increased from 2,448 to 8,587—an increase which reflects great credit on the hospital assistant in charge.

62. The total expenditure on account of hospitals and dispensaries, excluding public works charges, amounted to Rs. 38,804–15–4, against Rs. 37,010 in the previous year. The decrease under the estimate in the case of "Medical subordinates" and "Clerks and servants" was mainly due to—

(1) the non-utilization of the provision for the Malappuram dispensary, and

(2) the saving effected by putting a hospital assistant in charge of the hospital at Manjéri during the absence of the civil apothecary of the above hospital on leave. The average cost of treating each in- and out- patient was Rs. 2–1–0 and As. 4–8, respectively, against Rs. 2–5–0 and As. 5–2, the corresponding figures of the previous year.

63. *Midwives.*—As in the previous year, five midwives were attached to the medical institutions named in the margin. They attended on 338 cases of labour against 343 in the previous year. The midwives attached to the Badagara and the Vayittiri hospitals attended on 31 and 28 cases, respectively, against 12 and 9, the corresponding figures of the previous year. Though there has been some improvement, the work turned out is very inadequate. As regards the midwife at Badagara, the President of the Tellicherry Taluk Board reports that an inquiry was made regarding the unsatisfactory nature of her work in 1894–95. It showed that her light work was not due to want of cases or to her neglect, but to the opposition of the country midwives and to the prejudices of the people. She was, however, distinctly made to understand by the taluk board that her continuance in service depended upon better outturn of work in future. The taluk board

1. Manjéri Hospital.
2. Vayittiri do.
3. Badagara do.
4. Chowghat Hospital.
5. Alattúr Dispensary.

has also resolved to pay her on the result system, and since then there has been an improvement in her work. As regards the midwife at Vayittiri no information has been furnished by the President, Taluk Board, Wynaad, in his report. His attention is again drawn to this matter and a special report will be called for. The midwife at Manjéri attended on 73 cases against 82 in the previous year. The decrease is reported to be due to the Mappilla outbreak towards the close of the official year, which prevented her from leaving her head-quarters. The midwives at Chowghat and Alattúr under the Palghat Taluk Board attended on 94 and 112 cases, against 145 and 95, respectively, in the previous year. The decrease in the work of the former is reported to be due to the fact that she was not so popular as her predecessor, in whom the public had greater confidence. The District Medical and Sanitary Officer has therefore been asked by the taluk board to send the latter woman back again to Chowghat, if possible. The increase in the number of cases attended by the midwife at Alattúr is satisfactory. The total charges on account of these midwives during the year amounted to Rs. 934–4–2, against the budget estimate of Rs. 960. The slight decrease under the estimate was due to the midwives at Chowghat and Manjéri who are paid partly by results having, as already remarked above, attended a smaller number of cases than was expected of them.

64. *District Surgeon's Establishment.*—The charges under this head amounted to Rs. 825–12–10 against the budget estimate of Rs. 950. The decrease below the estimate was mainly due to savings under "Travelling allowance" and "Contingencies."

65. *Cholera Charges.*—The expenditure under this head during the year amounted to Rs. 46–12–0, against Rs. 200, the budget estimate for the year, and Rs. 64, the actuals of 1894–95. The large decrease below the estimate was due to the district being comparatively free from the epidemic during the year.

66. In the budget for 1895–96 a sum of Rs. 600 was provided for compensation for quarters to the hospital assistants at the dispensaries under the management of all the taluk boards in the district in accordance with G.O., No. 1005 L., dated 6th June 1894. The President, Tellicherry Taluk Board, reports that the hospital assistants under his taluk board were paid house-rent till September 1895, when it was brought to notice that two out of the three hospital assistants did not reside within 200 yards of the institution as enjoined by the rules, and that the payment was therefore discontinued. In the Palghat Taluk none of the hospital assistants had their quarters within 200 yards from the dispensary—the limit prescribed by Government to claim payment of rent. At the instance of this taluk board, the Government was addressed with a view to relax this rule so far as this district was concerned; but Government declined to sanction the proposal (*vide* G.O., Mis. No. 652 L., dated 4th April 1896). The taluk board was therefore not able to utilise the provision under this head. The Taluk Boards of Malappuram and Wynaad were, however, paying house-rent to the hospital assistants under them as shown below:—

Hospital assistants at Angadipuram and Vaniyamkulam Rs. 3 each per mensem.

Hospital assistant at Sultan's Battery Rs. 5 per mensem.

The taluk boards have now taken in hand the question of constructing quarters for hospital assistants under them as Government has declined to relax the 200 yards restriction as remarked above.

