To

His Excellency

The Governor of Madras.

The humble petition of the undersigned native inhabitants of Coonoor respectfully showeth that:—

Requesting that an unpaid honorary Chairman with allowance be appointed, that more sanitary inspectors be appointed than the one who cannot execute his duties fully without aid, that experienced clerks be in charge of the office, that the Municipal area be divided into wards with a Councillor residing therein for each—to be elected by the people themselves; and that the Forest Department allot more free lands for cattle grazing.

(1) The Municipality is rather small and hence too poor to have a paid Chairman on a salary of Rupees 200/- a month; the money saved by the appointment of an honorary Chairman would be enough to execute all the public and sanitary works in the native quarters for which the Council consisting mostly of Europeans almost always says it has no money and simply records the numerous petitions praying for them.

(2) A cursory inspection of the native town and of it, the Mission Hill in particular

would

the necessaries of life to some other inoffensive place.

(4) The Petitioners also pray that Your Excellency will be kindly pleased to order the Forest Department to allot a few free-grazing grounds for our cattle and not to reserve them all and levy fees as they do at present.

(5) For these kindnesses the Petitioners will ever be thankful and pray that God Almighty in His infinite Mercy would bestow upon Your Excellency's good and unfailing health and a long and happy life here below and everlasting bliss above in the next.

To

The Governor of Madras

The humble petition of the undersigned native inhabitants of Coonoor respectfully showeth that:—

Requesting that an unpaid honorary Chairman with allowance be appointed, that more sanitary inspectors be appointed than the one who cannot execute his duties fully without aid, that experienced clerks be in charge of the office, that the municipal area be divided into wards with a Councillor presiding therein for each — to be elected by the people themselves and that the Forest Department allot more free lands for cattle grazing.

(2) A cursory inspection of the native town and of it, the Mission Hill in particular would

would reveal the open and dirty water course and its very scanty supply, the badly metalled and insanitary roads, and the stinking drain by their sides, the high lanes dangerously narrow and slippery during the rains, the smoky and insufficient lights, the filthy dust bins seldom cleared and the few latrines for the public ill-maintained.

(3) In addition to the abolition of the paid Chairman, the Petitioners humbly pray that to remedy the evils above mentioned & others Your Excellency will be kindly pleased to order (1) the division of the Municipal area into wards with a Councillor residing therein for each - to be elected by the people themselves; (2) the appointment of three or more Sanitary Inspectors on a far lower pay in the place of the only one who draws a very high salary; (3) the introduction of experienced men in the present staff; (4) the execution of works, public, Sanitary and lighting by local Contractors instead of departmentally as till now; (5) equal care and vigilance for the Native quarters as for those of the Europeans; (6) the piping of the drinking water for which tax is already being collected for the last two years and (7) the removal of the beef-butchers market from the shandy where Caste people have to purchase all

the

the necessaries of life to some other inoffensive place.

(4) The Petitioners also pray that Your Excellency will be Kindly pleased to order the Forest Department to allot a few free-grazing grounds for our cattle and not to reserve them all and levy fees as they do at present.

Of these the following persons Viz Nos 3, 23, 30, 32, 36, 37, 39, 43, and 45 say they know nothing about the contents of the petition: their explanation is, that a piece of blank paper was brought to them, and their names obtained. On enquiring what was the object of this, they were told "oh! nothing much, just a petition asking for more lights, drinking water, and better roads." On this representation they signed the blank paper. They now inform the Committee, they would have refused to sign the petition as it now is, had they seen it. How many others there may be, who ~~may~~ [illegible] have signed under similar misrepresentation it is impossible to say.

3 The Committee after a patient hearing which lasted from 9 AM to 11.30 AM have come to the conclusion that many of the complaints are exaggerated and uncalled for, that the "stinking drains" and "insanitary roads" would not exist, if the people of the native portion of the town would only use the latrines provided for them. The petitioners say, that the smell comes from people "obeying the calls of nature" that is excreting on the sides of roads, and in drains. The Council would bring to the notice of H. E. the Governor in Council that during the past official year no less than 411 natives were fined by the authorities for committing nuisances of the kind referred to. Many more would have been convicted and fined, were it not for the restriction which makes conviction difficult, Viz producing witnesses. This in the case of the Police is unnecessary as the word of the Police Constable, is sufficient to ensure conviction.

4 The next point considered was, that of appointing an Honorary Chairman. In the opinion of the Committee there seemed to be a great deal of confusion relating to the duties of a Chairman in the minds of the petitioners. The nature of these duties was explained to the signatories, they were then asked if they thought any one knowing what he had to would undertake the work gratuitously. They equivocated, and refused to give any reply to this

question, and merely suggested that the post should be "gazetted" and that a carriage allowance should be allowed of Rs 50 per mensem. A proposal was also made, that there should be no head clerk, but a "Manager and Secretary" combined, on a salary of Rs 75 per month appointed, who would be required to provide a security of Rs 1,000. The Committee is against any such changes & being carried out, and would point out the excellent work done by the present Chairman, whose salary considering the work he has to do, and the responsible charge he holds cannot be considered exorbitant, nor would it be reasonable to expect that any competent or suitable person could be found for the small sum of Rs 50 per month.

5. The next complaint was that the Council consists & mostly of Europeans. This is entirely the fault of the natives, who have been repeatedly asked to send a representative. this they persistently neglected to do, and it was only after the greatest trouble and persuasion by the present Chairman Mr Marjoribanks that the three native gentlemen now on the Council were induced to become Councillors. Vacancies have been left open for months waiting for a native member.

