Please see the note marked in pencil on the 4th page of the indent.

I think this indent of Dr. King's amounting to 111-10-6 ought to be checked. I cannot do it & it appears to me we ought to ask the Surg. Genl. to go through it & check it, referring if necessary to Dr. K. for expln of the necessity.

A "Science lantern" for £7-10 may for all I know be a necessary of life to the Sanitary Comm^y but I don't see why. A.A. 27. 10.96.