67. The provision of Rs. 250 made for sending a female to the Lying-in Hospital at Madras to undergo training as a midwife was allowed to lapse, as no applicant came forward during the year. Since the close of the official year one Helen Aruone presented a petition to me praying that she might be sent to Madras to undergo training in the Lying-in Hospital. The petition was referred to the District Medical and Sanitary Officer who remarked that, as passed candidates were available, there was no necessity to train this woman at the expense of Local funds. The petition was accordingly rejected. The question of making provision for the education of a female hospital assistant, as suggested by the District Medical and Sanitary Officer in the concluding paragraph of his report, will be considered in connection with the next budget.

68. *Vaccination.*—The vaccine establishment remained the same as in 1894–95, and no change was effected in it during the year. The work done by the three female vaccinators is shown in the subjoined statement:—

Year.	Number of cases vaccinated.			
	Successful.	Unsuccessful.	Unknown.	Total.
1894–95	2,573	122	31	2,726
1895–96	2,132	460	78	2,670

The decrease in the number of cases was due to the unsatisfactory nature of the work done by the first-class vaccinatrix, M. Ammalu Amma, of Mannarghat division, whose services have since been dispensed with. For some months she did no work at all, owing to her pregnancy and subsequent confinement. The decrease in the number of successful cases must be attributed to the deterioration in the quality of glycerine paste supplied from the central vaccine depôt at Calicut owing to the excessive heat in summer. The following abstract compares the work done by the whole vaccine staff and the average cost per successful case, against the corresponding figures of 1894–95:—

Year.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to number vaccinated.	Cost per successful case.
				RS. A. P.
1894–95	59,546	55,045	92·44	0 3 6
1895–96	50,945	38,855	76·27	0 4 8

The large decrease in the number of cases is attributed by the District Medical and Sanitary Officer (1) to the irregular and insufficient supply of paste from the central depôt due to the small and uncertain supply of calves by the contractor who has been heavily fined for it; and (2) to the general transfer in November 1895 of all the vaccinators in the district from one circle to another. The majority of the vaccinators being natives of their respective divisions, it was found that they paid little or no attention to their legitimate work, and a general transfer among them was therefore sanctioned by my predecessor Mr. Moberly. The present District Medical and Sanitary Officer reports that vaccination is as bad as it can be in this district, and this he attributes (1) to the great aversion to vaccination which the people appear to have in the rural parts of this district; (2) to the large number of Nair and Tien vaccinators in the district to the exclusion of Mappillas and Brahmans; (3) to many of the vaccinators being too young to exercise any influence in the way of encouraging vaccination; and (4) to the laziness of the vaccinators. A notice has recently been published in the District Gazette inviting Mappilla and Brahman applicants for the post of vaccinators. The District Medical and Sanitary Officer has also been requested to issue notices to all unqualified probationers and second-class vaccinators that their services will be dispensed with in three months, if they fail to pass an examination in English within that period. The services of all the vaccinators who fail to pass the above examination will be dispensed with, and older and better educated men will be appointed in their place. By these means, and by the revision sanctioned in the current year's budget, which has already been given effect to, it is hoped that there will be material improvement in the work of the vaccinators during the current year. The decrease in the number of successful cases was due to the deterioration in the quality of paste already referred to above. The number of vaccination cases performed by the medical subordinates in charge of hospitals and dispensaries during the year was 63 against 169 in the previous year. Of these, 54 were successful, 2 unsuccessful and 7 unknown. The decrease in the number of cases was due to vaccination by the above officers having been made voluntary in G.O., No. 1066 L., dated 9th May 1892. The number of children under one year of age successfully vaccinated was 1,050 against 1,119 in 1894–95. Infantile vaccination is still very backward in the district, owing to the prejudices of the people which prevents them from getting their children vaccinated. As in the previous year, no cases of infantile vaccination were performed by the medical subordinates in charge of hospitals and dispensaries.

69. *Animal Vaccination.*—Animal lymph was manufactured in the central vaccine depôt at Calicut and supplied throughout the district. Three hundred and twenty-one calves were inoculated during the year and 35,283 grains of glycerine paste manufactured from the lymph taken from them. Out of this, 25,505 grains were issued to the local fund vaccinators, 8,522 grains to the municipal vaccinators and 1,214 grains to the medical officers in charge of jail, police hospitals and other dispensaries. The average cost per grain of paste supplied was eleven pies. The total cost of maintaining the depôt during the year amounted to Rs. 1,968–6–9.

