To. The Chairman
Municipal Council
Kumamaguchi

Sir,
With reference to your endorsement
no. 219 requesting us to report on the
6.7.96
letter of the Executive Engineer Nagapa-
tam, demanding Rs 600 being the value
for water supplied to municipal
tanks through the municipal channel
we have the honor to report as follows:-

(11). That plans & estimates were duly prepared by the D.P.W. authorities in 1868 & submitted to the Municipality for sanction. They sanctioned the project after considering the subject pro & con & submitted the scheme for

various Panani, supplying pure water
to the whole town by means of pipes
at the very door of the inkal tanks
as suggested by the Sanitary-
Commissioner in his inspection
report for 1893.

(8) Further, the demand is unjust
& indefensible as the river Dadavar
is a natural stream & not an
artificial one as supposed by
S. P. W. authorities.

(9) The demand of Rs 609 for a year
is the interest of Rs 20000 yearly
at the 3% per cent - the rate of Govern-
ment interest.

(10) The Council may as well allot
a sufficient sum for a water
work of unquestionable purity
on the principles of present
Sanitary Science by open subscription
loans rather than pay Rs 609 the

the interest of Rs 20000 for a
supply of very doubtful purity.
(11) Rate demanded is excessive &
we recommend that the Govern-
ment be requested to levy only
nominal rates if concession is
impossible on the points & arguments
raised in the above para's.

In conclusion, we recommend to
the Council that the above reasons
be communicated to Government
for its order before payment is
made. Enclosures ^{are} herewith returned.

We have &c
