SIR,

In returning herewith Current Nos 2427 and 2429 Local and municipal, dated the 12th September 1896 referred to me for remarks as to the necessity of modifying the municipal byelaw No 27 in Conformity with the wishes of the Ryot population of Bezvada, I have the honor to state that, I have consulted a few officers as to the necessity for the byelaw and as to the effect, if any, which nose strings may be expected to have on the spirit or efficiency of bullocks. Three native officers who either are natives of Southern districts or have passed much of their service there consider the byelaw salutary and necessary and say that nose strings have no injurious effect on bullocks. Of two officers, natives of the Kistna District, one while admitting the advantages of nose strings, contends that they impair the animal's spirit; the other denies that nose strings serve any good purpose.

2. I am informed that the local objection to nose strings is due to the practice of sending bullocks for pasturage to waste lands more or less covered with bushes, in which the strings are liable to get entangled.

3. The protest from Bezvada is attributable no doubt to the fact that 54 persons were prosecuted in Bezvada during 1895 for non-compliance with the Byelaw. In Guntur in the same year there were five accidents caused by bullocks getting out of control, the animals in each case being unprovided with nose strings and in one of these cases a child's life was sacrificed.

4. The Bezvada streets are in

very narrow and often

2

are natives of

passed much of their

necessary that draft animals should be under thorough control. I deprecate any alteration of the byelaw as uncalled for, and dangerous.

Sir,

I have the honor to enclose herein a copy of resolution No $\frac{1}{13.1.96}$ of the Municipal Council Bezwada against the Bye-law No 27 published in G.O No $\frac{1136\ M.\ Mis}{28.8.93}$

2. The Ryot population presented a Mahazar petition complaining that the said bye-law works very hard and injuriously with their ploughing cattle. They own cattle and use them for ploughing and drawing purposes. It is difficult to distinguish them and sometimes they use the same cattle for both purposes.

3. I further beg to point out that nose-strings are necessary for drawing cattle to check them and keep them under restraint when they pass and re-pass in a busy town like Bezwada where much traffic is carried on.

4. There is a prevalent feeling among the agricultural classes that nose-strings will seriously injure the cattle and deprive them of their spirits and this is a matter which the experts can speak authoritatively.

5. The same bye-law prevails in the neighbouring municipalities of Guntur and Ellore but it is inoperative and remains a dead-letter.

6. Under the above circumstances I beg to request to reconsider the bye-law and make the necessary modification after ascertaing the opinion of experts.