70. *Sanitation.*—The total expenditure under this head during the year amounted to Rs. 7,558 against Rs. 7,967 in the previous year as shown below:—

	1894–95.	1895–96.
	RS.	RS.
(1) Improvement of water-supply	959	524
(2) " of village-sites	91	97
(3) Conservancy establishment	6,447	6,420
(4) Arrangements at fairs and festivals	347	271
(5) Other sanitary outlay	123	246
Total ..	7,967	7,558

The above sum of Rs. 7,558 is exclusive of Rs. 165–11–1 debited to Grant I by the Palghat Taluk Board being the cost of sinking a new well in the compound of the travellers' bungalow at Chávakkát. Thus the total amount spent on sanitation during the year was Rs. 7,724 or 87 per cent. of the total allotment against 89 per cent. in the previous year. The short outlay as compared with the allotment was due to (1) the provision for sinking a well at Kovur in the Calicut taluk not having been fully utilized, the work not being completed before the close of the year; (2) late receipt of proposals by the Palghat Taluk Board to utilize the provision under improvement of water-supply and of village-site; (3) to the dust-bins ordered by the Wynaad Taluk Board not having been received from Madras before the close of the year; and (4) to the provision of Rs. 44 made by the Wynaad Taluk Board for importation of toties not having been utilized as men of such caste were not available for service in the Wynaad even on a slightly higher rate of pay than what is now allowed. Only one new well was sunk during the year in the Chávakkát bungalow compound. Twenty-seven wells were cleaned or otherwise improved, and the watch-shed of the Jubilee tank at Badagara was repaired at a cost of Rs. 476–3–6. One watchman was employed to guard the drinking-water supply at Badagara. The sum of Rs. 97 shown under "Improvement of village-site" consists of (1) Rs. 50 spent by the Palghat Taluk Board for improving a public lane at Guruvayur; and (2) Rs. 47 spent by the Malappuram Taluk Board for removal of rank vegetation in thirteen villages under that taluk board. The number of villages conserved remained the same as in the previous year, namely 43. Ninety-six men and 25 carts were employed for the above villages against 96 and 24, the corresponding figures of 1894–95. Sanitary arrangements were made at nine places during fairs and festivals against ten in the previous year, the total charges amounting to Rs. 270–14–3. Under "Other sanitary outlay" Rs. 245–14–0 were spent as against Rs. 123 in 1894–95. The details of the above expenditure are given in statement No. XIV. The arrangements for supervising the work of the "Conservancy establishment" continued to be the same as in 1894–95, and these are reported to have worked satisfactorily during the year.

In giving effect to the orders of Government for reducing the cost of the "Scavenging establishment" in the budget for the current year, care was taken to dispense with the services of those men who had no better supervision than that of an Adigari and who were employed merely for the removal of ordinary rubbish in the villages.

71. *Public Health.*—The general health of the people has been on the whole fairly satisfactory. There were 370 deaths from cholera and 237 from small-pox against 515 and 1,068, the corresponding figures of 1894–95. The decrease in the number of deaths in both the cases is satisfactory. The total number of deaths from all causes registered during the year was 39,266 against 33,094 in the previous year. The large increase in the total number of deaths is reported to be chiefly due to fevers, bowel-complaints and other causes.

72. *Markets.*—The sum of As. 13–7 shown under this head consists of (1) As. 4 being the charges incurred by the Wynaad Taluk Board in notifying the auction sale of the Vayittiri market for the current year; and (2) As. 9–7 being the annual amount of quit-rent paid to Government by the Palghat Taluk Board for the site of the new market at Chetwai opened during the year under report.

The expenditure on account of building and repairing market-stalls has been debited to "Miscellaneous—Public improvements" under Grant I as already shown above.

73. *Choultries and Bungalows.*—The expenditure under these heads amounted during the year to Rs. 1,296–1–0 and Rs. 1,839, respectively. These amounts represent only the establishment and contingent charges of the institutions, the public works expenditure being shown against "Civil buildings" under Grant I. The decrease under the estimate in the case of choultry establishment was mainly due to the Tellicherry Taluk Board having dispensed with the services of the masalji attached to the Gunnoth chattram under its control and entrusted his work to the masalji of the local fund bungalow. The decrease in the case of bungalows, on the other hand, was due to the non-utilization by the Malappuram Taluk Board of the amount provided for the pay of two masaljies for the bungalows at Manjeri and Pandikkad.

74. *Contribution to Provincial Services.*—The contributions paid by the district board to Provincial funds for medical, sanitary and other purposes amounted to Rs. 4,077 against Rs. 3,383 in 1894–95 as shown below:—

	1894–95.	1895–96.
	RS.	RS.
(1) Medical College	2,236	2,219
(2) Sanitary inspection	1,417	1,507
(3) Medical reserve staff	230	291
(4) Cutlers' establishment	..	60
Total ..	3,883	4,077

No explanation can be furnished for the variations under these heads as the figures were those advised by the Accountant-General.

