Sir,

I
In reply to your Ref: on Cur:
1360/DB dated 6. 7. 96. I have the honour to say
I have introduced no change of system,
support of which I beg to forward you a ma
at site-statement for the month of Augus
so that why it should now in 1896 be said "
the only justification for the entertainment
an additional clerk, lies in the increase
work necesitated by a change of syste
introduced by the Engineer apparently on
own responsibility" is more than I can

understand. We have a yearly audit by the inspecting account staff and as far as I am aware; they have approved of the furlong system.

The furlong system is a great check and most useful for work purposes and moreover it has been working well for the last 16 years.

There is no doubt that all our accounts have increased but to say on the materials-at-site statements is incorrect.

Sir,

In reference to letter No.
dated 16th June 1896 from the Accountant-Gen
forwarded with your endorsement No. $\frac{1360}{DB}$ of
July 1896 for my remarks, I have the honour
state that 3 Causes were assigned in my
letter No. $\frac{138}{and}$ d/95 for the entertainment of th
Additional Audit Clerk:-

(1) the Additional work due to the spec
institutions maintained by this District Boa

fication of the Service Registers of
loyés whose appointments were rendered
le under G. O. No. $\frac{2533\ L\ (L\ \&\ M)}{5.\ 12.\ 96}$; the
nce of additional Registers to watch the
and punctual payment of their pensionary
ions to the Provincial Funds and the
tion of their pension applications, and
t that the receipts and charges under
Funds being such as would render this
a first class one instead of the second
e as it now stands classified.

In his letter under reference
Accountant General plainly admits
e special institutions referred to in
e, do entail additional work but he
that it is not sufficient to fully
the time of the additional Clerk
[illegible]

January 1896. He does not however state how
additional work involved by the two other
can be efficiently discharged without the a
aid - not to say of the general increa
work since the last reorganization of the
establishment, consequent upon the forma
of 14 additional Union Panchayats, 8 ho
and Dispensaries, 2 lower Secondary Scho
and 118 Primary Schools.

3. As regards the maintenance of me
Accounts and vouchers for the collection a
spreading of metal in detail of furlon
I beg to state that there are only a ve
few quarries in the district and that Con
-quently metal has, in the case of man
roads, to be carried over a long distance
As a matter of fact the Conveyance
charges form the [illegible]

road metal in this District and it is probably
to exercise a close scrutiny and control over
this important item of Grant I expenditure that
accounting by furlongs was insisted upon by
the District Board Engineer.

. In the circumstances explained by the Treasury
ector, the undersigned considers that the entertain-
of the additional clerks is indispensable
would otherwise not only hinder the progress
in the Audit office but also interfere with
lection of Unions.