6 It was explained to the petitioners that the water scheme was now under consideration, and that probably within a short while, piped water would be used all over Coonoor. This of course meant that they would have to pay a higher tax later on.

7. In reply to para. 3 of the petition the Committee would make the following replies:

(I) It is not advisable considering the small population of Coonoor - 6049 - according to the last Census - to introduce the voting of Councillors. Out of the many signatories that attended today, very few, not more than 3 or 4, understood any English, and had very crude ideas as to the duties of a Chairman, or Councillor in general. -

(II) The appointment of more Sanitary Inspectors would ~~would~~ [illegible] no doubt be most advisable. Good men are not procurable on small salaries, and it would not be prudent to reduce the salary of one good man in order to provide the services of three or four indifferent men. When funds are available the number can be increased. This proposal has already been made by the Sanitary Commissioner

(III) On being requested to state what fault the petitioners had to find with the present staff, they said "none", they are all very "experienced". The complaint in this respect was therefore uncalled for.

(IV) It is most inadvisable to give out everything on contract. The lighting in former years was done by contract, but was so very unsatisfactory that it had to be done by departmental agency. All work that can be done by contract, and so done satisfactorily, is carried out in this way. The proposal made by the petitioners that the Municipal Carts and bullocks should be sold, and that the cleaning be done by contract is most absurd, and would not be advisable, as there would be endless trouble as to the loading of carts and the proper cleaning of the streets.

(V) The same care and trouble, are taken with the native quarter, as taken with the European portion of the town.

(VI) The Sub Committee propose that a screen of corrugated iron be erected to hide the front of the beef butchers stalls from the view of those buying vegetables. The space available here is very narrow and the butchers will probably object to the screen. If there is no objection, the screen will be erected.

(VII) A proposal was made by the petitioners that the foot paths should have stone steps at intervals and the paths well metalled. This is being attended to as far as practicable. There are at present over 30 miles of roads to be maintained with an allotment for ~~of~~ the past year of Rs. 6500 or giving an average of Rs. 17½ per mile per month, an allotment by no means excessive when it is considered what high wages have

to be paid for labour employed, and high rates for materials purchased.

(VIII) No tax is imposed for lighting the town. The total number of lights maintained within the Municipality is 90 of which 6 were erected in 1893. 6 in 1894. 2 in last year, and 2 in this showing steady progress.

(IX) The question of enlarging the grazing area for petitioners' cattle must be decided by the Officers of the Forest Department, and is not a Municipal question.—

2. Para 1. of Petition. In my opinion, an efficient Honorary Chairman could not be found.

3. Para 2. A scheme for a sufficient and piped water-supply is under Elaboration; the roads seem to me well-metalled and not insanitary; I have not found the road-drains to stink; Some of the lanes are indeed high, narrow and slippery, but so far as this Can be remedied the petitioners must have patience; if the lamps smoke and are insufficient, the Council may be trusted to do its best to effect improvement; in the state of the dust-bins Coonoor Compares favorably with other places; I did not examin' so

the latrines, but their number might properly be increased.

4. Para 3 (i) Such defects as there are can be remedied under the existing system as funds permit, without the election of ward-Councillors. Even the Constitution of nominated members as ward-Councillors is hardly necessary in this Municipality which, though highly important, has its native quarters so concentrated that they can easily be inspected by the Chairman. The system of election would be highly out of place in this small Sanitarium, the circumstances of which are peculiar. At present a respectable body of Councillors are obtained, but I doubt whether one of them would submit to the necessity of soliciting votes in the bazaar.

(ii) The Sanitary Inspector gets Rs 80, not a rupee too much considering his powers and responsibilities. To have three or more on a pay of Rs 20 or 25 would simply mean inefficiency and corruption.

(iii) The Council is quite alive to the advisability of having experienced men on its staff. The Public works Overseer for example was formerly Local Fund Overseer.

(iv) The impolicy of having all works indiscriminately carried out by contract is exposed in para ~~7(ii)~~ 7(iv) of the Sub-Committee's Report.

(v) I have carefully inspected a considerable part of the native town, and I see no reason to think that it is neglected in favour of the European quarters.

(vi) A pipe supply scheme is under investigation.

surveyor being now at work.

(vii) The beef stalls should certainly not be removed from the market. They are at one side of it, and are to be screened off.

5. As to free grazing-grounds Petitioners should, it is submitted, address the District Forest officer in a separate communication, and if the reply is unfavorable, appeal to the Board of Revenue. But so far as Municipal matters are concerned, I would urge that no grievance has been shewn which the council under its present organization and as far as its finances permit, is not able and willing to remedy.

3. At this meeting a Sub Committee was appointed to enquire into the alleged grievances of the petitioners, and a notice was circulated to them to send a deputation to meet the Sub Committee at the Municipal Office on the 9th October 1896. The Sub Committee assembled on the date fixed and twenty three of the petitioners attended.

4. The Sub Committee after a long and patient enquiry into all the matters contained in the petition have recorded the result in their proceedings a copy of which is herewith submitted. Enc N°2.

5. The Municipal Council at its meeting held on the 23d Instant fully concurred in the Sub Committee's proceedings as will be seen from an extract from the Council's proceedings of the said date, (resolution N°I) Enc N°3. The Collector, Mr Tremenheere, was present at this meeting but did not vote on the resolution stating that he would express his views on the petition and its accompaniments when forwarding them to the Government.-