75. *Contribution to Municipalities.*—The contribution paid by the district board and the taluk boards of Tellicherry and Palghat to the different municipalities on account of hospitals during the year amounted to Rs. 8,882–12–3 against the budget estimate of Rs. 8,995. The above sum includes Rs. 542–2–8 being the amount left in arrears by the Palghat Taluk Board for the year 1894–95 referred to in the last administration report.

76. *Contribution to private individuals.*—The sum of Rs. 200 shown under this head is the usual contribution paid towards the maintenance of the Kodakkal Mission hospital in accordance with G.O., Mis. No. 2322 L., dated 21st October 1893.

77. *Refunds.*—The sum of Rs. 1,062–1–10 shown under this head consists of (1) Rs. 159–8–0 being the amount of subscription raised by the inhabitants of Quilandi town for converting the local fund dispensary into a hospital, refunded to the parties concerned owing to the proposal not being subsequently sanctioned by the taluk board; (2) Rs. 60 being the amount refunded on account of rent of lands attached to the Nadukani chattram, the amount being erroneously credited to local funds; (3) Rs. 6, the amount of compensation granted by the Wynaad Taluk Board to the Vayittiri market contractor; and (4) Rs. 836–9–10, the amount adjusted in accordance with the instructions of the Accountant-General owing to double credit as regards collections on account of bungalow fees.

78. *Grant IV.*—The total expenditure under this grant amounted to Rupees 22,694–14–11 against Rs. 24,815, the budget estimate, and Rs. 23,779, the actuals of 1894–95. The figures shown against "Controlling establishment at the Presidency" and "Printing work done at Government Press" are those advised by the Accountant-General. The decrease below the estimate against "Printing charges" was due to (1) the expenditure on some printing work done by the Malappuram Taluk Board not having been paid during the year, owing to the delay on the part of the press manager in the submission of his bill; and (2) to a less number of forms having been printed during the year. There is also decrease in the "Travelling allowance of non-official members," which was due to (1) the allowances not having been regularly drawn by some of the members, and (2) to an official member having been appointed in the Calicut taluk in the place of a non-official member whose term on that board expired during the year.

79. *Loans.*—Rs. 3,000 were paid by the district board as instalments on account of loans received from Imperial Funds and Rs. 487–2–4 as interest thereon.

IV.—ENDOWMENTS.

80. The total number of endowed institutions during the year was 25. Their receipts and charges are exhibited in statement No. VI.

V.—GENERAL REMARKS.

81. The accounts of this district for the year 1895–96 were not examined by the Inspector of Local Fund Accounts, the last inspection being in April 1895. The concise report of the District Medical and Sanitary Officer on the working of the local fund hospitals and dispensaries in the district is enclosed.

ENCLOSURE.

Dis. No. 105.

ANNUAL Concise Report of Local Fund Civil Hospitals and Dispensaries in the district of Malabar for the official year 1895–96.

Public Health.—The health of the district has, on the whole, been fairly satisfactory. Cholera and small-pox appeared in a sporadic form in some of the taluks, and only assumed an epidemic type at Quilandi for a few days. The number of deaths from all causes registered during the year was 39,266; and of these, 370 were due to cholera, 237 to small-pox, 21,100 to fevers, and 17,559 to all other causes. The total deaths registered last year was 33,094, the excess in this year being chiefly due to fevers and bowel-complaints.

2. *Vital Statistics.*—Population according to the census of 1891 was 2,474,791. Total number of births and deaths registered during the year under report was 54,613 and 39,266 against 54,113 and 33,094, respectively, in the previous year, showing an increase of 500 births and 6,172 deaths for the year under report. The ratio of births to population was 22·12 per mille, and that of deaths was 15·93 per mille.

3. *Sanitation.*—The number of conserved villages remained the same as that of last year, viz., 43. They were all kept in fairly good order. The conservancy establishments of the district consisted of one sanitary inspector, 2 sanitary maistries, 84 sweepers and 9 toties, with 25 rubbish-carts, 49 dust-bins and 13 public latrines. Remarks regarding the inadequacy of the existing staff and the insufficiency of materials, made in the concluding paragraph (11) of the last report, still hold good and the increase therein recommended still remains to be complied with. Street-sweepings and other refuse are buried or burnt in certain cases, and in others sold as manure; wells, tanks and rivers are the principal sources of water-supply. Almost all the dwelling-houses are furnished with wells near them for drinking purposes, but most of these remain unprotected. There are about 73 public wells and one tank intended for the supply of drinking-water, and three public tanks for washing purposes. To convey rain water, temporary drains are cut along both sides of the road. The absence of pucca-built drains is due to the scattered position of the houses in the district; where each house has a drain attached to it, all fluids flow into the backyards where they eventually soak.

4. *Vaccination.*—The vaccine establishment remains the same as that of last year—one deputy inspector, 1st class, 2 deputy inspectors, 2nd class, 9 vaccinators, 1st class, 2 female vaccinators, 1st class, 23 vaccinators, 2nd class, 1 female vaccinator, 2nd class, 11 probationary vaccinators and 3 peons.

The total number of cases vaccinated by the medical subordinates is 63 against 169 in the previous year; out of this 54 were successful, 2 unsuccessful, and 7 unknown. The decrease is attributable to vaccination being made discretionary under G.O., No 1066 L., dated 9th May 1892, as stated in the previous year's report. The cases operated in all by vaccinators during the year under report is 50,945 against 59,546 in the previous year; of these 38,855 were successful, 8,549 unsuccessful and 3,541 unknown. Of these, 1,050 cases under one year of age were successfully vaccinated. The decrease of 8,601 cases is partly attributable to the irregular and insufficient supply of paste from the depôt, due to the small and uncertain supply of calves by the contractor, whose conduct has been repeatedly brought to the notice of the President and who was severely fined, and partly to the recent general transfer of all the vaccinators in the district from one circle to another. The majority of the vaccinators being natives of their respective divisions, it was found that they paid little attention to their legitimate work and a general transfer among them was therefore considered necessary. Vaccination is as bad as it can be in this district, and this I attribute, as far as I have been able to judge, to—

(1) the great aversion the people appear to have to it in parts of the district;
(2) the very large excess of Nairs and Tiers to other classes of vaccinators—more Mappilas and Brahmins being needed;
(3) the very young-looking vaccinators who are more like school-boys, and it cannot be wondered at that the old women refuse to listen to their advice on the advantages of vaccination and that they are occasionally spanked by the villagers; and
(4) the laziness of the vaccinators.

The vaccine depôt consisted of one 1st-class vaccinator, one probationary vaccinator, one watchman and one sweeper. Three hundred and twenty-one calves were inoculated during the year and 35,283 grains of paste manufactured; out of this, 25,505 grains were issued to the Local Fund vaccinators and 8,522 grains to Municipal vaccinators and 1,214 grains to Medical officers in charge of Jail, Police hospitals and other dispensaries. The annual cost of the depôt was Rs. 1,968–6–9; the average cost per grain of paste, 11 pies.

5. (*a*) There was no change in the number of medical institutions during the year under report, which is 18 (9 hospitals and 9 dispensaries). They are all well-built and afford sufficient accommodation, but the buildings at Chowghat, Alattur, Taliparamba, Kollengod and Badagara require extension and improvement in consideration of the increasing attendance of patients at the above institutions.

(*b*) Repairs to buildings are carried out in time.

(*c*) Furniture in almost all the medical institutions are in good order.

(*d*) One thousand seven hundred and sixty-eight in and 119,879 out patients were treated against 1,535 in and 103,054 out patients in the previous year, showing an increase of 233 in and 16,825 out patients for the year under report. An abstract return of patients treated is herewith submitted, together with a statement showing the number of patients treated and the daily average attendance during the five years ending 1895–96.

(*e*) There were in all 198 deaths among in-patients, out of which ten were among major operations. The actual causes of mortality were due to cholera, small-pox, dropsy, lung diseases, dysentery and fever, the latter prevailing more or less in the district throughout the year.

(*f*) Three hundred and ninety-six major and 5,179 minor operations were performed during the year, as specified in the accompanying statement, against 285 major and 4,226 minor operations in the previous year, showing a marked increase of 111 major and 953 minor operations in the year under report.

(*g*) Establishments attached to each of the medical institutions are reported to be sufficient and efficient.

(*h*) Actual work done by the midwives for the year was 338 cases, showing a decrease of five cases when compared with that for the previous year. A statement specifying their work as compared with that of last year is given below:—

Names of institutions to which midwives are attached.		Number of labour cases attended during 1894–95.	Number of labour cases attended during 1895–96.
Civil hospital,	Manjeri	82	73
"	Vayittri	9	28
"	Badagara	12	31
"	Chowghat	145	94
Civil dispensary,	Alattur	95	112
	Total ..	343	338

General Remarks.—Thirteen medical institutions as specified in the statement and nine villages were inspected during the year. I regret that no steps are being taken in this district to utilize the services of a female practitioner. They are all doing such excellent work in other districts, and I am sure their services will be much appreciated here. I trust, therefore, that in the next budget the Board will be able to pay for the education of at least a female hospital assistant, if not for a female apothecary, for ultimate employment in this district.

Calicut,
2nd June 1896.

(Signed) T. J. H. WILKINS, Surgn.-Lieut.-Col.,
District Medical and Sanitary Officer, Malabar.

From the President, District Board, Malabar, dated Calicut, 26th August 1896.

ORDER—No. 1939 L., dated 19th October 1896.

The local fund receipts and charges of the Malabar district for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95 :—

—	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.

2. *Local Boards.*—The local boards met a sufficient number of times and the average attendance of the members continued to be generally good, except in the case of the officials on the district board and the non-officials on the Wynaad Taluk Board. These members should be informed that the Government expects them to be more regular in their attendance in future. The working of the taluk boards is again reported to have been satisfactory. No unions have yet been formed in this district.

3. *Receipts.*—(1) Owing chiefly to the existence of smaller arrears, the demand under land-cess fell from Rs. 2,75,306 to Rs. 2,64,755, and 92 per cent. of this was collected against 89 per cent. in the previous year.

(2) Owing to keen competition at the sale of the farms and the establishment of an additional toll-gate, the demand under tolls rose from Rs. 77,169 to Rs. 80,388, and all but Rs. 500 was collected before the close of the year. The receipts from ferries also improved slightly.

(3) There were under the control of the taluk boards twelve markets, in all of which fees were levied, against eleven in the previous year. In consequence of higher bids at the auction sales, the receipts from this source rose from Rs. 2,437 to Rs. 3,542. The charges fell from Rs. 4,796 to Rs. 3,370 and there was consequently a large balance of Rs. 3,554 in favour of these institutions at the end of the year. The Government trusts that a large portion of this balance will be utilized in the current year in improving the institutions concerned.

(4) The receipts from avenues declined from Rs. 6,477 to Rs. 4,142 owing partly to the sale of the produce, in some cases, not having been completed before the close of the year, and partly to want of competition at the sale of the leases. There was a small increase in the total number of trees, and their condition is reported to have been fair.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head rose from Rs. 1,91,295 to Rs. 2,03,953, but it was only 89 per cent. of the allotment against 93 per cent. in 1894–95. It should have been reported who was responsible for the

lack of money in the Palghat sub-division, owing to which several completed works could not be paid for within the year. The outlay on communications was 98 per cent. of the minimum fixed in G.O., No. 1686 L., dated 14th September 1895. The expenditure on village roads was Rs. 6,151 against Rs. 6,027 in the previous year, being in both cases 4·7 per cent. of the total outlay on communications. The roads in the district, with one exception, continued to be maintained on the A system of contract and are reported to have been in very fair order, considering the small allotments provided for them. The cost of the Local Fund engineering establishment fell from 21 to 18 per cent. of the outlay on works, the decrease being due mainly to the posts of both the Assistant Engineers being vacant for a considerable period

(2) *Education.*—As in the previous year, there were 17 inspecting schoolmasters and their work appears to have been, on the whole, fair The district board continued to maintain three preparatory Mappila training schools which were attended by 36 students against 34 in the previous year, and of these 34 applied for and 26 passed the primary examination. The average cost of educating each successful student rose from Rs. 71 to Rs. 100. These schools, however, have been ordered to be closed in the current year. There were, again, two sessional schools in the district, and they worked at three centres each in succession. The total number of students trained in these schools has not been reported, but 51 were sent up for the primary examination and only 23 passed. No explanation has been offered for this unsatisfactory result—an omission which should be supplied. The taluk boards continued to maintain nine secondary schools, which were attended by 899 pupils against 880 in the previous year. The Manjéri, Cherpalcheri, Betutnad and Chowghat schools were very successful in the lower secondary examination, but the results of the Koduvayur and Kottai schools were again bad. In the primary examination all the schools, except those of Badagara, Betutnad and Kottai, fared well. The President is requested to report the steps which the taluk board proposes to take to improve the condition of the Kottai school. There were 247 board primary schools with an attendance of 13,856 pupils, against 306 with 16,605 pupils in 1894–95, the decrease being due to the abolition of many of the schools, with a view to reduce the expenditure on education. The progress made by these institutions appears to have been fair, 67 per cent. of the pupils who appeared for the standard examinations having passed against 69 per cent. in the previous year. The number of schools aided with result grants, which were paid at the maximum rates, rose from 318 to 349, and of these, 341 with 16,311 pupils were in existence on the last day of the year, against 311 with 15,688 pupils in 1894–95. The taluk boards maintained 14 schools for the benefit of Cherumas against 12 in the previous year, and they are reported to have worked well in the face of much opposition. The numbers of pupils attending these schools and of pupils who are successful in the examinations, should be reported in future. The total number of boys under instruction in the schools maintained and aided from local funds was 13·9 per cent. of the male population of school-going age against 15·8 per cent. in the previous year.

(3) *Medical Relief.*—As in the previous year, the local boards maintained nine hospitals and nine dispensaries, and there was a considerable increase * in the number of patients treated at them. There were again five midwives and they attended in all 338 cases of labour, or on an average six each per mensem, as in the previous year. The work of the midwives at Badagara and Vayittiri showed some improvement, but was still unsatisfactory. Every endeavour should be made to secure better results in the current year. No steps were taken towards the medical education of women, but it is reported that the question of making provision for the training of a female hospital assistant will be considered in connection with the budget for 1897–98.

* 1894–95	104,589
1895–96	121,647

(4) *Vaccination.*—The work of this department showed a further decline, the number of successful operations being 16 per mille of the population against 22 in 1894–95 and the percentage of success fell from 92 to 76. The number of successful operations on children under one year also fell from ·5 to ·4 per mille of the population, and, compared with the registered births of the year, only 2 per cent. of the children born during the year were successfully protected from small-pox. The causes of this unsatisfactory state of affairs are explained in paragraph 68 of the President's report, and it is hoped that the revision of the vaccine establishment lately sanctioned by Government and the steps taken by the President to secure a better class of vaccinators will tend to material improvement in the current year.

(5) *Sanitation.*—Excluding Rs. 216 debitable to Grant 1, the expenditure under this head fell from 89 to 84 per cent. of the allotment. The short outlay is explained in paragraph 70 of the President's report. No new public wells were sunk, but 27 existing sources of water-supply were repaired or otherwise improved against 46 in 1894–95, and rank vegetation was removed in 13 villages against 7 in that year, while the number of places provided with conservancy establishments continued to be 43.

5. *General Remarks.*—The year closed with a balance of Rs. 63,857, of which Rs. 5,655 appertained to endowed institutions leaving Rs. 58,202, or nearly 13 per cent. of the receipts, available for general purposes. The greater portion of this sum should be spent on the improvement of roads in the current year.

Except as regards vaccination which demands special attention, the administration of the local boards continued to be generally satisfactory.

2. Local Boards: The Local Boa
met a sufficient number of times a
average attendance of the members contin
be generally good, except in the case of the
ficials on the District Board and the
officials on the Wynaad Taluk Boa
These members should be informed th
Government expects them to be more
in their attendance in future. The working of th
Taluk Boards is again reported to have
been satisfactory. No unions h
yet been formed in this district.

3. Receipts (1) Owing chiefly to
existence of smaller arrears, the de
under land cess fell from Rs 275
to Rs 264,755, and 92 per cent of
was collected against 89 per cent
previous year.

(2) Owing to keen competition
the sale of the farms and the esta
ment of an additional toll ga
demand under tolls rose fro
Rs 77,169 to Rs 80,388 and all
Rs 500 ~~of the latter amount~~ was
lected before the close of the ye
The receipts from ferries also improved slightly

(3) There were 12 markets u
the control of the Taluk Boards a
of them again

in the previous year. In consequence of higher bids at the auction sales, the receipts from this source rose from Rs 2437 to Rs 3542. The charges, however, fell from Rs 4796 to Rs 3370 and there was consequently a large balance of Rs 3554 in favour of these institutions at the end of the year. The Government trusts that a large portion of this balance will be utilised in the current year in improving the institutions concerned.

(4) The receipts from avenues declined from Rs 6477 to Rs 4,142, owing partly to the sale of the produce, in some cases, not having been completed before the close of the year and partly to want of competition at the sale of the leases ~~in the remaining cases~~. There was a small increase in the total number of trees and their condition is reported to have been fair.

4 Expenditure (1) Public Works
The expenditure under this head rose from Rs 191,295 to Rs 203,953, but it was only 89 per cent of the allotment against 93 per cent in 1894-95. The

---

~~The~~ It should have been reported who was responsible for the lack of money in the Palghat Sub division, owing to which several completed works could not be paid for within the year.

~~with the estimate,~~ offered in para
of the President's report cannot
~~considered satisfactory. This is to be~~
~~gretted that~~ The outlay on Commun
cations was ~~~~ 98 per cent of t
minimum fixed in G.O. No 16
dated 14th September 1895.
expenditure on village roads w
Rs 6,151 against Rs 6027 in the pre
vious year, being in both cases ~~and continued~~ to be
per cent of the total outlay on Co
munications. The roads in the
trict, with one exception, continu
to be maintained on the A. sys
of contract and are reported
have been in very fair order. Co
sidering the small allotment
vided for them. The cost of the
Fund Engineering Establishmen
from 21 per cent to 18 of the outlay on
works, ~~to 18 per cent~~, the decrease being d
mainly to the posts of both t
Assistant Engineers ~~having~~ re
being a considerable p
~~at~~ vacant for ~~sometime~~.

(2) Education. As in the pre
year, there were 17 inspecting

to have been on the whole, fair. The
District Board continued to maintain
three preparatory Mappila training schools
which were attended by 36 students
against 34 in the previous year and
of these, 34 applied for and 26
passed the primary examination.
The average cost of educating each
successful student rose from Rs 71
to Rs 100. These schools, however, have
been ordered to be closed in the
current year. There were again two session-
l schools in the district ~~as in the~~
~~revious year~~, and they worked at
hra centres each in succession. The total
number of students trained in
these schools has not been re-
orted, but 51 students were sent up
the primary examination and
y 23 passed. No explanation has
een offered for this unsatisfactory
ult, an omission which should be
plied. The Taluk Boards con-
ued to maintain nine secondary
hools, which were attended by
99 pupils against [illegible] in the

Para. 4 (3) of G.O. No 515 L. D/17-3-96.

previous year. The Manjeri, Cherpa
Cheri, Betutnad and Chowghat
Schools were very successful i
the Lower Secondary examinati
but the results of the Koduvay
and Kottai Schools were aga
bad. In the primary examinat
all the Schools, except those o
Badagara, Betutnad and Kot
fared well. The President is reque
ed to report the steps which th
Taluk Board proposes to take
improve the condition of the Ko
School. There were 247 Board
primary Schools with an attend
of 13,856 pupils against 306
16605 pupils in 1894-95, the d
crease being mainly due to the abolition
many of the Schools, with a view to
duce the expenditure on education
progress made by these ~~Schools~~ institution
pears to have been fair, 67 per
of the pupils who appeared for
standard examinations having
against 69 per cent in the prev
The number of Schools

aided with result grants which were paid at the maximum rates, rose from 318 to 349, and of these 341 with ~~an attendance~~ of 16,311 pupils were in existence on the last day of the year, against 311 with 15,688 ~~pupils respectively~~, in 1894-95. The Taluk Boards maintained 14 Schools for the benefit of Cherumas against 12 in the previous year and they are reported to have worked well in the face of much opposition. The numbers of pupils attending these schools and the number of those successful should be reported in future. The total number of boys under instruction in the schools maintained and aided from Local Funds was 13.9 per cent of the male population of schoolgoing age against 15.8 per cent in the previous year.

(3) Medical Relief. As in the revious year, the Local Boards ain tained nine hospitals and nine pensaries and there was a con- rable increase in the number of

patients treated at them. There w again five midwives and they atten ed in all 338 cases of labour or on an avera six la per mensem, as in the previous ye The work of the midwives at Bad gara and Vayittiri showed some improvement, but was still un factory. ~~and~~ Every endeavour sh be made to secure better results the current year. No steps wer taken towards the medical edu of women, but it is reported th the question of making provisio the training of a female hospi assistant will be considered connection with the budget f 1897-98.

(4) Vaccination. The work this department showed a fu decline, the number of successf operations being 16 per mill the population against 22 in and the percentage of success from 92 to 76. The number of cessful operations on child under one year also fell from

and, Compared with the registered
births of the year, only 2 per cent of
the children born during the year
were successfully protected from
small pox. The Causes of this un-
satisfactory state of affairs are
explained in para 68 of the
President's report and it is hoped
that the revision of the vaccine
establishment lately sanctioned
by Government and the steps
taken by the President to secure
a better class of vaccinators will
lead to material improvement in
Current year.

(5) Sanitation. Excluding
216 debitable to Grant I, the
enditure under this head fell
89 to 84 per cent of the allot-
. The short outlay is explain-

Statement No. III, giving particulars as to the qua

instruction to children of school-going age in the ard for the year 95-96.

PERCENTAGE.		
	Girls.	REMARKS.
	5	Native Christians and Muhammadans shew a decrease of 8 and 24 girls, respectively. This is explained by the decrease in the number of pupils of those classes of the Community in the Mappila Schools generally. The decrease of boys under Non-Brahmin Caste Hindus is due to the ~~closing~~ closure of three Hindu Schools.

ouncils concerned before the 1st May.
